Acknowledgements

Responsive Management would like to thank Lisa Weiss of the Jacques Cousteau National Estuarine Research Reserve and Janice McDonnell and Michael De Luca of the Institute of Marine and Coastal Sciences for their input, support, and guidance on this project. Responsive Management would also like to thank all of the agency/organization staff who took the time to complete the survey.

TABLE OF CONTENTS

Volume 1

Needs Assessment.....	1
Summary of Findings of Needs Assessment.....	1
Introduction and Methodology for Needs Assessment.....	6
Issues on Which Individual/Organization Focuses.....	8
Participation in Coastal Resource Professional Development Programs.....	11
Costs of Coastal Resource Professional Development	
Programs that Respondent Attends.....	19
Familiarity with Coastal Resource Professional Development Programs.....	26
Interest in Participating in Coastal Resource Professional Development	
Programs, Issues of Interest, and Coastal Training Needs.....	32
Interest in Participating in Coastal Resource Professional	
Development Programs.....	32
Issues of Interest.....	36
Coastal Training Needs.....	42
Ratings of Various Formats for Coastal Training and Effectiveness of	
Various Learning Techniques.....	95
Ratings of Various Formats for Coastal Training.....	95
Effectiveness of Various Learning Techniques.....	101
Encouraging Participation in Coastal Resource Professional Development Programs ..	107
Incentives to Encourage Participation in Coastal Resource	
Professional Development Programs.....	107
Best Dates, Times, and Registration Structure to Encourage Participation	
in Coastal Resource Professional Development Programs.....	113
Effectiveness of Various Modes of Transmitting Information About	
Coastal Resource Issues.....	119
Gender of Respondents to Needs Assessment.....	125
Market Inventory.....	126
Summary of Findings of Market Inventory.....	126
Introduction and Methodology for Market Inventory.....	131
Name, Type, and Structure of Organization.....	134
Coastal Resources Outreach/Education Programs Provided/Offered.....	145
Programs Provided/Offered.....	145
Coastal Resource Training Programs Provided by Coastal Resource Training	
Providers (Listed Alphabetically).....	146
Formats and Delivery Methods of Coastal Training Provided.....	158
Characteristics of Outreach/Education Sessions.....	164
Individuals and Organizations that Use Coastal Resources	
Outreach/Education Programs.....	170
Familiarity with Coastal Training and Research.....	176
Evaluation and Ratings of Coastal Resources Outreach/Education	
Programs Provided.....	178
Providers' Perception of Coastal Training Needs.....	183

TABLE OF CONTENTS (continued)

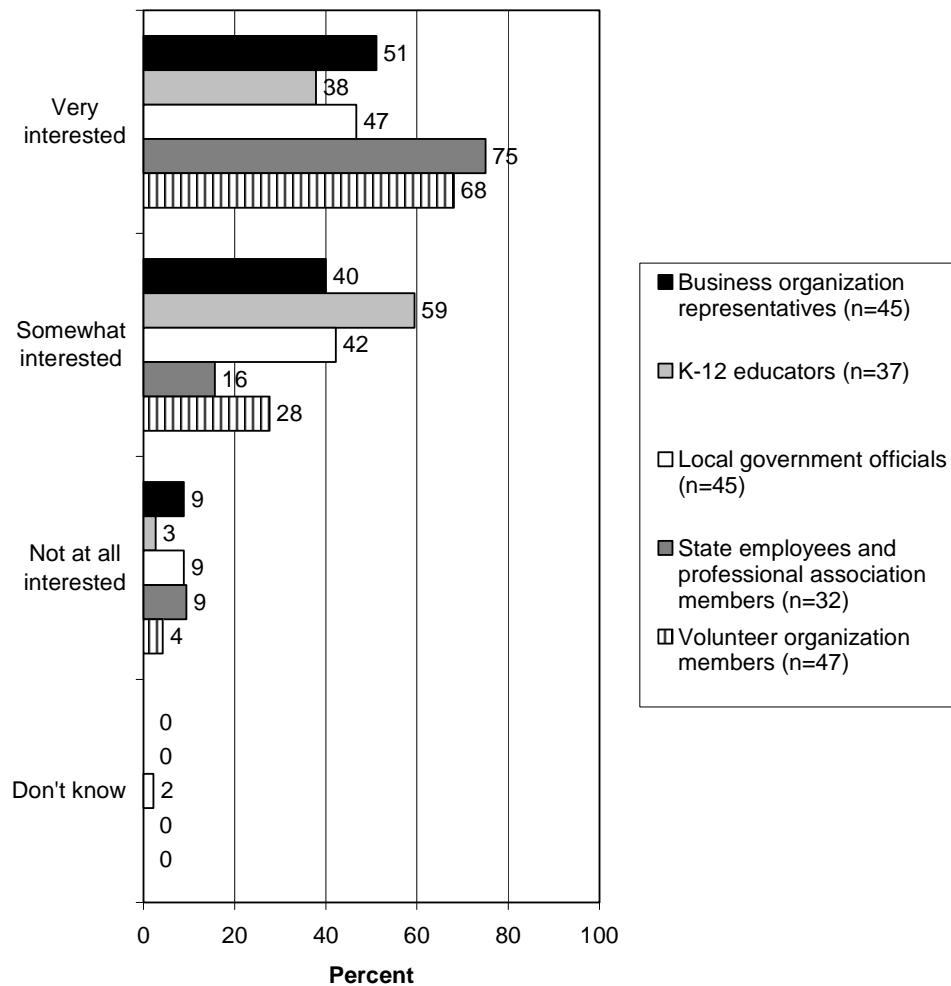

Partnering with Other Organizations.....	194
Organizations that Provide Coastal Training	204
Organizations that Do Not Conduct Coastal Resource Professional Development.....	249
Comparison of Needs Assessment and Market Inventory	255
Methodology	255
Familiarity with Jacques Cousteau National Estuarine Research Reserve	257
Perceived Needs for Training.....	258
Formats for Training	278
Notification of Training and Information Dissemination Methods	282
Fees for Coastal Training Sessions	285
Recommendations and Implications	286
Increase Training.....	286
Topics/Skills Areas	286
Target Markets	294
Partnerships	298
Coastal Training Administration.....	298
Information Dissemination.....	299
Volume 2	
Appendix A: Survey Instruments.....	301
Volume 3	
Appendix B: Additional Graphs.....	494

APPENDIX B: ADDITIONAL GRAPHS

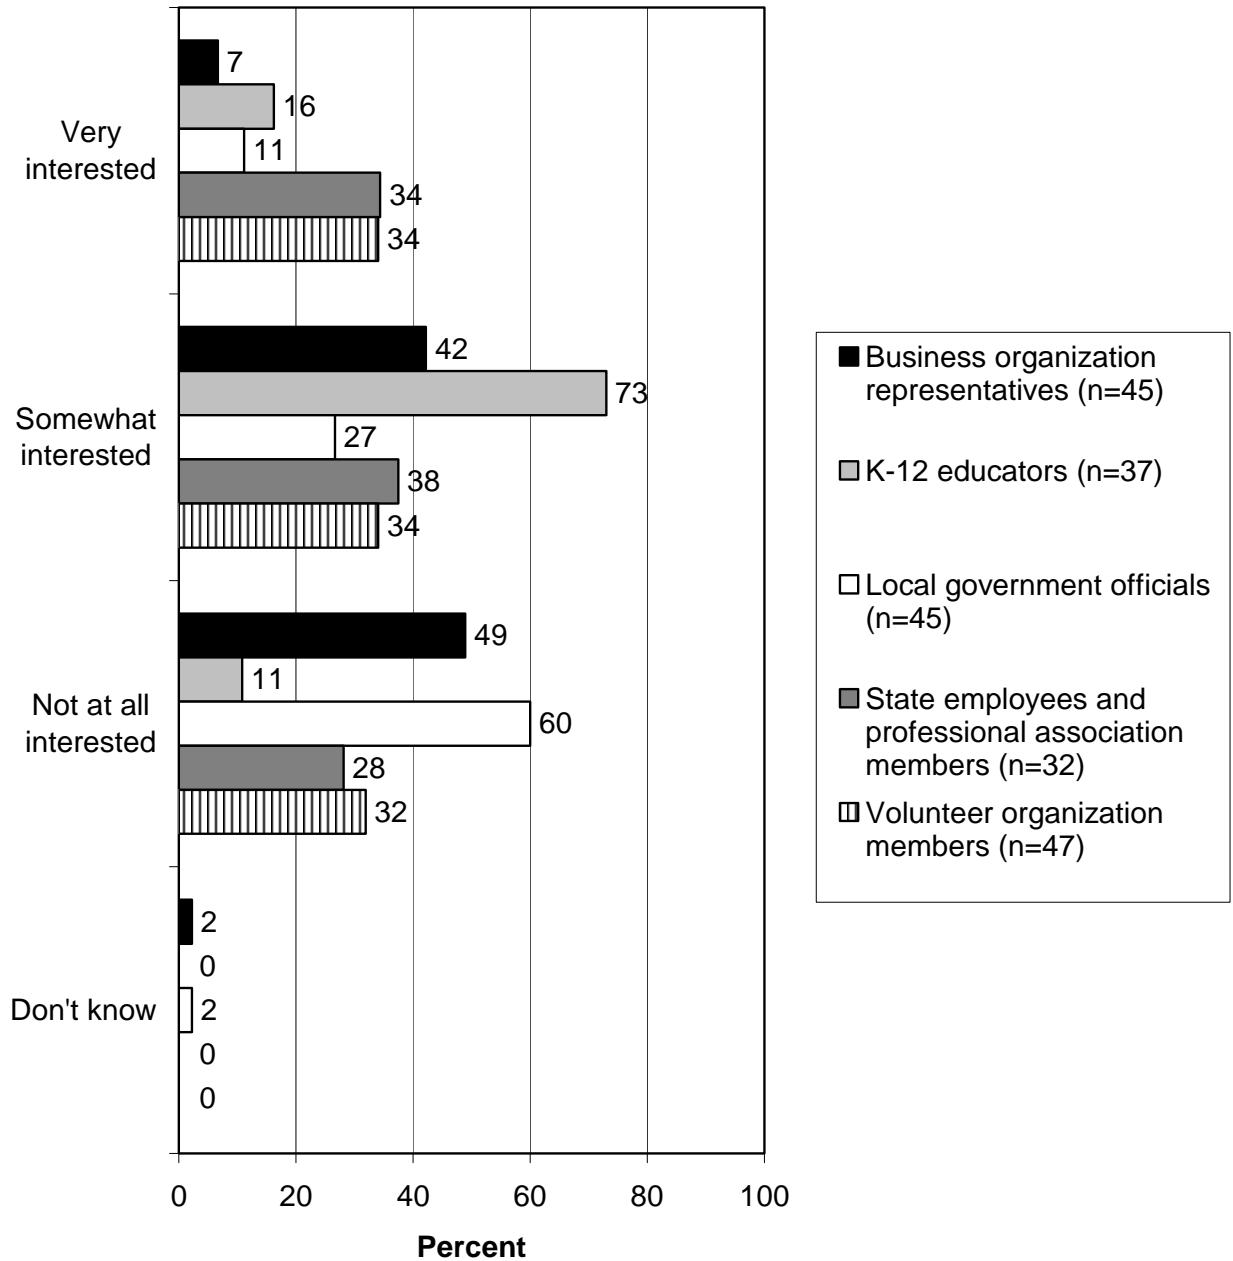

Many of the graphs in the body of the report are series graphs made from the data from many individual graphs. This appendix includes all the individual graphs not shown in the body of the report.

NEEDS ASSESSMENT GRAPHS

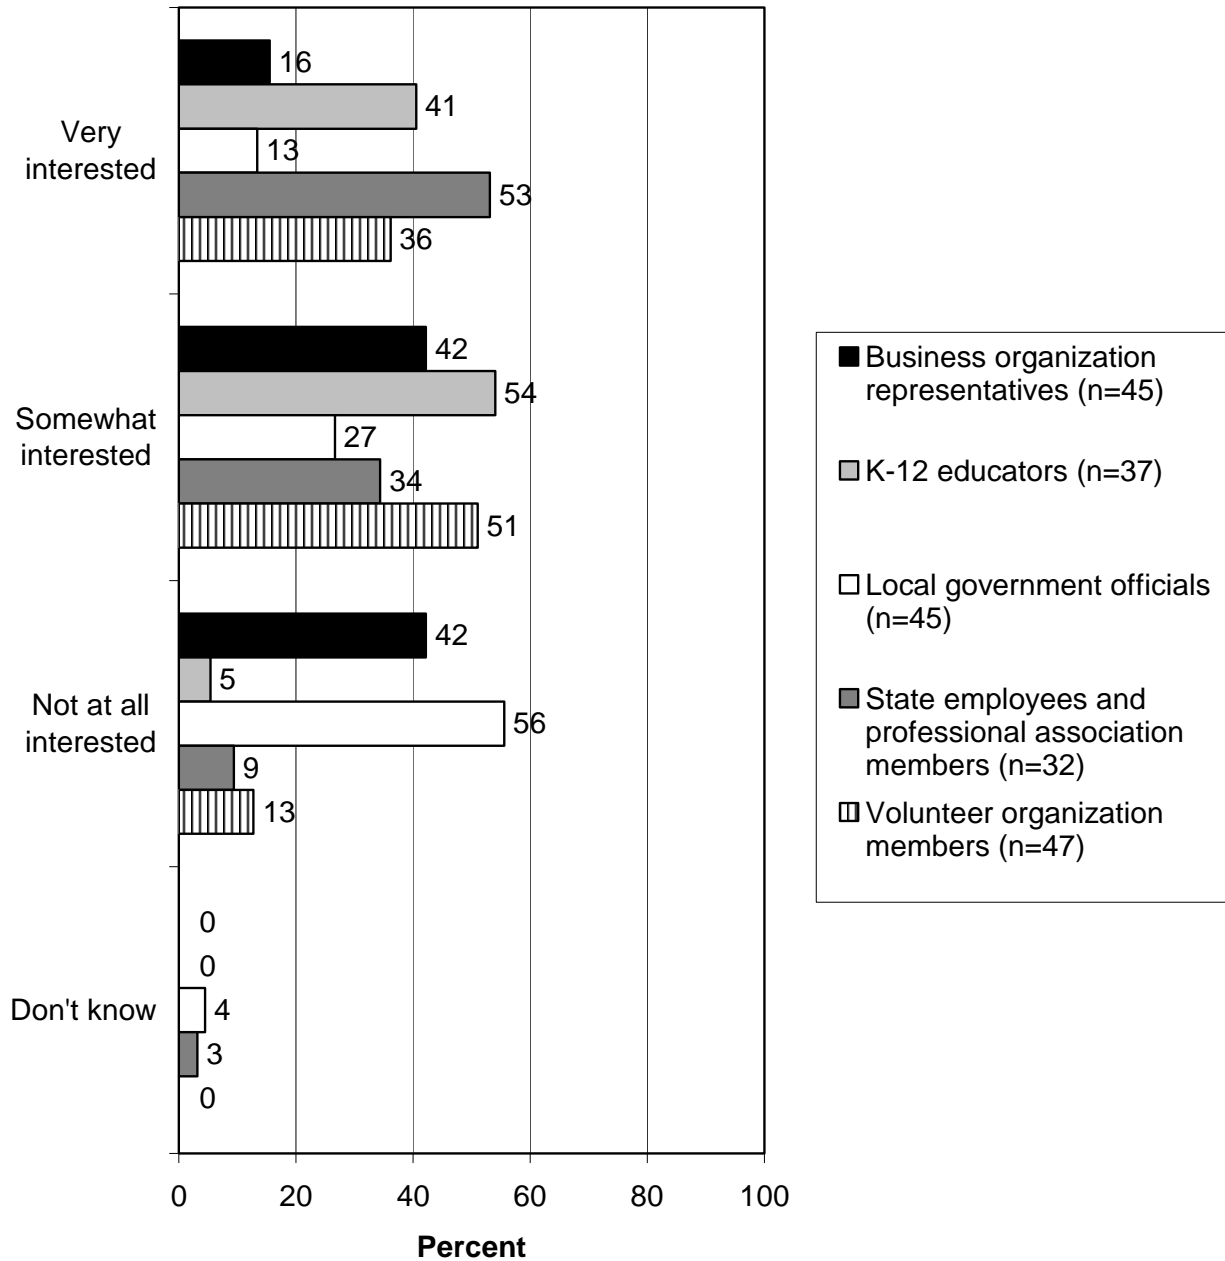

Q45. What is your level of interest in learning more about water quality monitoring?

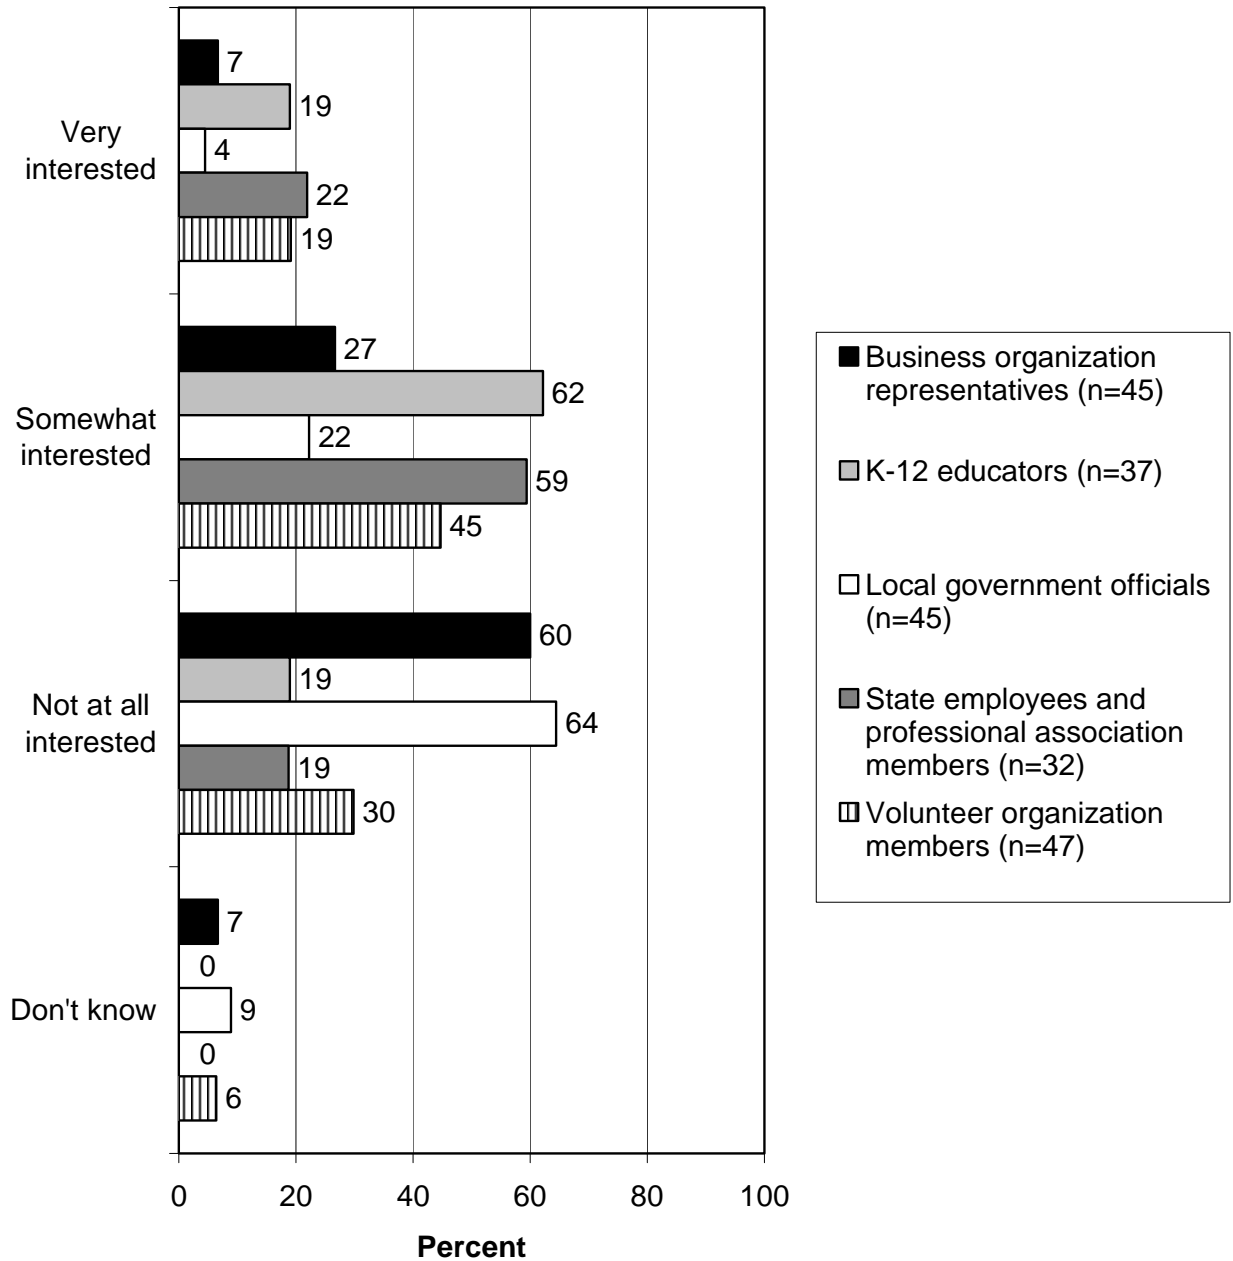

Q46. What is your level of interest in learning more about life history of estuarine fishes?

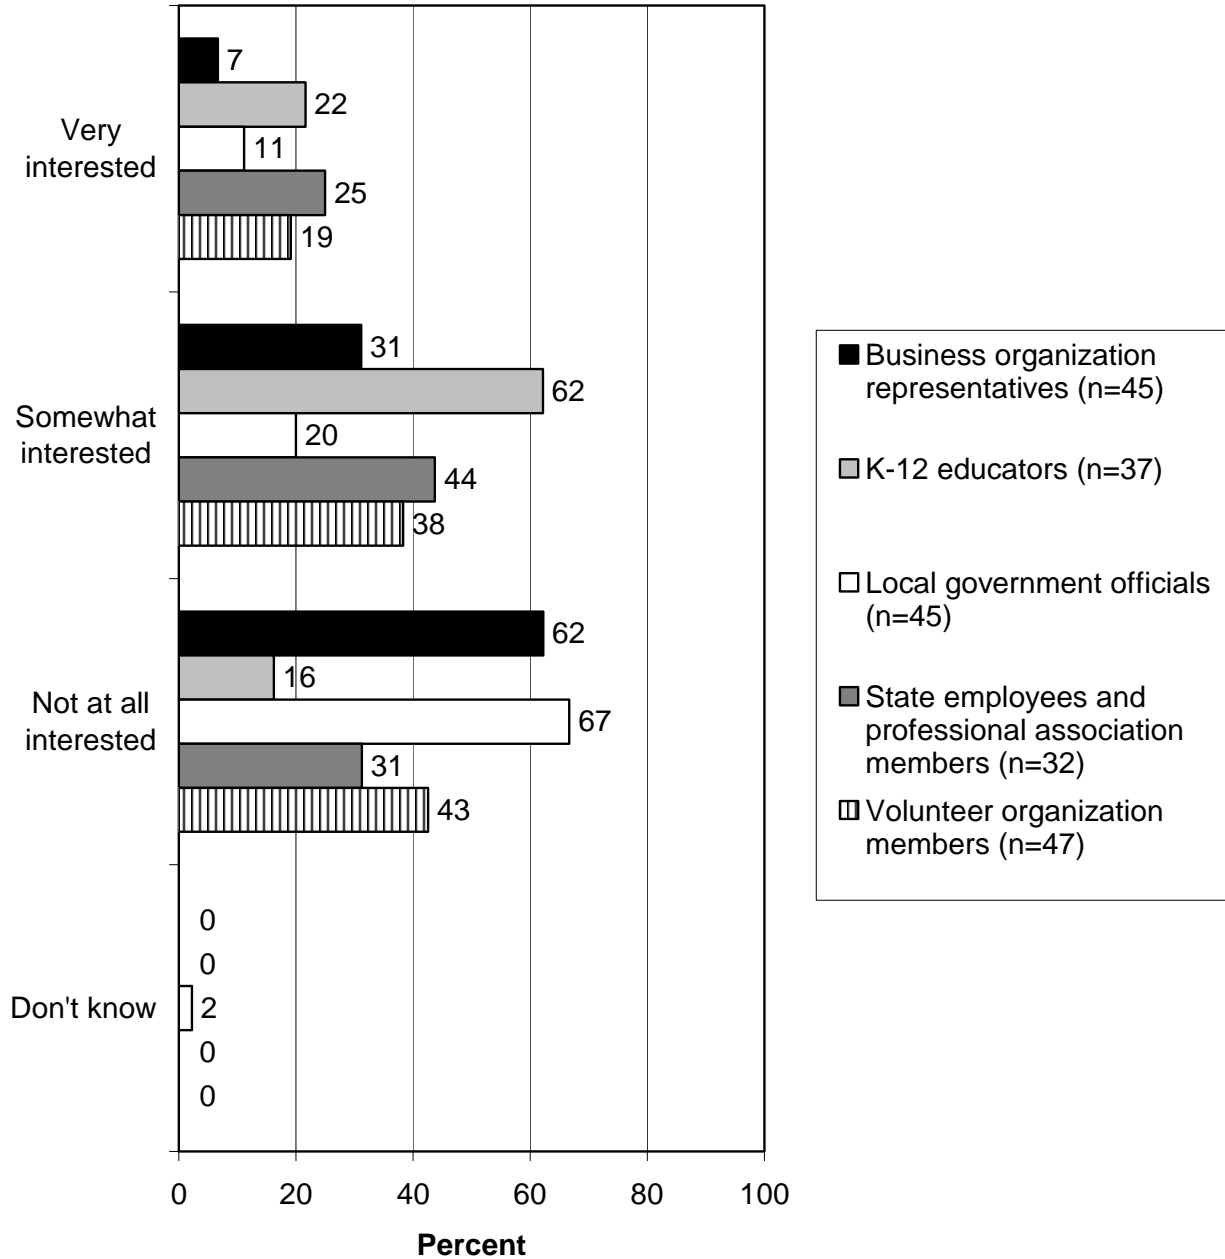

Q47. What is your level of interest in learning more about habitat ecology of estuarine fishes?

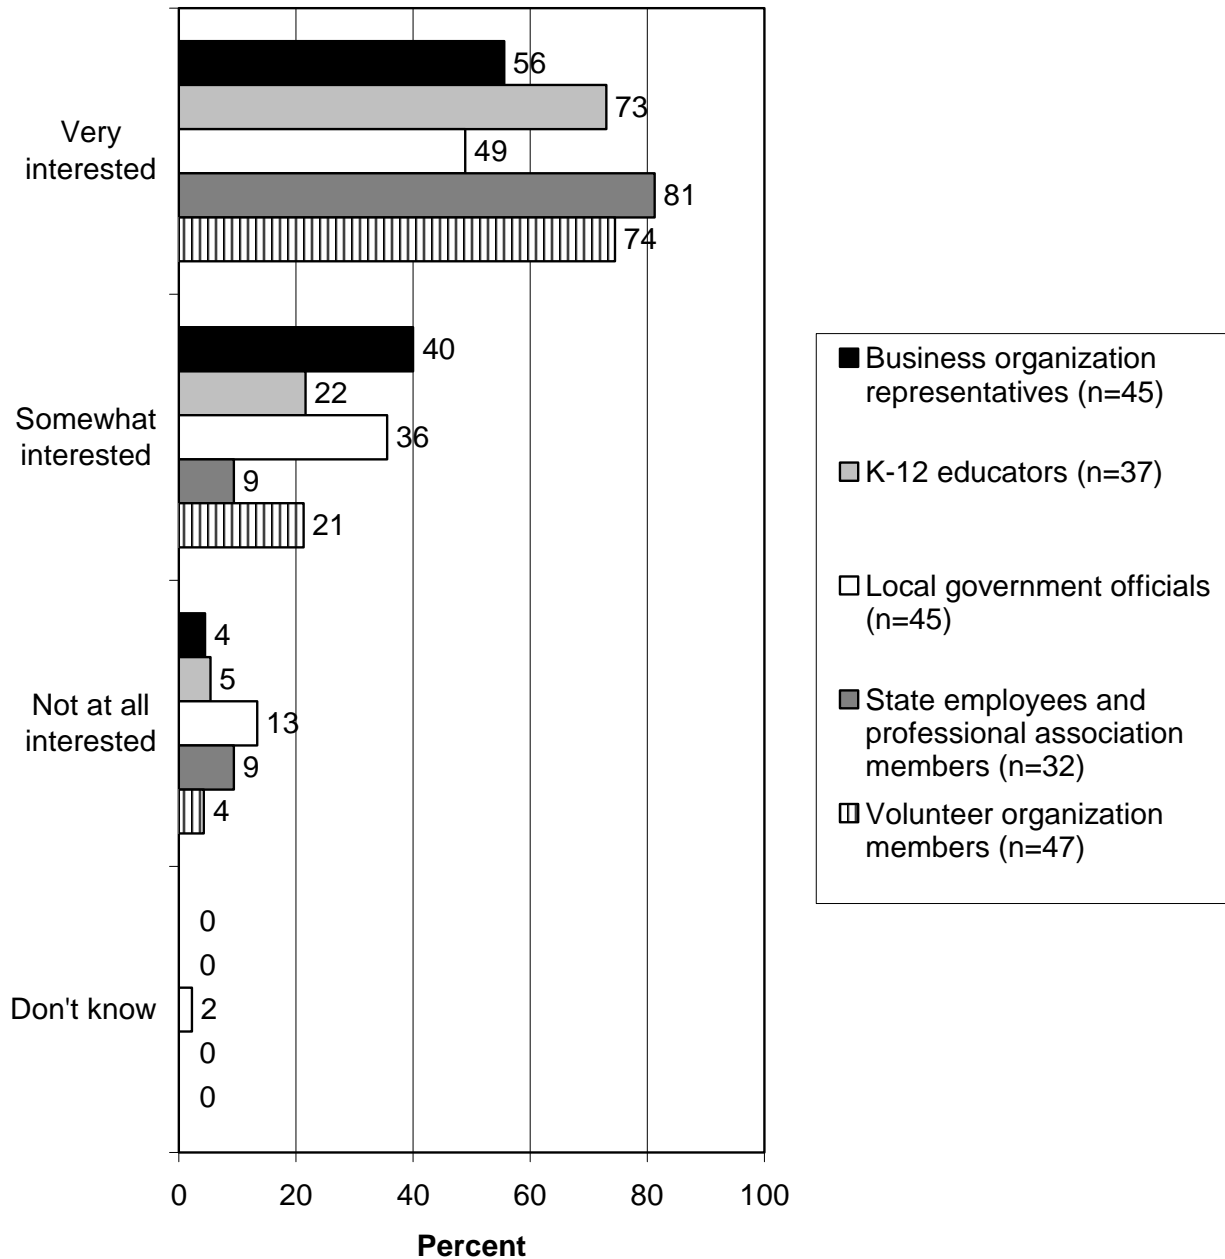

Q48. What is your level of interest in learning more about coastal upwelling and phytoplankton?

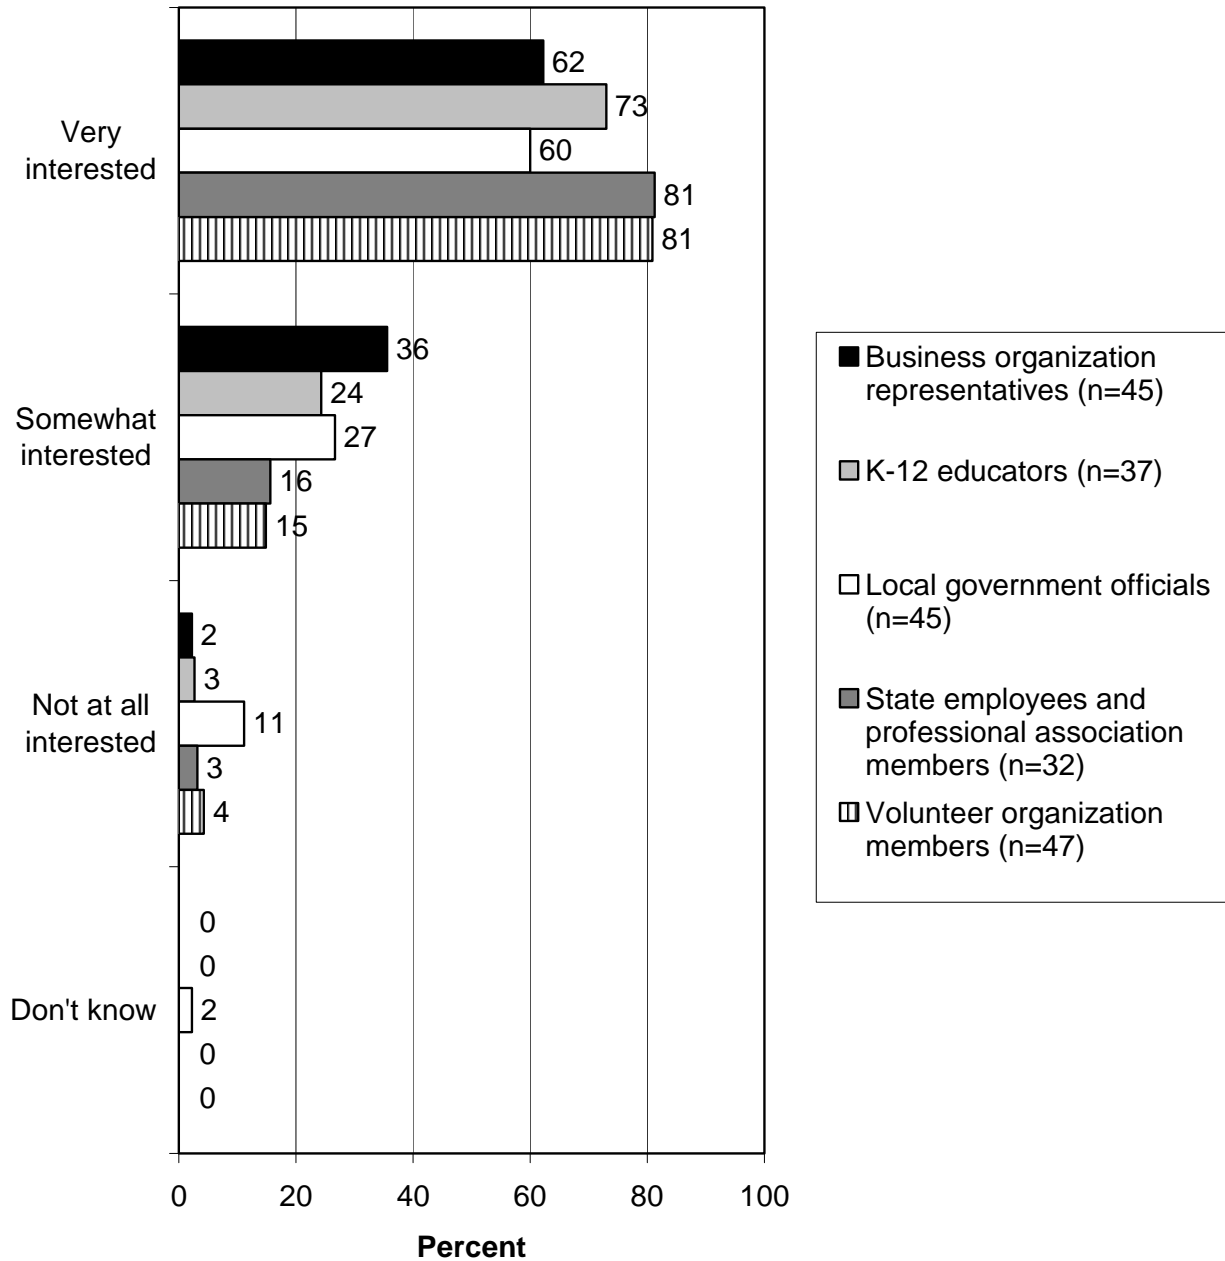

Q49. What is your level of interest in learning more about fish and clam larvae along the coast?

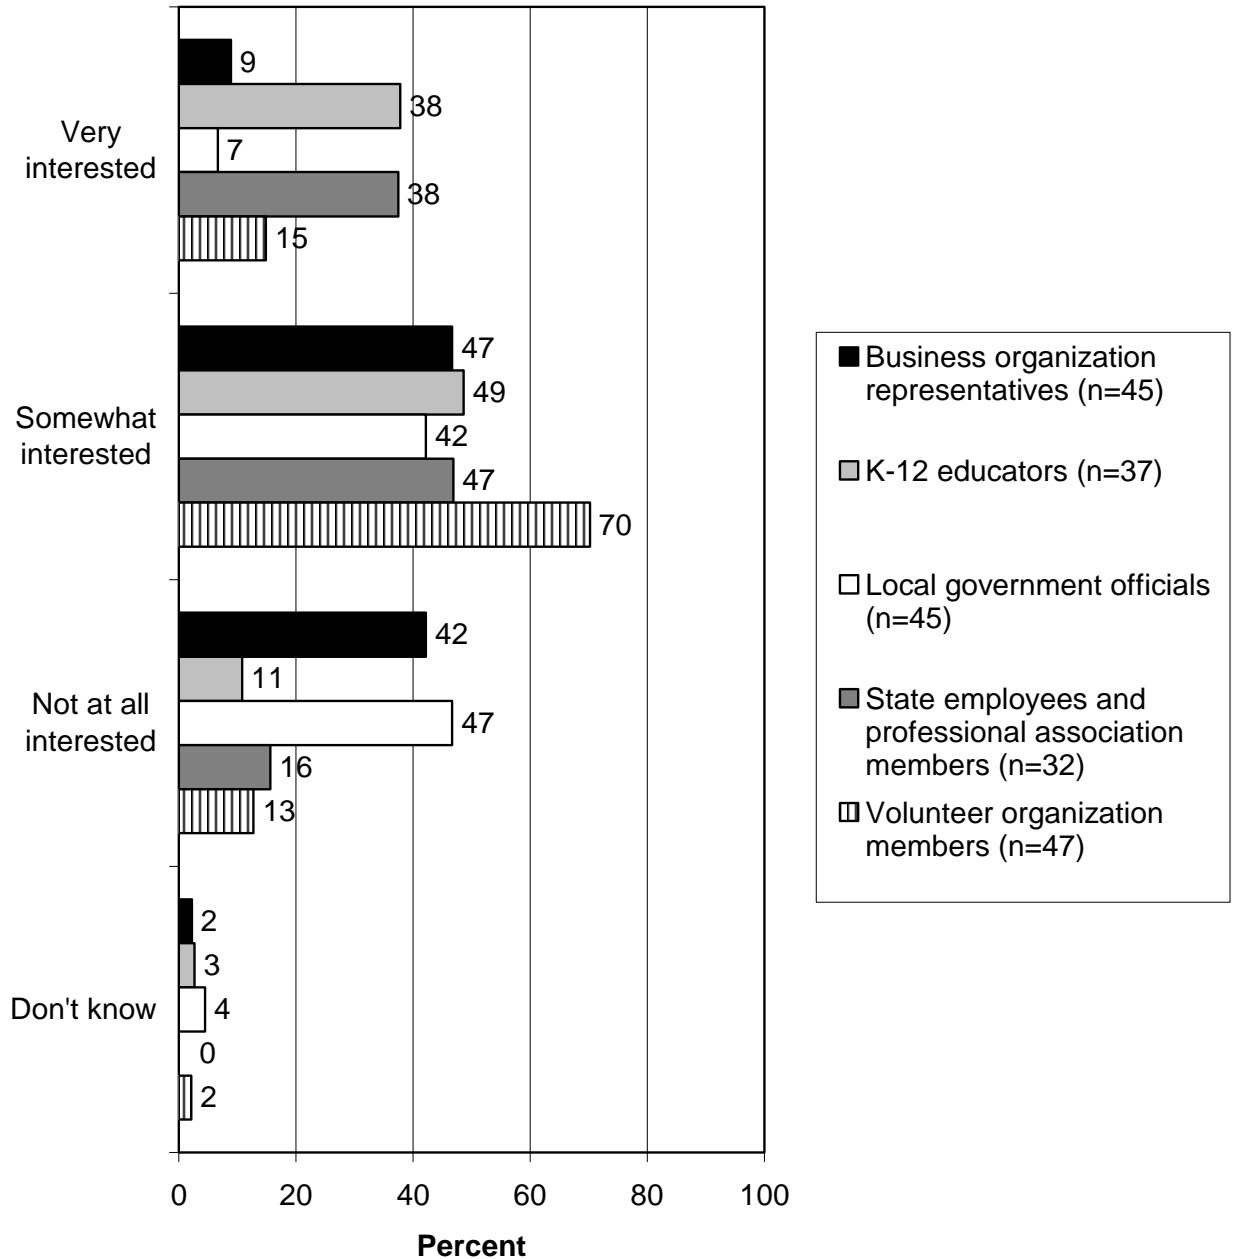

Q50. What is your level of interest in learning more about impacts of human disturbance on New Jersey estuaries?

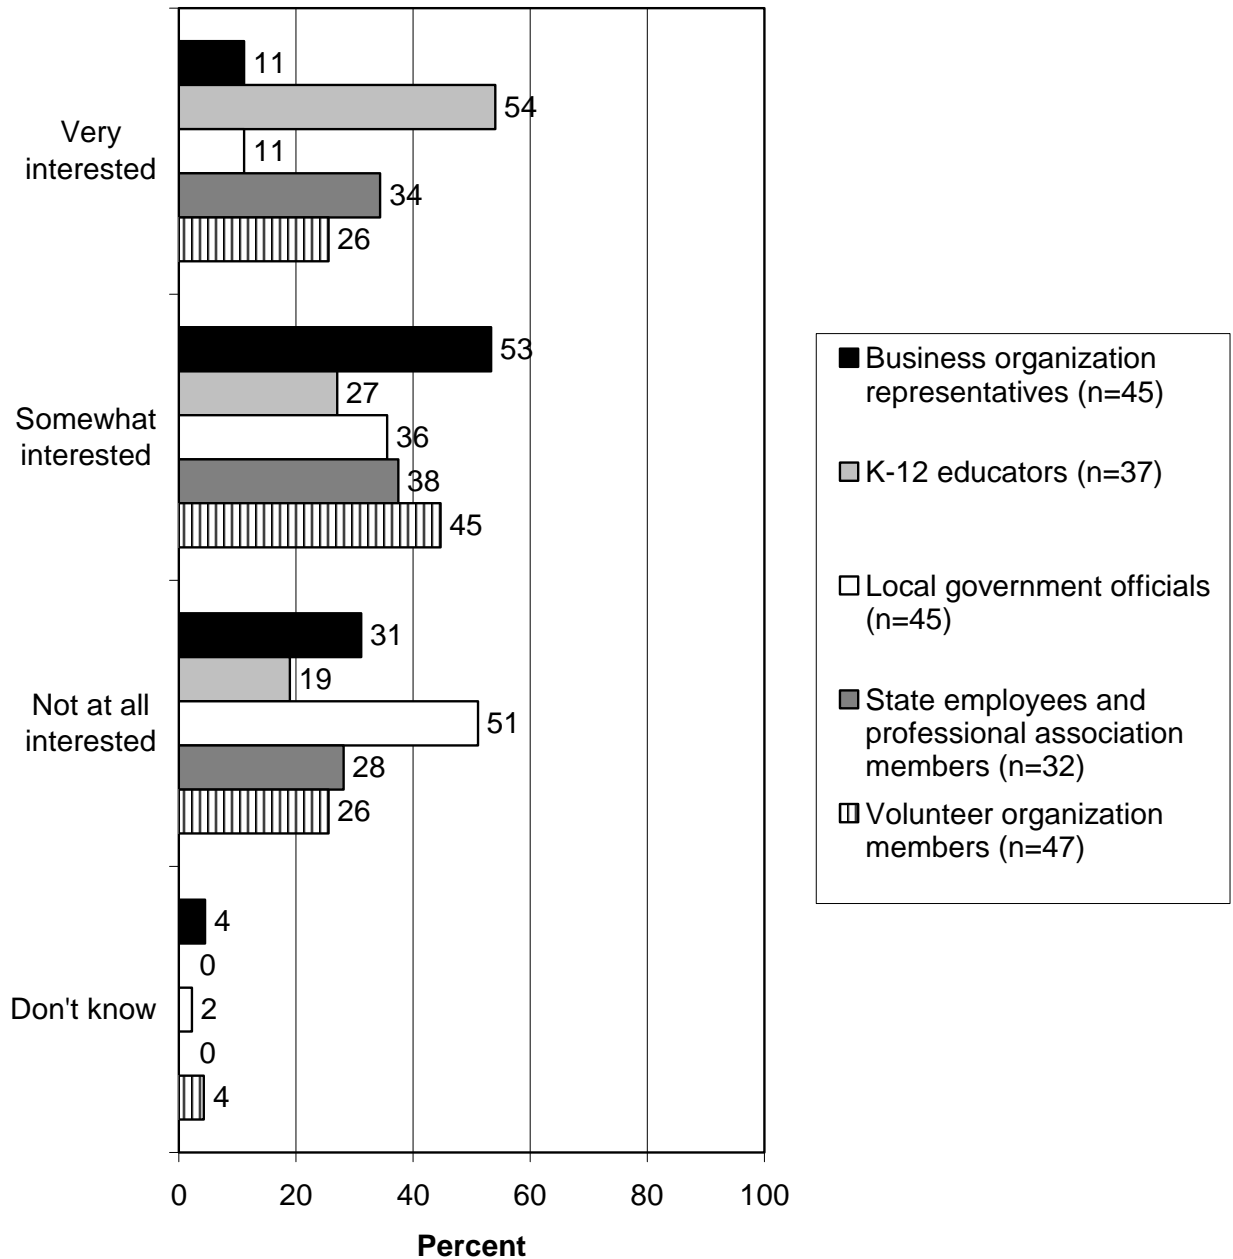

Q51. What is your level of interest in learning more about wetlands?

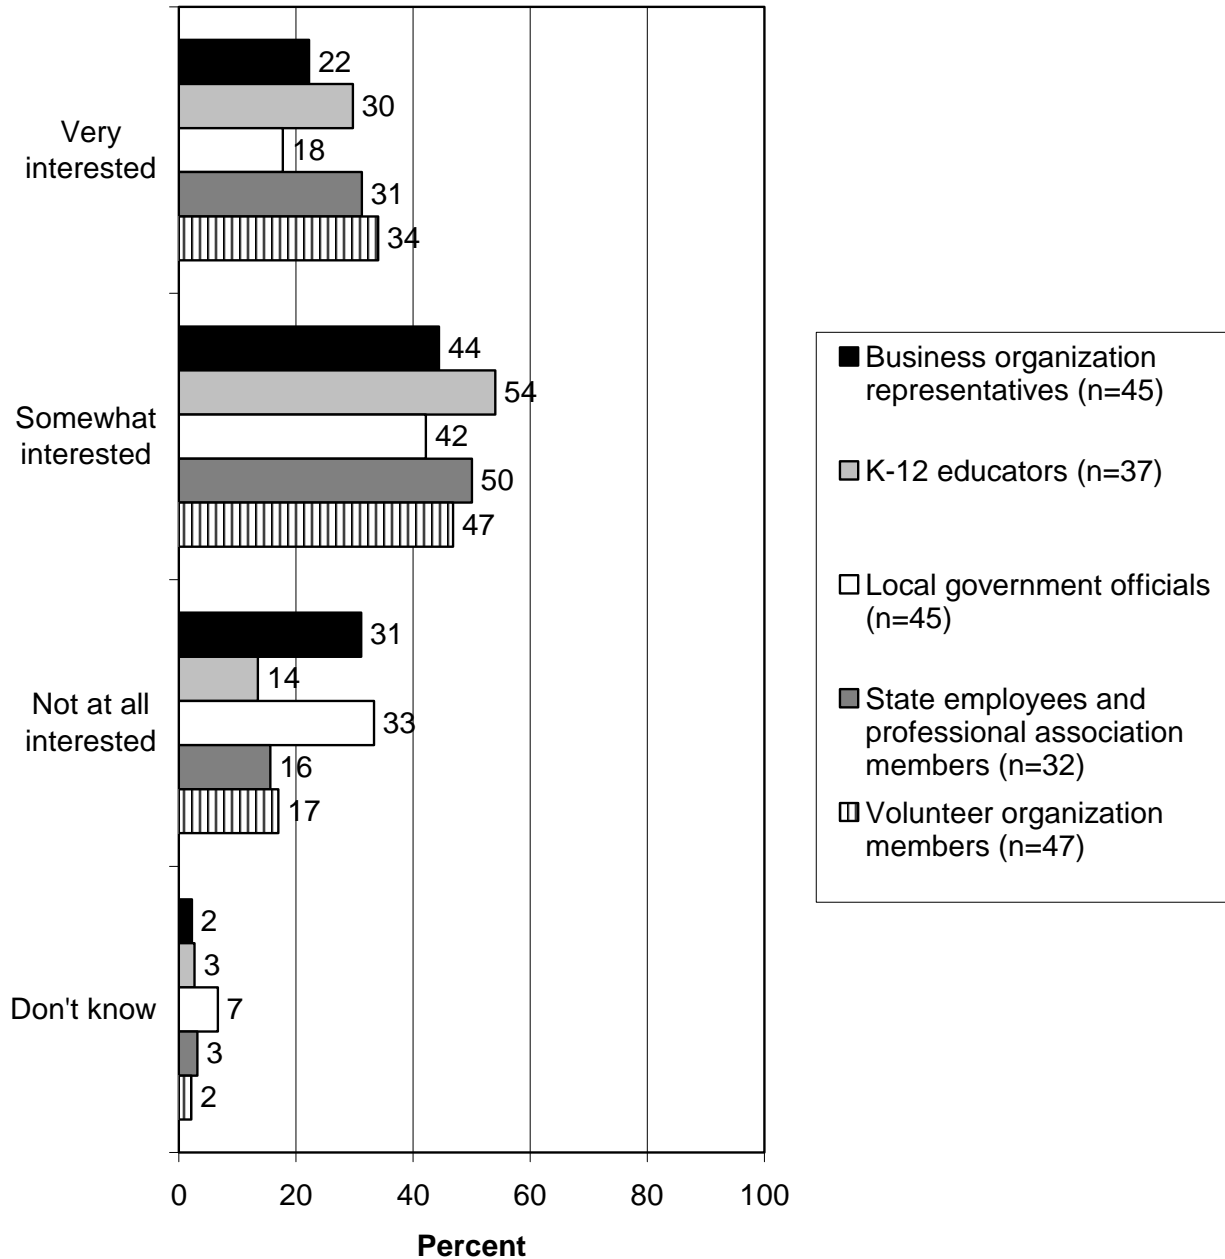

Q52. What is your level of interest in learning more about LEO-15 (Long-term Ecosystem Observatory)?

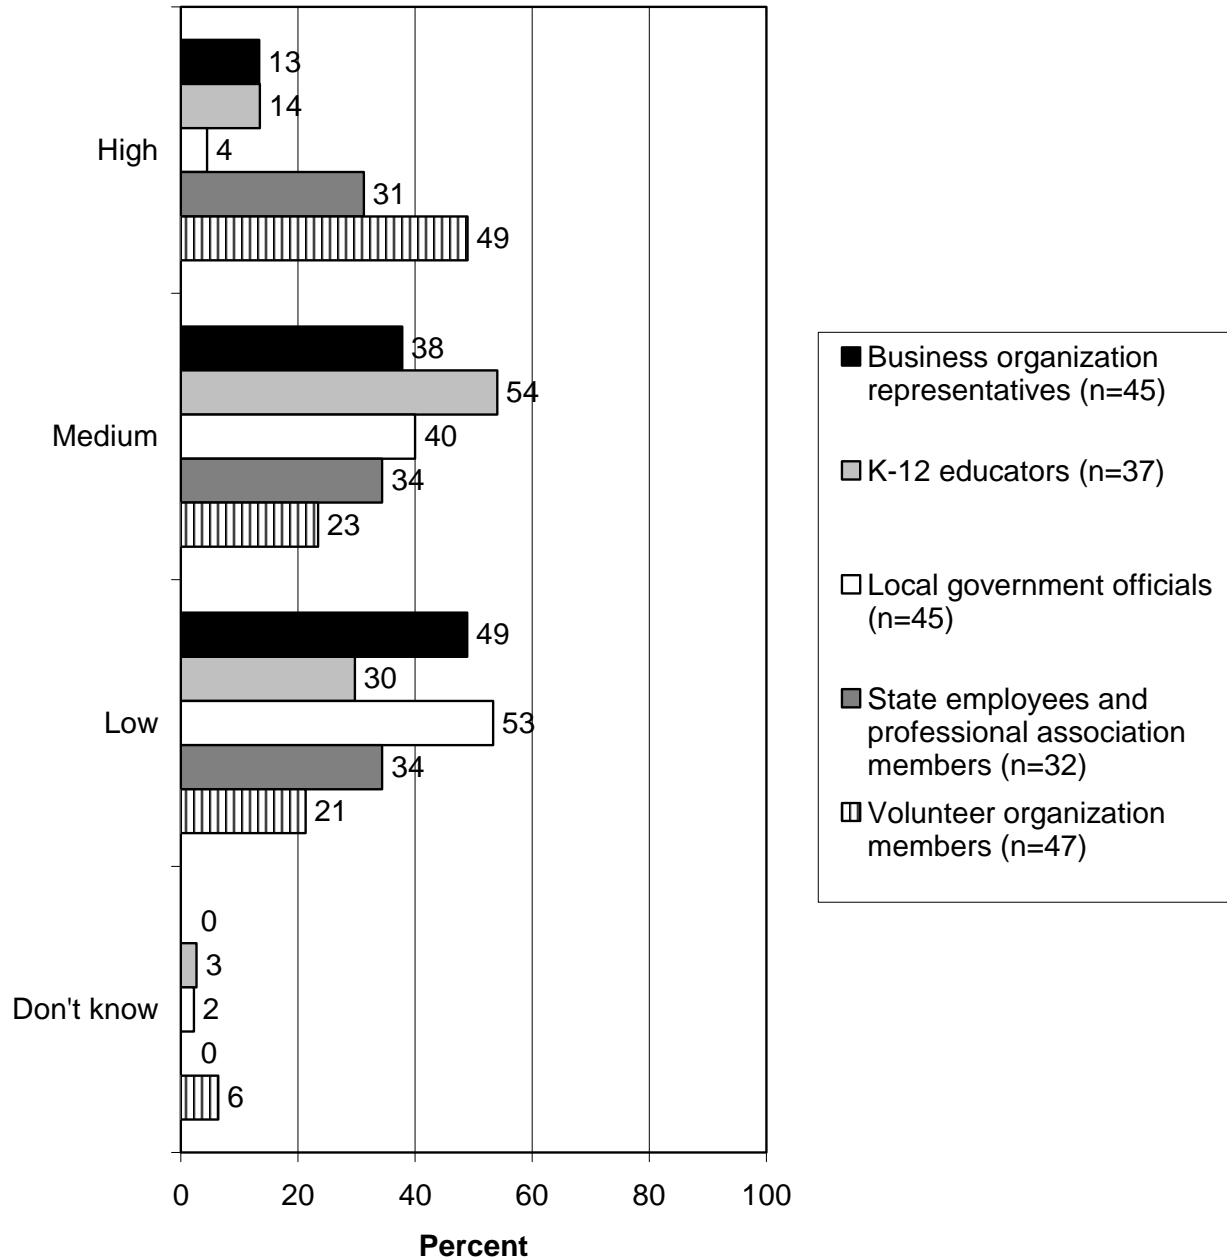

Q53. What is your level of interest in learning more about MARE (Marine, Activities, Resource and Education) Summer Institute for K-8 educators?

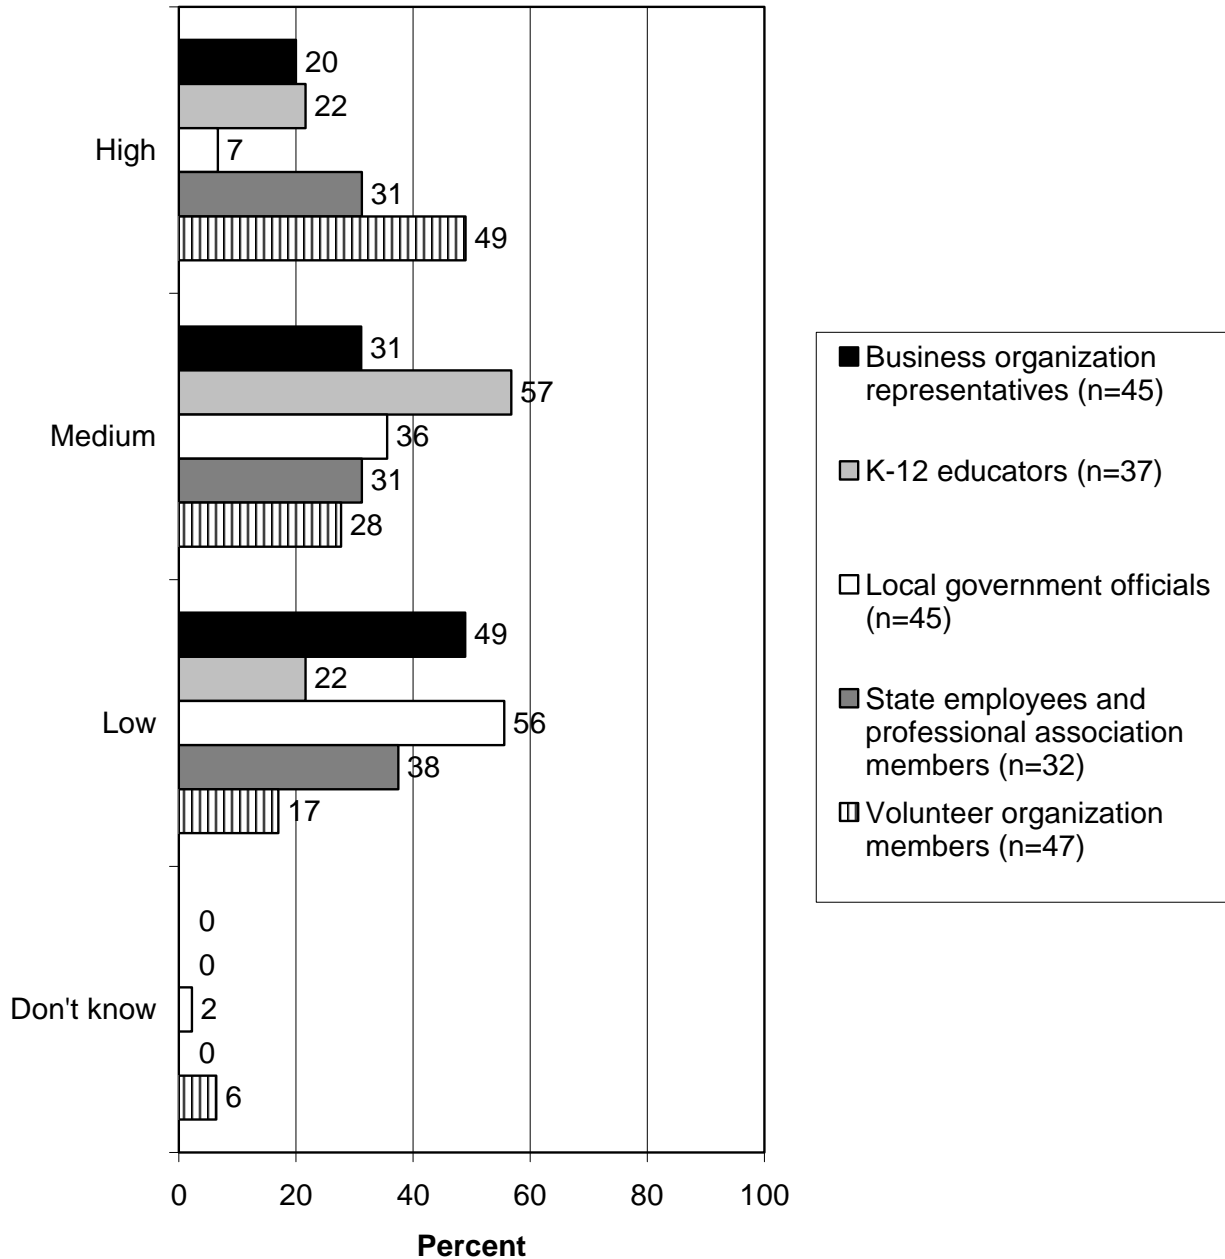

Q54. What is your level of interest in learning more about the Coastal Decision-Maker Workshop Series?

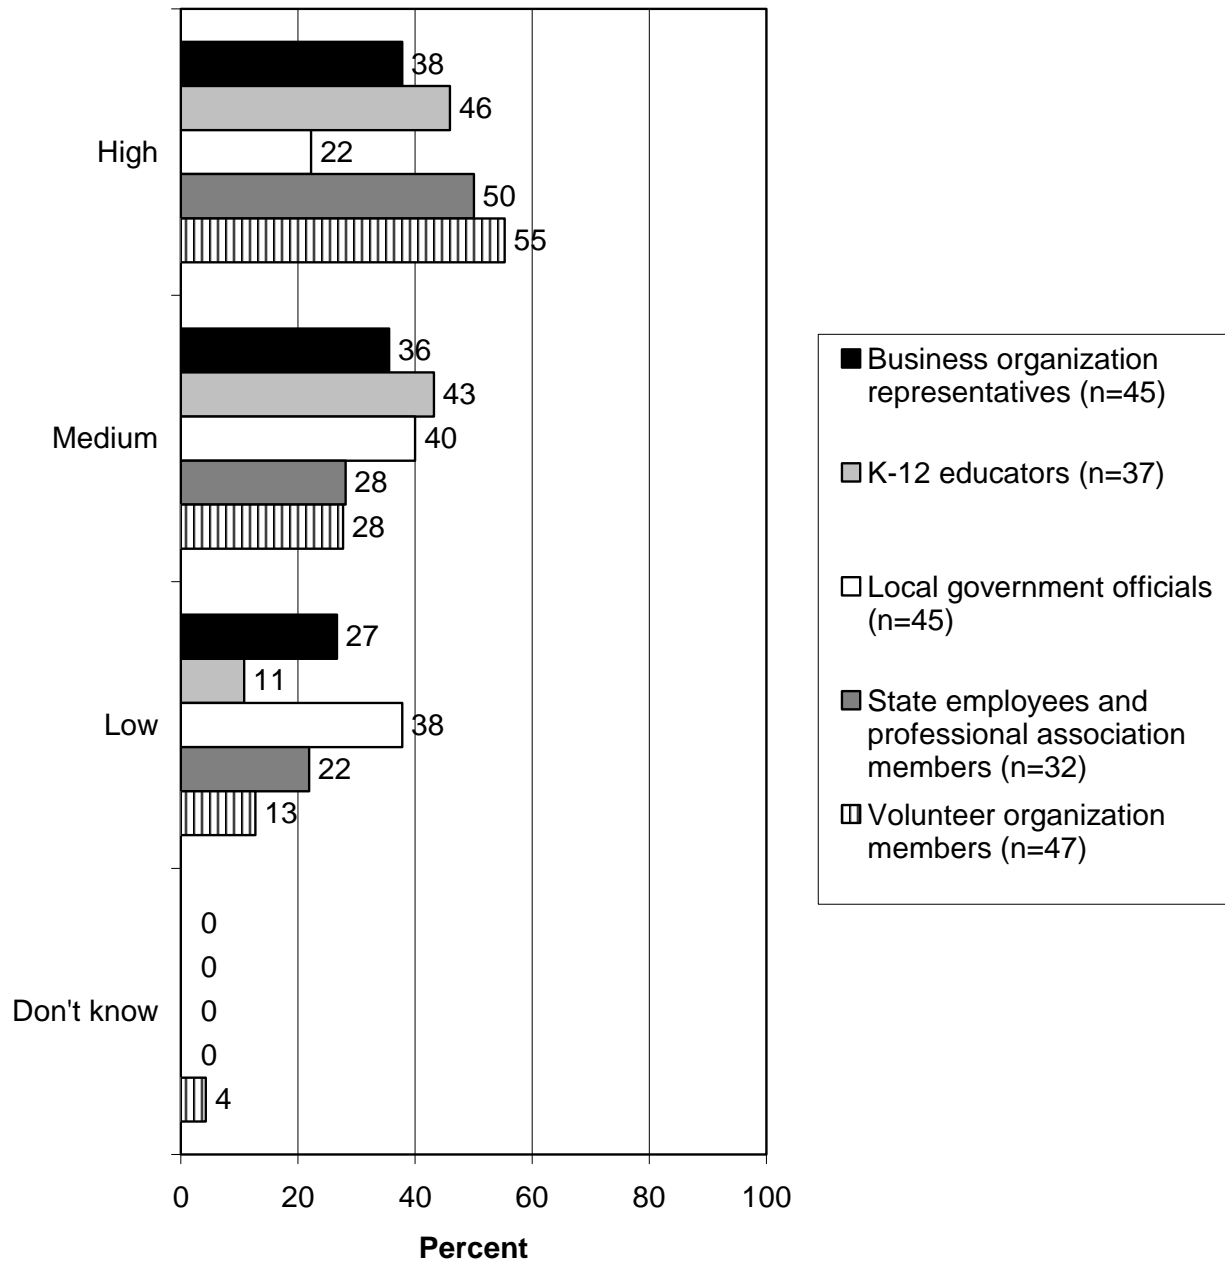

Q55. Do you professionally have a high, medium, or low need for coastal resource training or information on biodiversity?

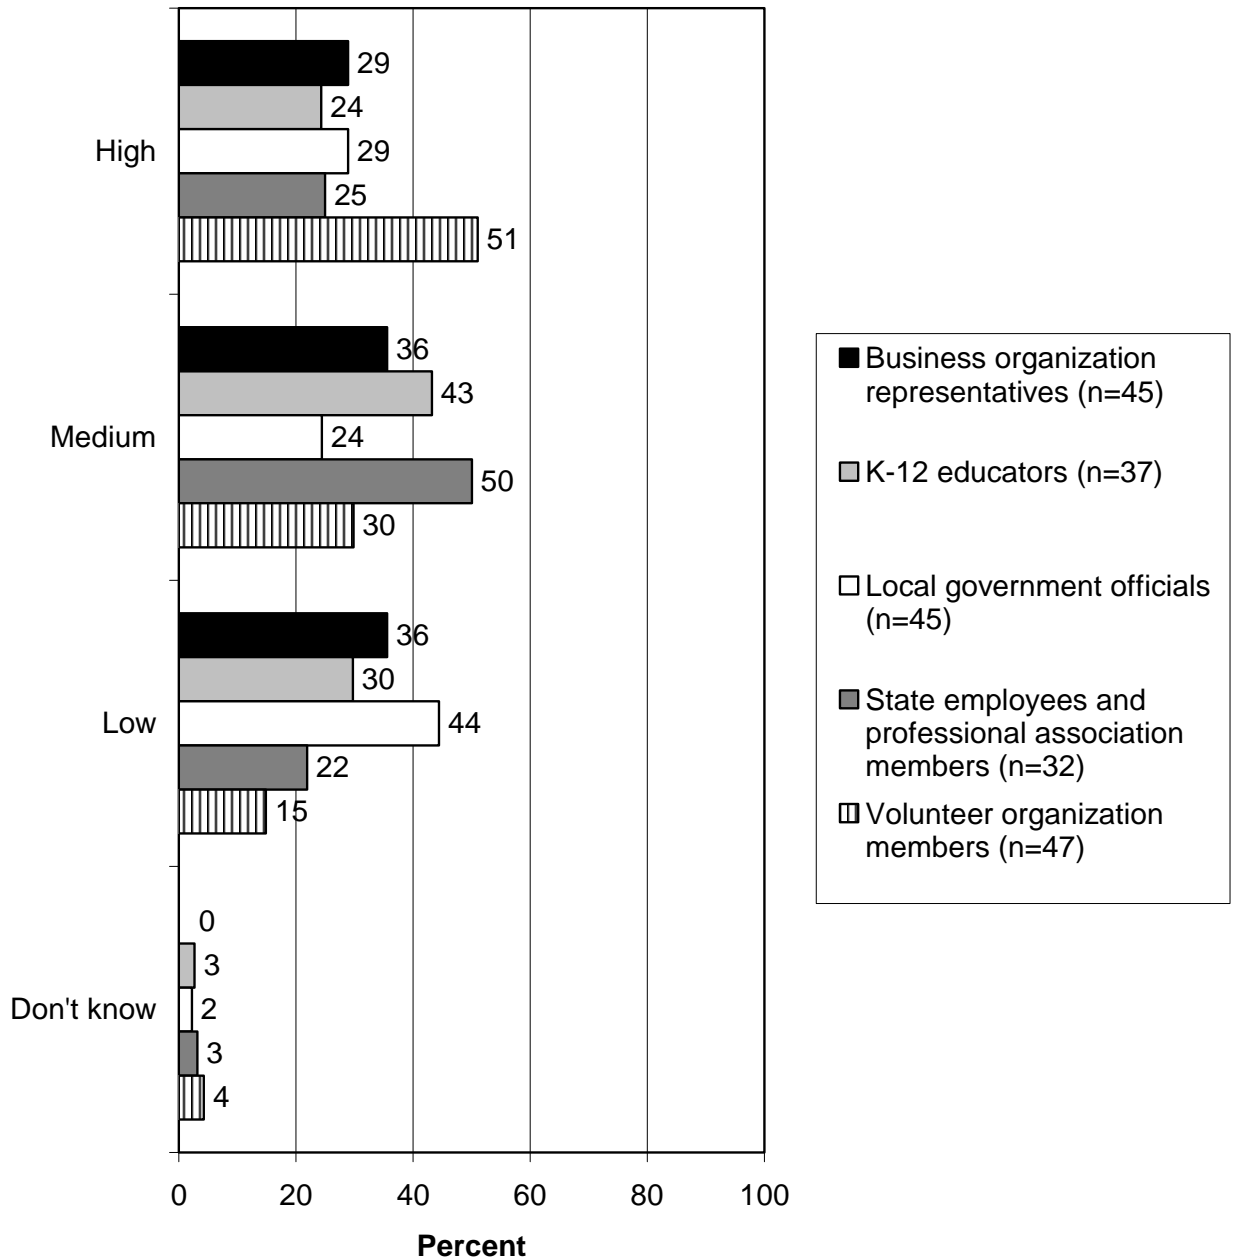

Q56. Do you professionally have a high, medium, or low need for coastal resource training or information on habitat fragmentation?

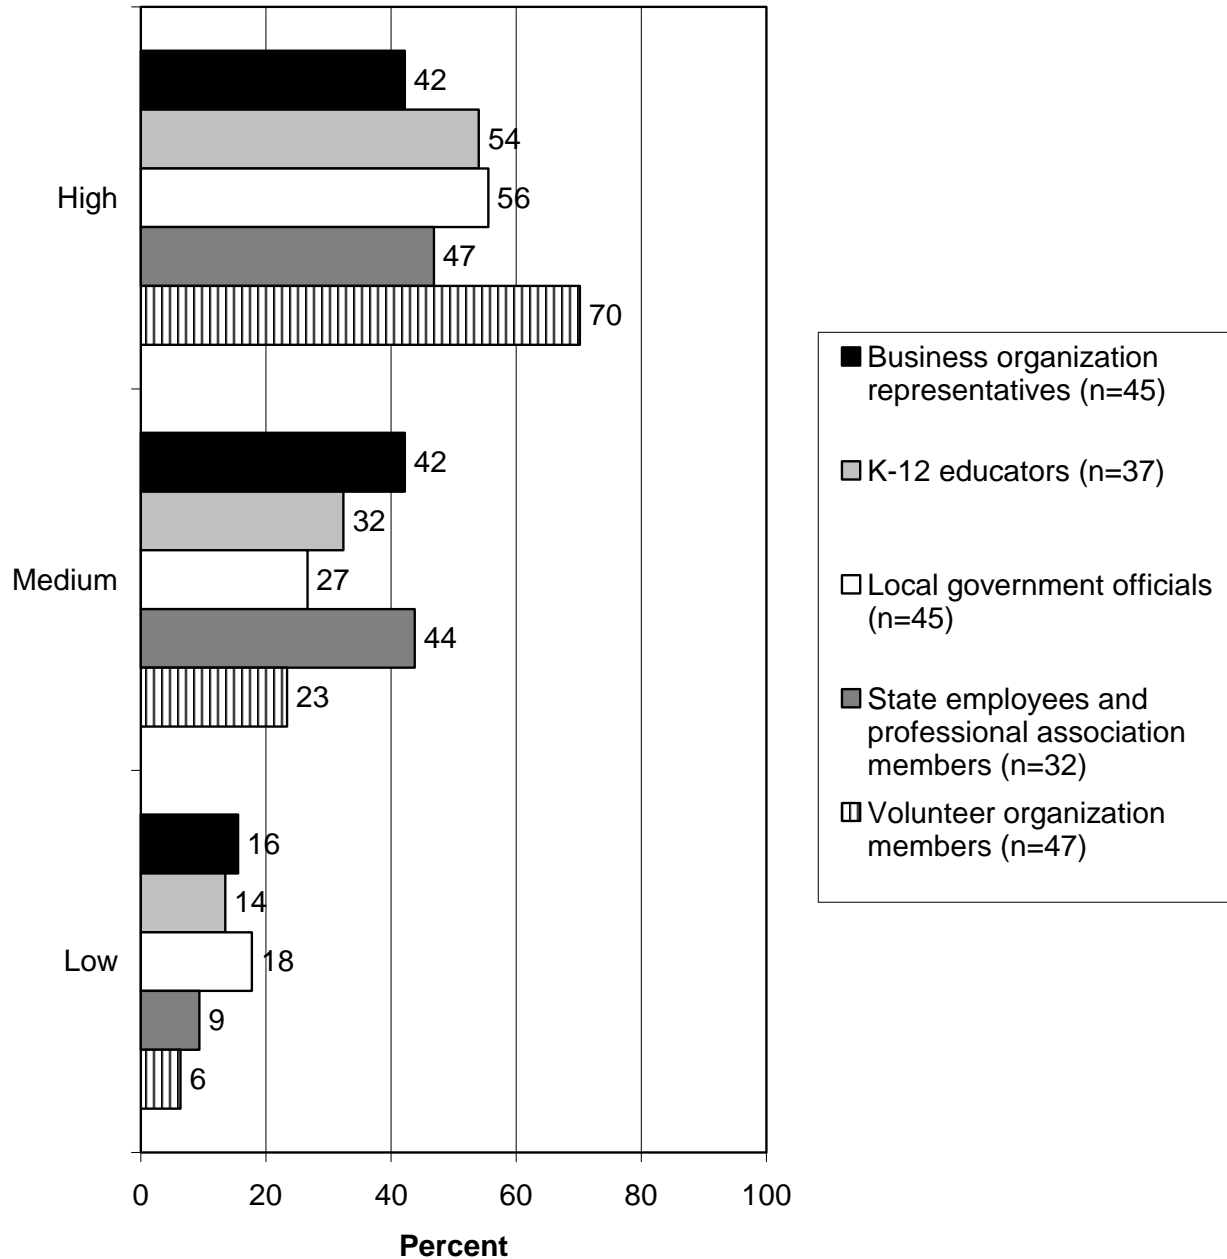

Q57. Do you professionally have a high, medium, or low need for coastal resource training or information on habitat protection and restoration?

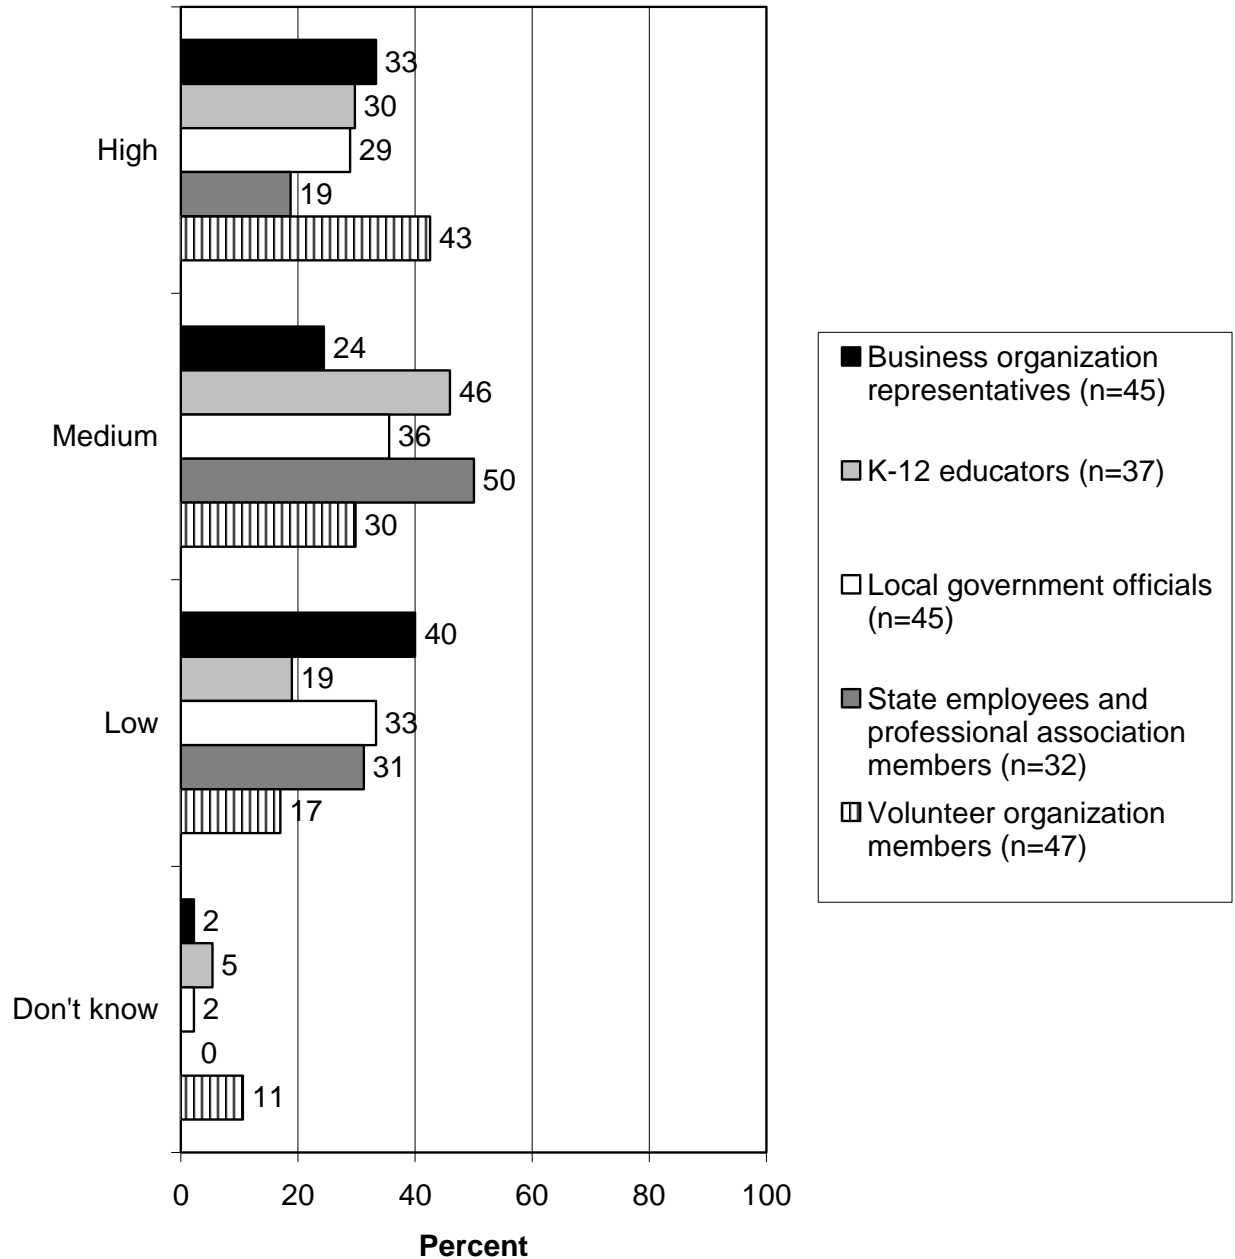

Q58. Do you professionally have a high, medium, or low need for coastal resource training or information on buffers?

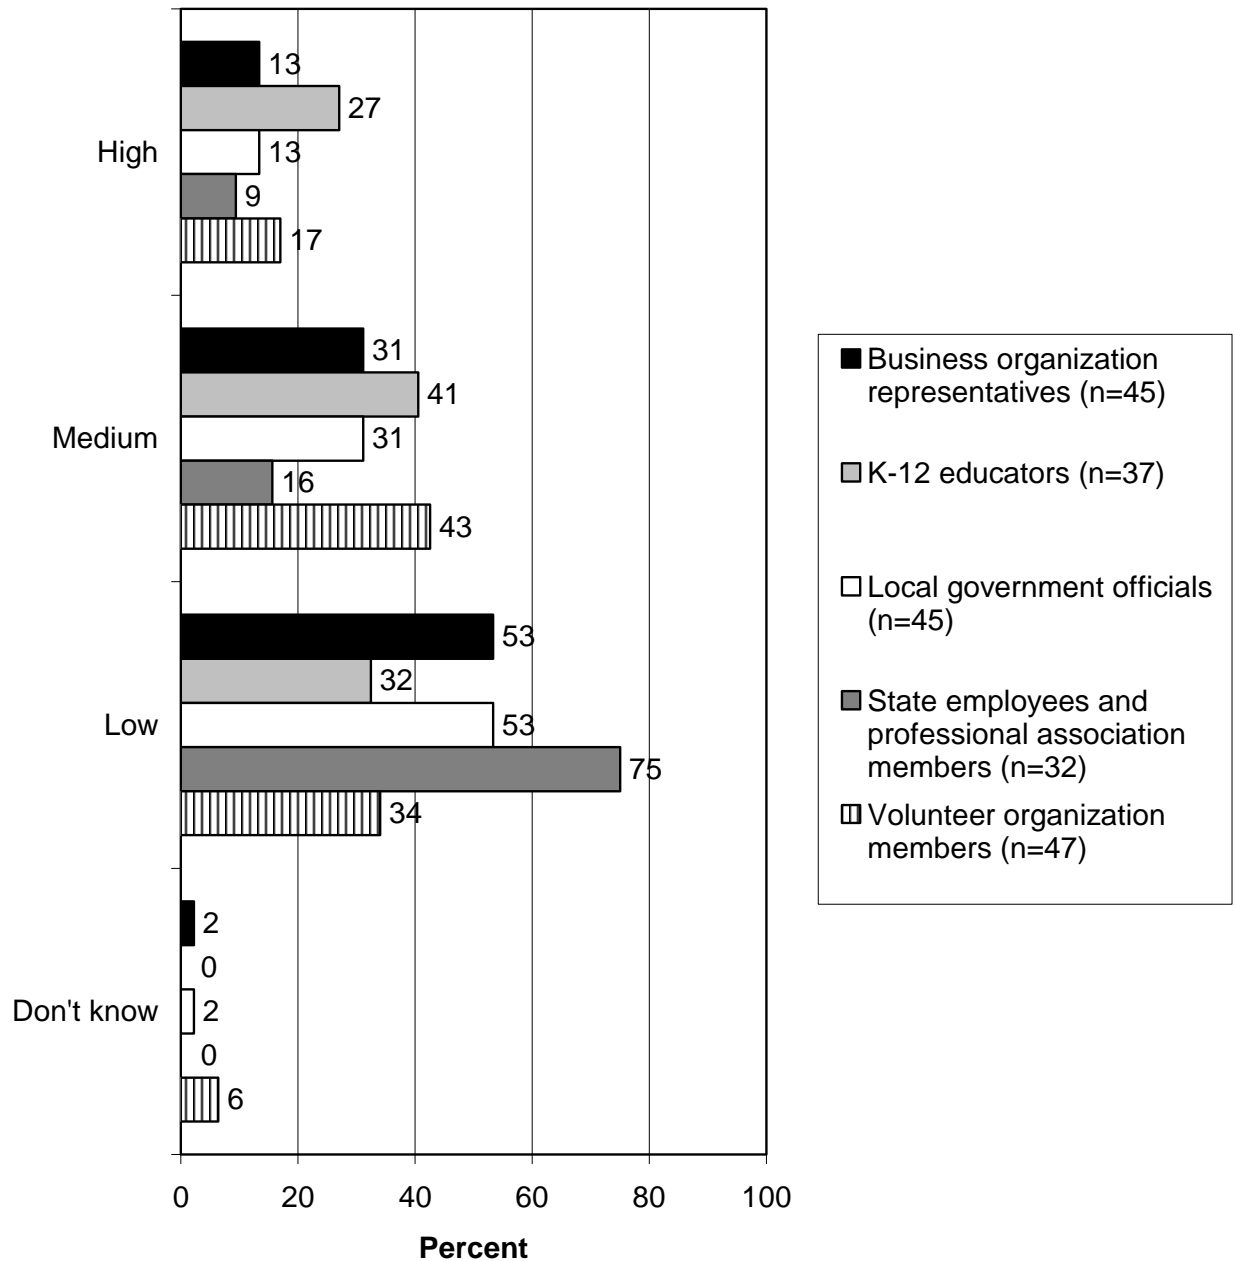

Q59. Do you professionally have a high, medium, or low need for coastal resource training or information on wetlands and waterways protection?

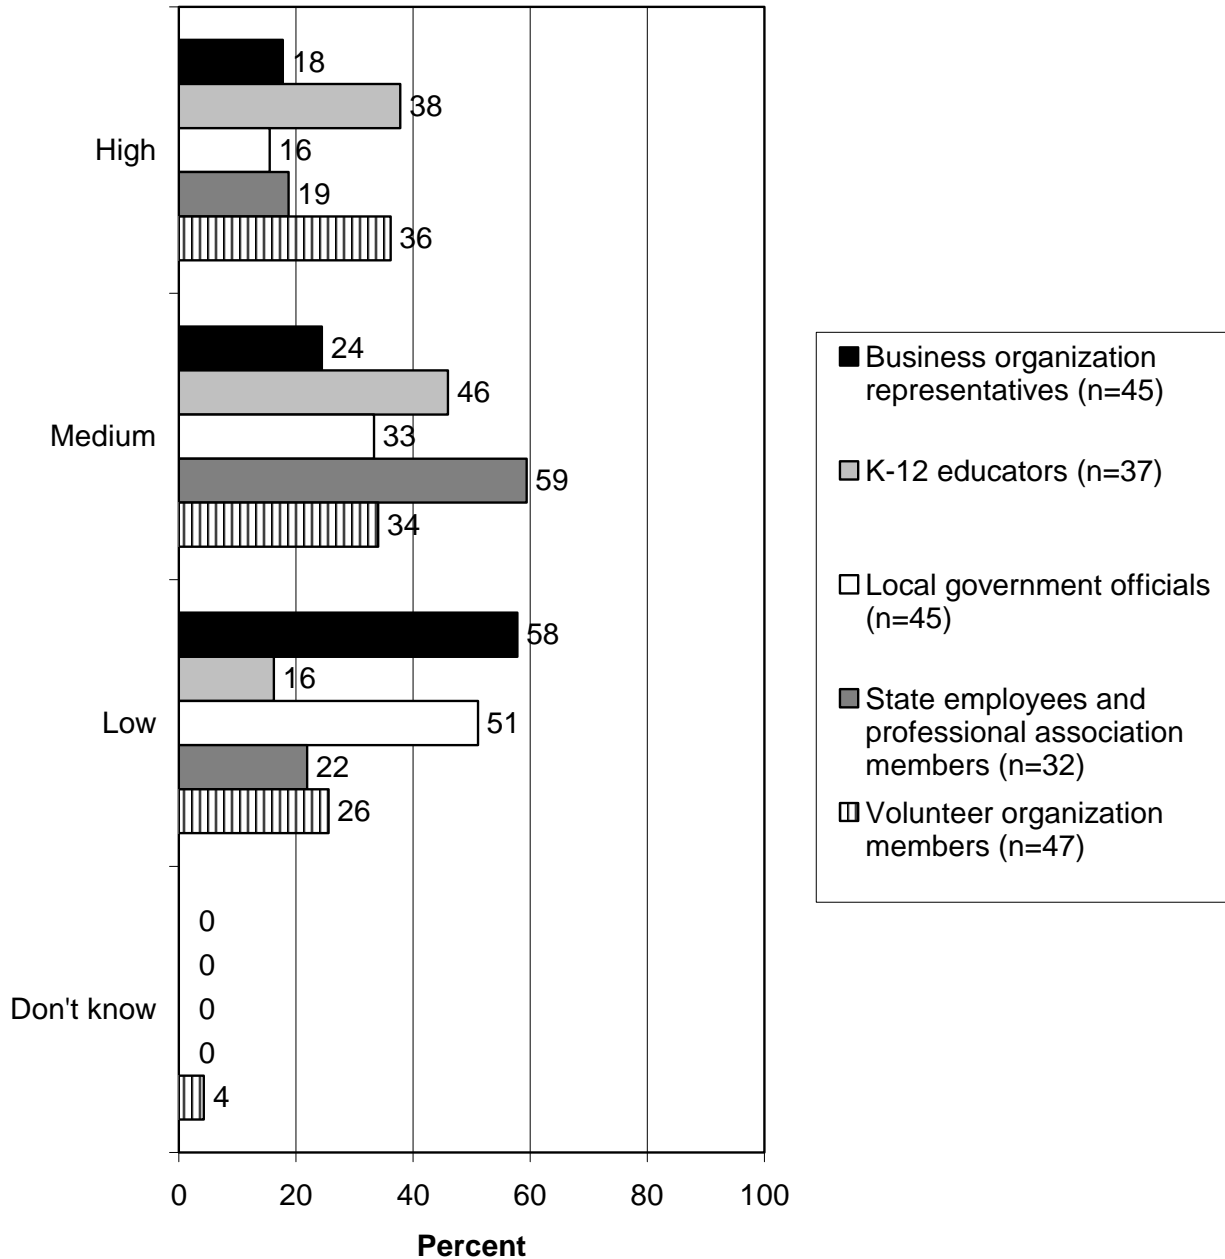

Q60. Do you professionally have a high, medium, or low need for coastal resource training or information on special area management?

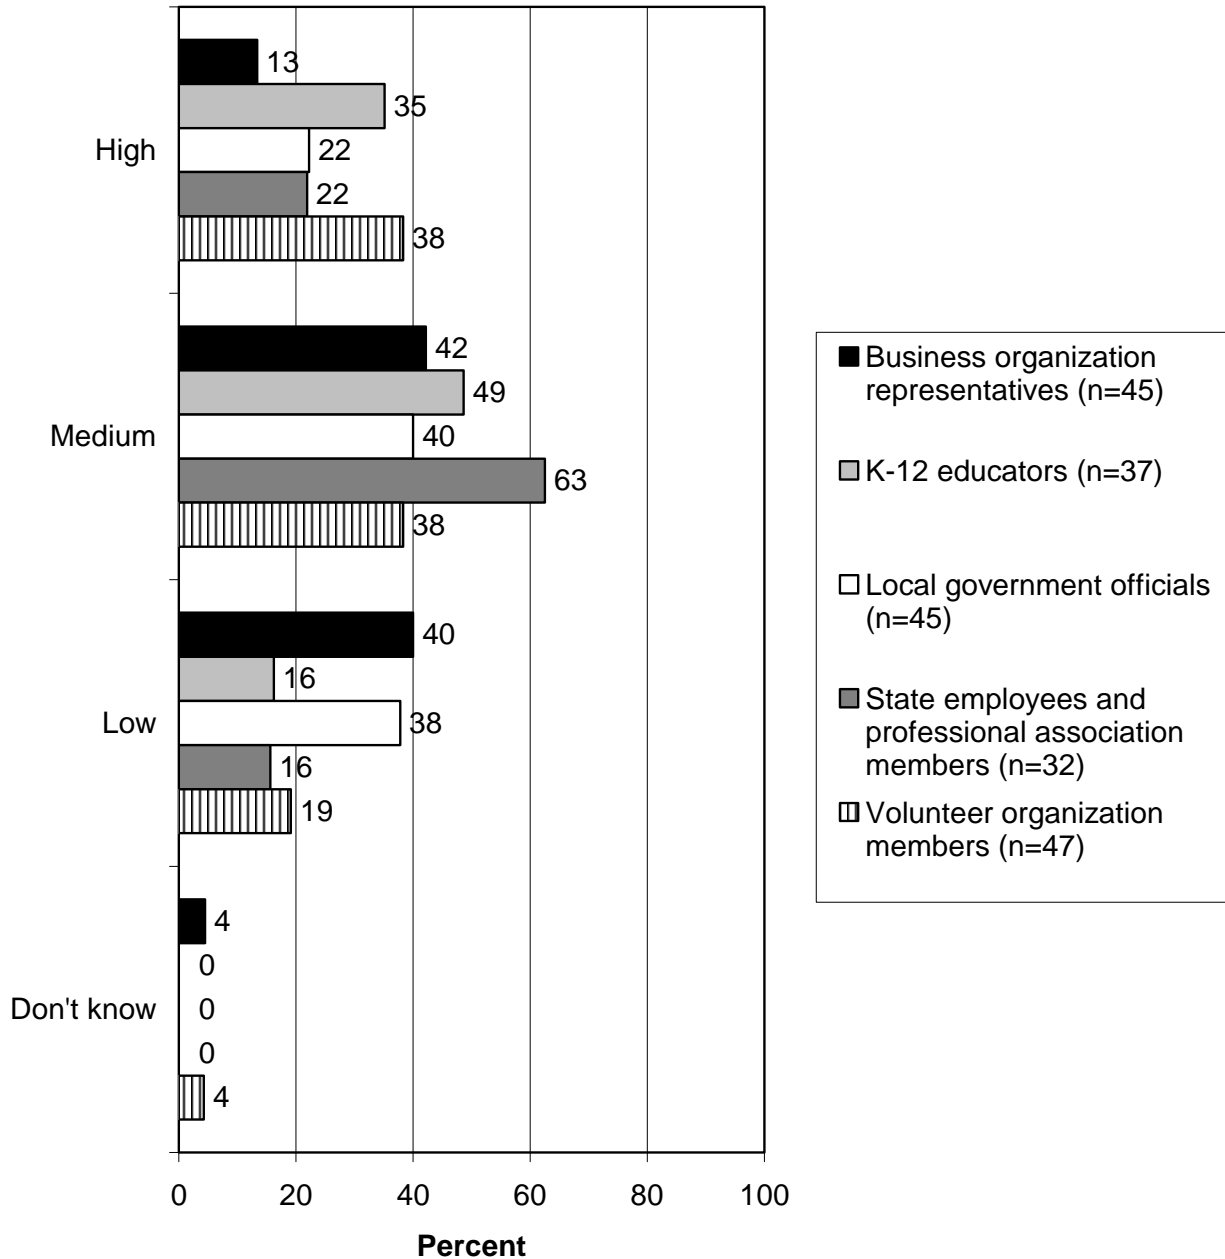

Q61. Do you professionally have a high, medium, or low need for coastal resource training or information on fire management?

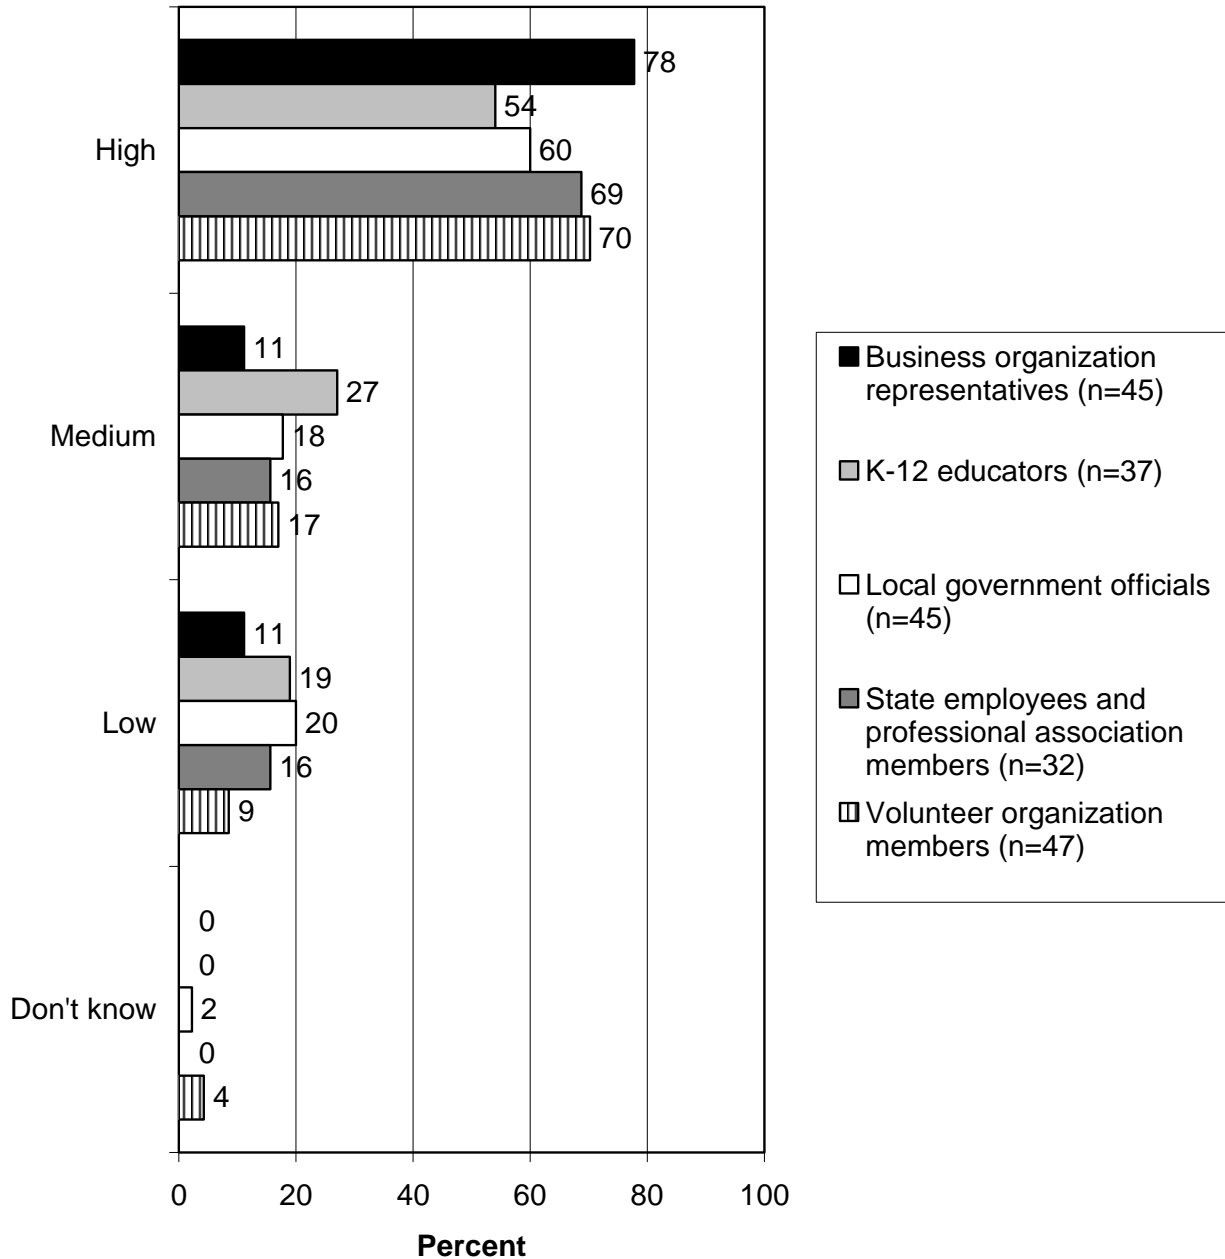

Q62. Do you professionally have a high, medium, or low need for coastal resource training or information on native plants?

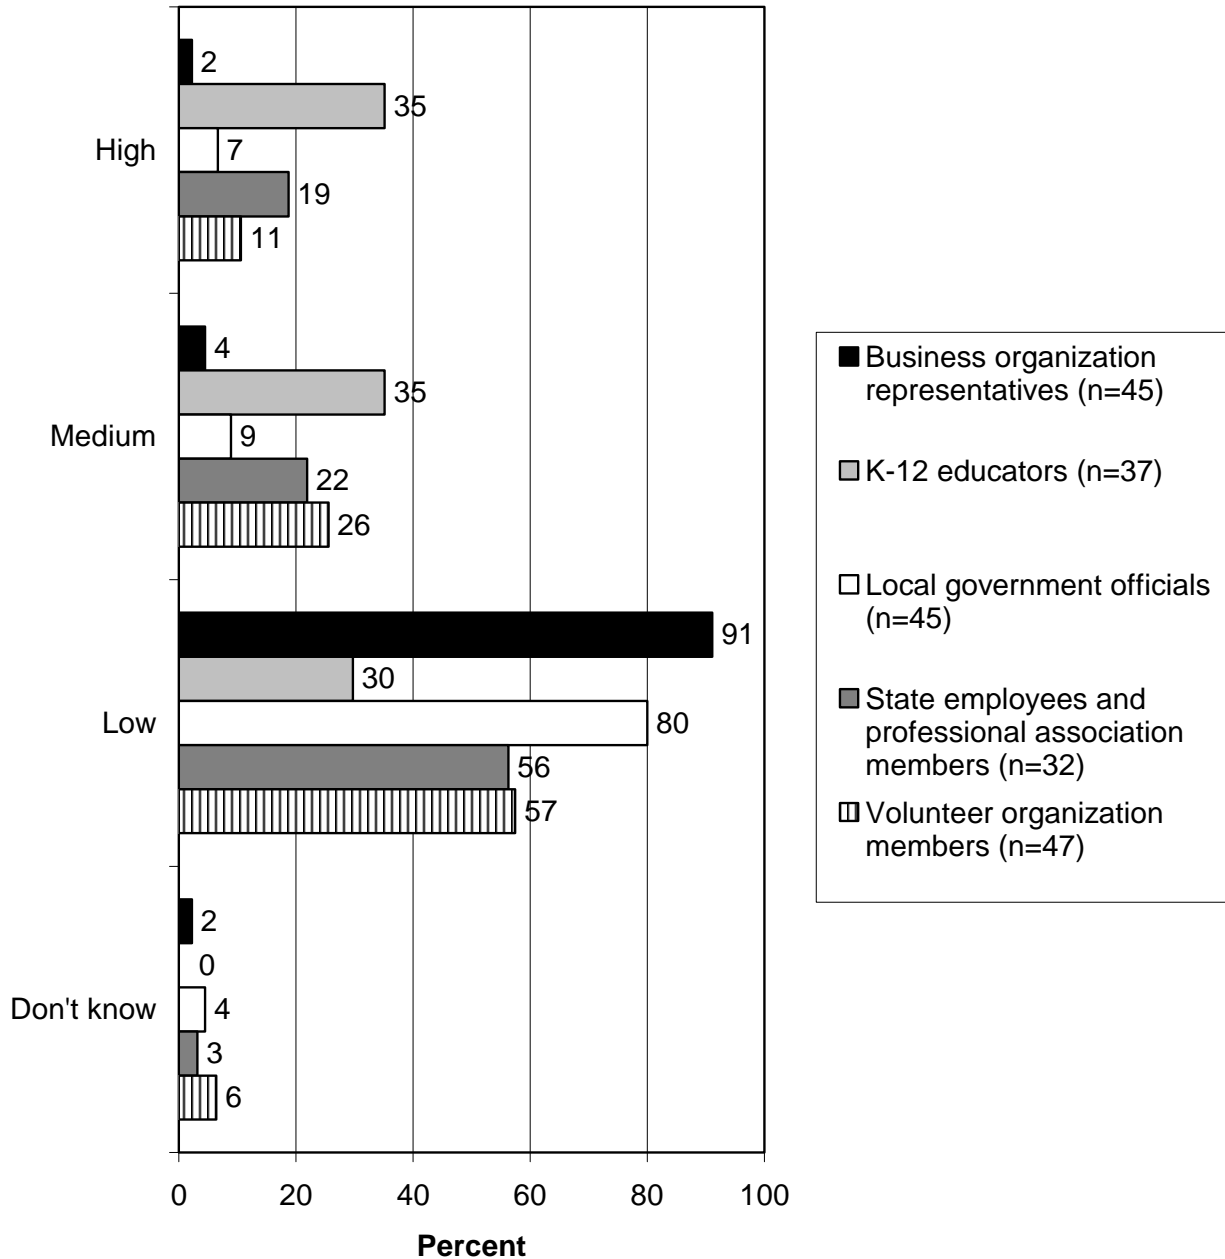

Q63. Do you professionally have a high, medium, or low need for coastal resource training or information on wildlife corridors?

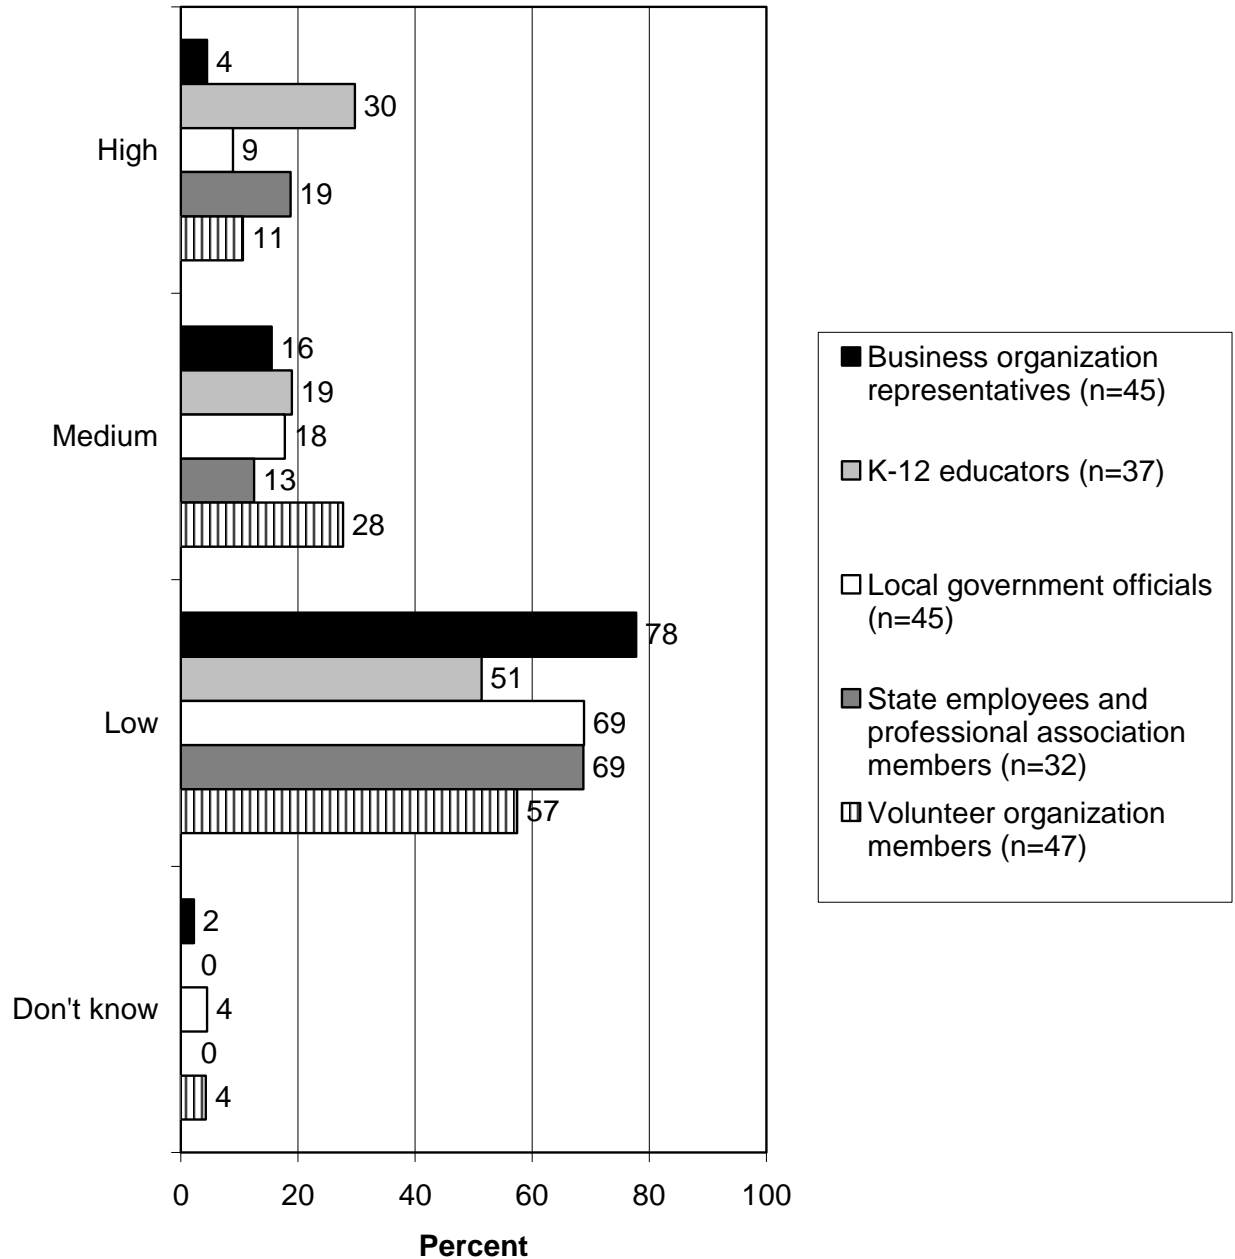

Q64. Do you professionally have a high, medium, or low need for coastal resource training or information on urban sprawl?

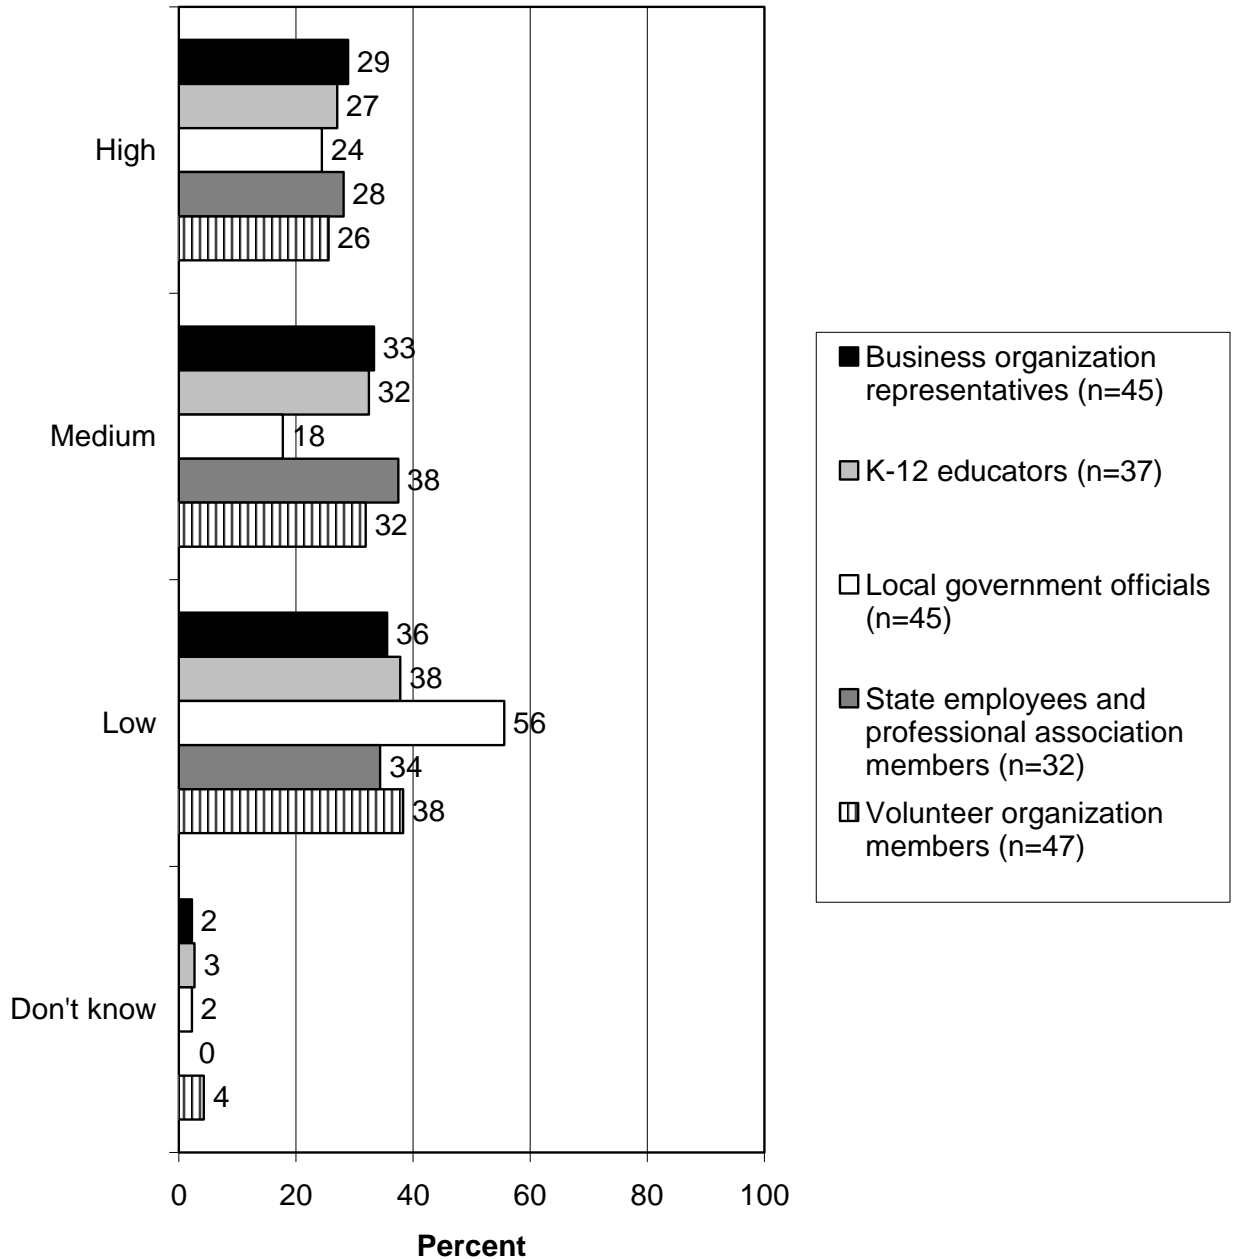

Q65. Do you professionally have a high, medium, or low need for coastal resource training or information on beach nourishment?

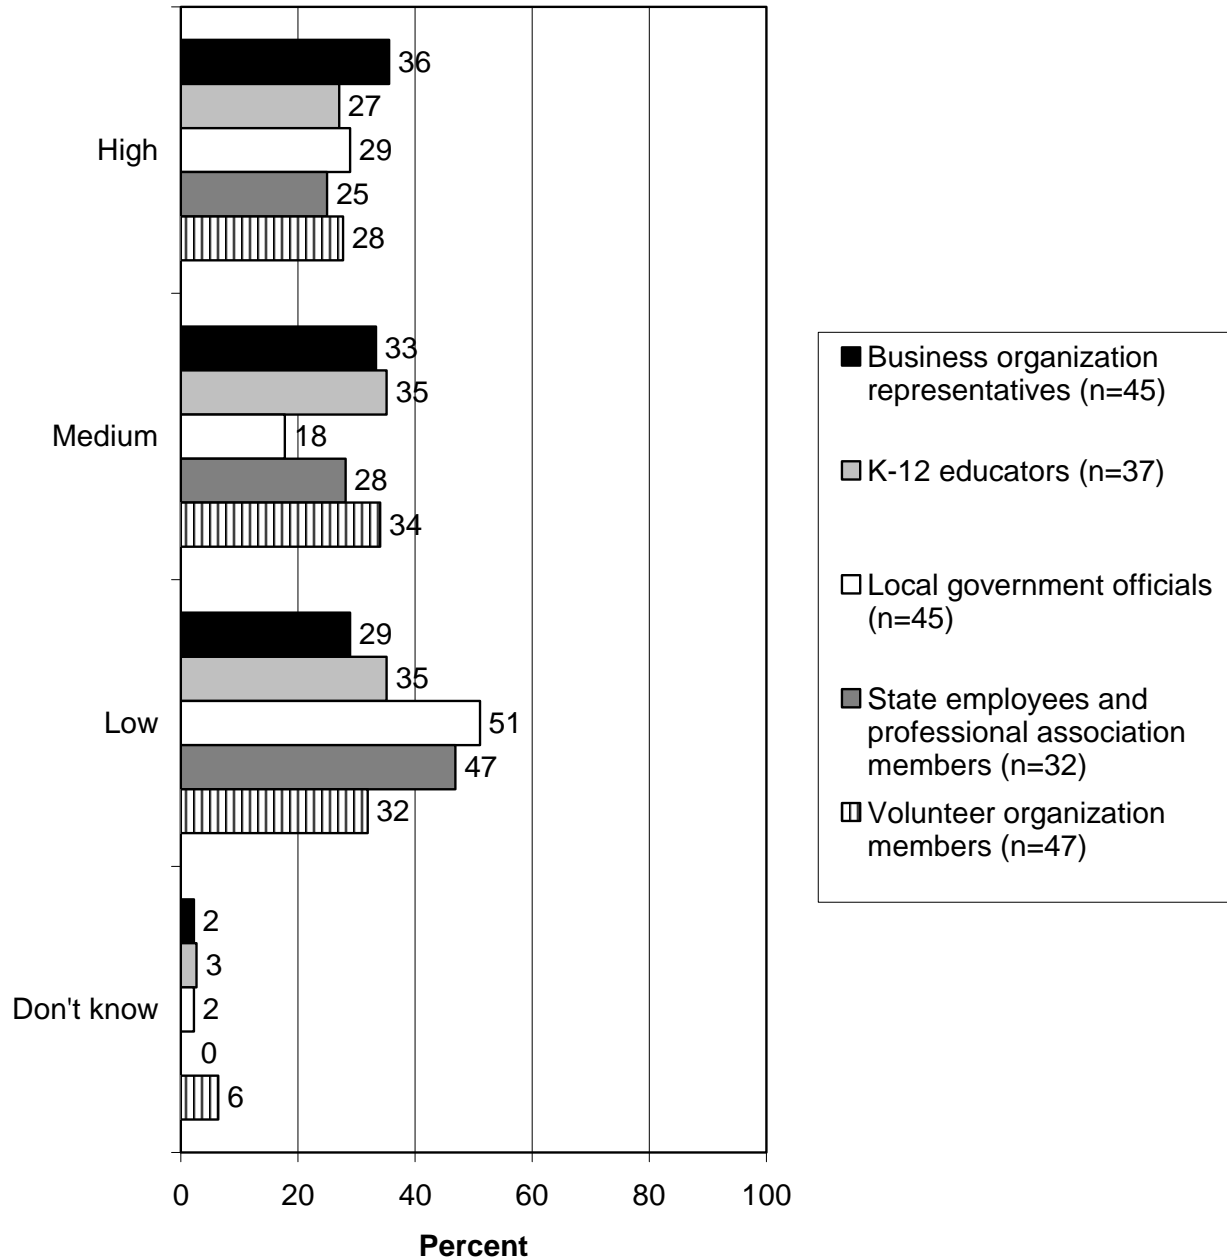

Q66. Do you professionally have a high, medium, or low need for coastal resource training or information on boat/marina management?

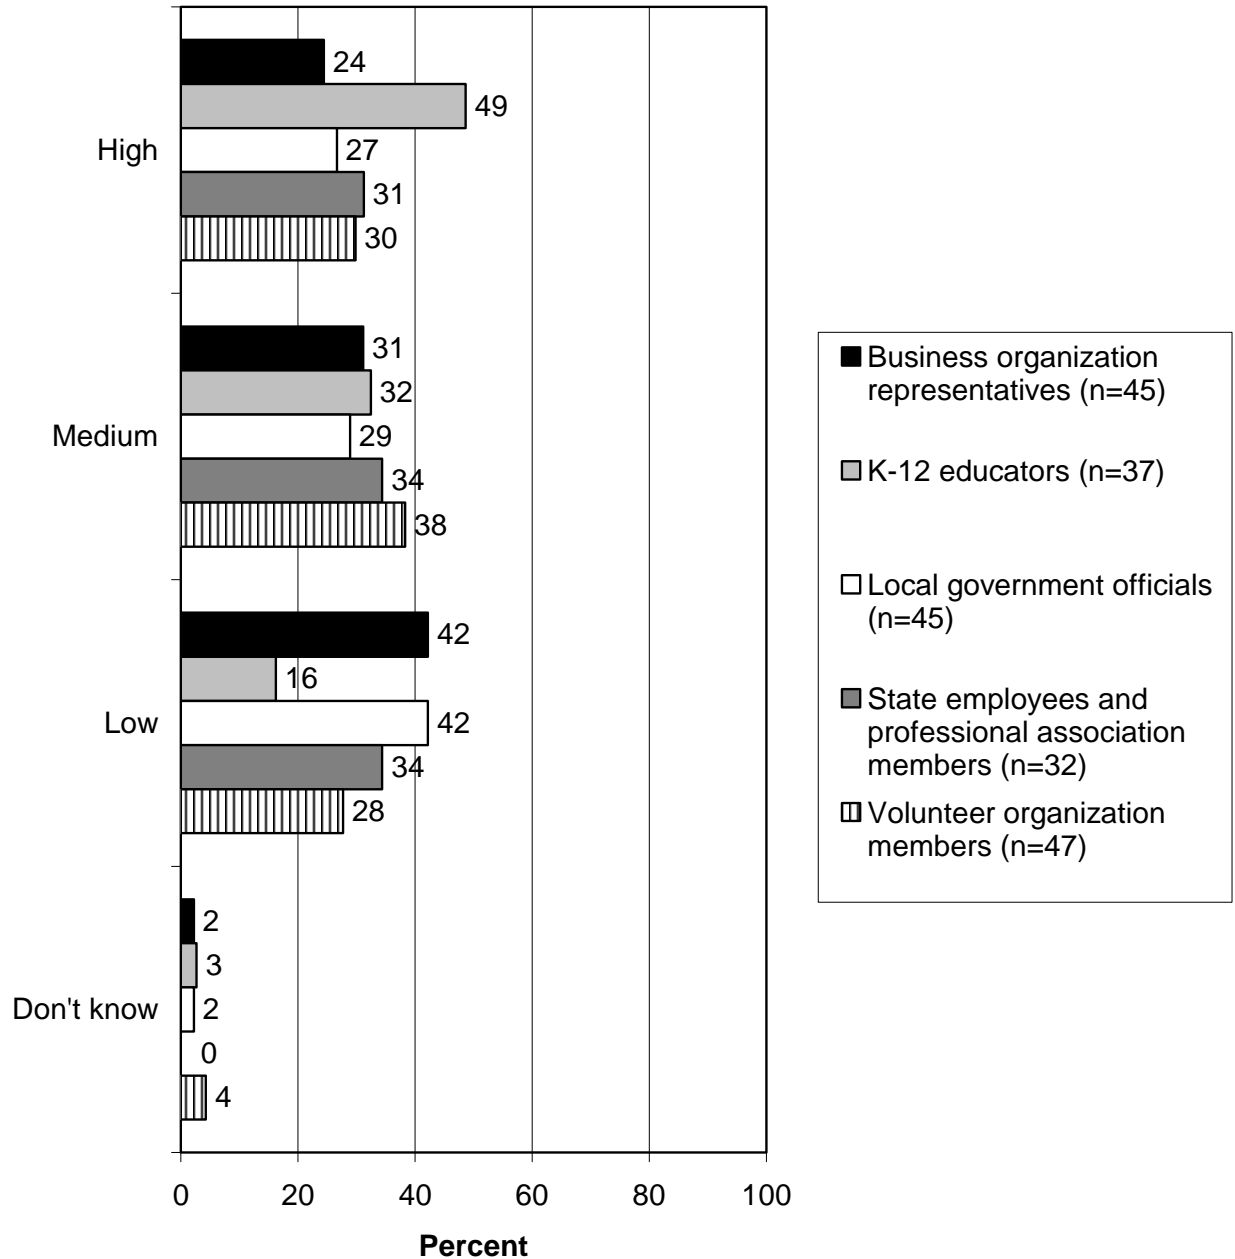

Q67. Do you professionally have a high, medium, or low need for coastal resource training or information on coastal community development?

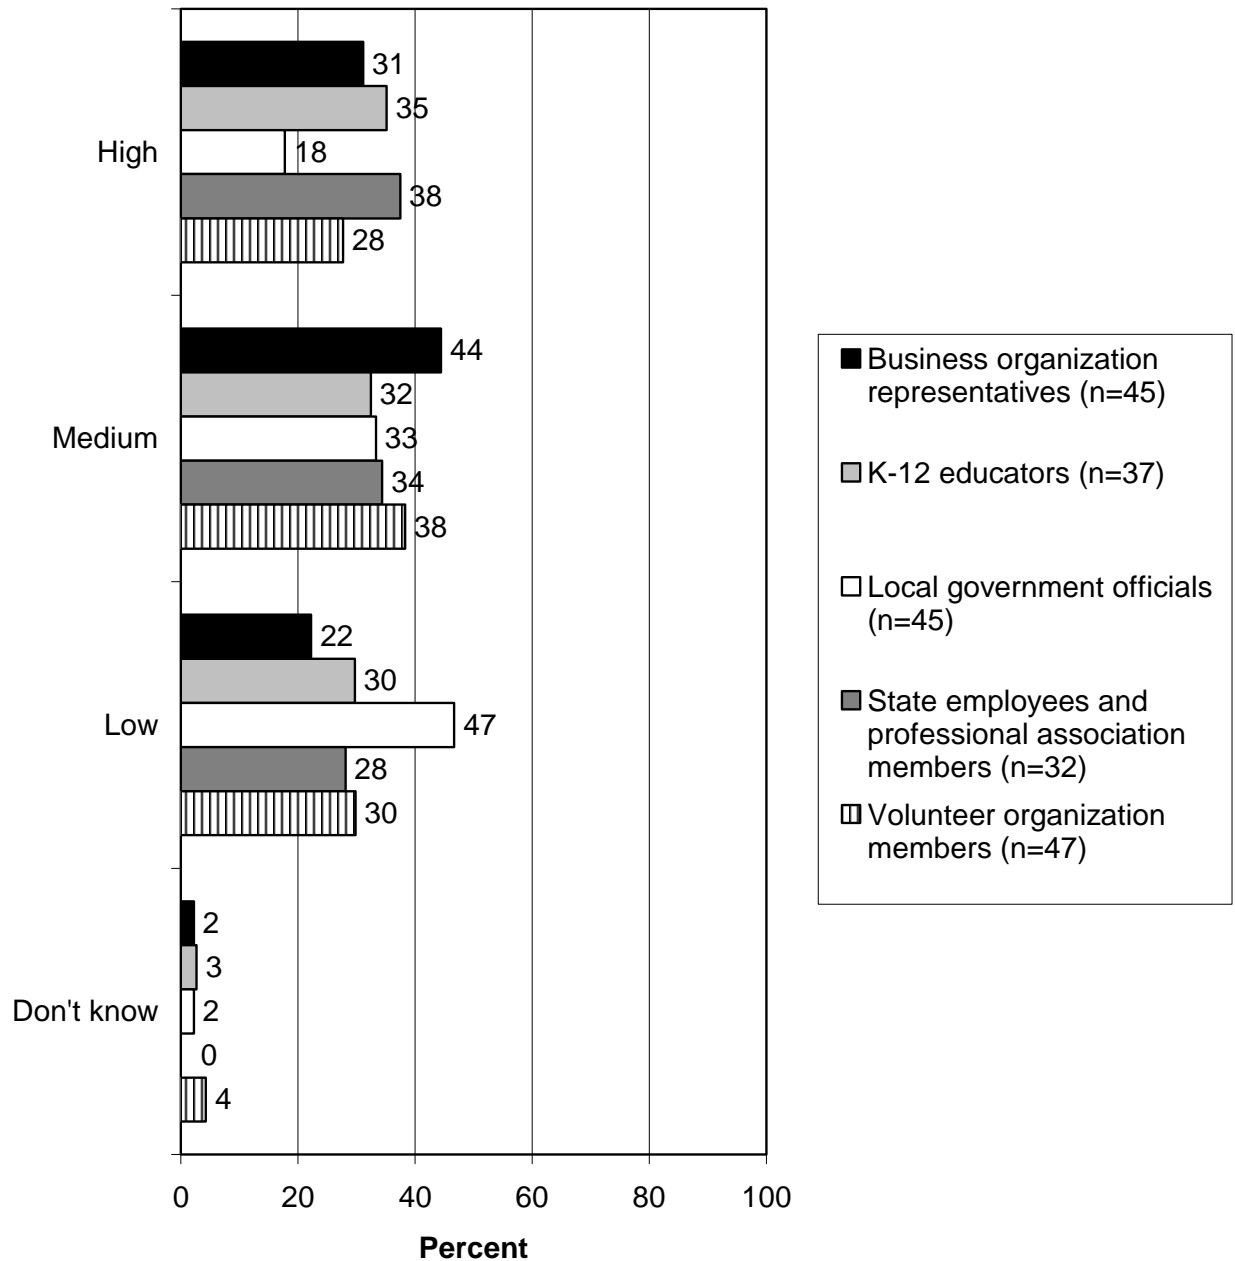

Q68. Do you professionally have a high, medium, or low need for coastal resource training or information on coastal construction?

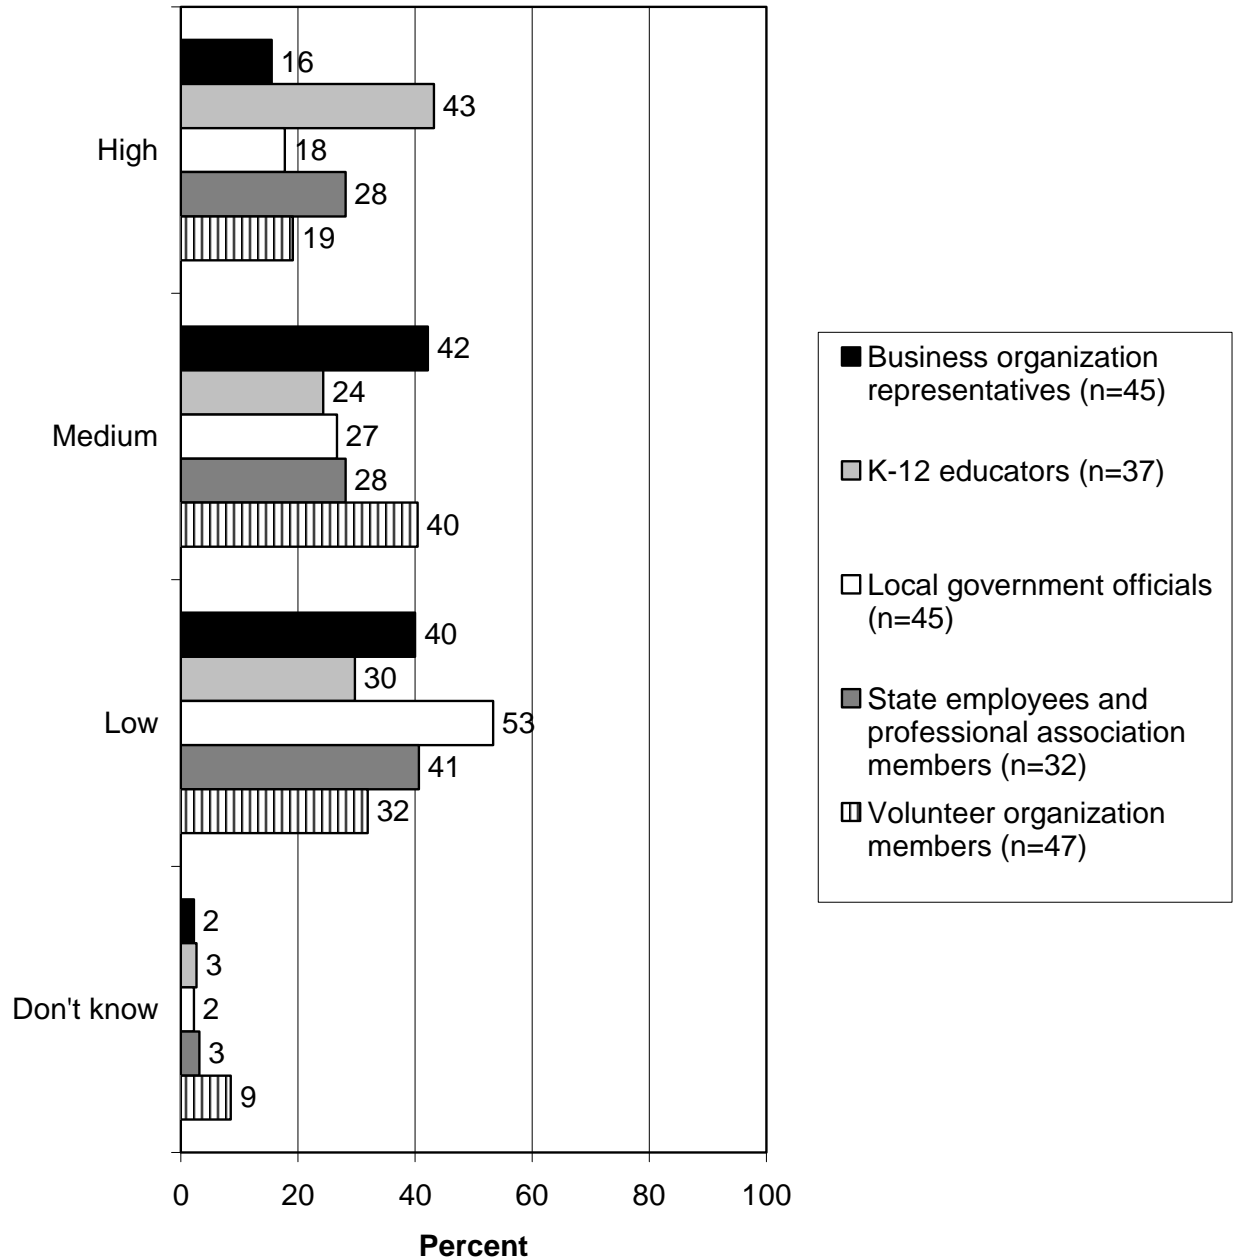

Q69. Do you professionally have a high, medium, or low need for coastal resource training or information on coastal erosion?

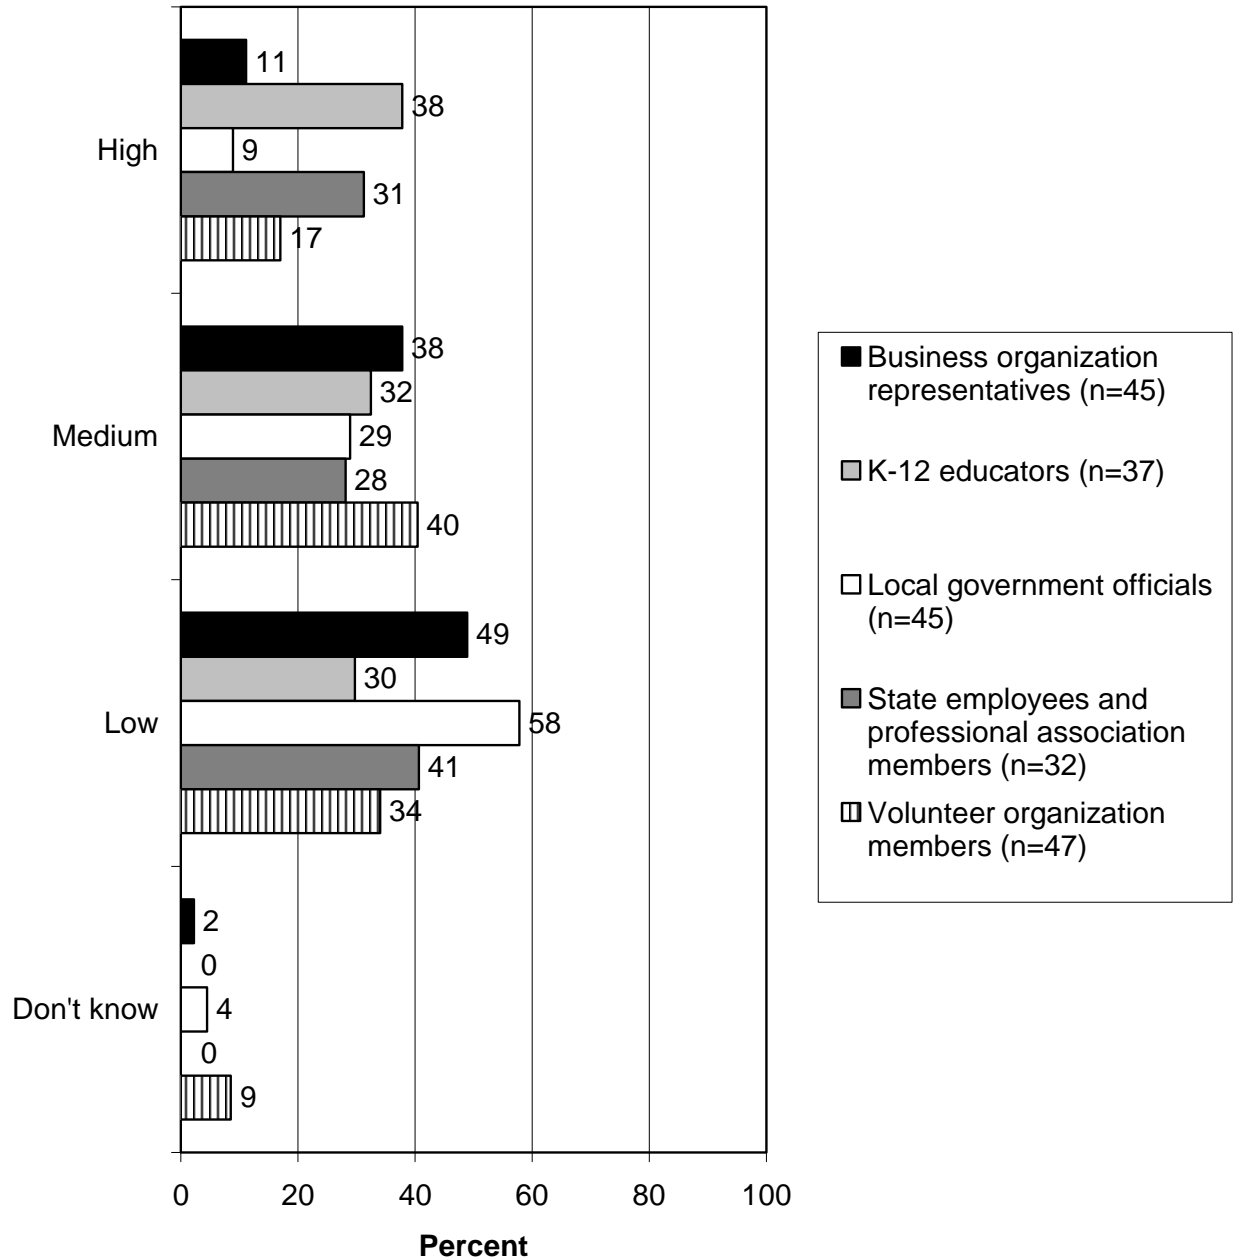

Q70. Do you professionally have a high, medium, or low need for coastal resource training or information on dredging and filling?

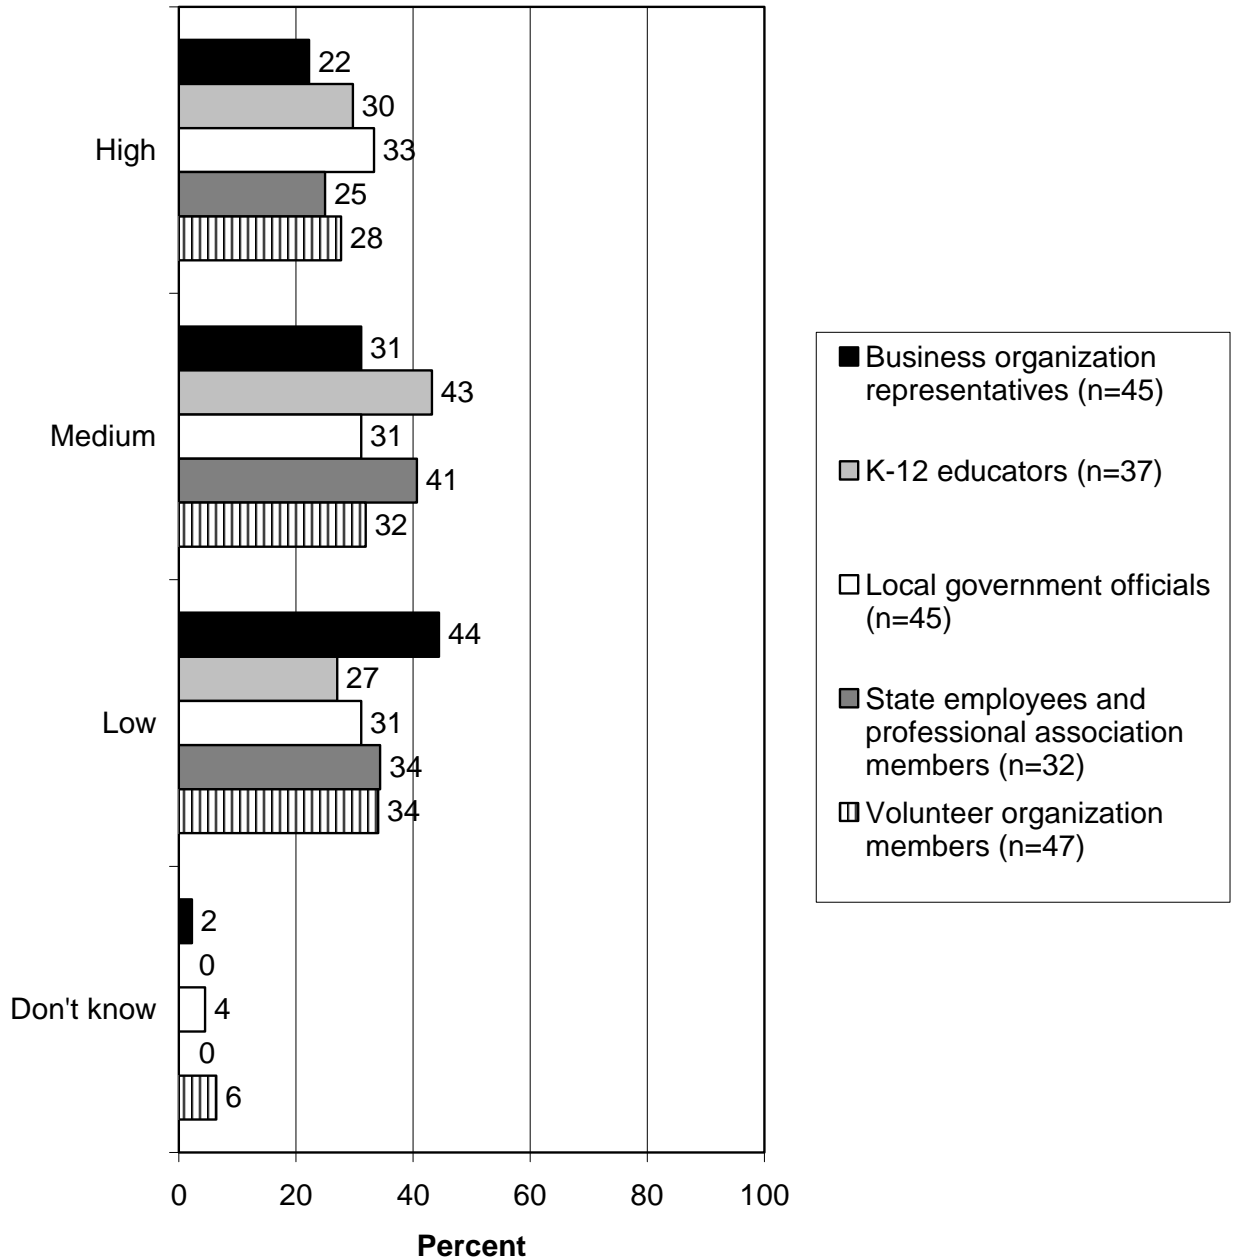

Q71. Do you professionally have a high, medium, or low need for coastal resource training or information on coastal hazards?

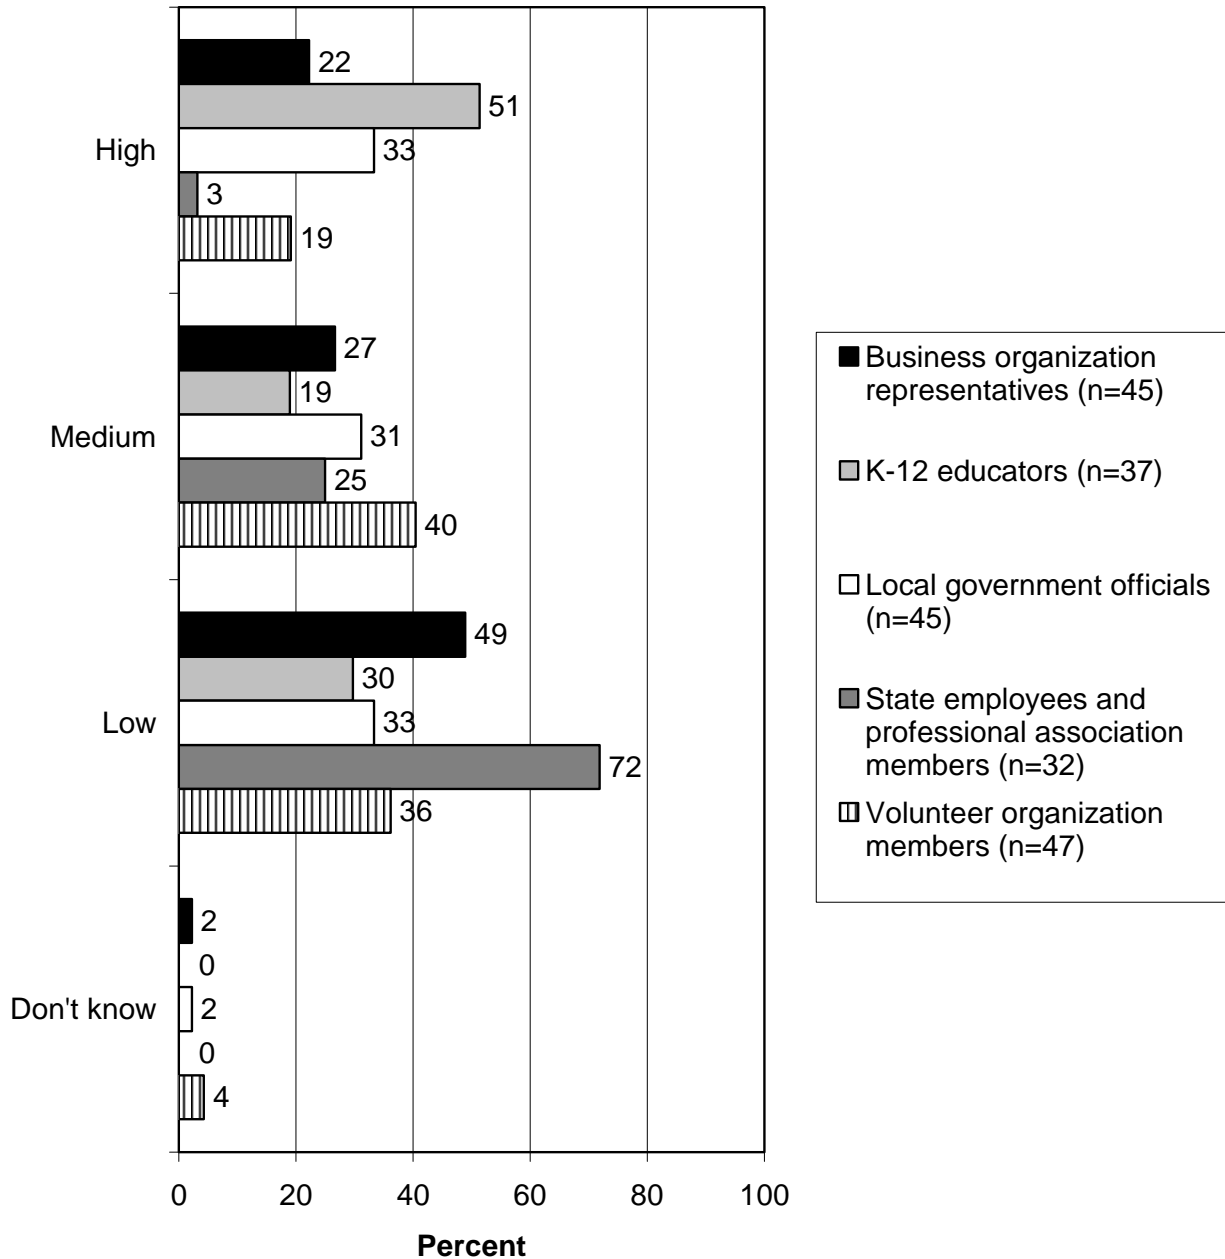

Q72. Do you professionally have a high, medium, or low need for coastal resource training or information on coastal processes/geology?

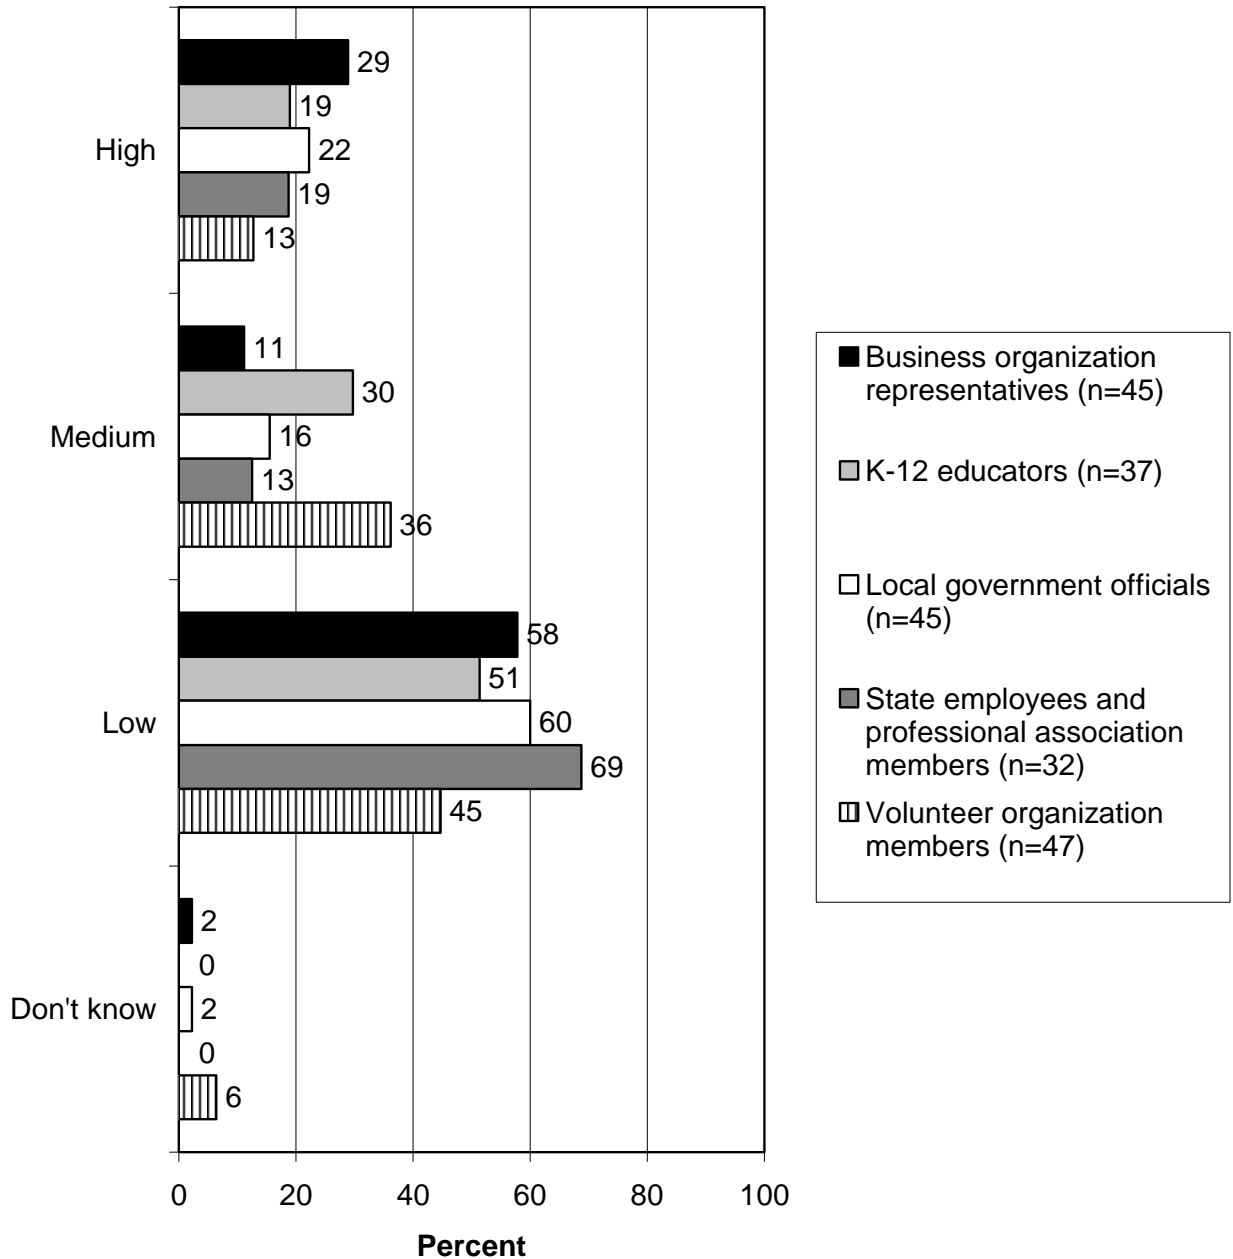

Q73. Do you professionally have a high, medium, or low need for coastal resource training or information on public access?

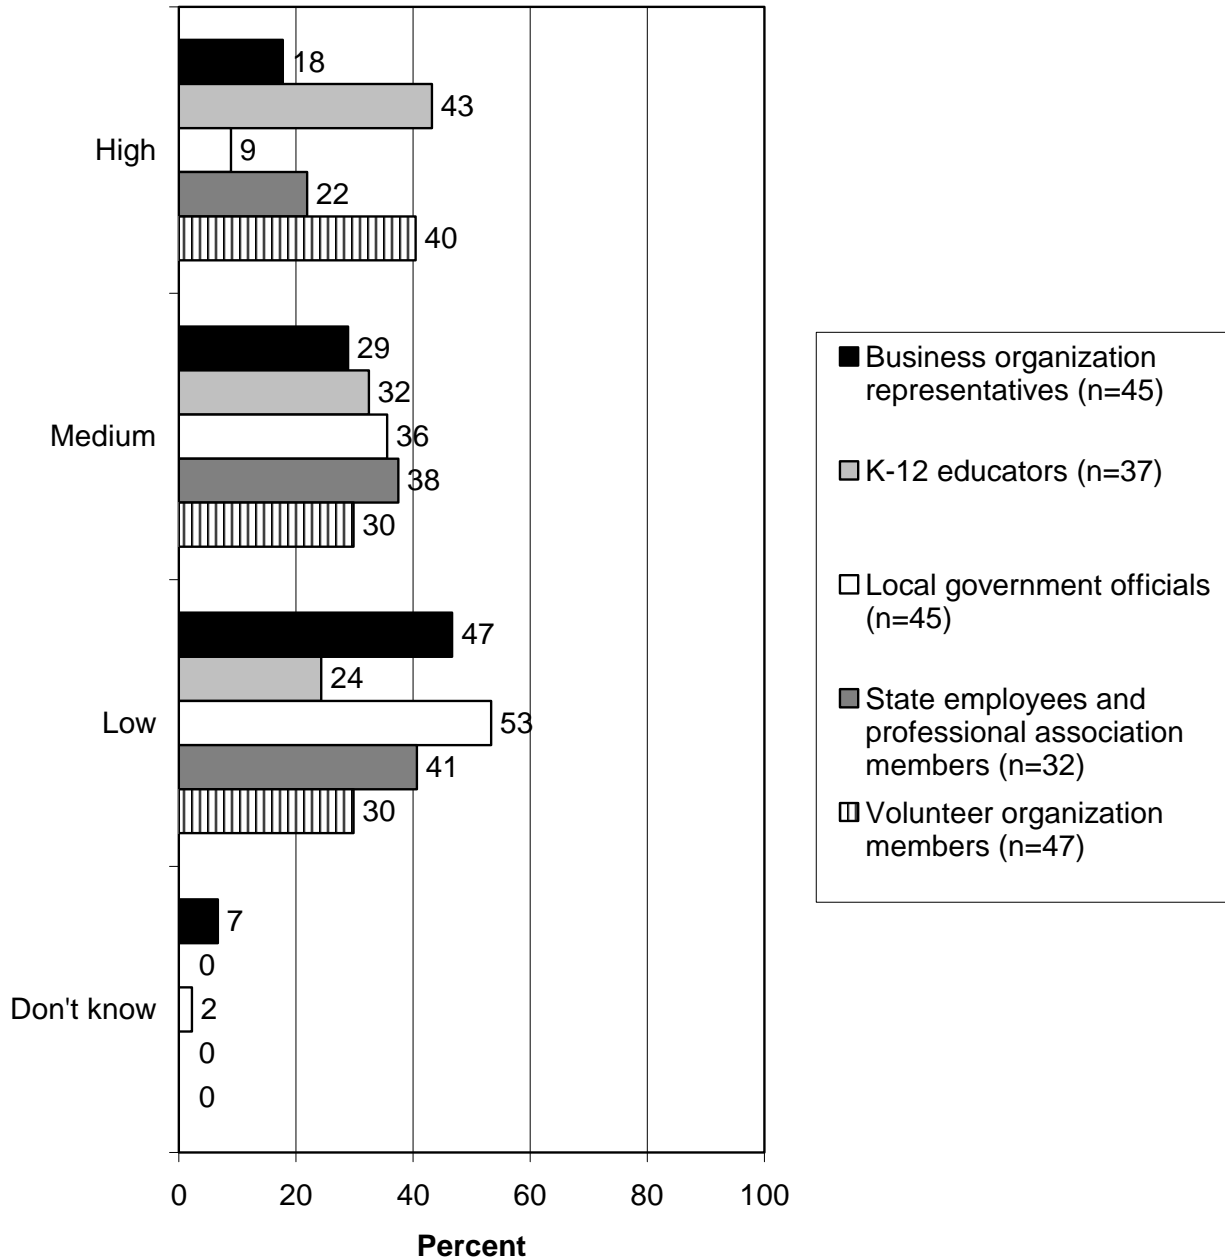

Q74. Do you professionally have a high, medium, or low need for coastal resource training or information on severe weather emergency management?

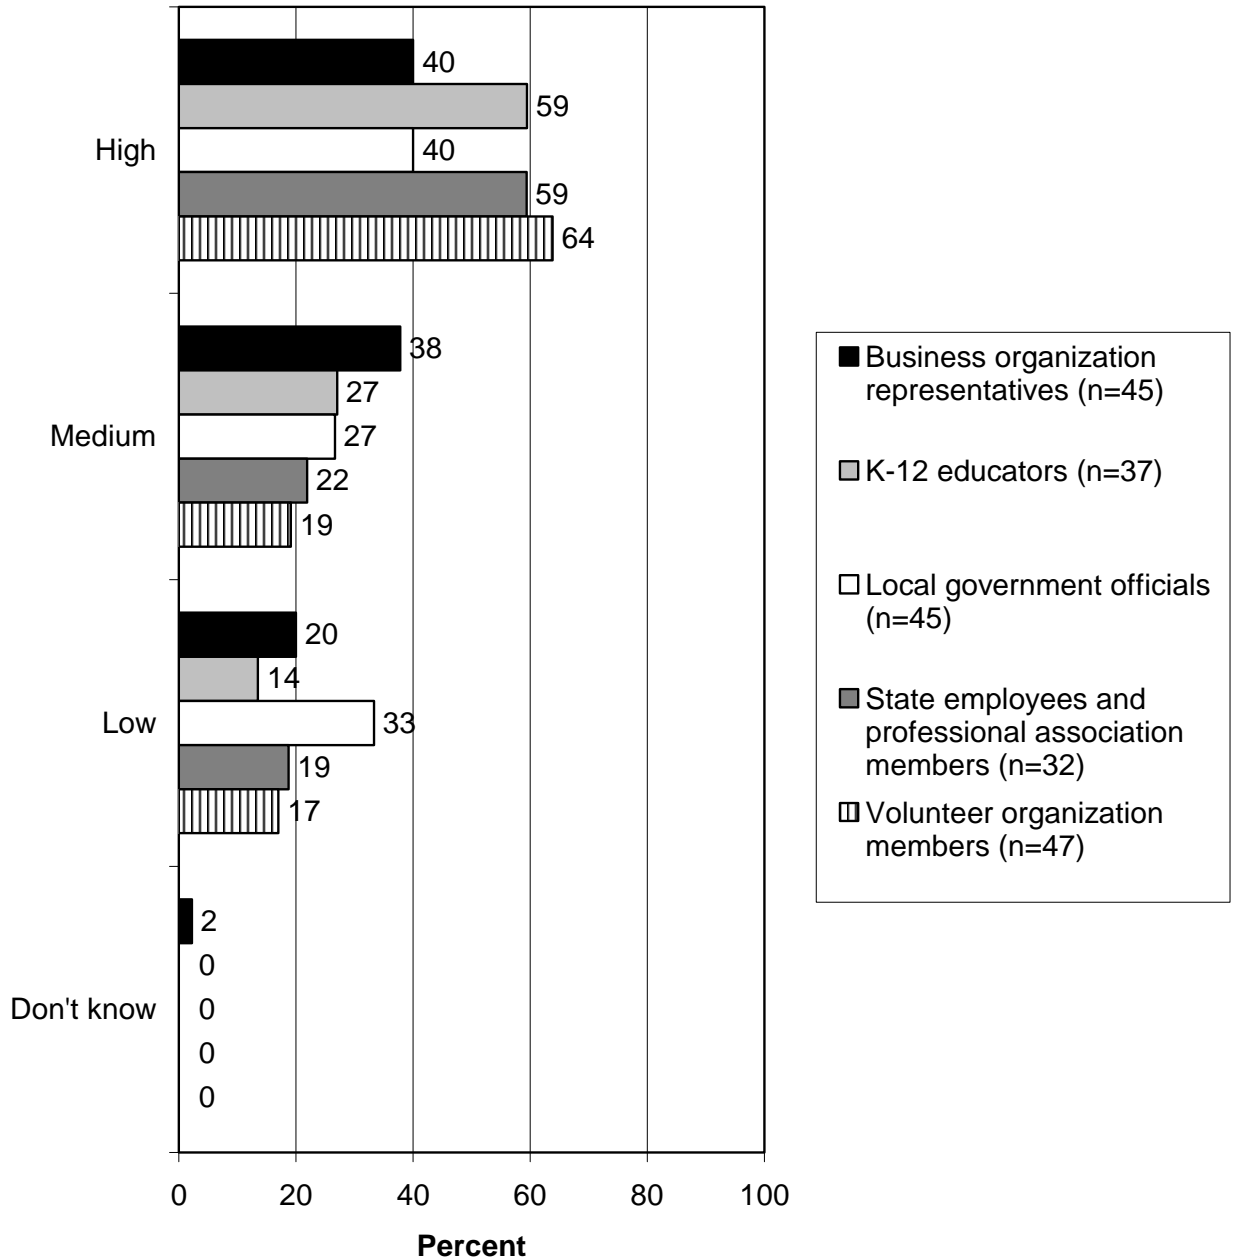

Q75. Do you professionally have a high, medium, or low need for coastal resource training or information on ports, navigation, and transportation planning?

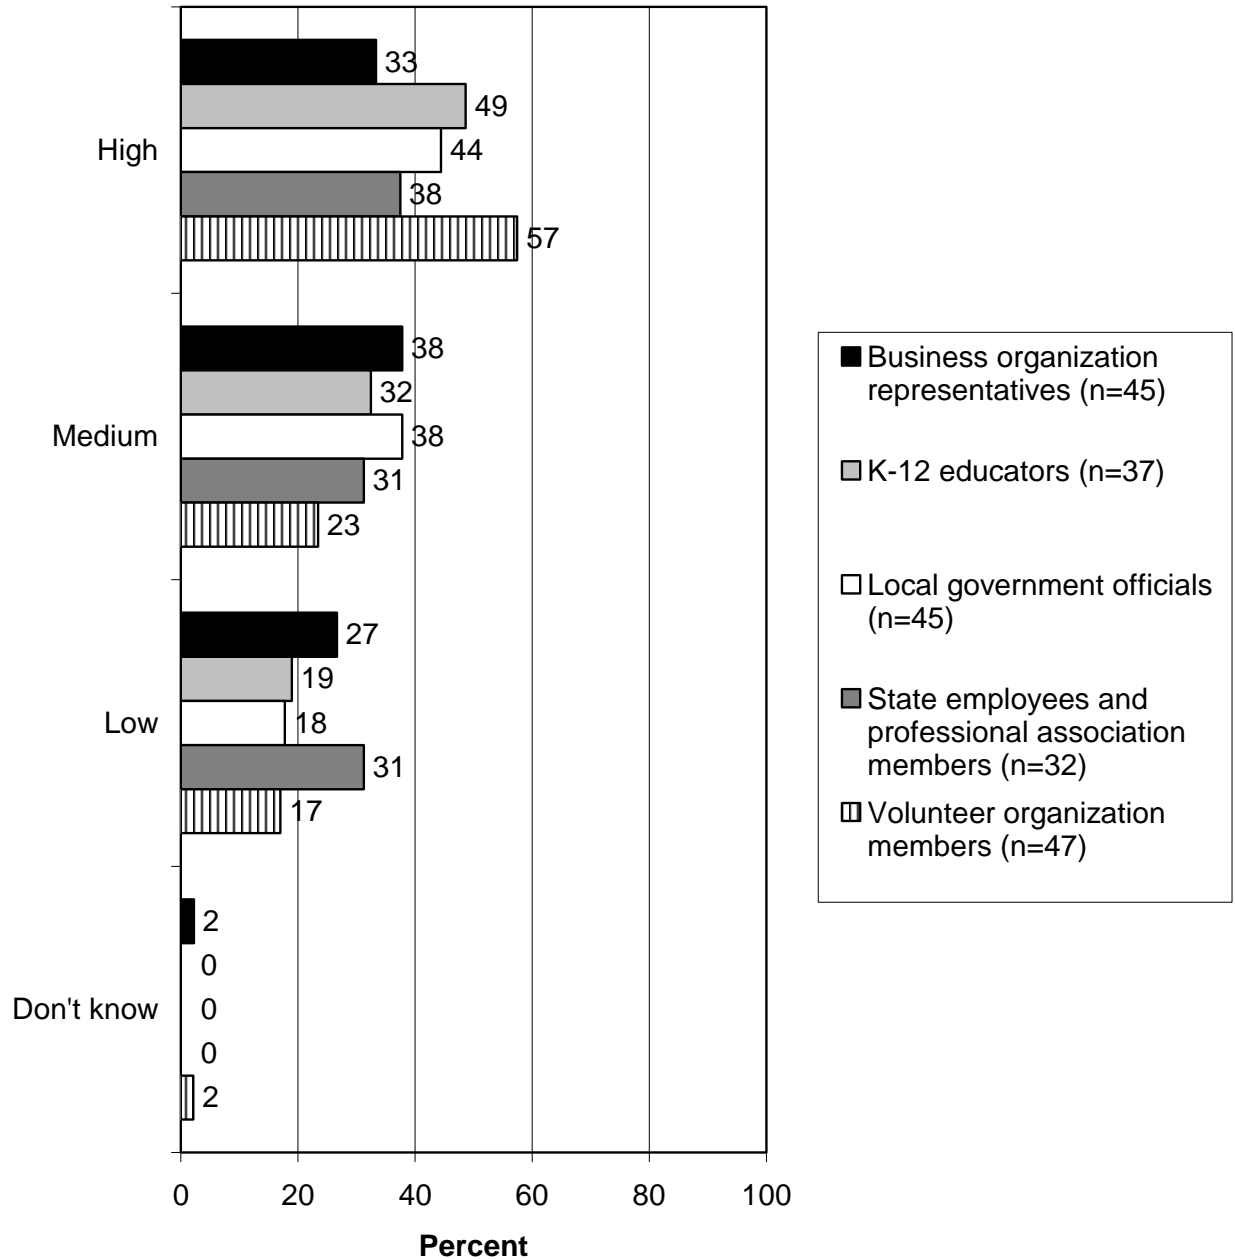

Q76. Do you professionally have a high, medium, or low need for coastal resource training or information on saltwater intrusion?

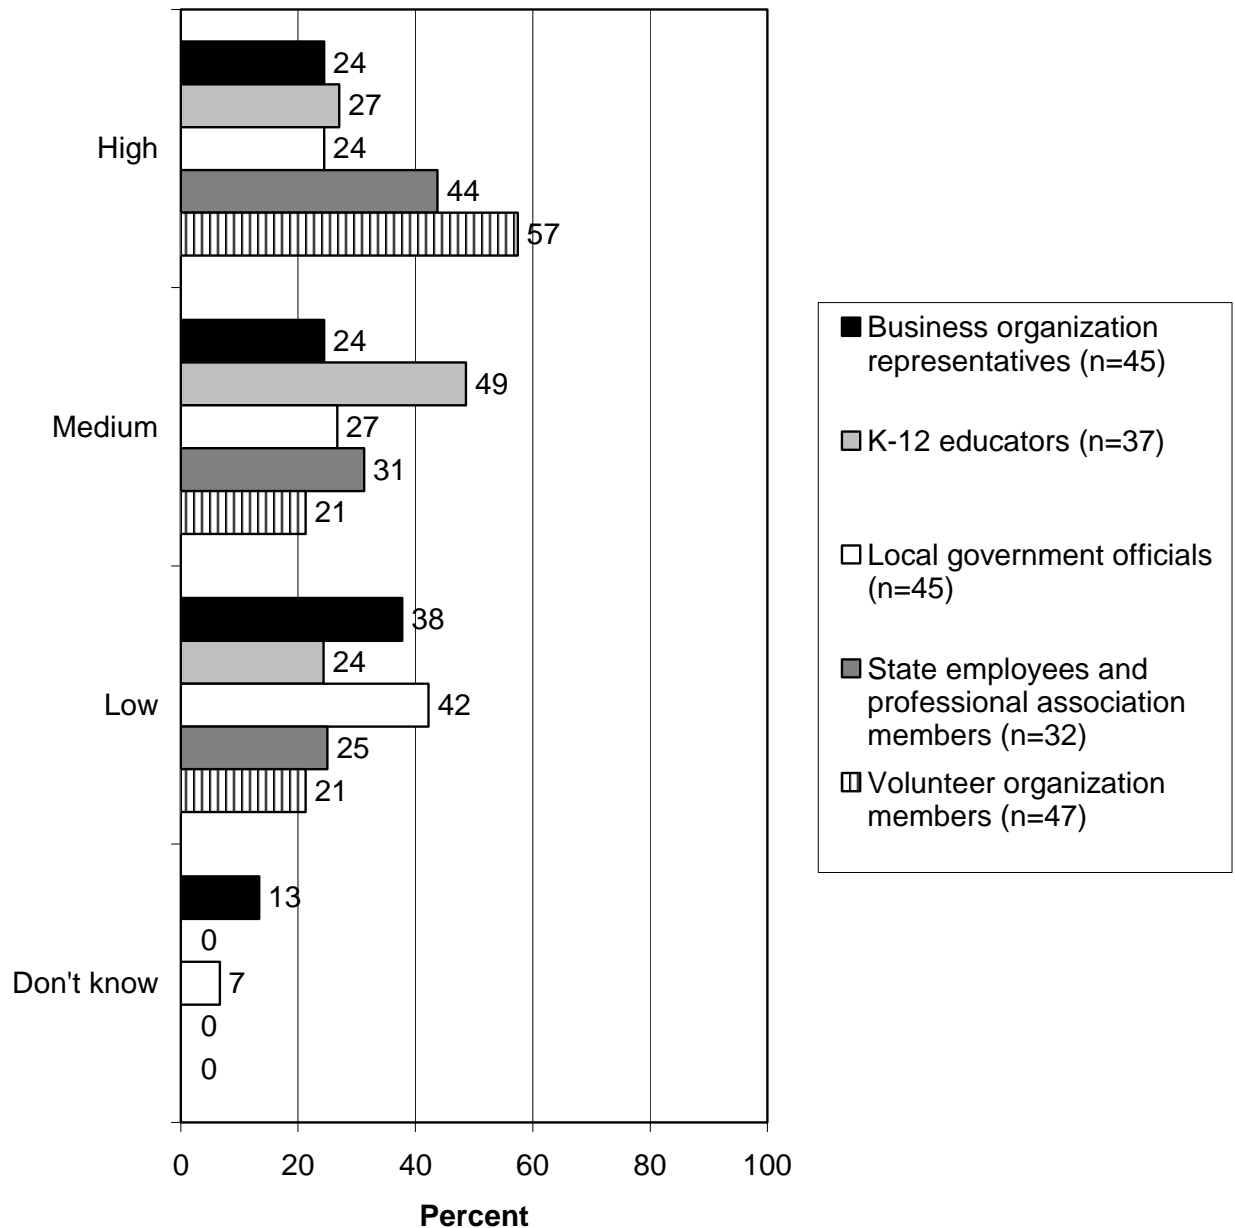

Q77. Do you professionally have a high, medium, or low need for coastal resource training or information on water quality in general?

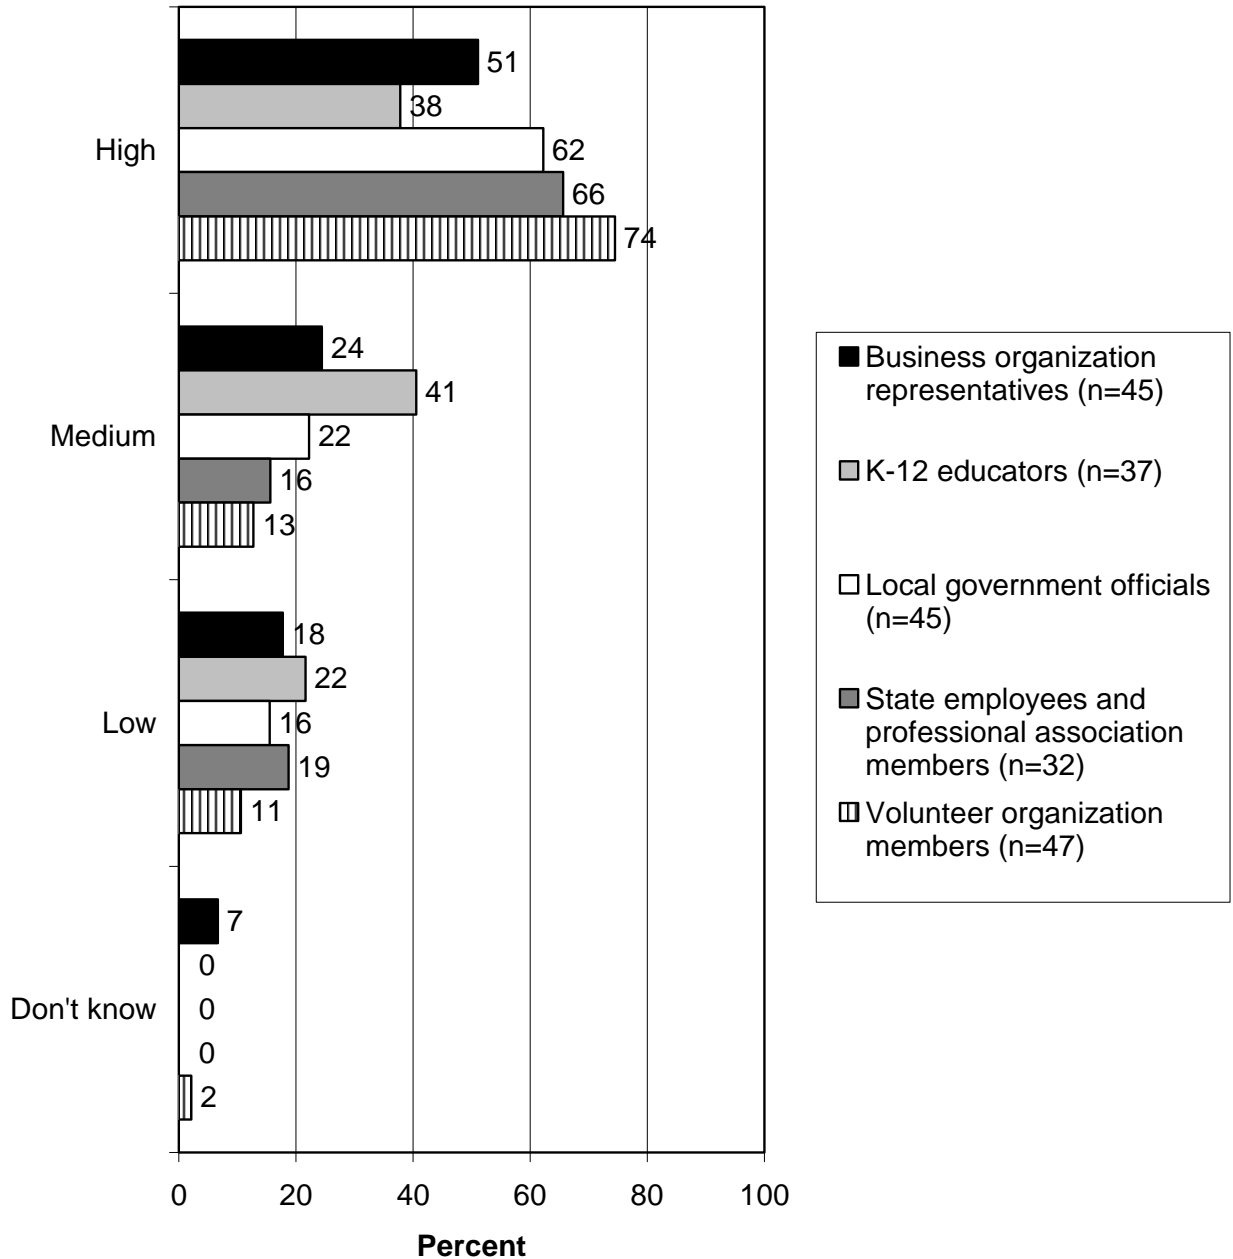

Q78. Do you professionally have a high, medium, or low need for coastal resource training or information on water quantity?

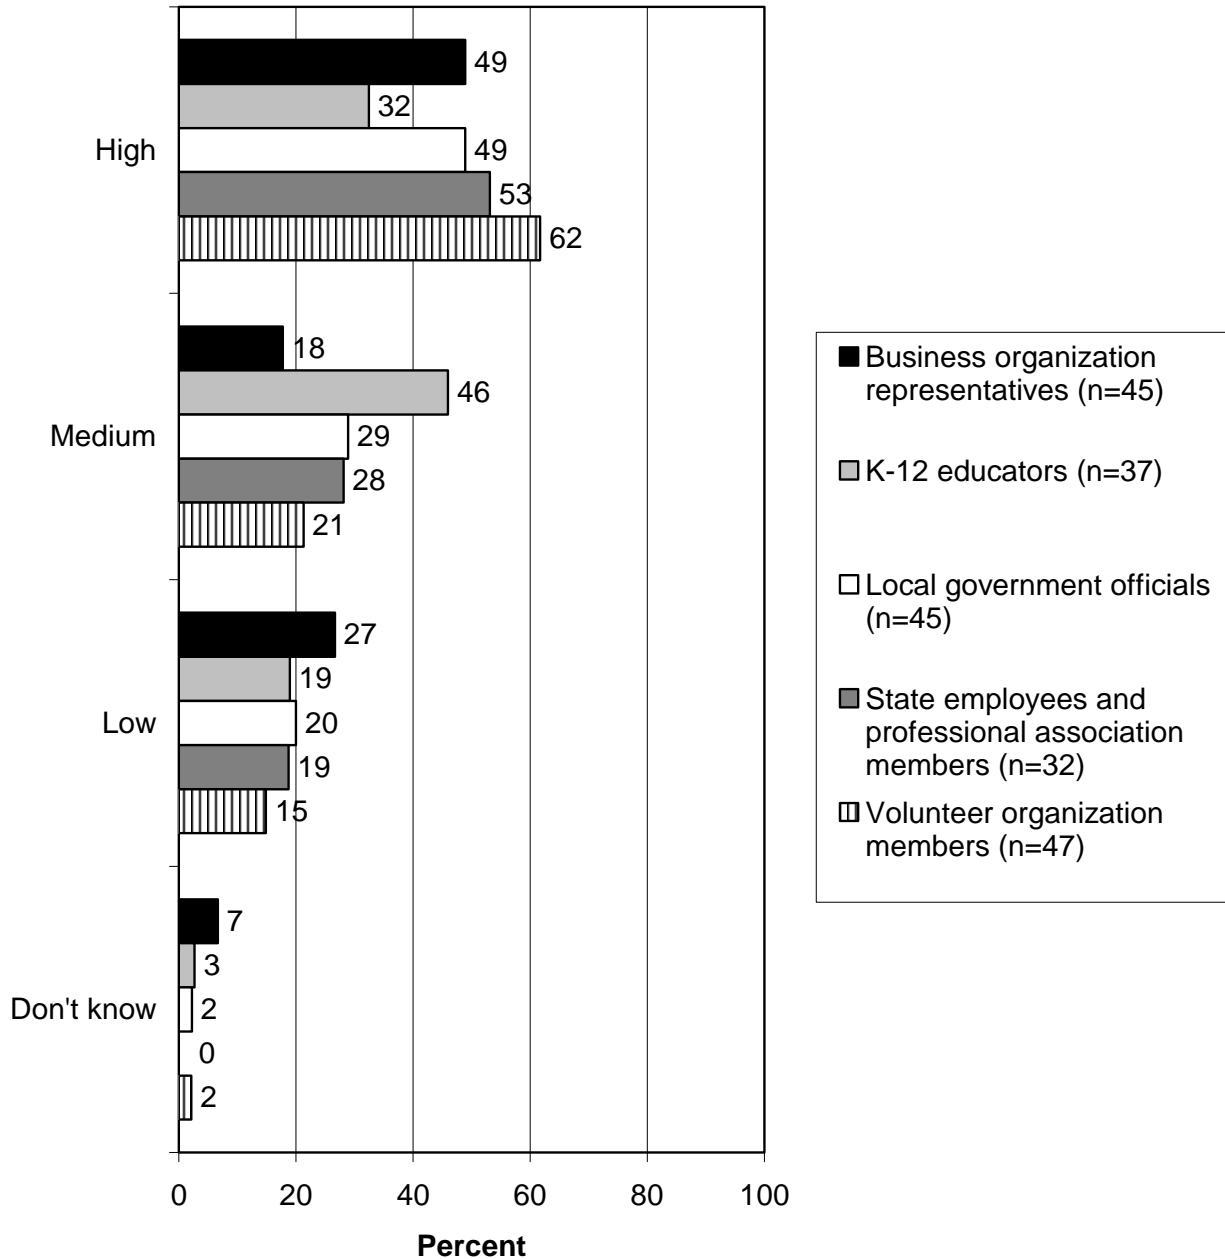

Q79. Do you professionally have a high, medium, or low need for coastal resource training or information on eutrophication (excessive enrichment of waters with nutrients and the associated adverse biological effects)?

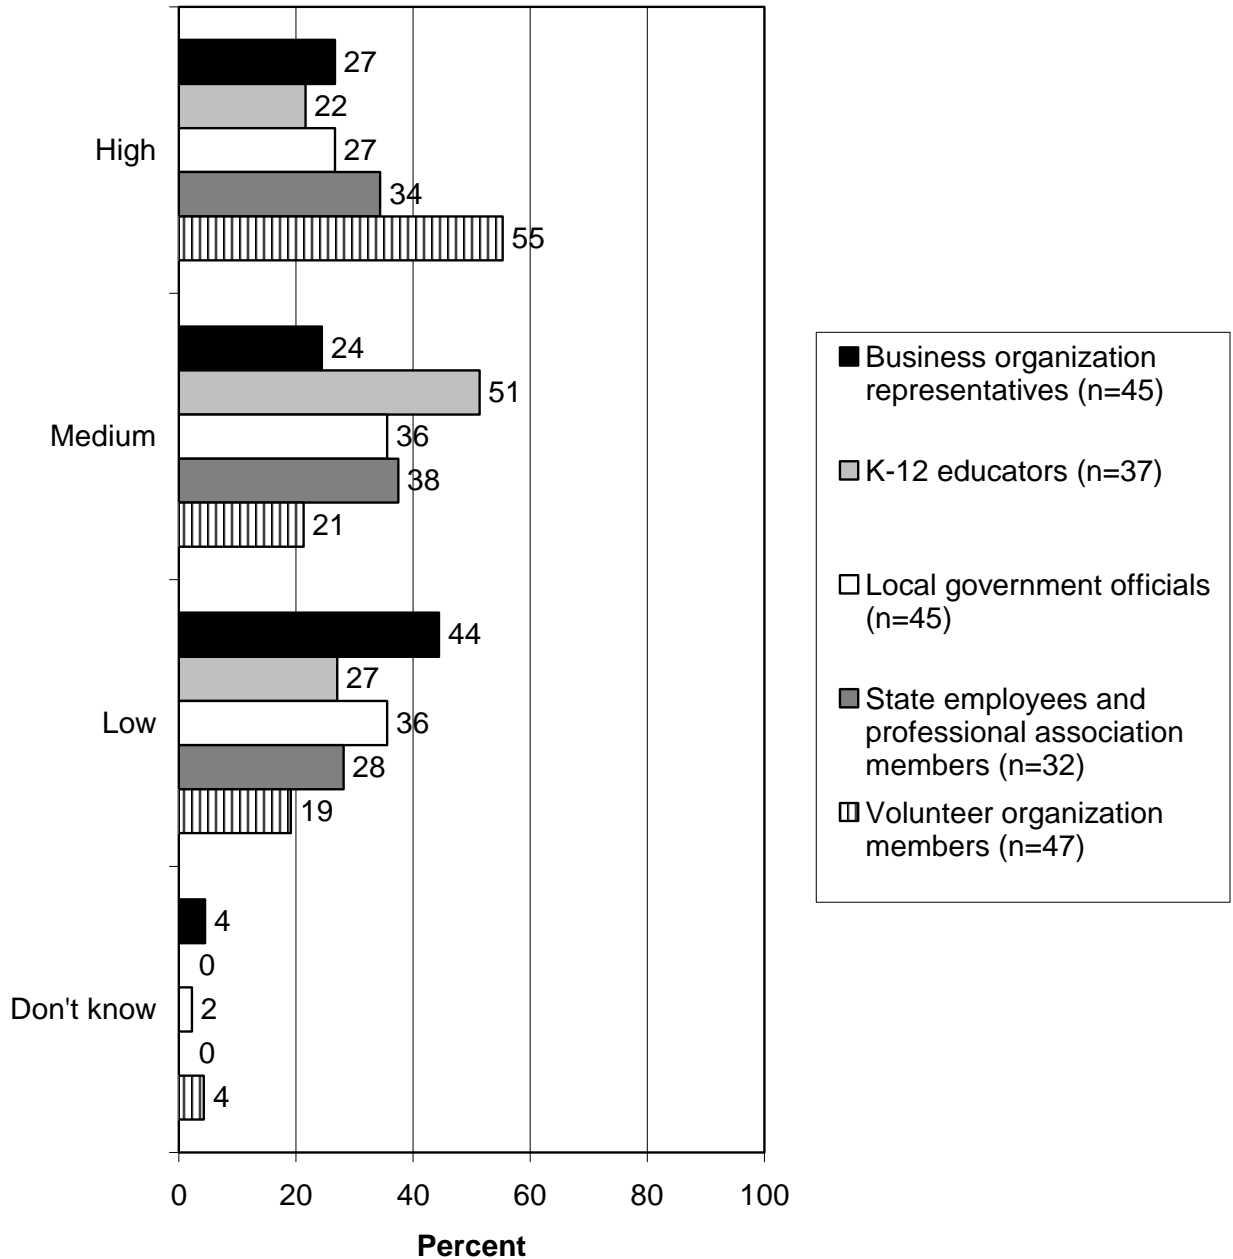

Q80. Do you professionally have a high, medium, or low need for coastal resource training or information on nonpoint source pollution?

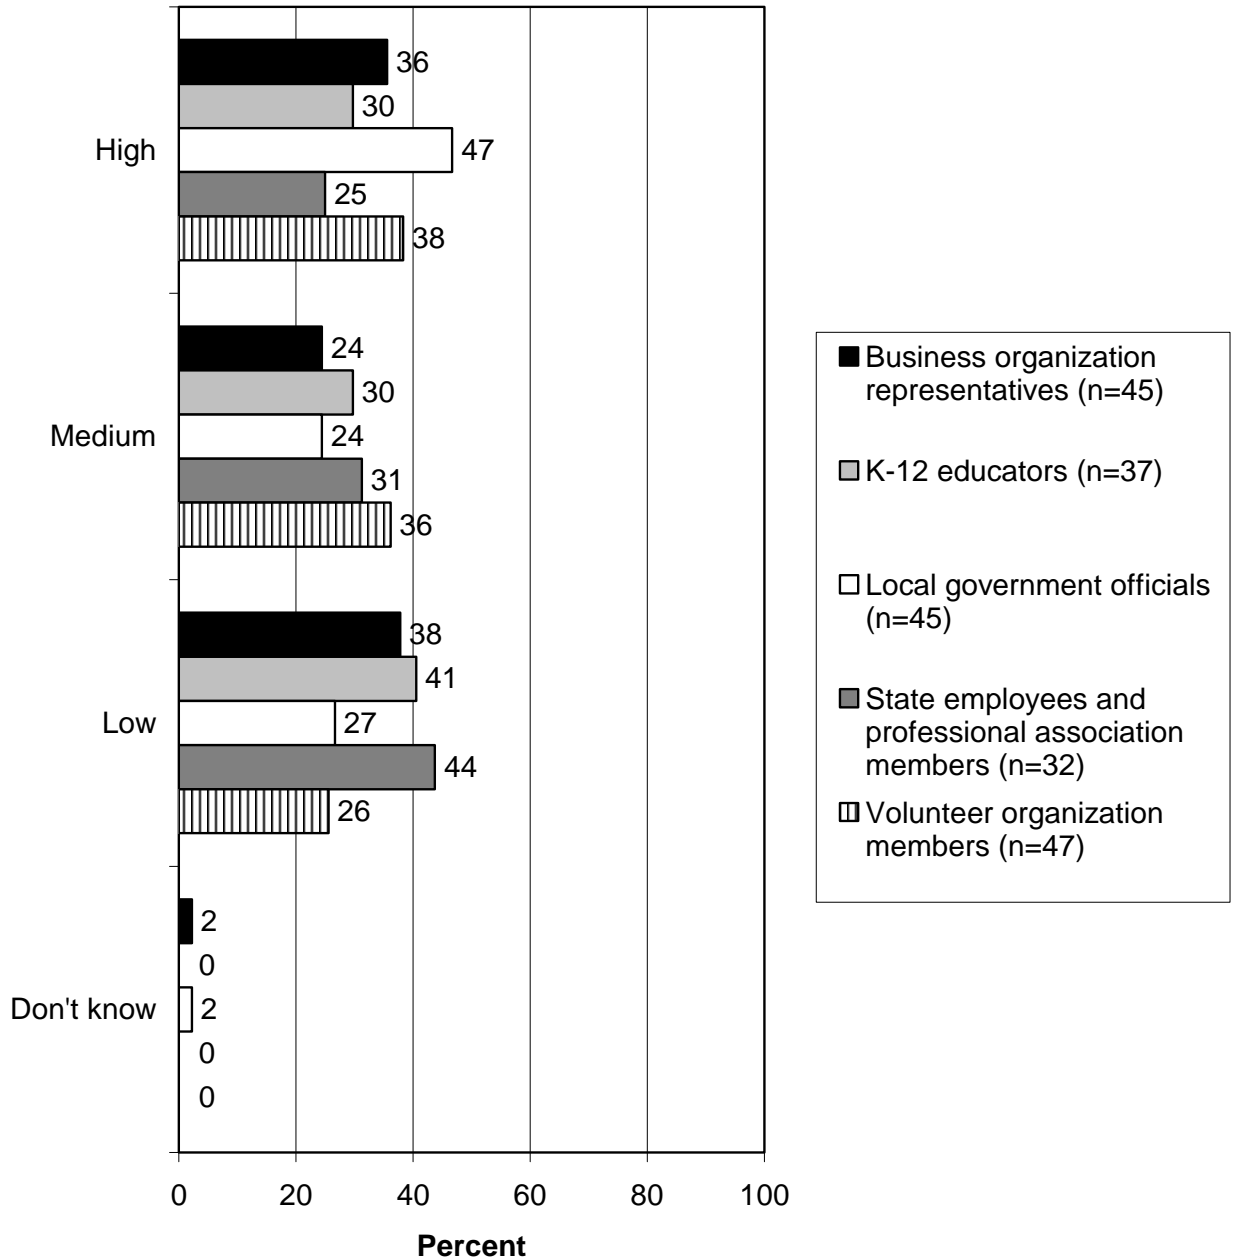

Q81. Do you professionally have a high, medium, or low need for coastal resource training or information on point source pollution?

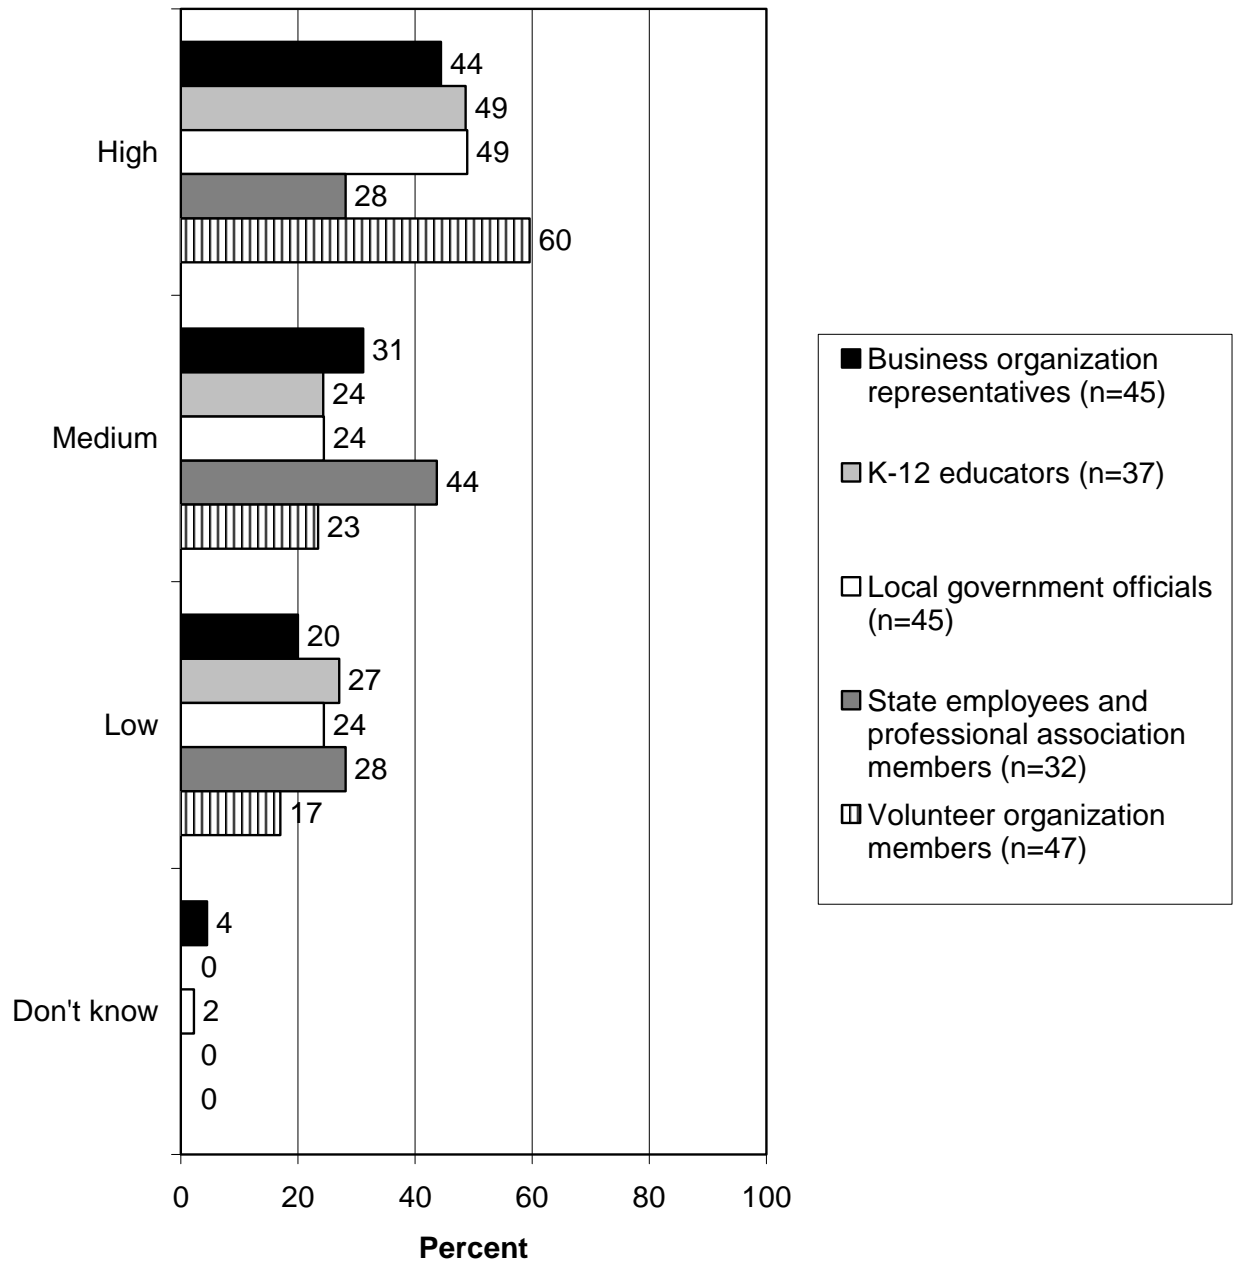

Q82. Do you professionally have a high, medium, or low need for coastal resource training or information on sedimentation?

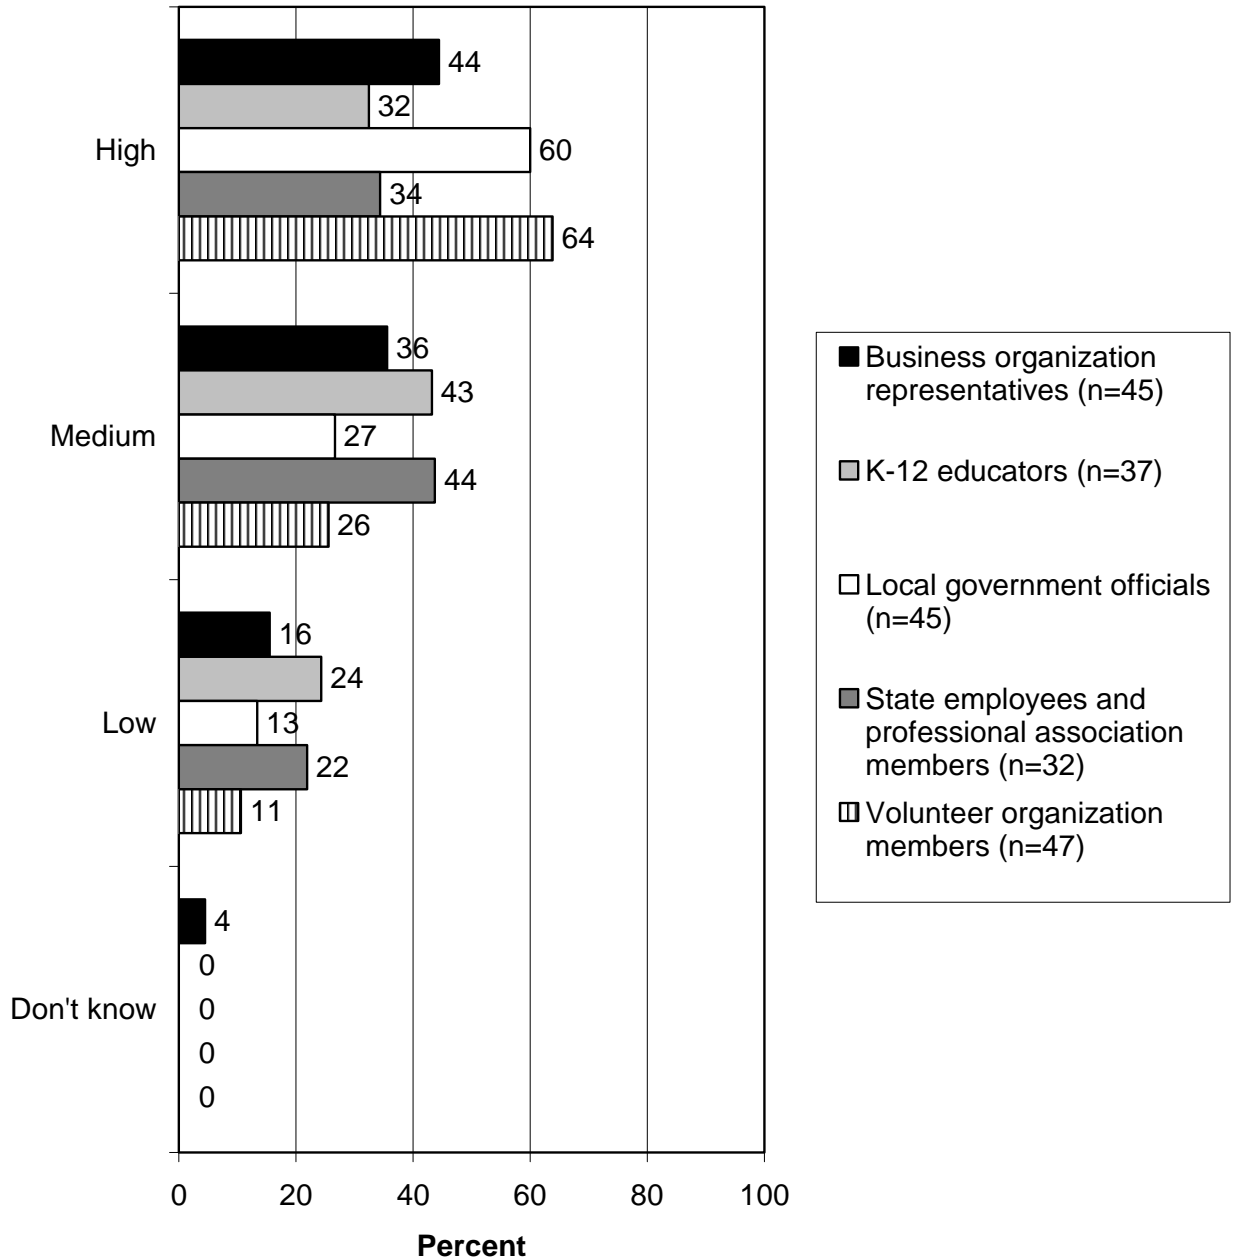

Q83. Do you professionally have a high, medium, or low need for coastal resource training or information on septic system issues?

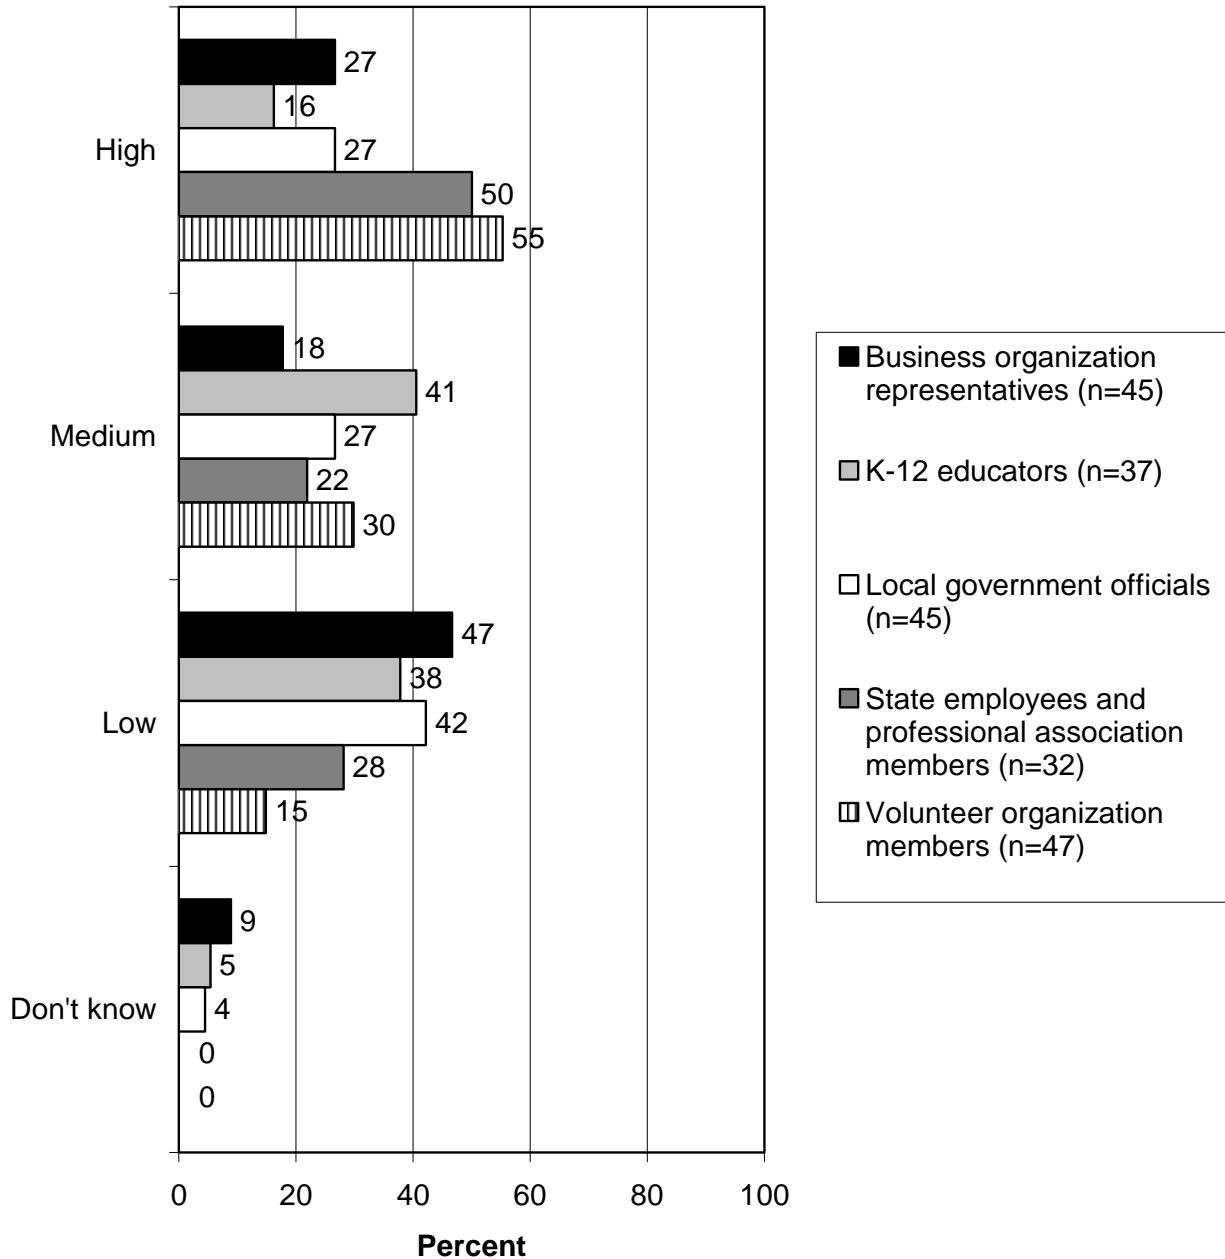

Q84. Do you professionally have a high, medium, or low need for coastal resource training or information on wastewater management?

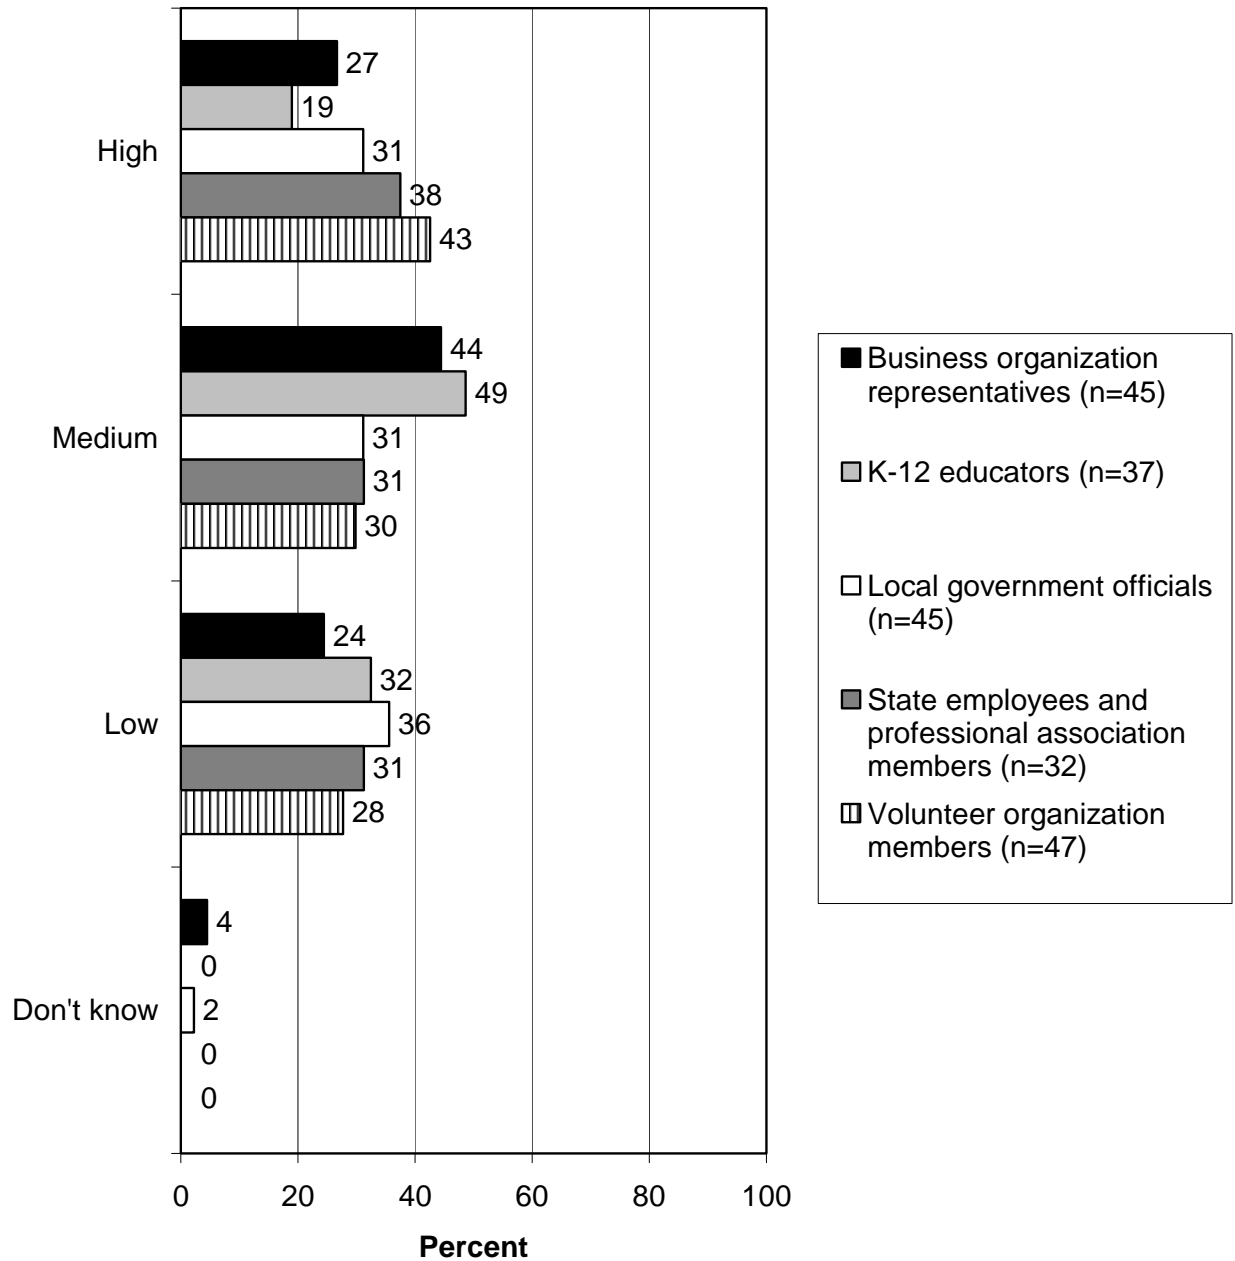

Q85. Do you professionally have a high, medium, or low need for coastal resource training or information on storm water protection and cleanup?

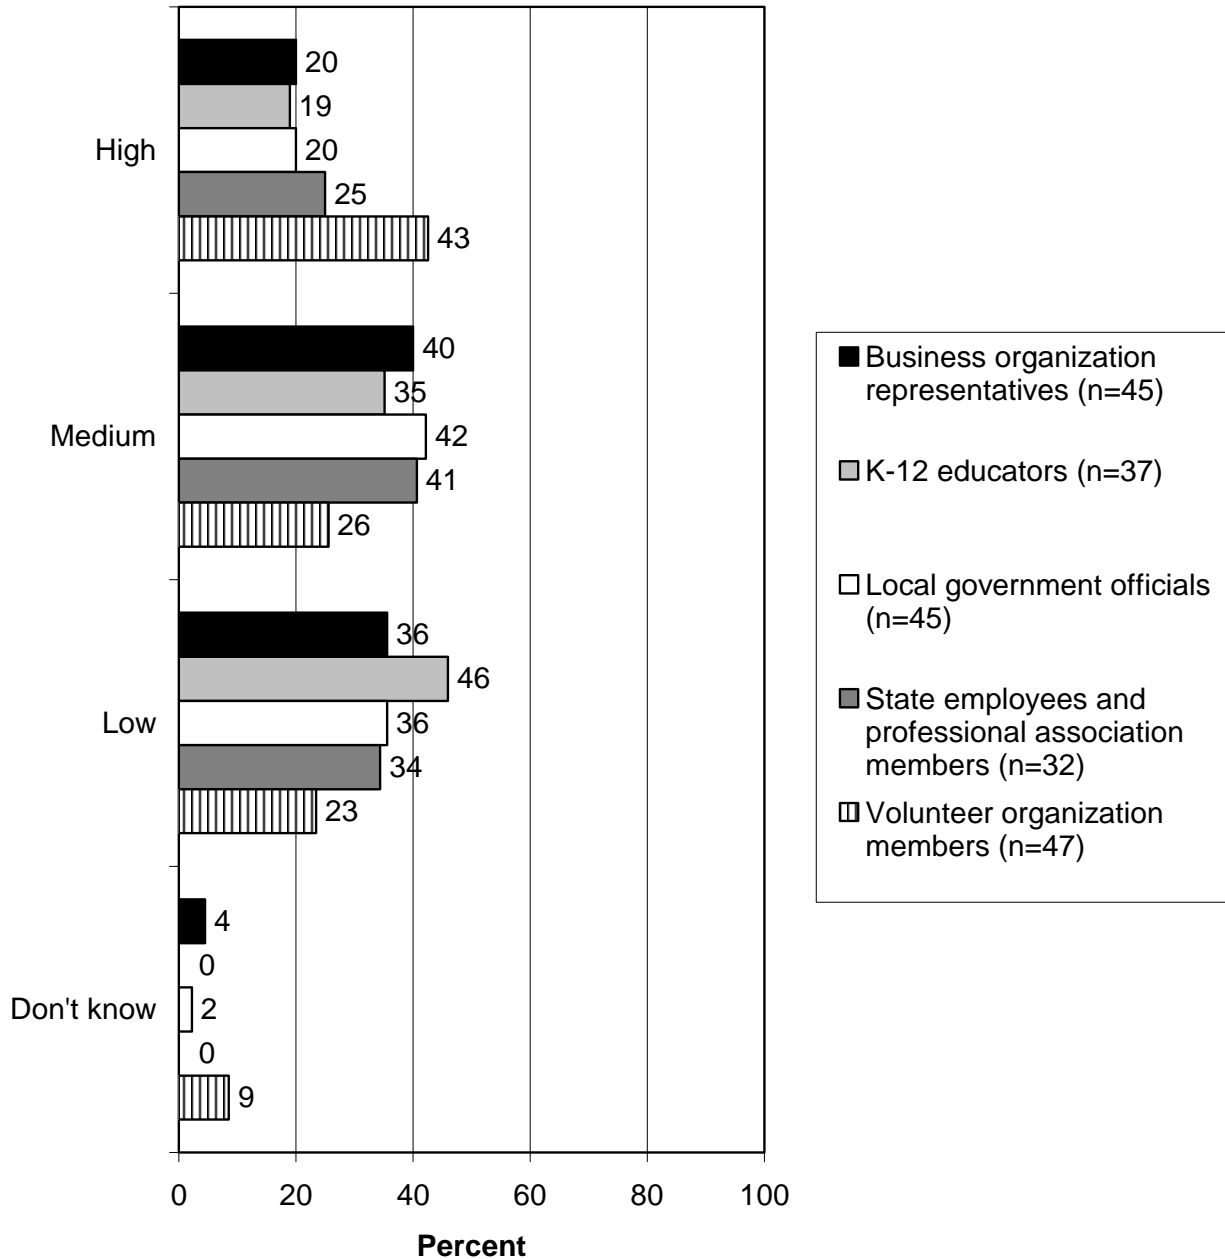

Q86. Do you professionally have a high, medium, or low need for coastal resource training or information on nitrogen loading?

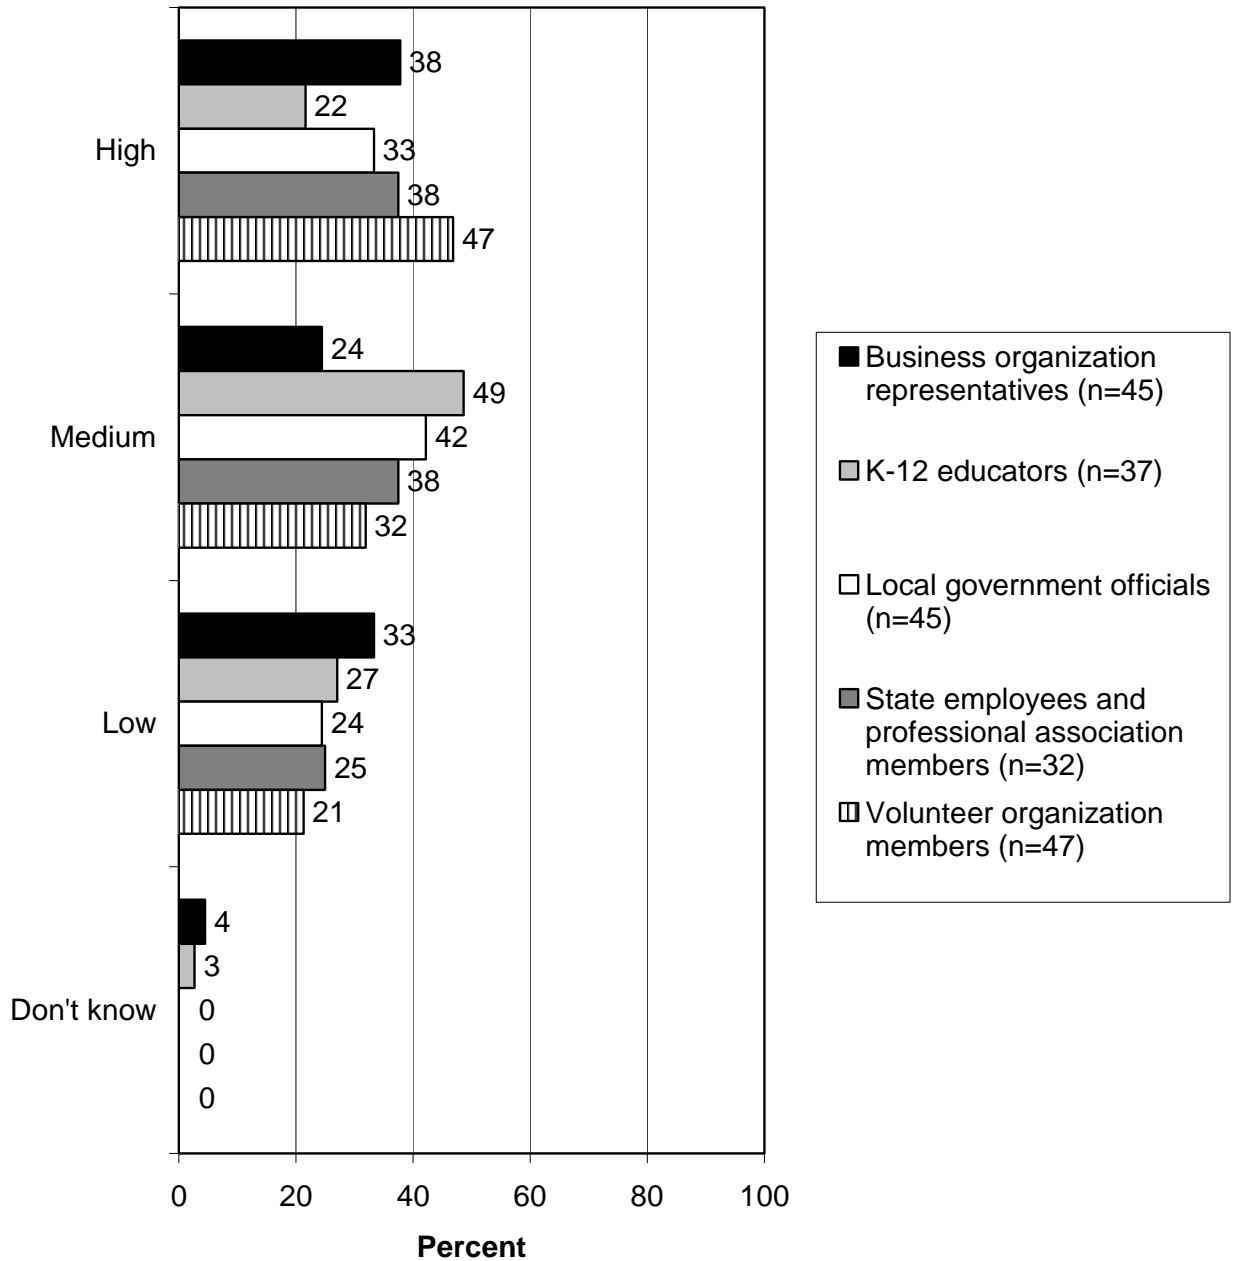

Q87. Do you professionally have a high, medium, or low need for coastal resource training or information on land use planning (smart growth, watershed buildup)?

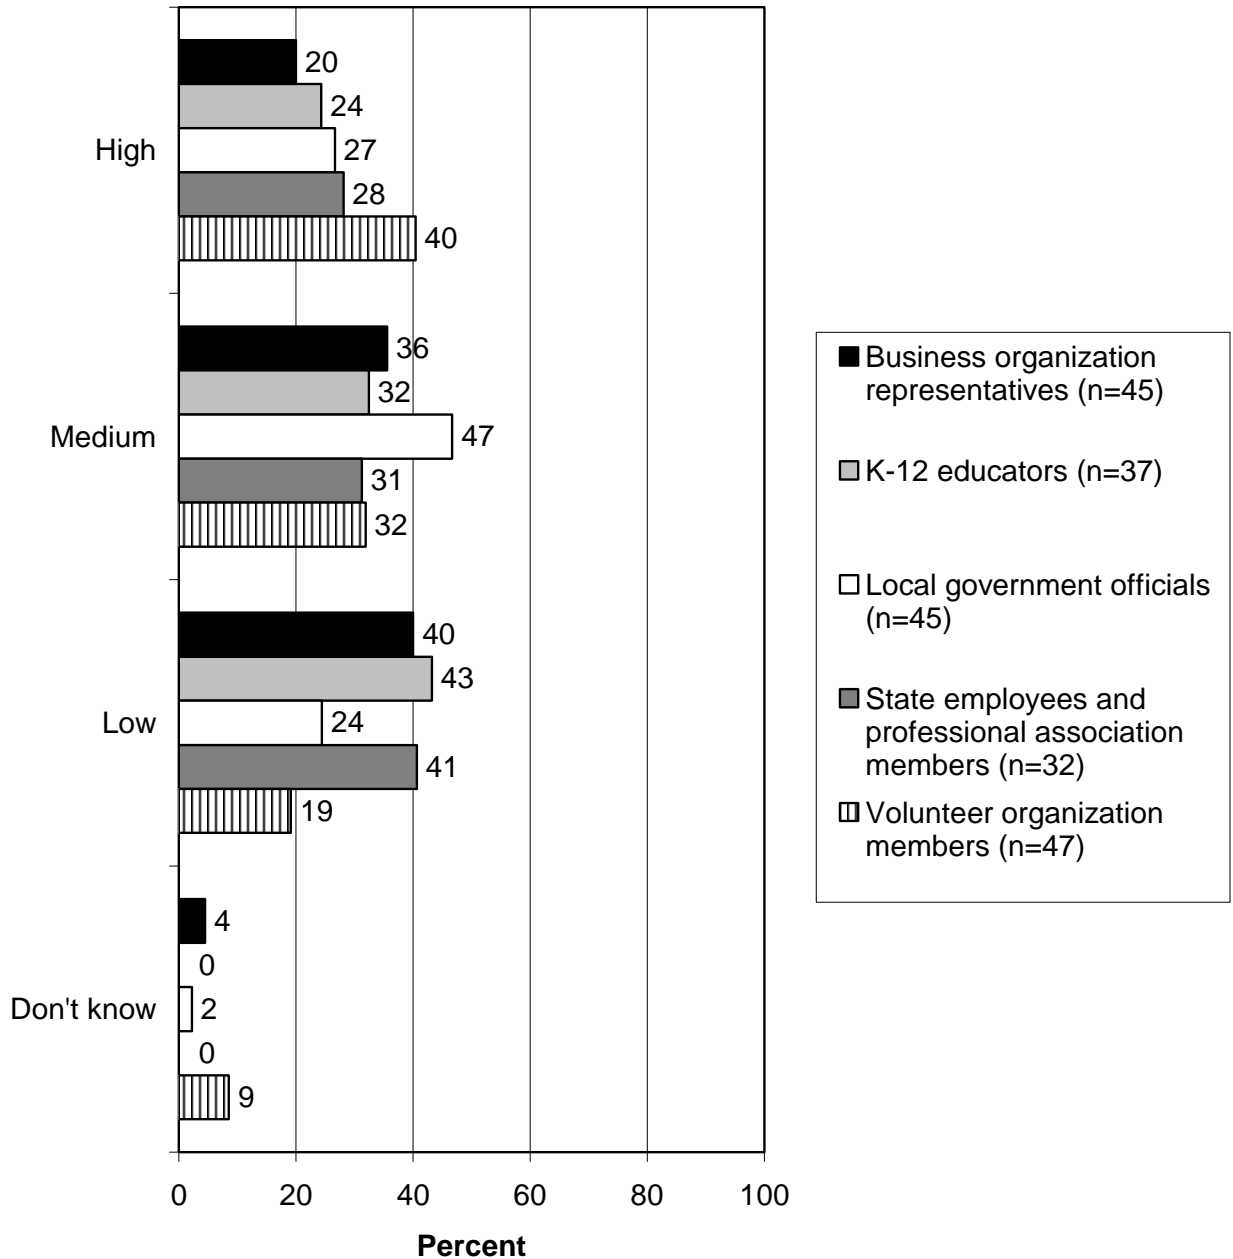

Q88. Do you professionally have a high, medium, or low need for coastal resource training or information on sustainable facilities (green design)?

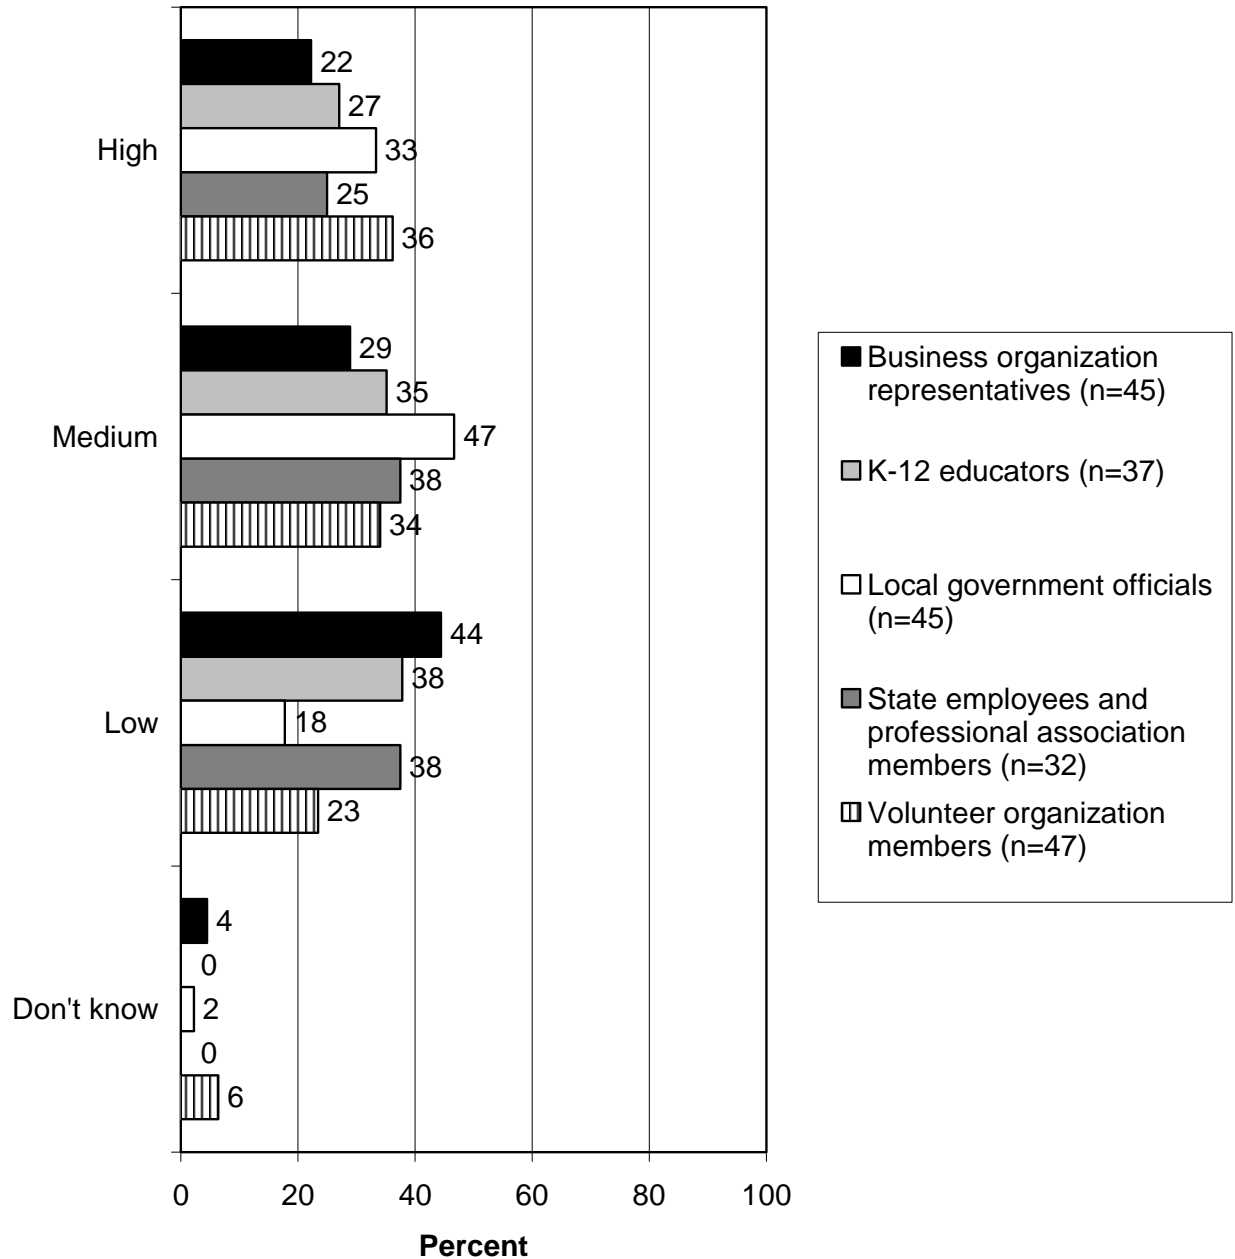

Q89. Do you professionally have a high, medium, or low need for coastal resource training or information on GIS (geographic information systems)?

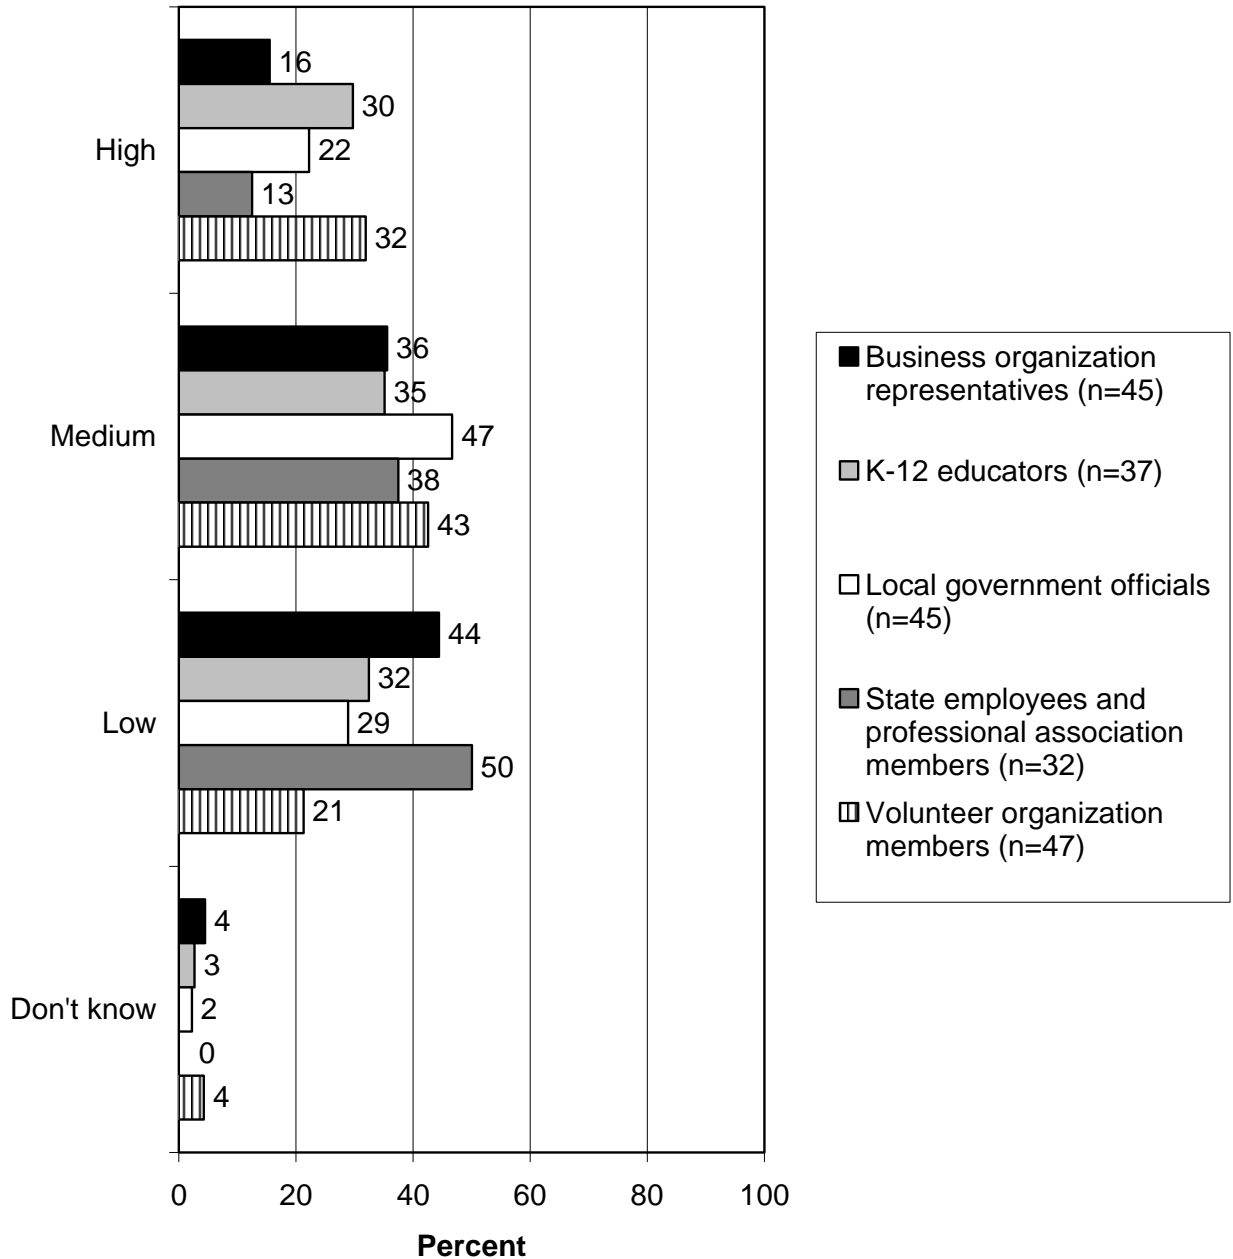

Q90. Do you professionally have a high, medium, or low need for coastal resource training or information on intra-agency/organization communications?

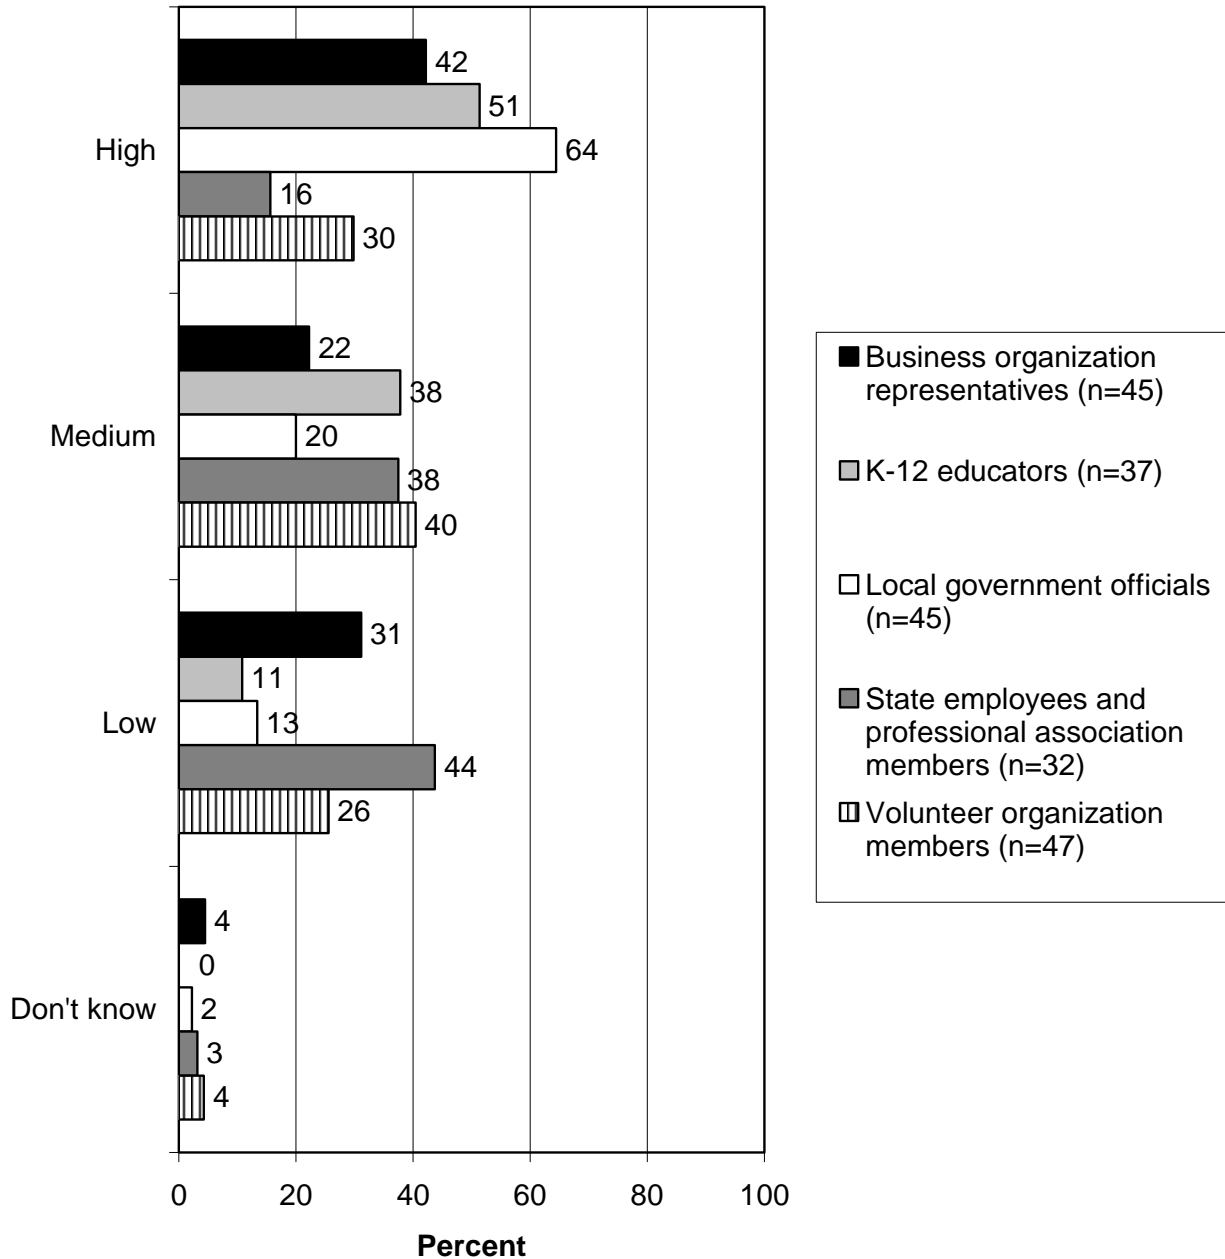

Q91. Do you professionally have a high, medium, or low need for coastal resource training or information on inter-agency/organization communications?

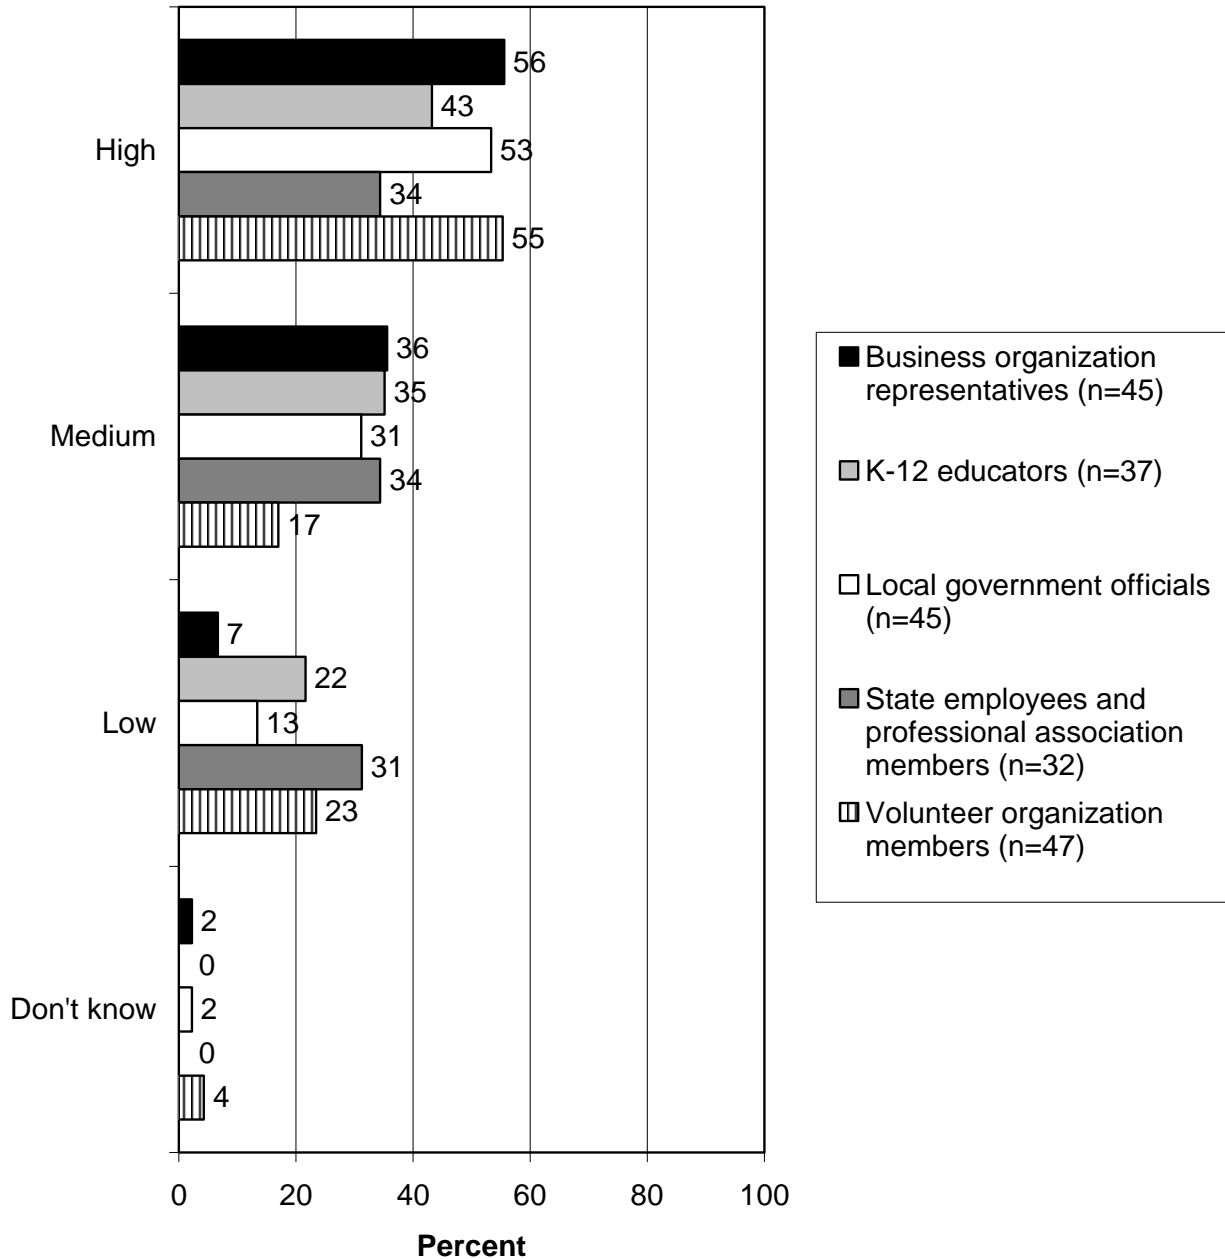

Q92. Do you professionally have a high, medium, or low need for coastal resource training or information on organizational/management skills?

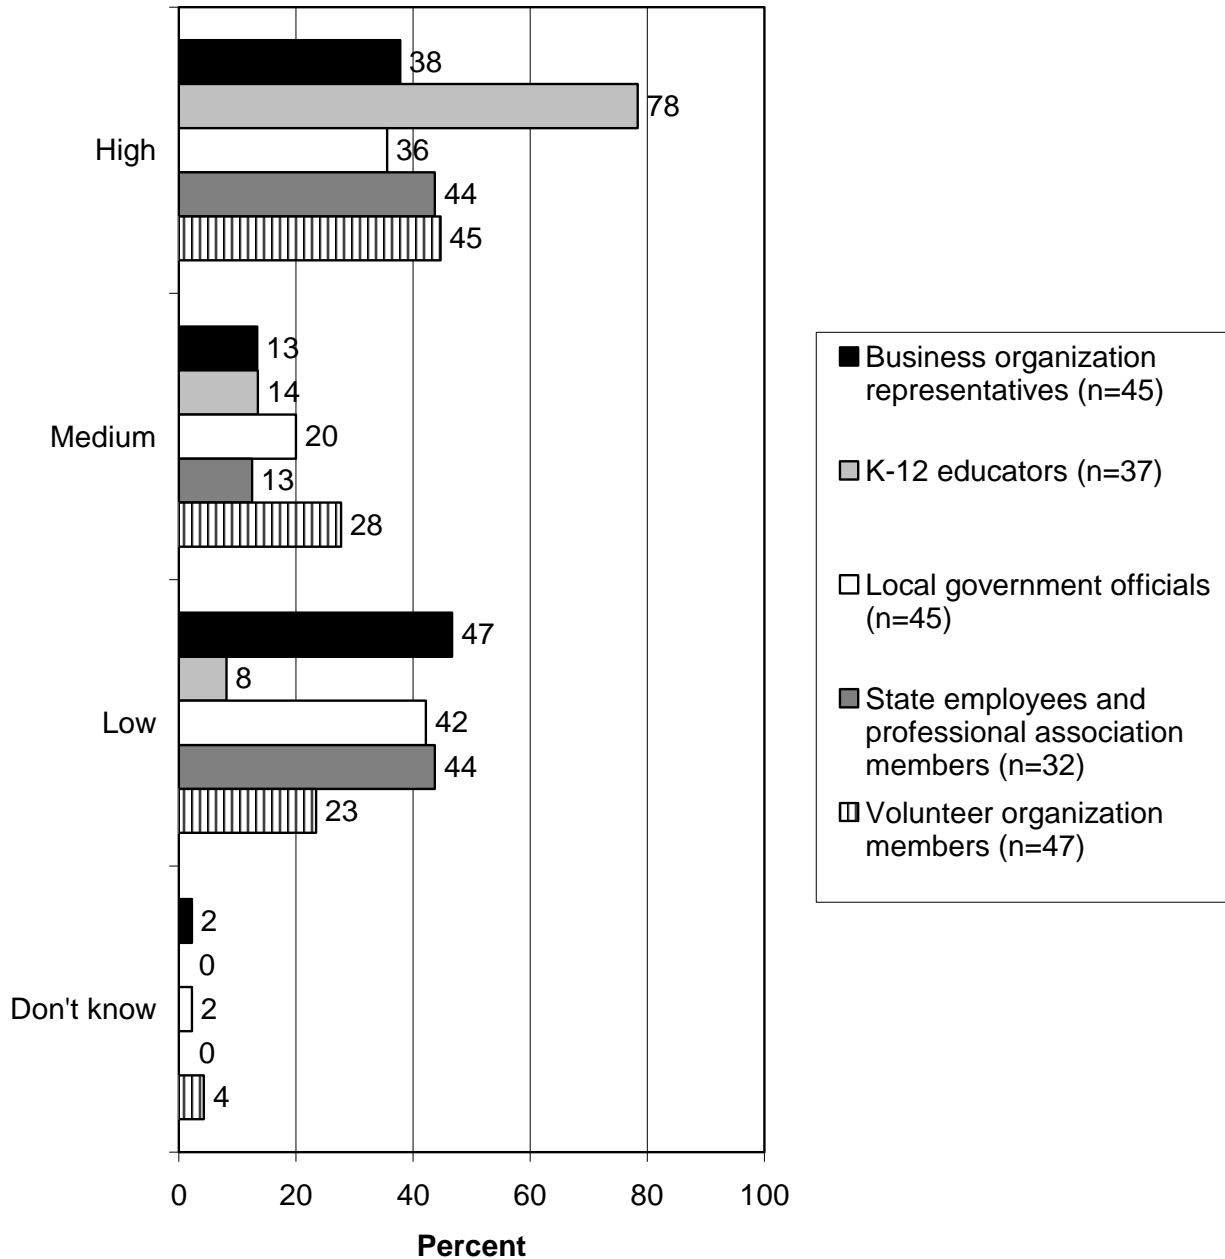

Q93. Do you professionally have a high, medium, or low need for coastal resource training or information on public safety?

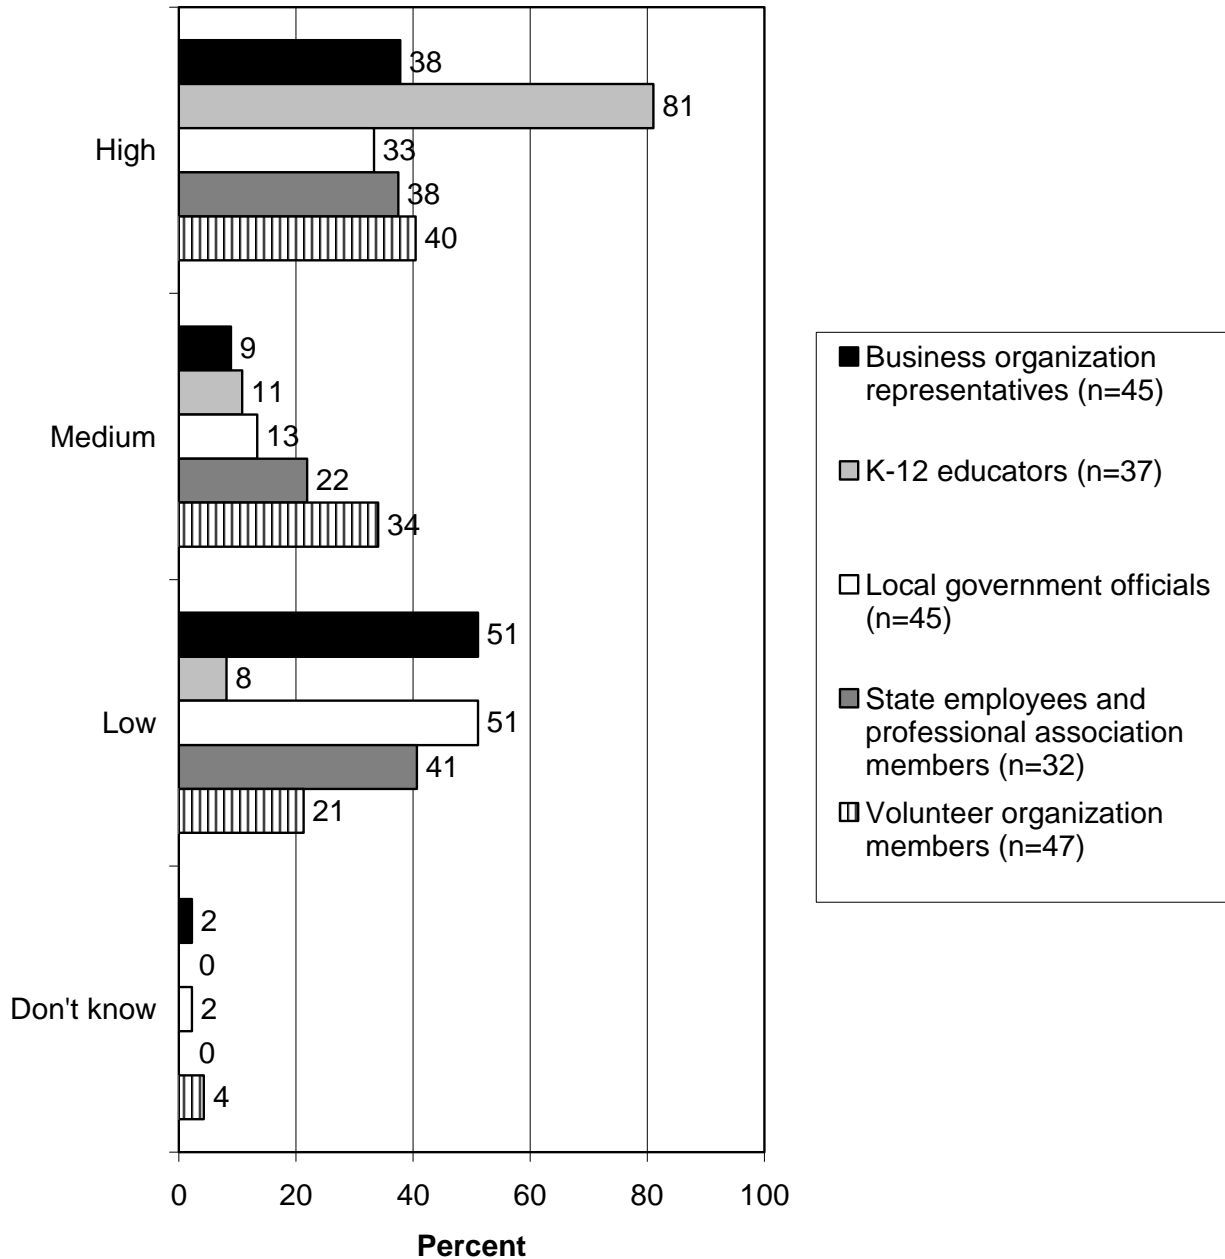

Q94. Do you professionally have a high, medium, or low need for coastal resource training or information on regulations?

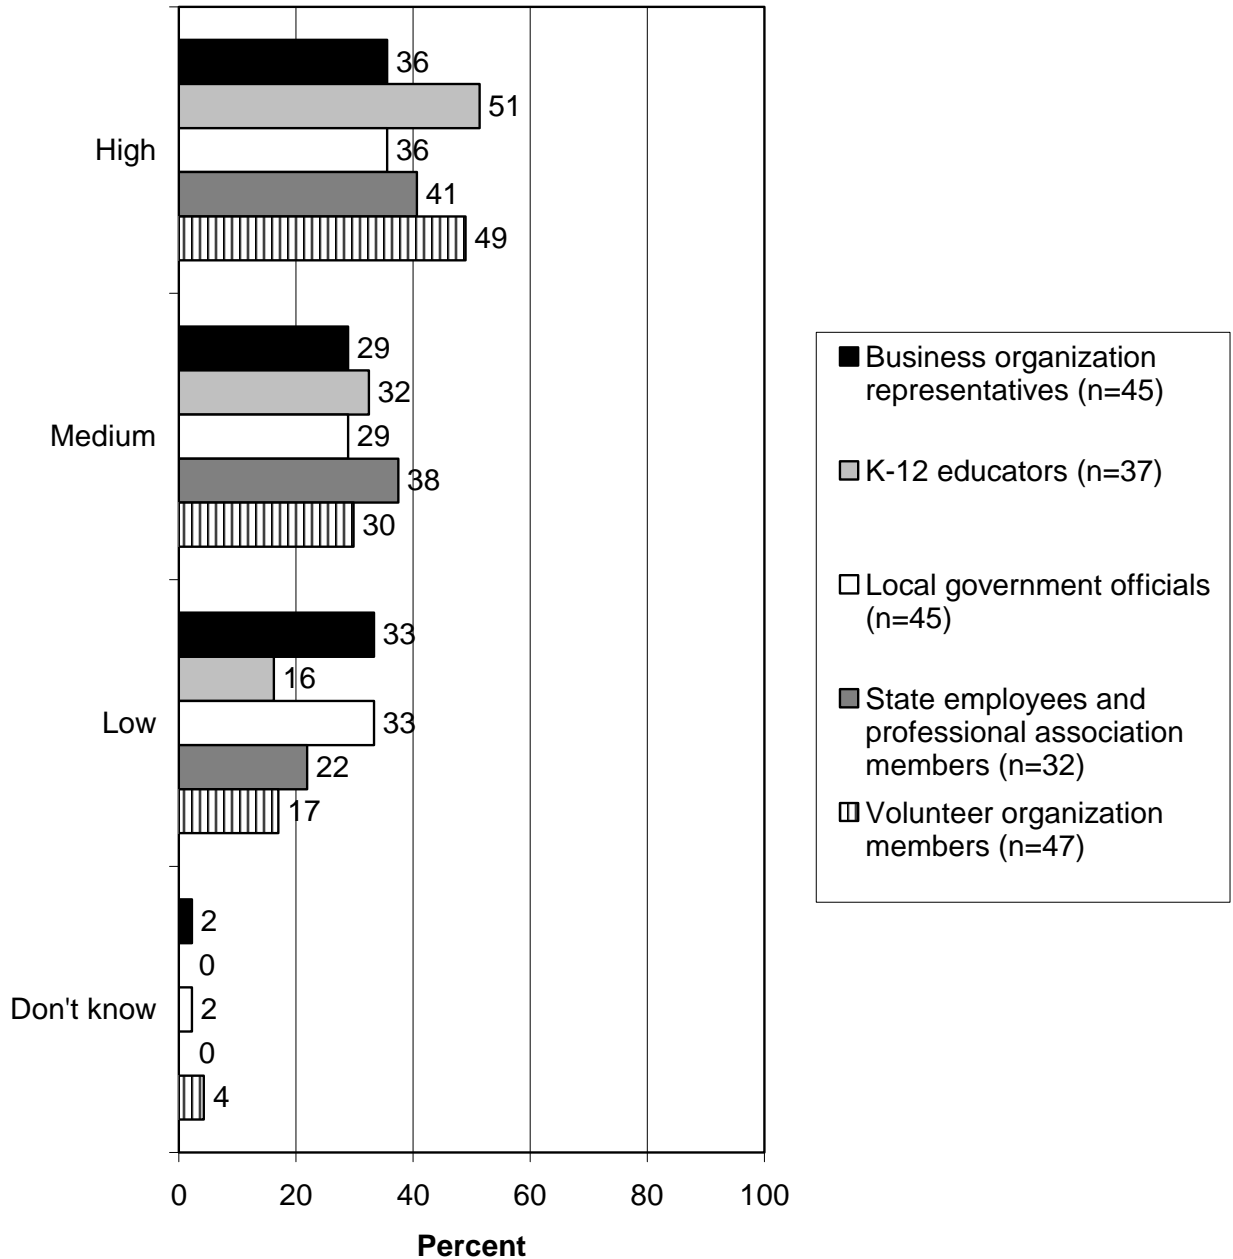

Q95. Do you professionally have a high, medium, or low need for coastal resource training or information on environmental education for K-12 students?

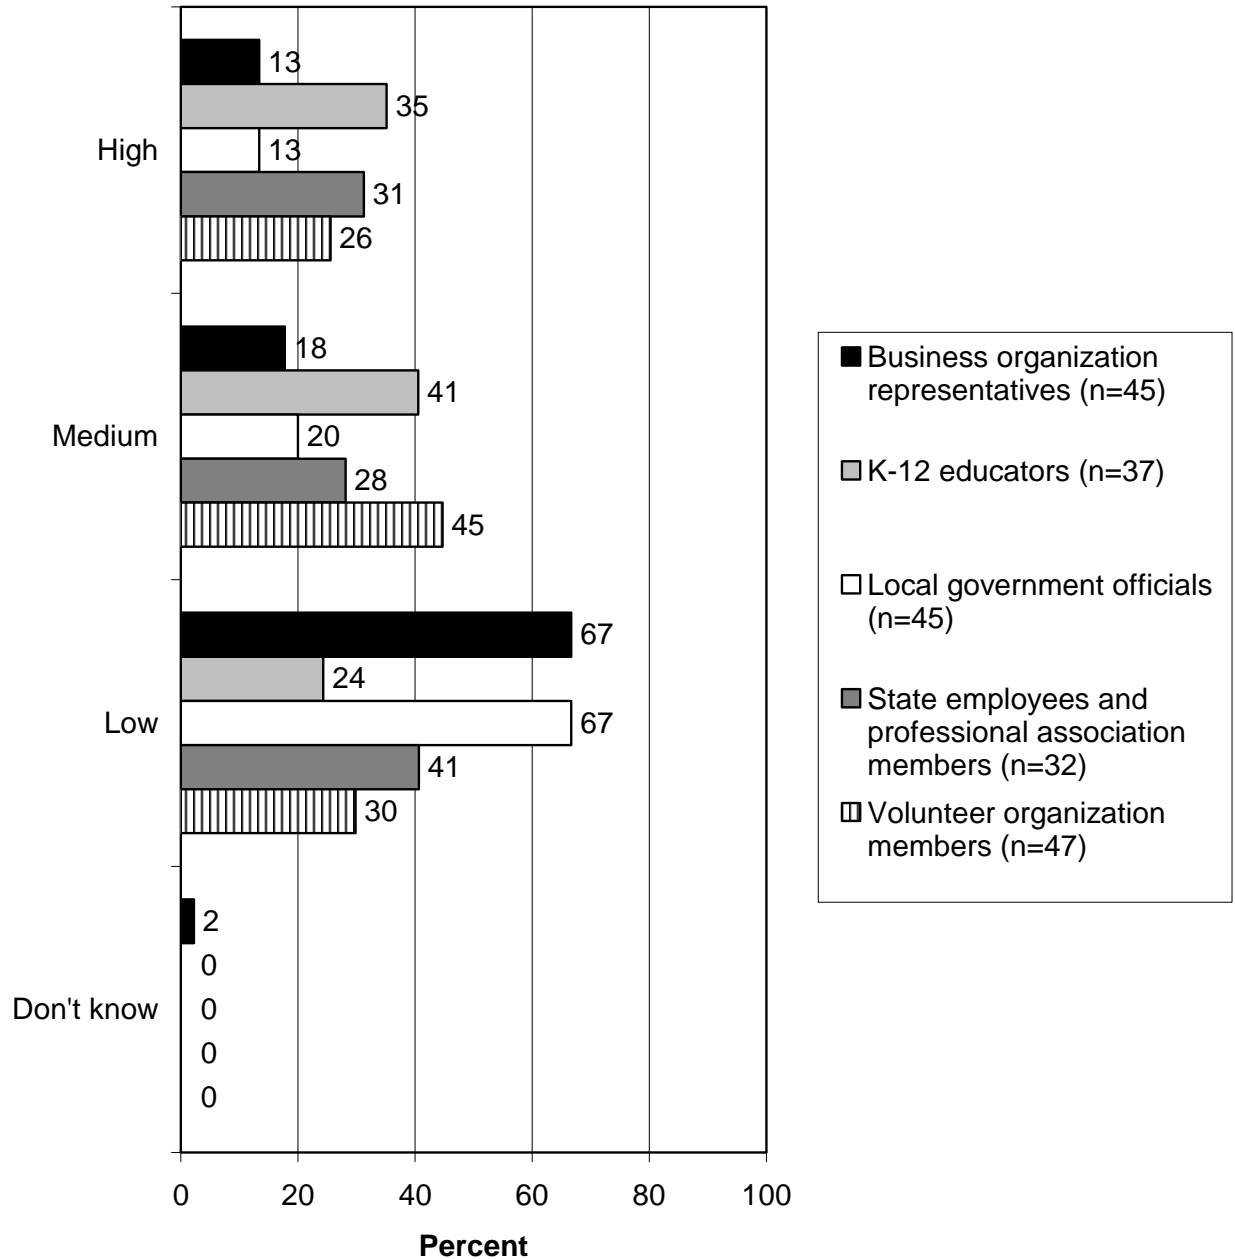

Q96. Do you professionally have a high, medium, or low need for coastal resource training or information on professional development for K-12 educators?

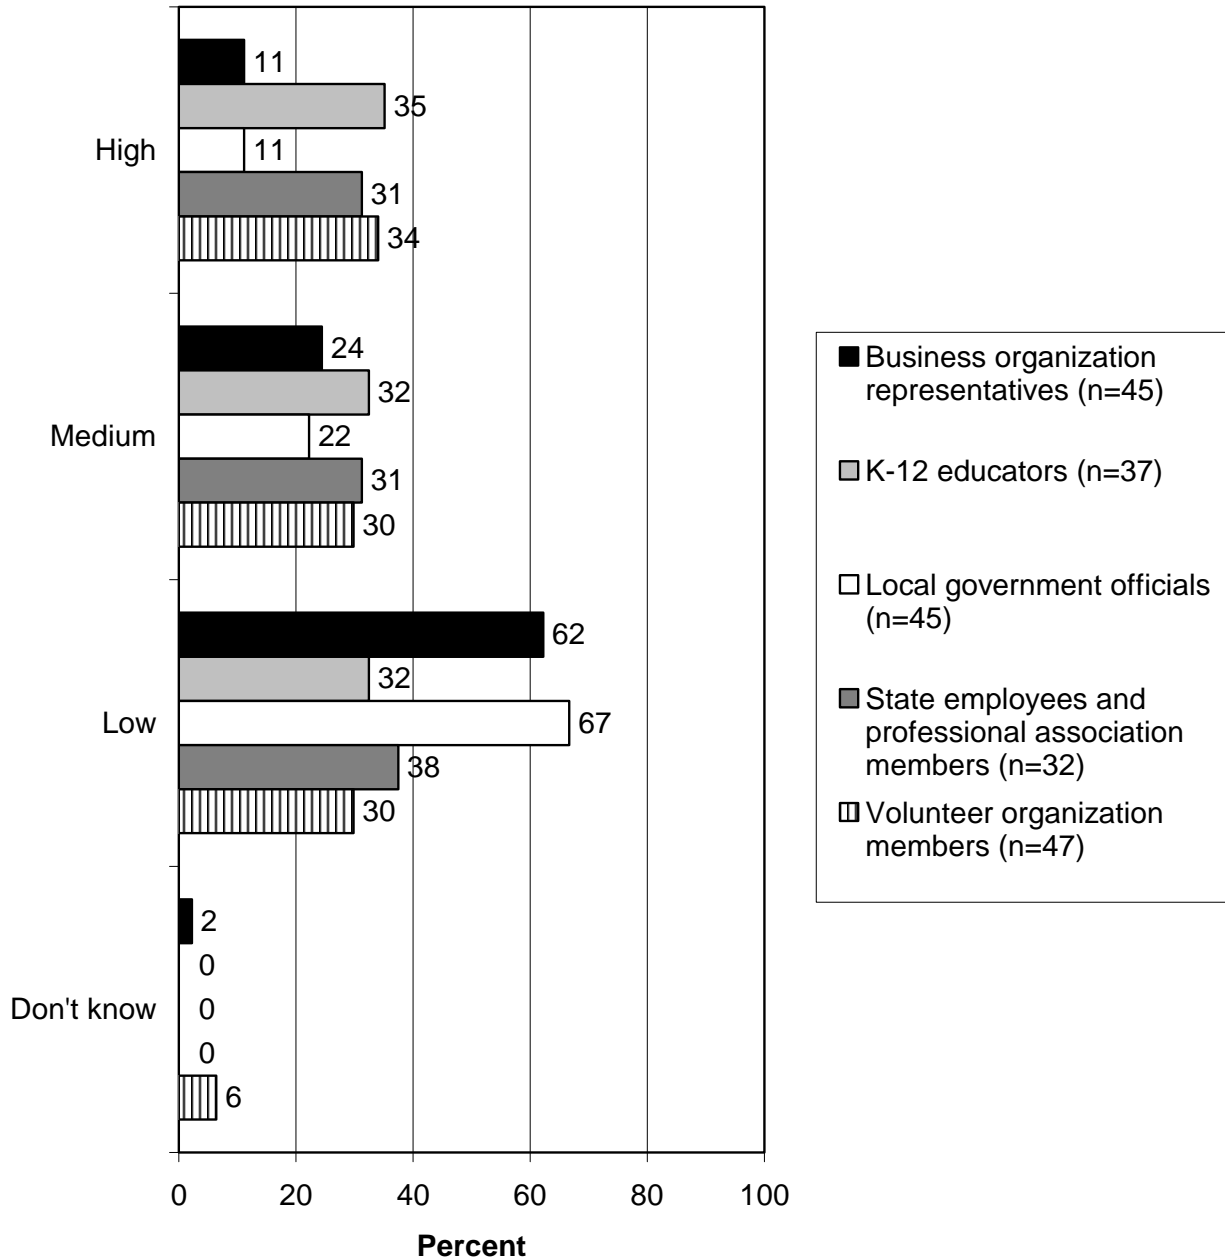

Q97. Do you professionally have a high, medium, or low need for coastal resource training or information on environmental education for adults?

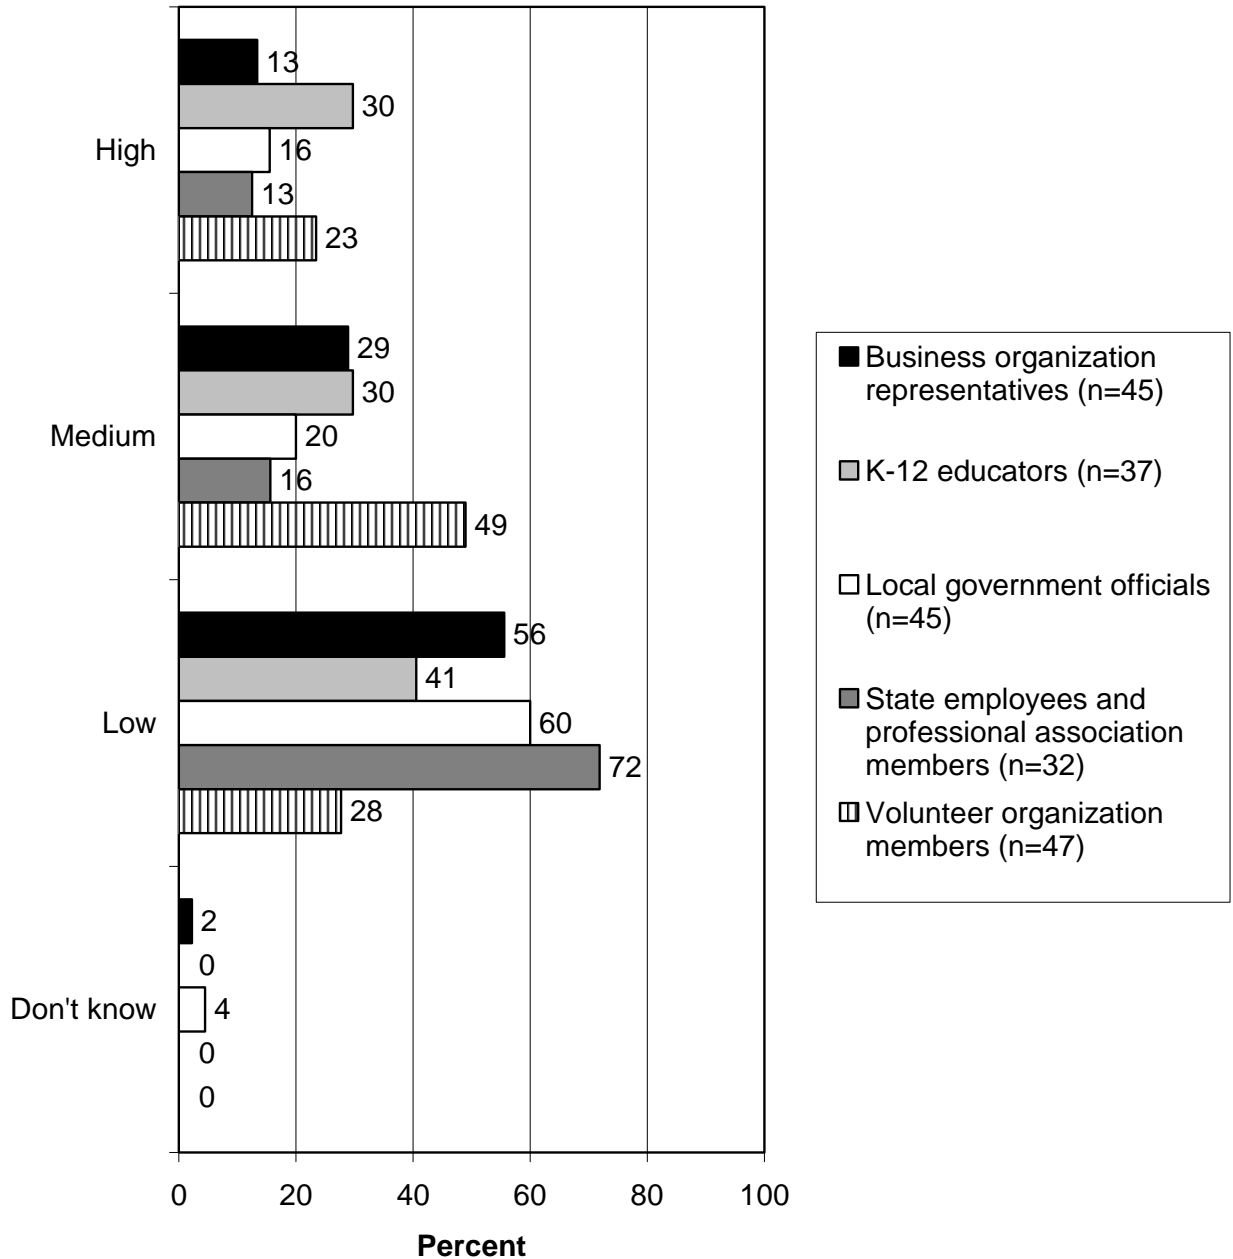

Q98. Do you professionally have a high, medium, or low need for coastal resource training or information on endangered species?

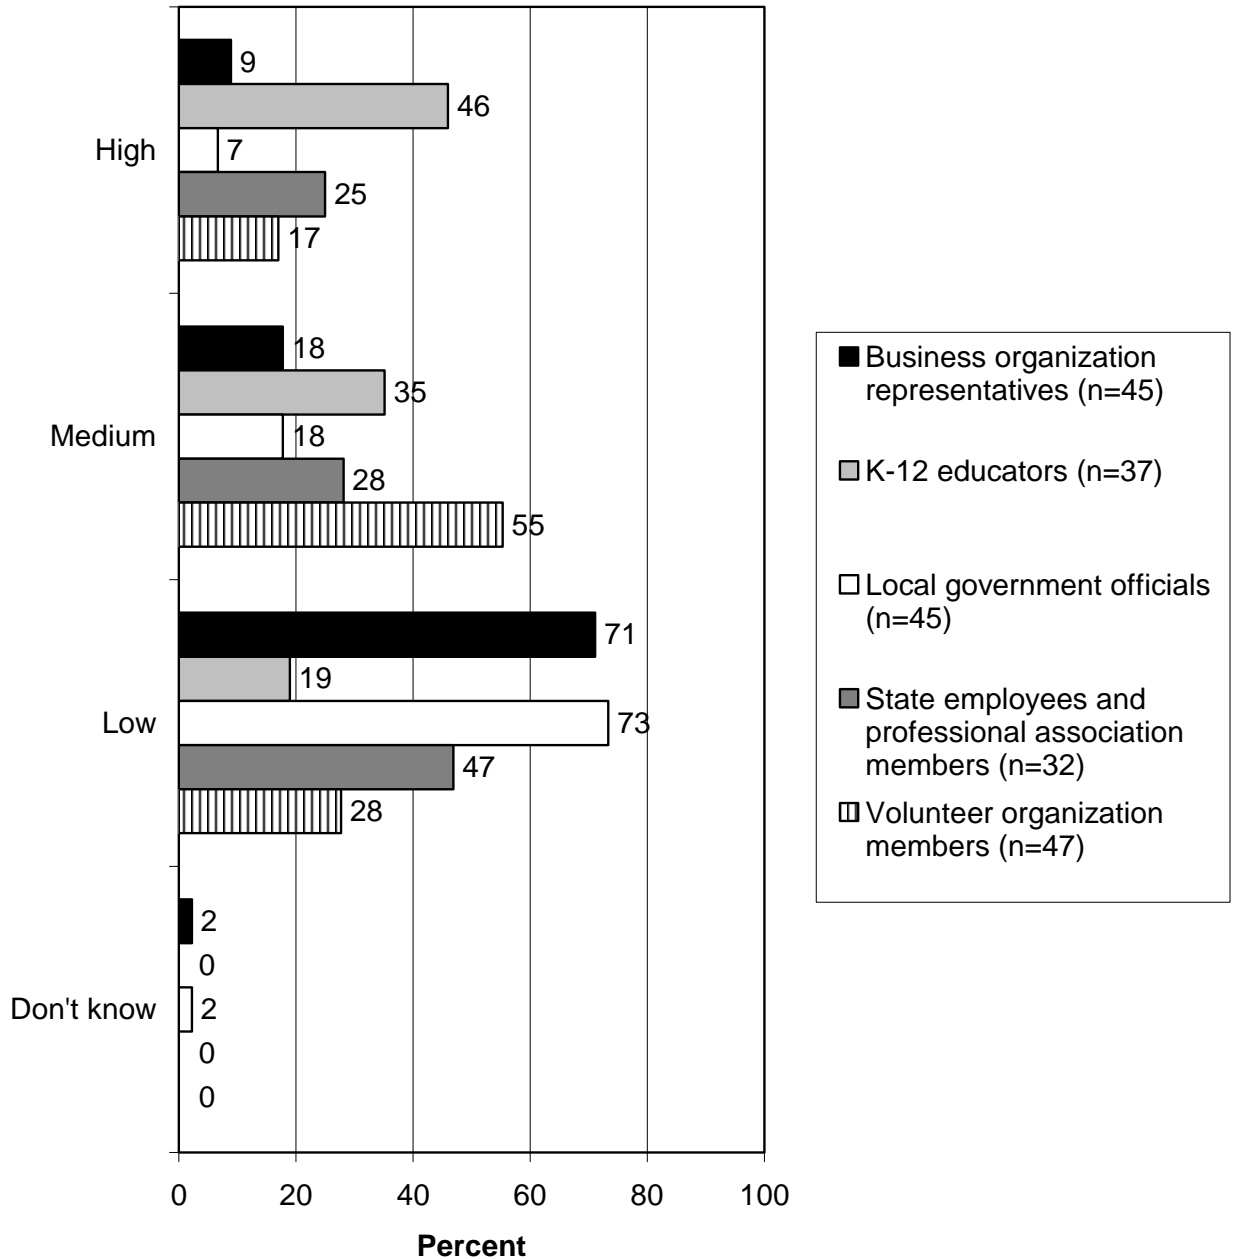

Q99. Do you professionally have a high, medium, or low need for coastal resource training or information on invasive species?

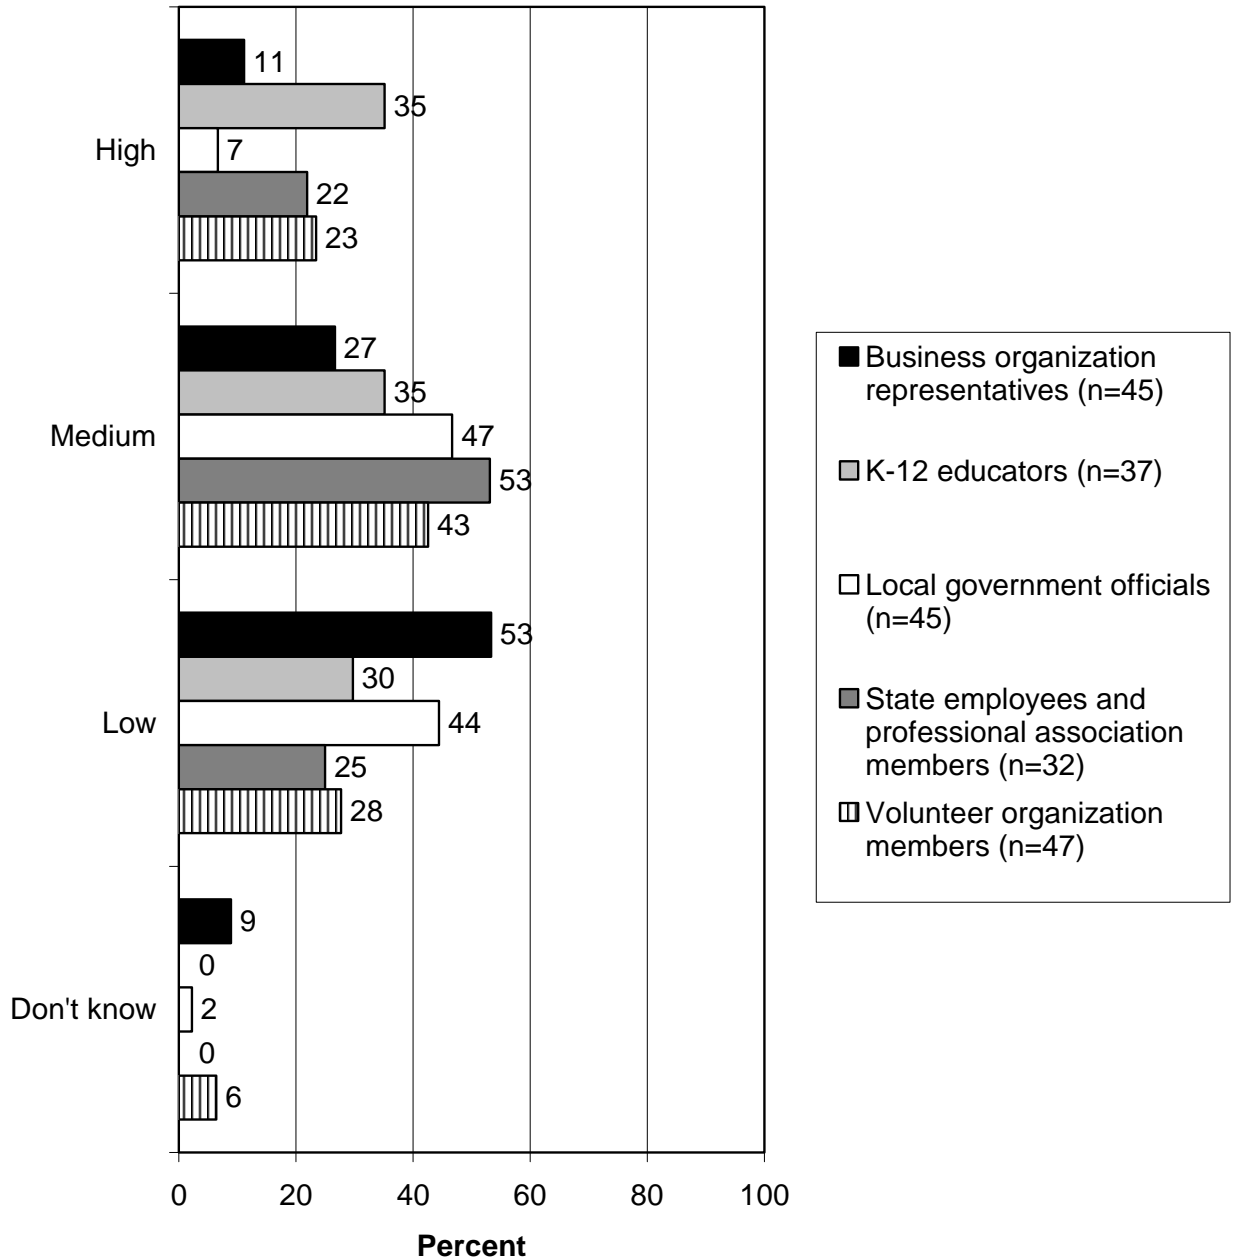

Q100. Do you professionally have a high, medium, or low need for coastal resource training or information on agricultural issues and practices?

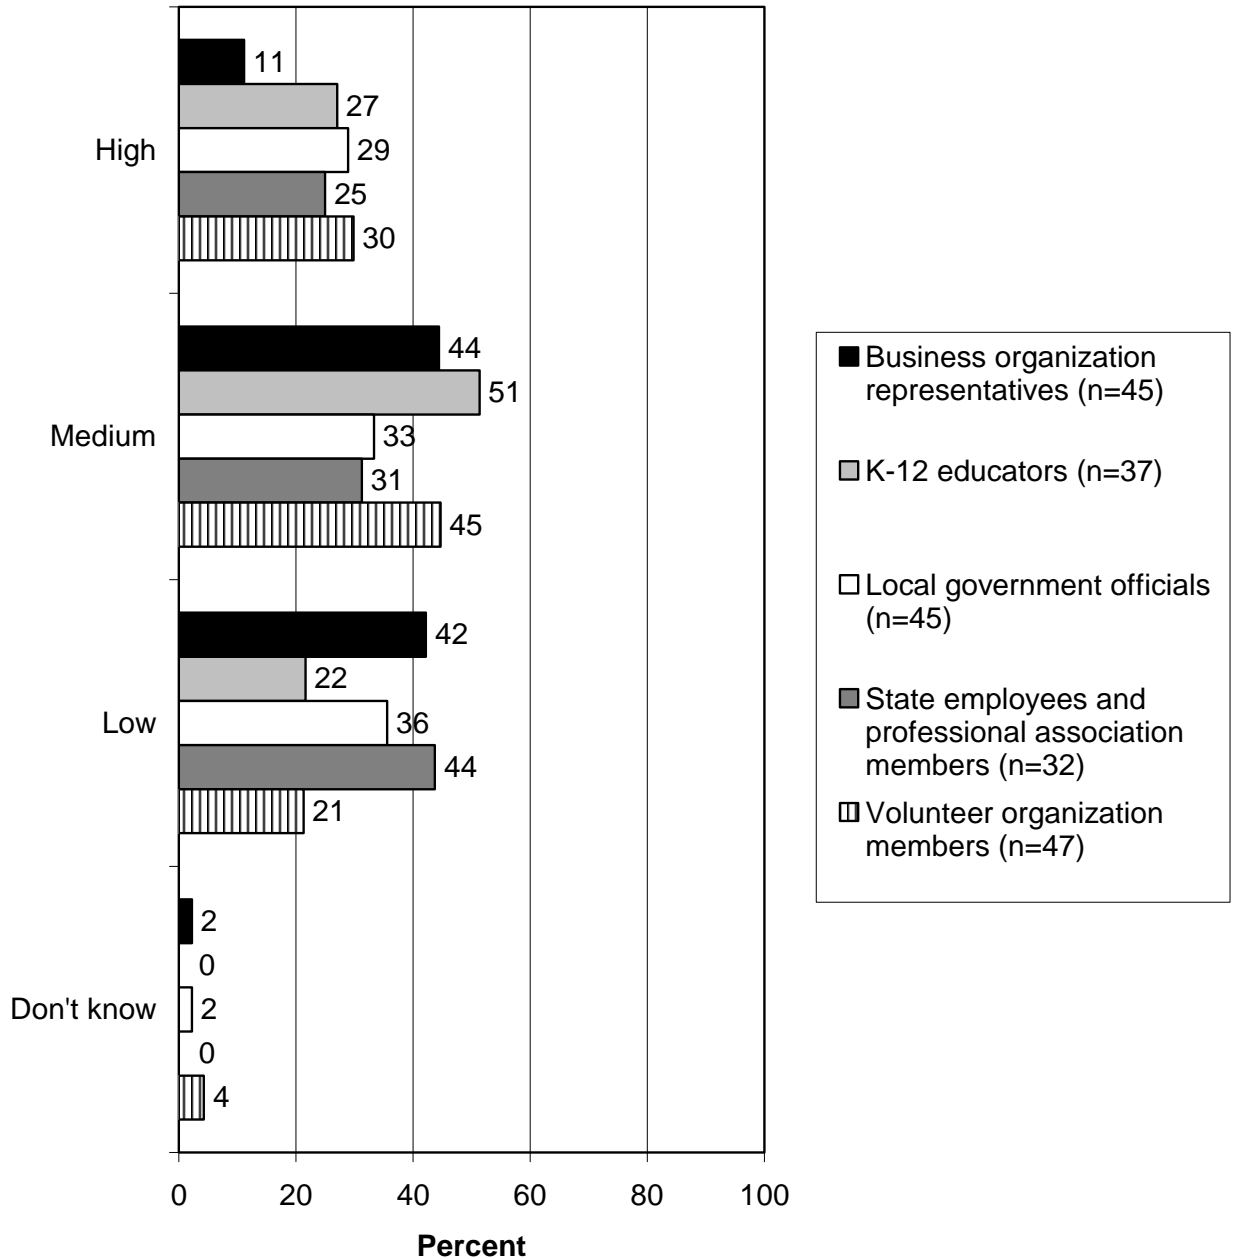

Q101. Do you professionally have a high, medium, or low need for coastal resource training or information on global warming and climate?

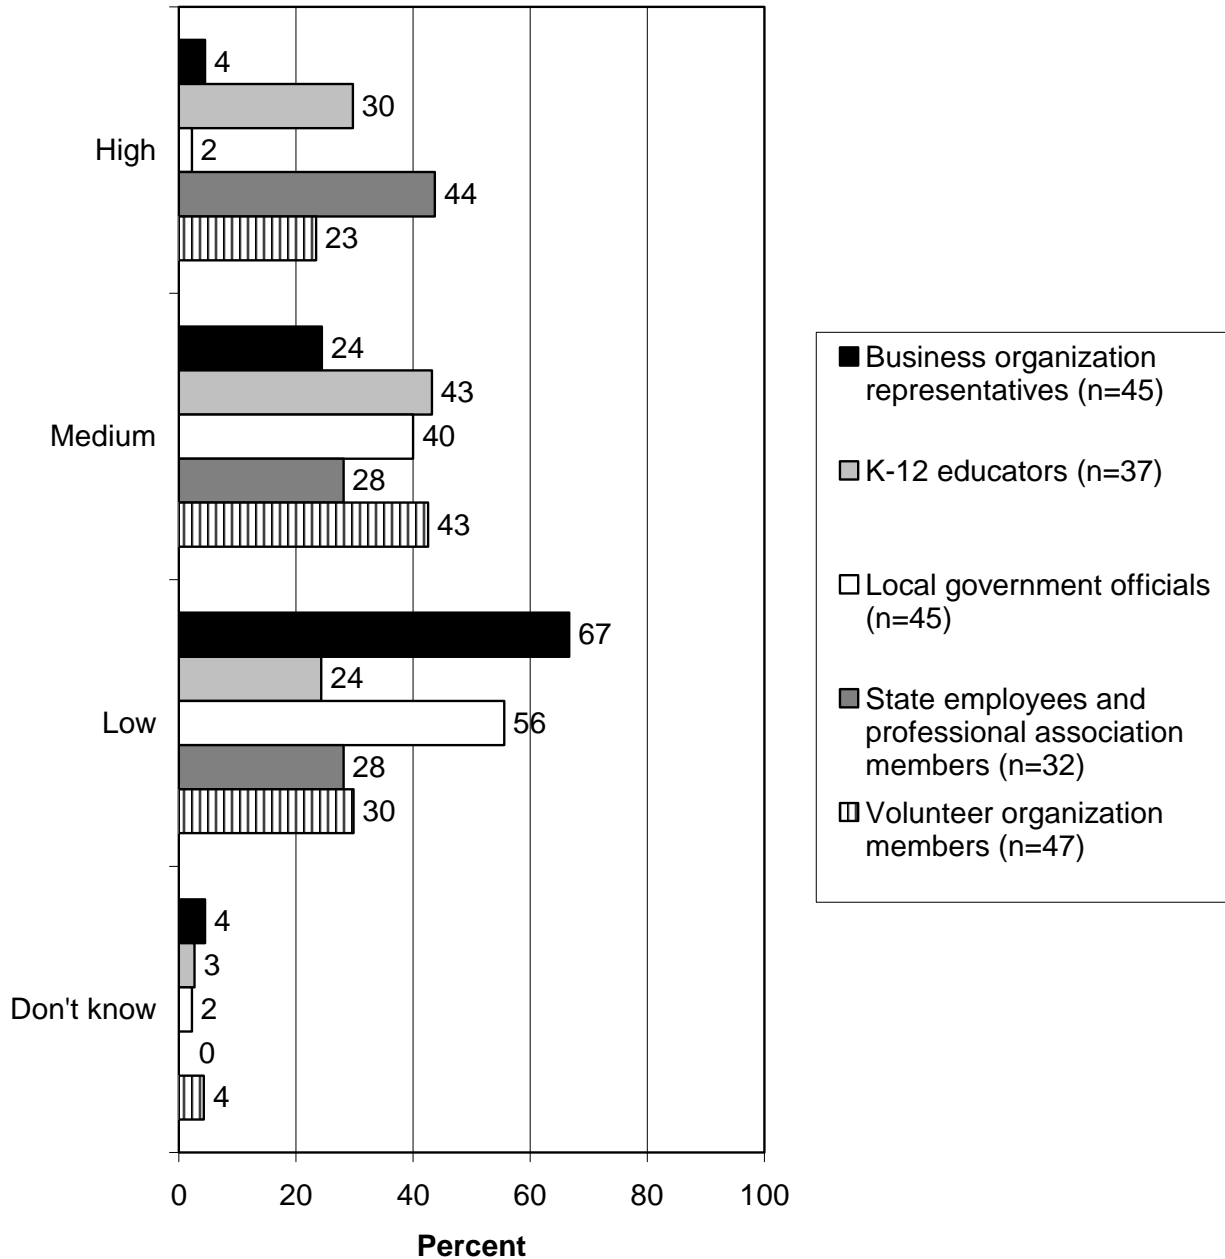

Q102. Do you professionally have a high, medium, or low need for coastal resource training or information on ecological landscaping?

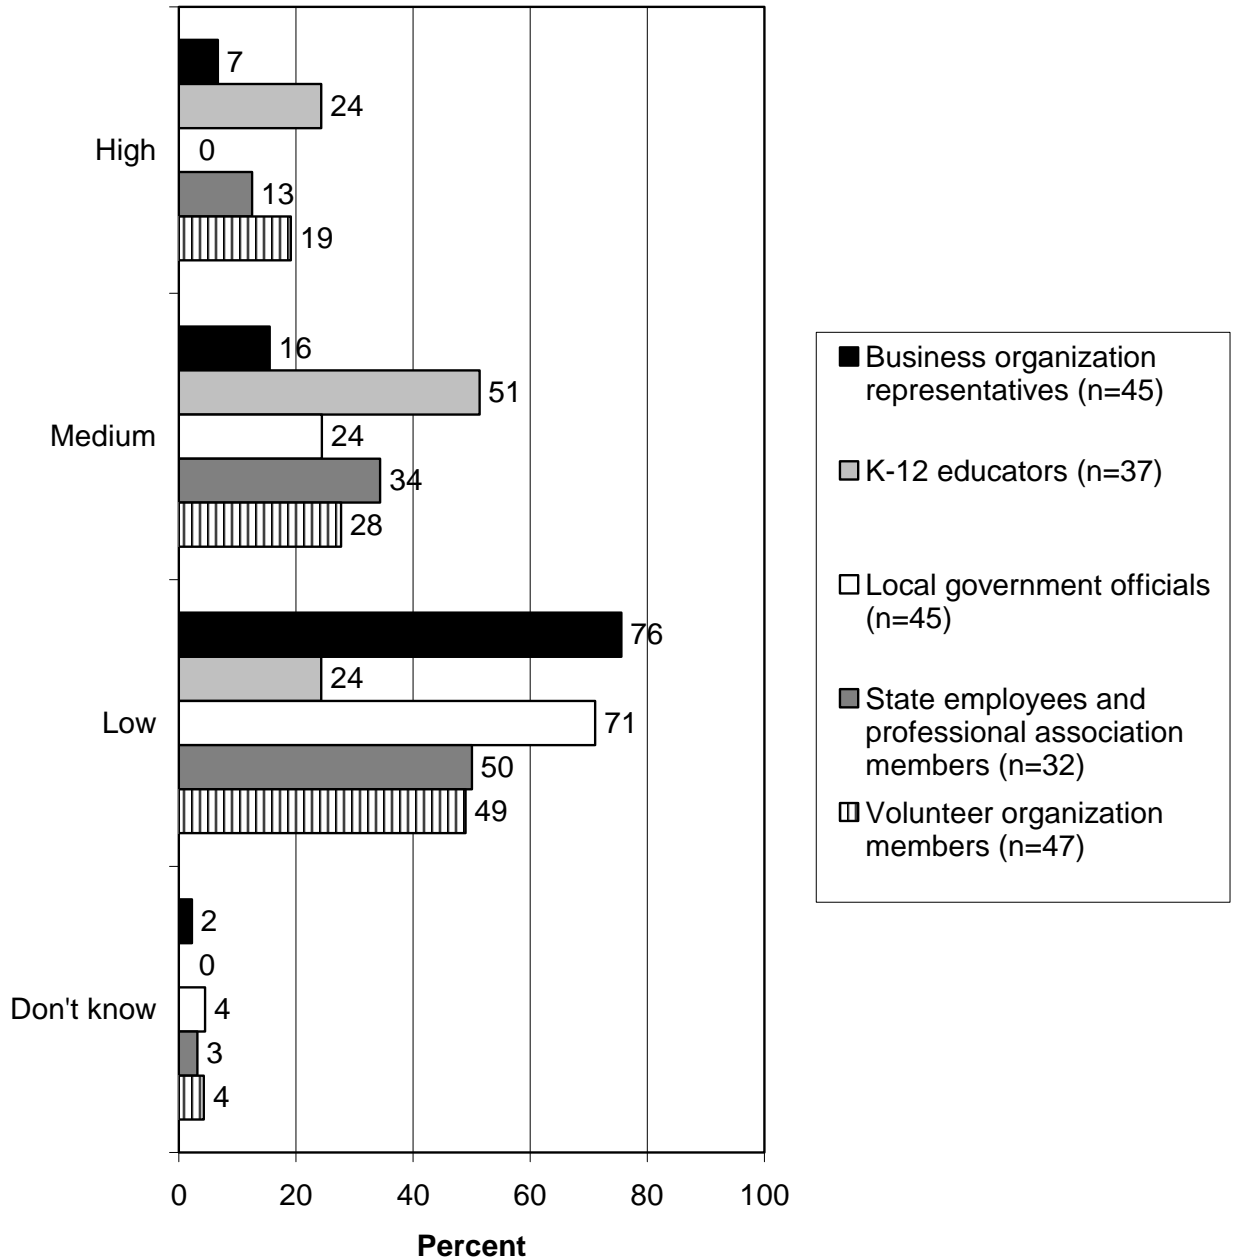

Q103. Do you professionally have a high, medium, or low need for coastal resource training or information on erosion control?

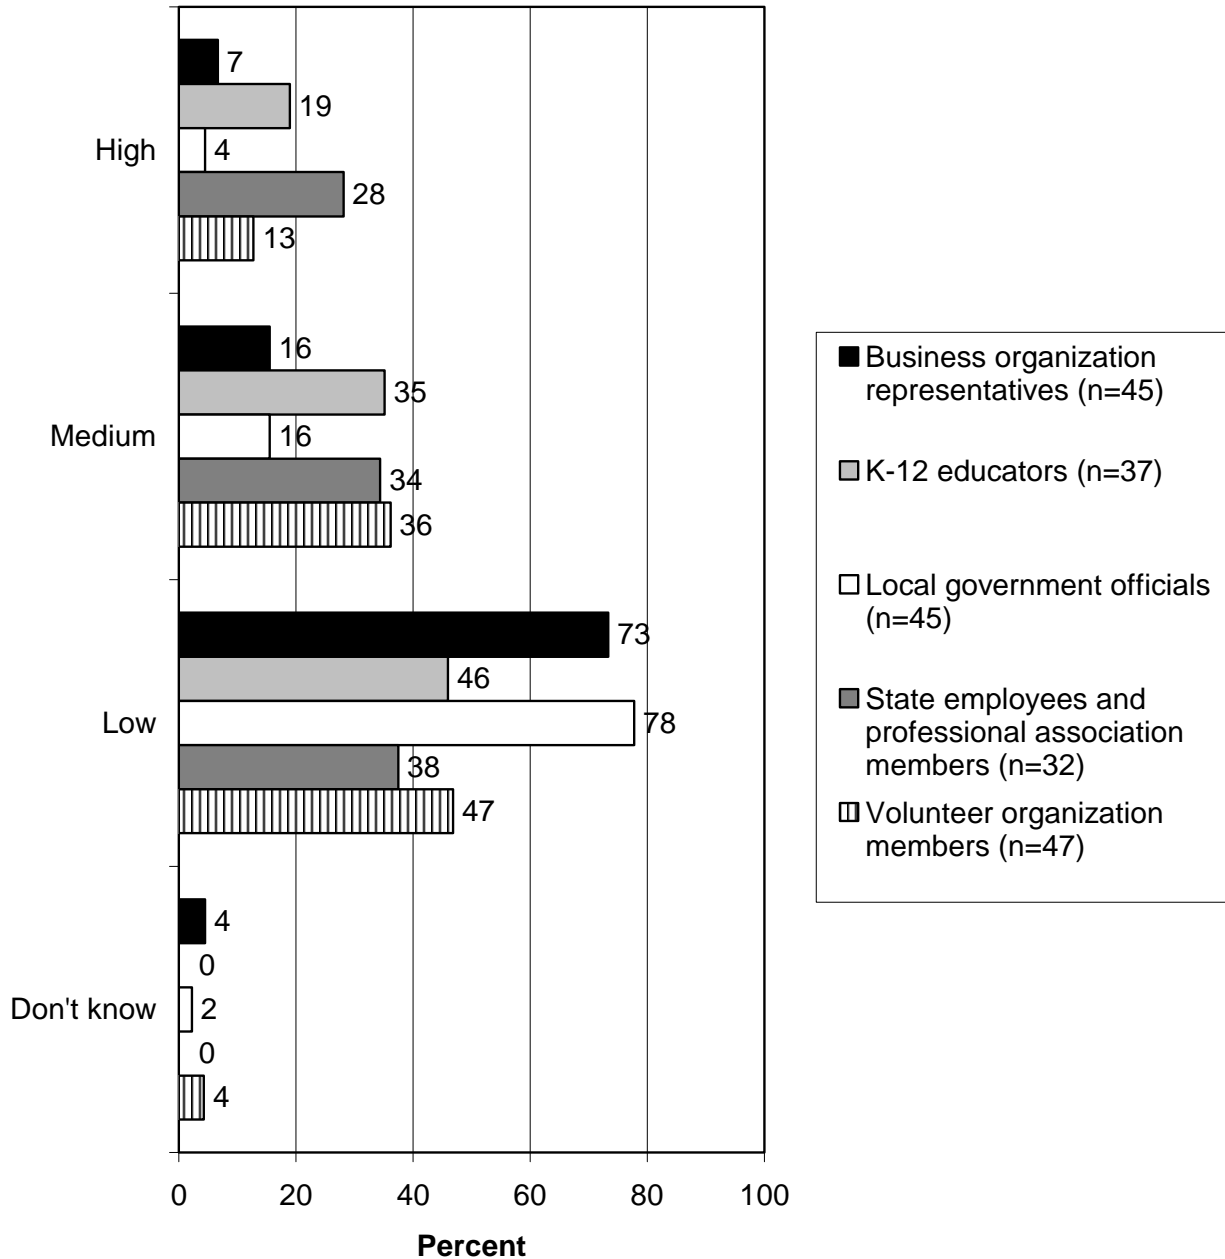

Q104. Do you professionally have a high, medium, or low need for coastal resource training or information on estuarine ecology?

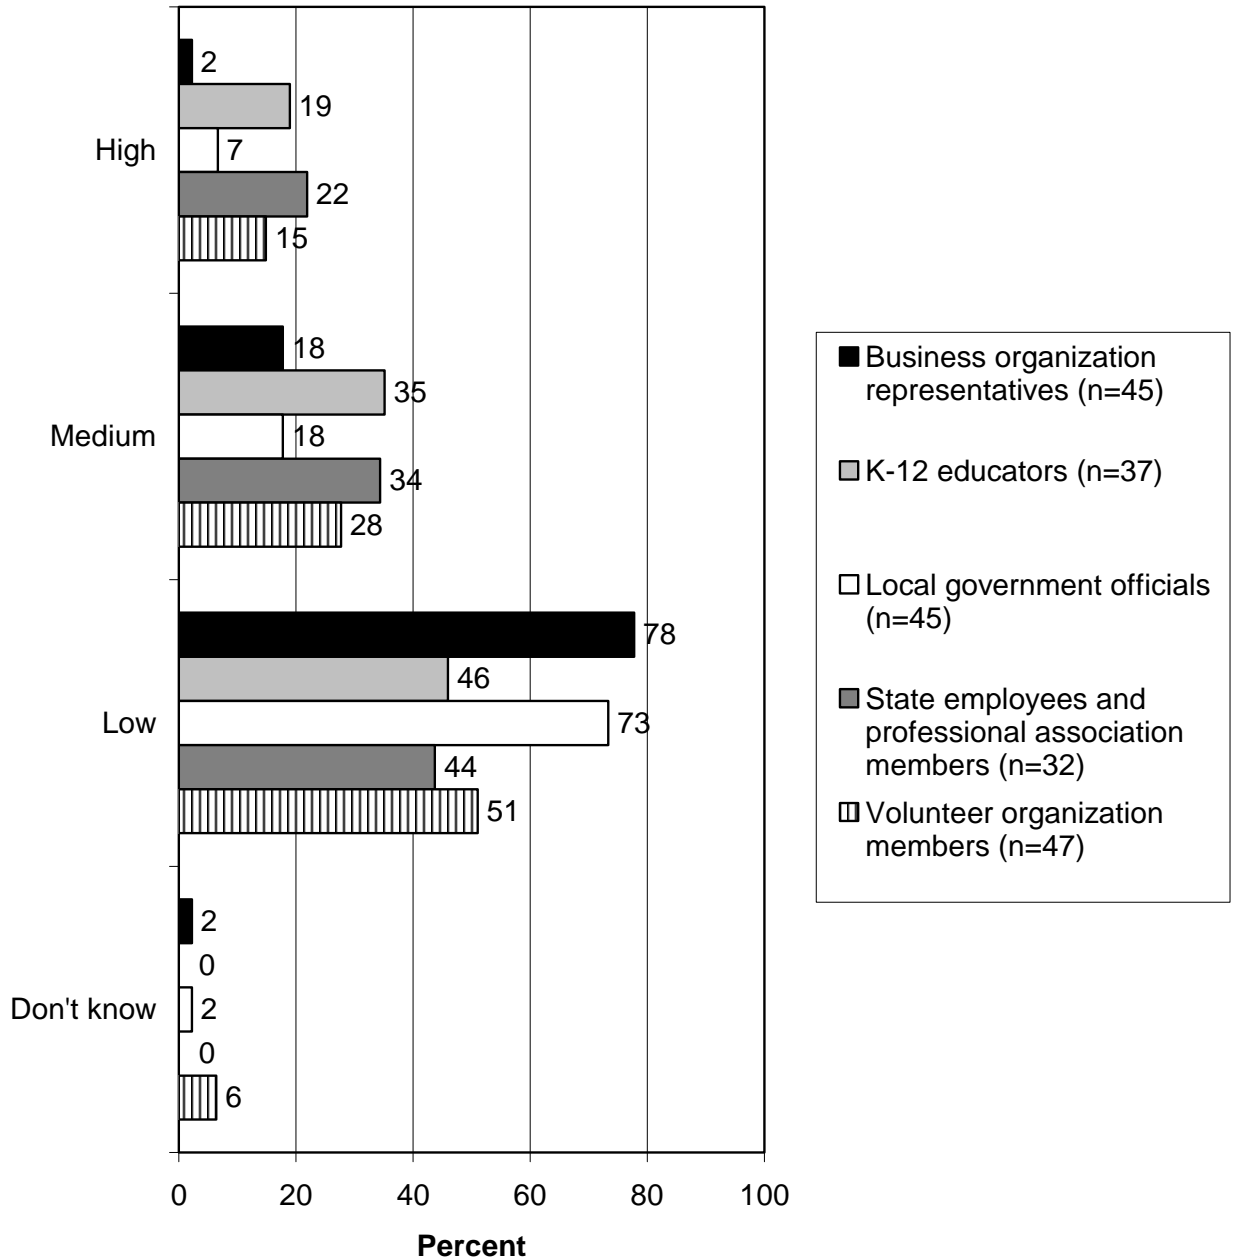

Q105. Do you professionally have a high, medium, or low need for coastal resource training or information on aquaculture?

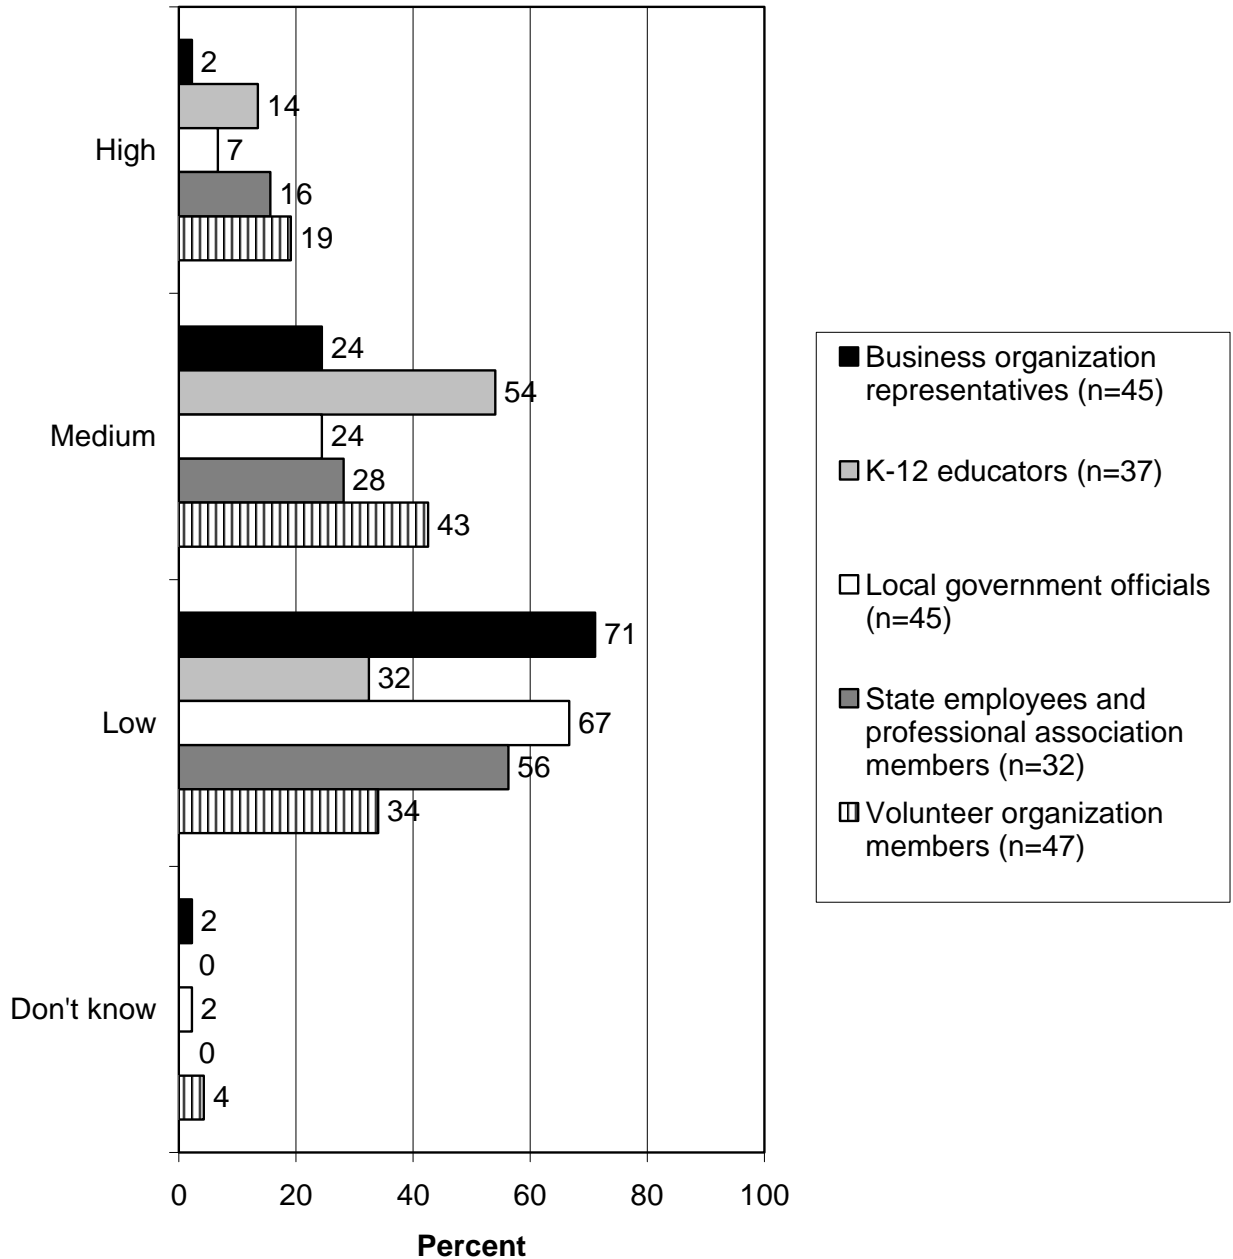

Q106. Do you professionally have a high, medium, or low need for coastal resource training or information on fisheries and by-catch issues?

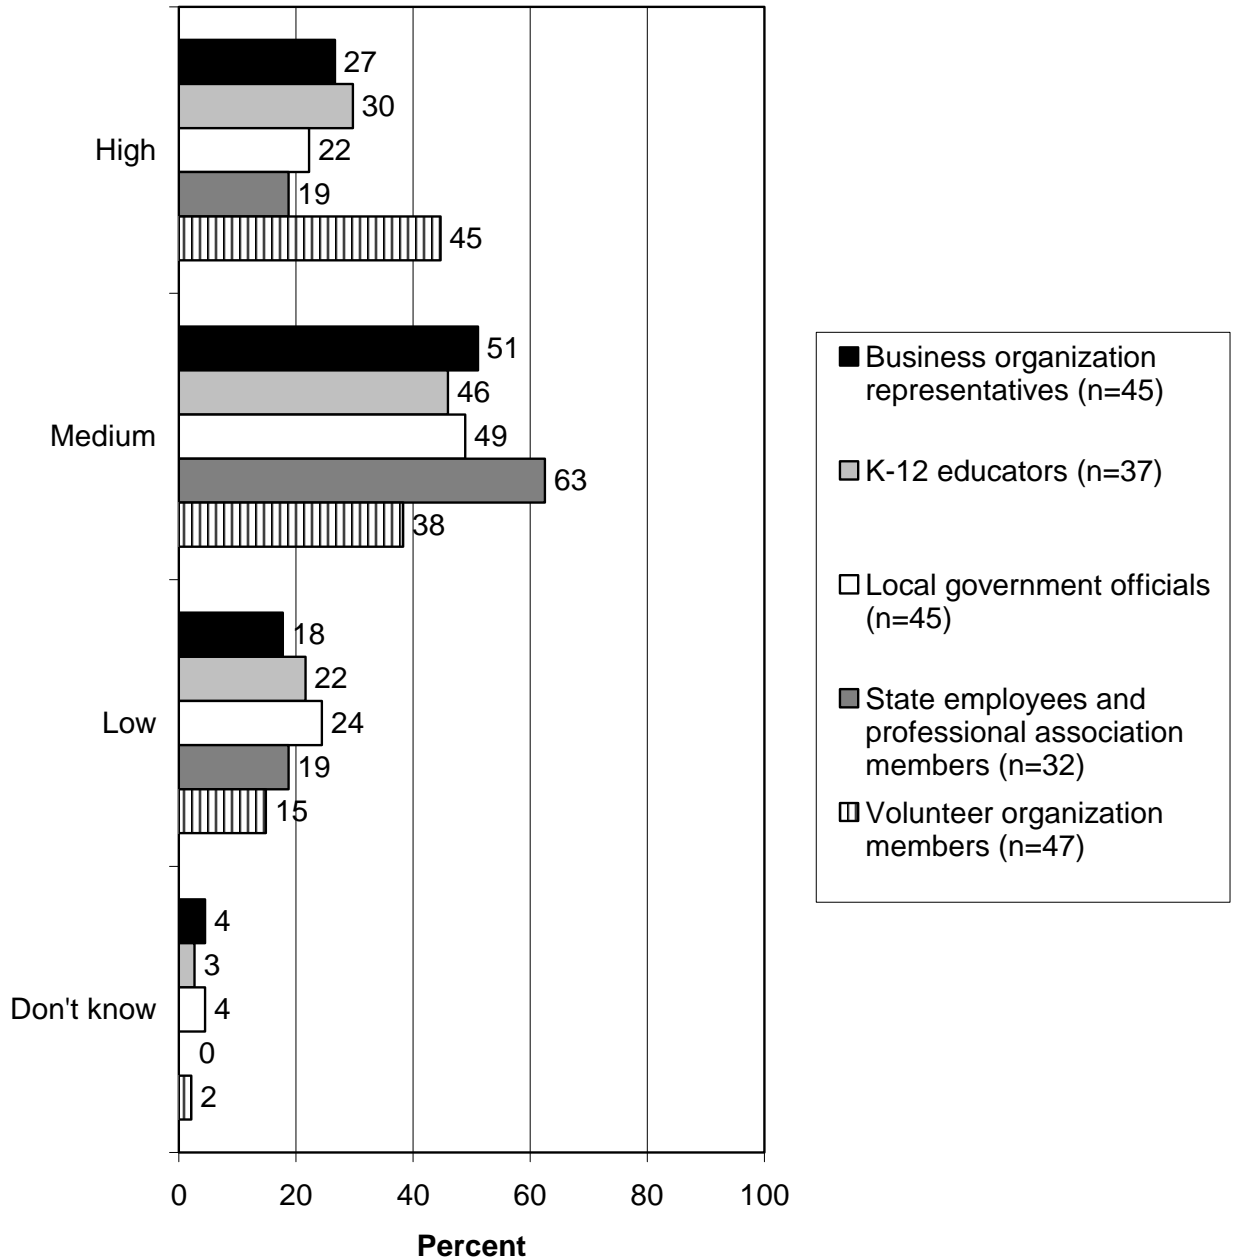

Q107. Do you professionally have a high, medium, or low need for coastal resource training or information on fisheries and fishery law?

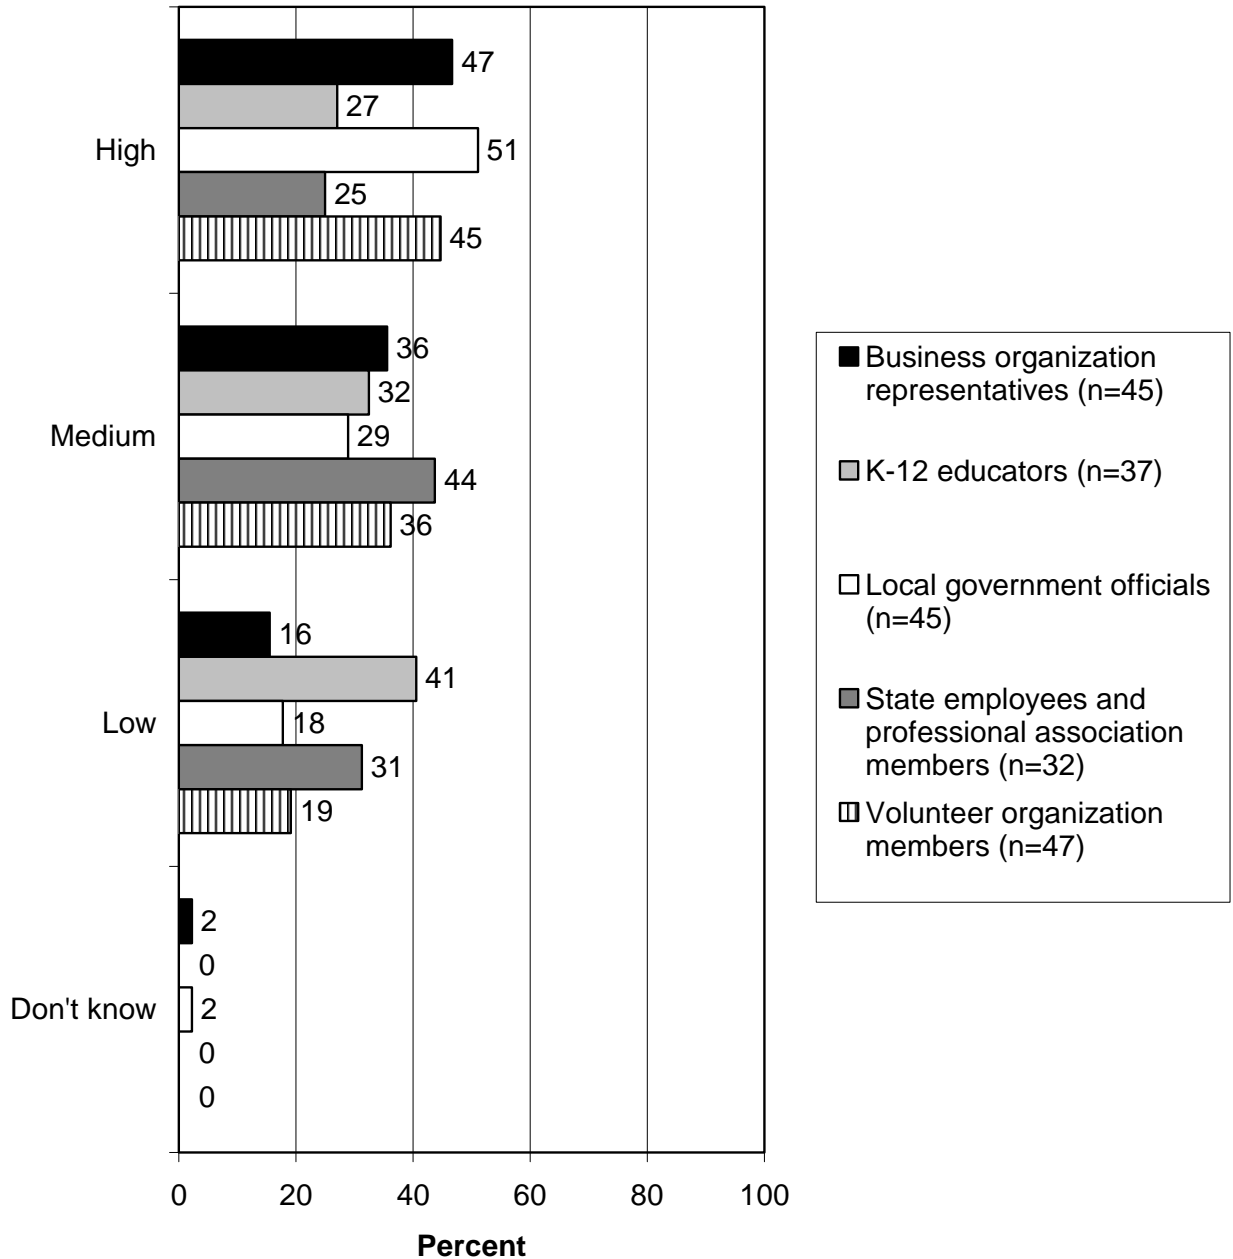

Q108. Do you professionally have a high, medium, or low need for coastal resource training or information on forestry issues?

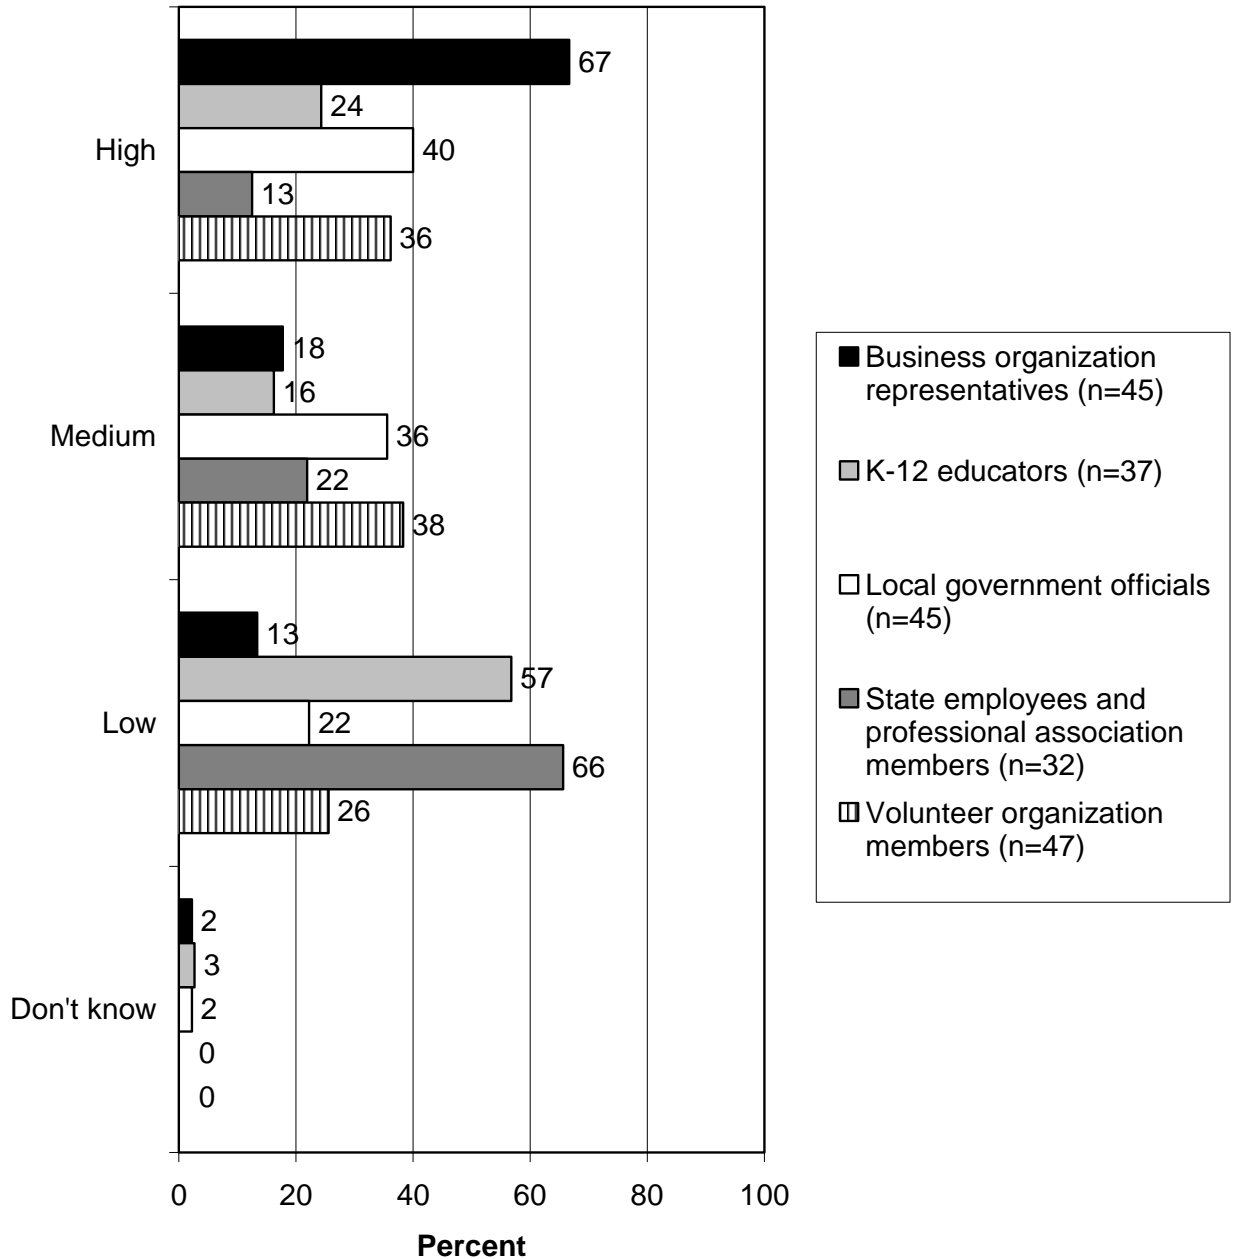

Q109. Do you professionally have a high, medium, or low need for coastal resource training or information on environmental technologies?

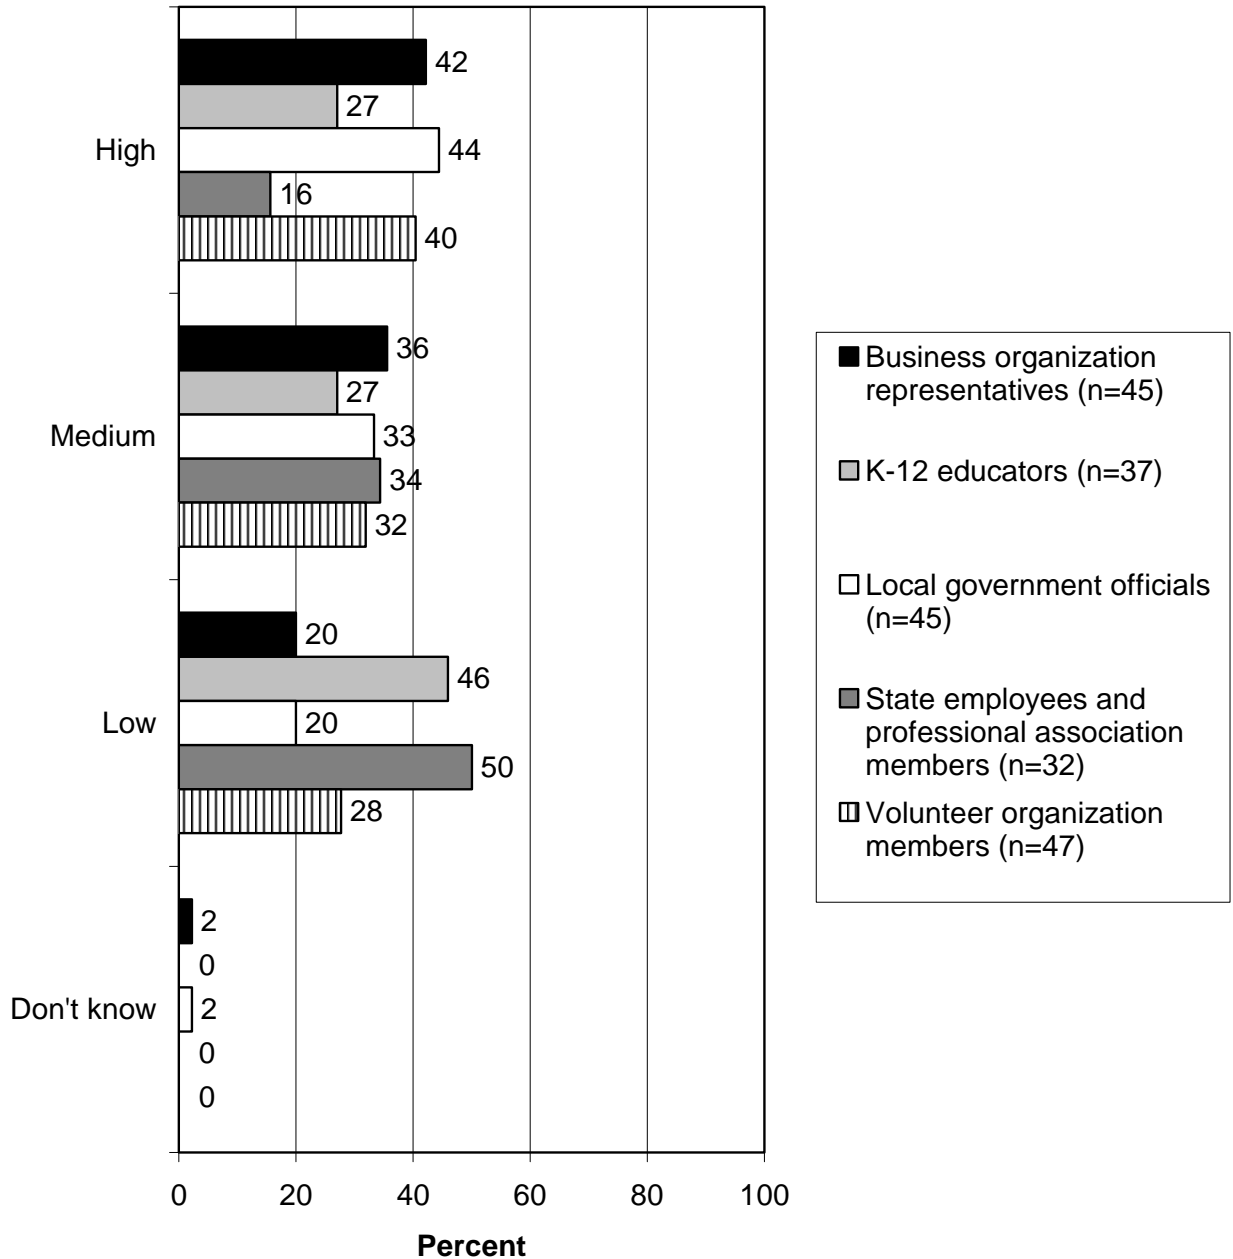

Q110. Do you professionally have a high, medium, or low need for coastal resource training or information on economic aspects of land use?

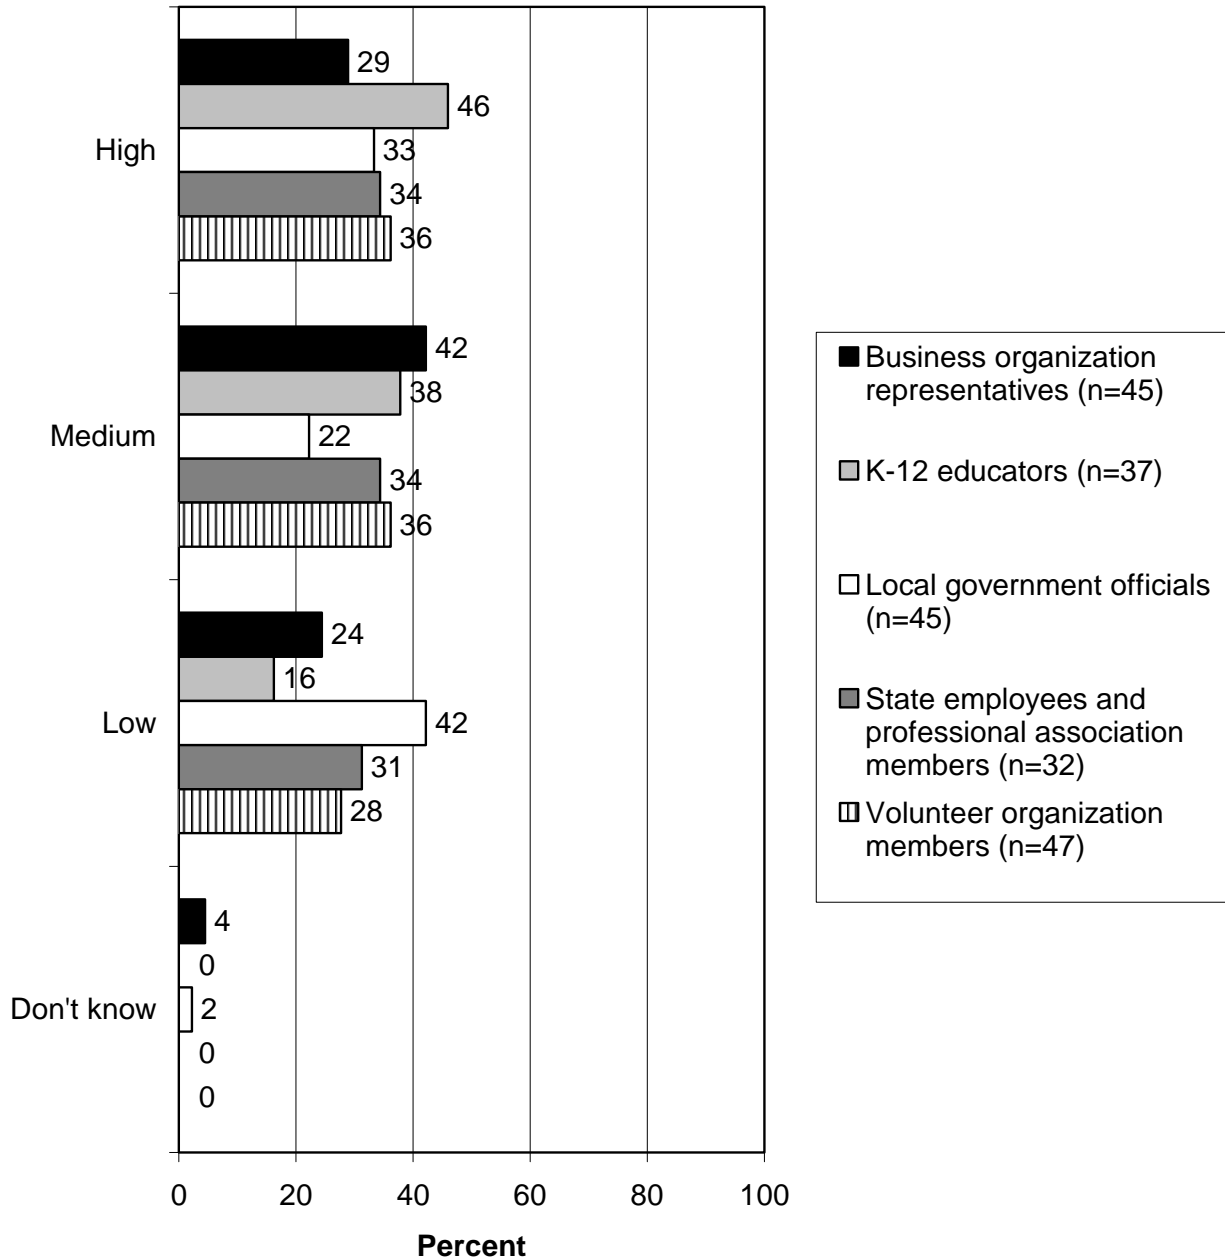

Q111. Do you professionally have a high, medium, or low need for coastal resource training or information on real estate issues?

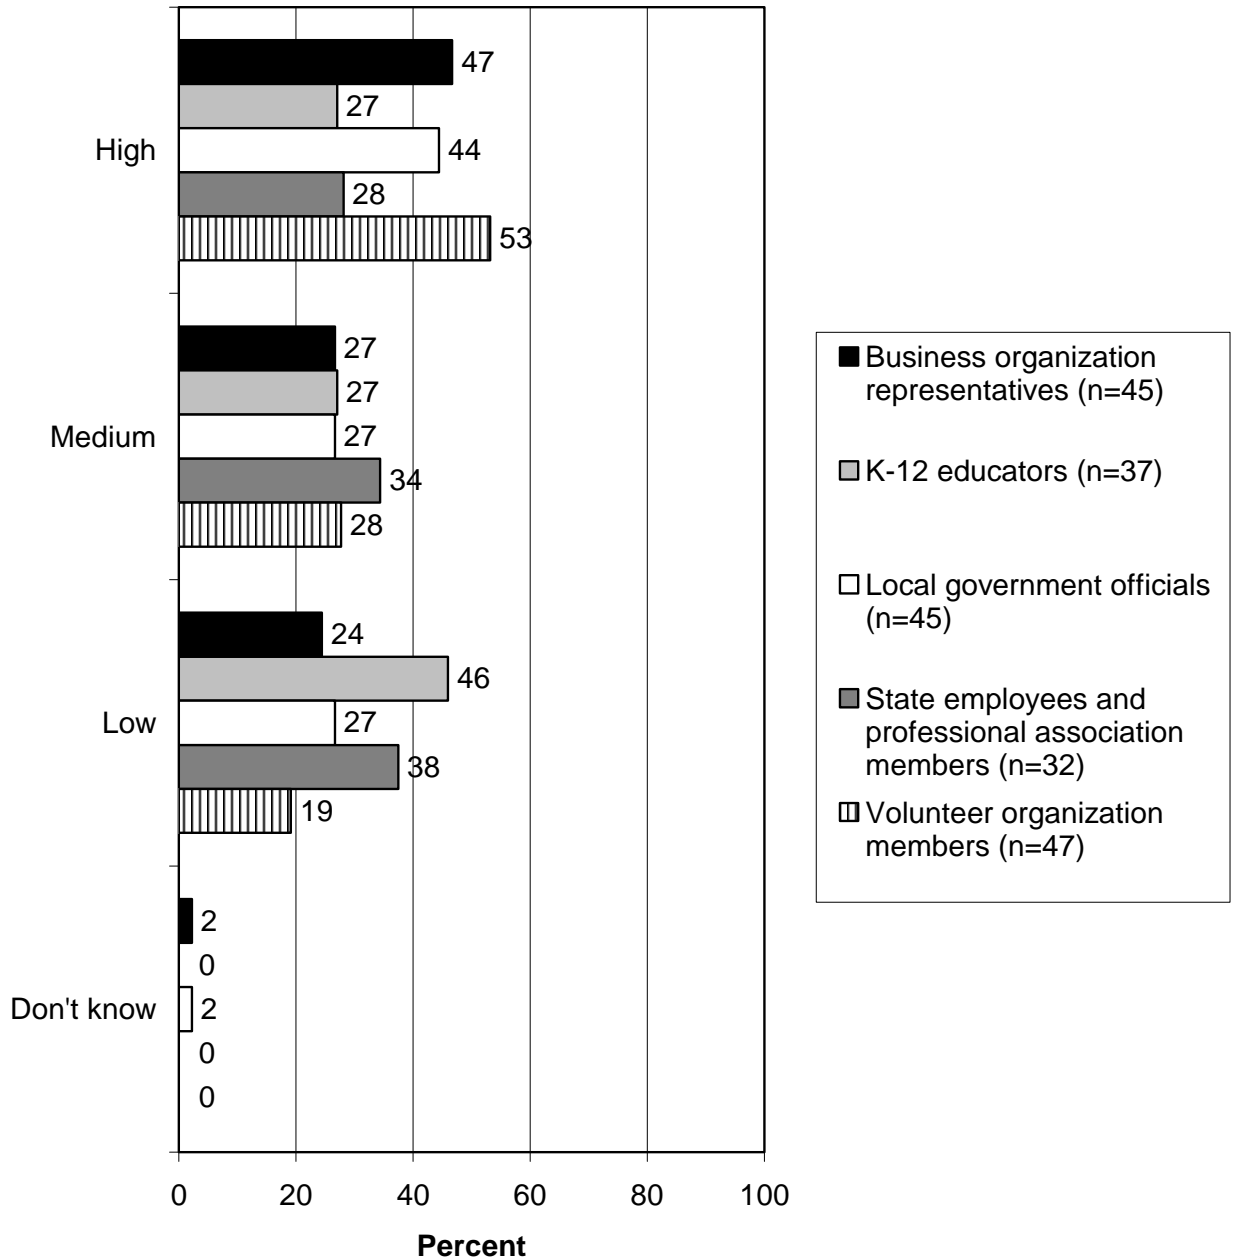

Q112. Do you professionally have a high, medium, or low need for coastal resource training or information on social aspects of land use?

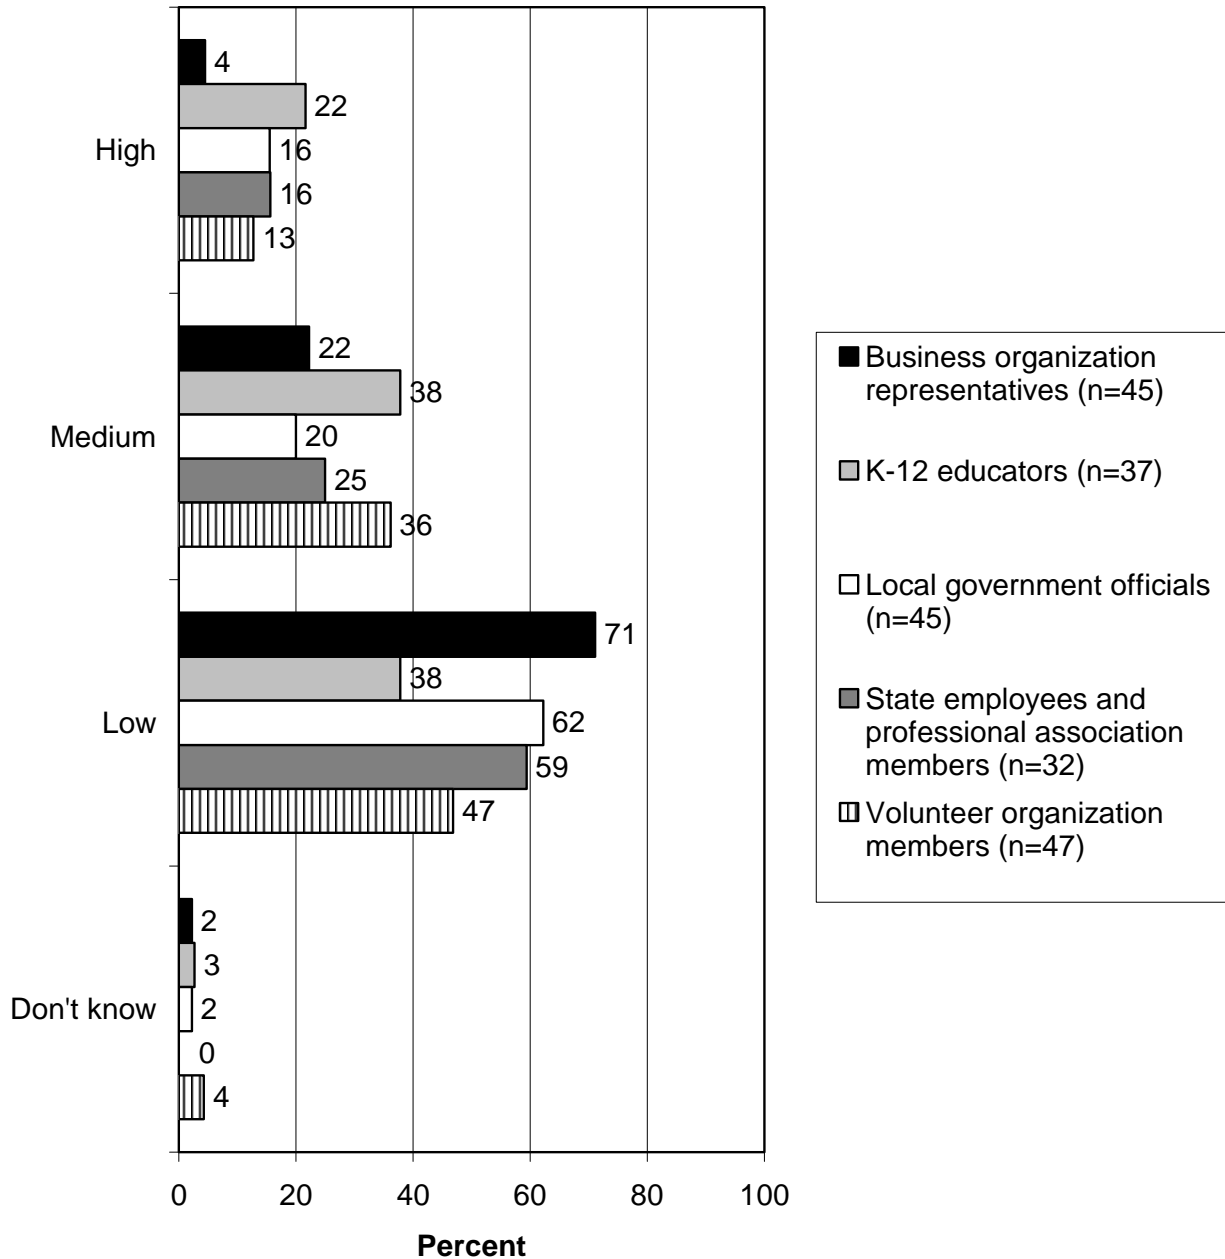

Q113. Do you professionally have a high, medium, or low need for coastal resource training or information on renewable energy?

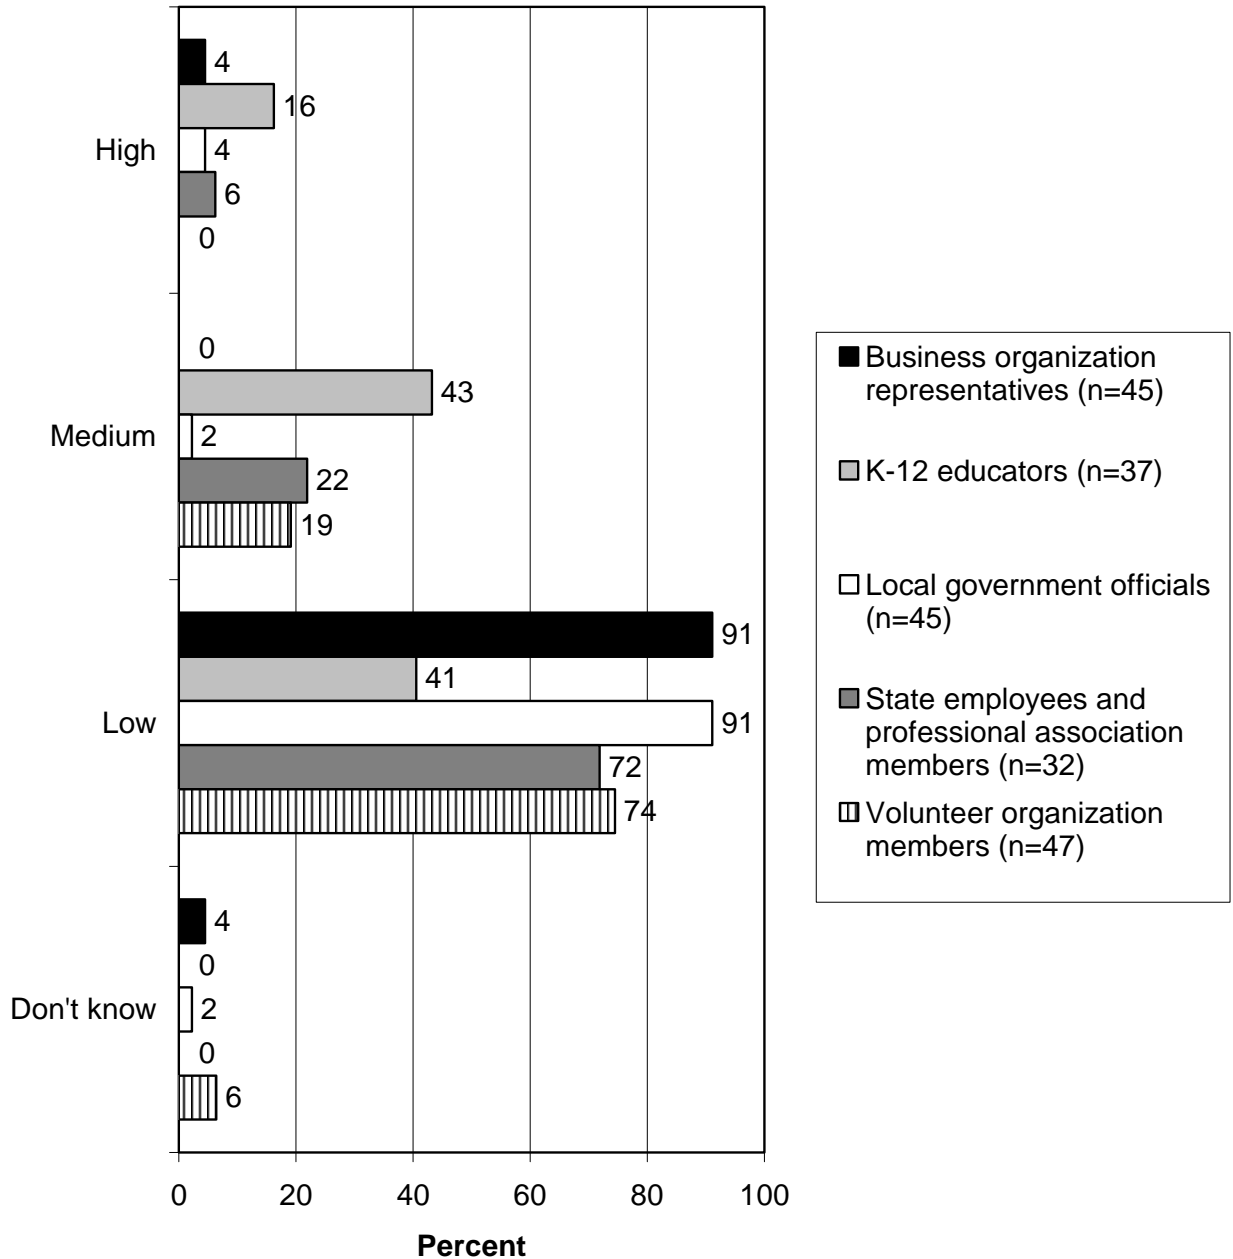

Q114. Do you professionally have a high, medium, or low need for coastal resource training or information on land trusts and conservation acquisitions?

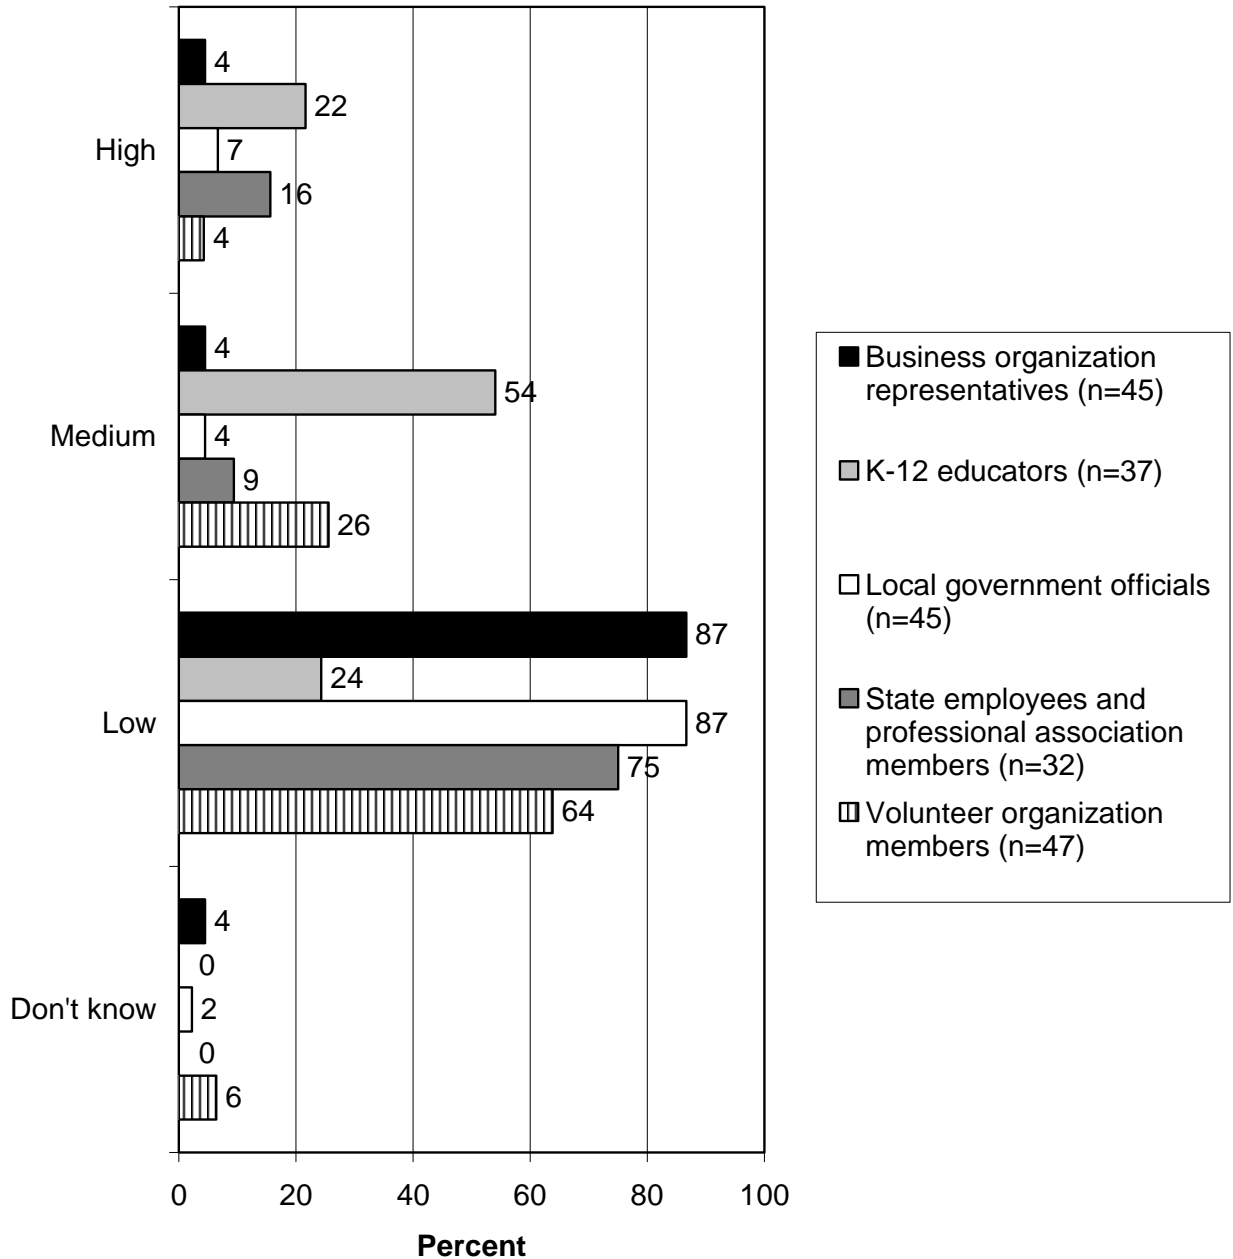

Q115. Do you professionally have a high, medium, or low need for coastal resource training or information on mineral, oil, and natural gas extraction?

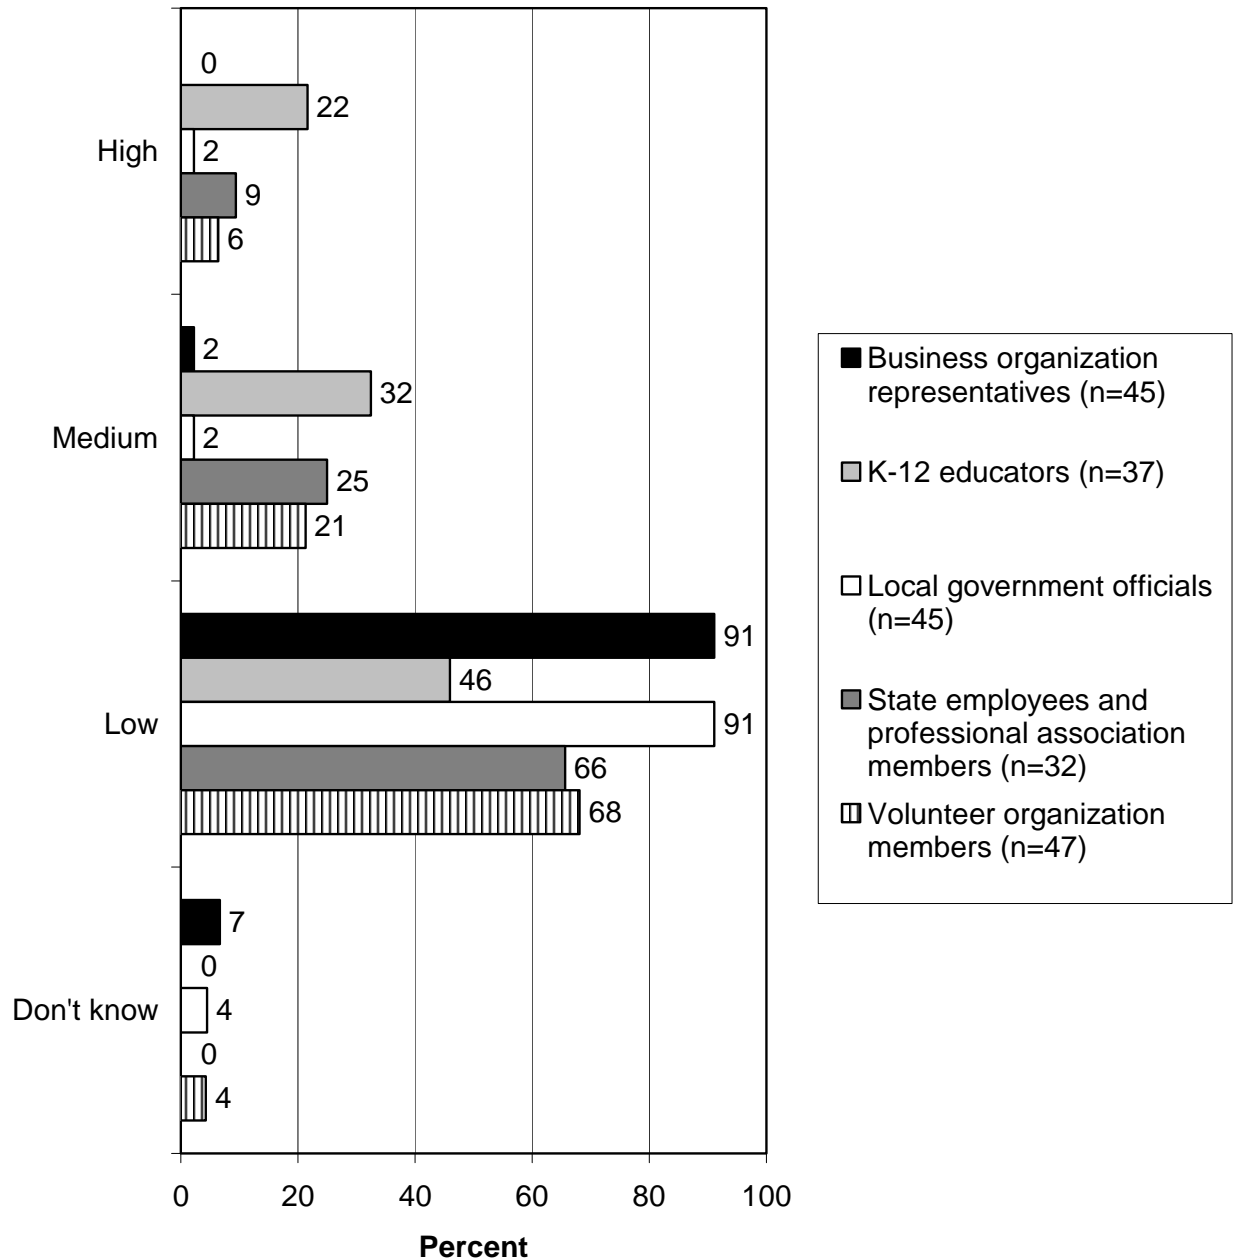

Q116. Do you professionally have a high, medium, or low need for coastal resource training or information on ocean forecasting?

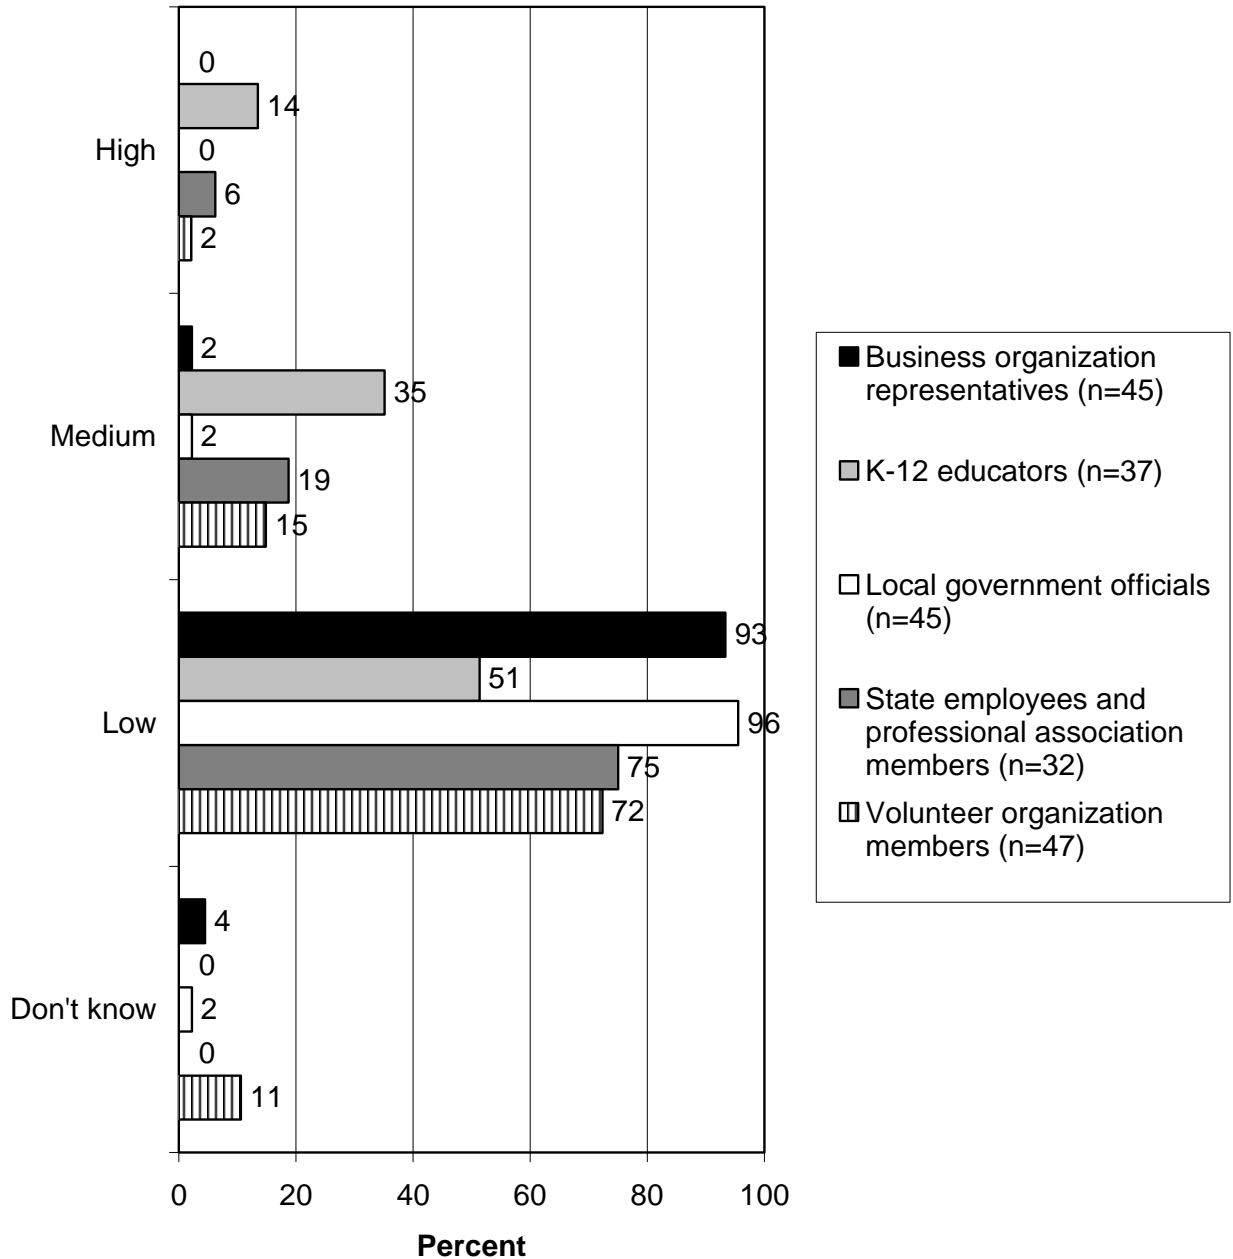

Q117. Do you professionally have a high, medium, or low need for coastal resource training or information on climate prediction?

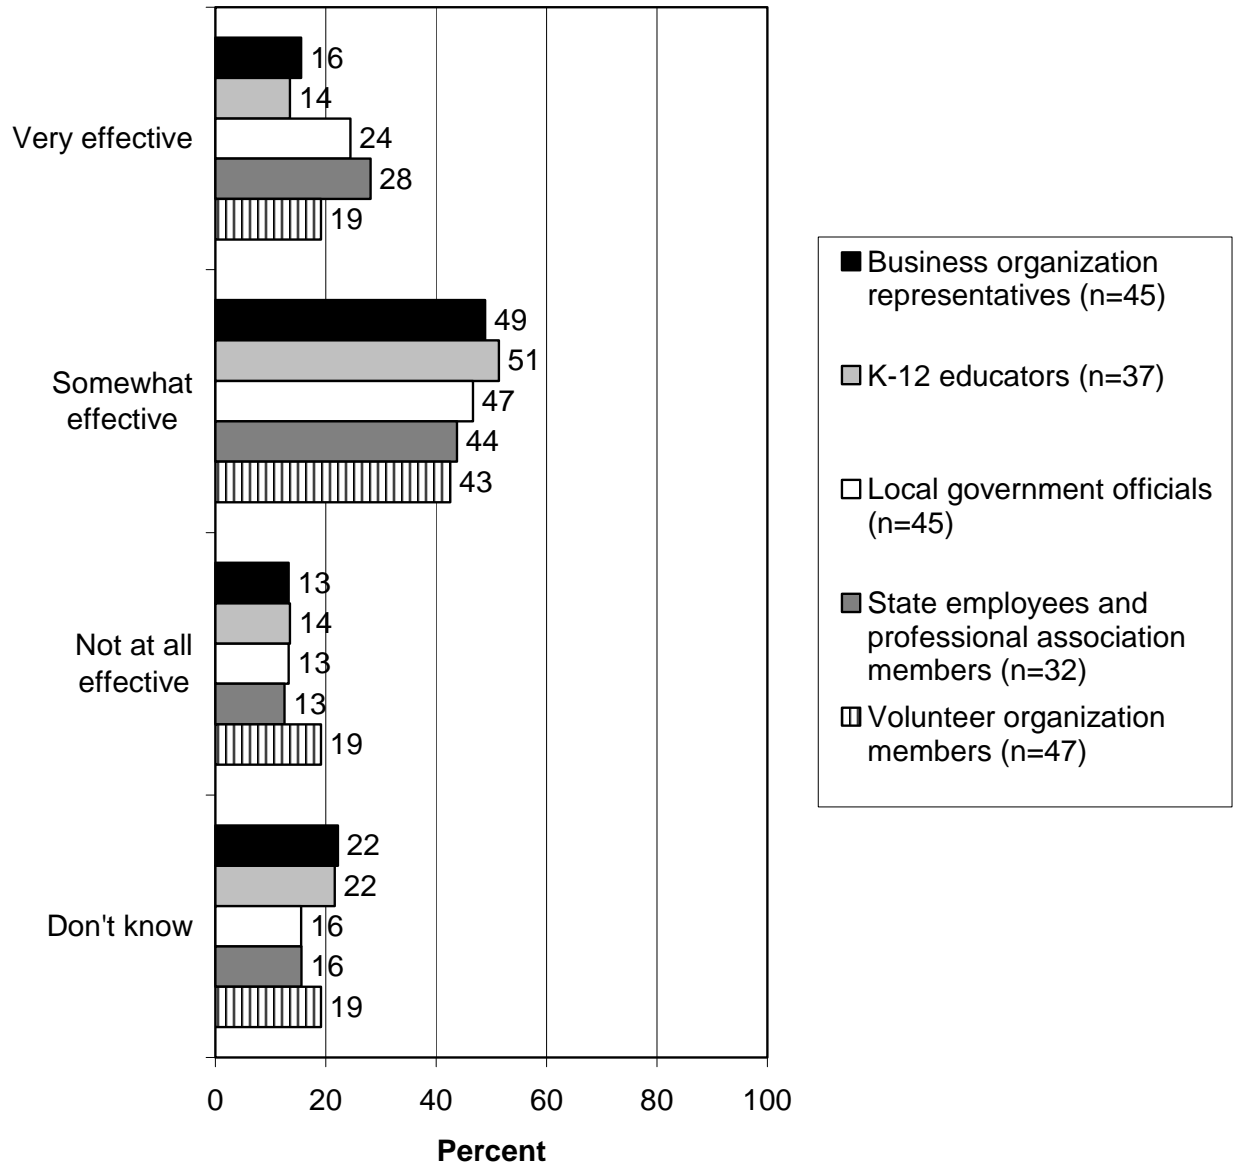

Q118. Do you professionally have a high, medium, or low need for coastal resource training or information on biogeochemical predictors of ocean-atmosphere conditions?

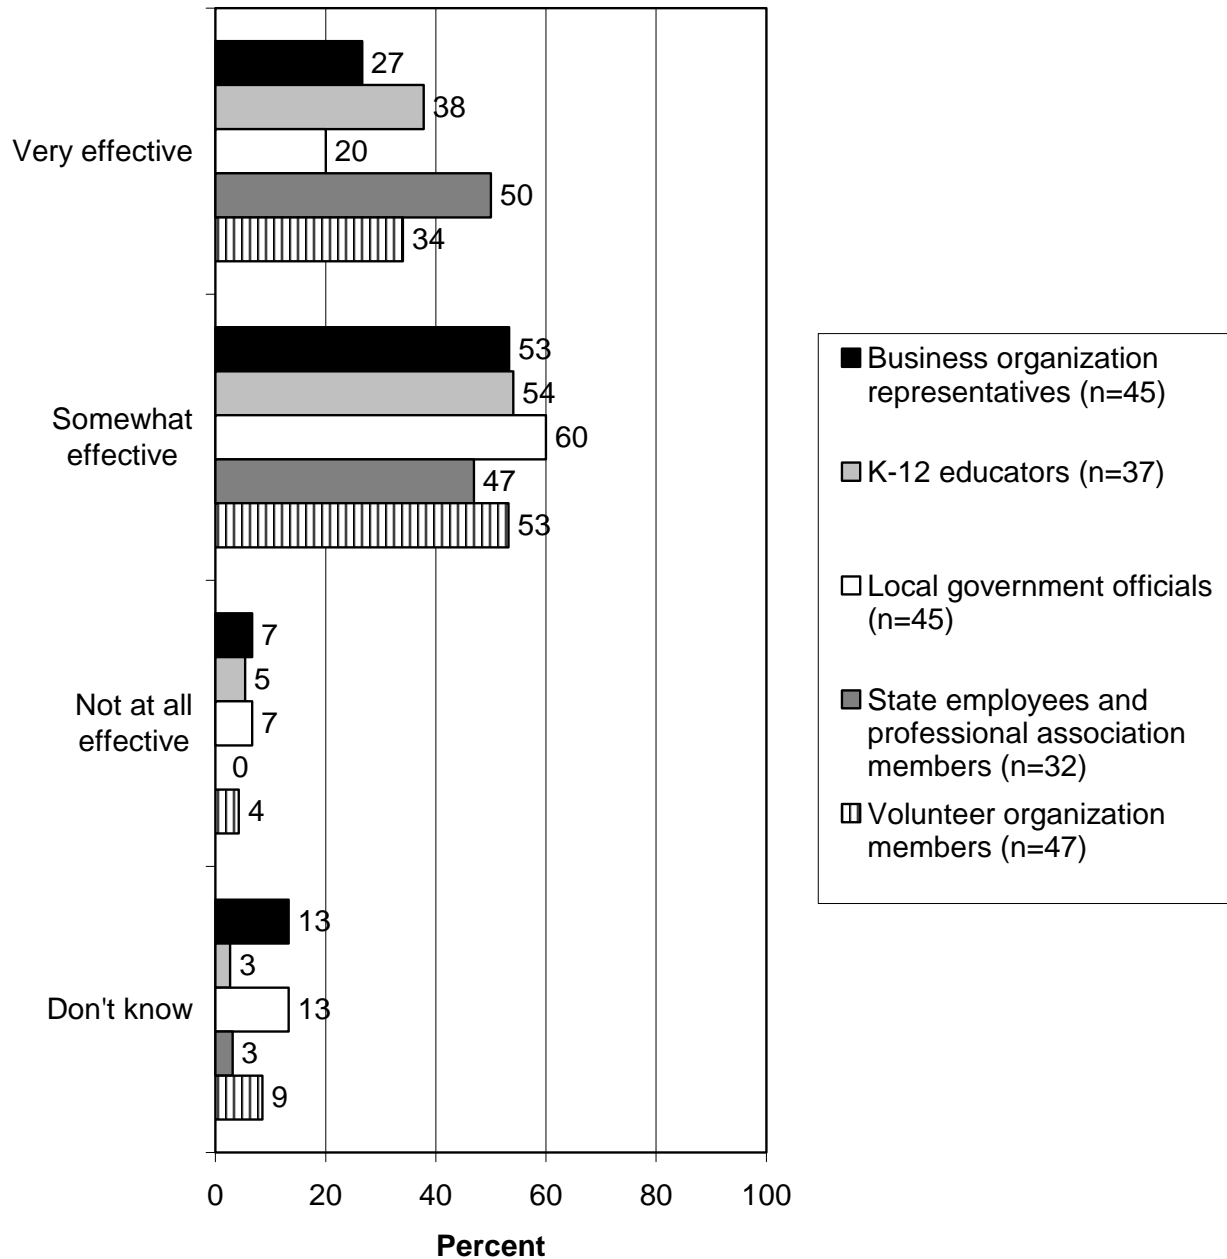

Q119. Do you professionally have a high, medium, or low need for coastal resource training or information on ocean surface optical properties?

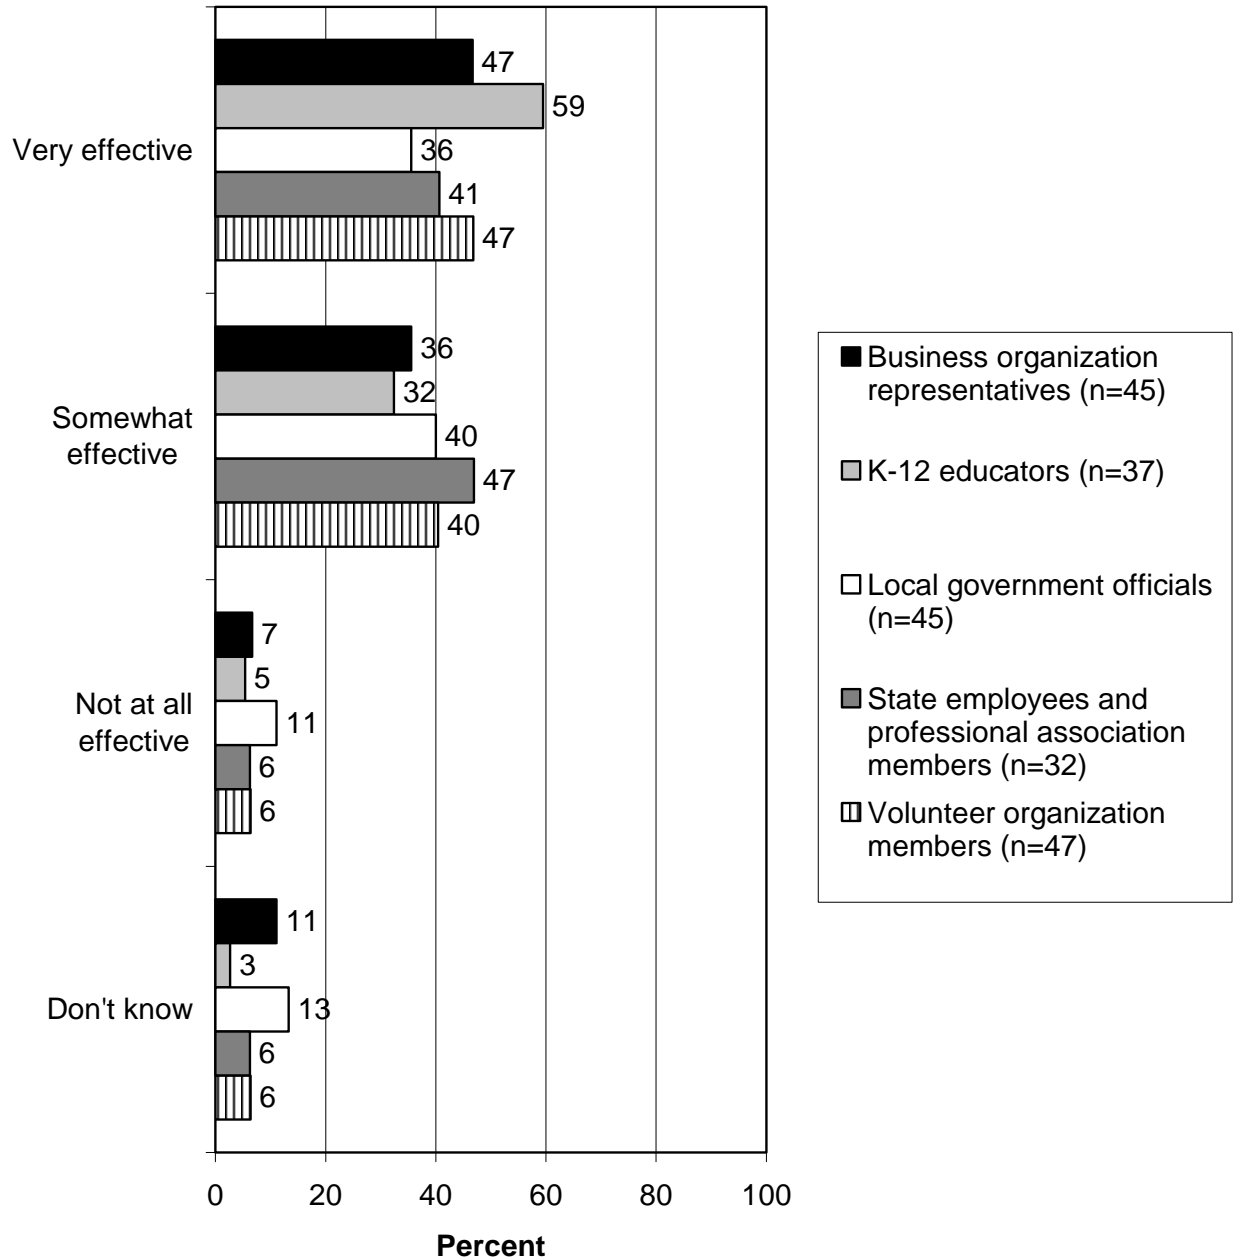

Q129. How would you rate the format of certification programs in teaching you about coastal resource issues?

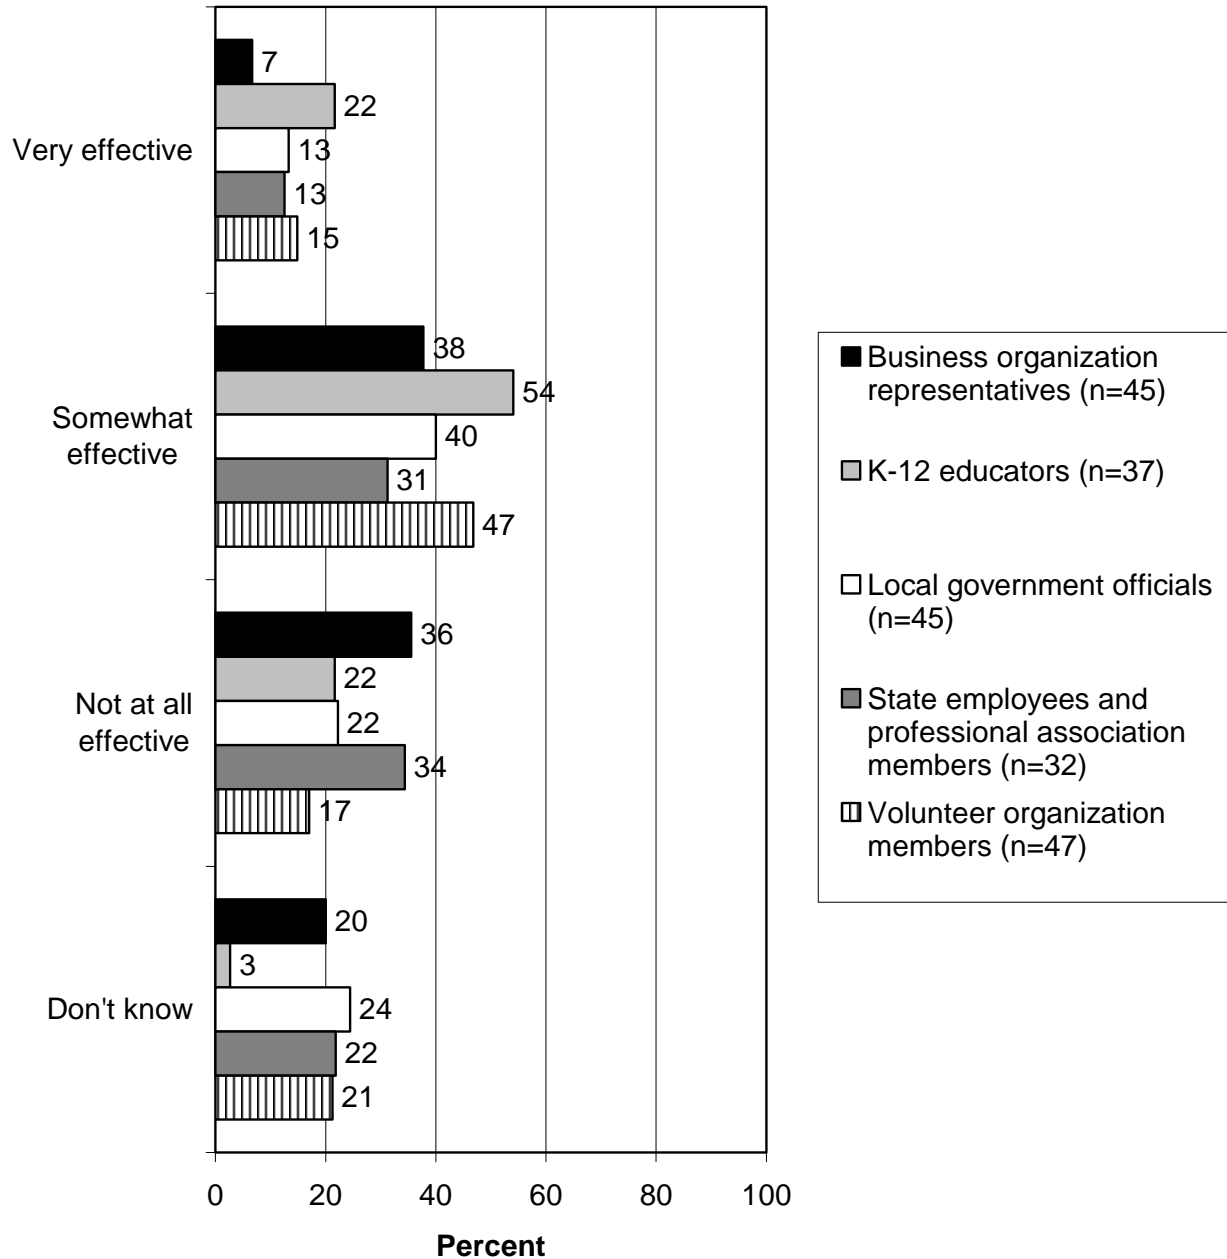

Q130. How would you rate the format of conferences in teaching you about coastal resource issues?

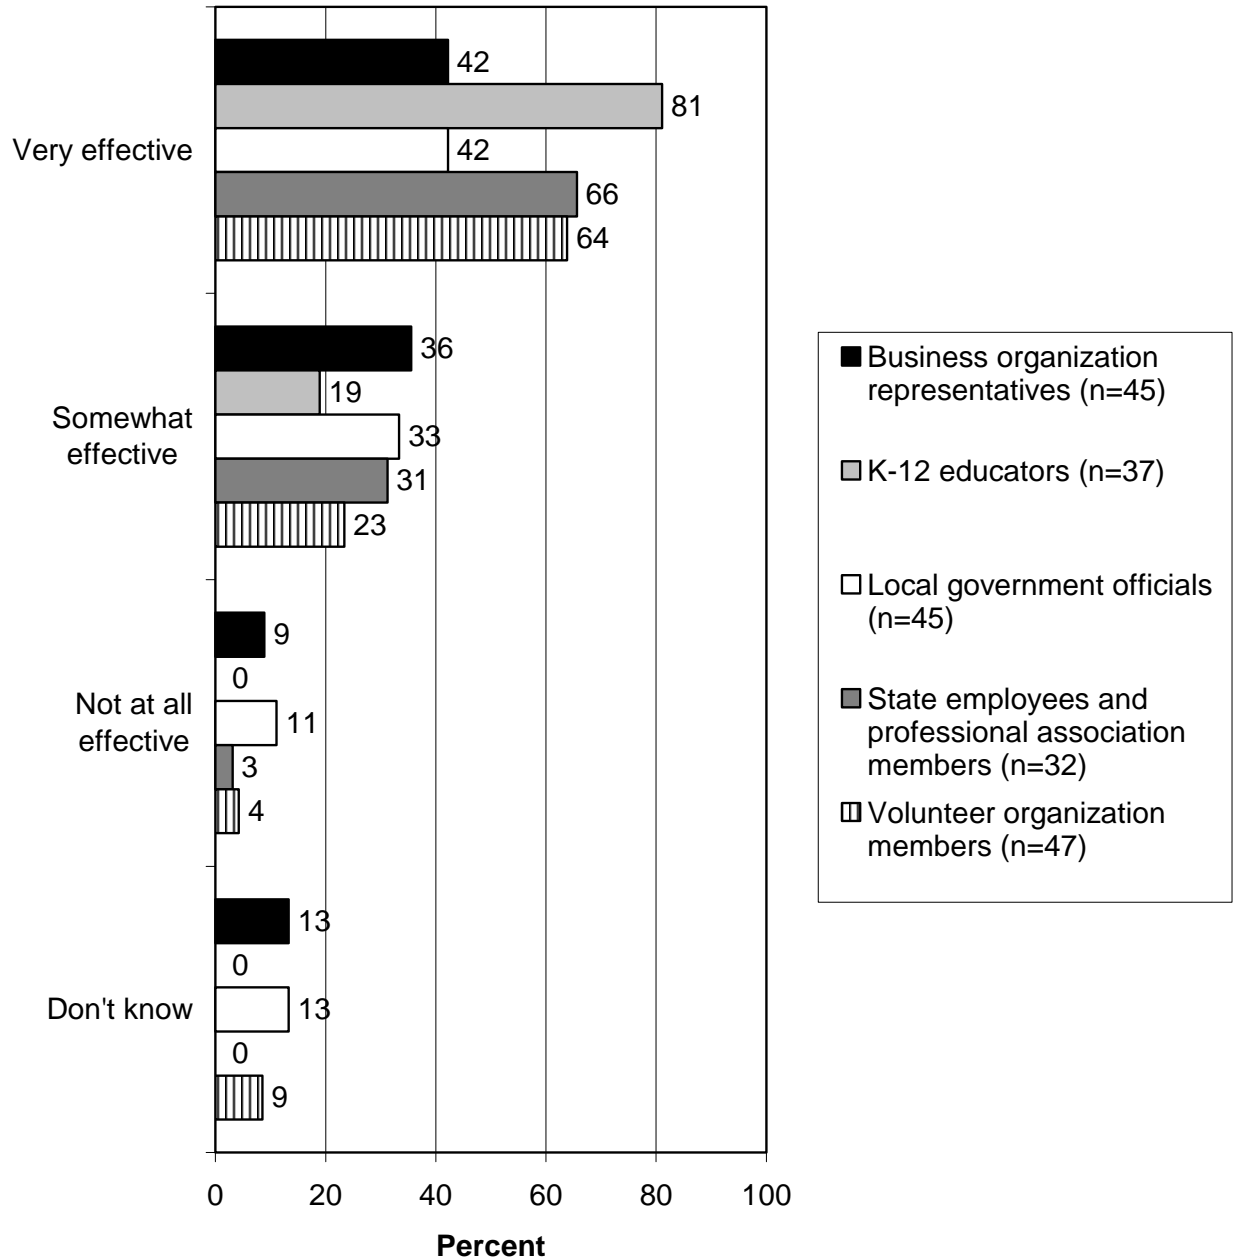

Q131. How would you rate the format of continuing education courses in teaching you about coastal resource issues?

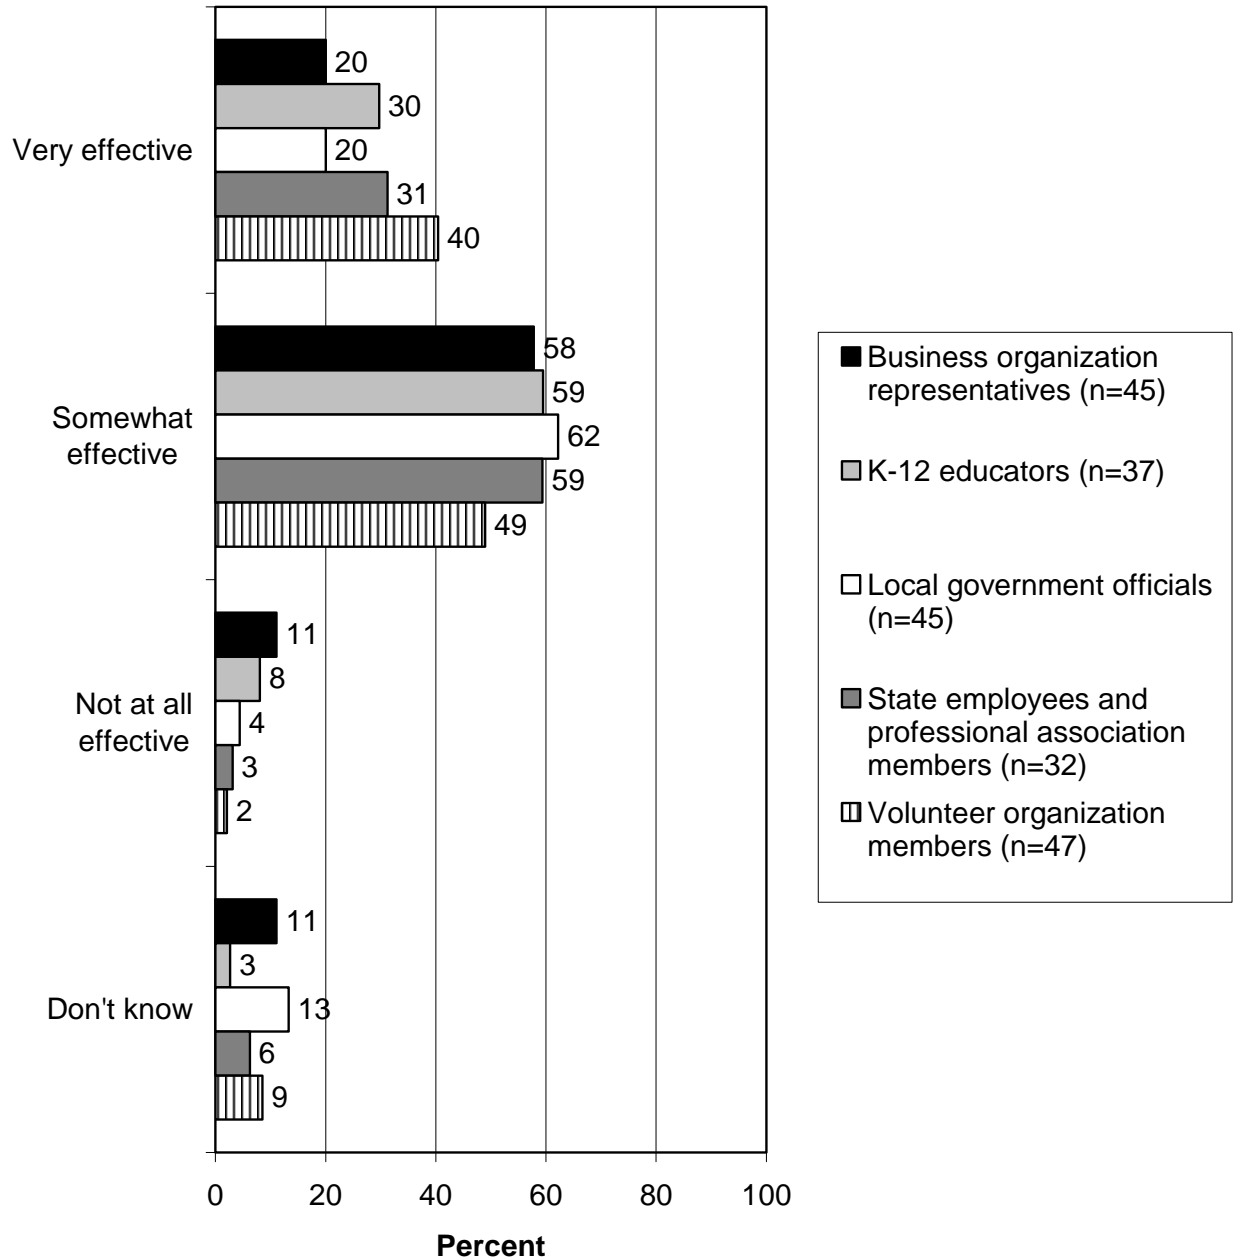

Q132. How would you rate the format of distance learning programs in teaching you about coastal resource issues?

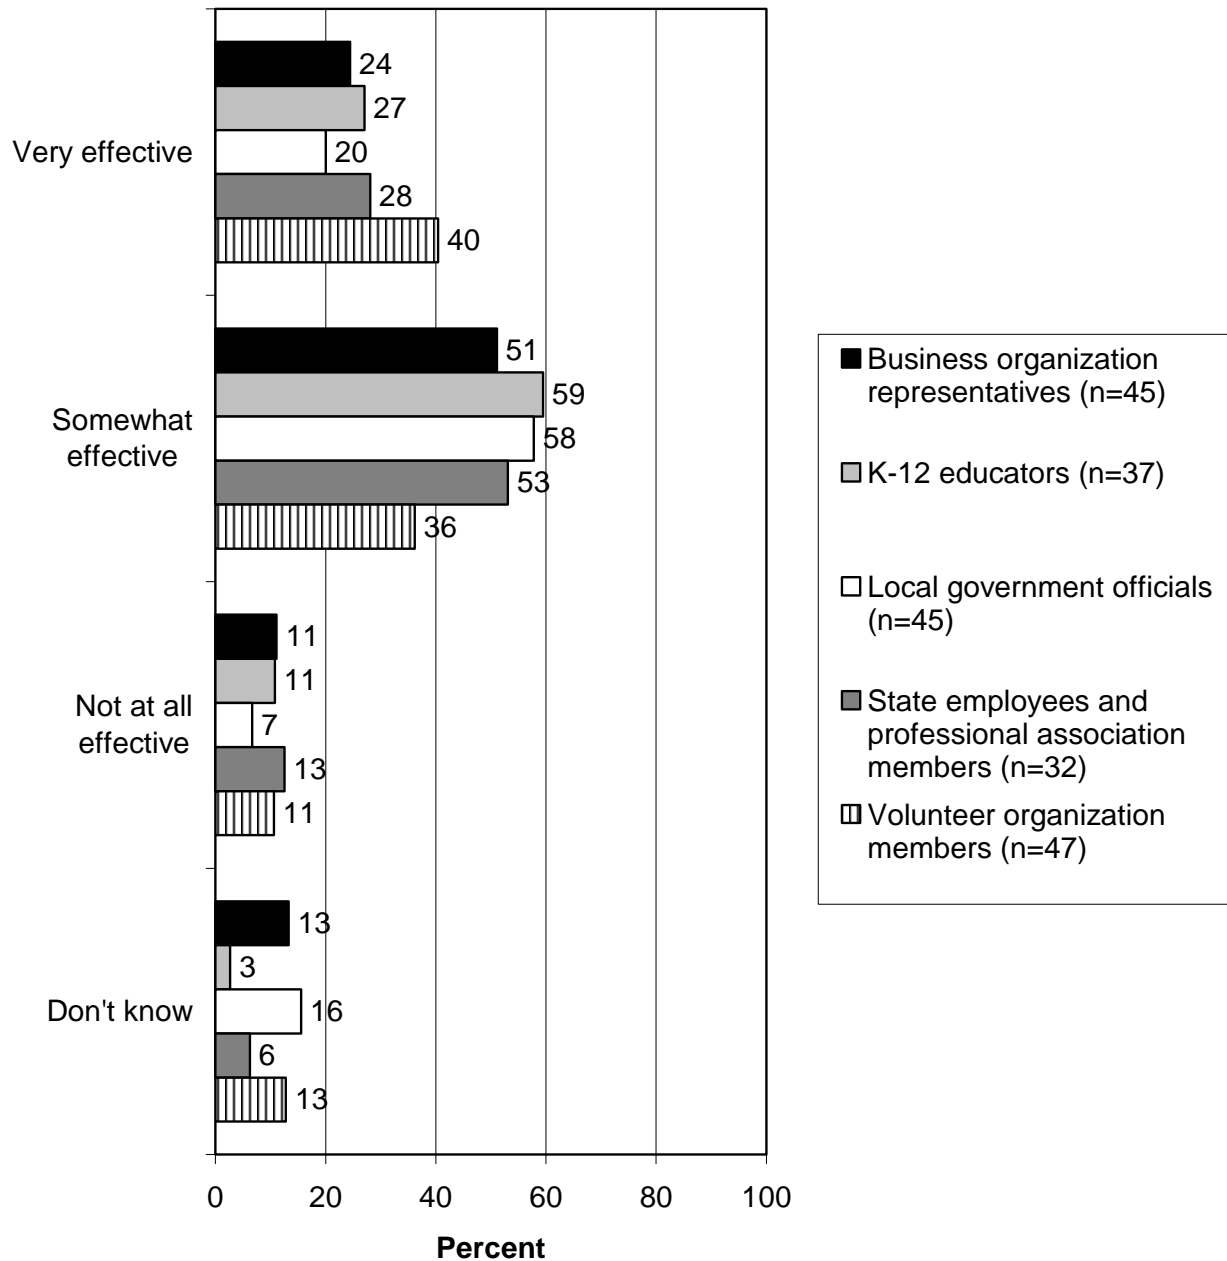

Q133. How would you rate the format of field-based programs or field trips in teaching you about coastal resource issues?

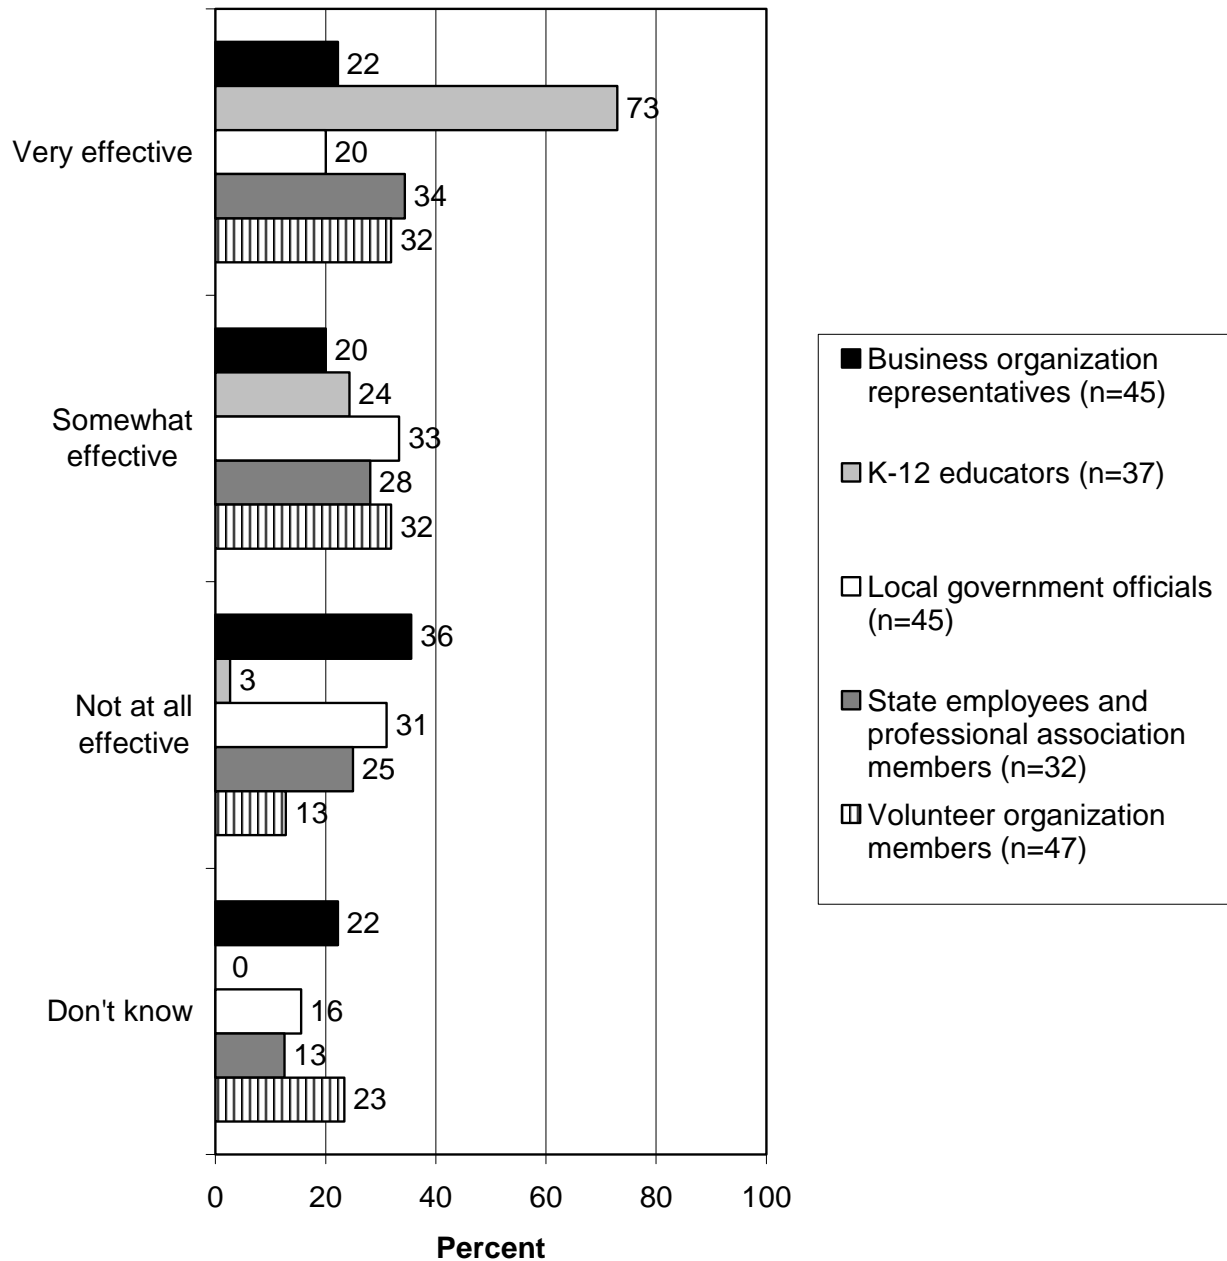

Q134. How would you rate the format of informal training (meetings, etc.) in teaching you about coastal resource issues?

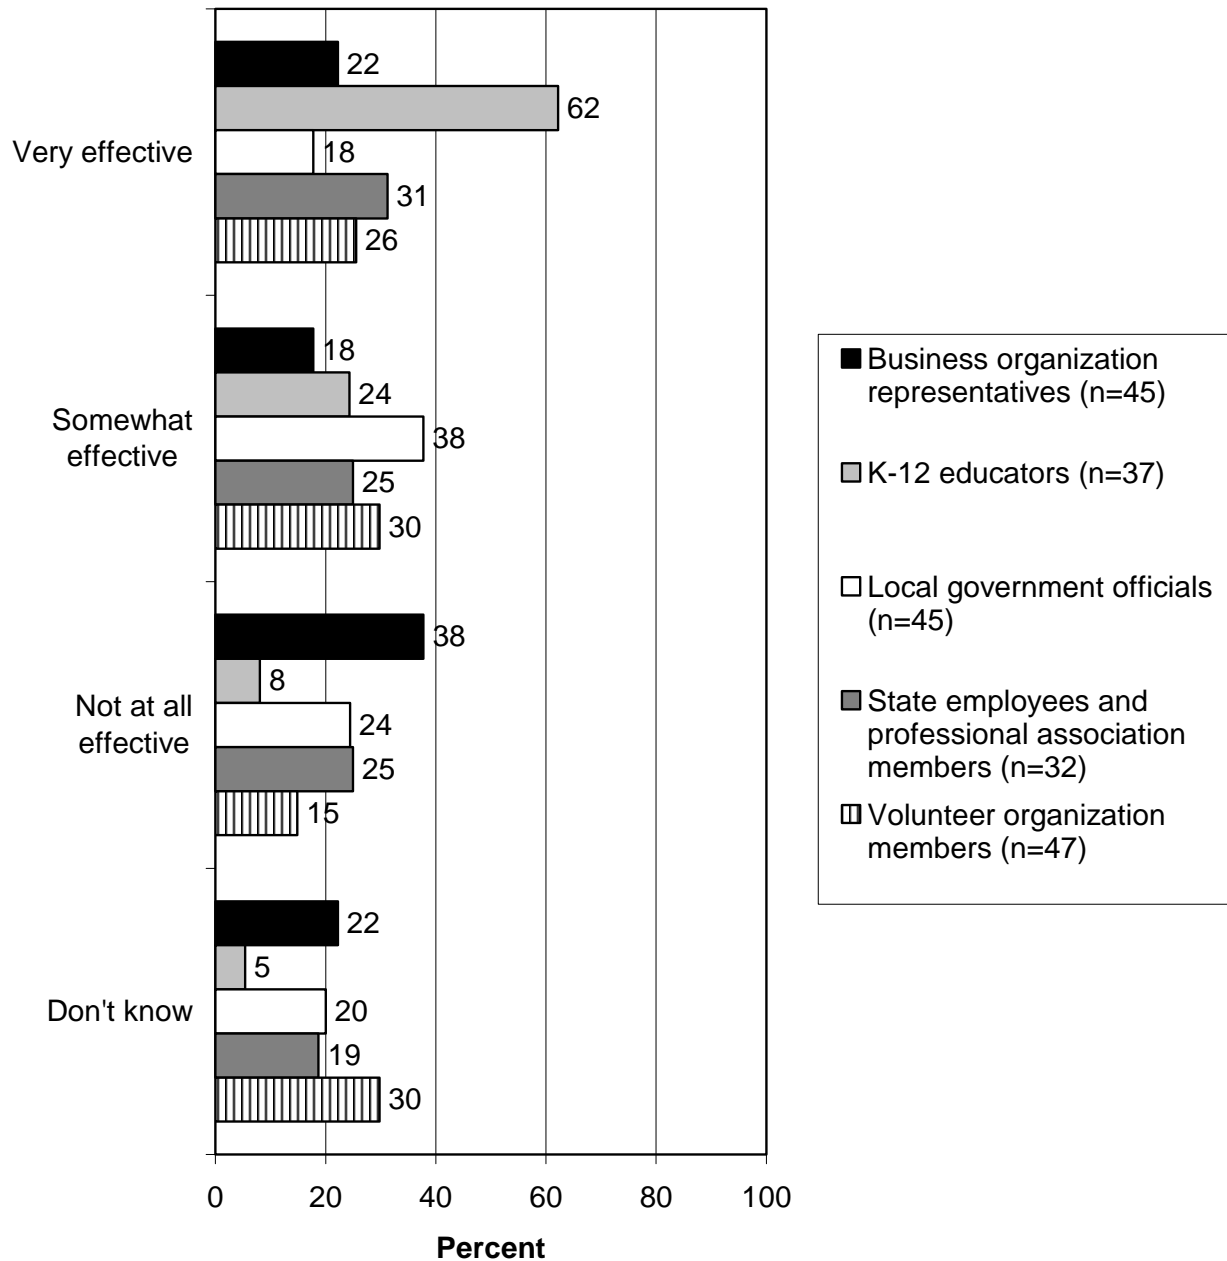

Q135. How would you rate the format of information products and technical resources in teaching you about coastal resource issues?

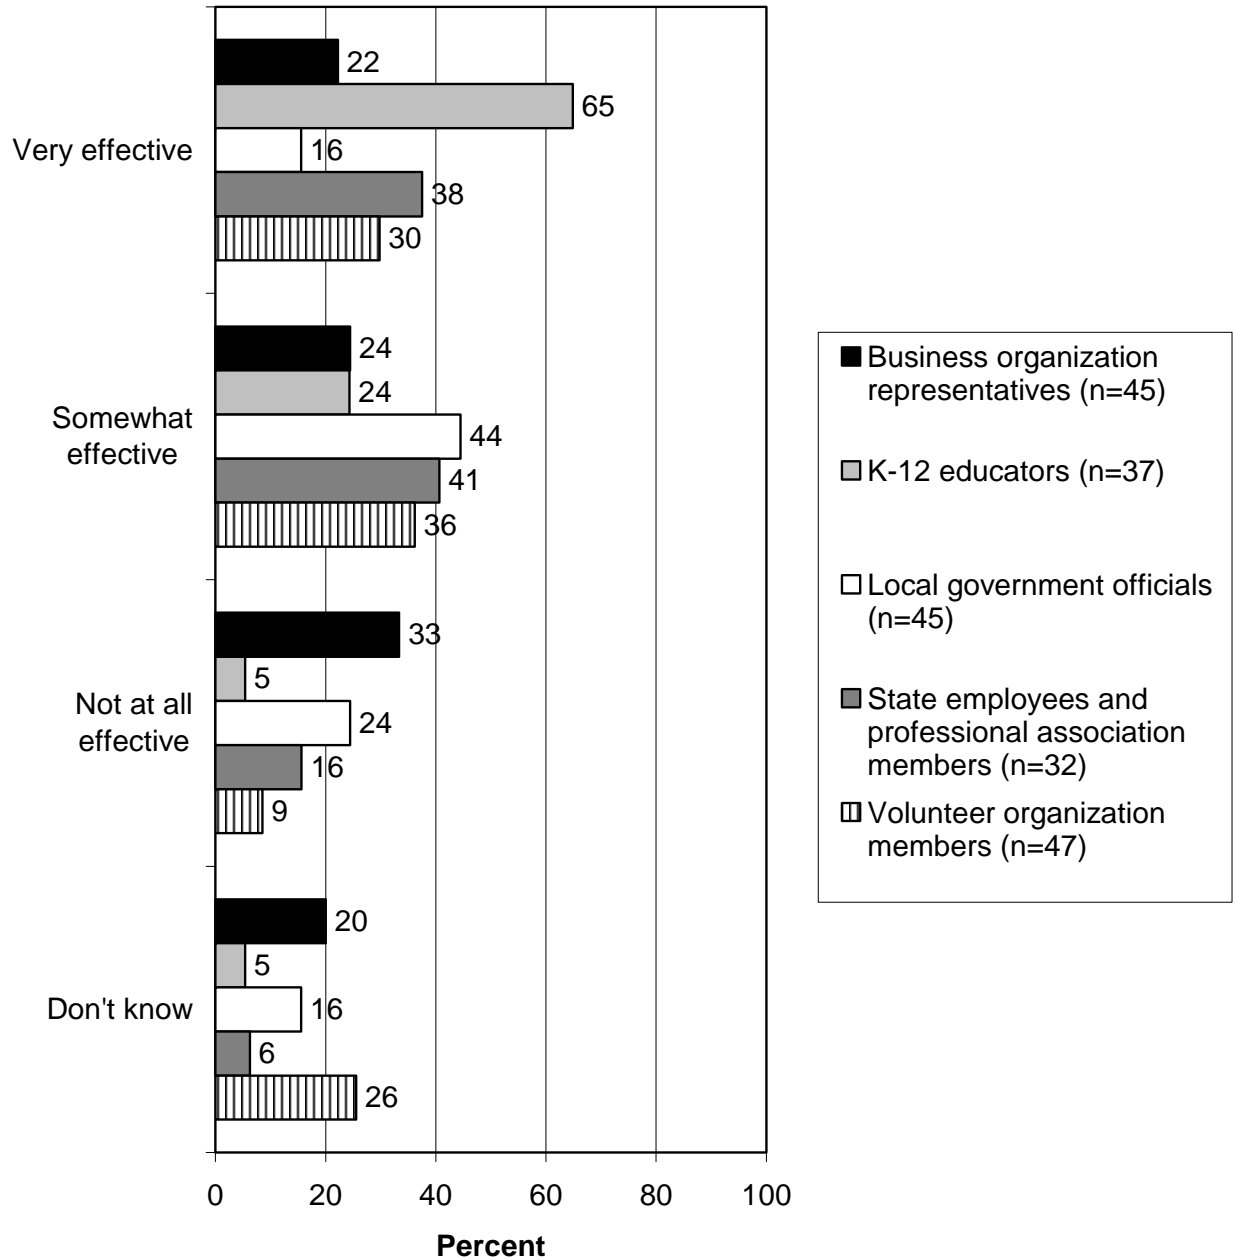

Q136. How would you rate the format of in-service training (for K-12 educators) in teaching you about coastal resource issues?

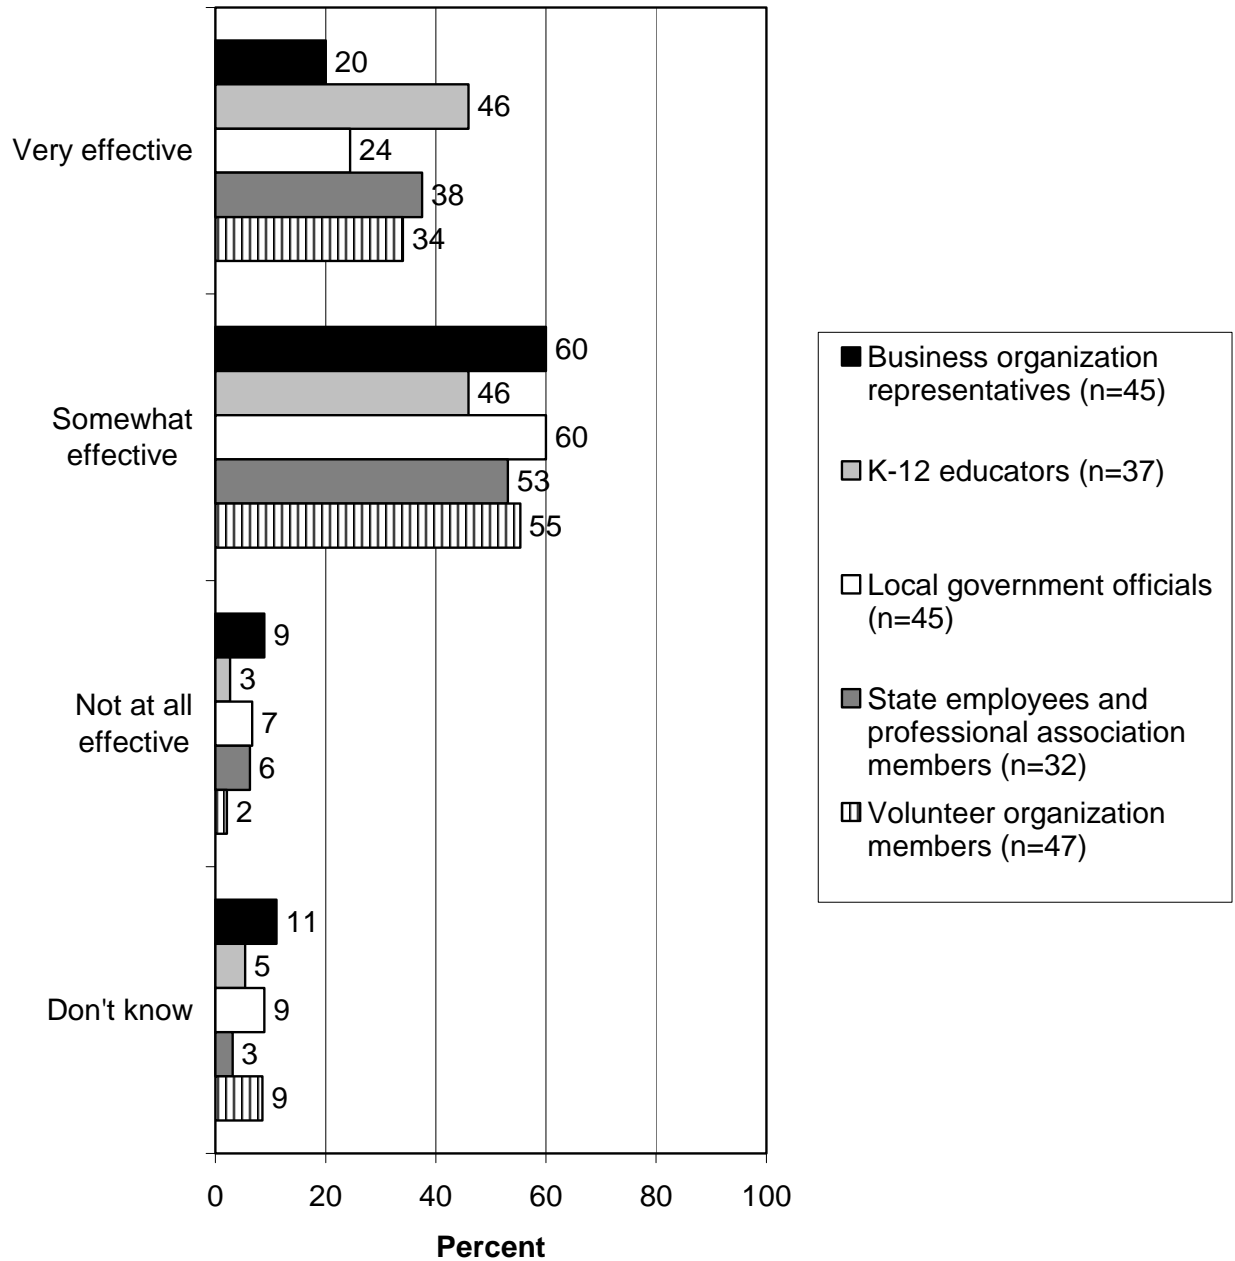

Q137. How would you rate the format of pre-service training (for K-12 educators) in teaching you about coastal resource issues?

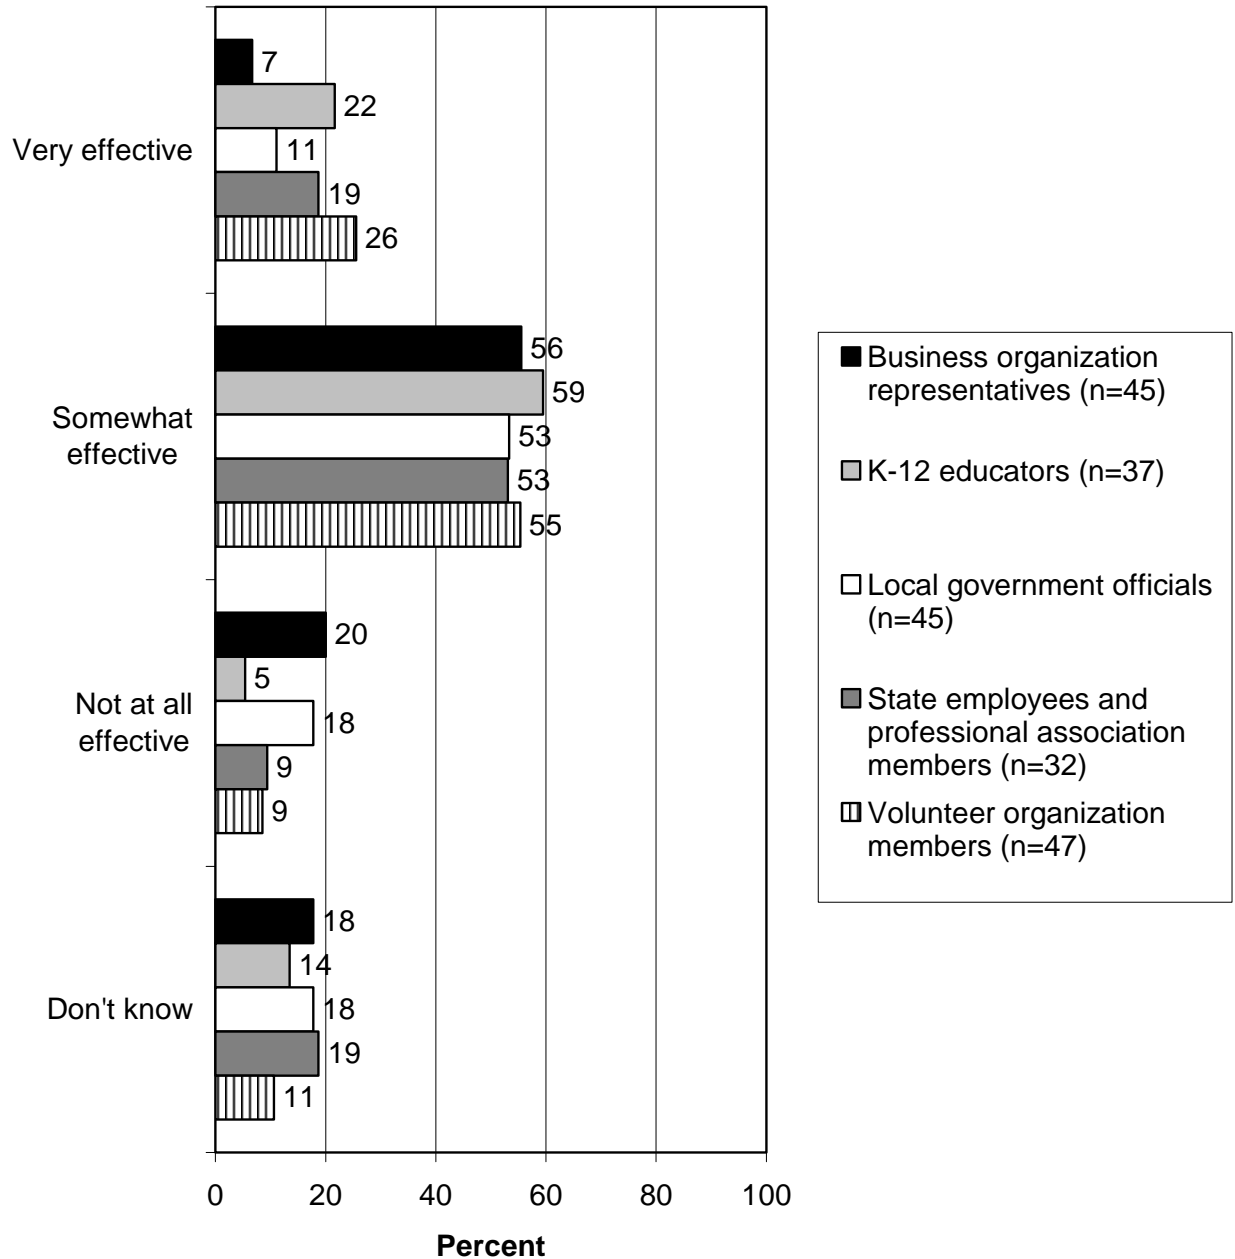

Q138. How would you rate the format of laboratory courses in teaching you about coastal resource issues?

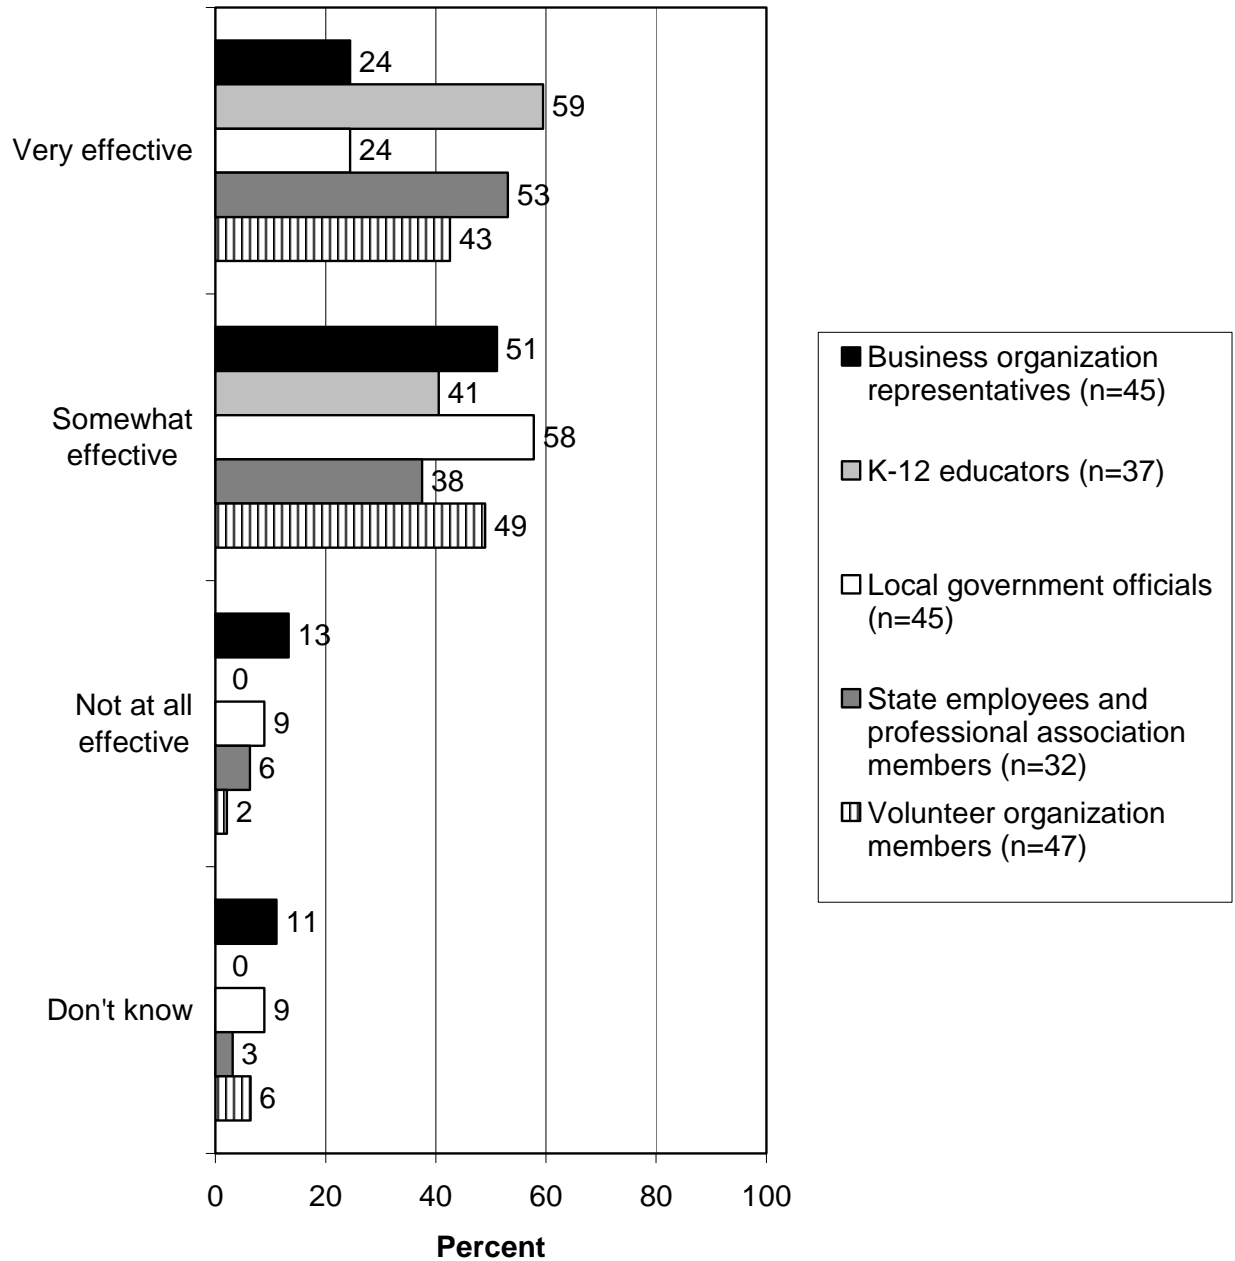

Q139. How would you rate the format of seminars in teaching you about coastal resource issues?

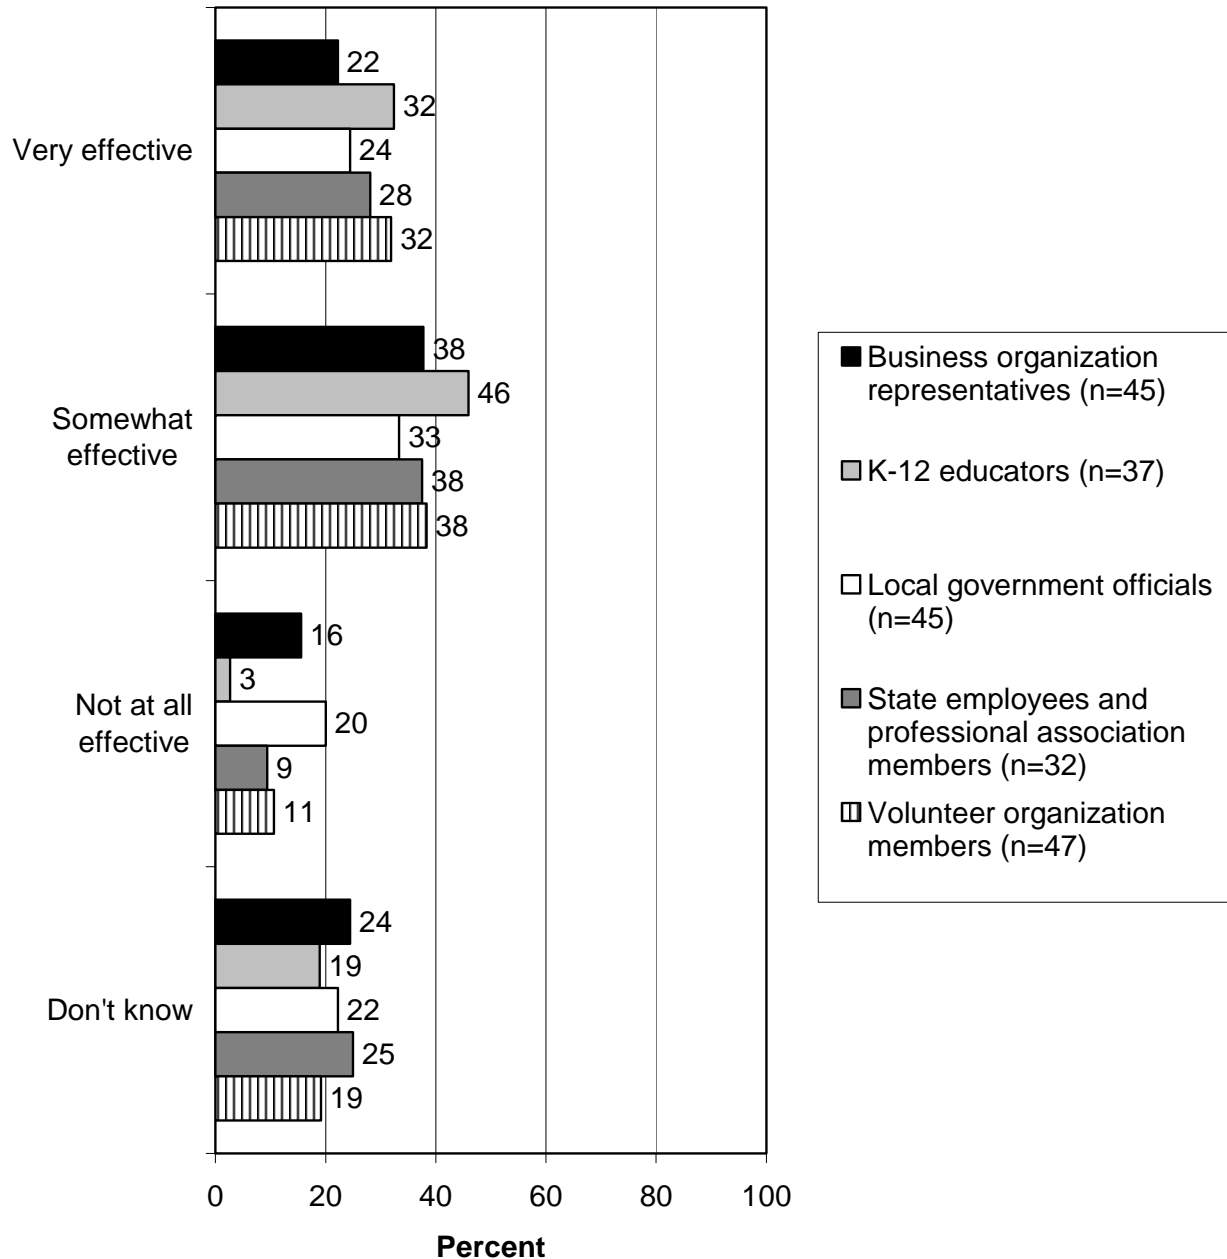

Q140. How would you rate the format of Web-based programs in teaching you about coastal resource issues?

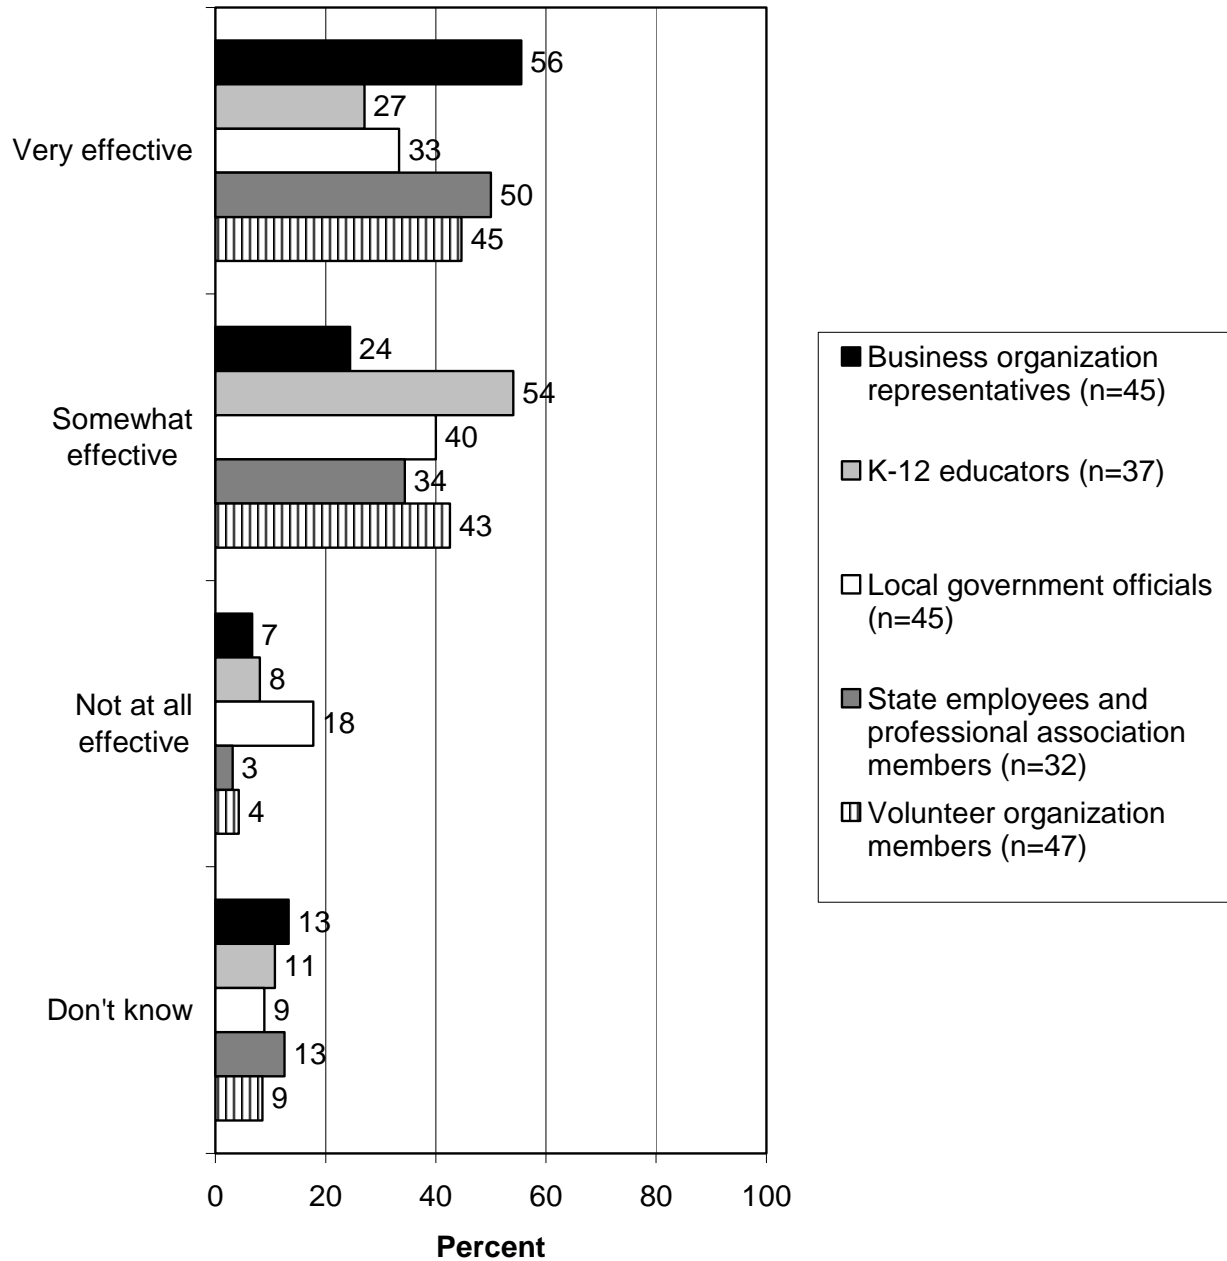

Q141. How would you rate the format of workshops in teaching you about coastal resource issues?

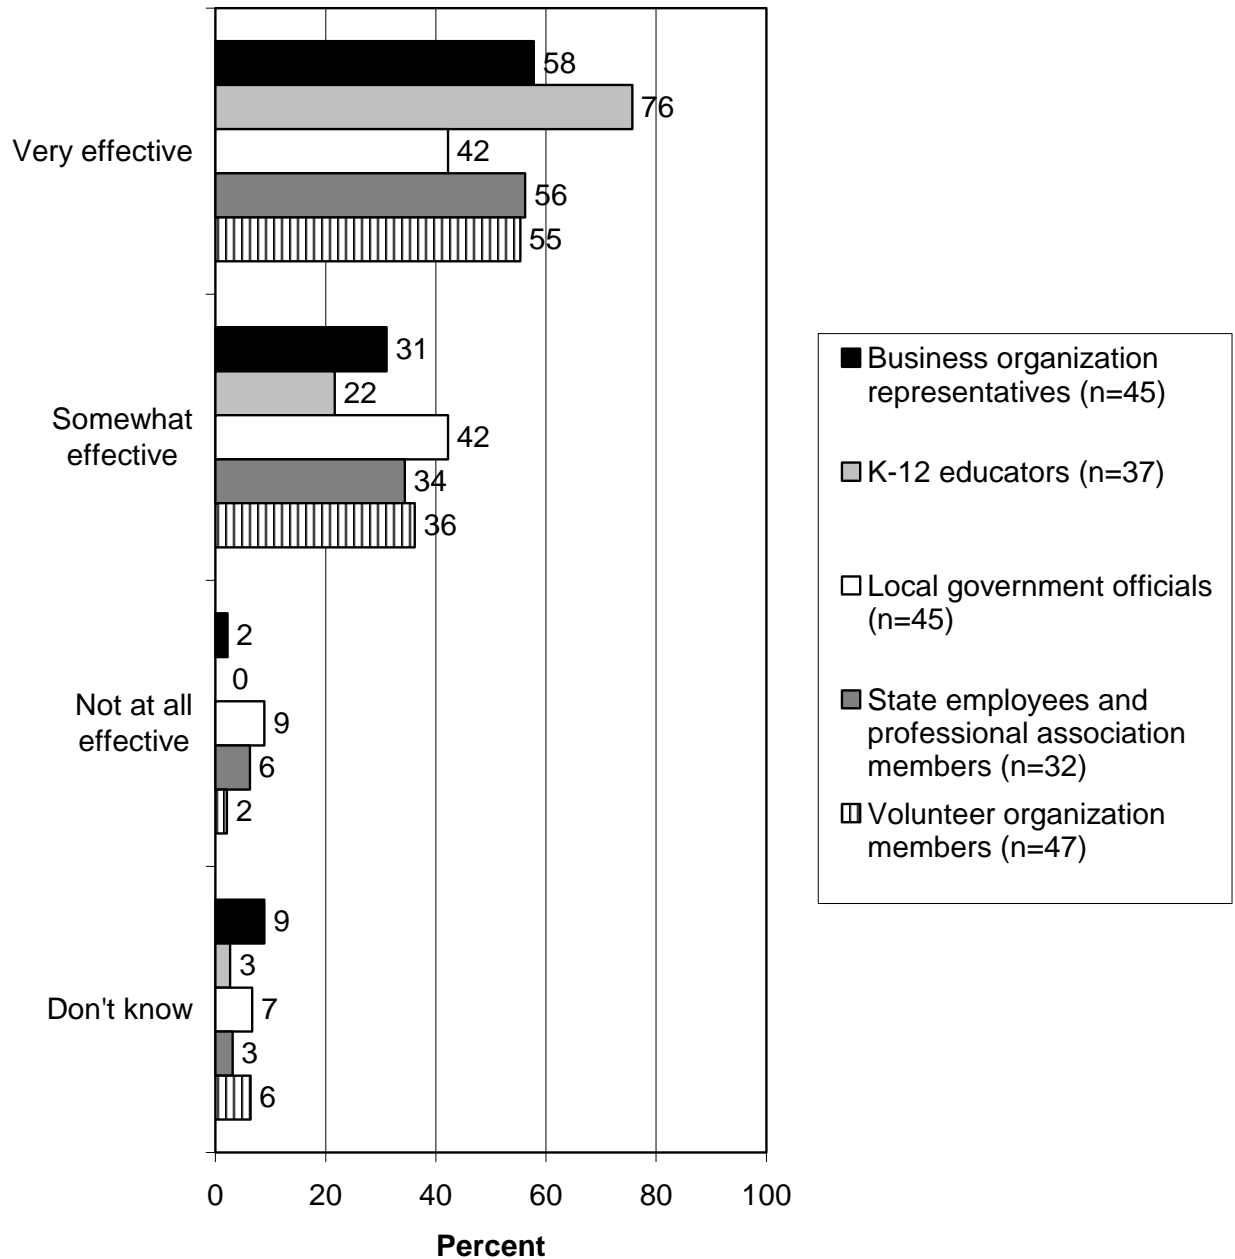

Q142. How effective do you feel that accelerated learning techniques are for you?

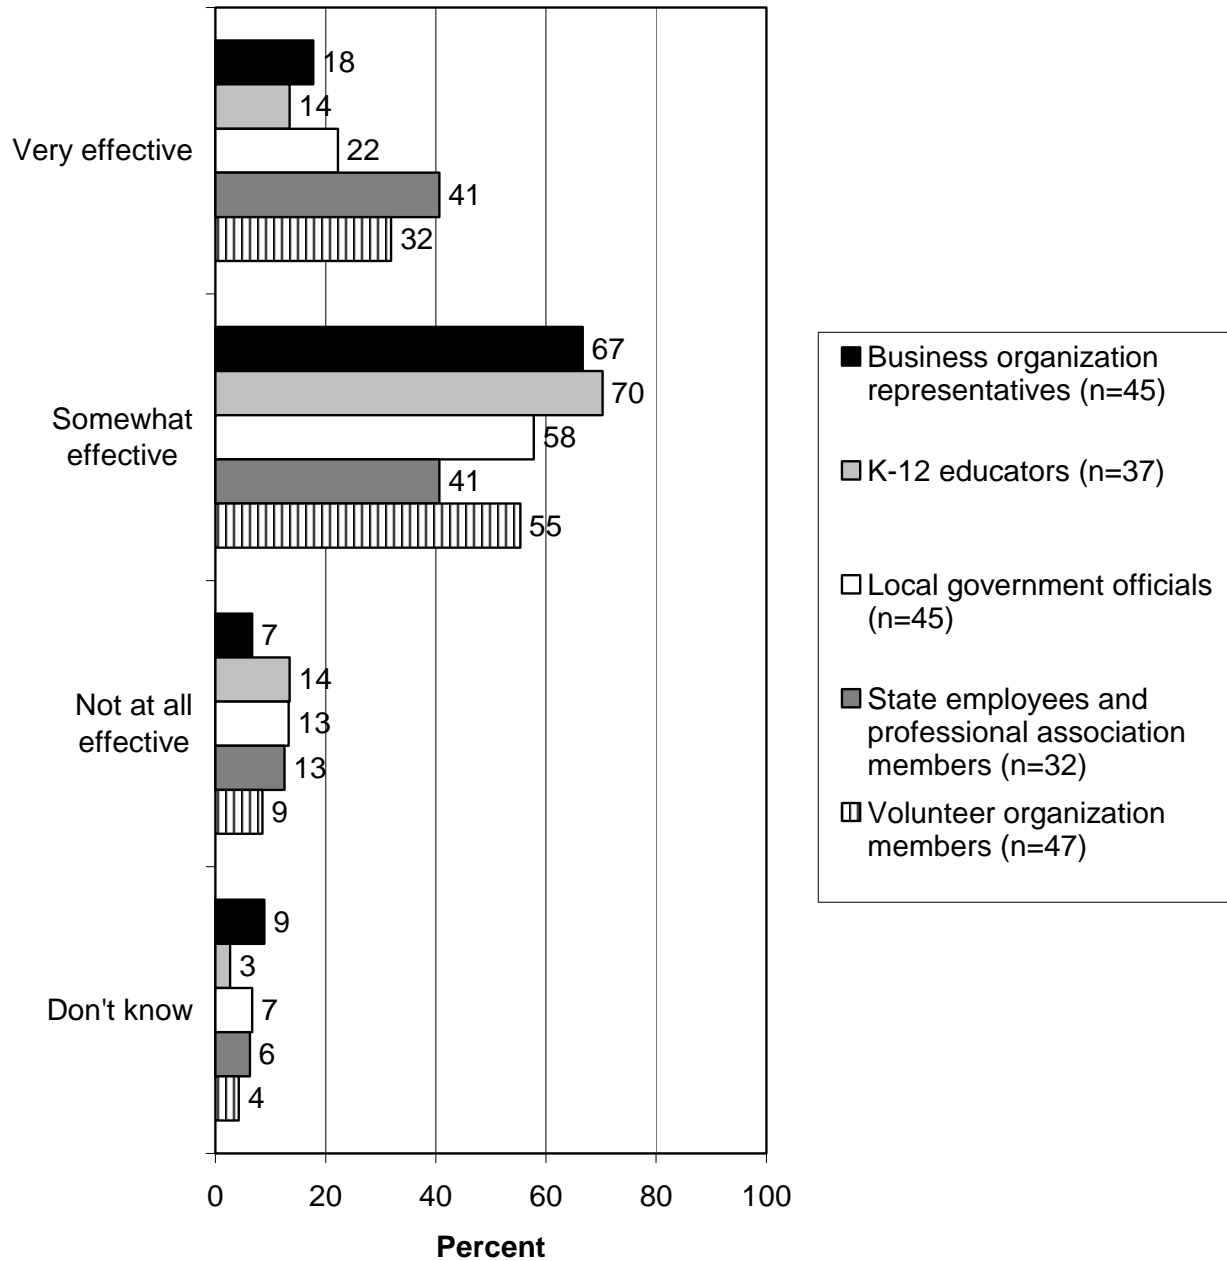

Q143. How effective do you feel that case studies are for you as a learning technique?

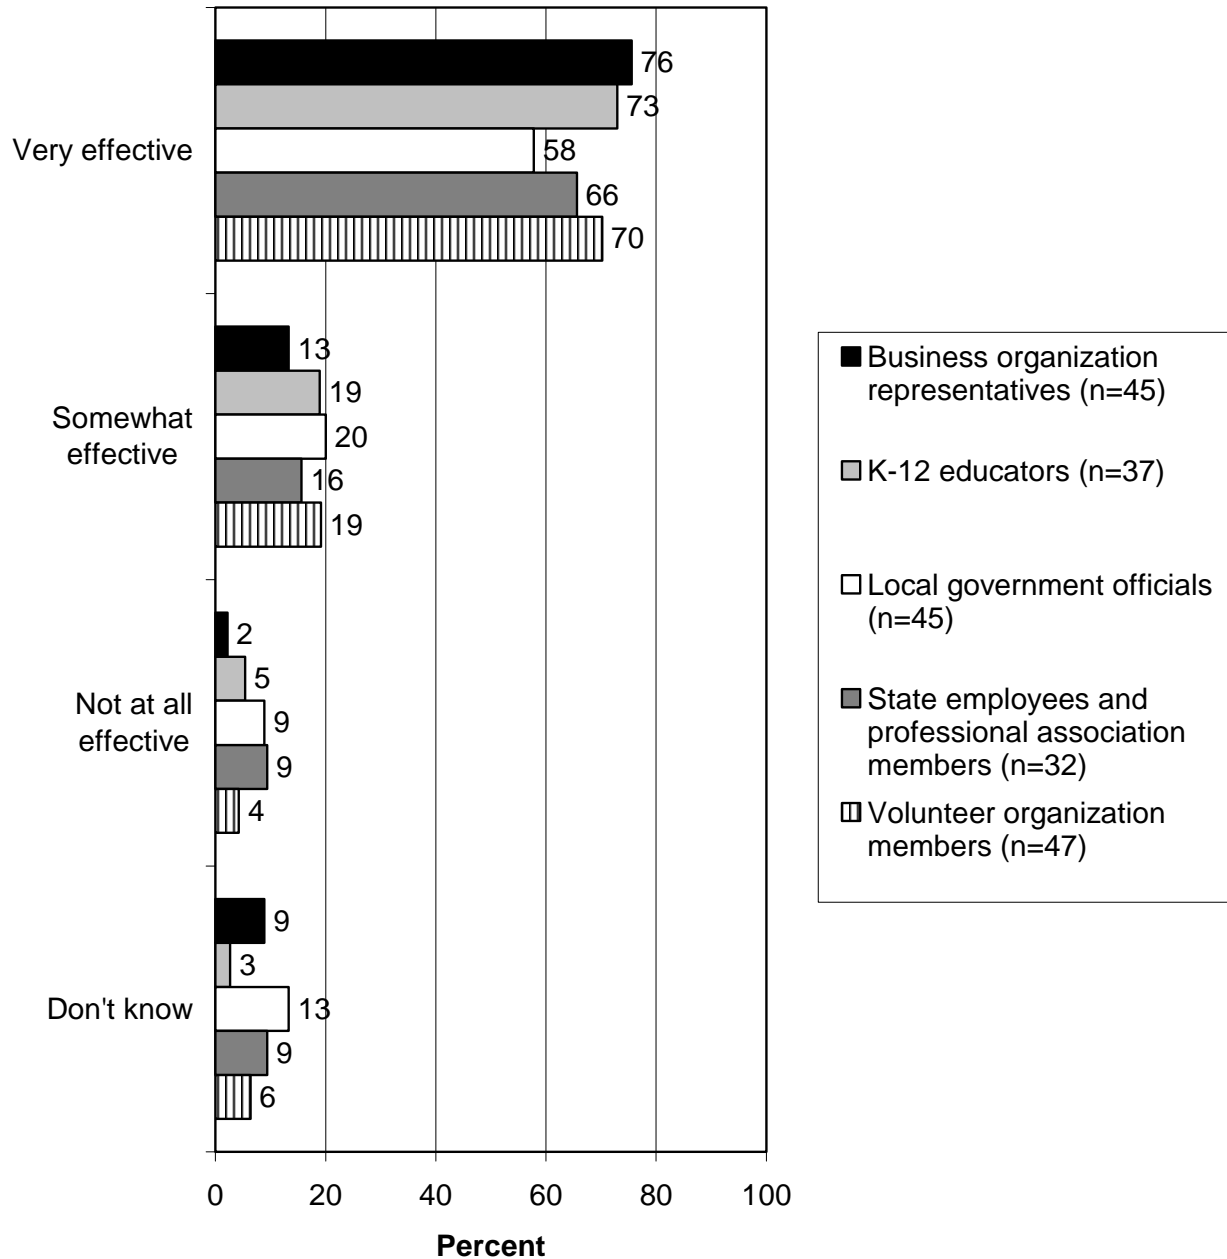

Q144. How effective do you feel that demonstrations are for you as a learning technique?

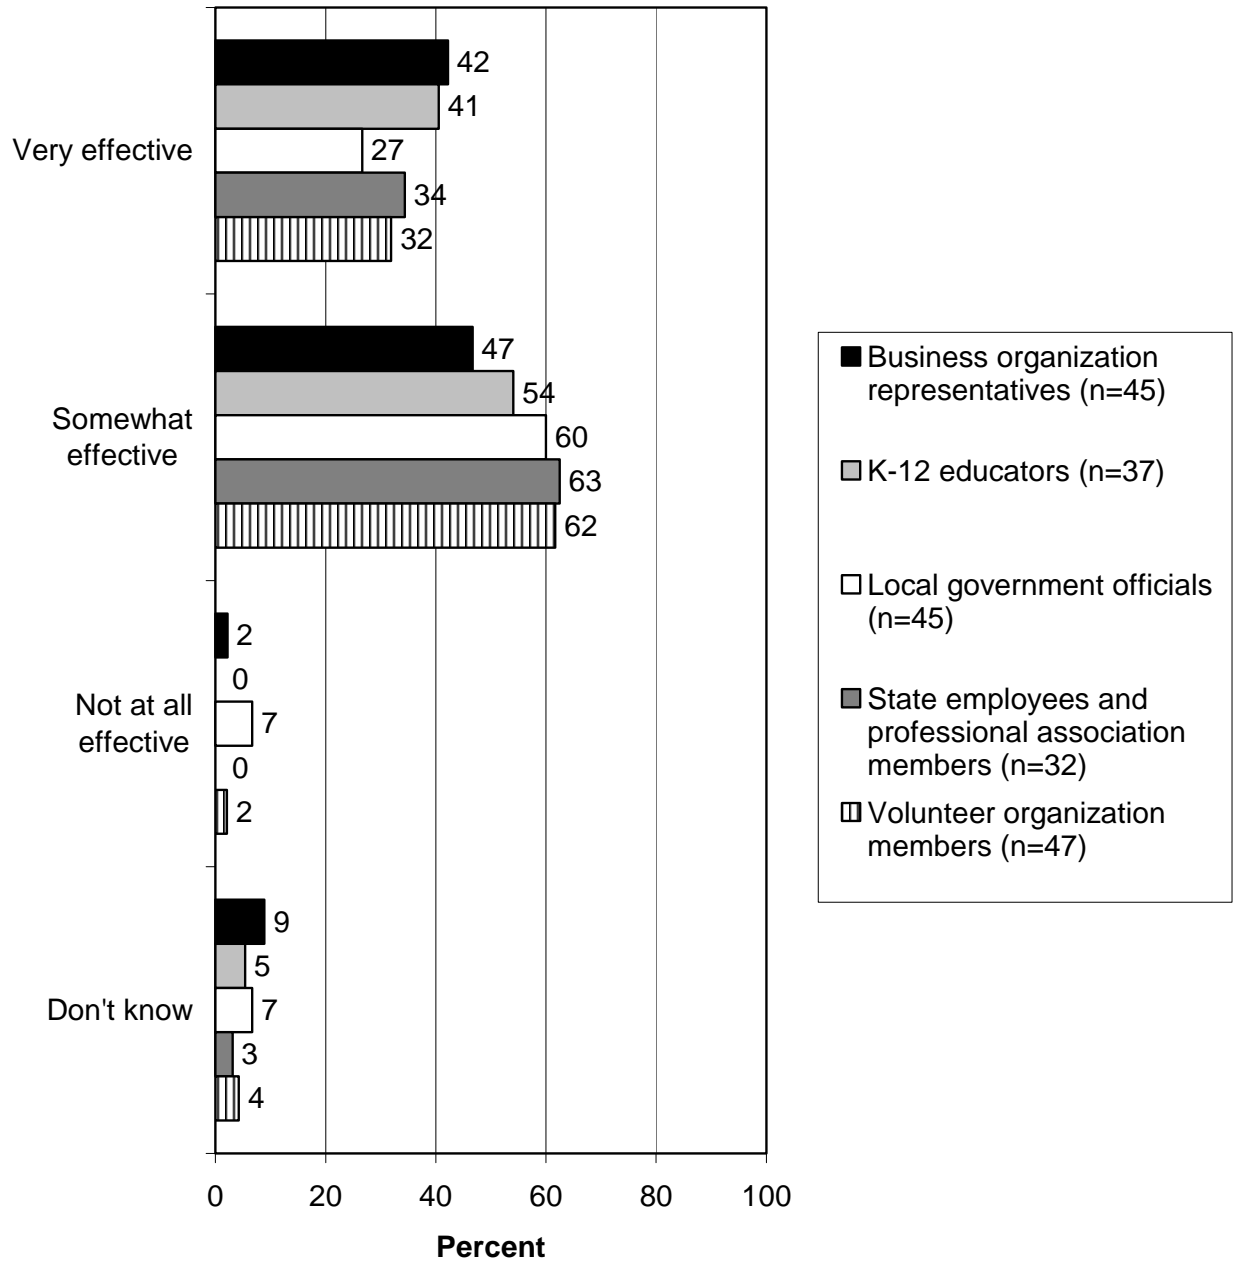

Q145. How effective do you feel that lectures are for you as a learning technique?

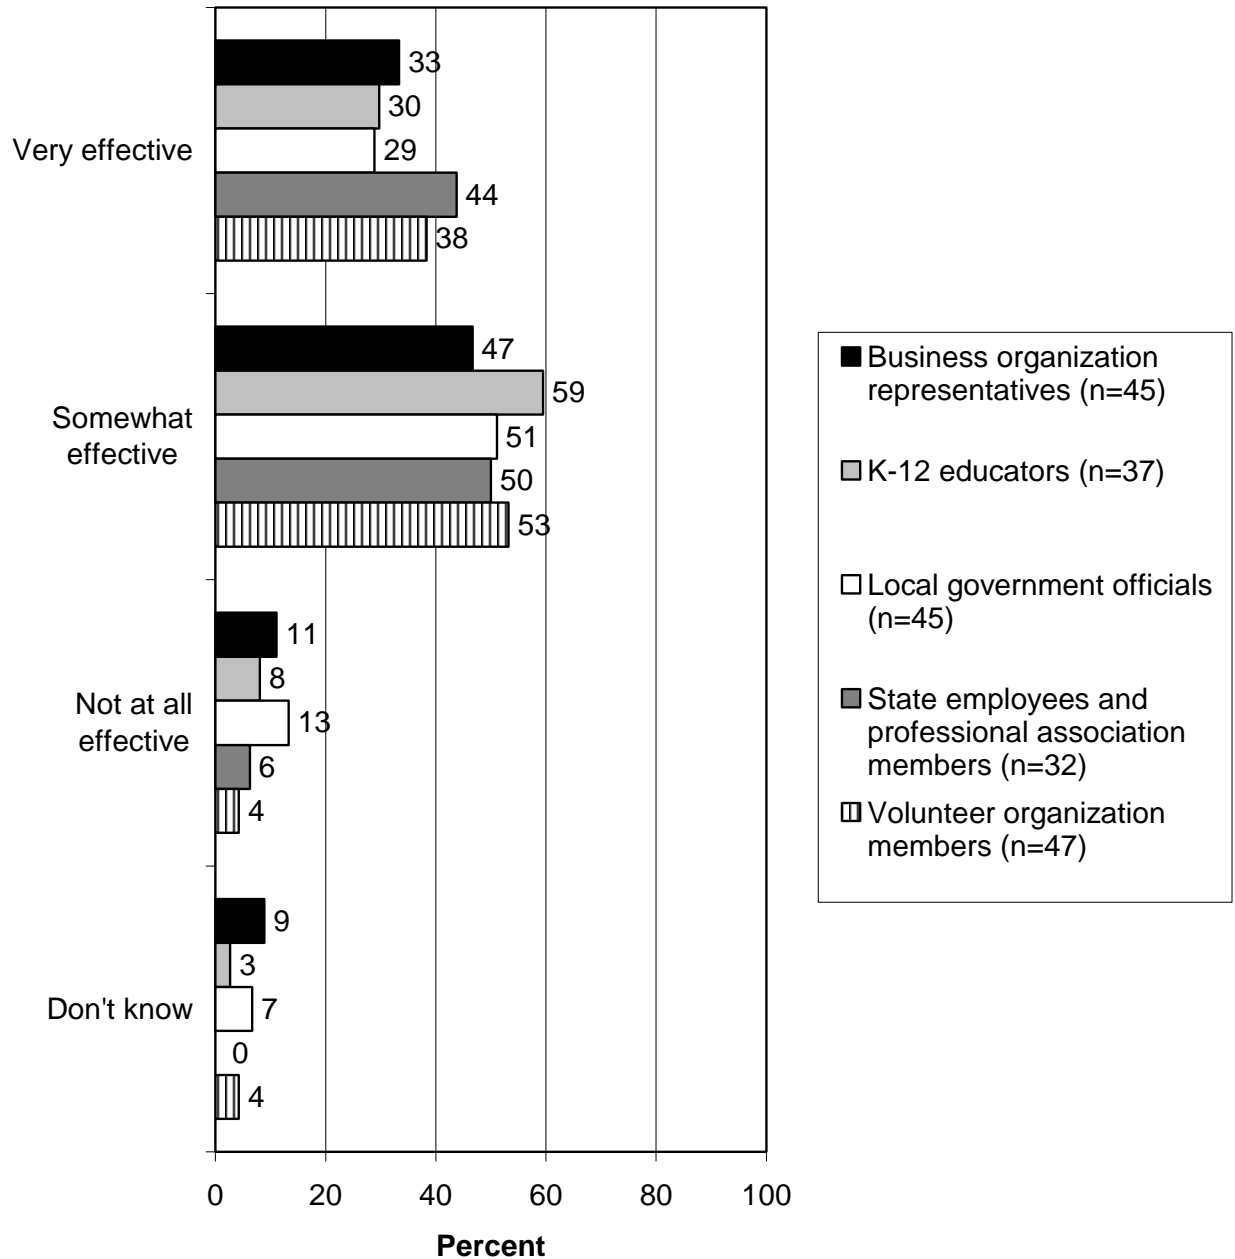

Q146. How effective do you feel that one-on-one instructions are for you as a learning technique?

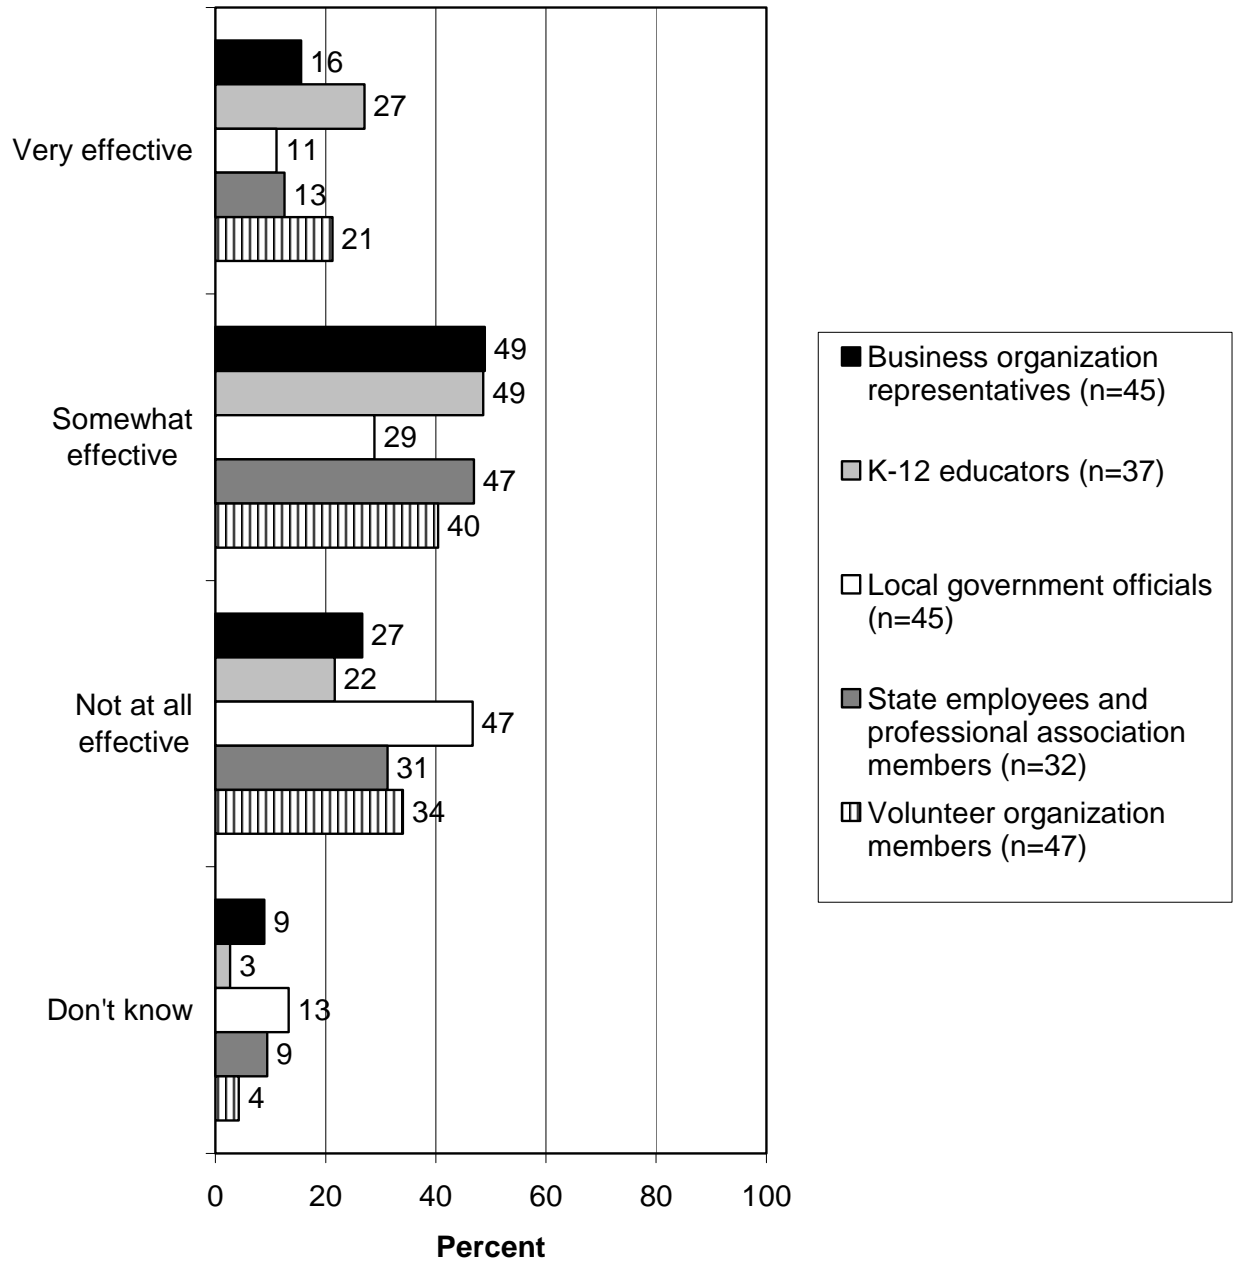

Q147. How effective do you feel that presentations are for you as a learning technique?

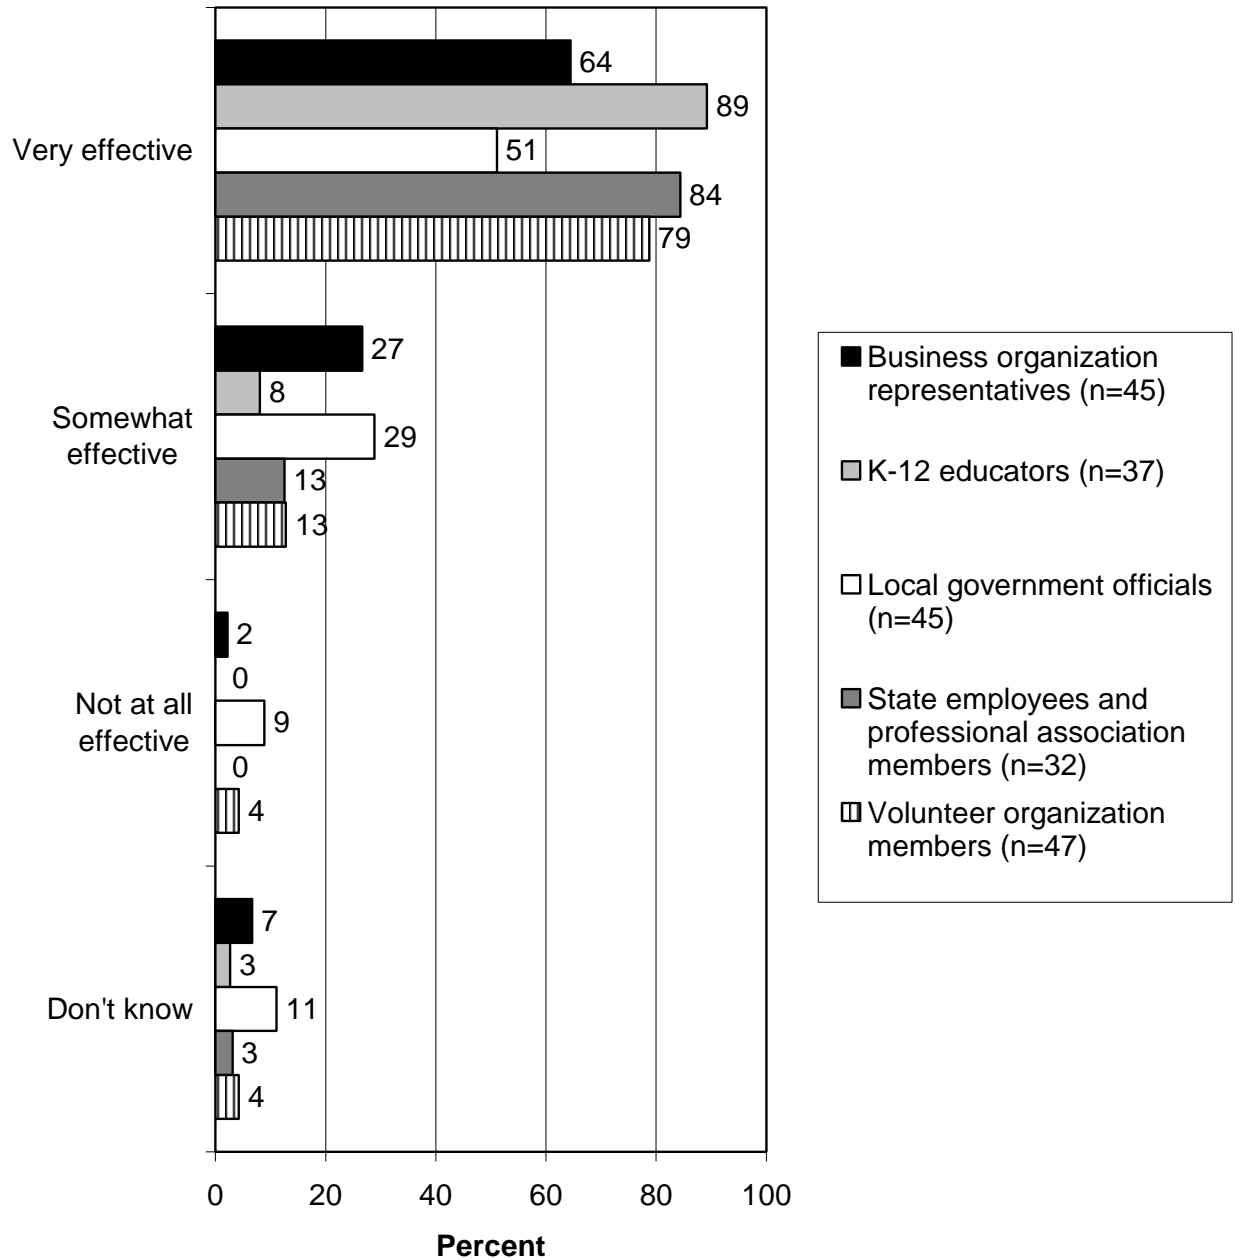

Q148. How effective do you feel that round-table discussions are for you as a learning technique?

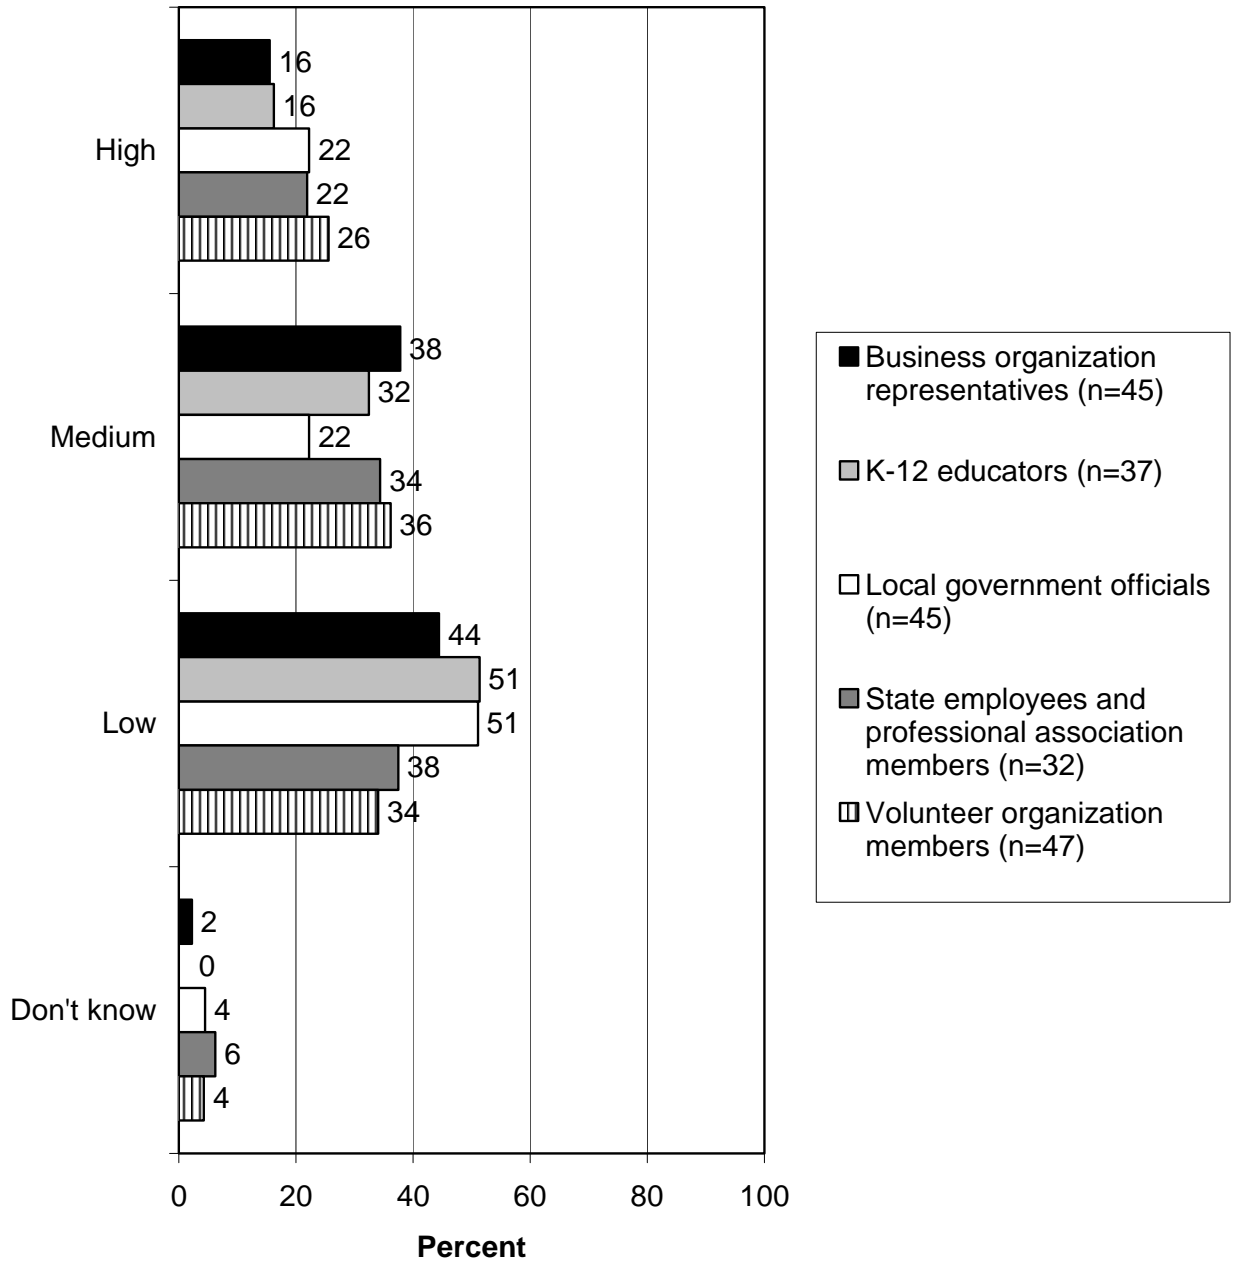

Q149. How effective do you feel that role-playing is for you as a learning technique?

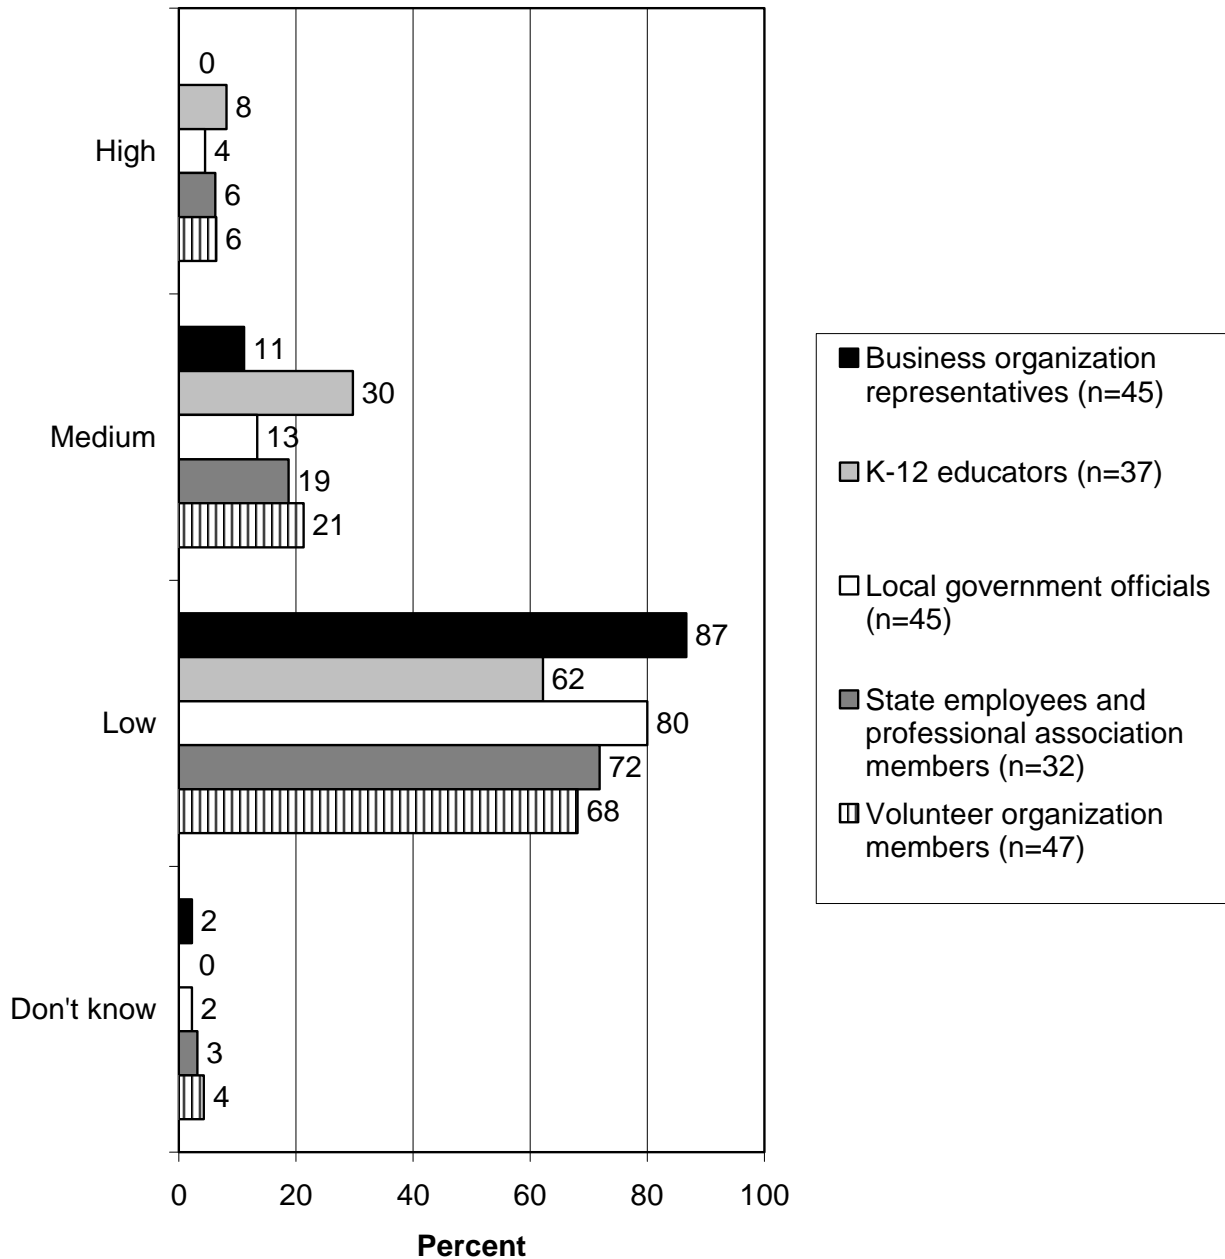

Q150. How effective do you feel that hands-on activities are for you as a learning technique?

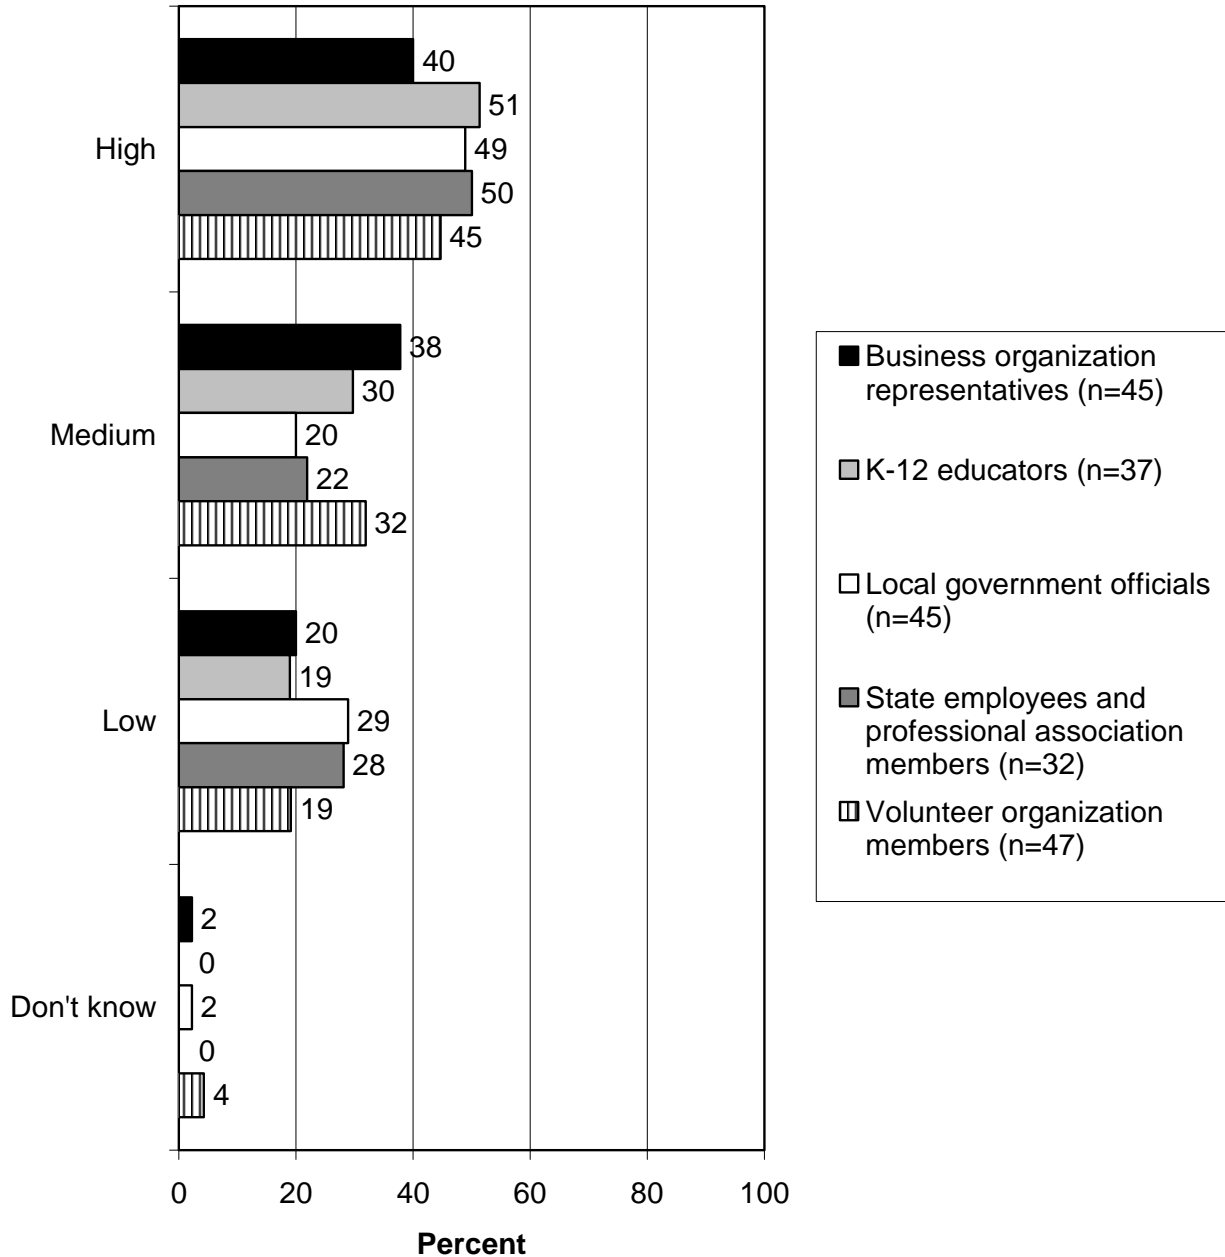

Q157. How effective is food as a means to encourage you to attend a training or education/outreach session on coastal resource management issues?

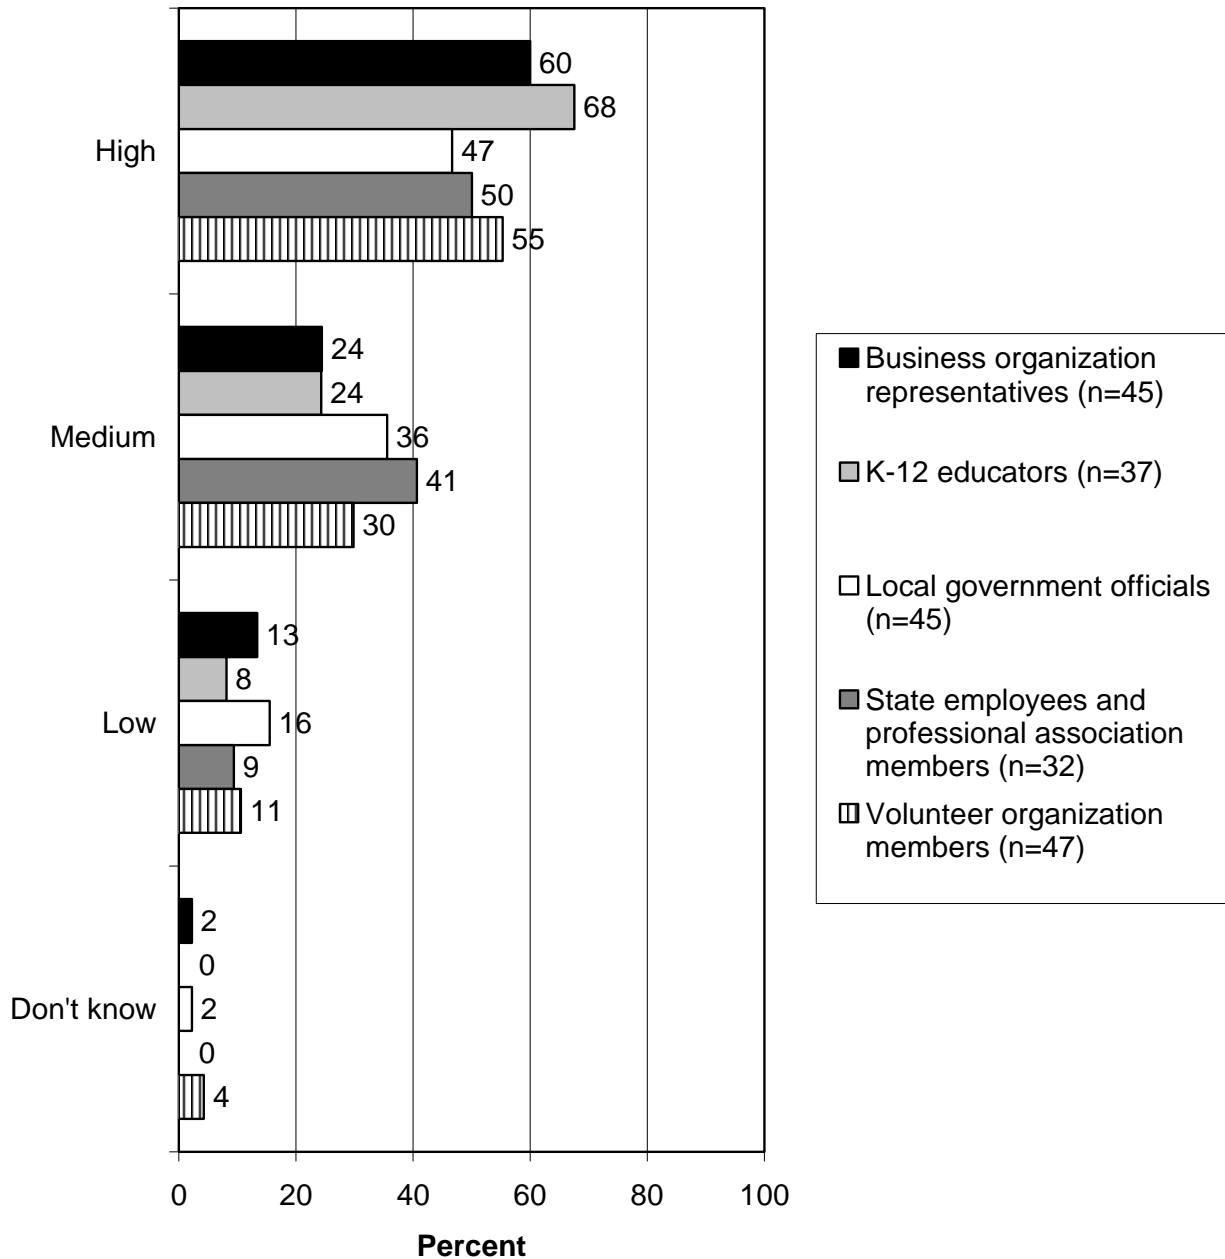

Q158. How effective is a t-shirt as a means to encourage you to attend a training or education/outreach session on coastal resource management issues?

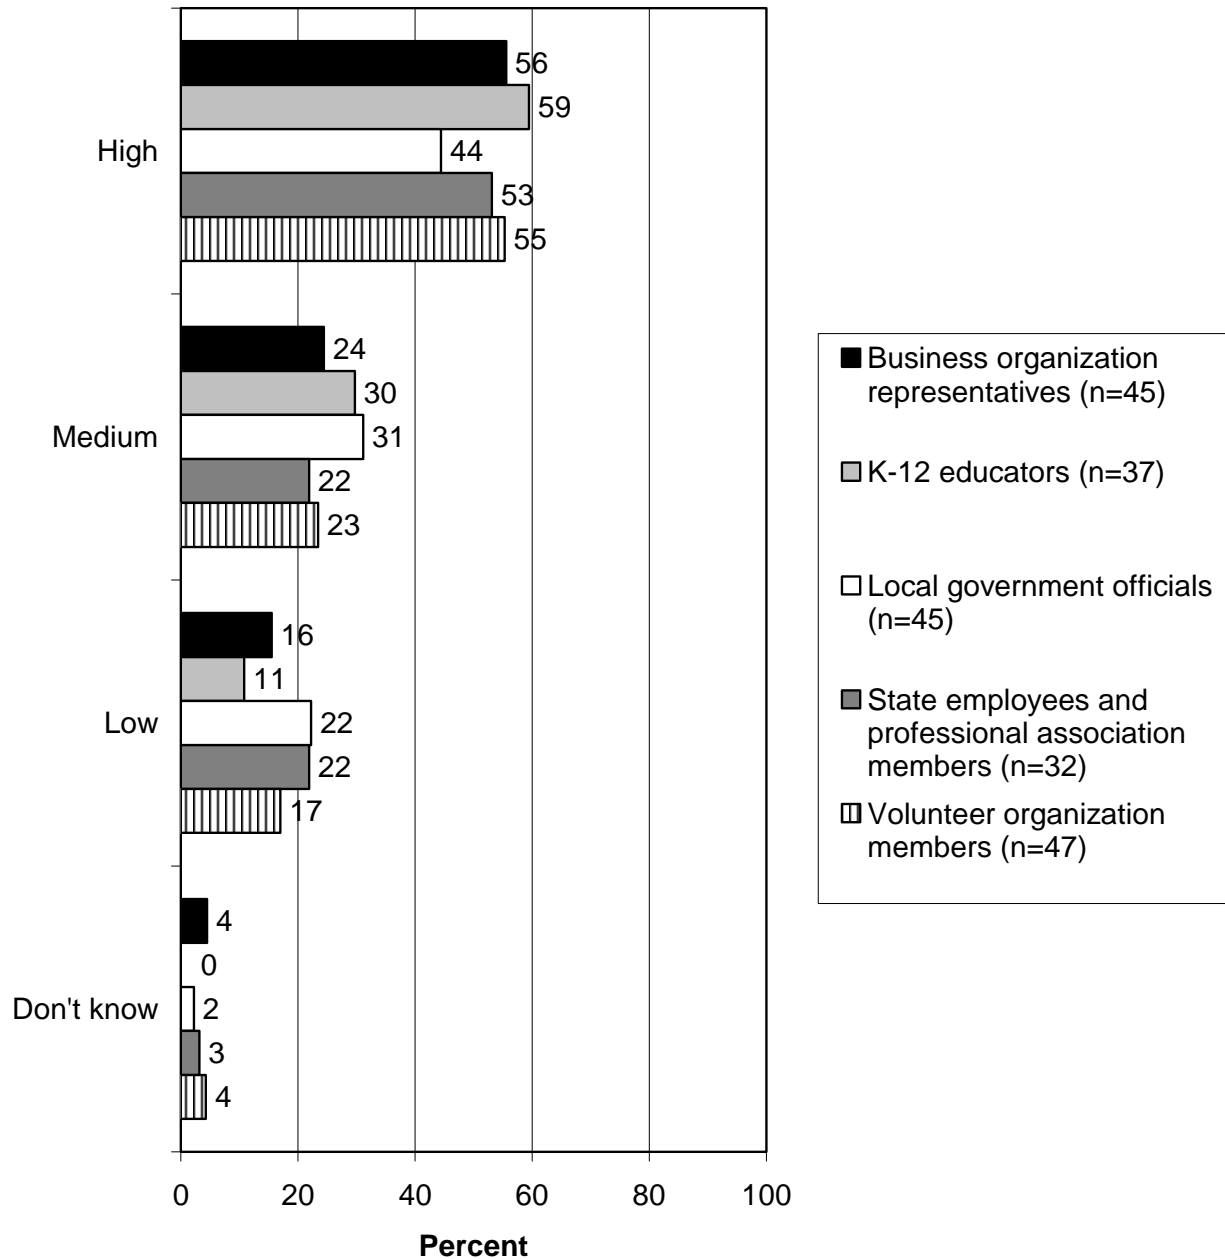

Q159. How effective is certification as a means to encourage you to attend a training or education/outreach session on coastal resource management issues?

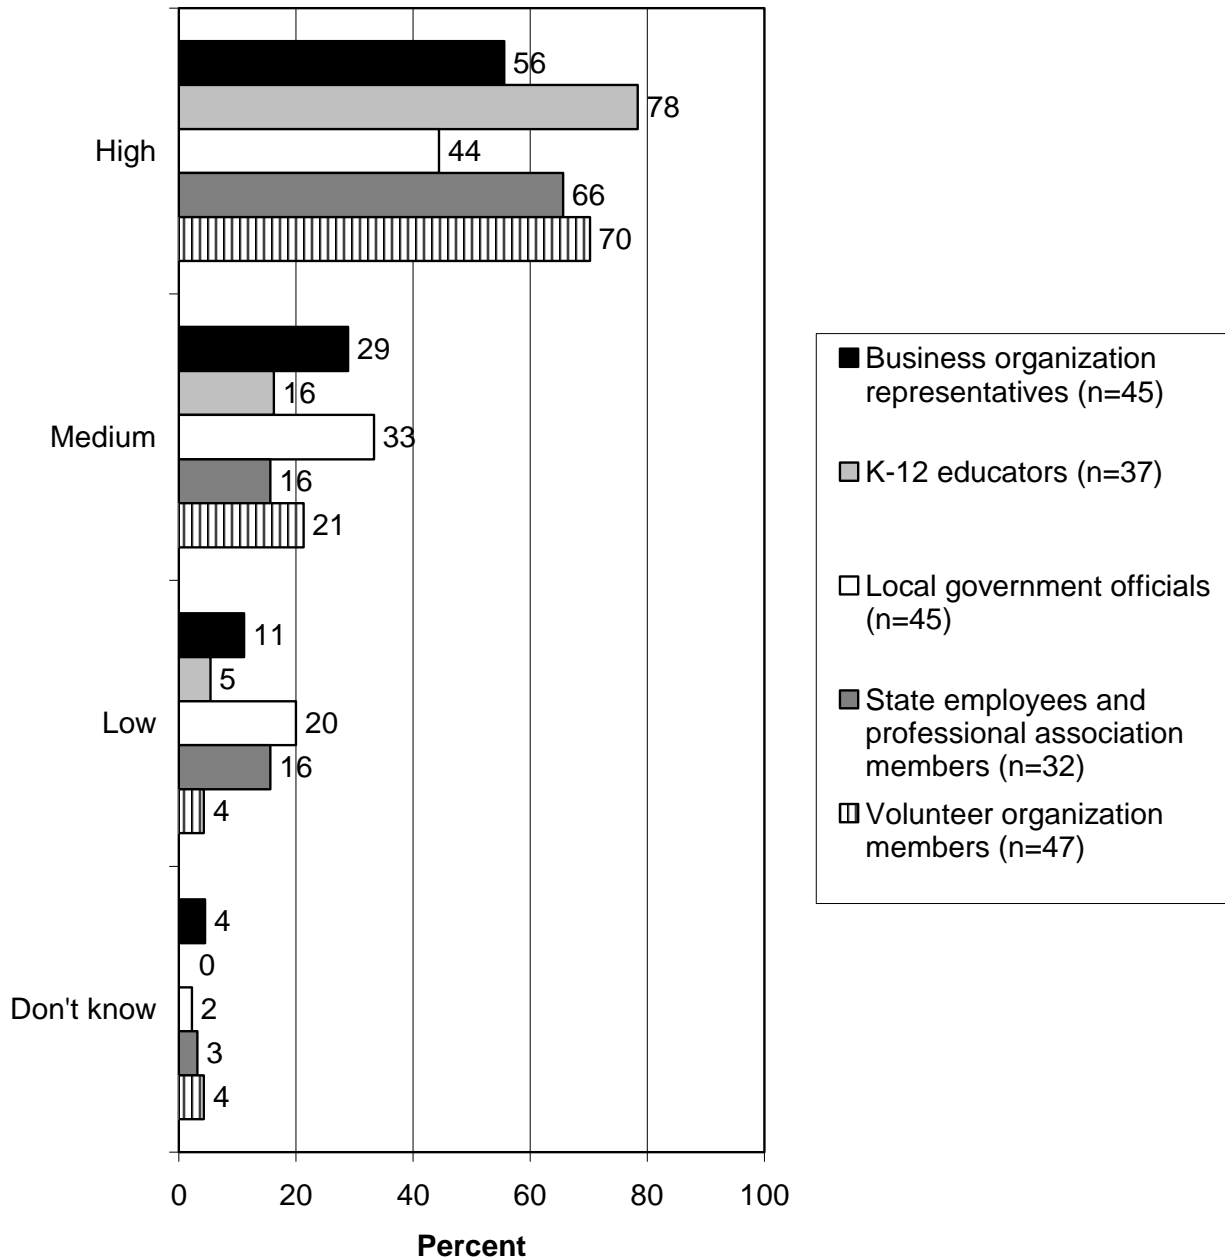

Q160. How effective are take-home or follow-up materials as a means to encourage you to attend a training or education/outreach session on coastal resource management issues?

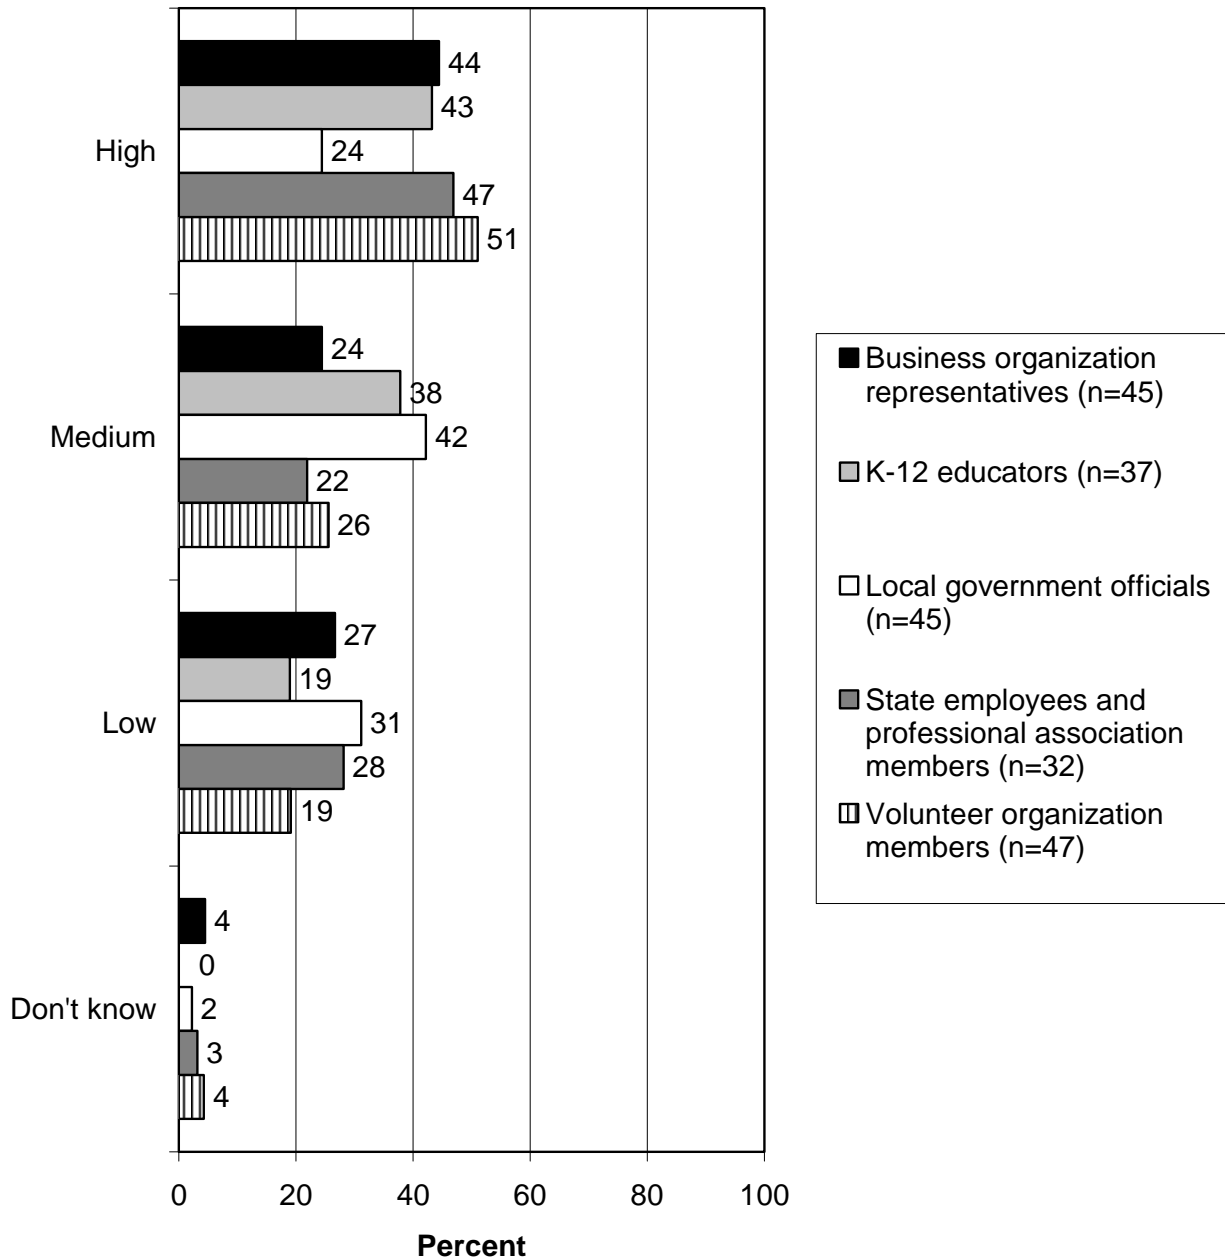

Q161. How effective is having your travel costs covered as a means to encourage you to attend a training or education/outreach session on coastal resource management issues?

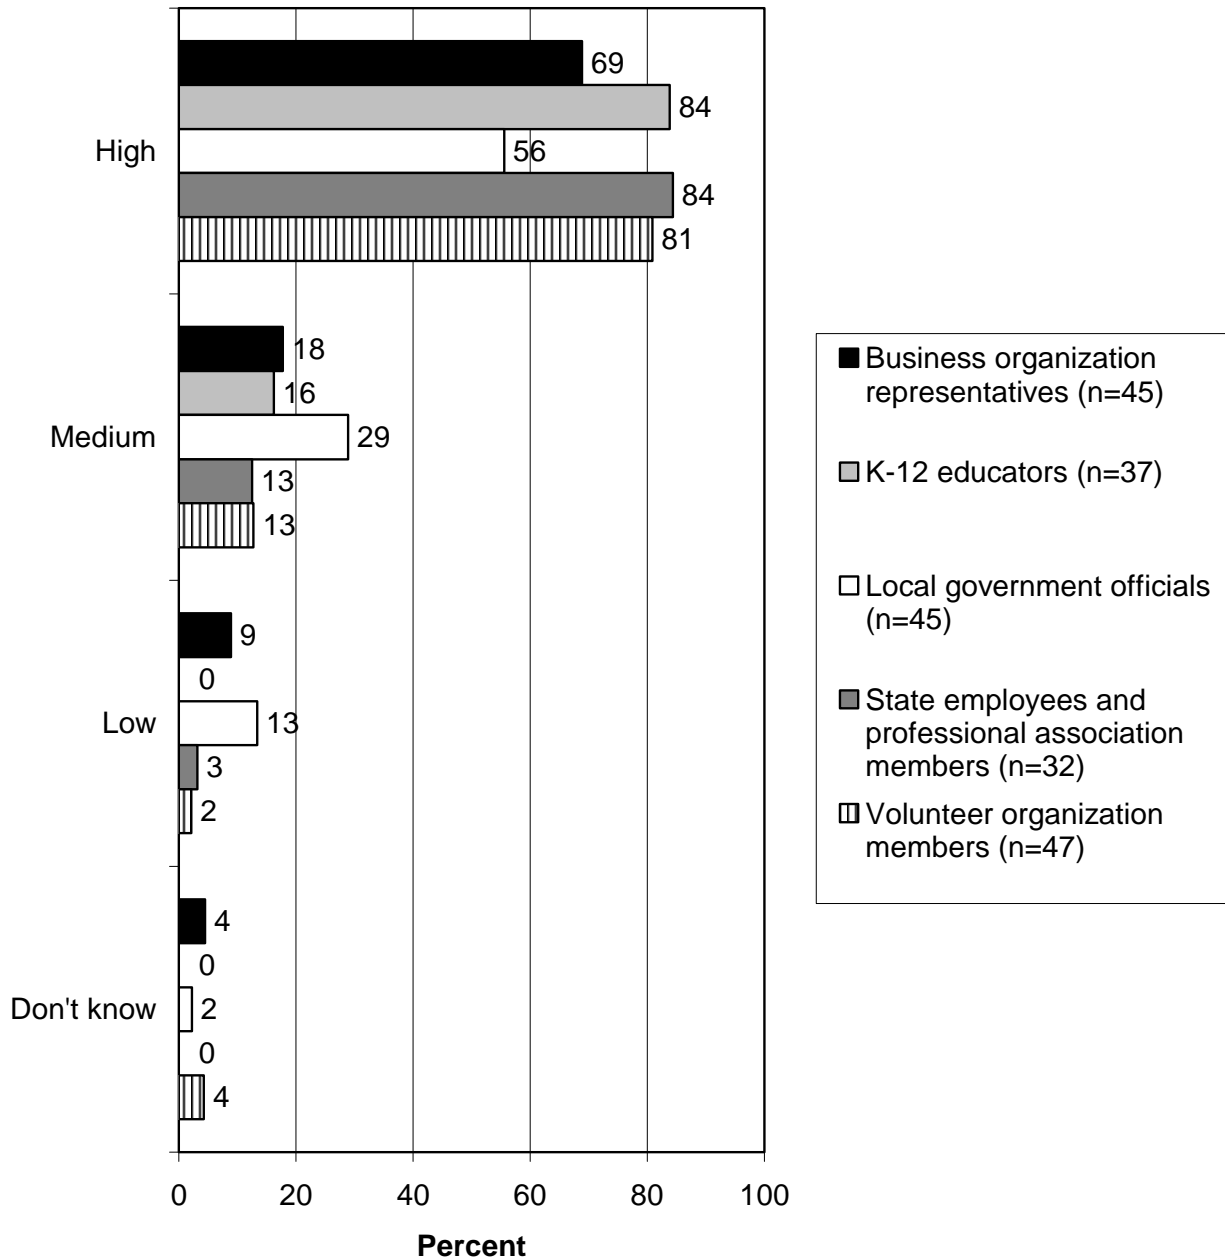

Q162. How effective is free lodging as a means to encourage you to attend a training or education/outreach session on coastal resource management issues?

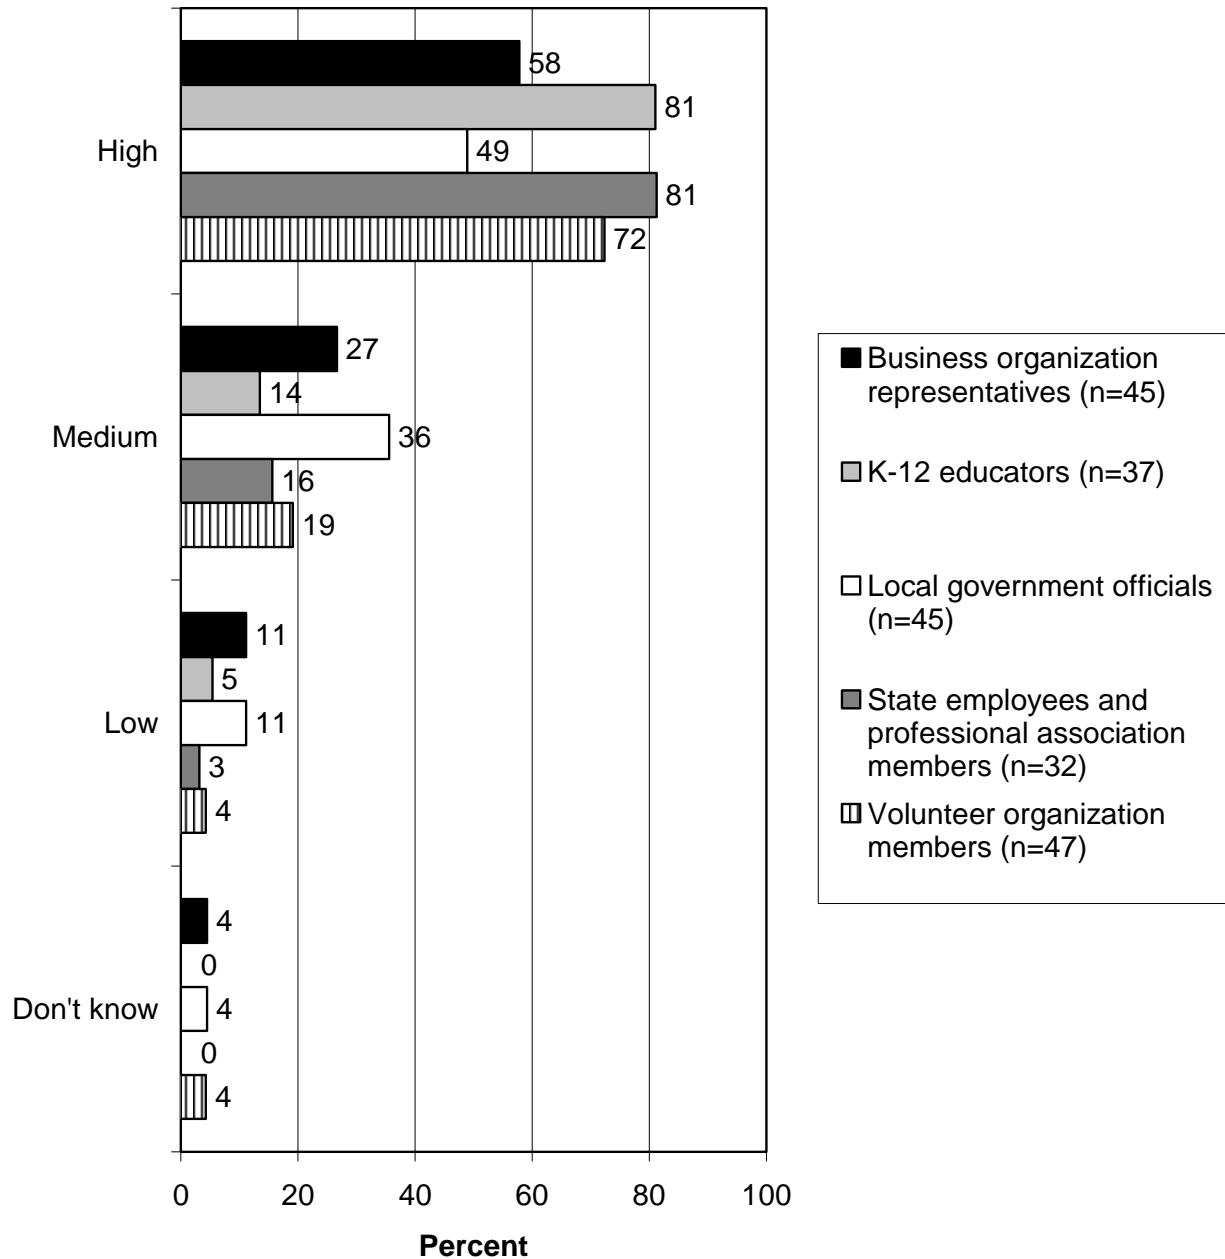

Q163. How effective is having your transportation provided as a means to encourage you to attend a training or education/outreach session on coastal resource management issues?

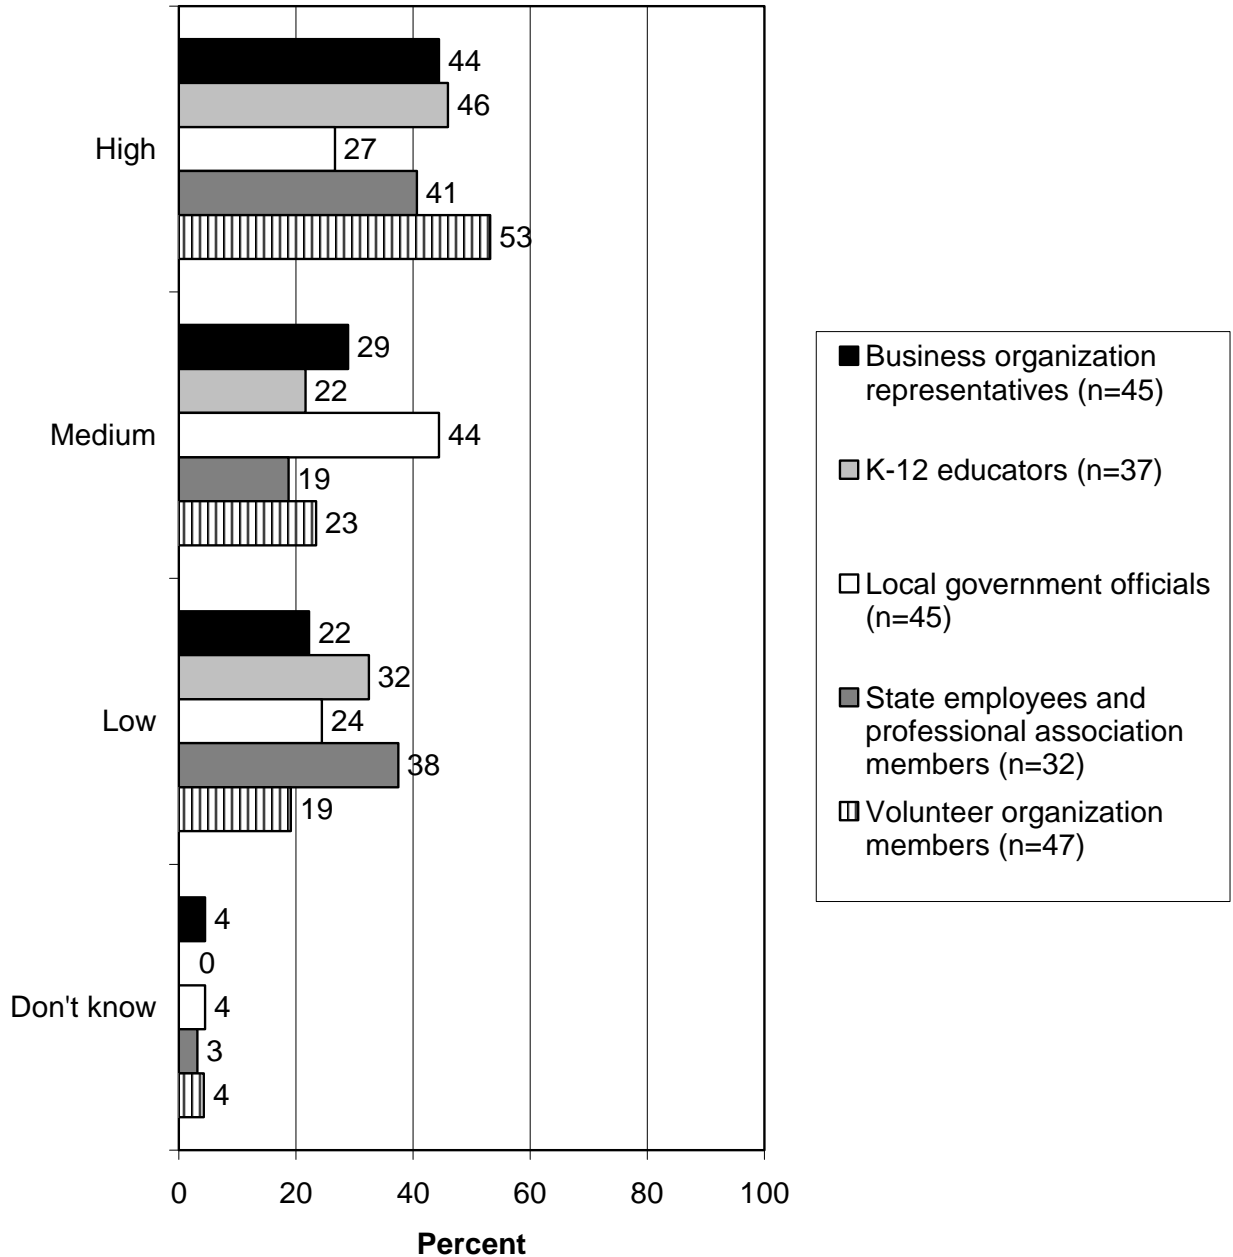

Q164. How effective is free training as a means to encourage you to attend a training or education/outreach session on coastal resource management issues?

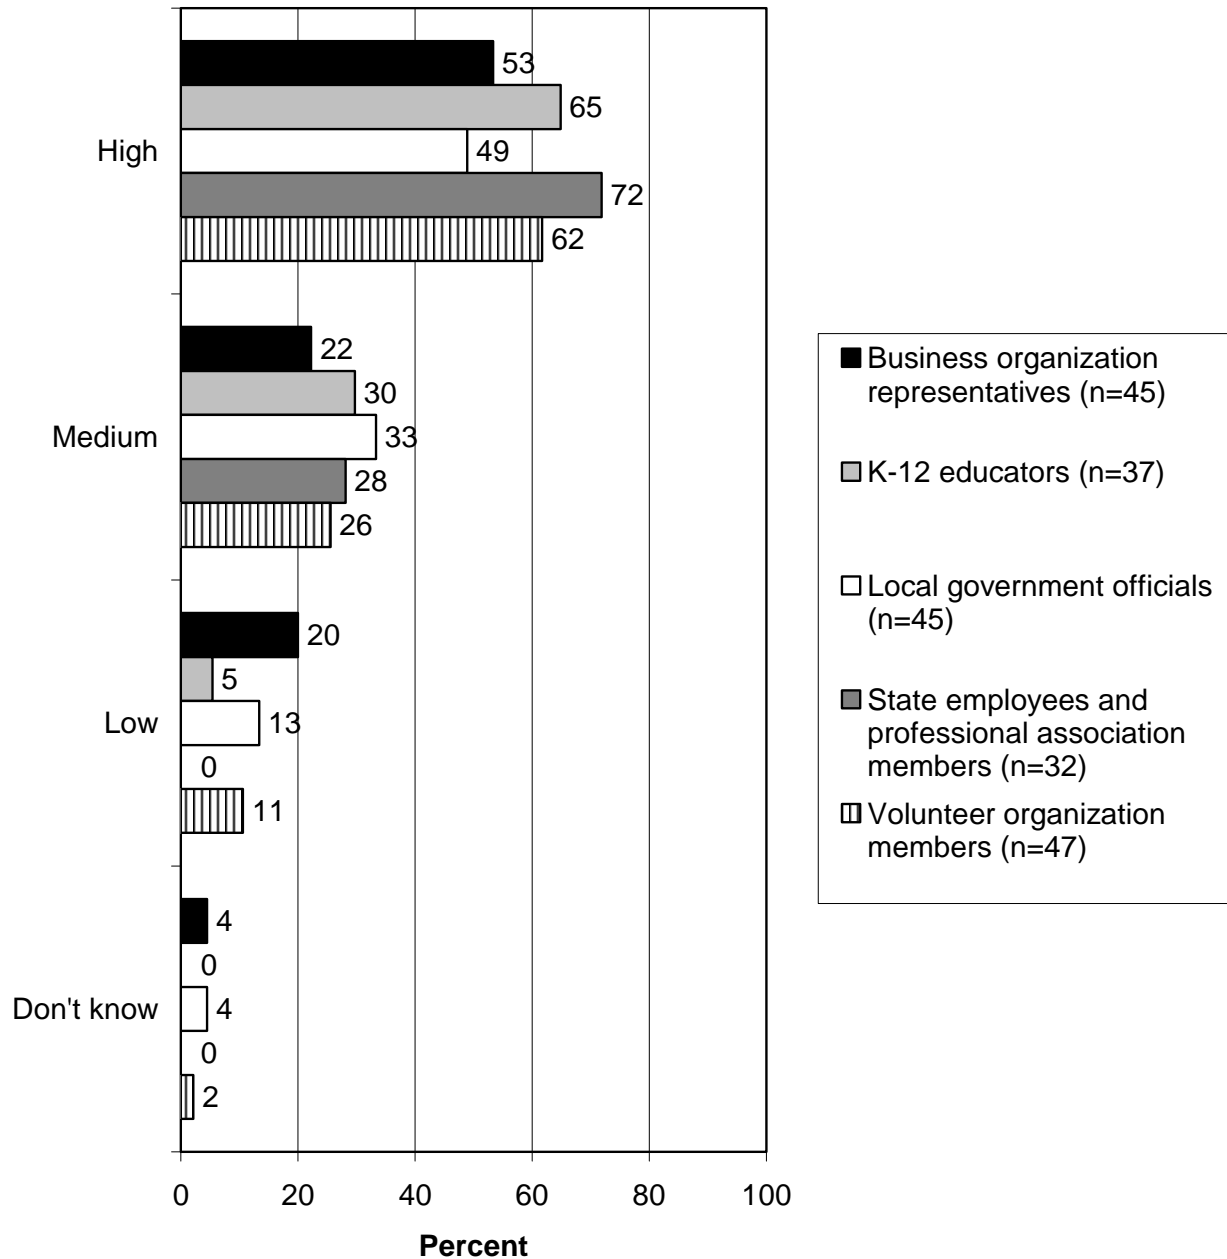

Q165. How effective are field demonstrations as a means to encourage you to attend a training or education/outreach session on coastal resource management issues?

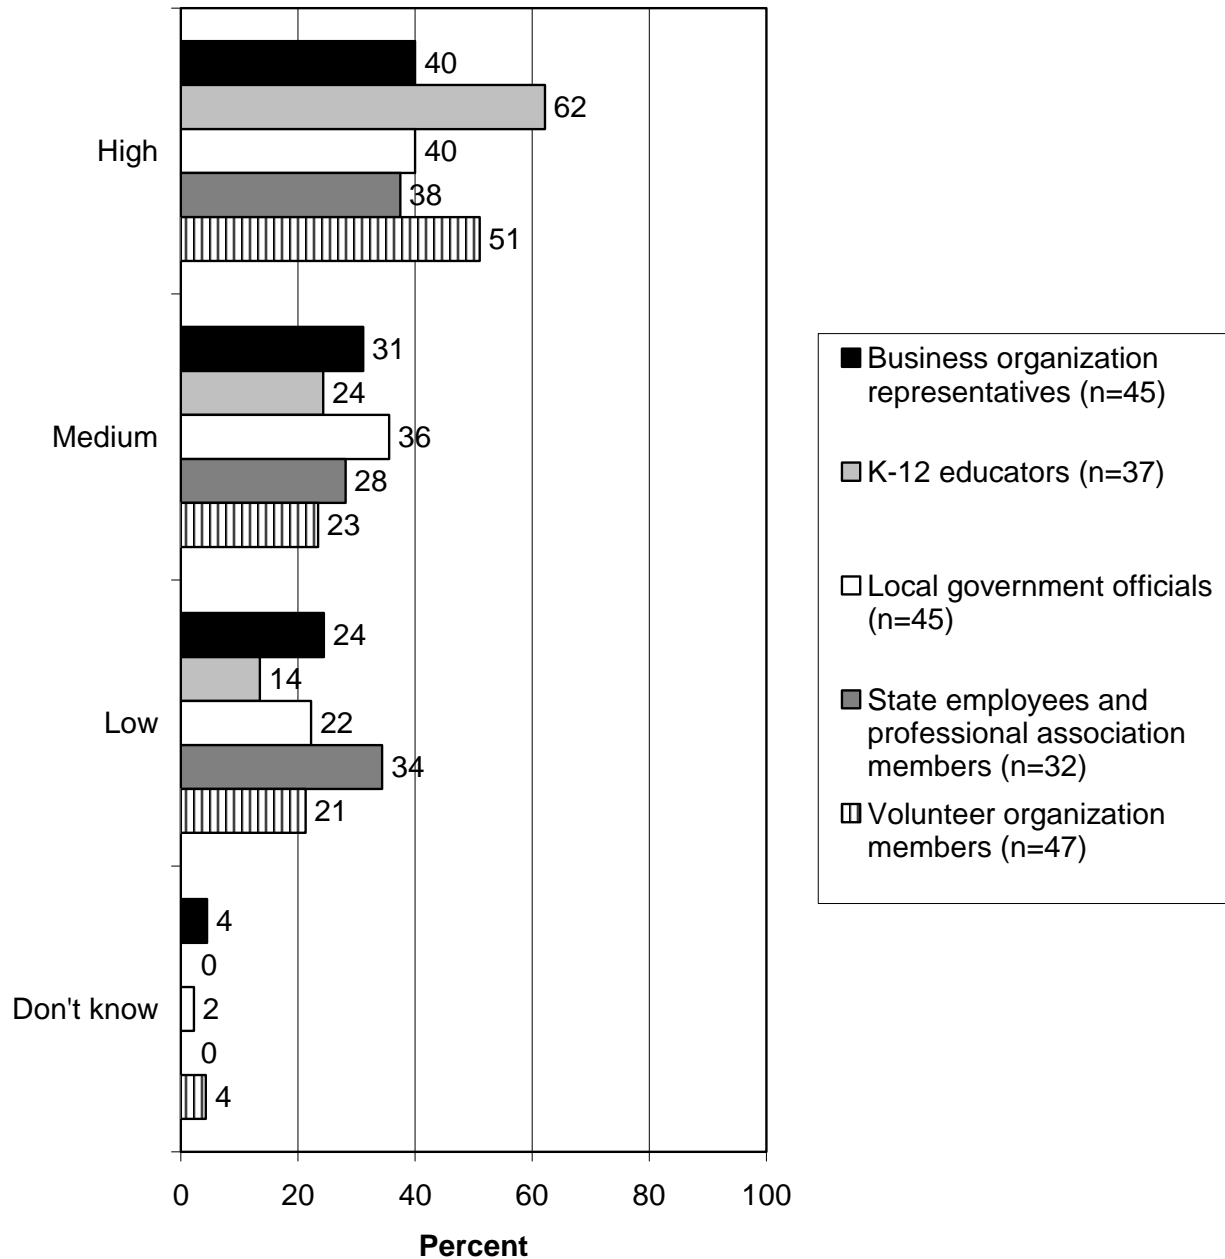

Q166. How effective is time off as a means to encourage you to attend a training or education/outreach session on coastal resource management issues?

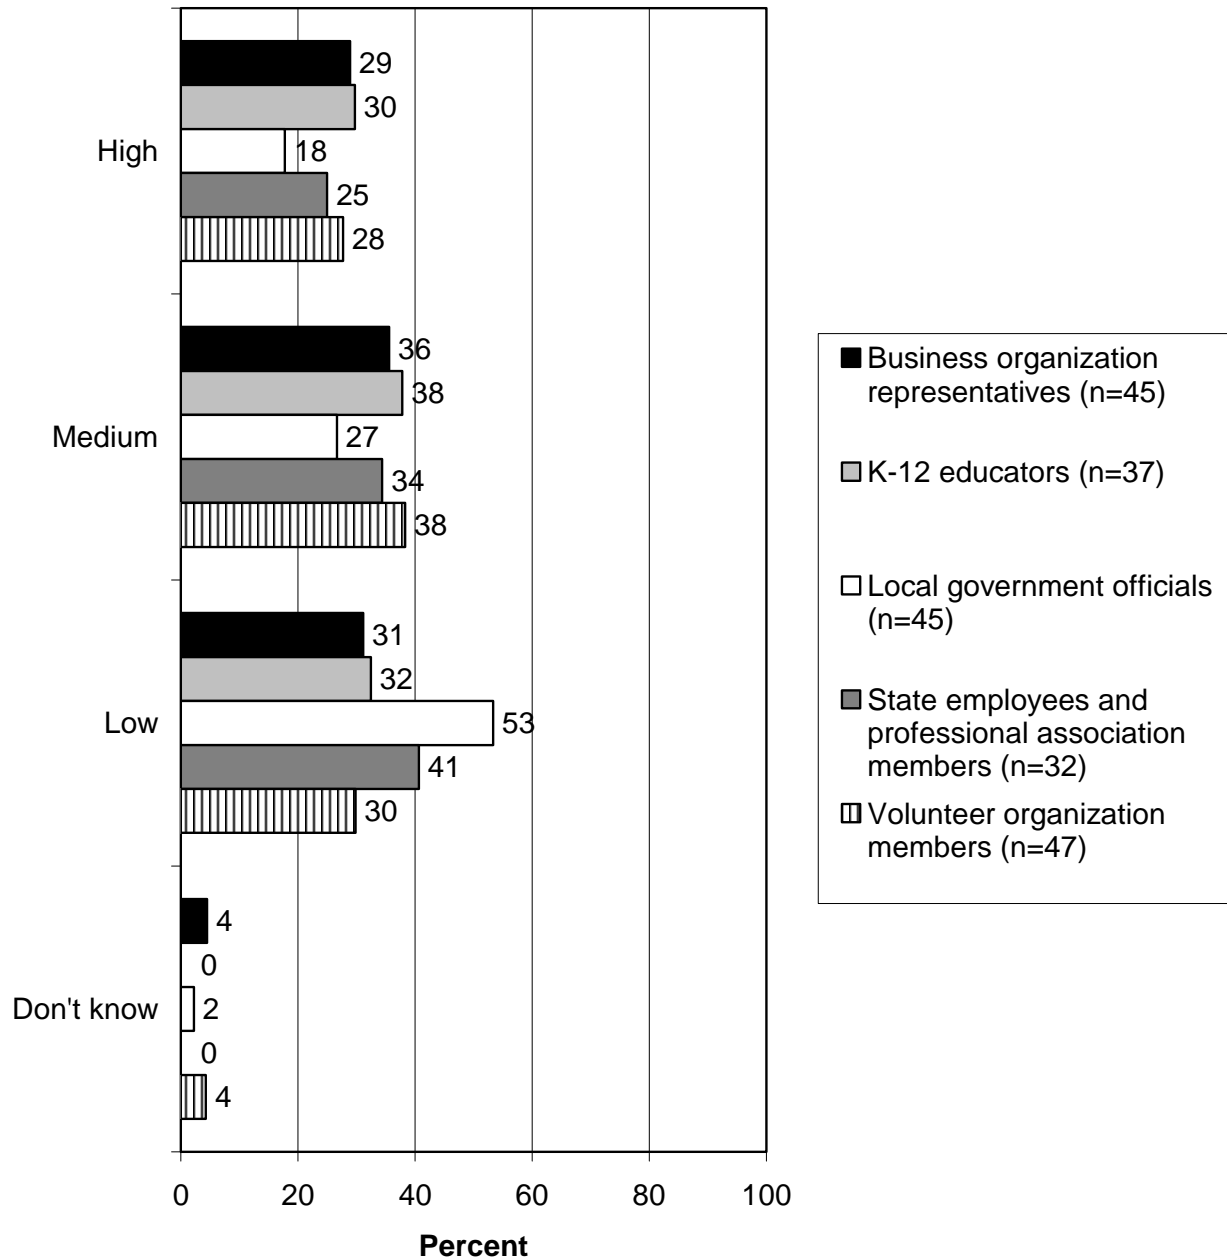

Q167. How effective are field guides/identification manuals as a means to encourage you to attend a training or education/outreach session on coastal resource management issues?

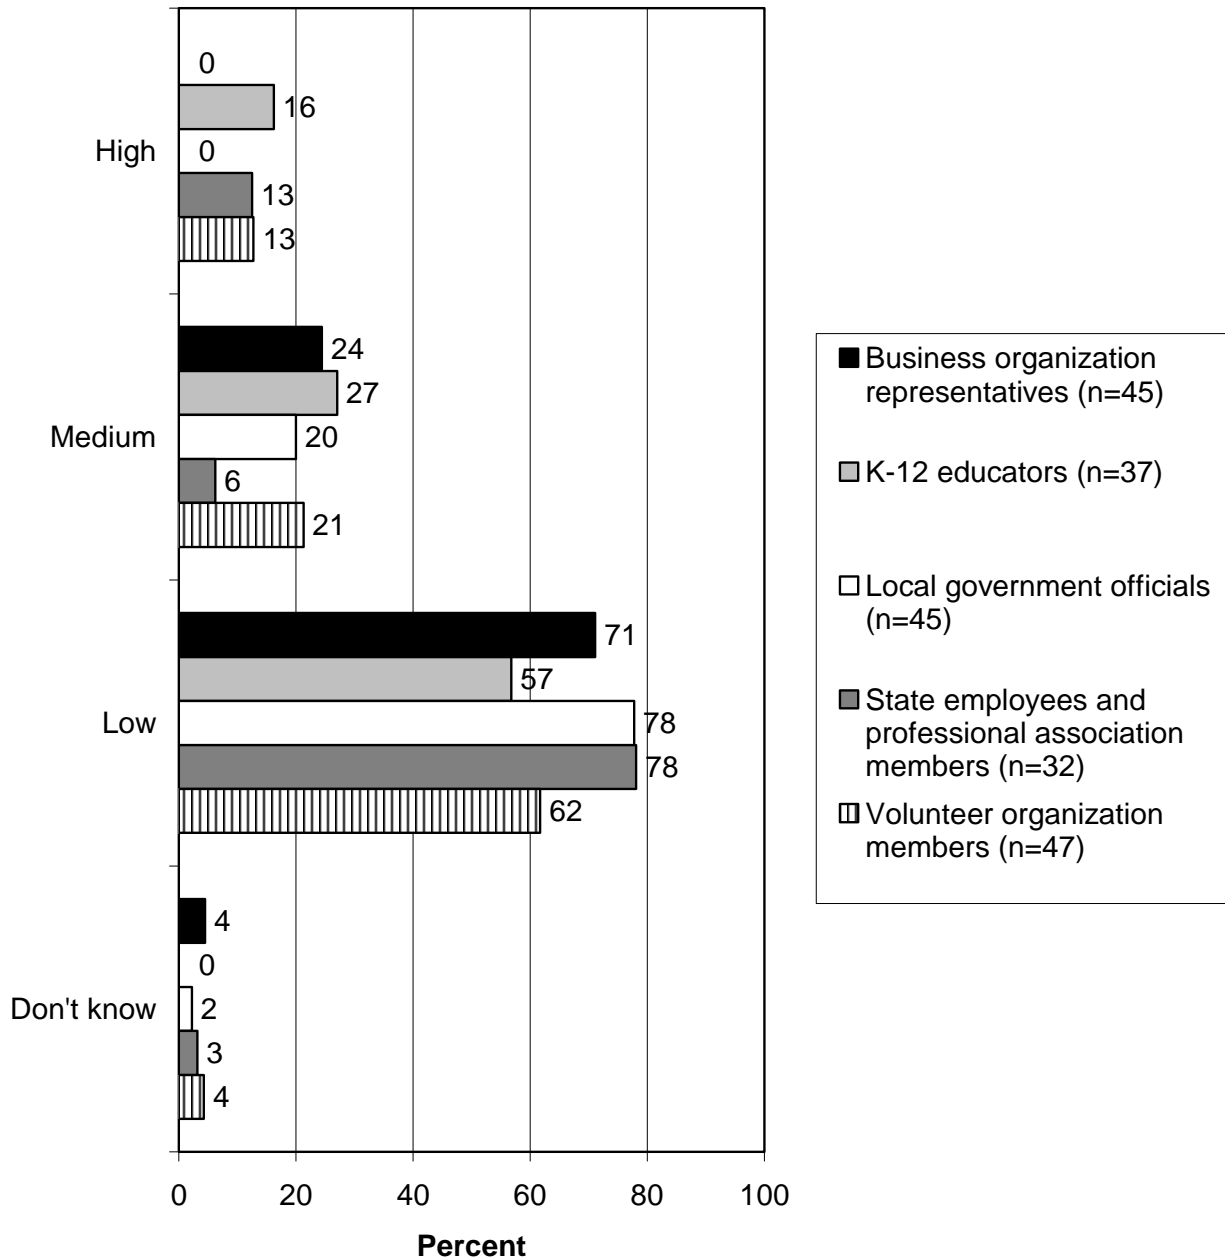

Q168. How effective are continuing education credits as a means to encourage you to attend a training or education/outreach session on coastal resource management issues?

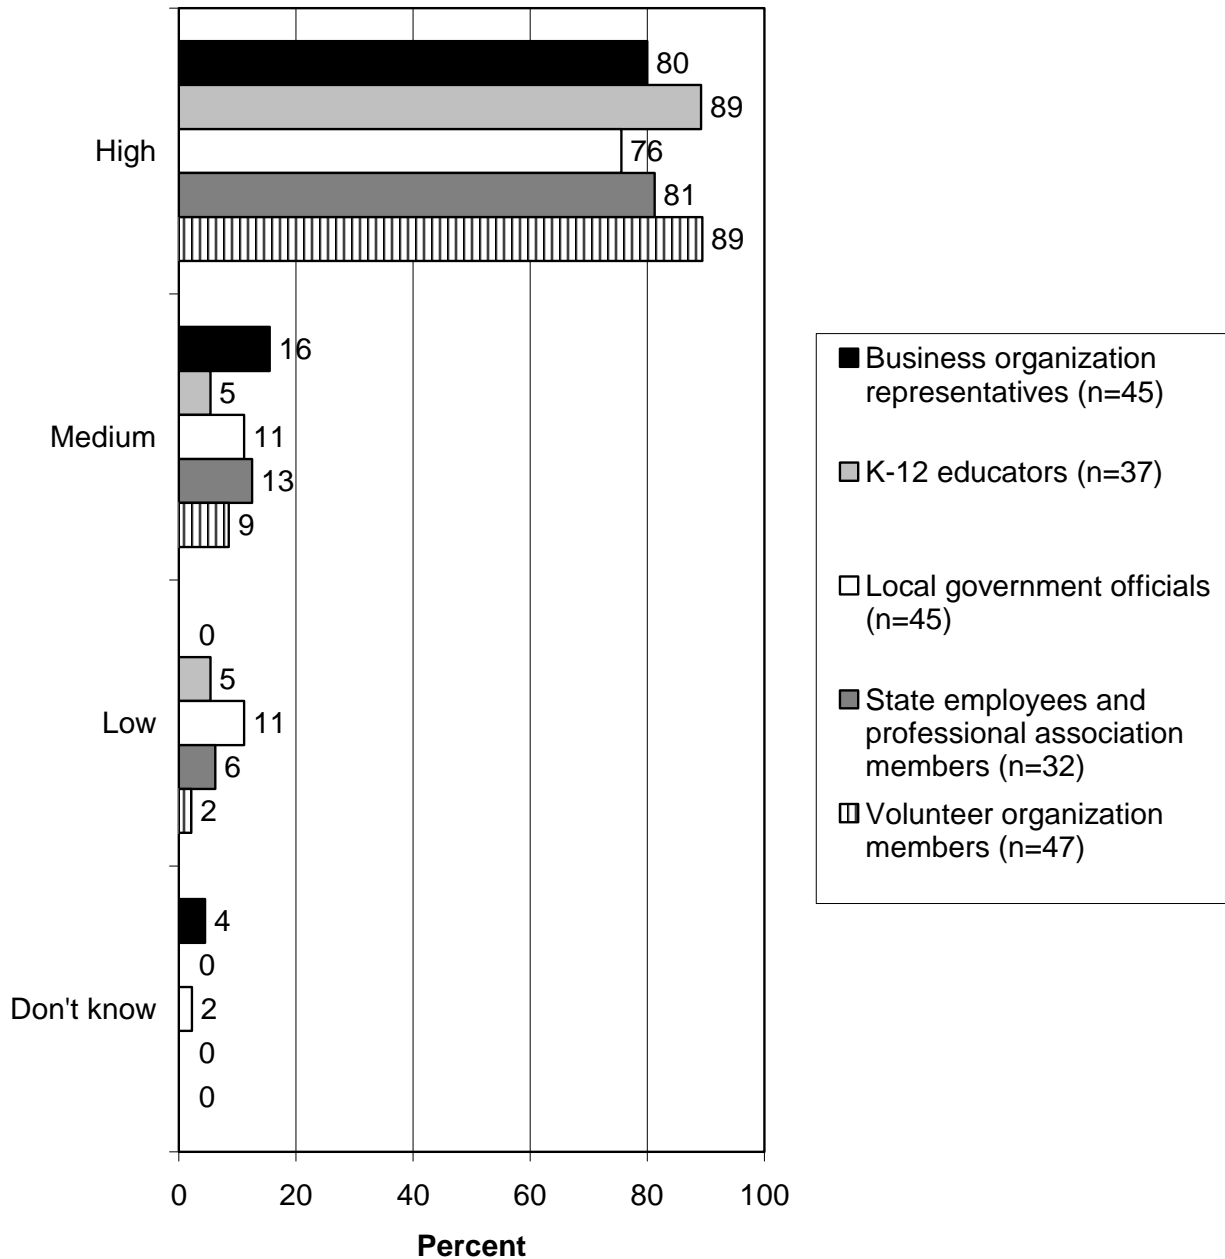

Q169. How effective is commendation/recognition as a means to encourage you to attend a training or education/outreach session on coastal resource management issues?

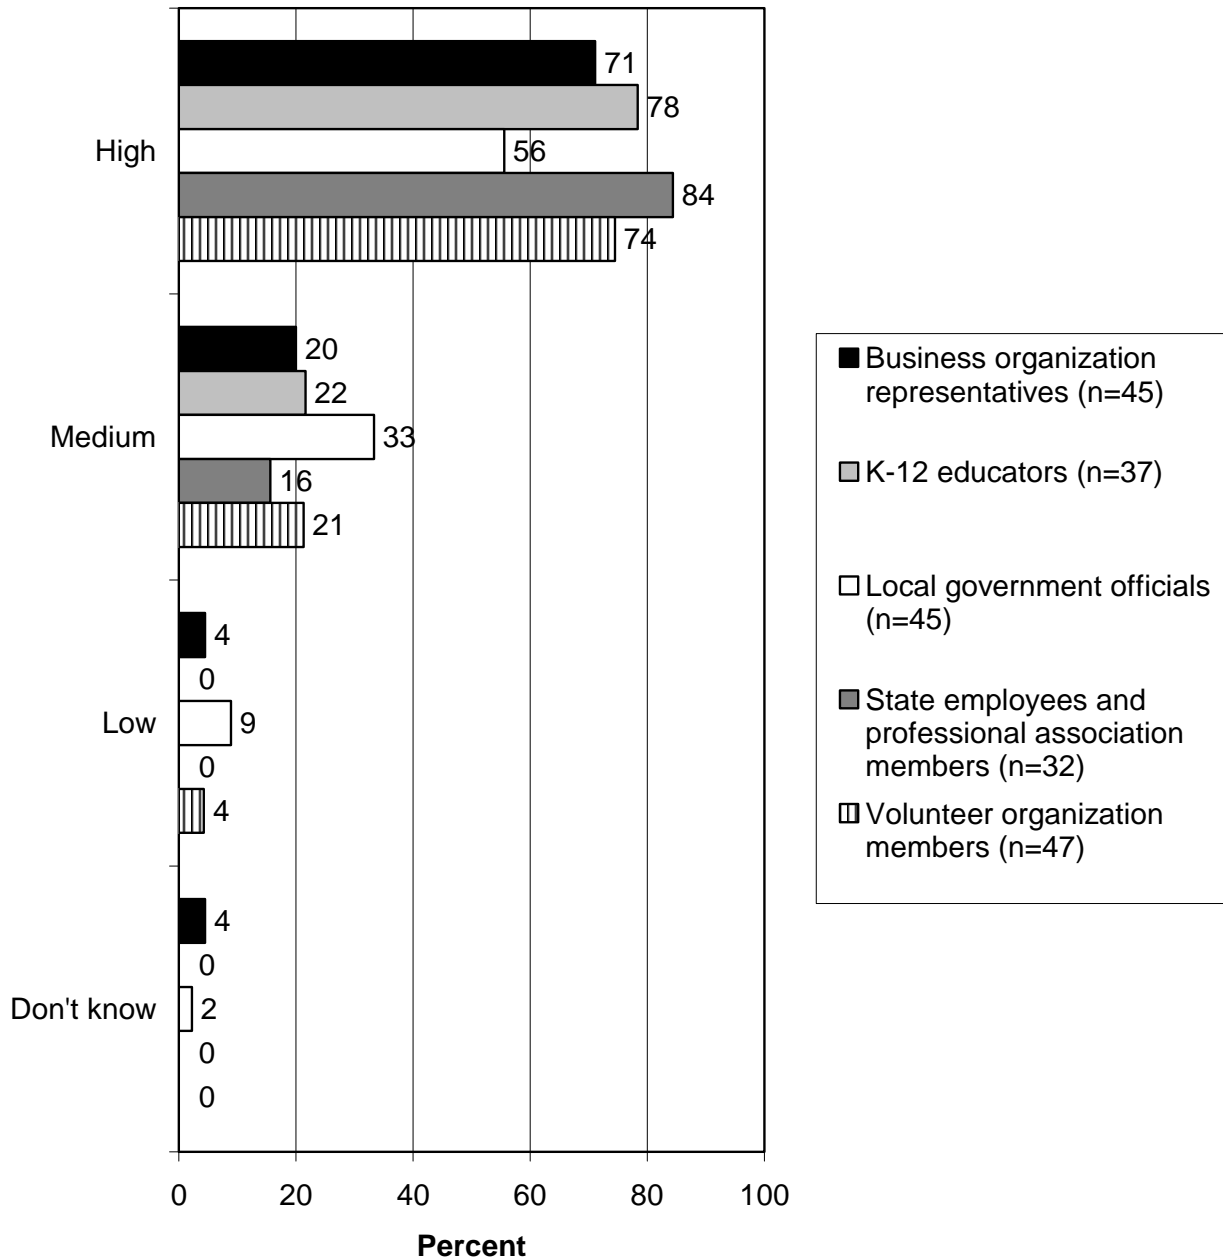

Q170. How effective is a special patch designating training completion as a means to encourage you to attend a training or education/outreach session on coastal resource management issues?

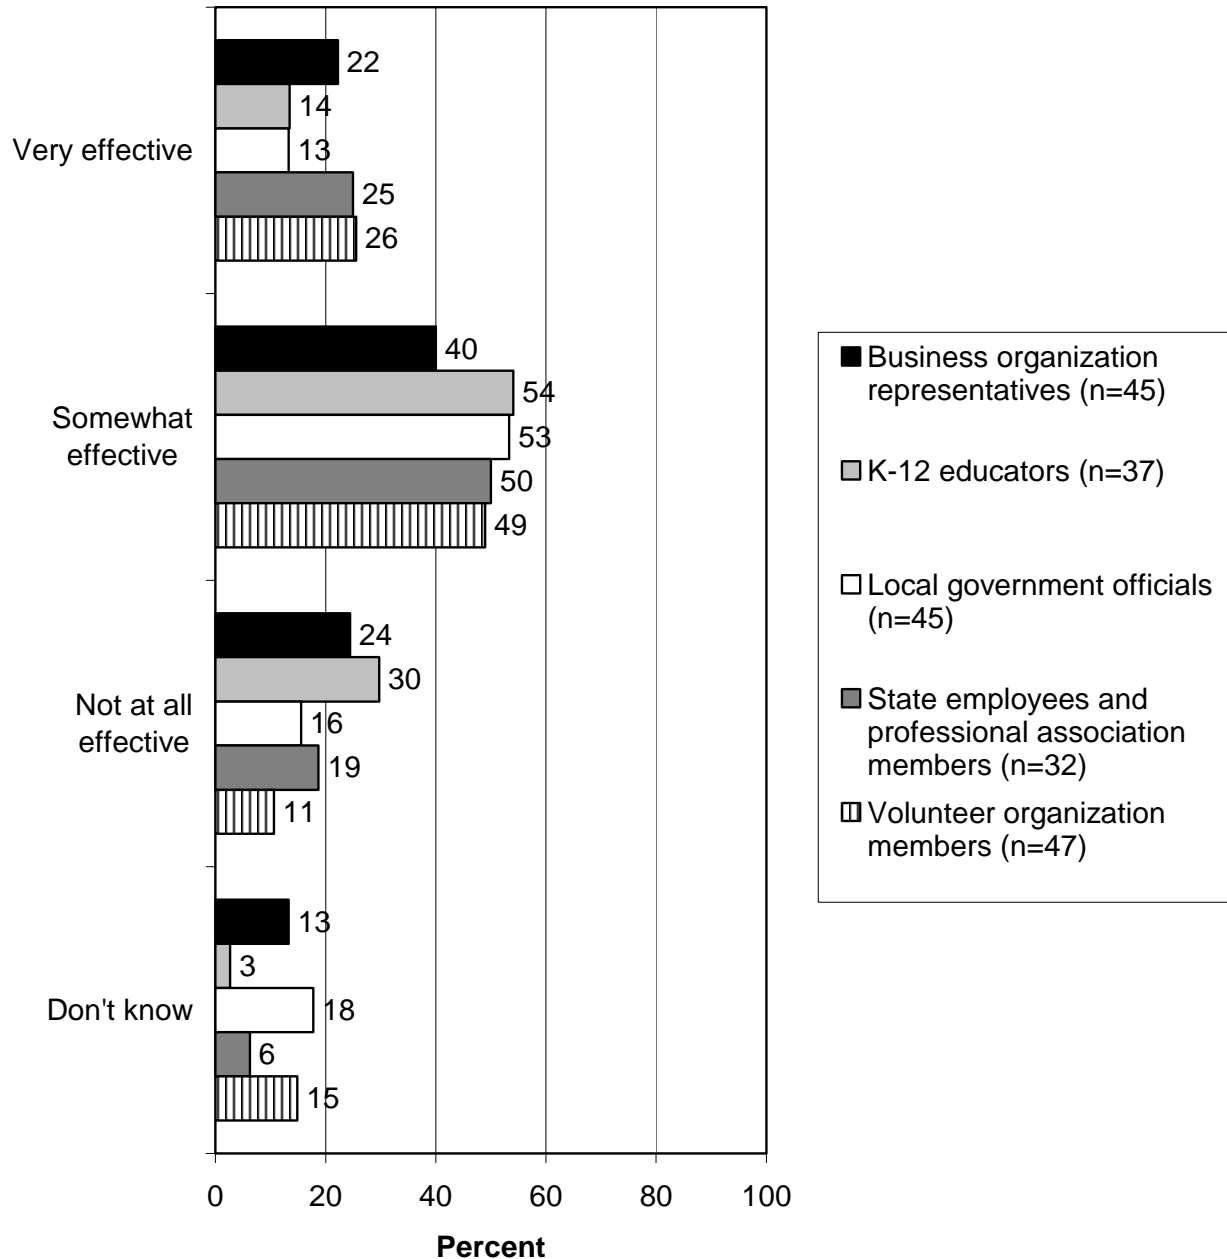

Q171. How effective are expert speakers as a means to encourage you to attend a training or education/outreach session on coastal resource management issues?

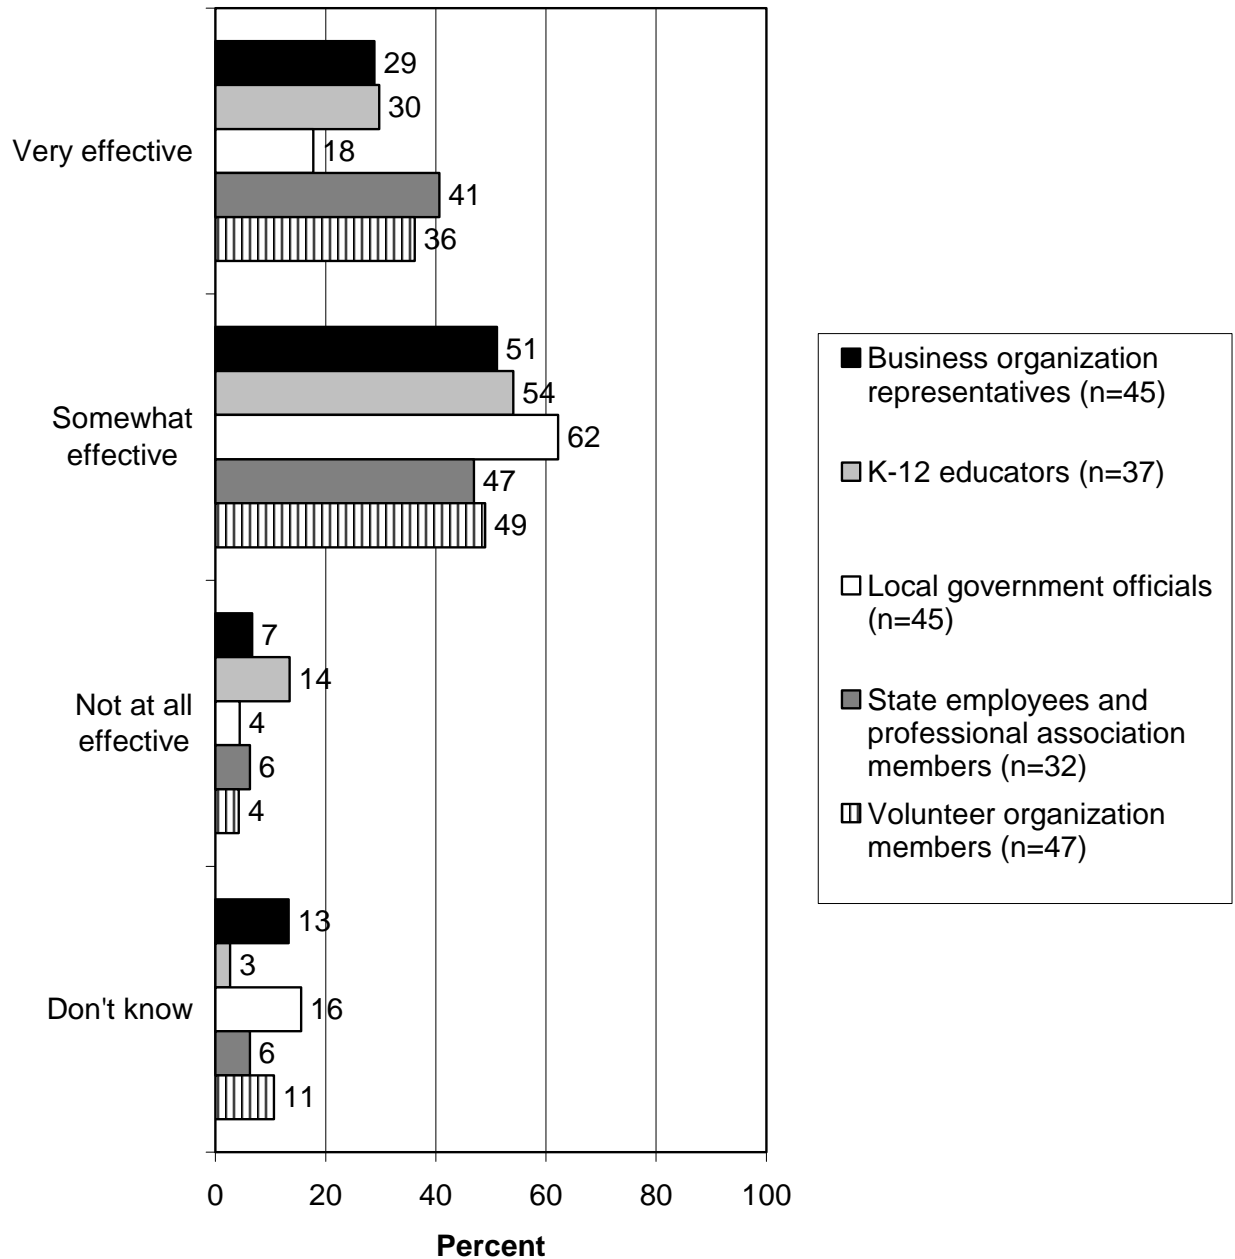

Q172. How effective is easy access to a workshop as a means to encourage you to attend a training or education/outreach session on coastal resource management issues?

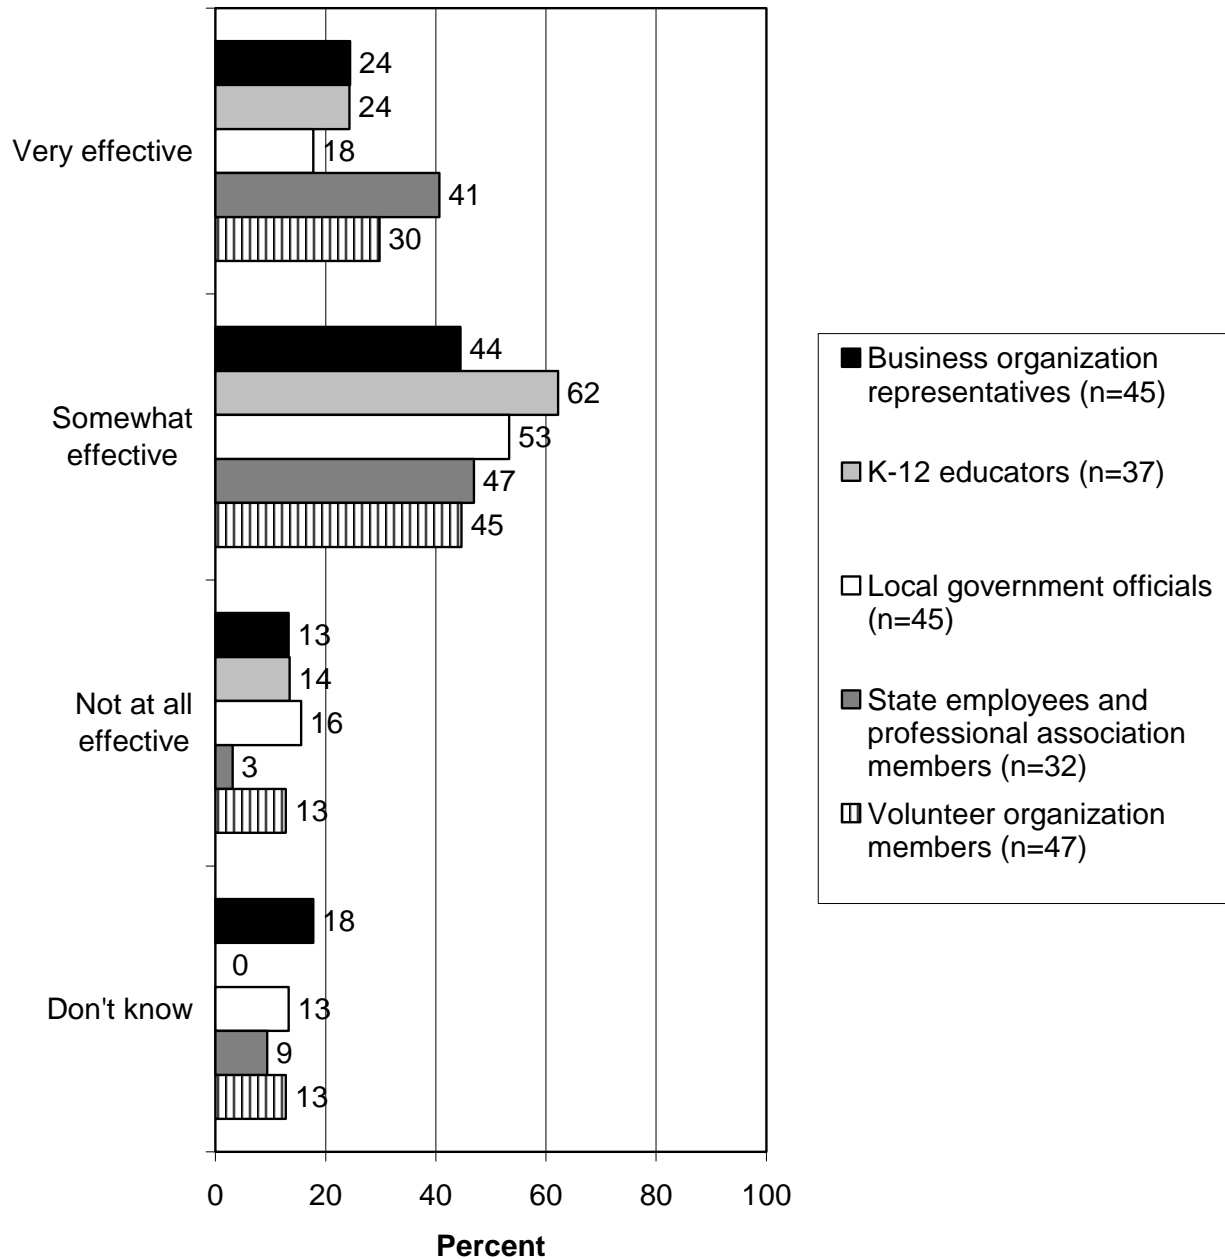

Q189. How effective do you think that national databases are as a way for you and your organization to receive information about coastal resource issues?

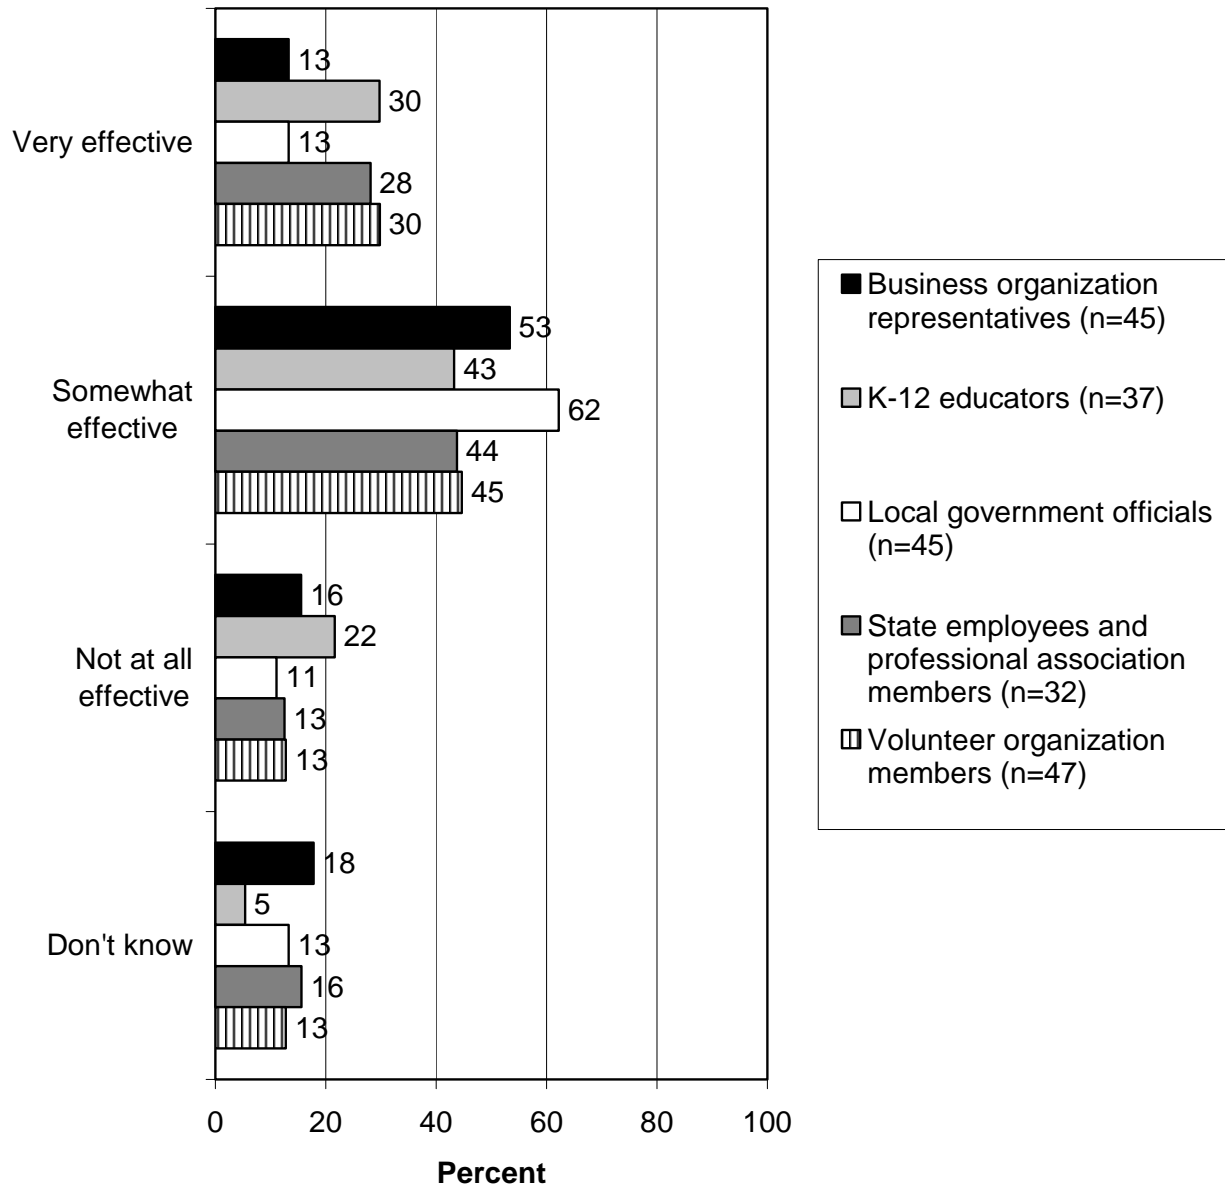

Q190. How effective do you think that regional databases are as a way for you and your organization to receive information about coastal resource issues?

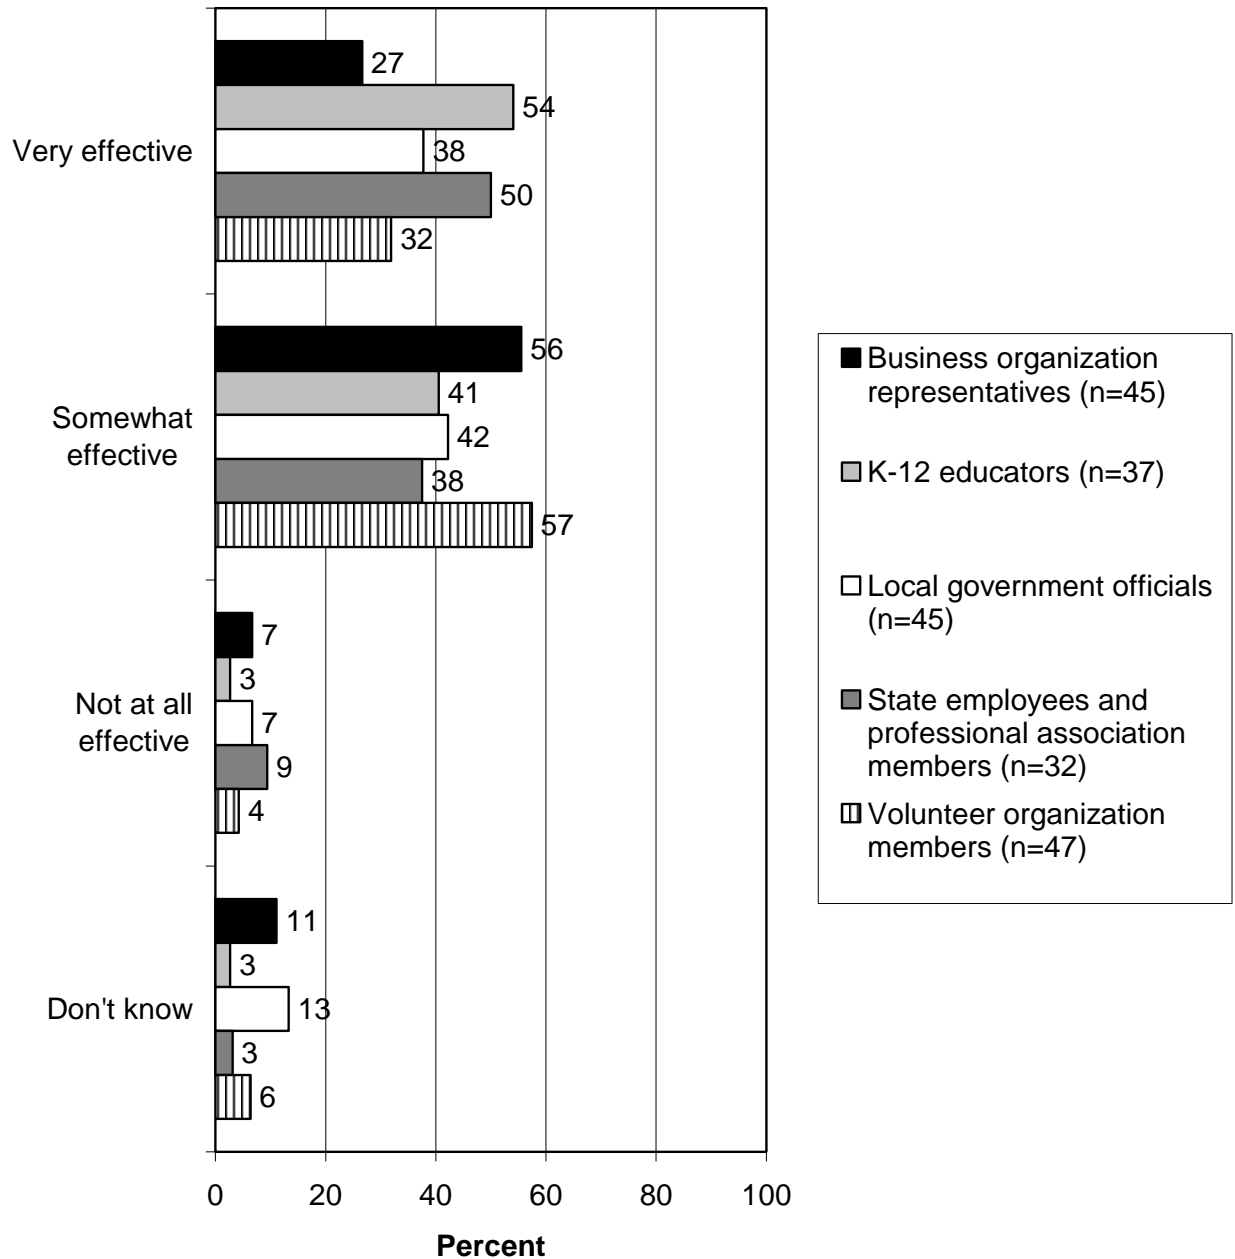

Q191. How effective do you think that electronic data, information directories, and clearinghouses are as a way for you and your organization to receive information about coastal resource issues?

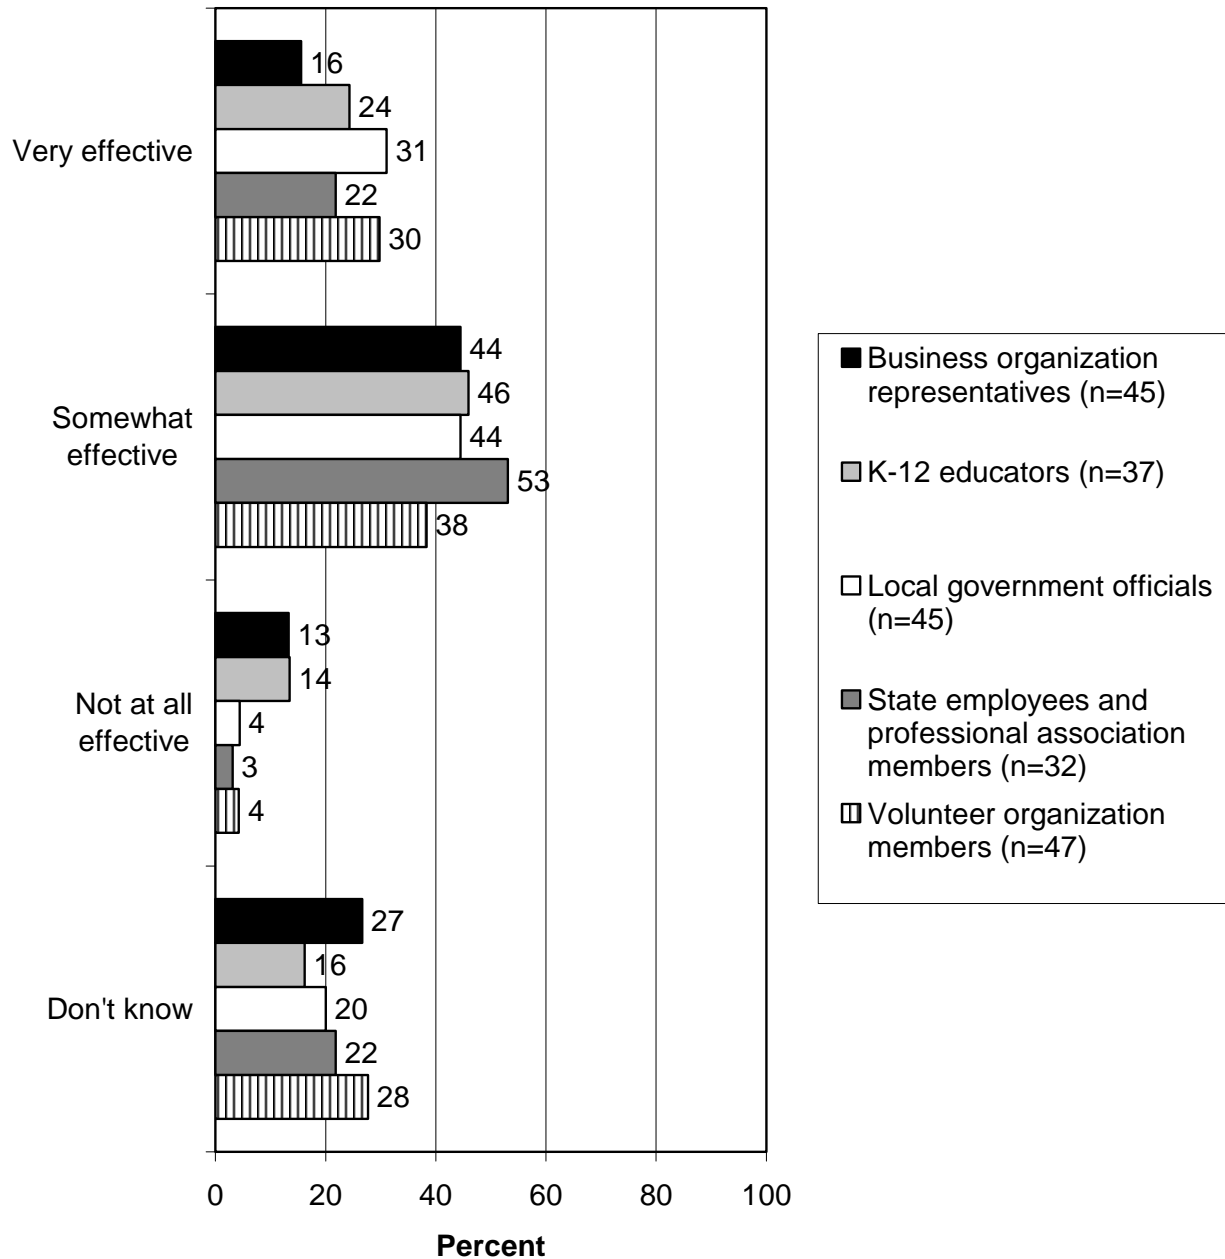

Q192. How effective do you think that sources and methods of data sharing, such as national standards, protocols, and methods for data sharing and transmittal, are as a way for you and your organization to receive information about coastal resource issues?

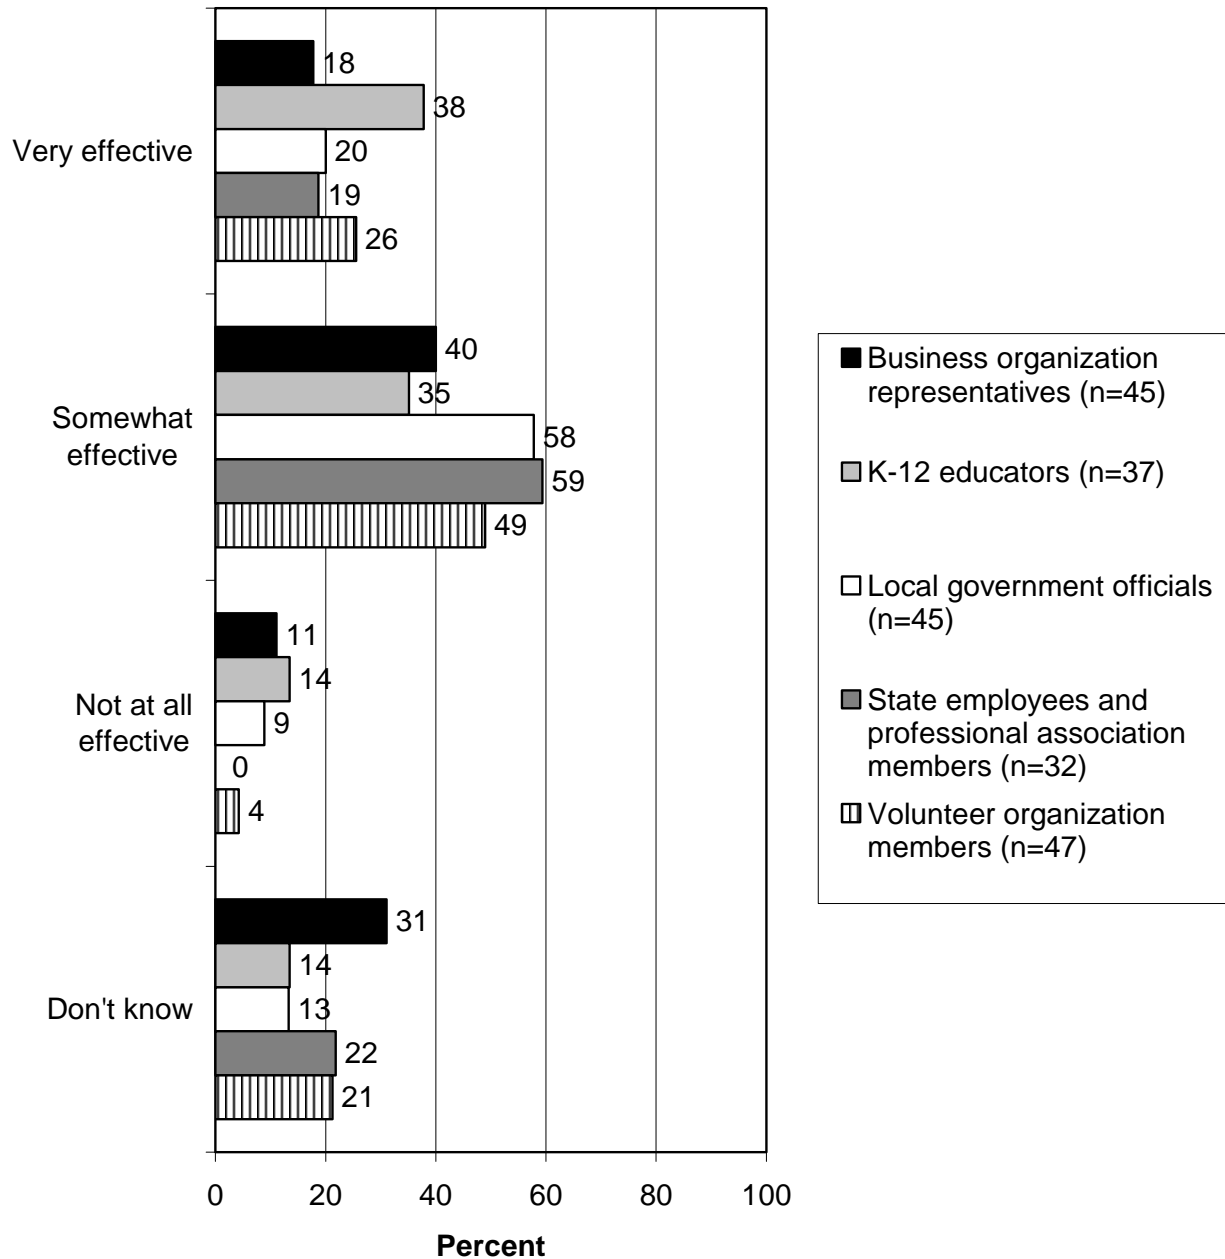

Q193. How effective do you think that formal courses and curriculums are as a way for you and your organization to receive information about coastal resource issues?

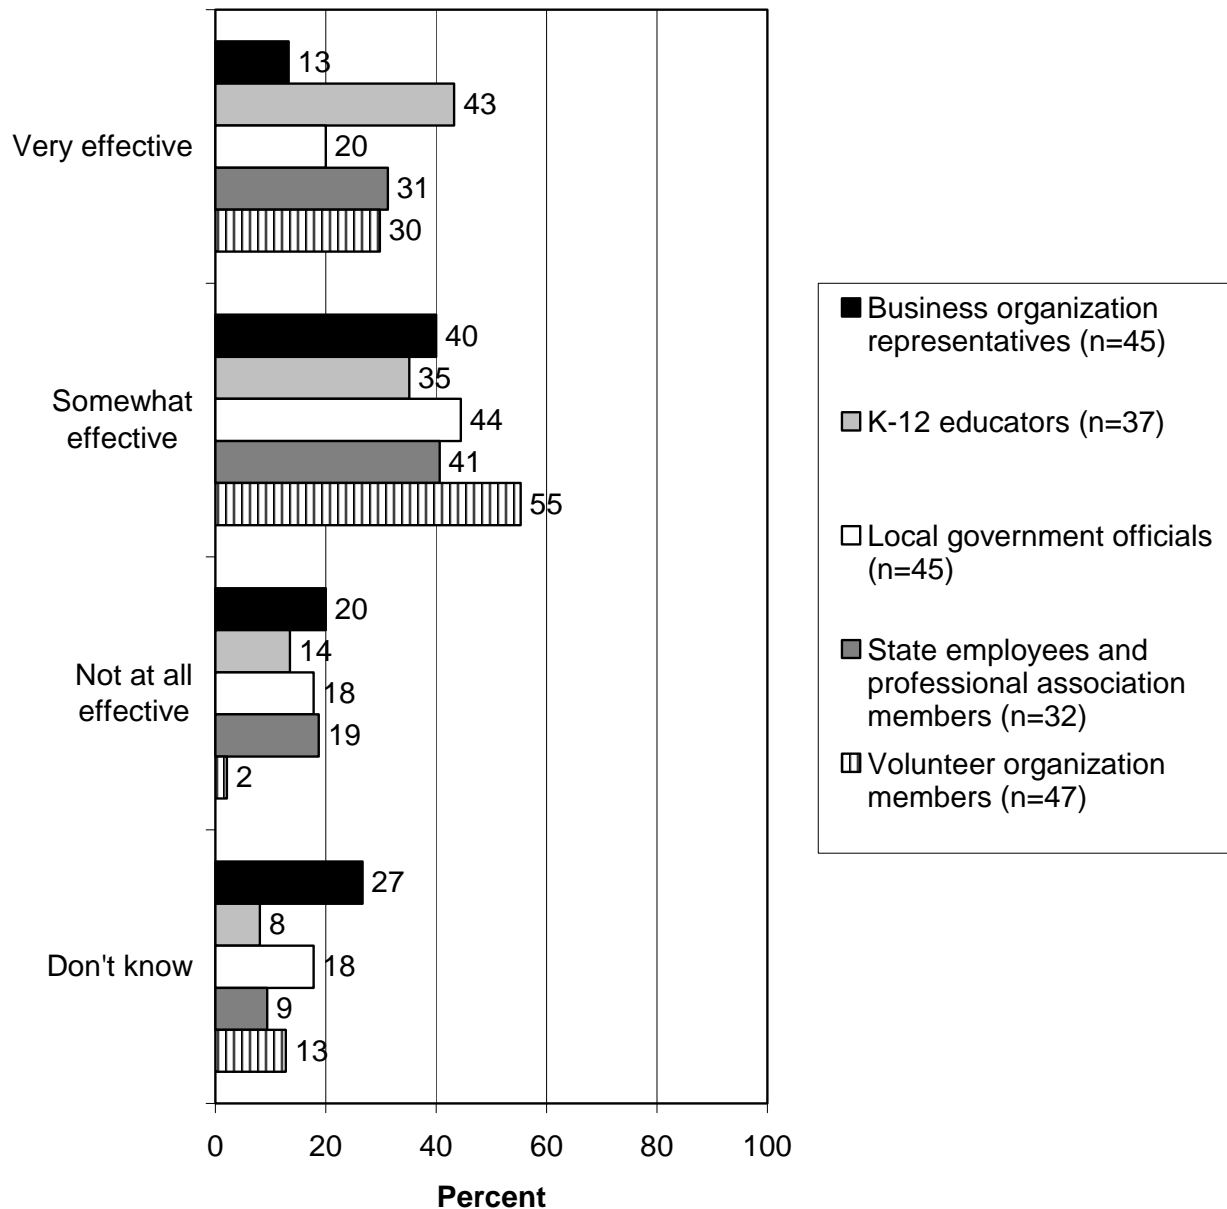

Q194. How effective do you think that expert systems development is as a way for you and your organization to receive information about coastal resource issues?

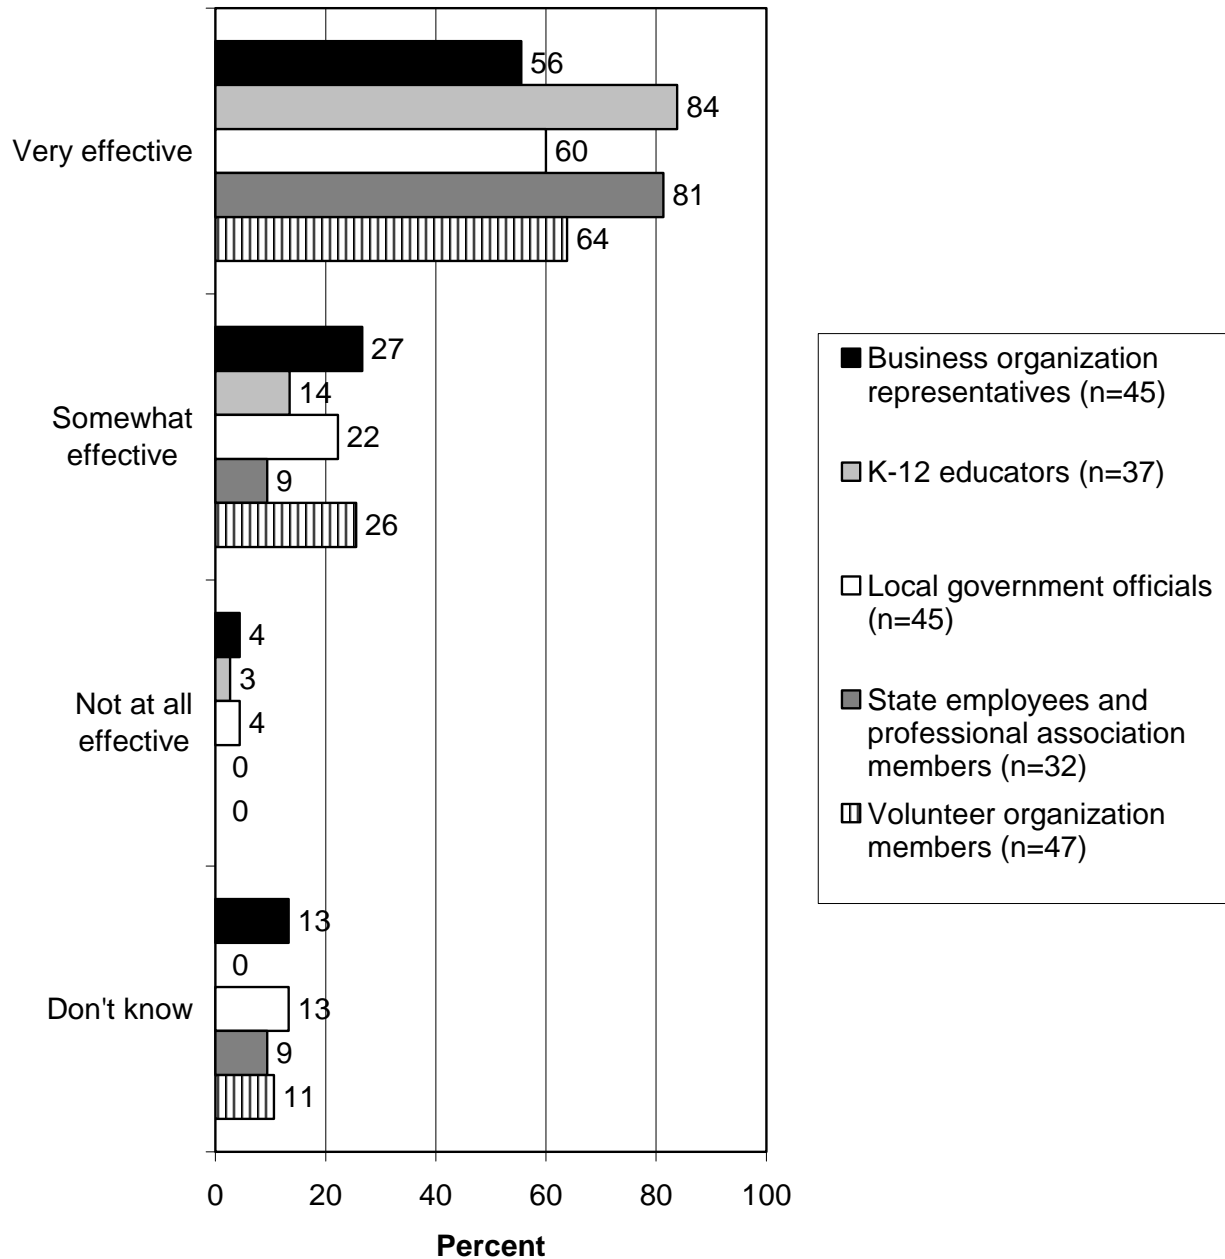

Q195. How effective do you think that model development is as a way for you and your organization to receive information about coastal resource issues?

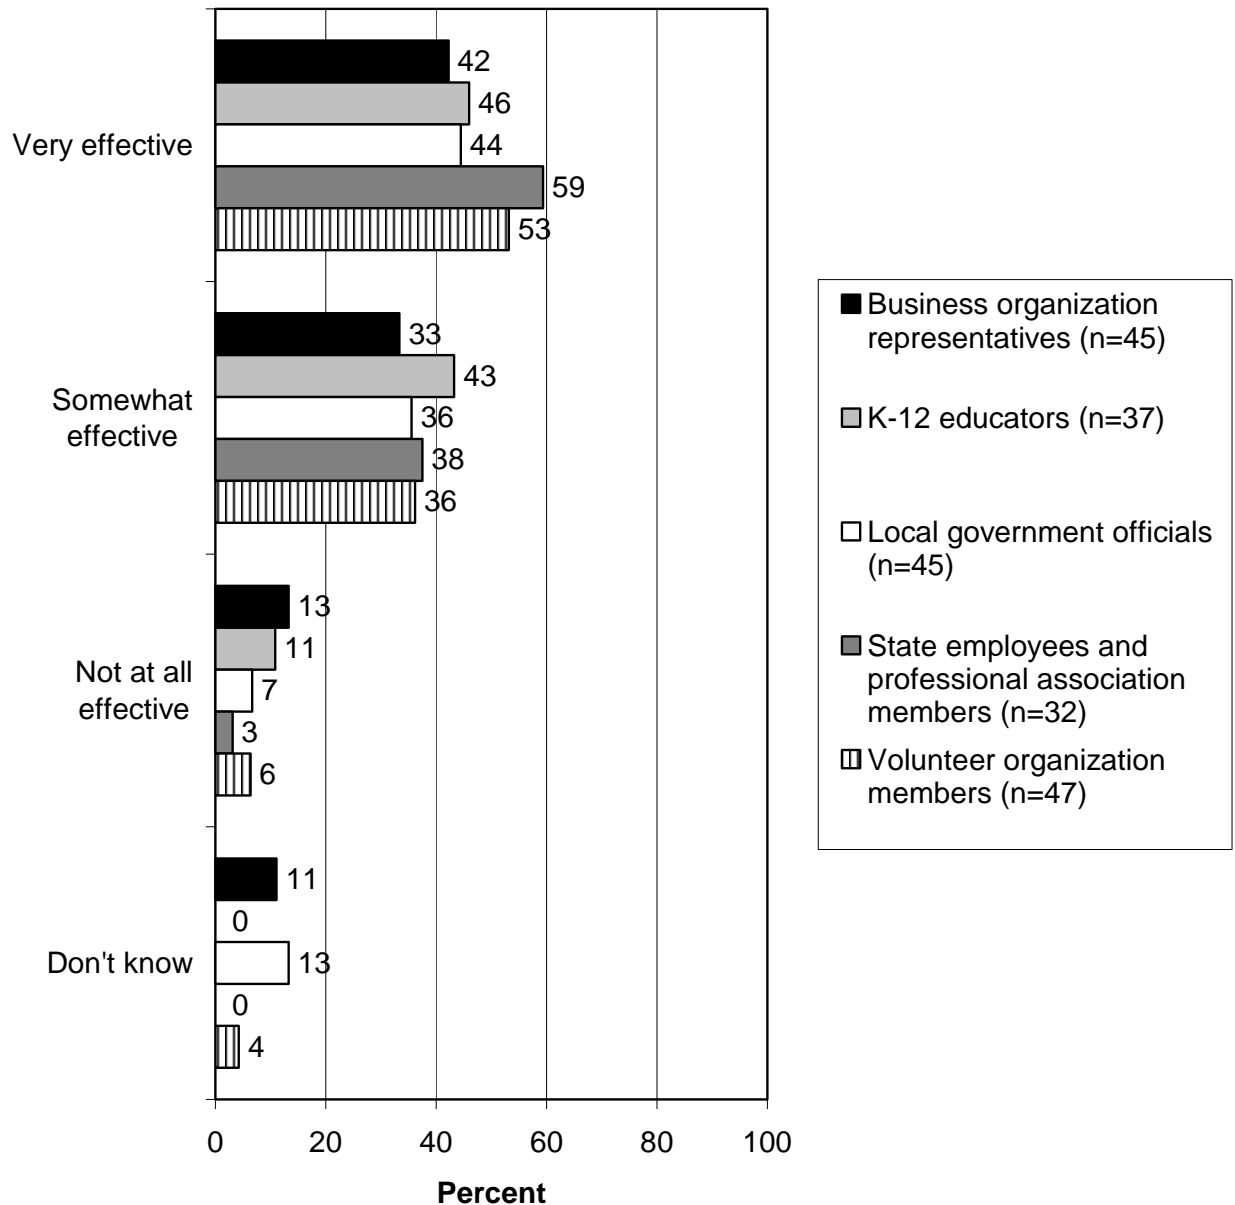

Q196. How effective do you think that nationally applied methods, standards, and protocols for conducting scientific activities are as a way for you and your organization to receive information about coastal resource issues?

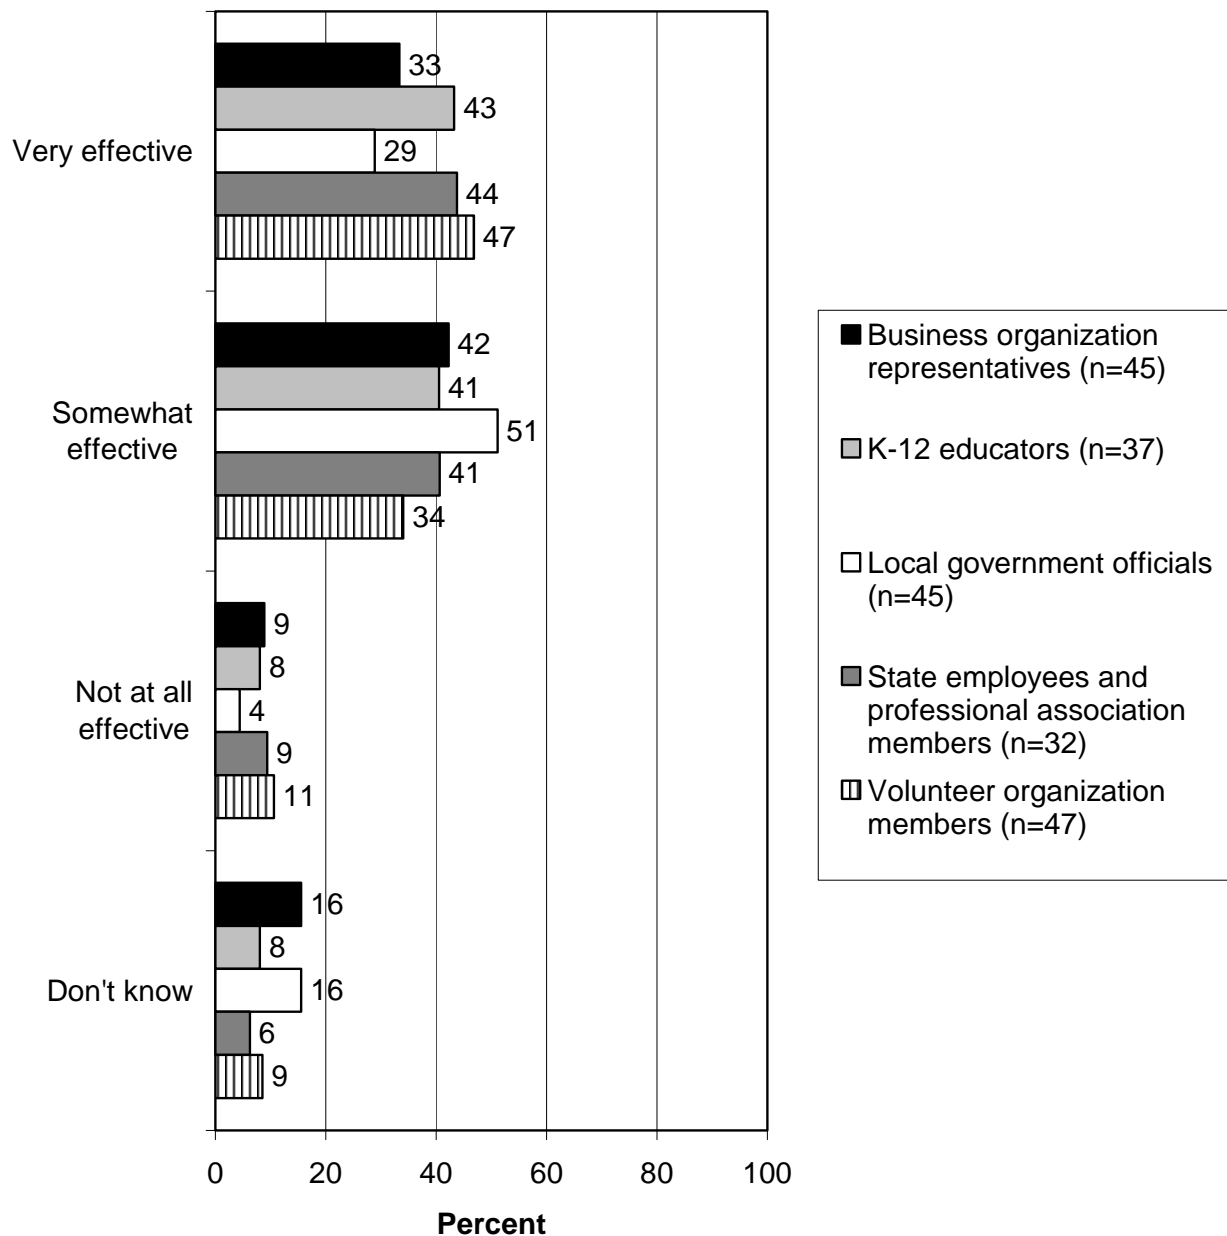

Q197. How effective do you think that technical assistance in the form of face-to-face interactions is as a way for you and your organization to receive information about coastal resource issues?

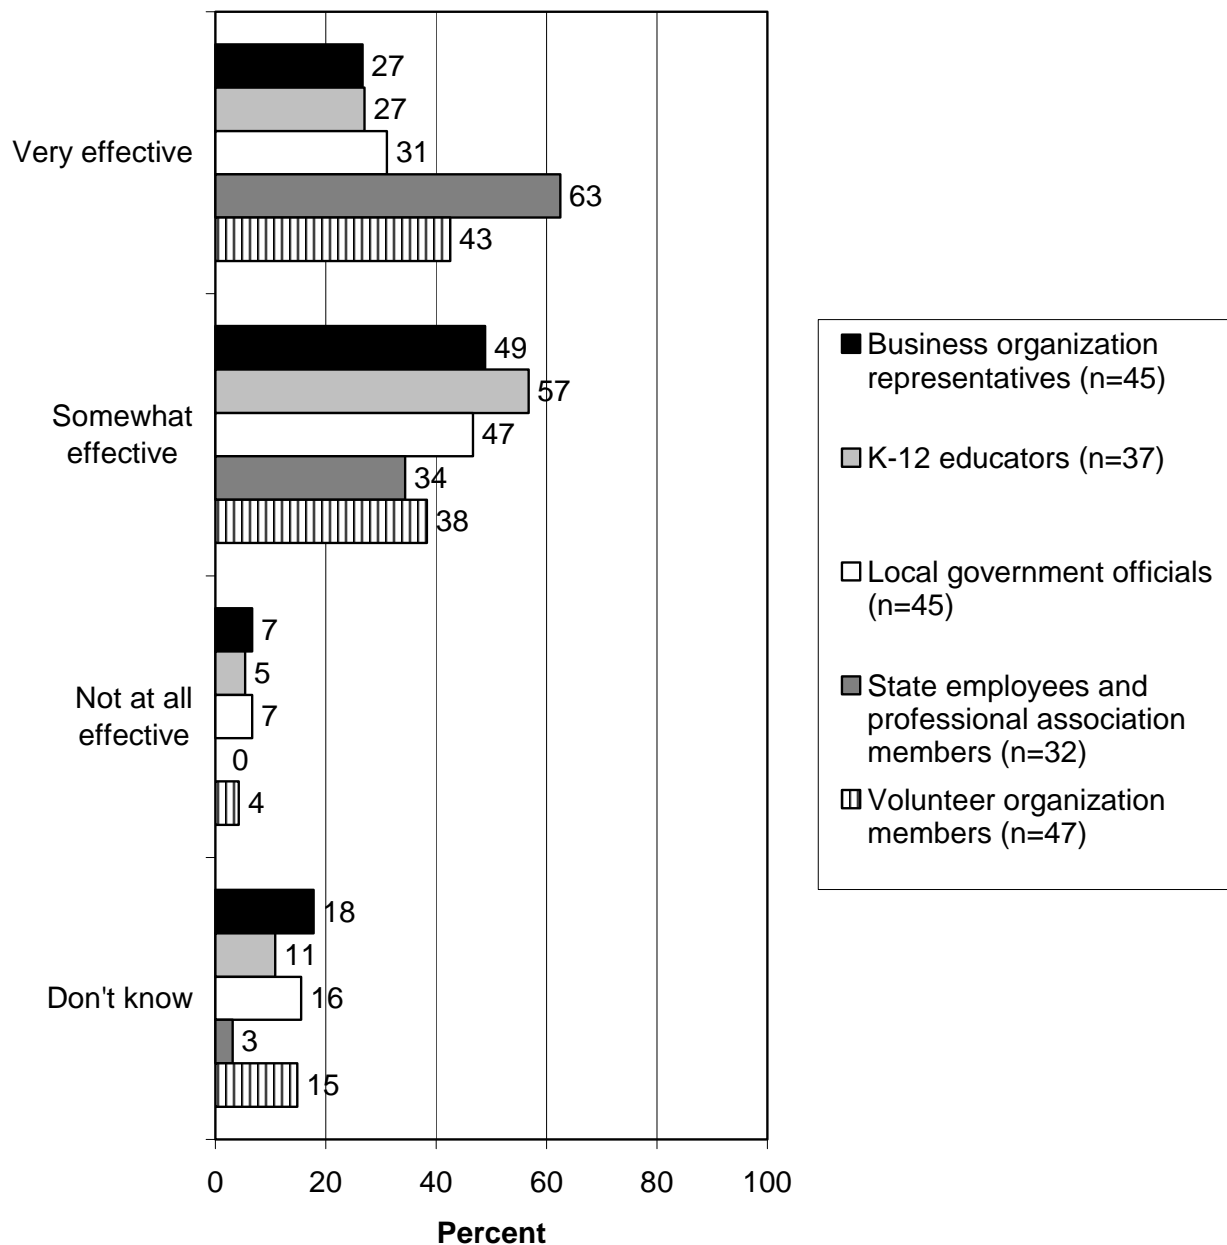

Q198. How effective do you think that technical assistance in the form of manuals and similar materials for the non-specialist is as a way for you and your organization to receive information about coastal resource issues?

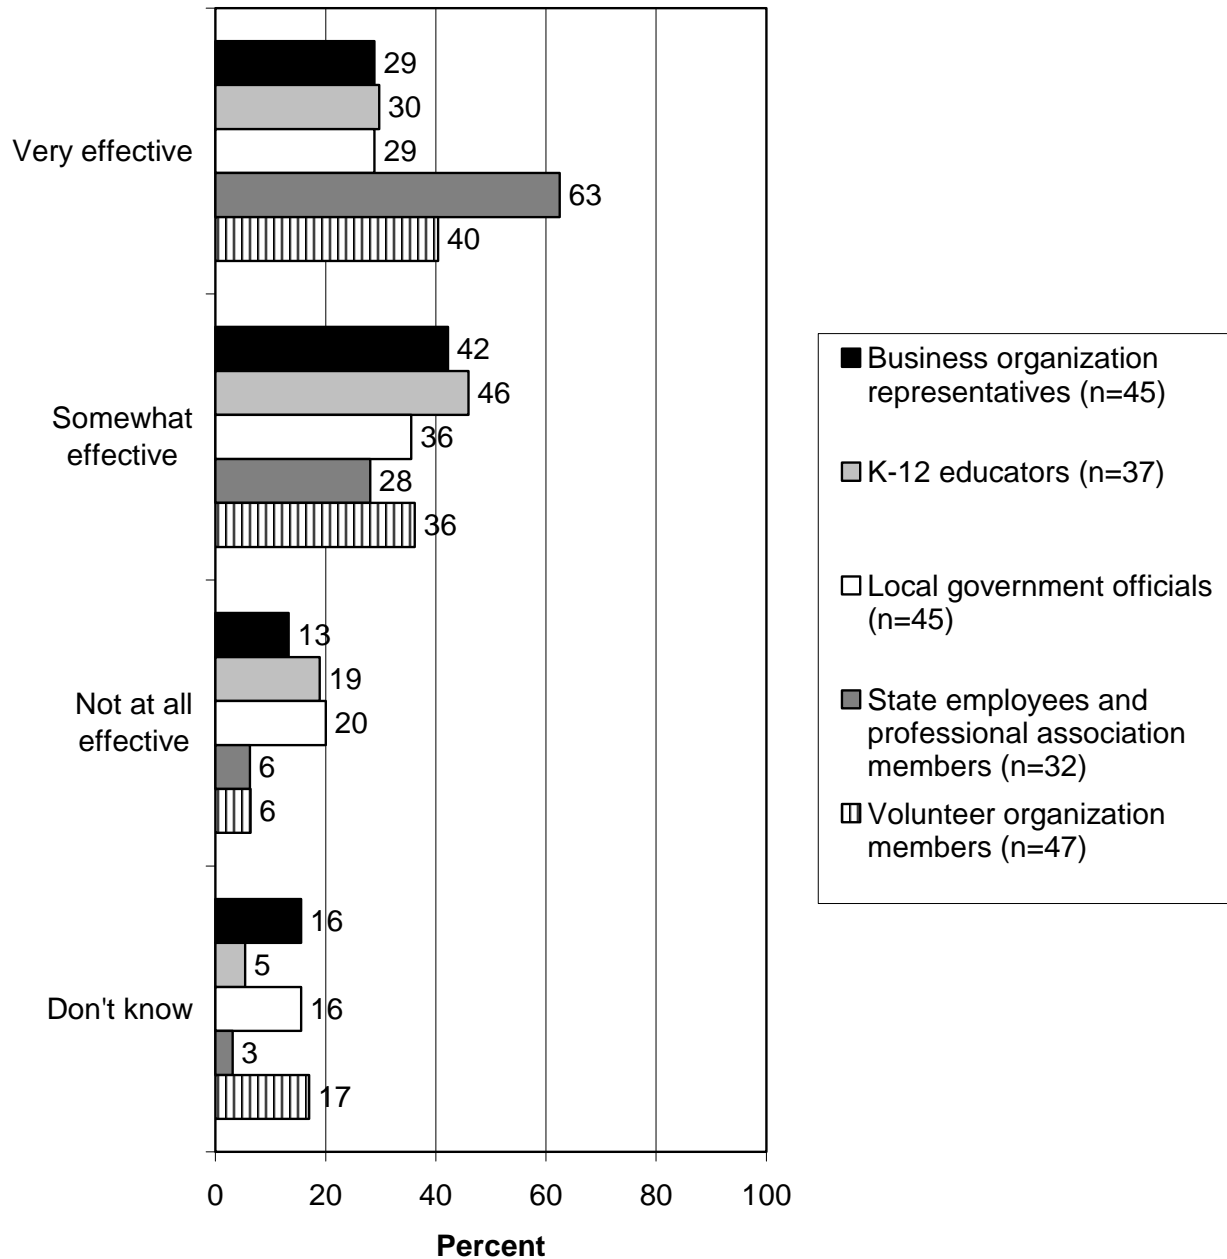

Q199. How effective do you think that a synthesis of what is known about a particular subject in the form of a general, less technical outlet is as a way for you and your organization to receive information about coastal resource issues?

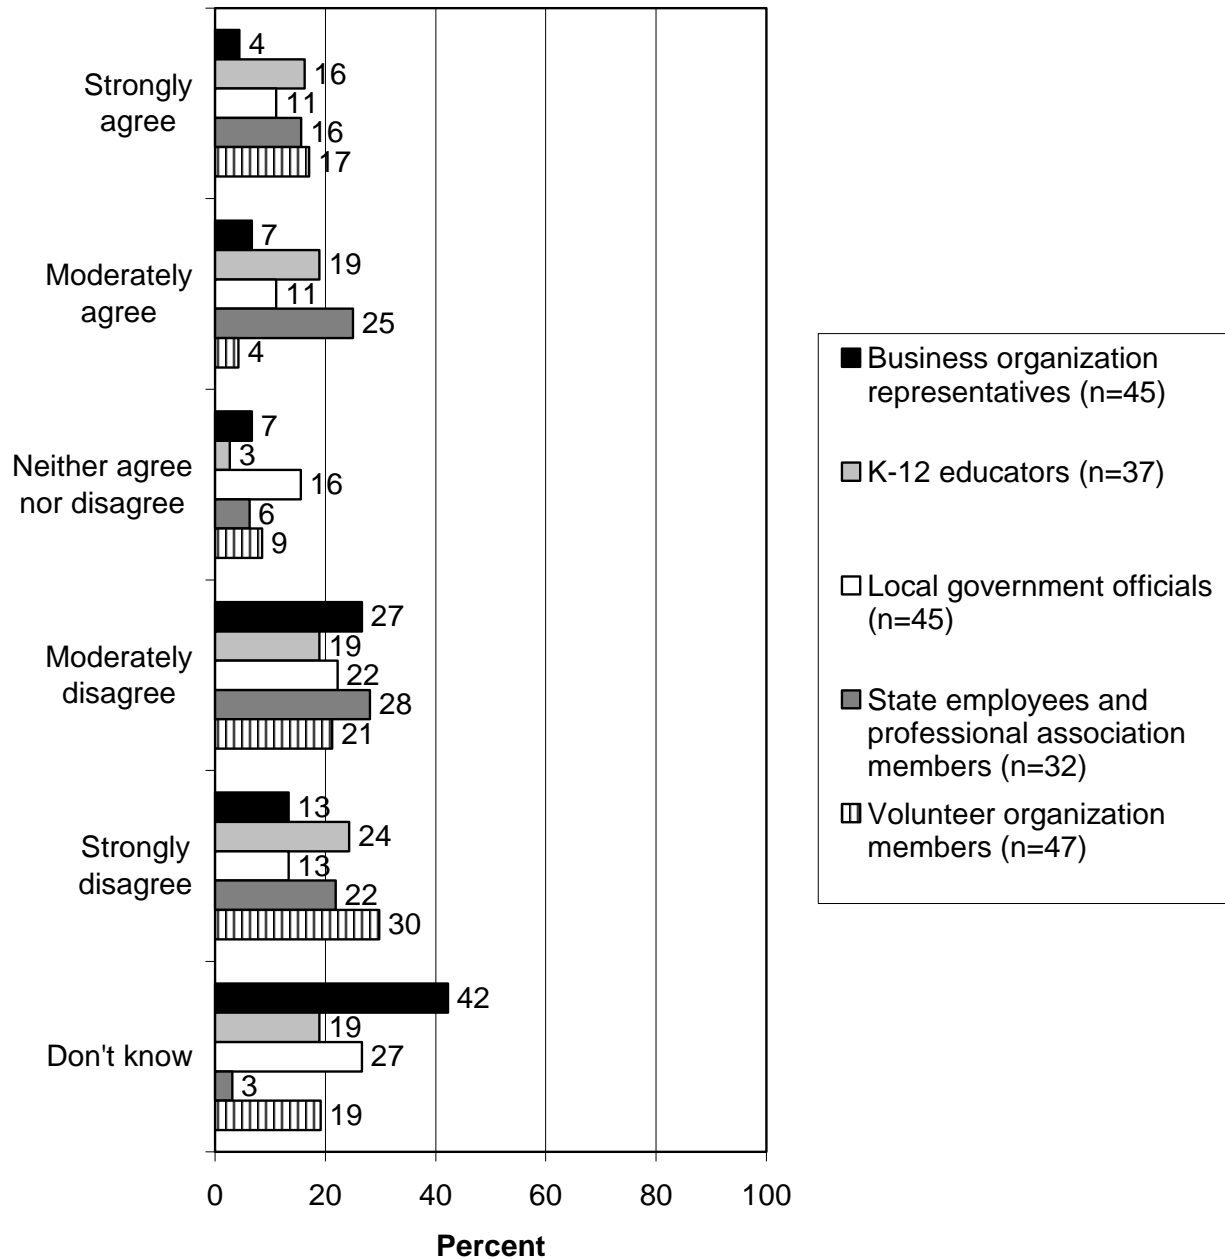

Q200. How effective do you think that a synthesis of what is known about a particular subject in the form of a peer-reviewed outlet is as a way for you and your organization to receive information about coastal resource issues?

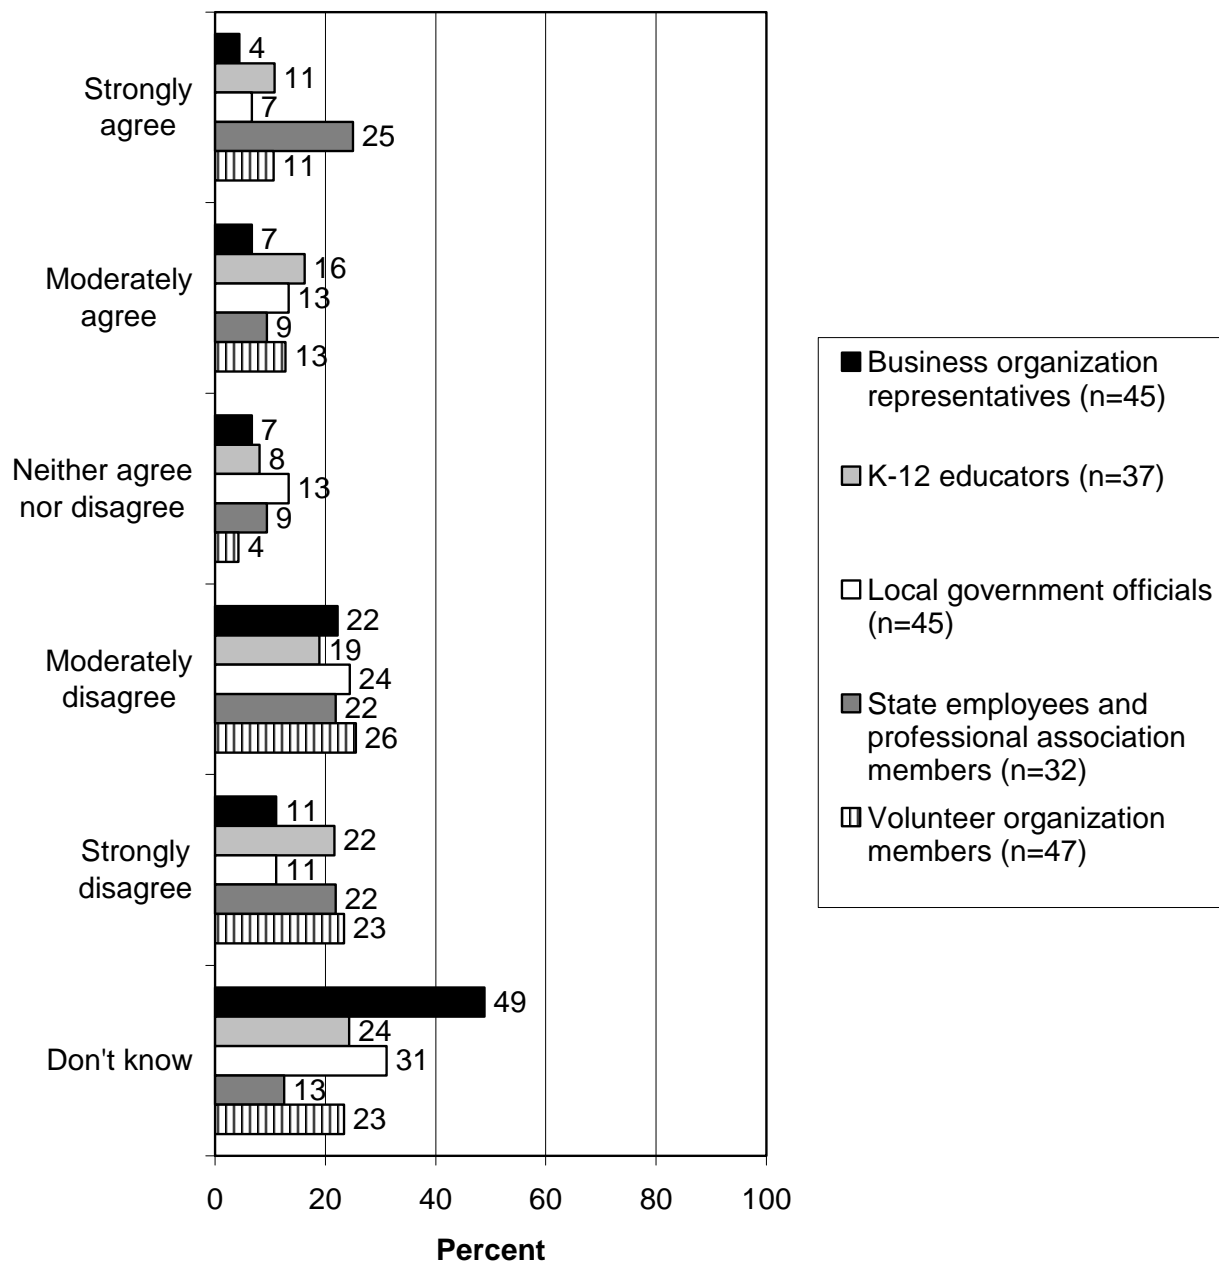

Q201. How effective do you think that peer-reviewed scientific papers presenting new research findings are as a way for you and your organization to receive information about coastal resource issues?

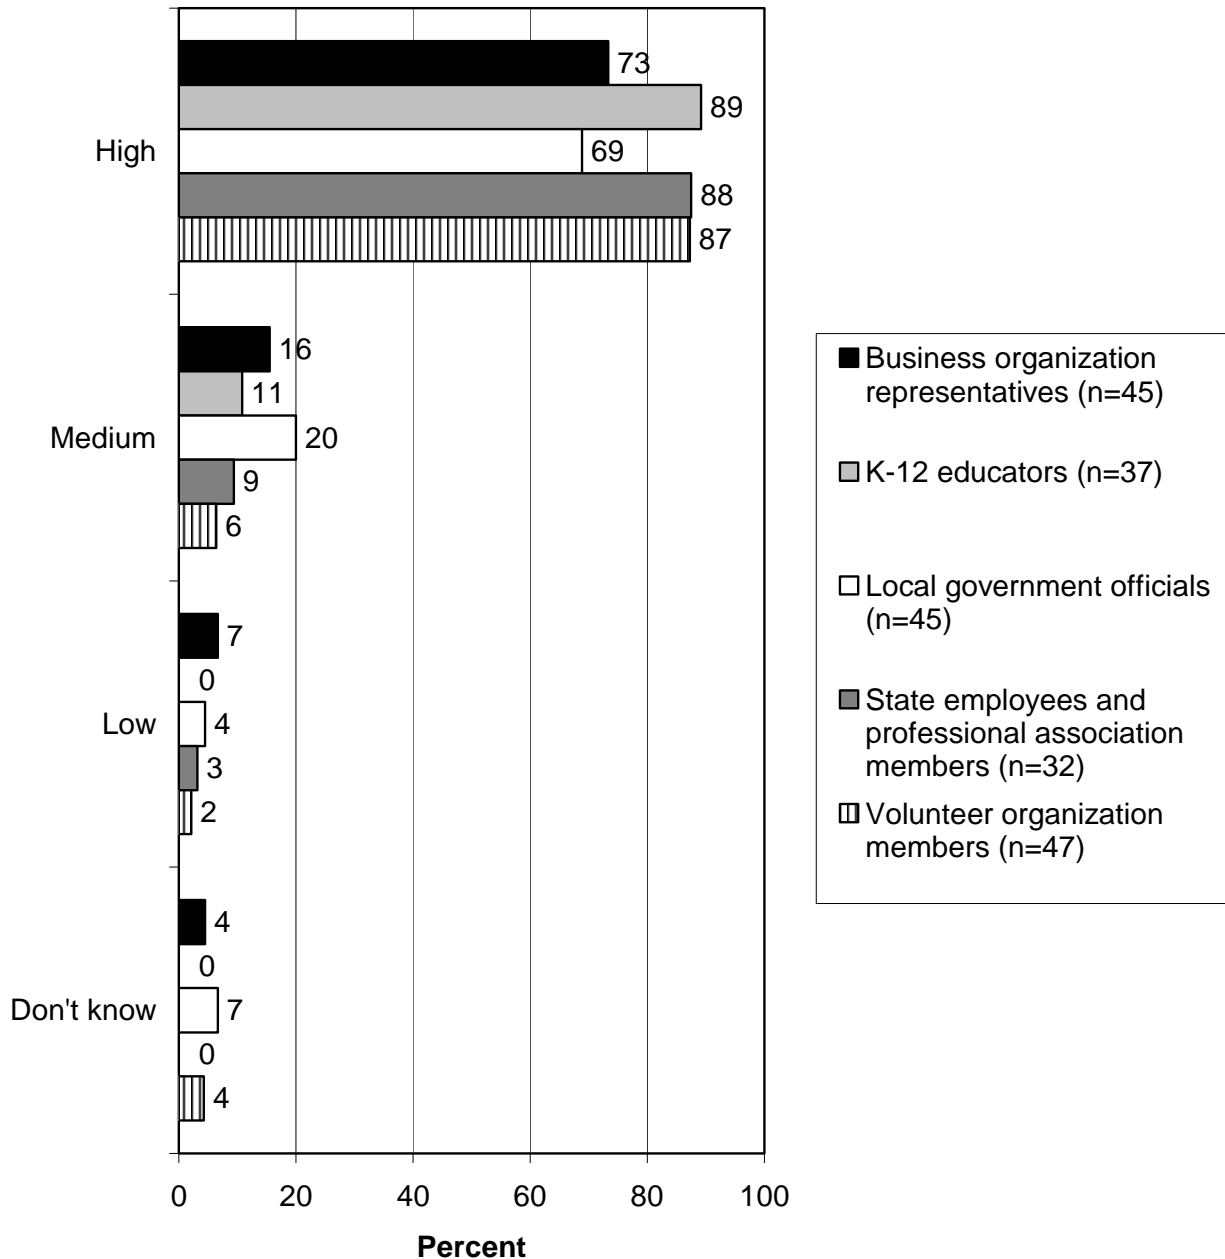

Q208. Overall, do you agree or disagree that there is enough available coastal resource professional development for coastal resource decision-makers in the state of New Jersey?

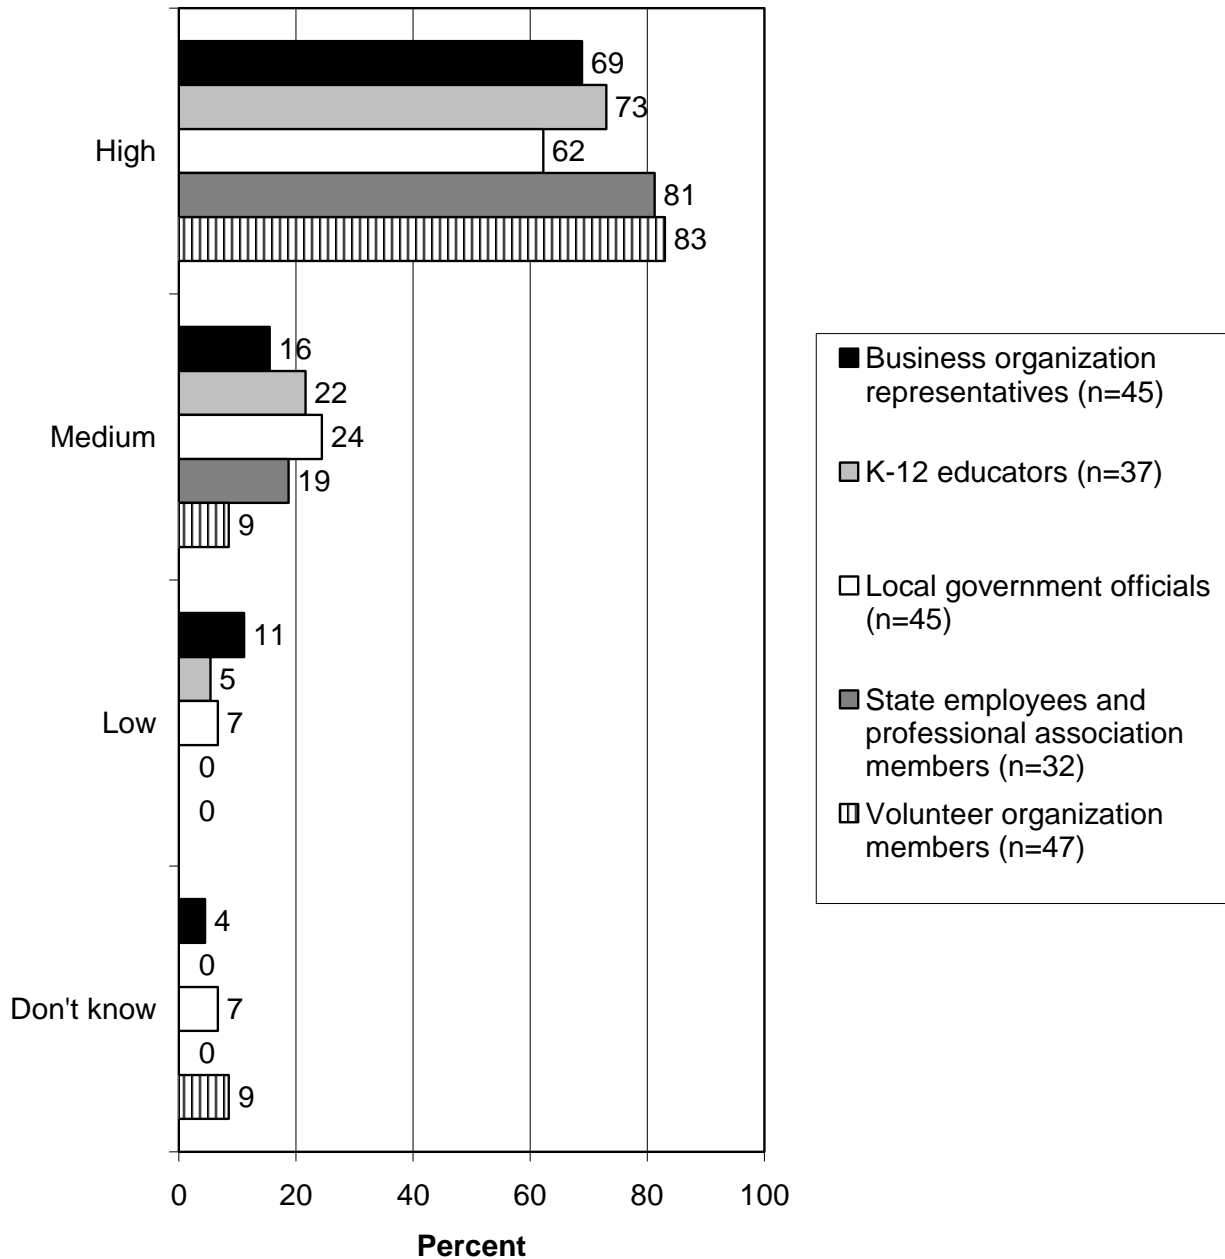

Q209. Overall, do you agree or disagree that there are enough coastal resource professional development providers that offer training for coastal decision-makers in New Jersey?

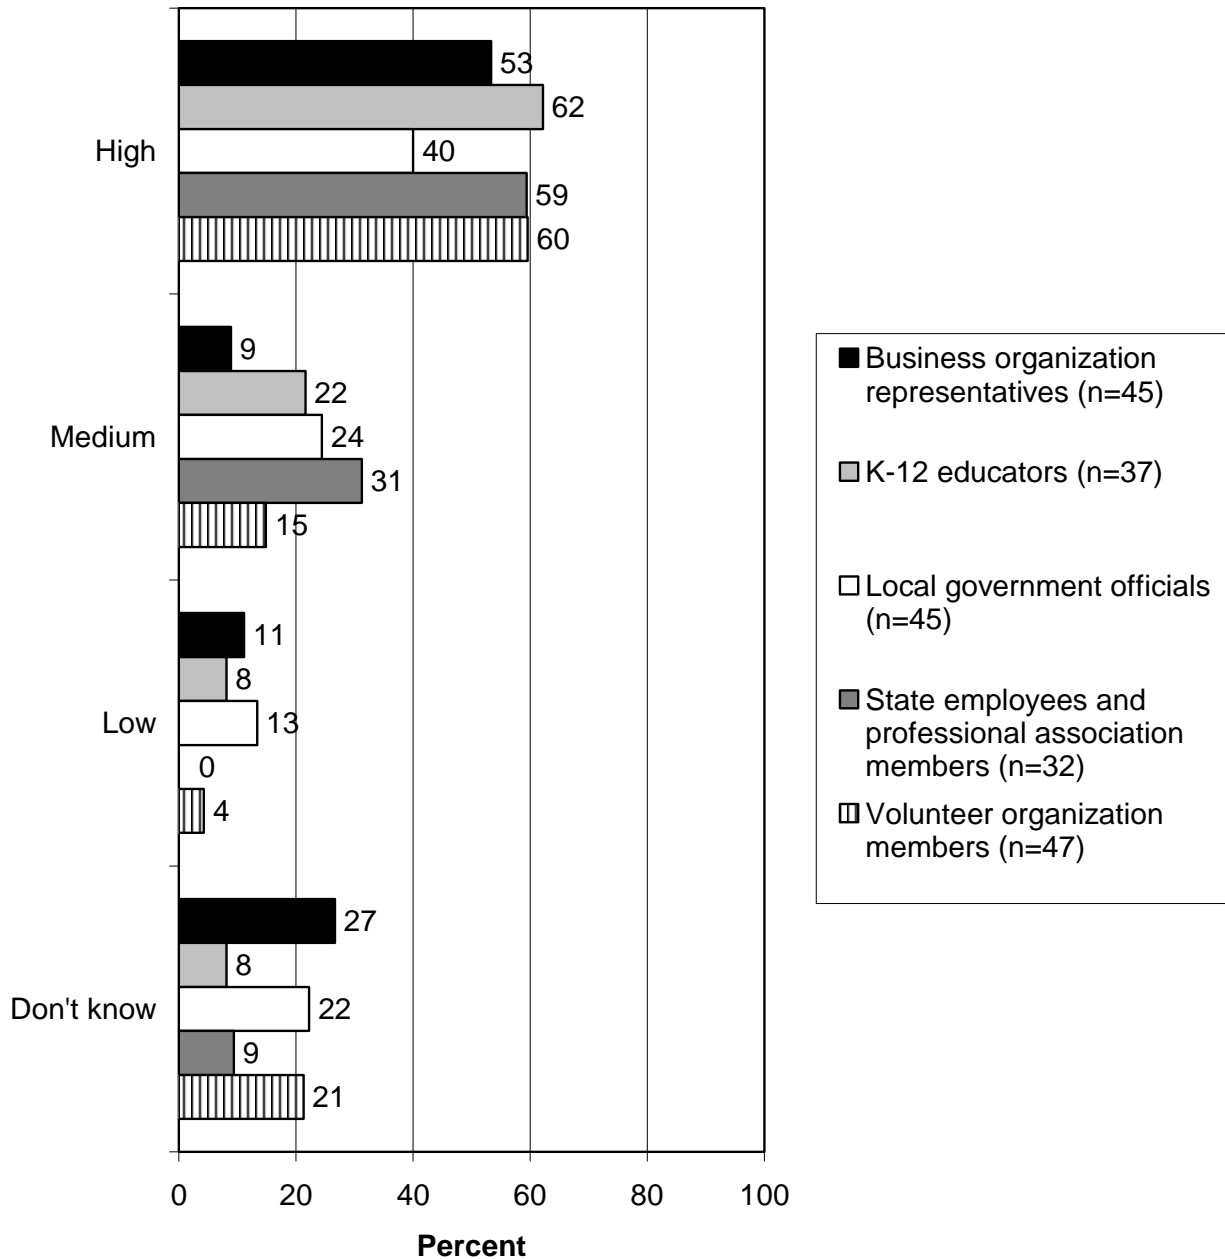

Q210. Please indicate if you think there is a high, medium, or low need for state legislators to receive coastal resource information and professional development in New Jersey?

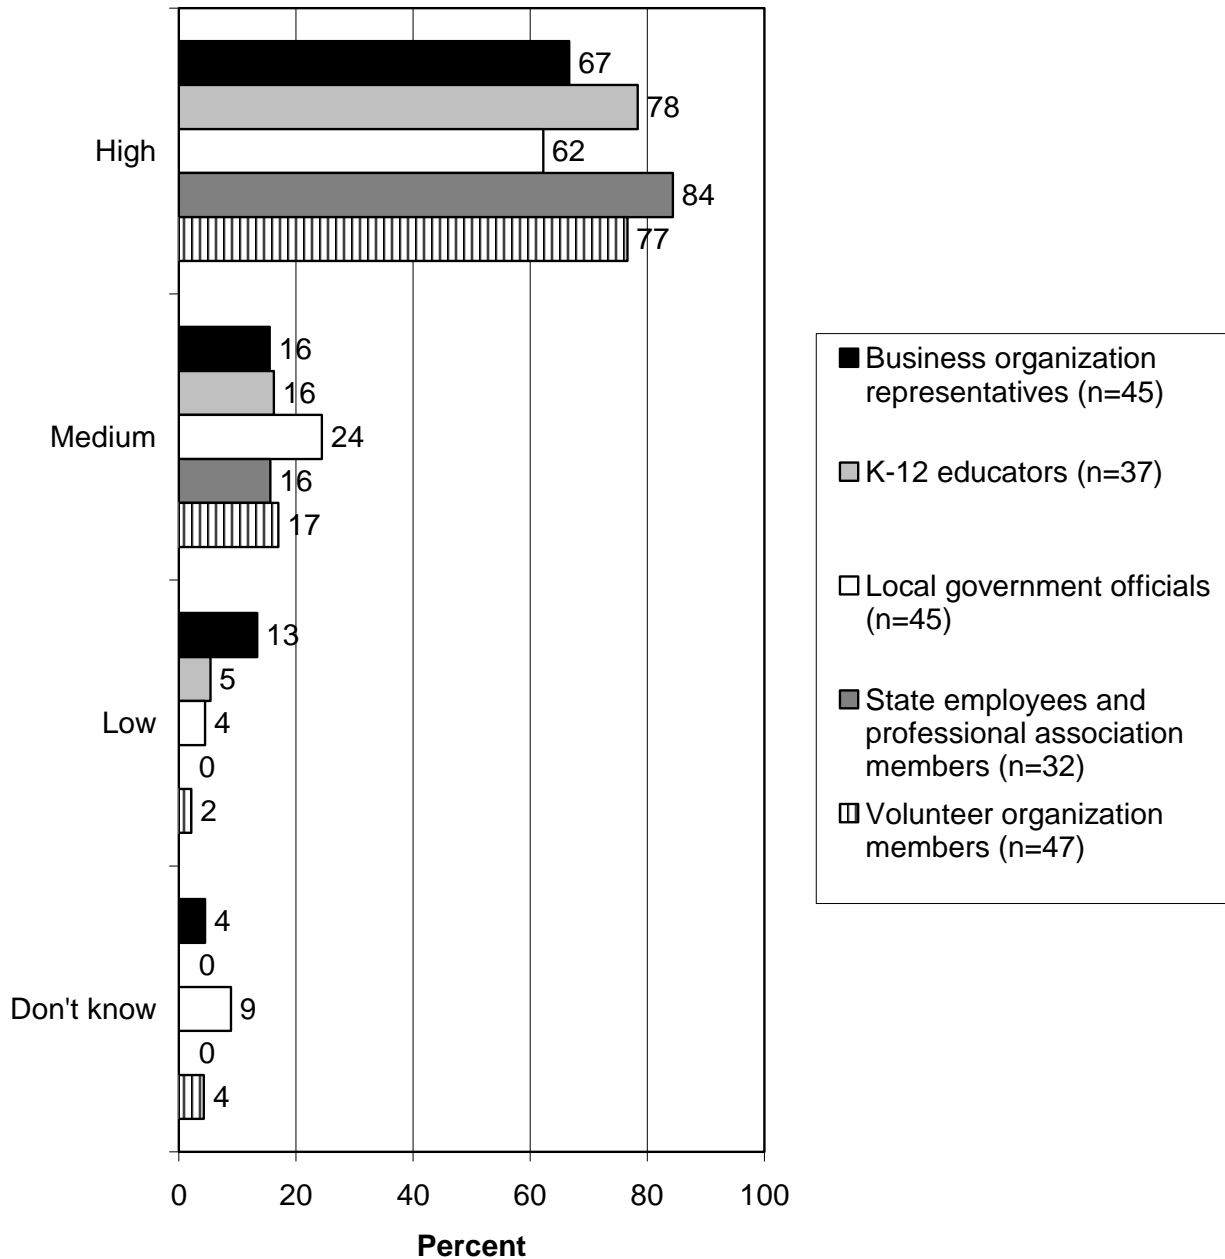

Q211. Please indicate if you think there is a high, medium, or low need for city/town council members to receive coastal resource information and professional development in New Jersey?

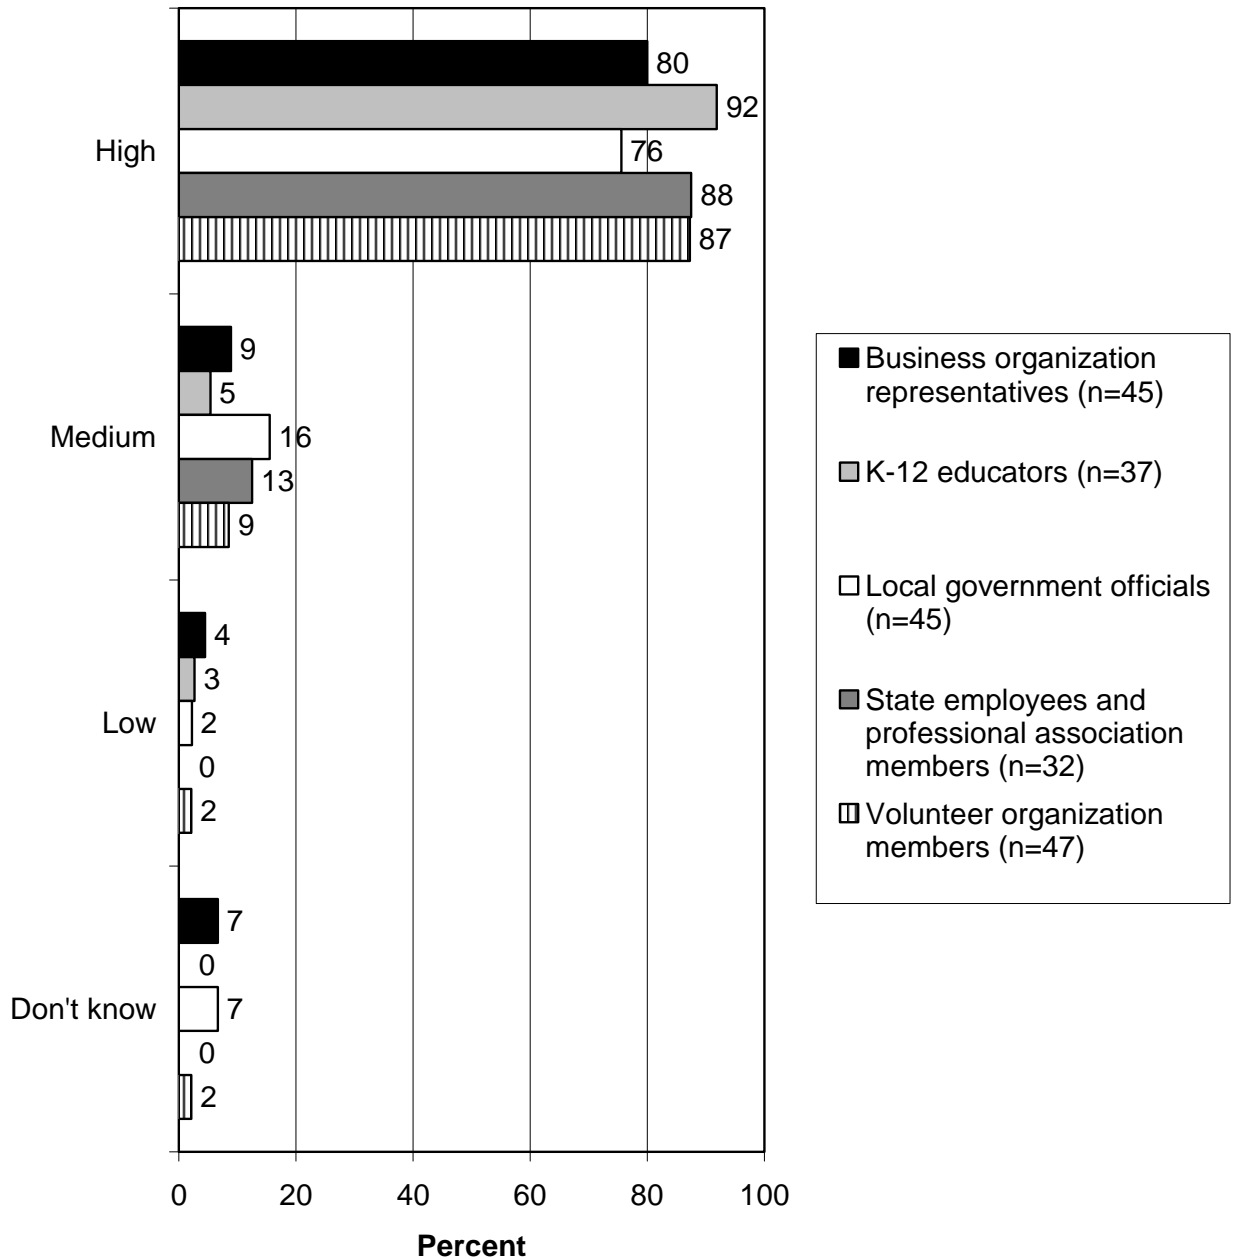

Q212. Please indicate if you think there is a high, medium, or low need for boards of selectmen to receive coastal resource information and professional development in New Jersey?

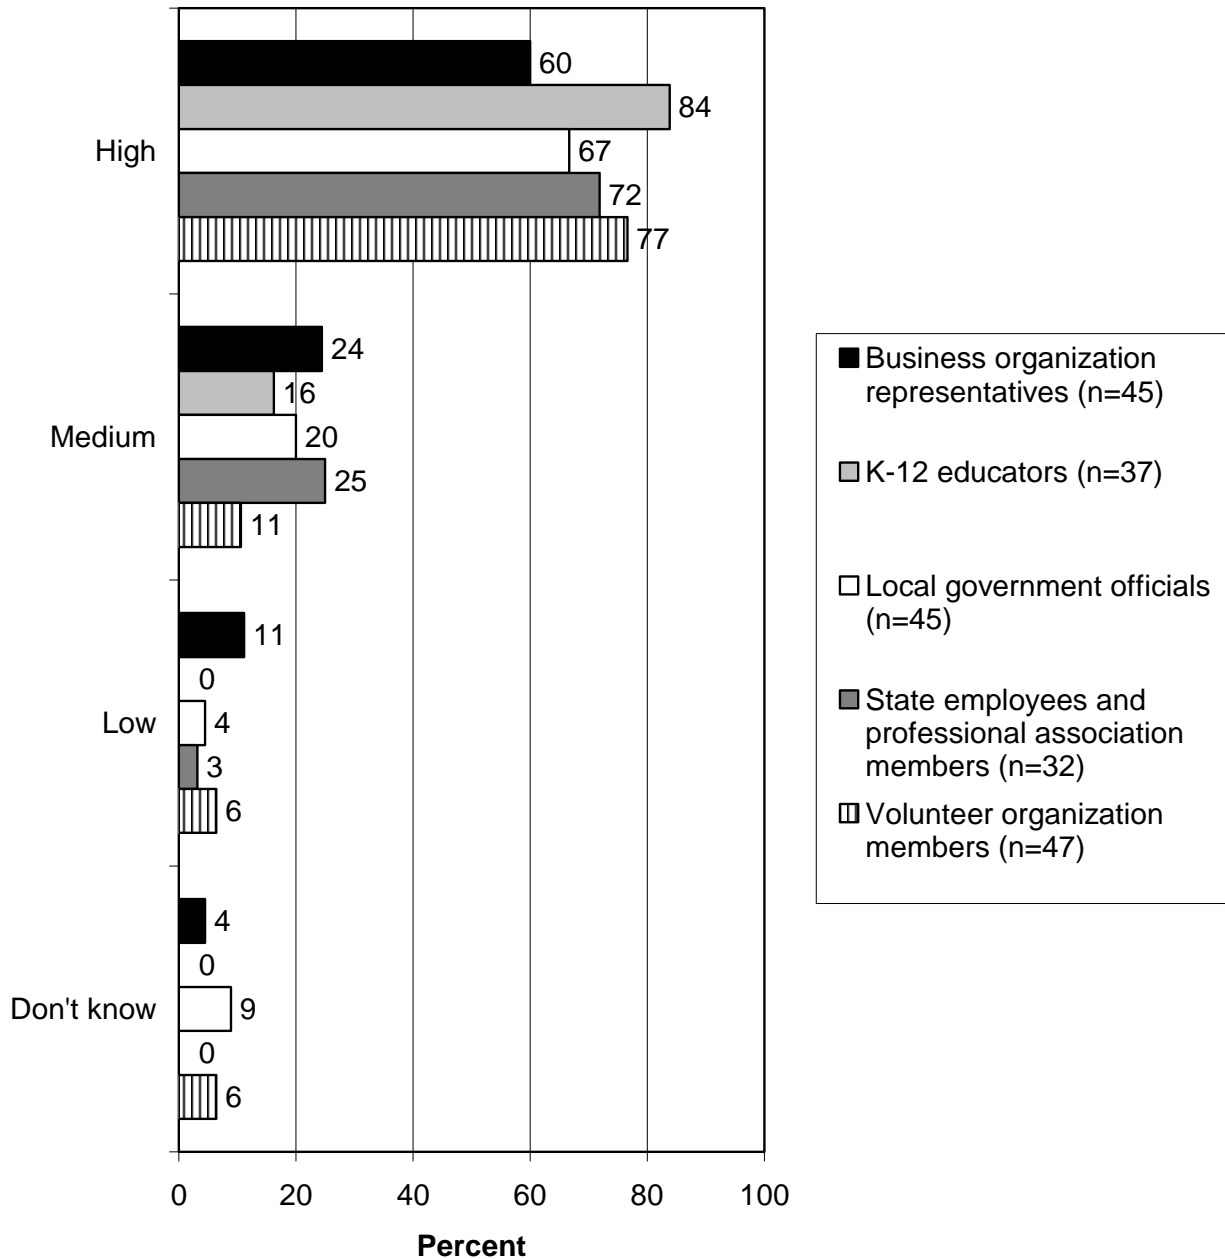

Q213. Please indicate if you think there is a high, medium, or low need for county commissioners to receive coastal resource information and professional development in New Jersey?

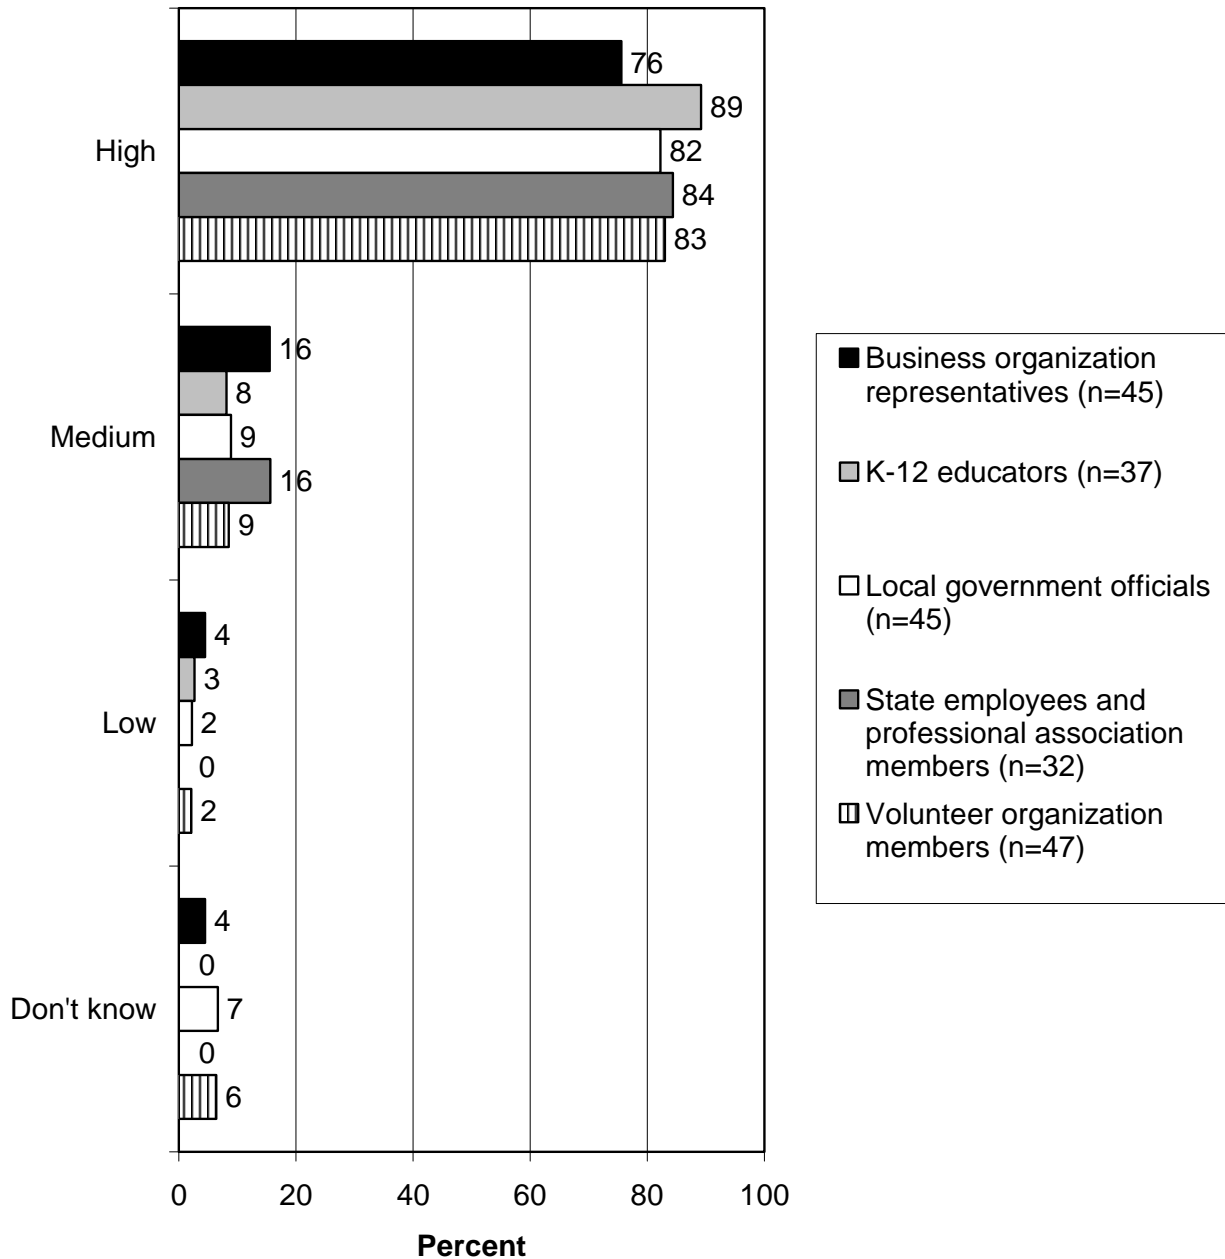

Q214. Please indicate if you think there is a high, medium, or low need for planning commission members to receive coastal resource information and professional development in New Jersey?

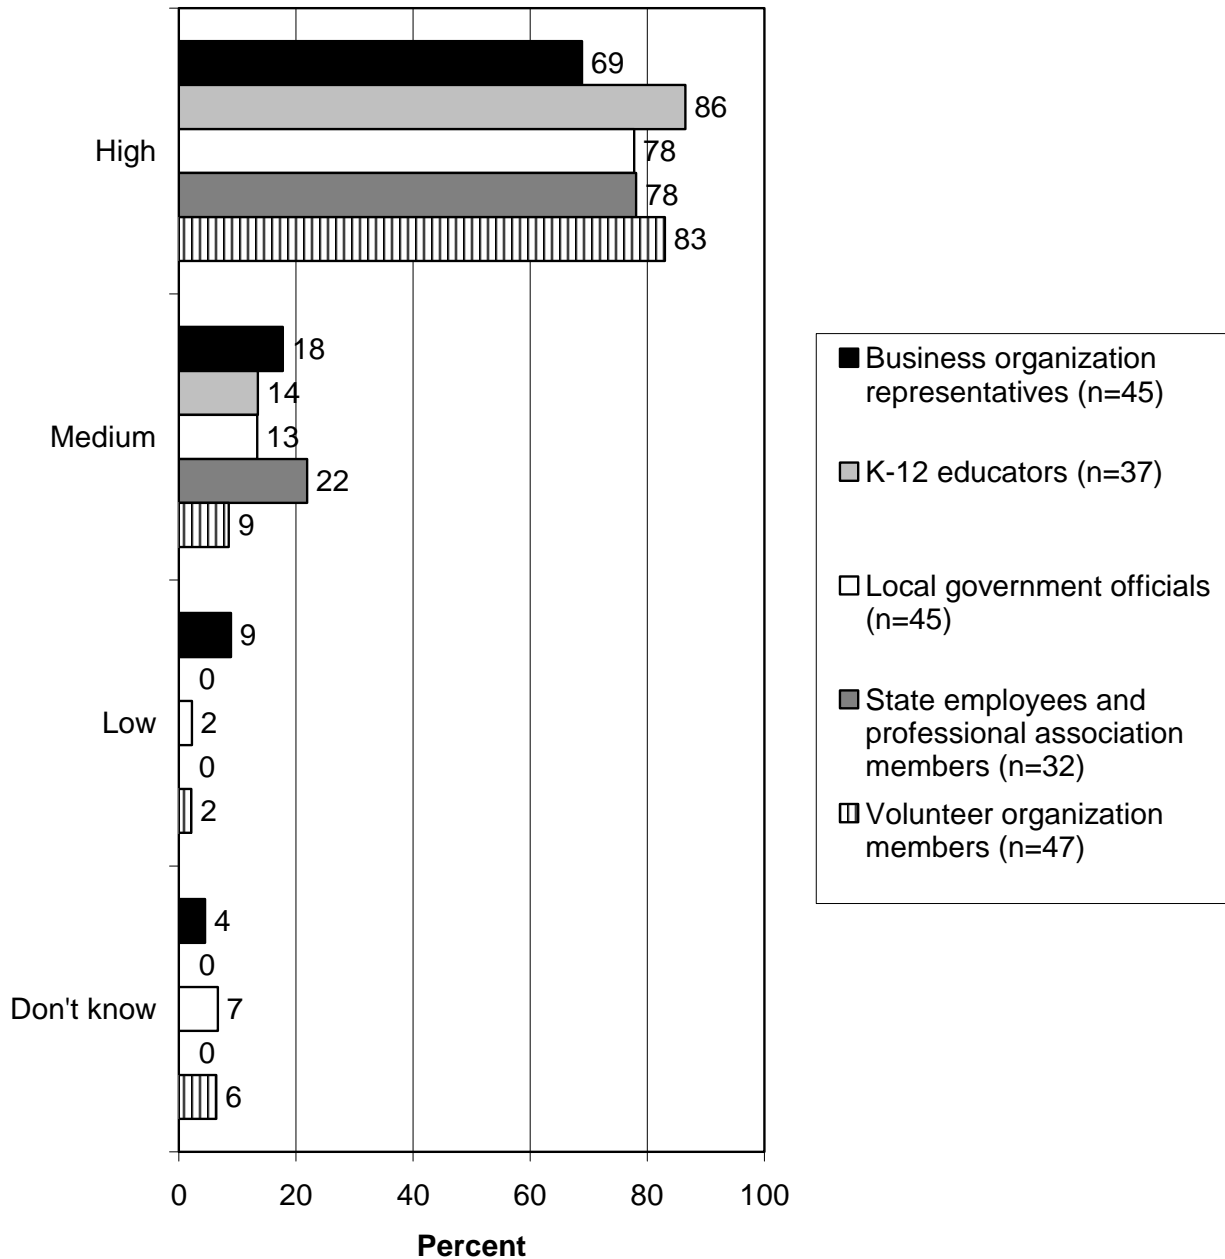

Q215. Please indicate if you think there is a high, medium, or low need for city/town managers to receive coastal resource information and professional development in New Jersey?

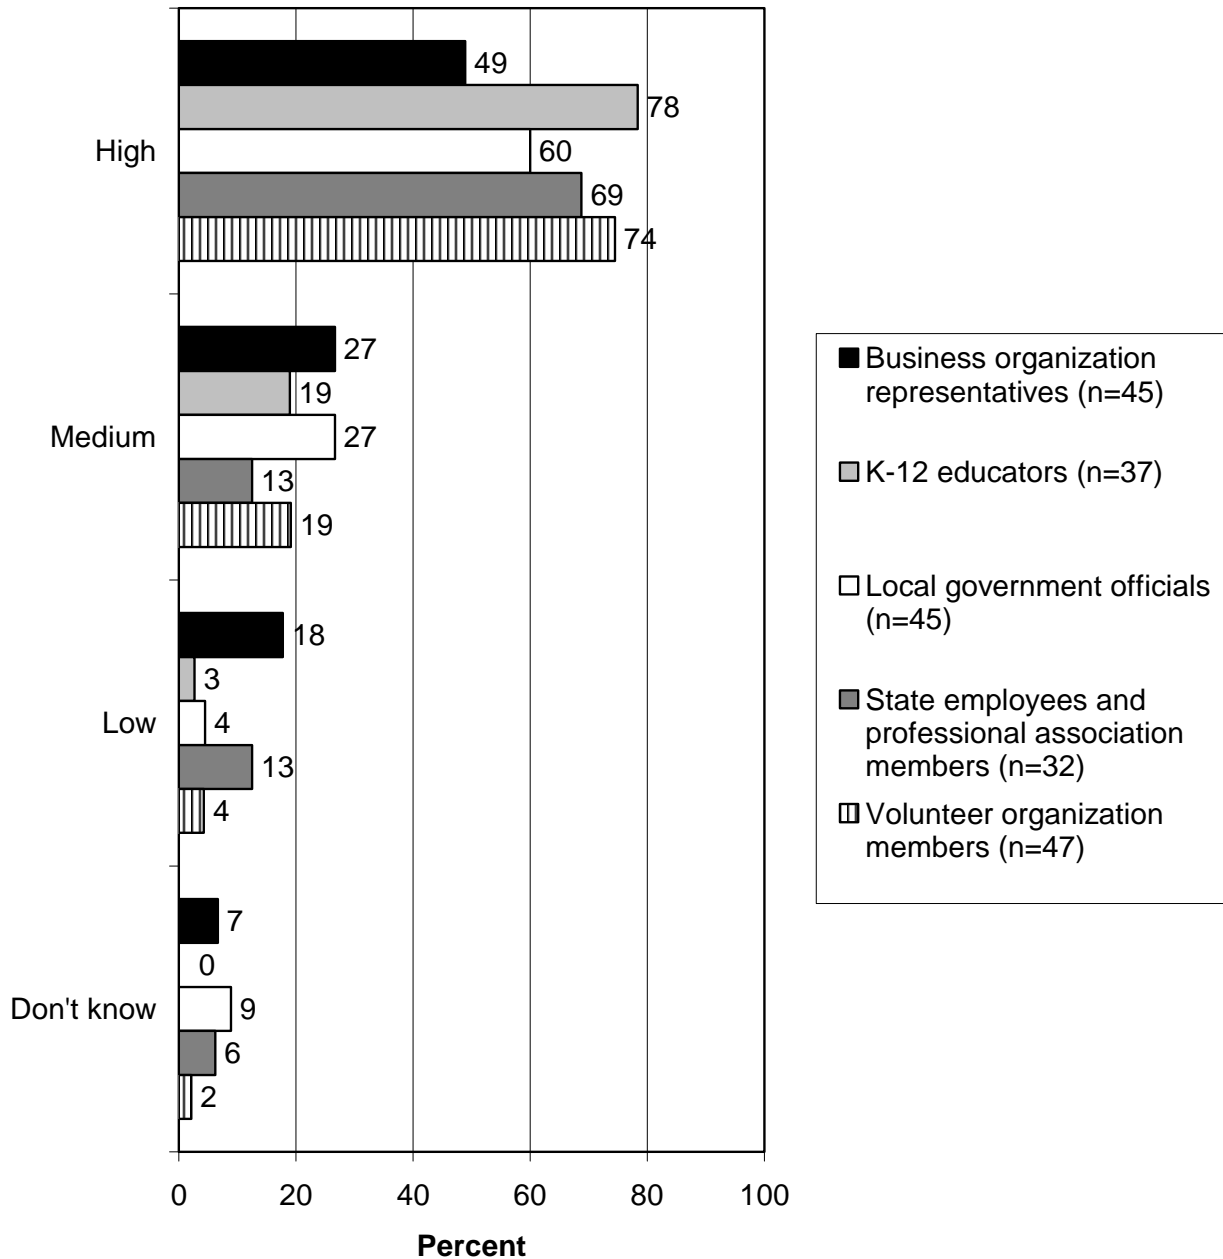

Q216. Please indicate if you think there is a high, medium, or low need for city/town planners to receive coastal resource information and professional development in New Jersey?

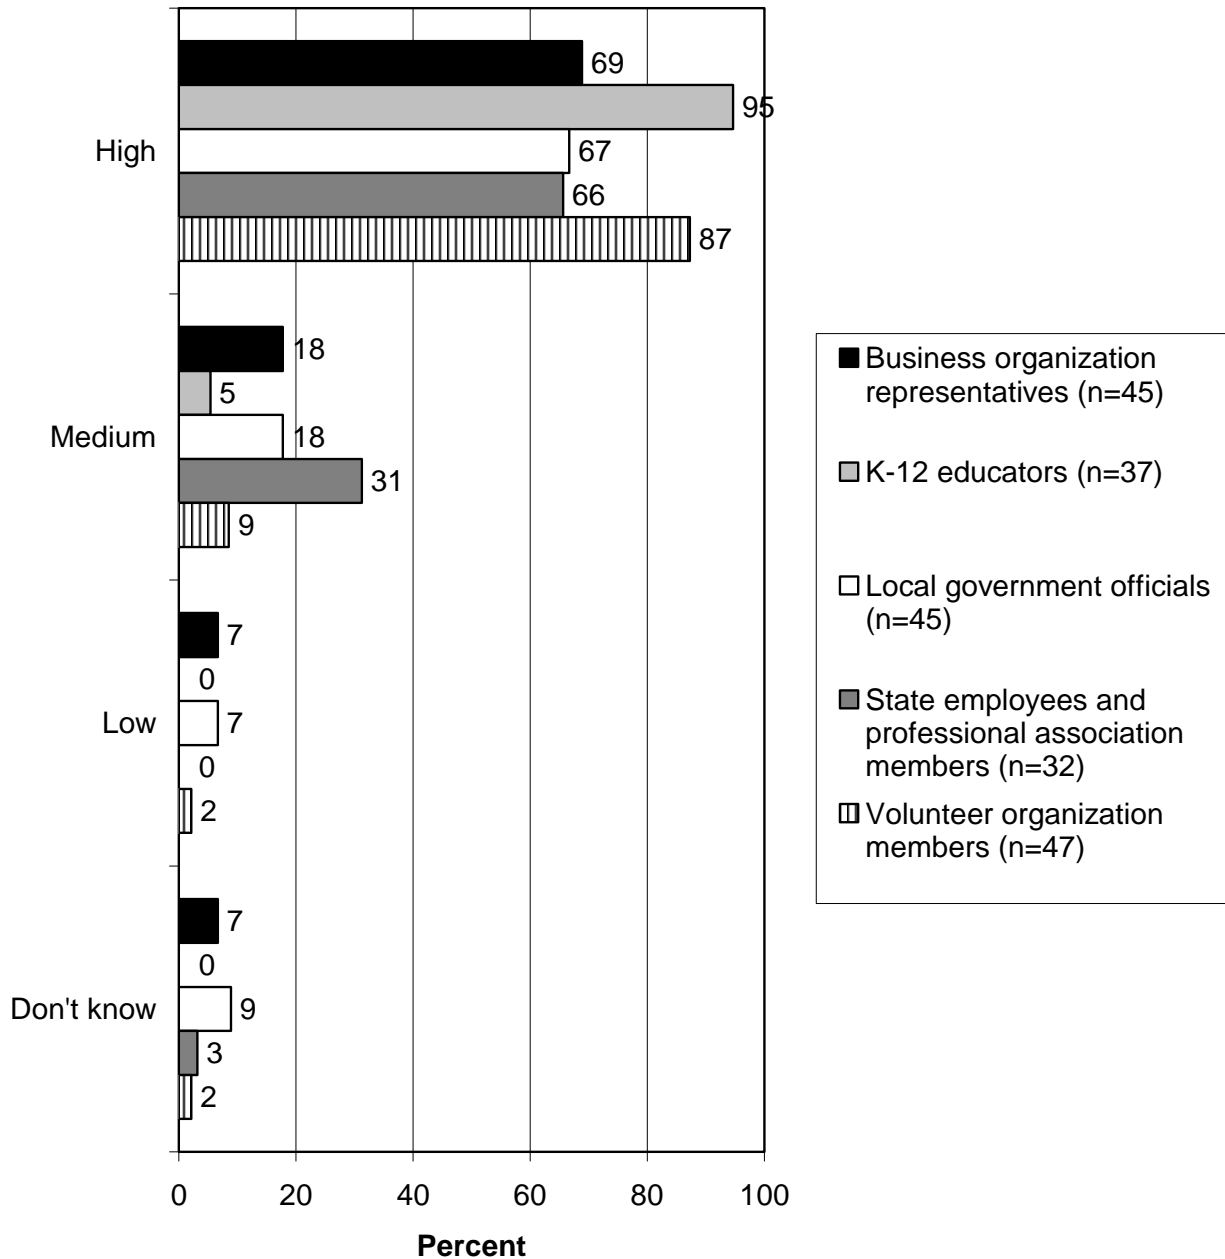

Q217. Please indicate if you think there is a high, medium, or low need for city/town engineers to receive coastal resource information and professional development in New Jersey?

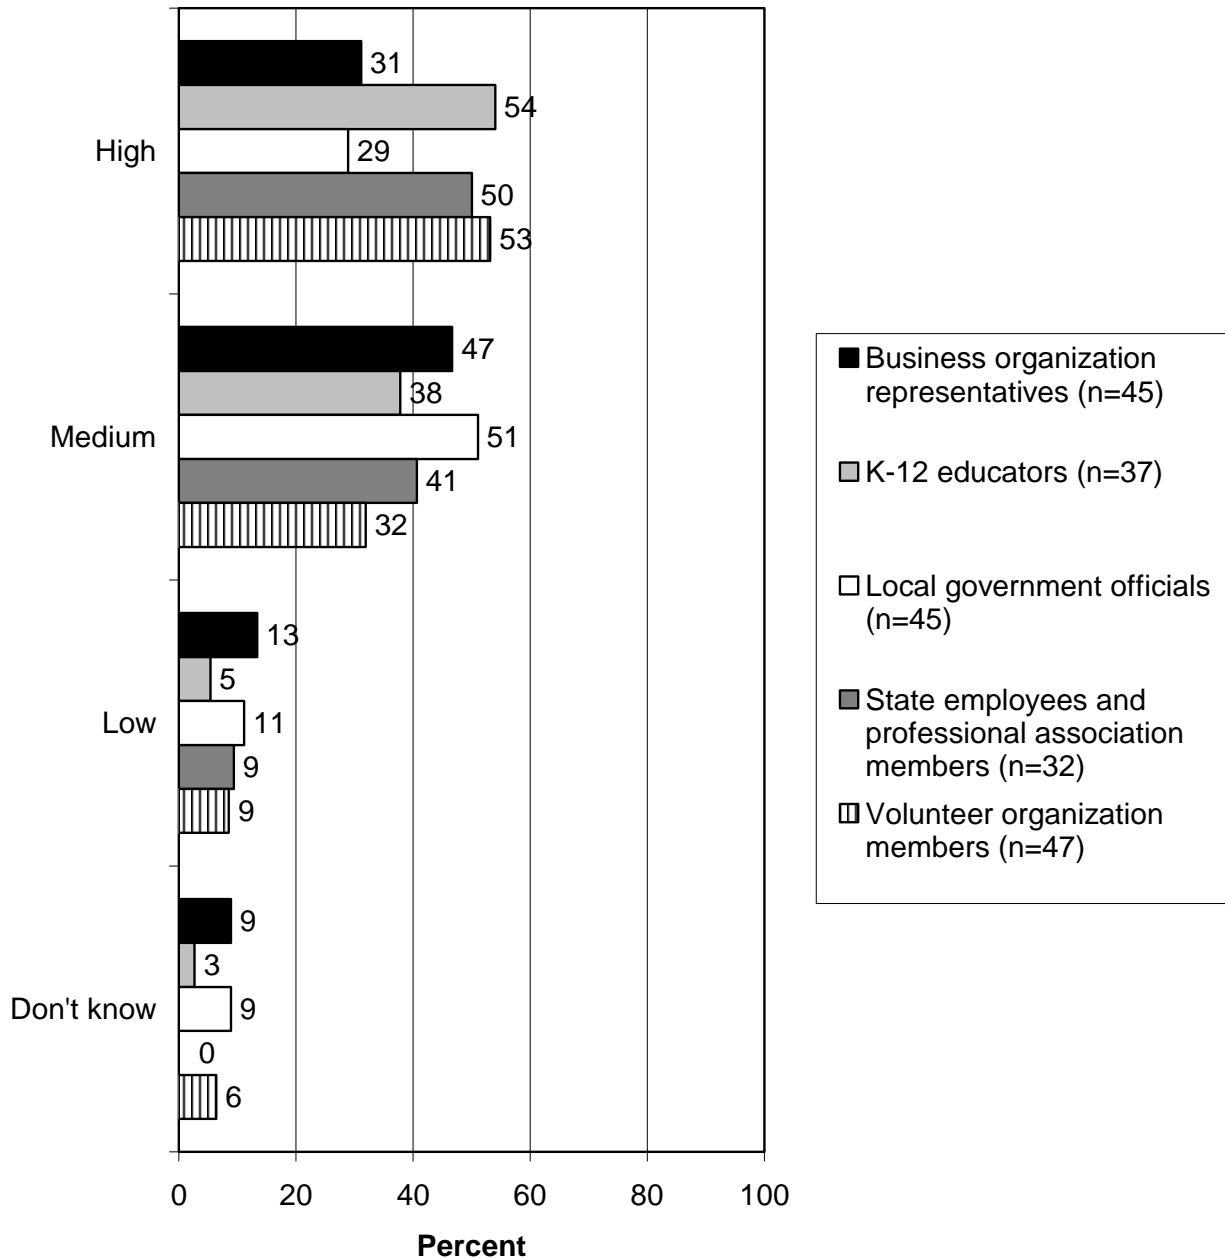

Q218. Please indicate if you think there is a high, medium, or low need for code enforcement officers to receive coastal resource information and professional development in New Jersey?

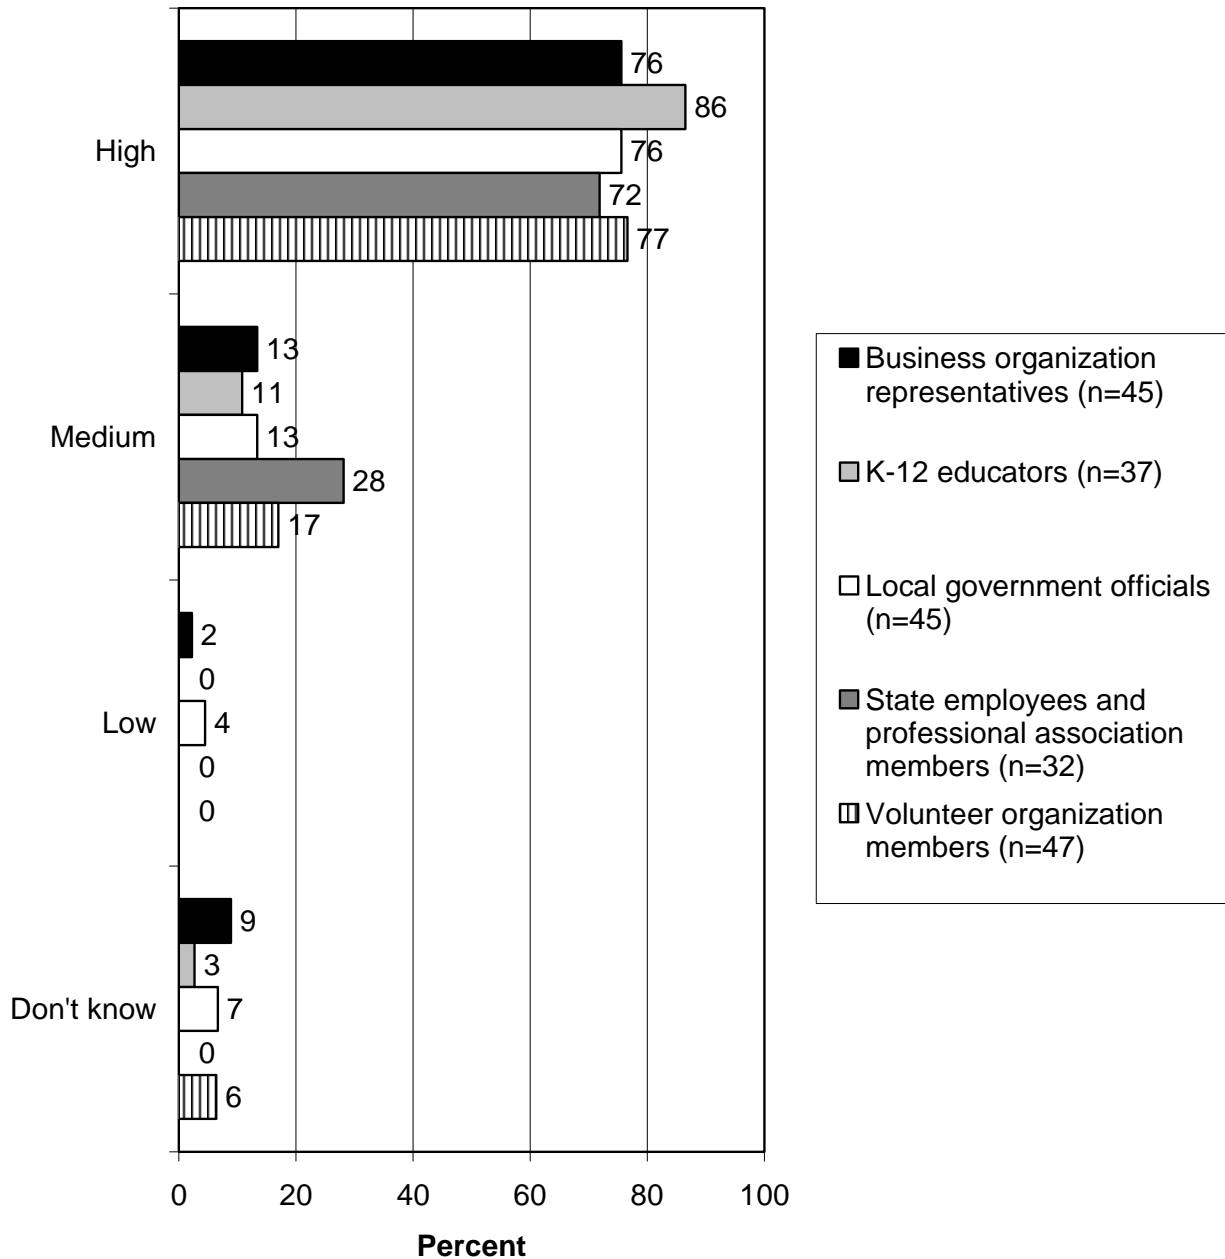

Q219. Please indicate if you think there is a high, medium, or low need for environmental health officials to receive coastal resource information and professional development in New Jersey?

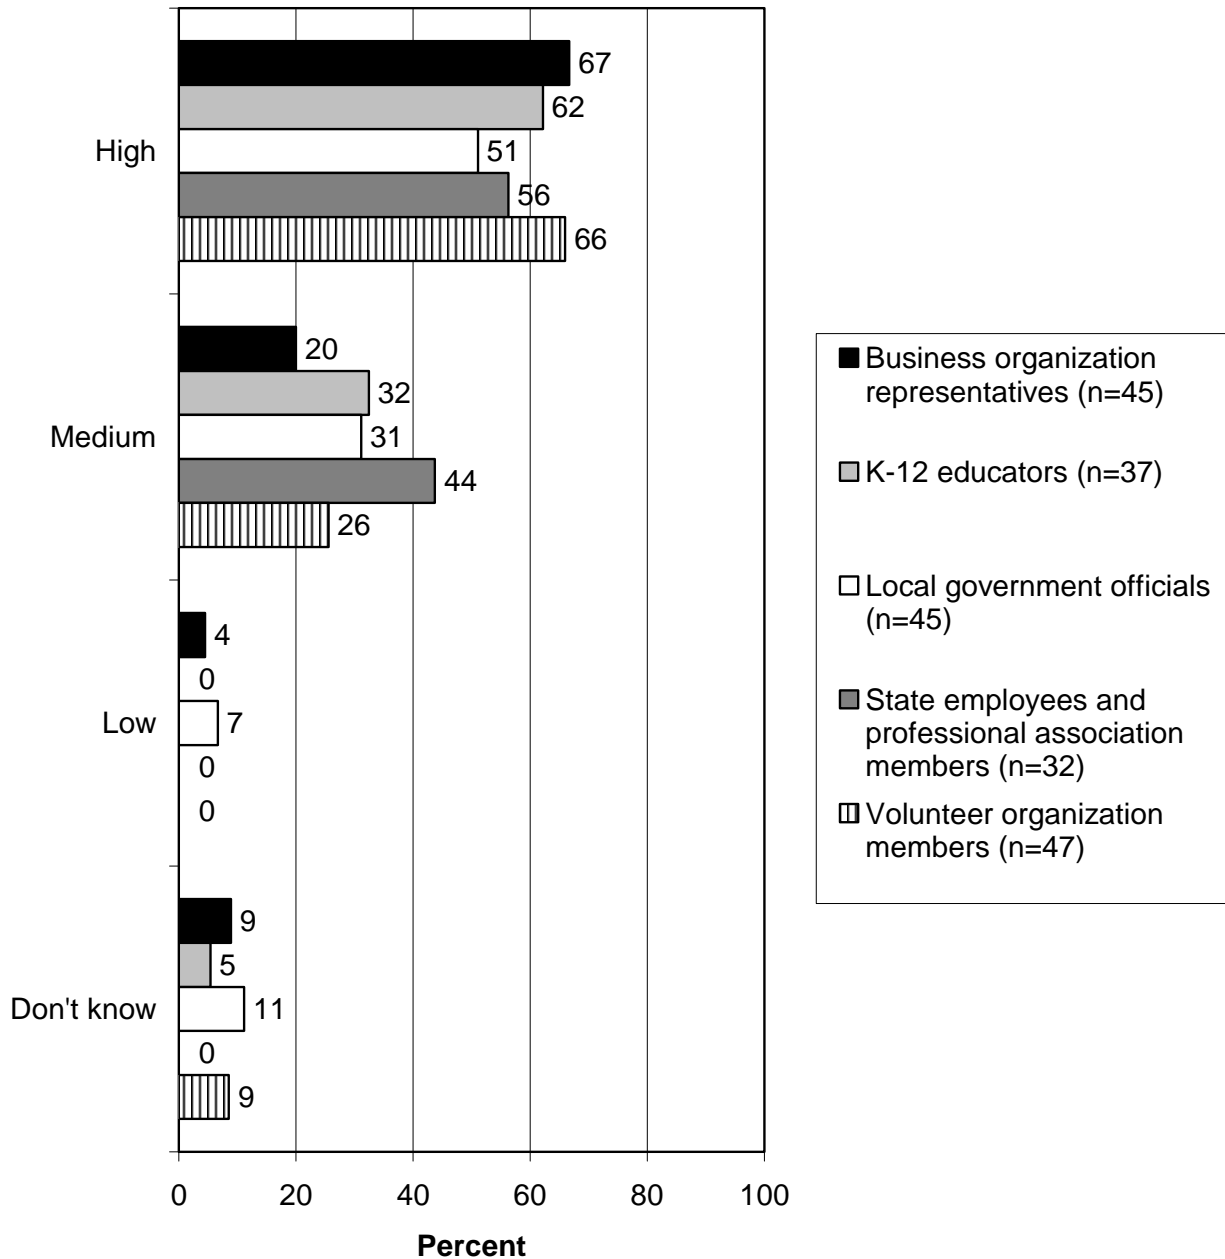

Q220. Please indicate if you think there is a high, medium, or low need for transportation officials to receive coastal resource information and professional development in New Jersey?

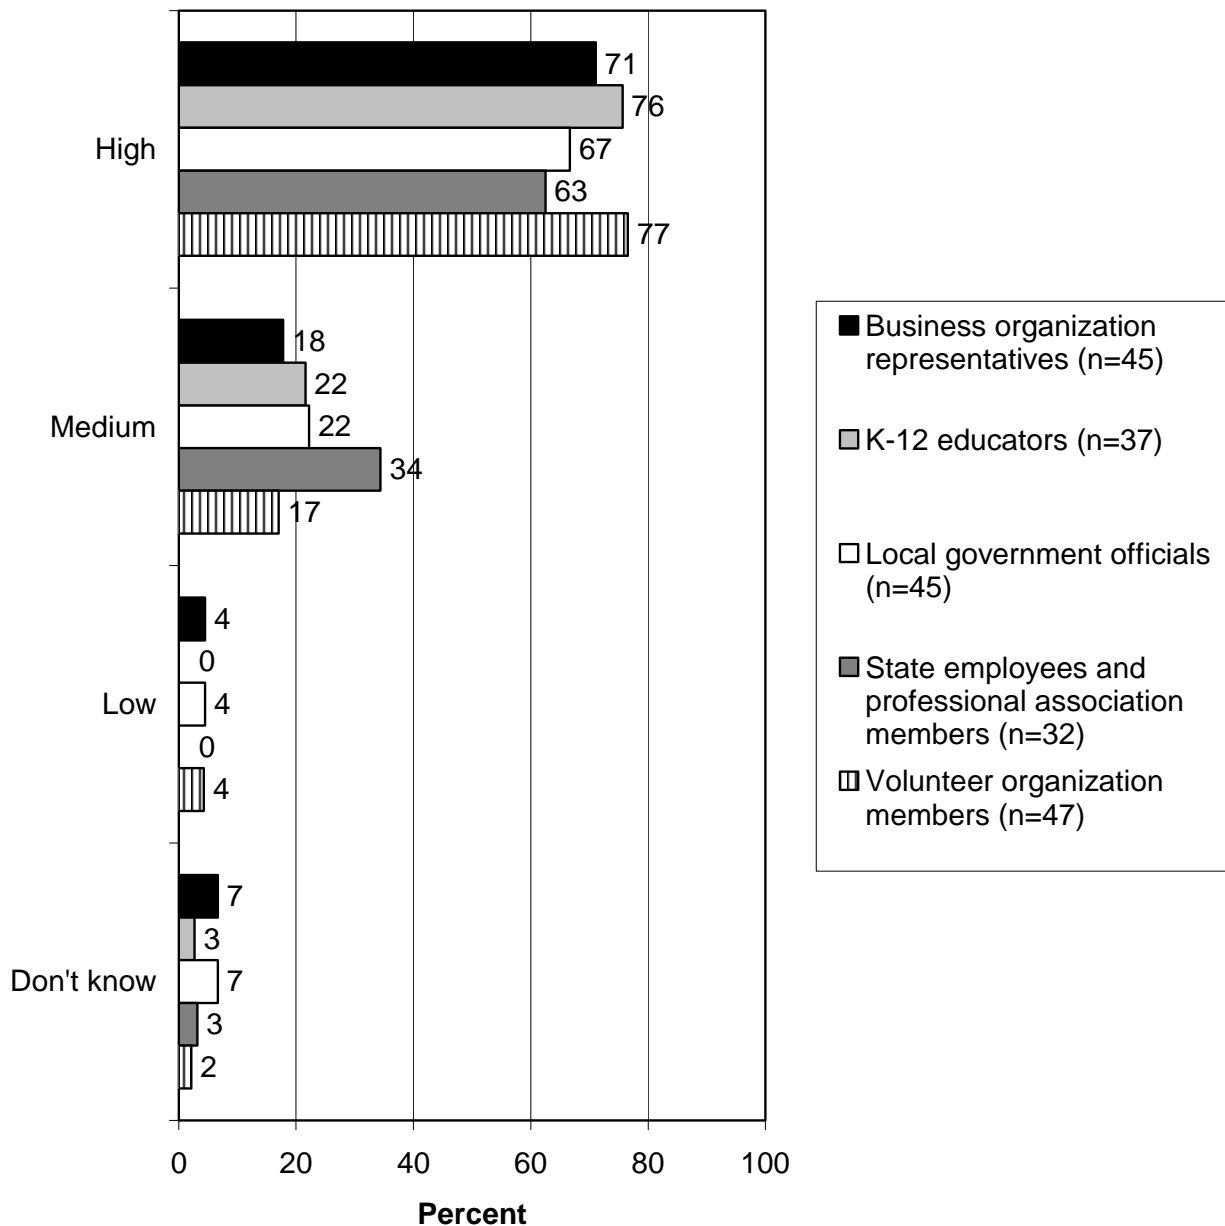

Q221. Please indicate if you think there is a high, medium, or low need for conservation commissions to receive coastal resource information and professional development in New Jersey?

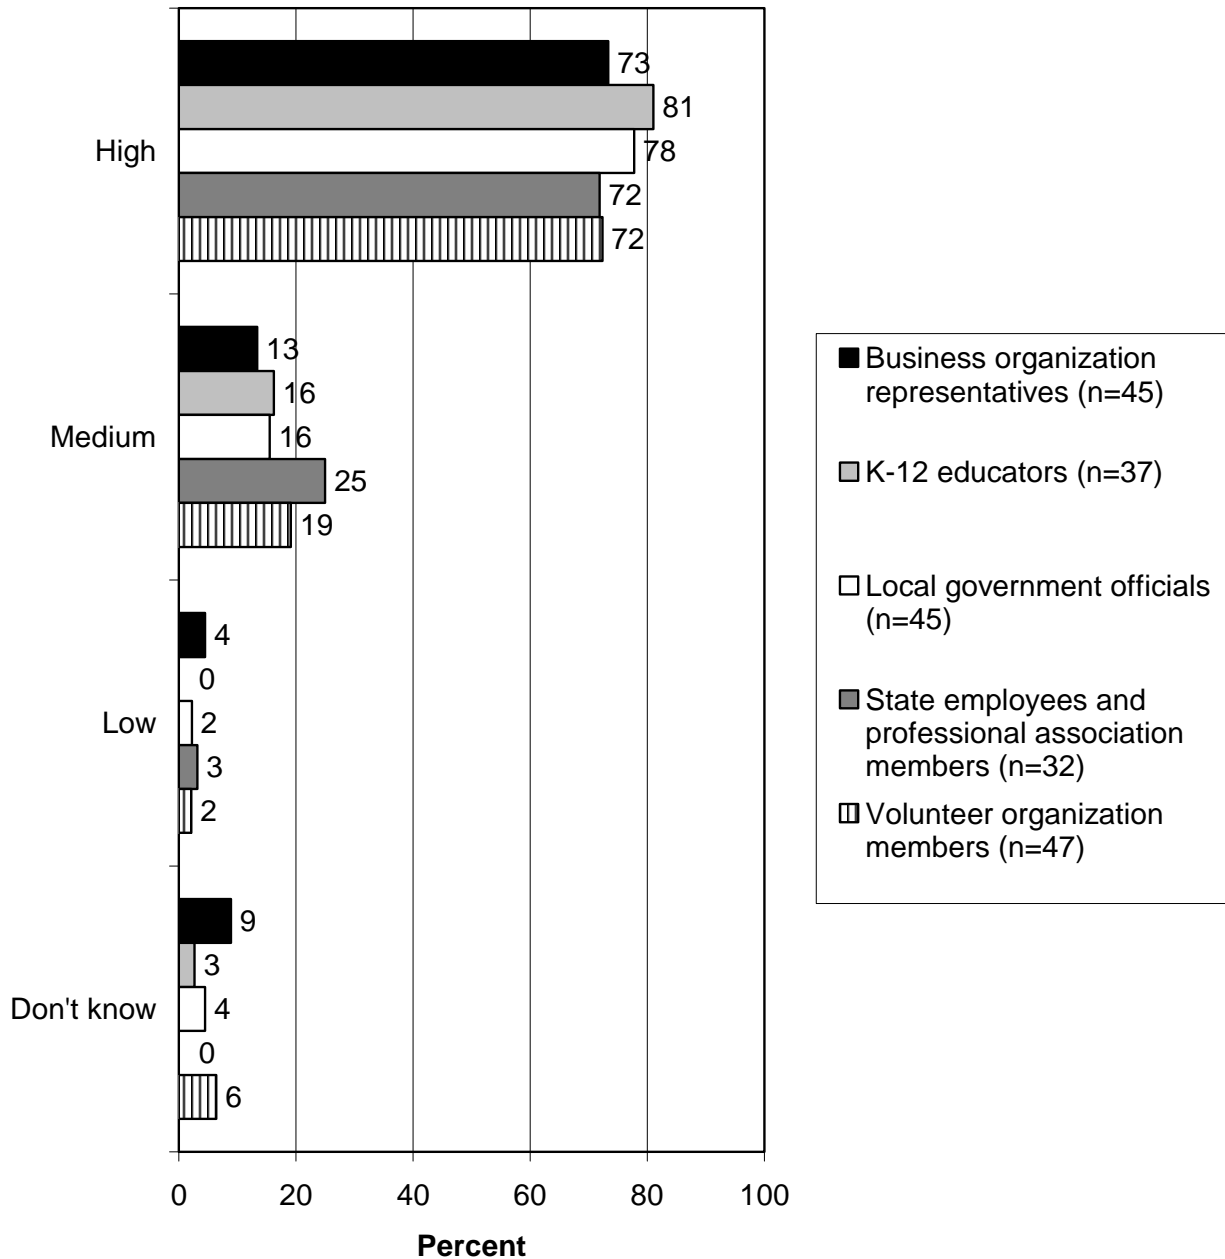

Q222. Please indicate if you think there is a high, medium, or low need for land trusts to receive coastal resource information and professional development in New Jersey?

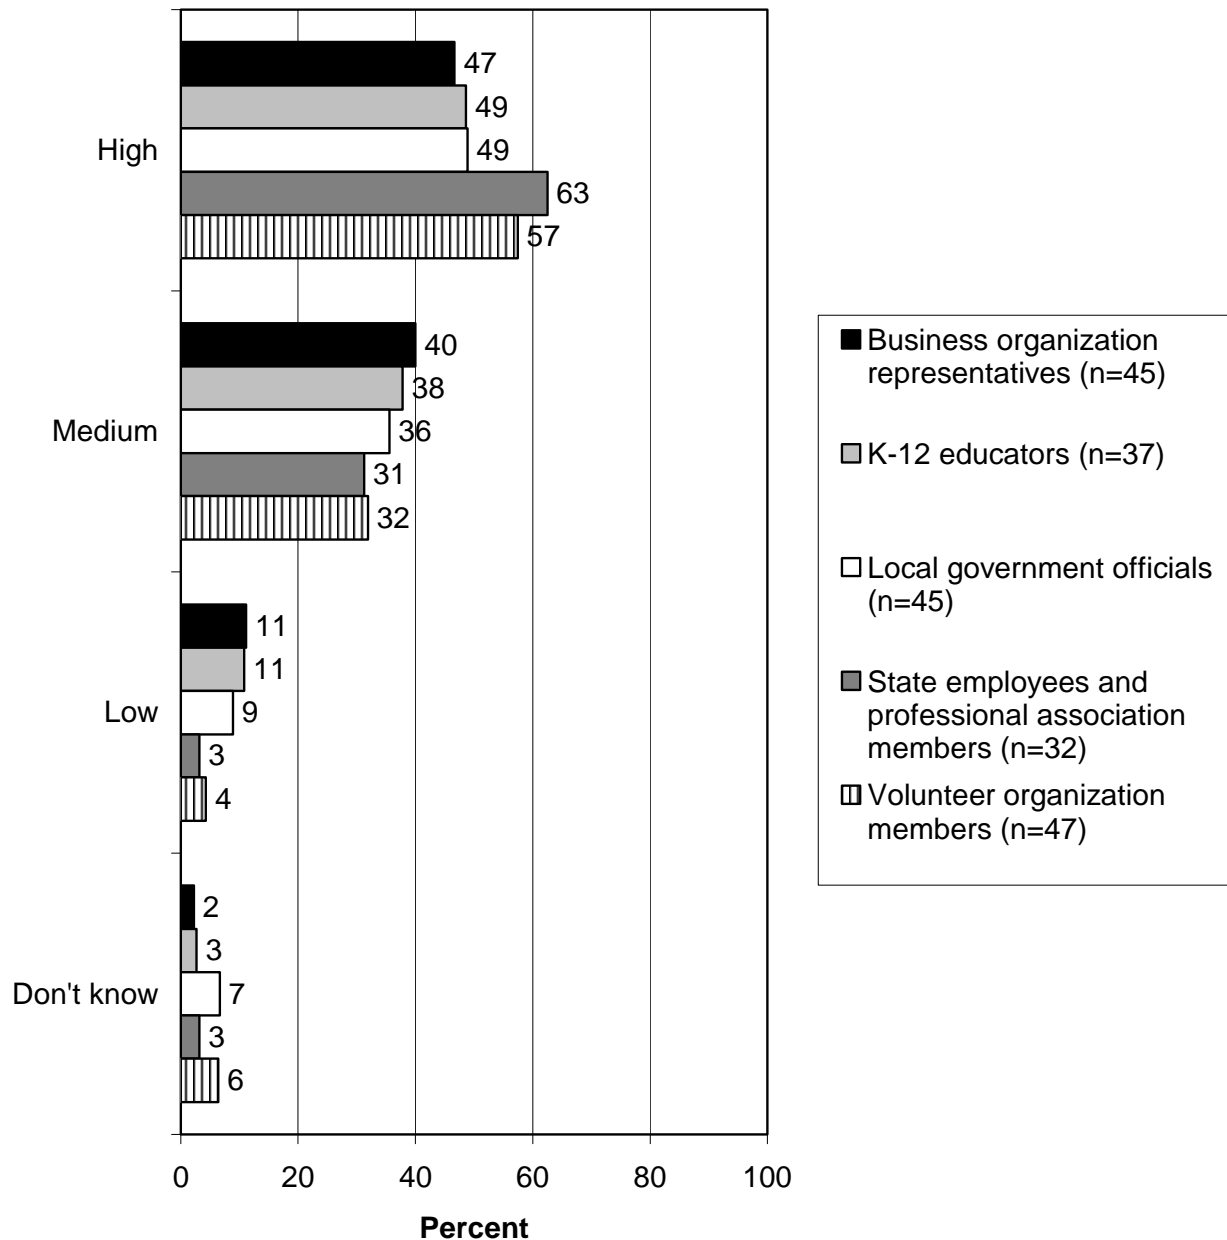

Q223. Please indicate if you think there is a high, medium, or low need for chapters of environmental organizations to receive coastal resource information and professional development in New Jersey?

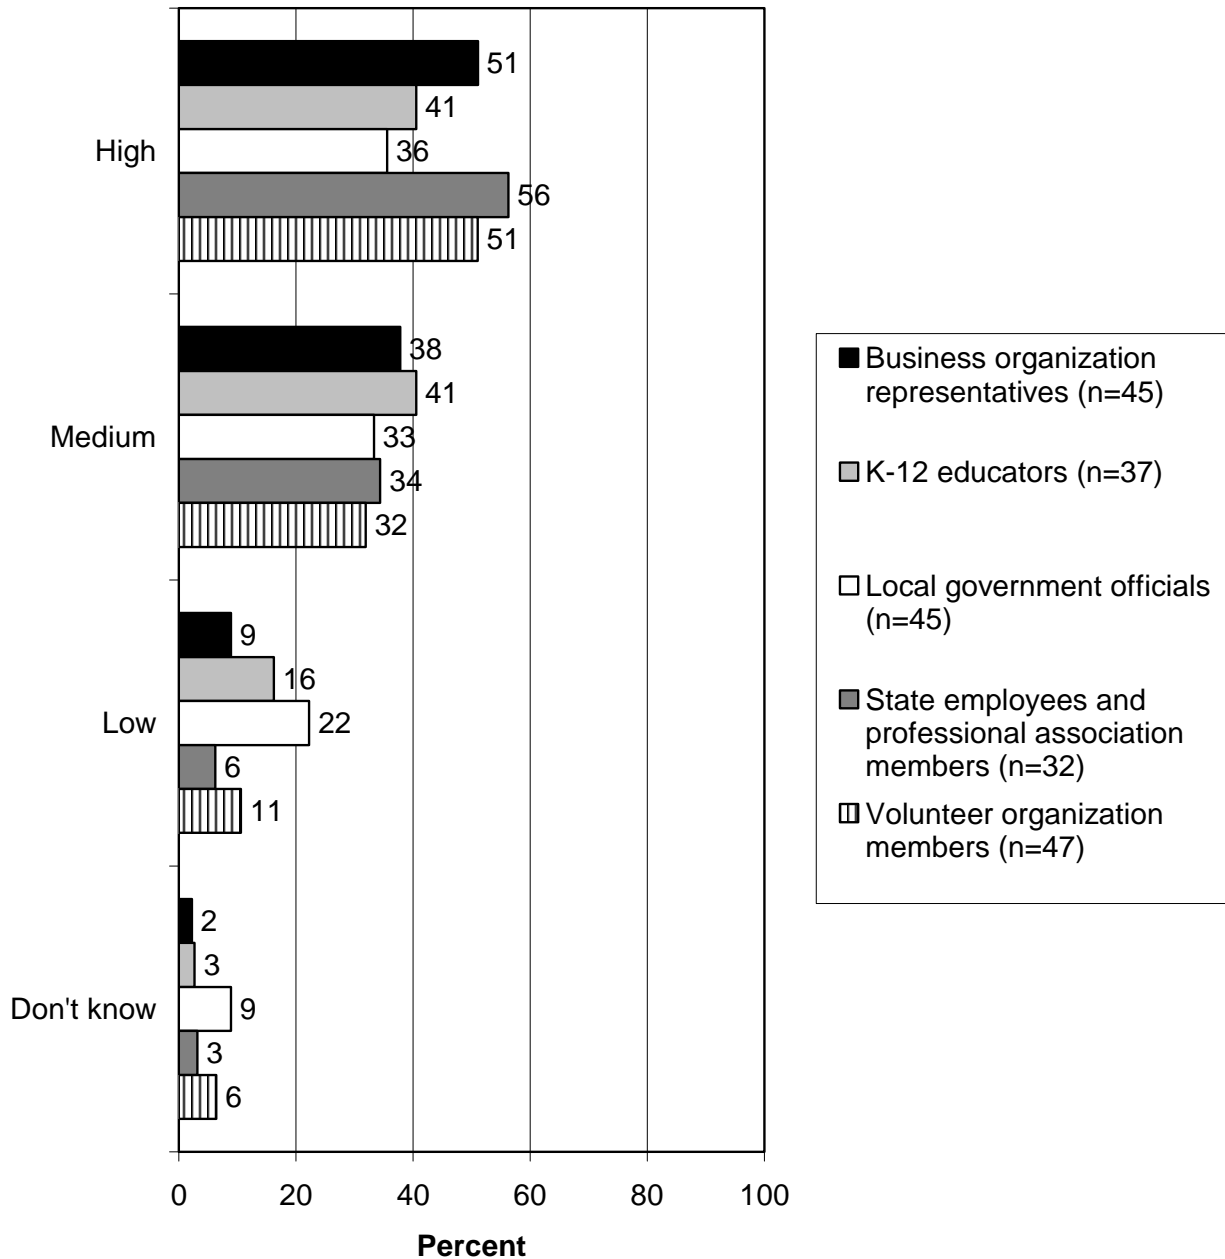

Q224. Please indicate if you think there is a high, medium, or low need for watershed associations to receive coastal resource information and professional development in New Jersey?

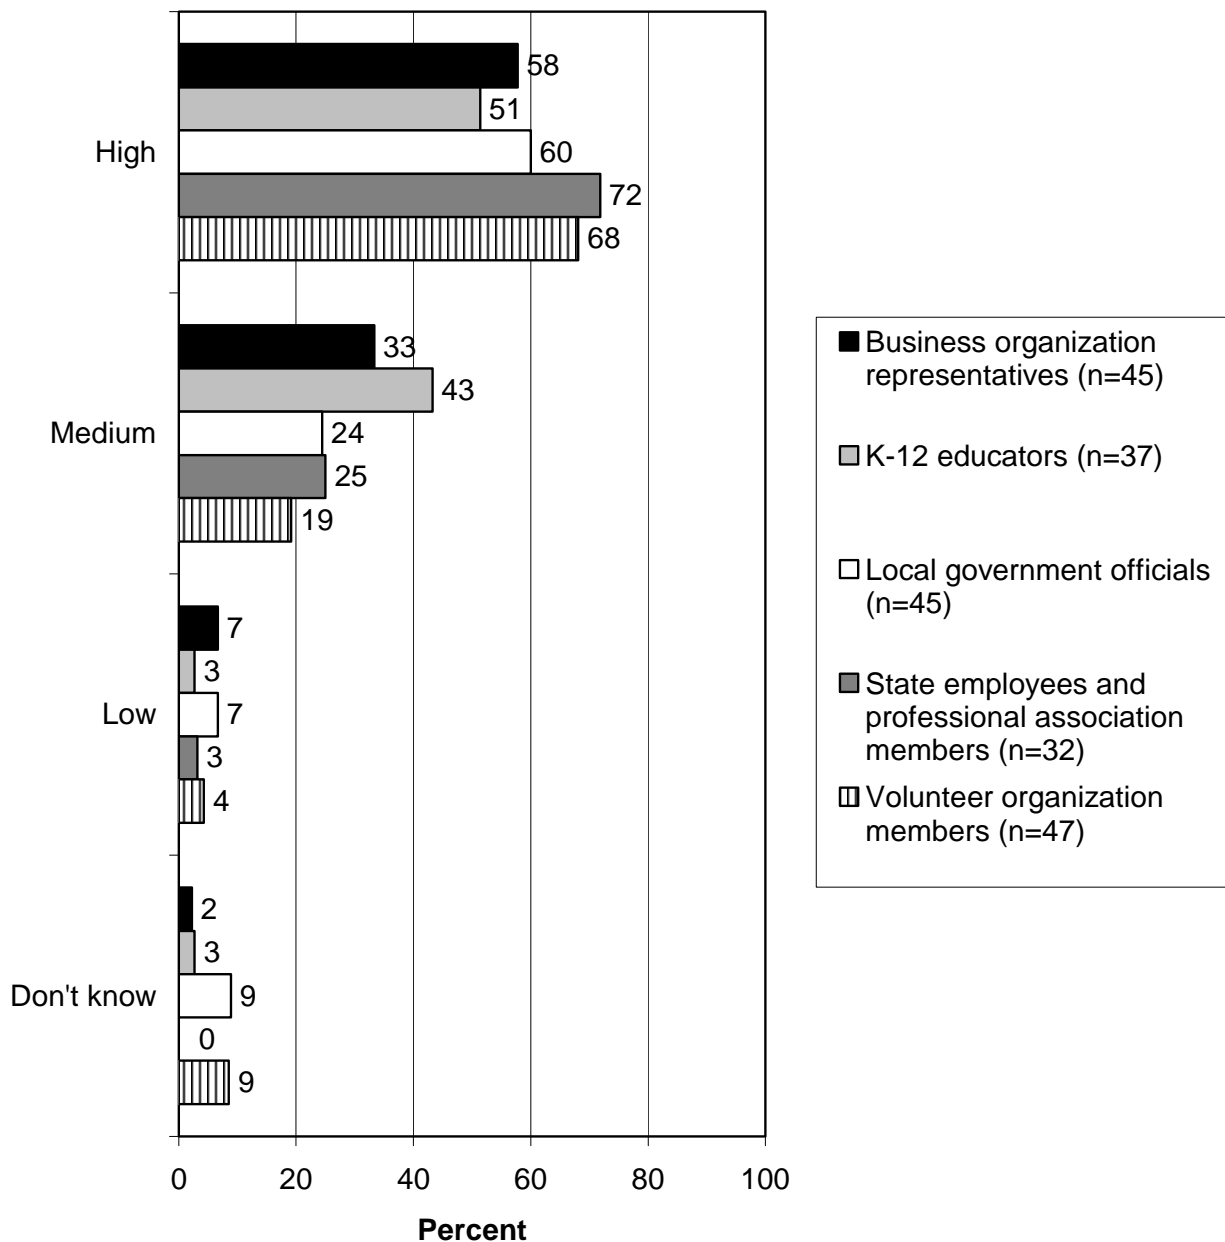

Q225. Please indicate if you think there is a high, medium, or low need for property owners associations to receive coastal resource information and professional development in New Jersey?

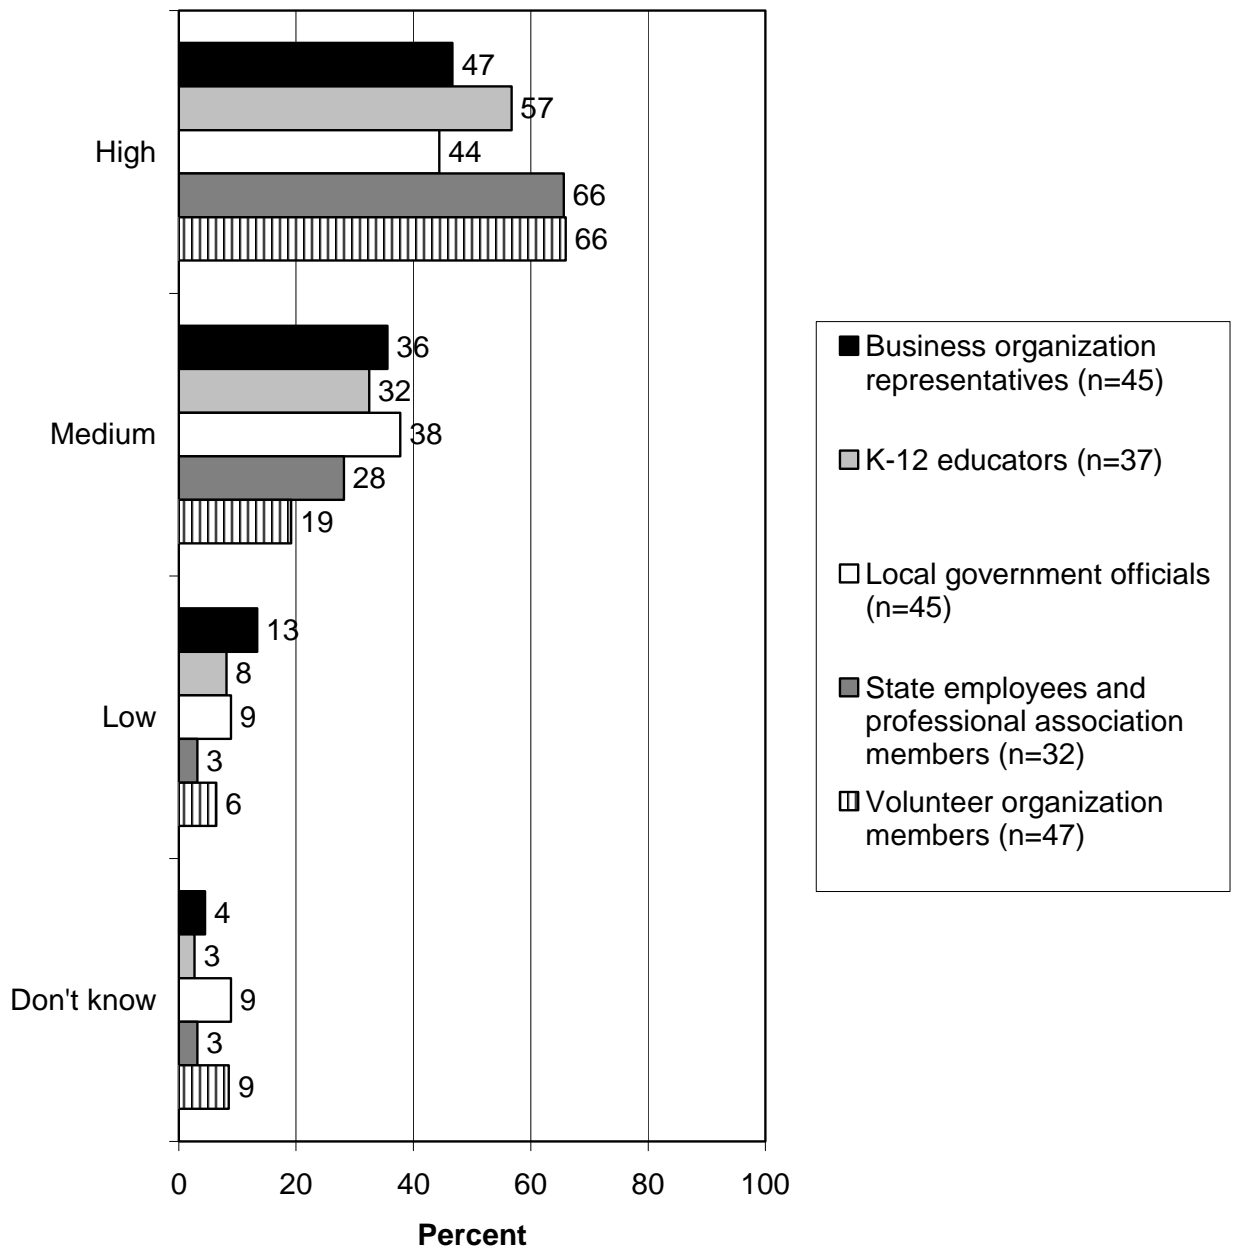

Q226. Please indicate if you think there is a high, medium, or low need for realty associations to receive coastal resource information and professional development in New Jersey?

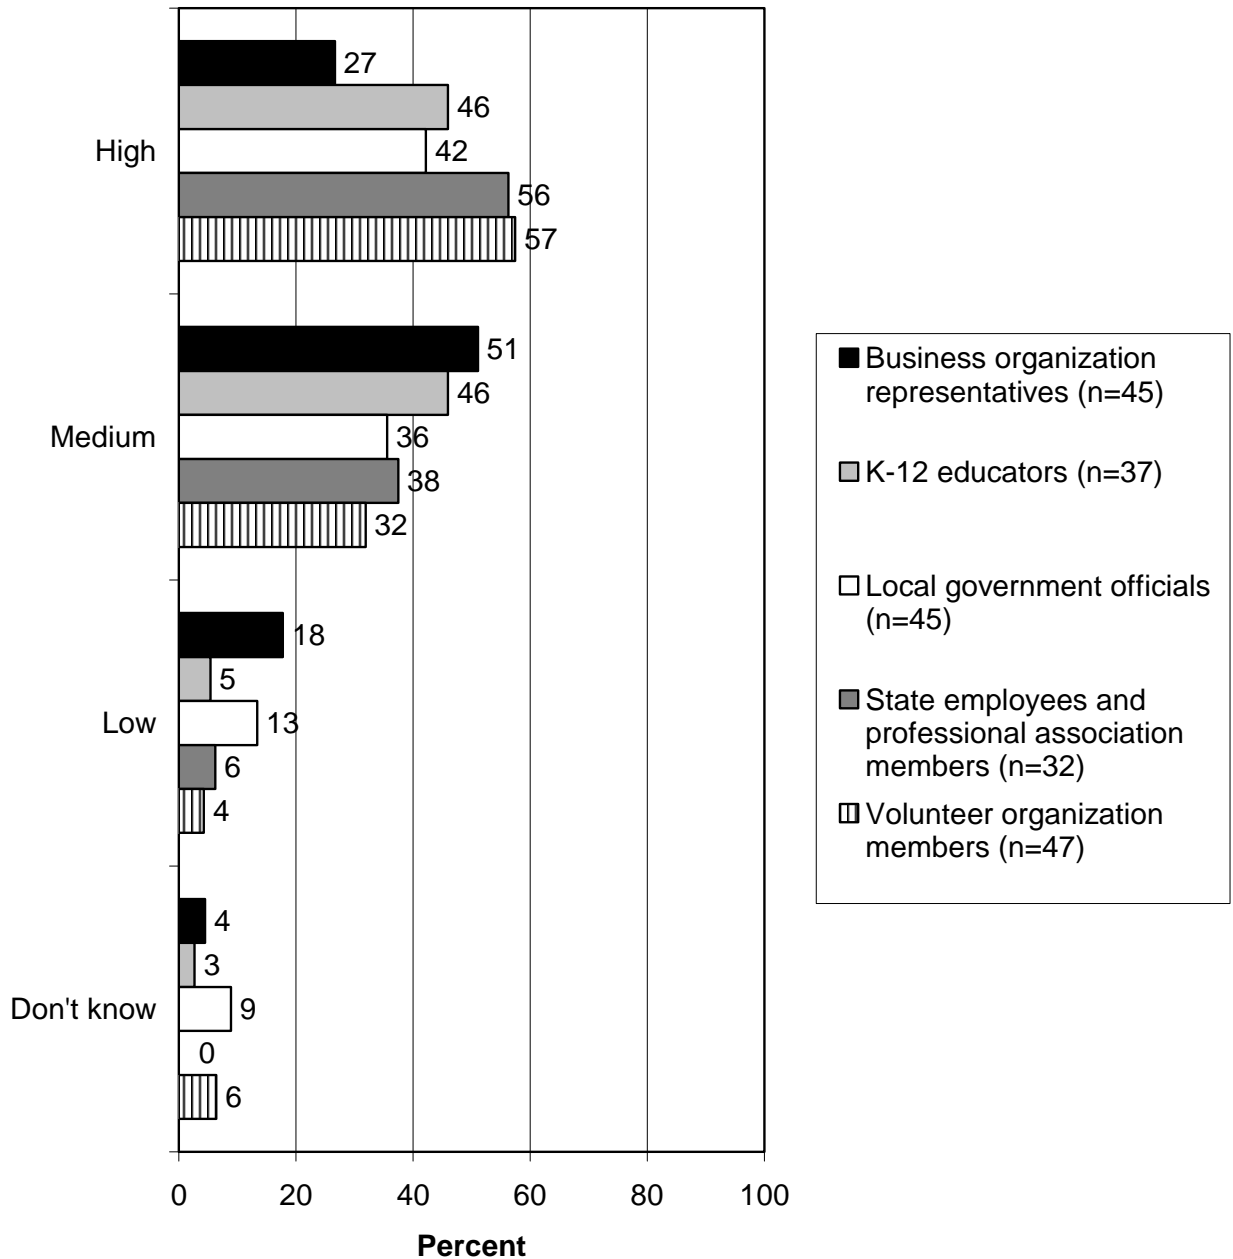

Q227. Please indicate if you think there is a high, medium, or low need for building/development associations to receive coastal resource information and professional development in New Jersey?

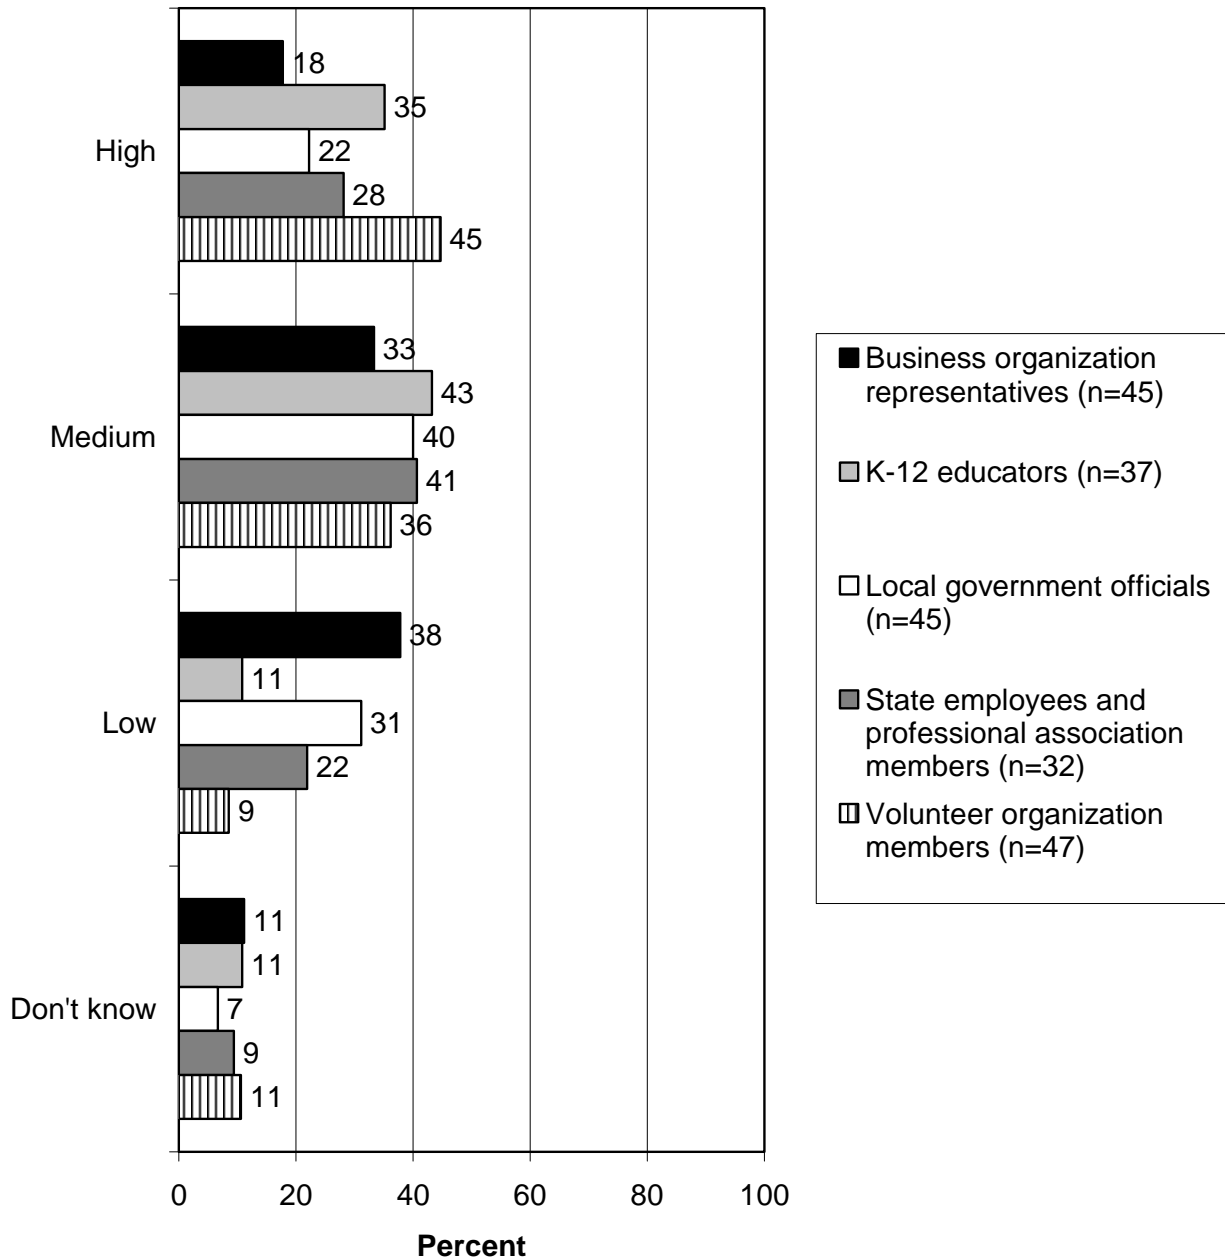

Q228. Please indicate if you think there is a high, medium, or low need for commercial property owners associations to receive coastal resource information and professional development in New Jersey?

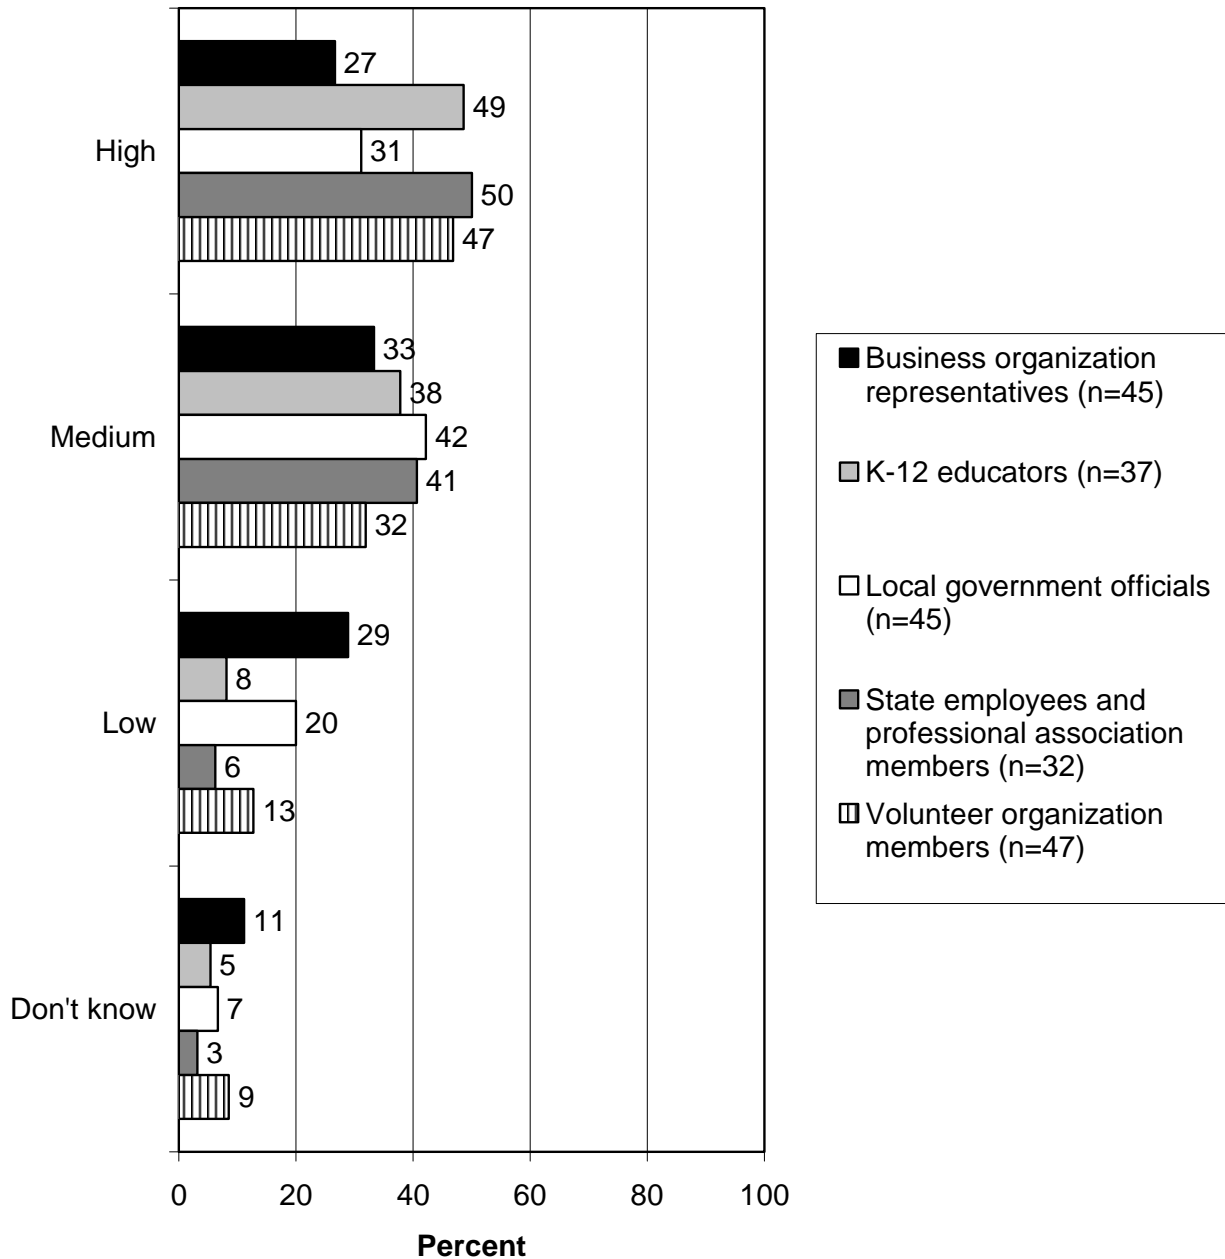

Q229. Please indicate if you think there is a high, medium, or low need for chambers of commerce to receive coastal resource information and professional development in New Jersey?

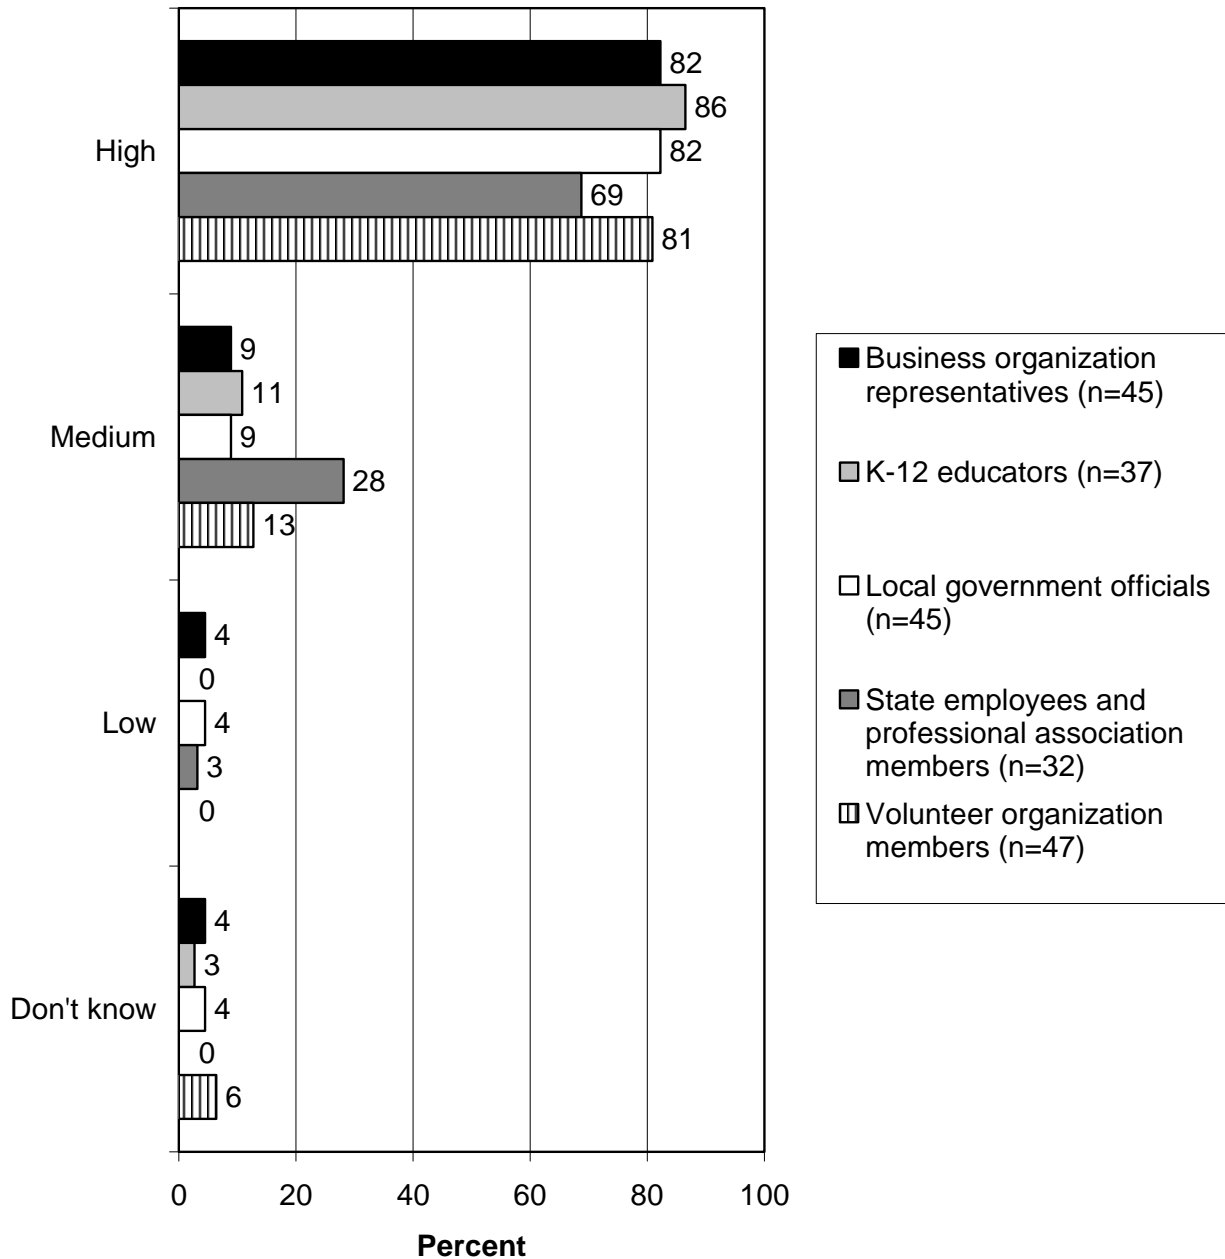

Q230. Please indicate if you think there is a high, medium, or low need for Rotary International to receive coastal resource information and professional development in New Jersey?

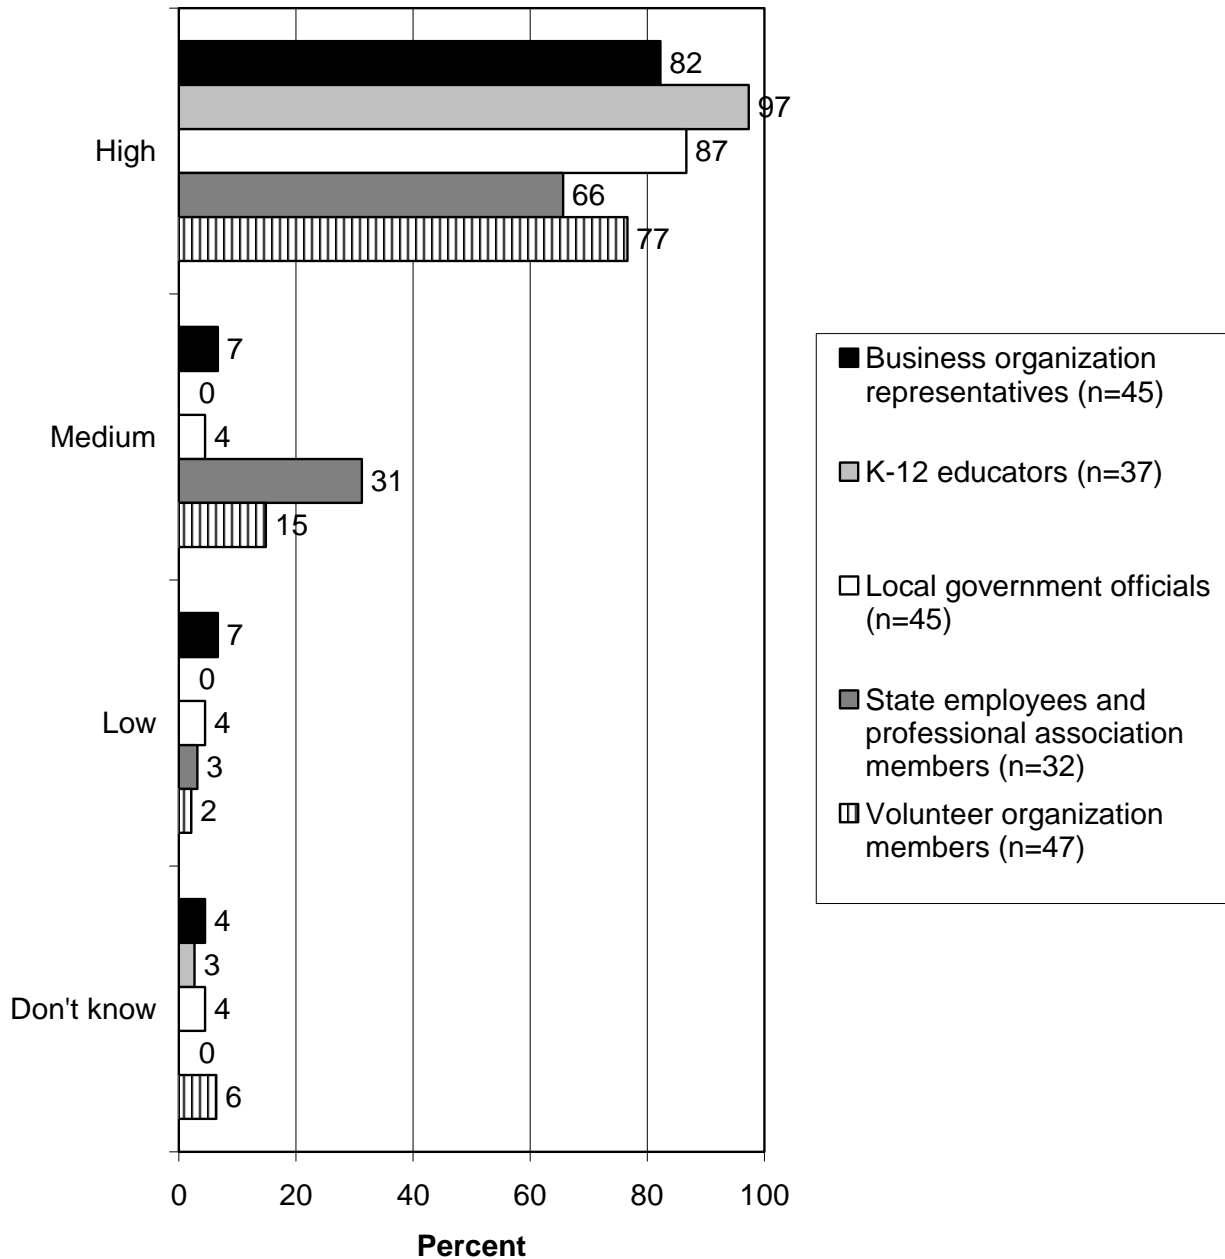

Q231. Please indicate if you think there is a high, medium, or low need for tourist boards to receive coastal resource information and professional development in New Jersey?

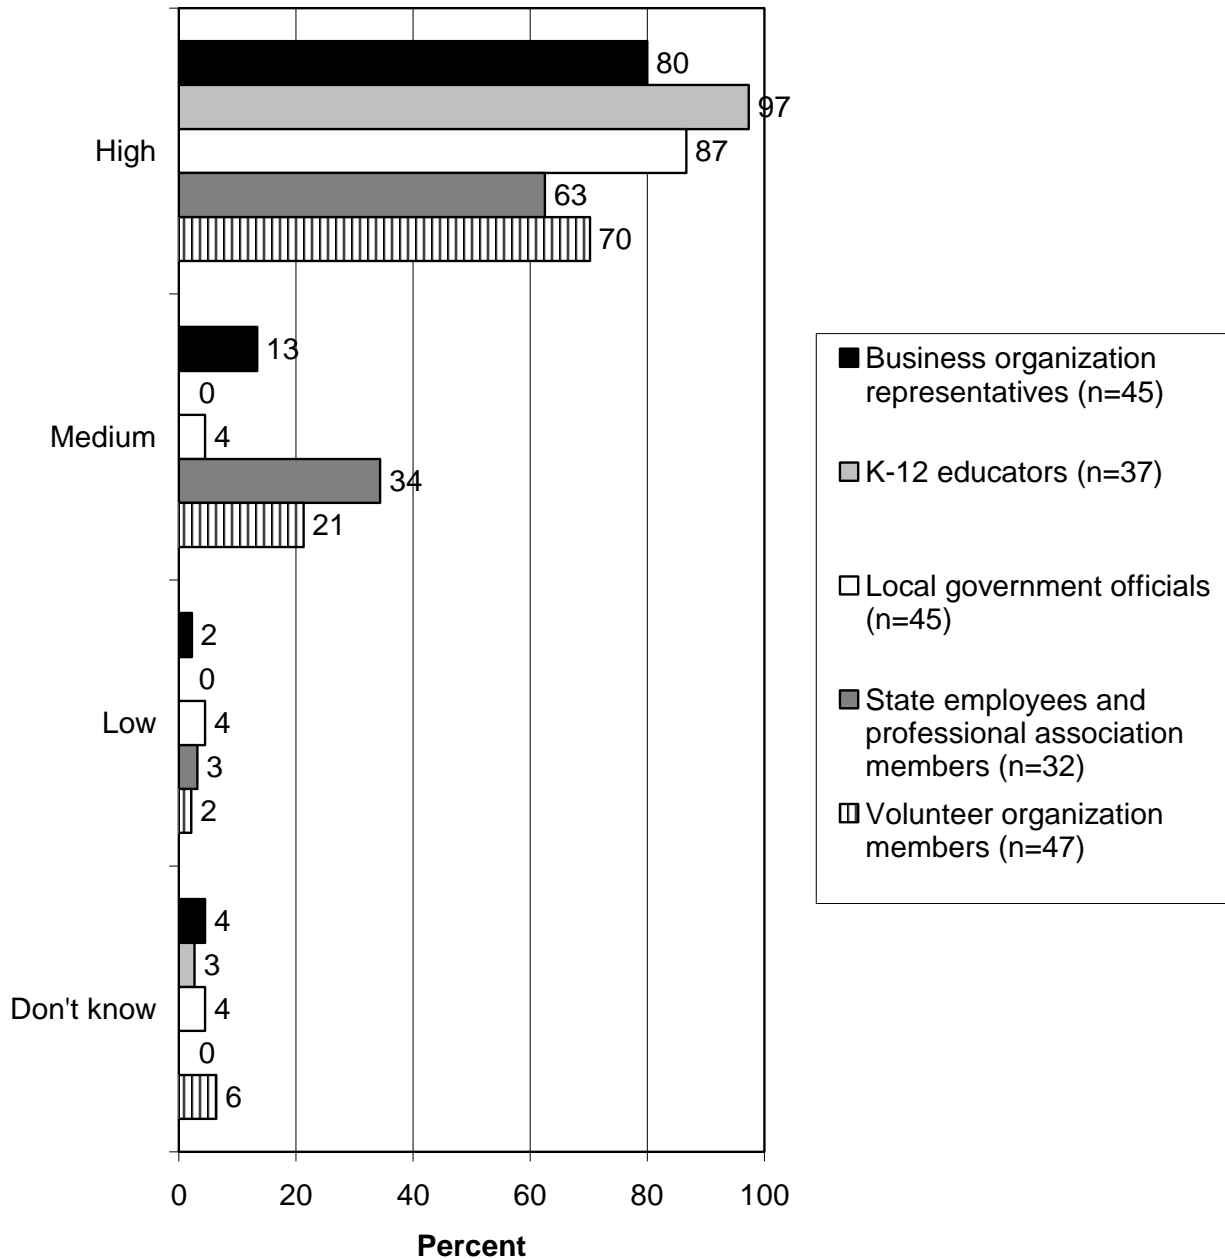

Q232. Please indicate if you think there is a high, medium, or low need for environmental consultants to receive coastal resource information and professional development in New Jersey?

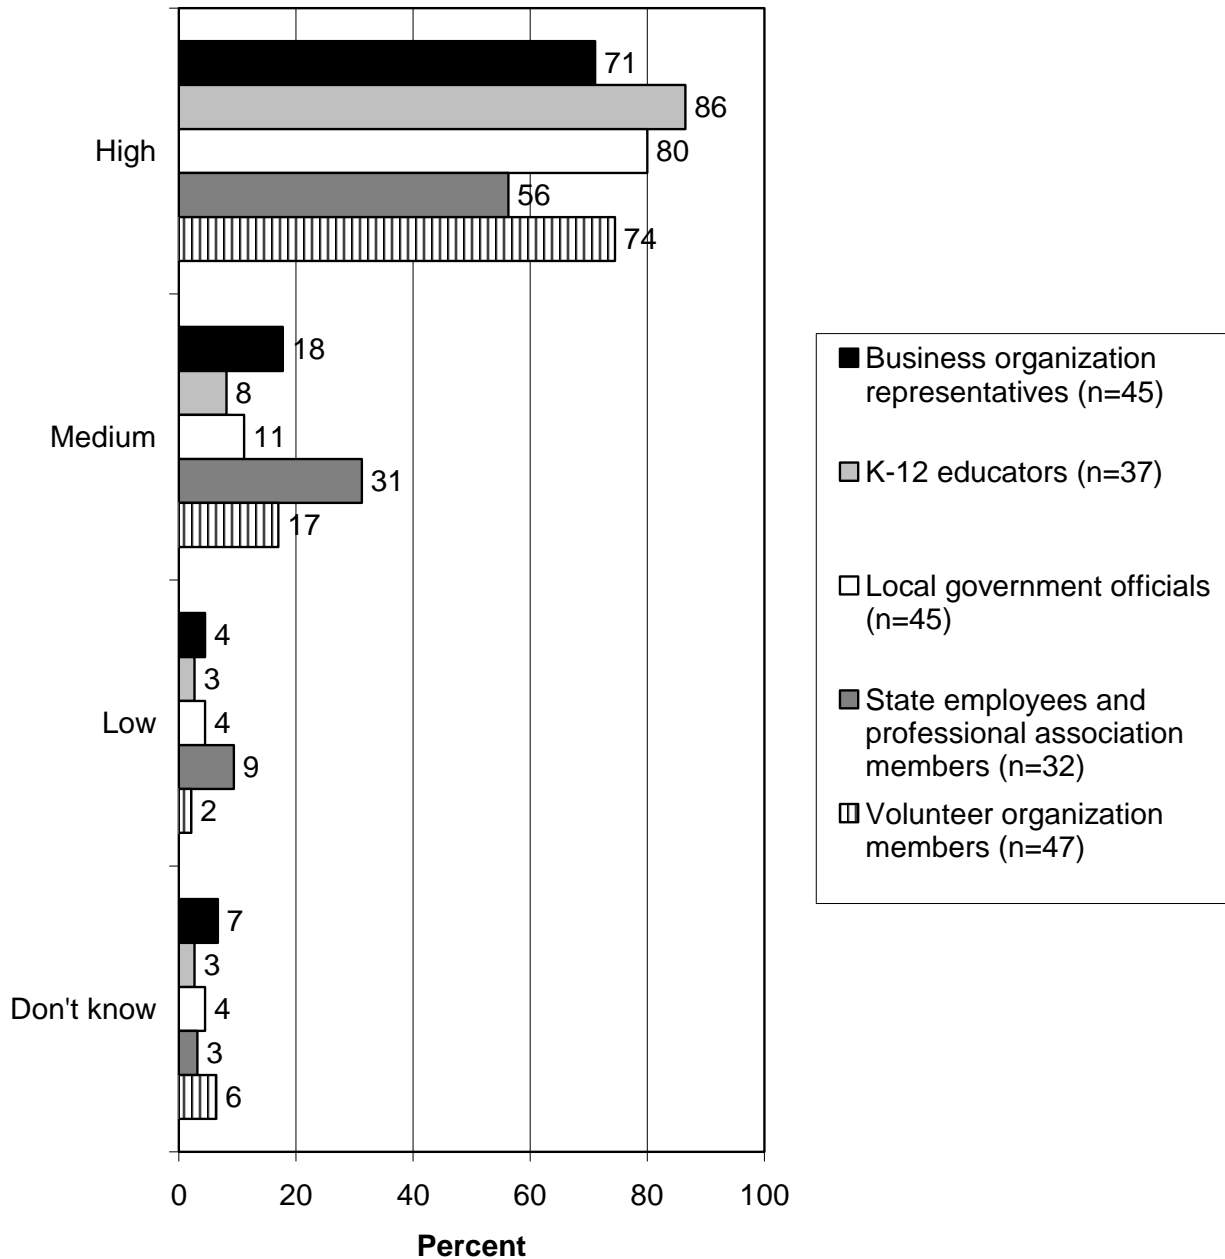

Q233. Please indicate if you think there is a high, medium, or low need for wetland scientists to receive coastal resource information and professional development in New Jersey?

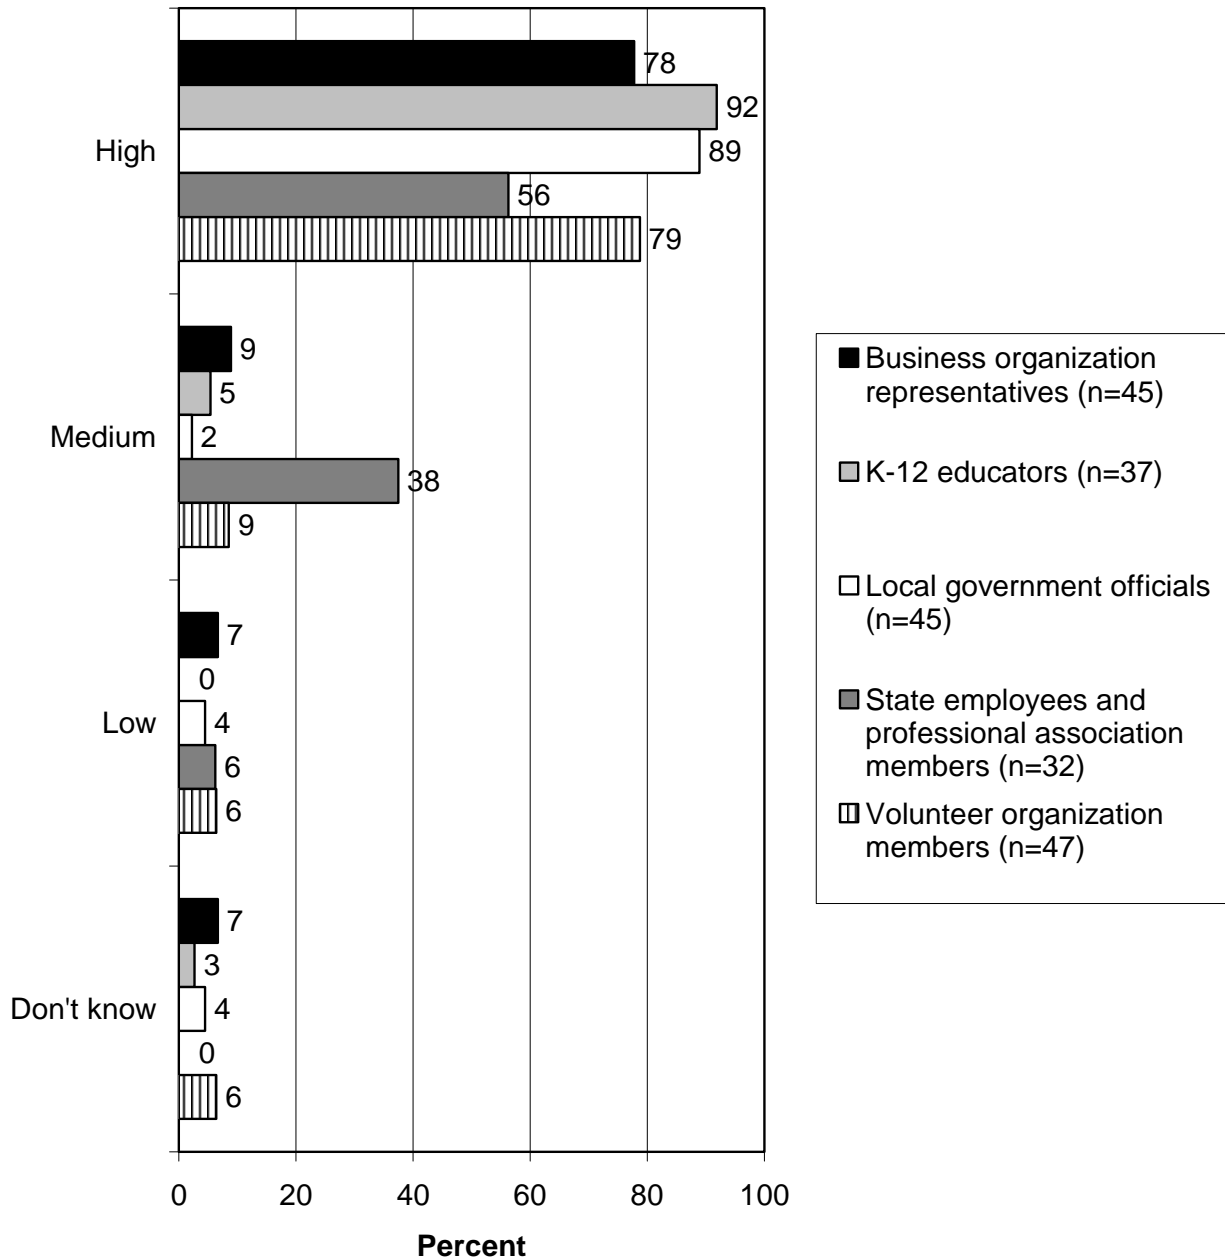

Q234. Please indicate if you think there is a high, medium, or low need for environmental educators to receive coastal resource information and professional development in New Jersey?

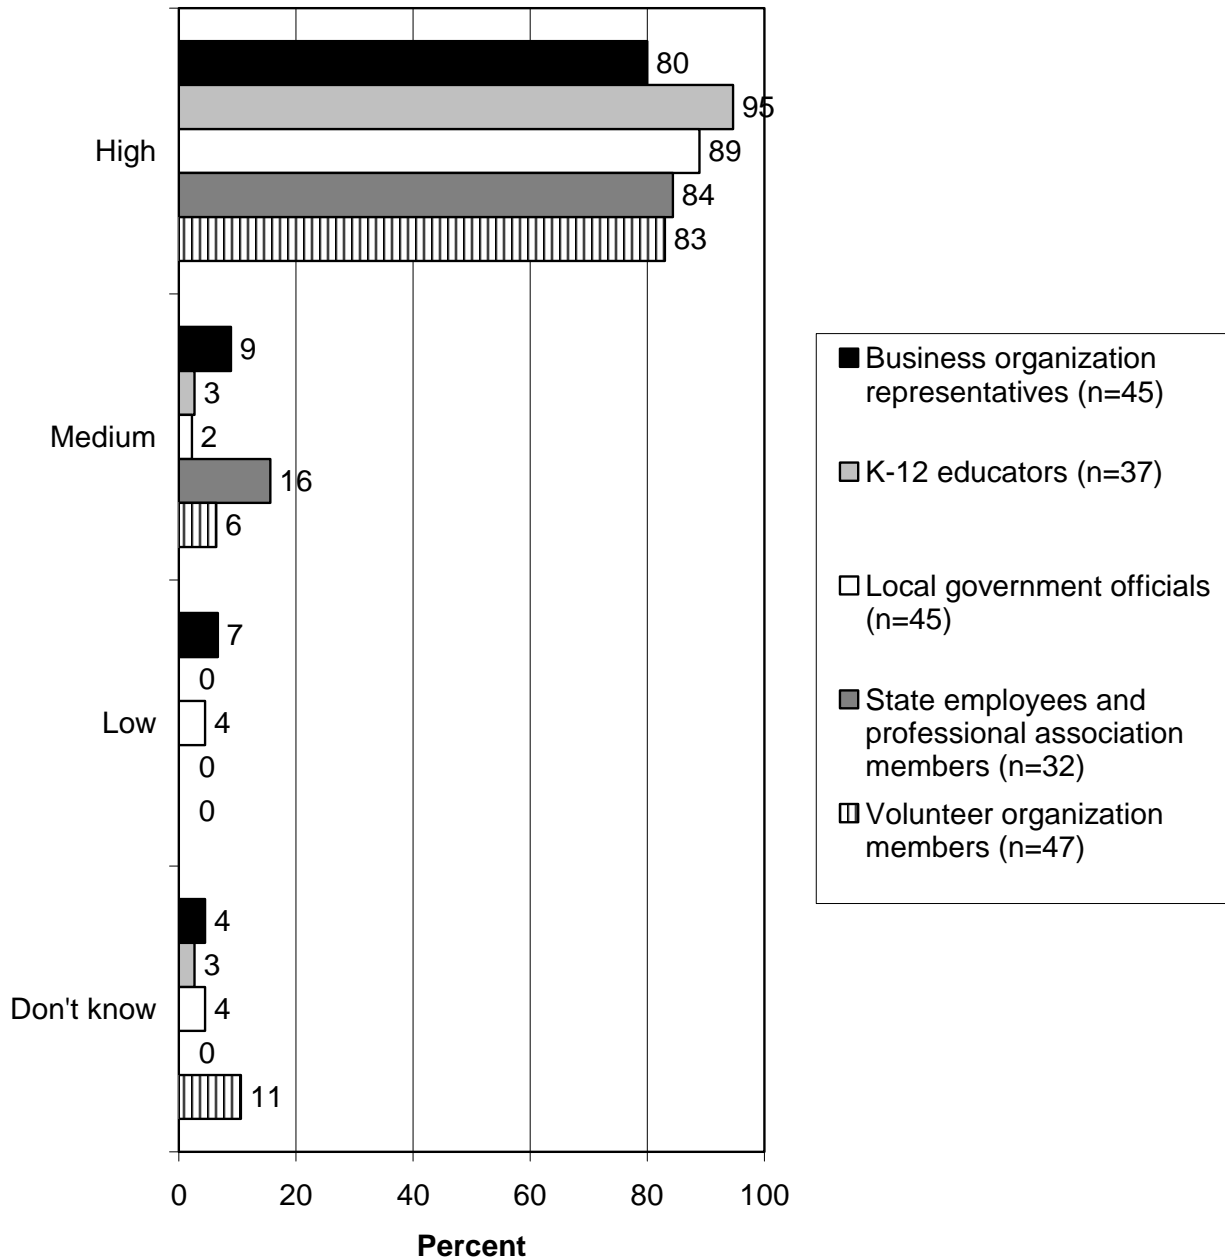

Q235. Please indicate if you think there is a high, medium, or low need for universities to receive coastal resource information and professional development in New Jersey?

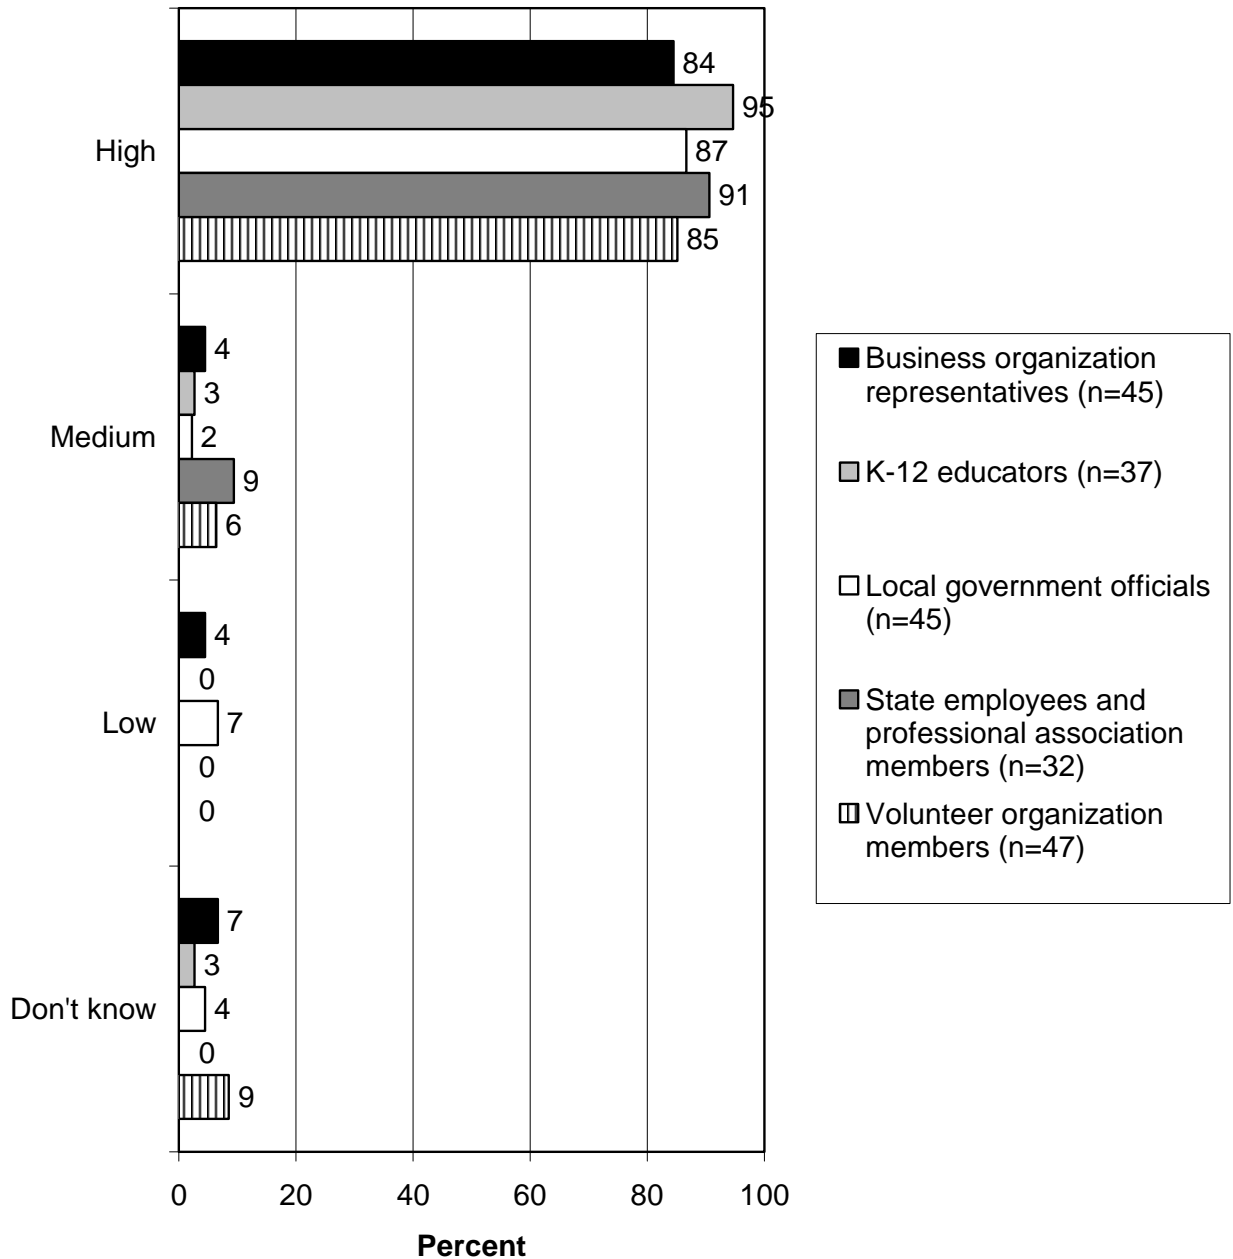

Q236. Please indicate if you think there is a high, medium, or low need for estuarine researchers to receive coastal resource information and professional development in New Jersey?

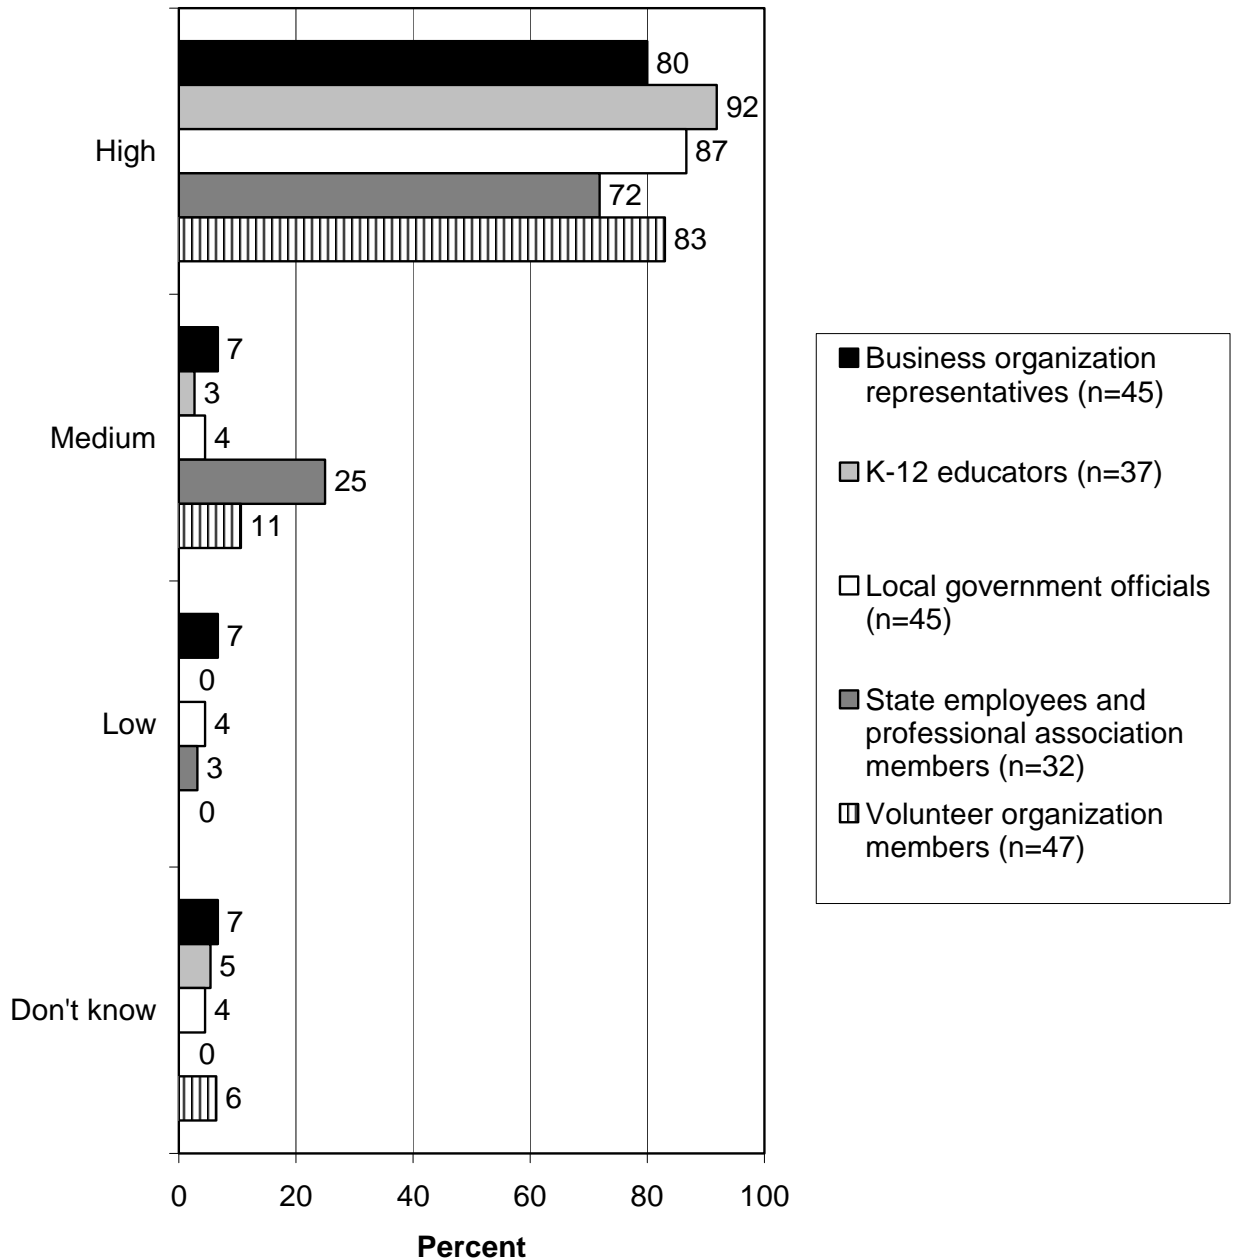

Q237. Please indicate if you think there is a high, medium, or low need for coastal regulators to receive coastal resource information and professional development in New Jersey?

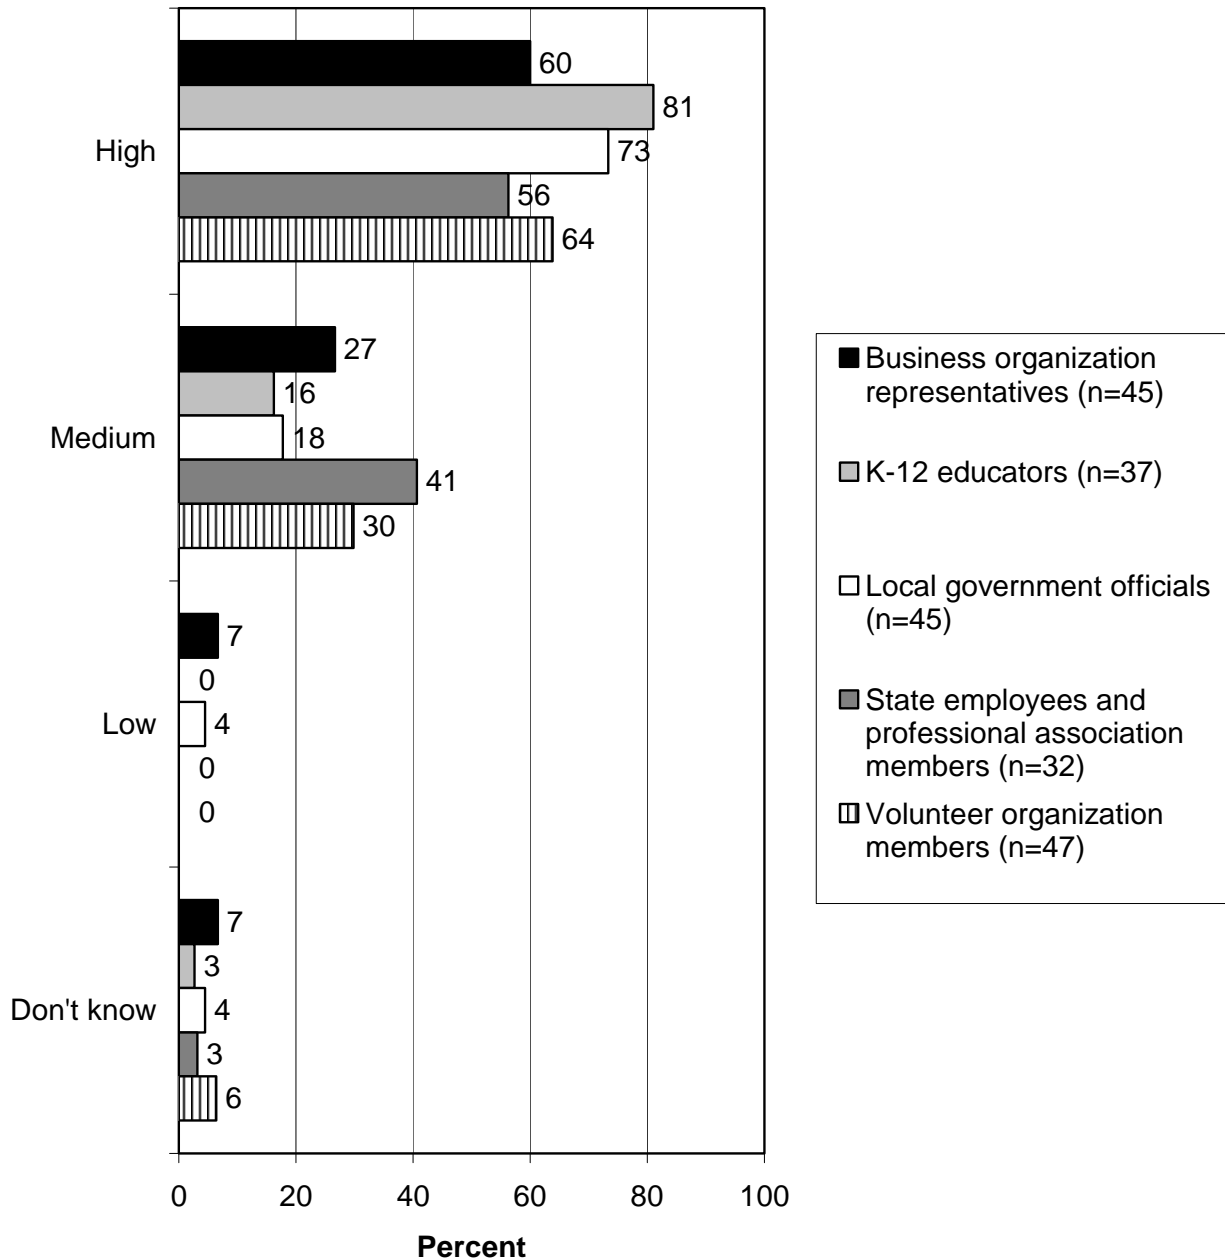

Q238. Please indicate if you think there is a high, medium, or low need for coastal planners to receive coastal resource information and professional development in New Jersey?

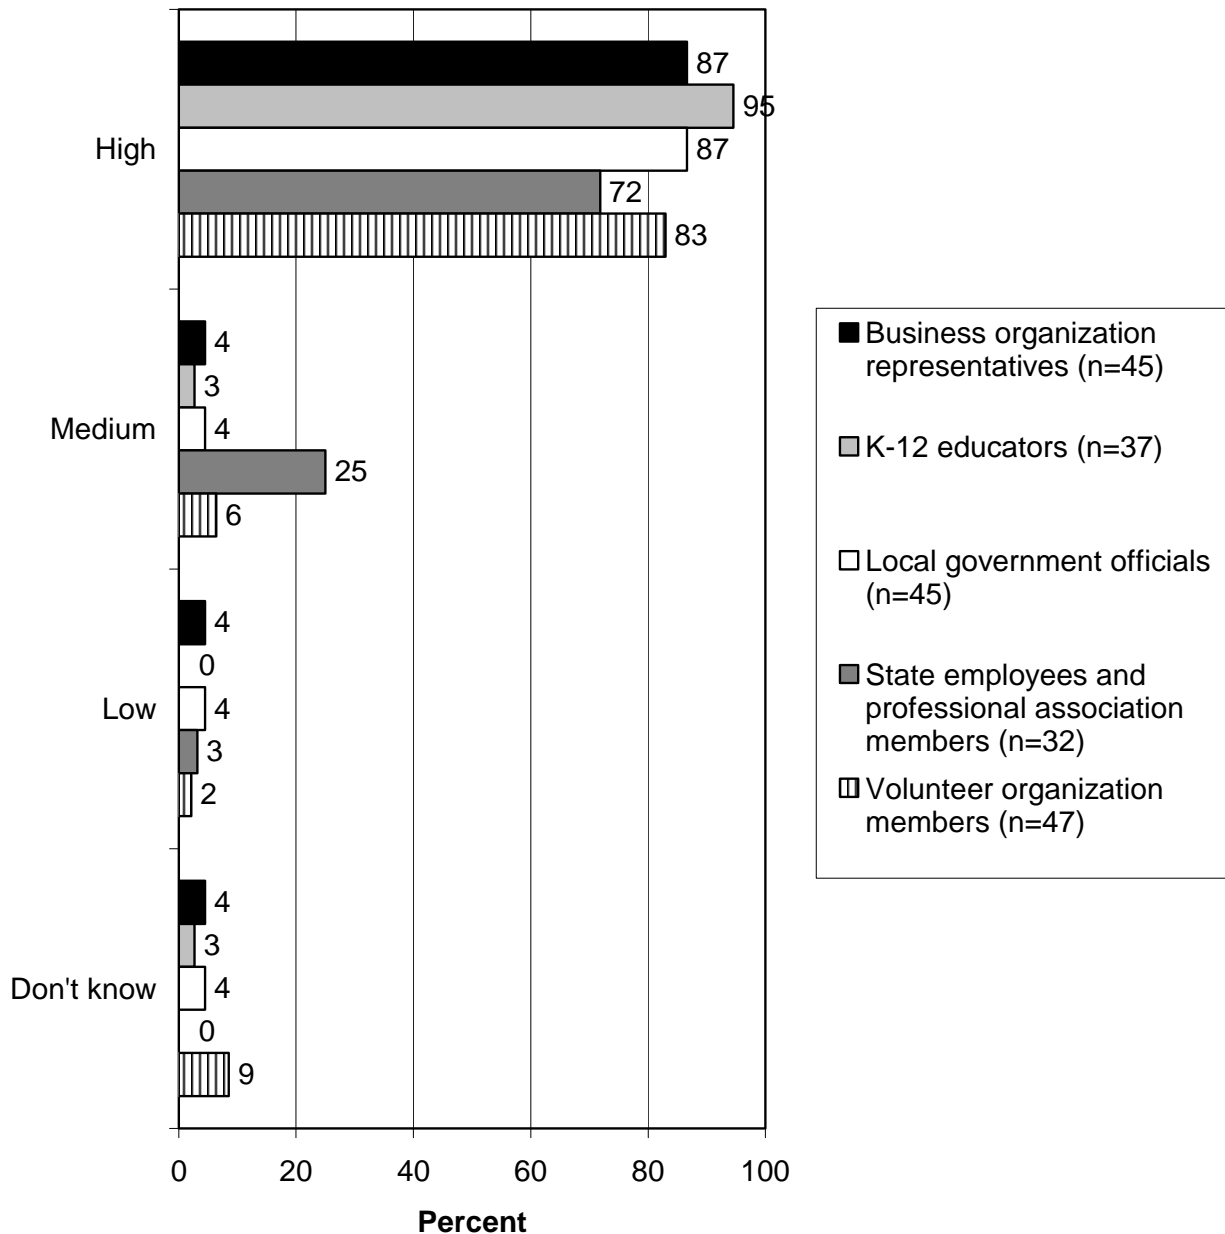

Q239. Please indicate if you think there is a high, medium, or low need for marine resource agency personnel to receive coastal resource information and professional development in New Jersey?

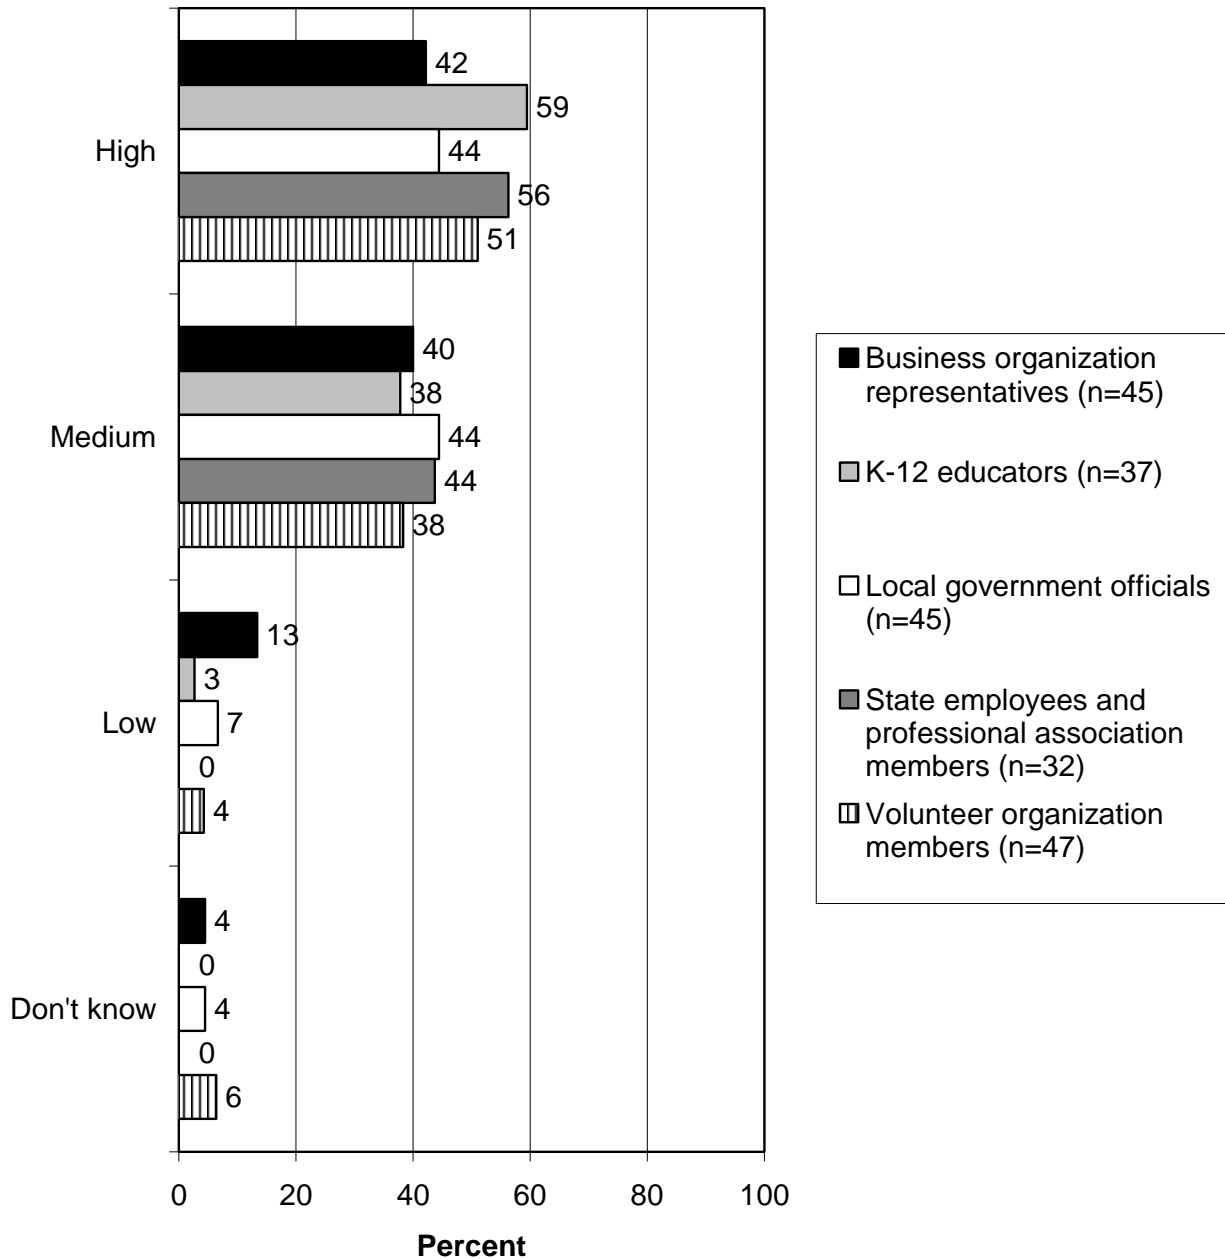

Q240. Please indicate if you think there is a high, medium, or low need for inland fisheries and wildlife personnel to receive coastal resource information and professional development in New Jersey?

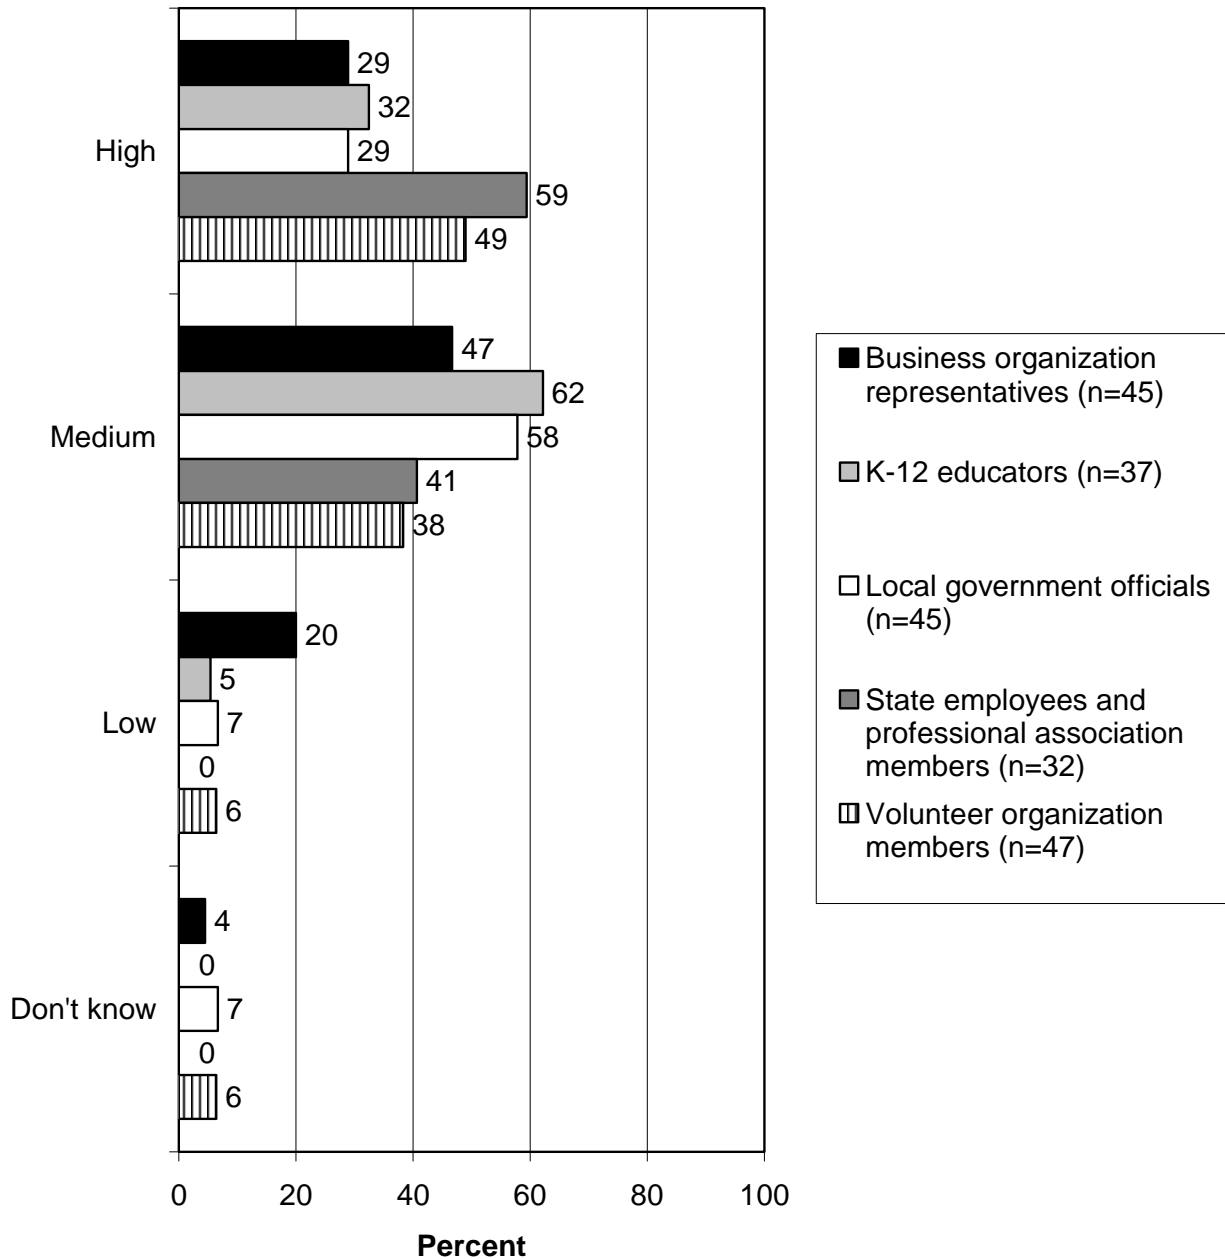

Q241. Please indicate if you think there is a high, medium, or low need for environmental protection agency personnel to receive coastal resource information and professional development in New Jersey?

Q242. Please indicate if you think there is a high, medium, or low need for K-12 educators to receive coastal resource information and professional development in New Jersey?

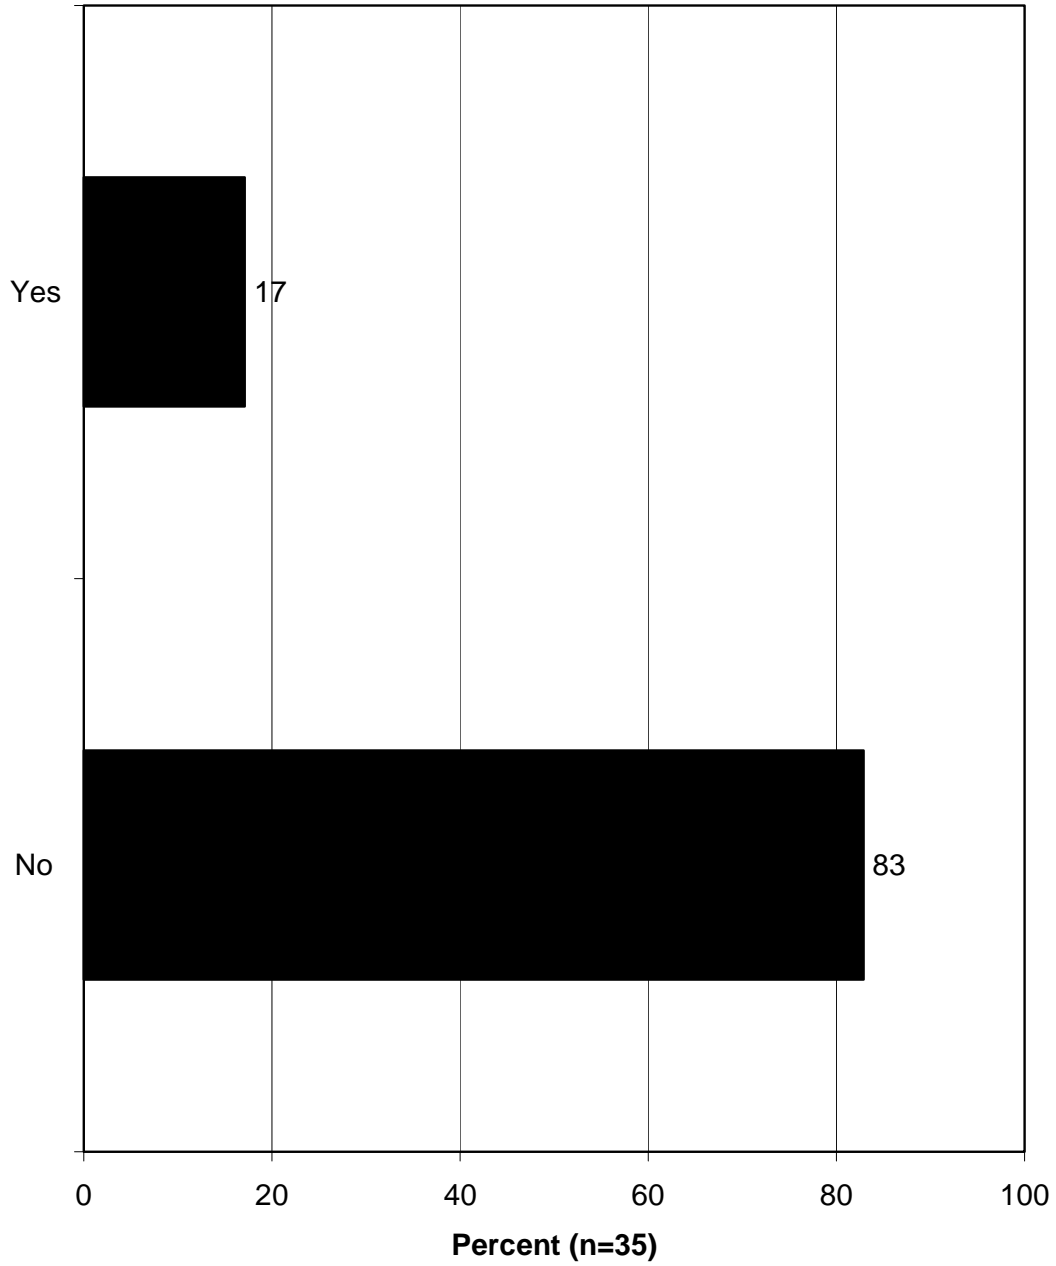

Q243. Please indicate if you think there is a high, medium, or low need for the general population to receive coastal resource information and professional development in New Jersey?

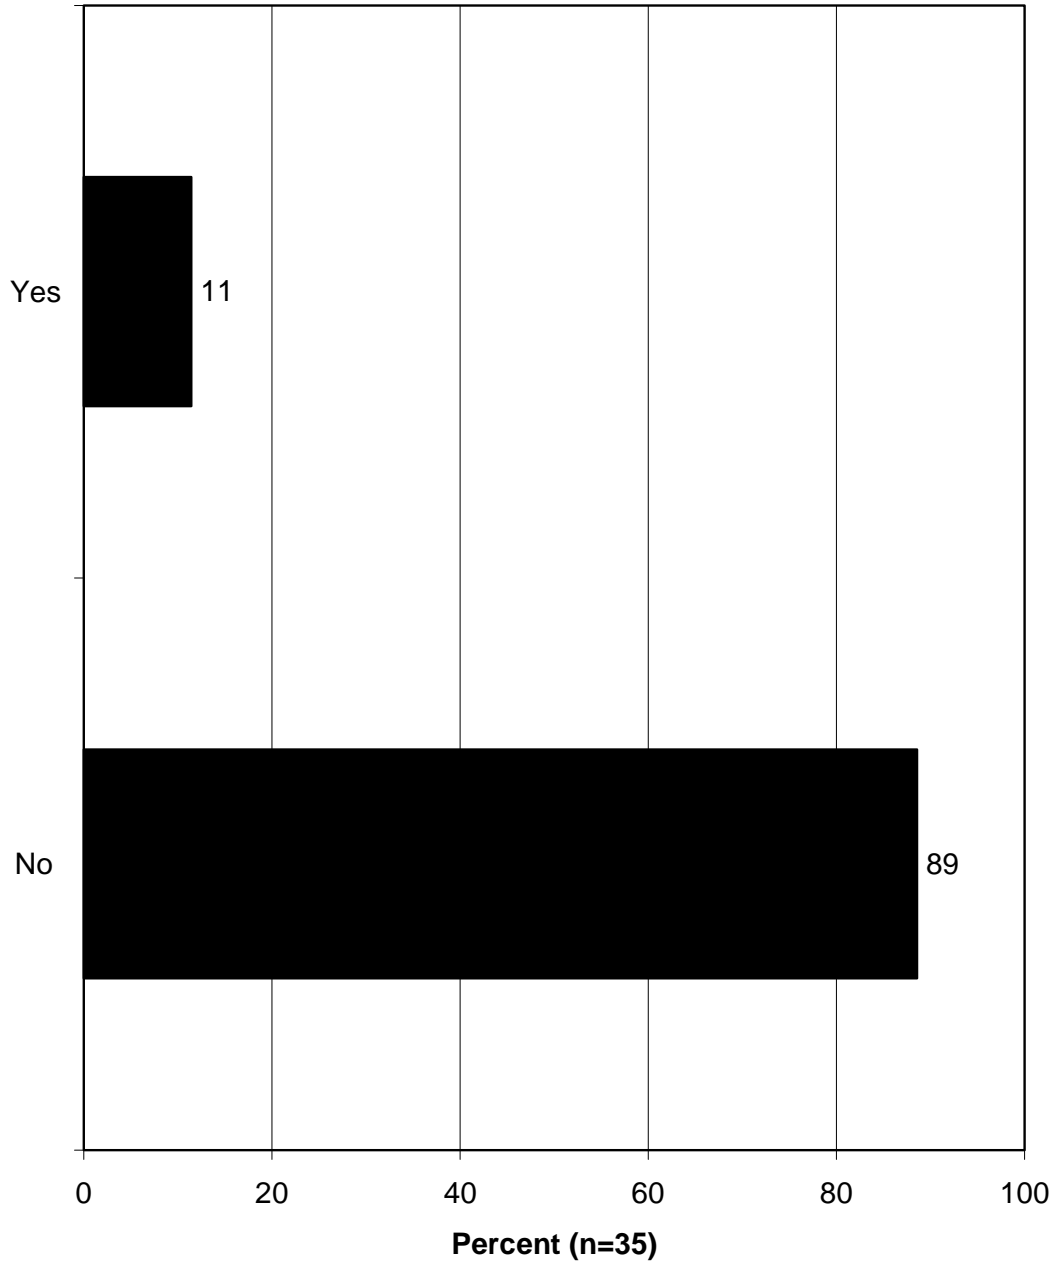

MARKET INVENTORY GRAPHS

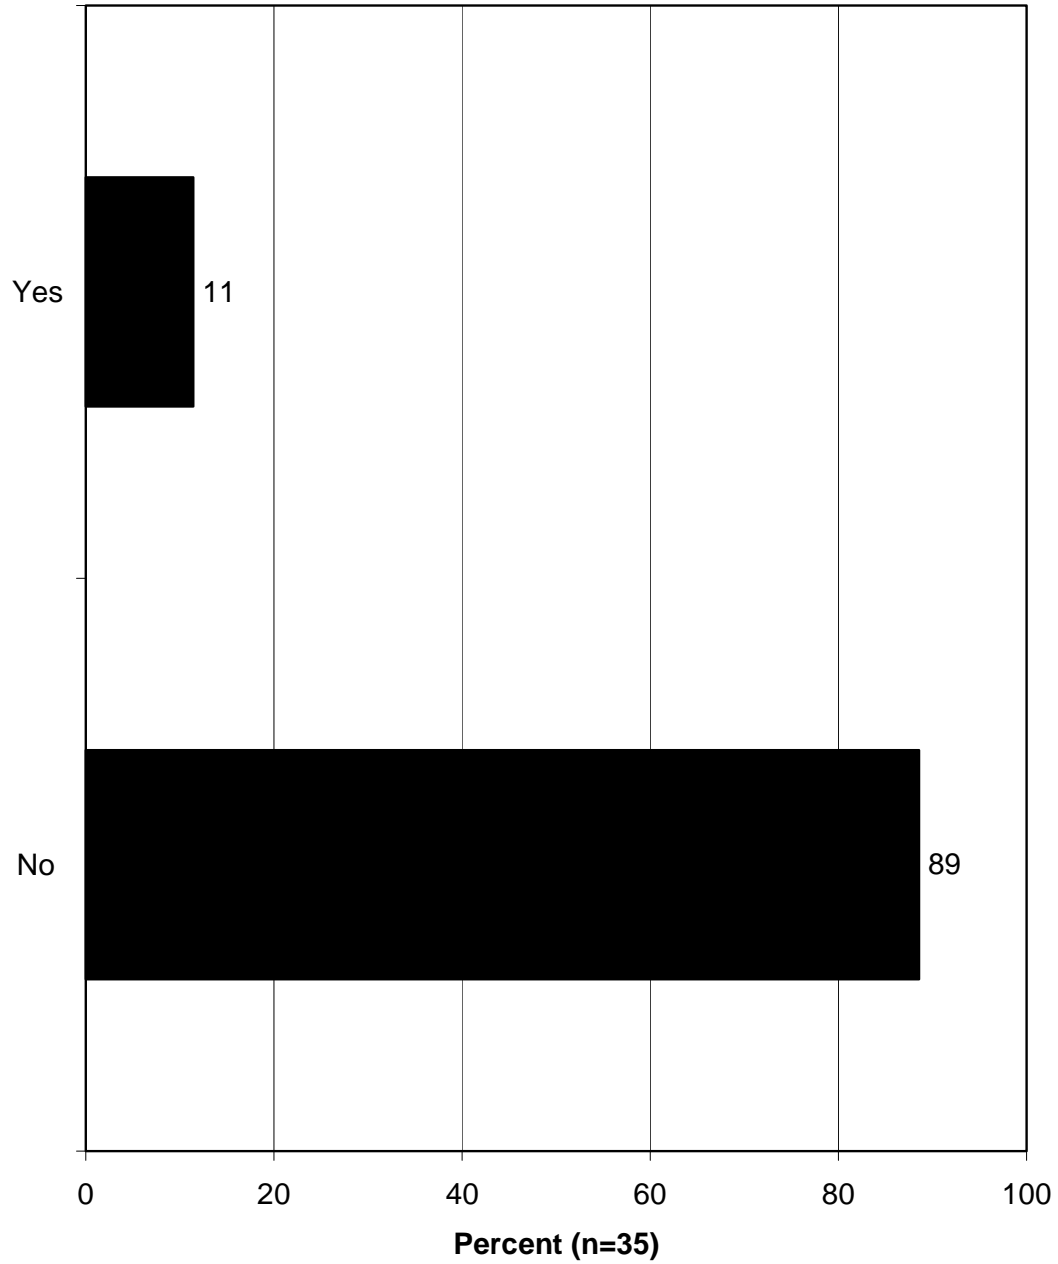

Q50. Has your division provided certification programs in the past year (January 2002-January 2003)?

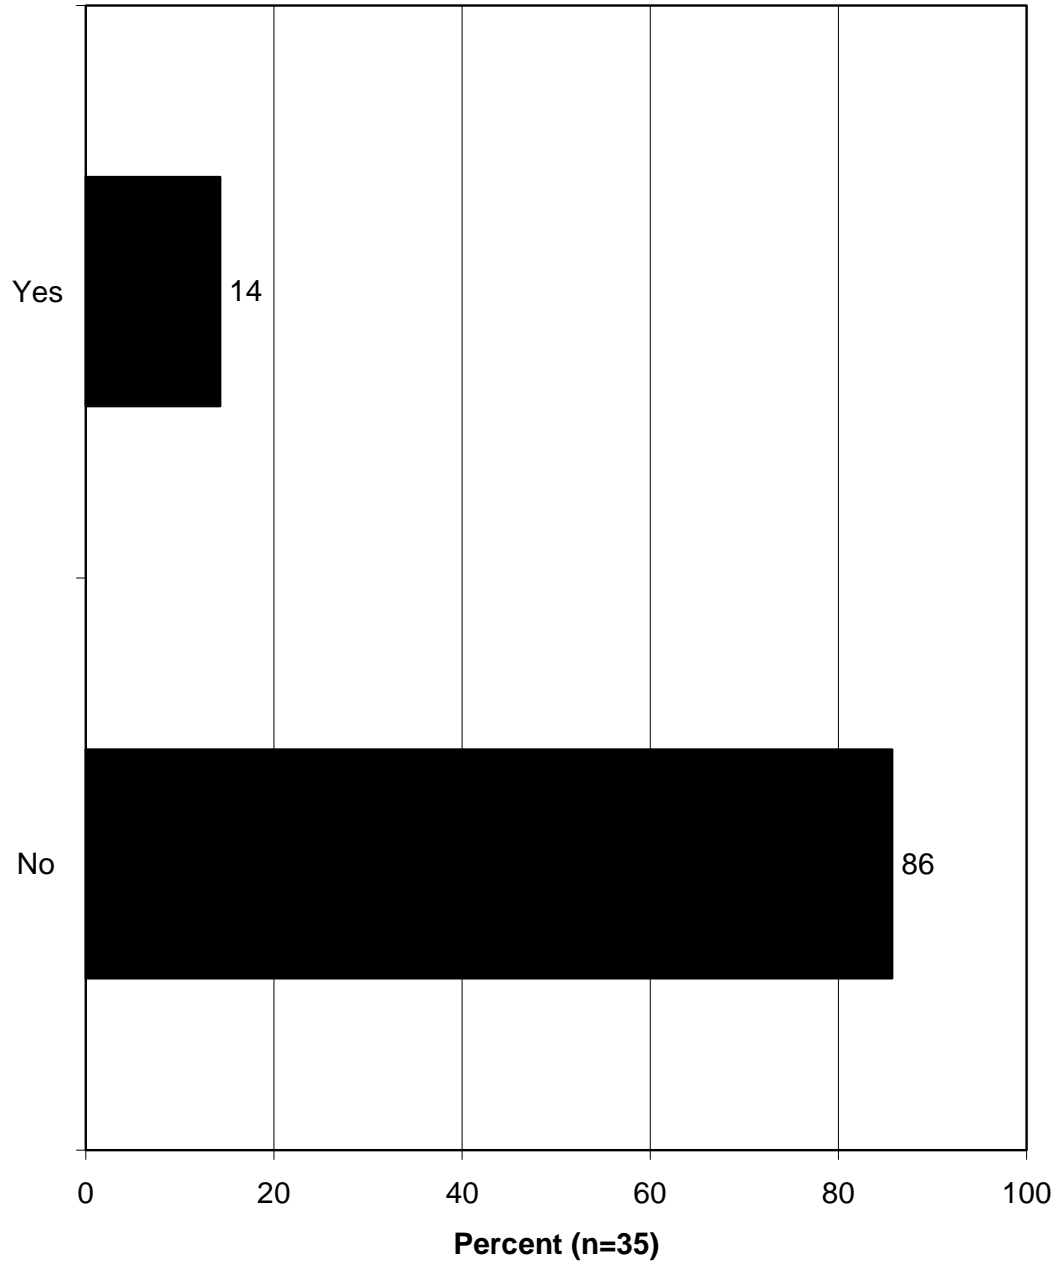

Q52. Has your division provided conferences in the past year (January 2002-January 2003)?

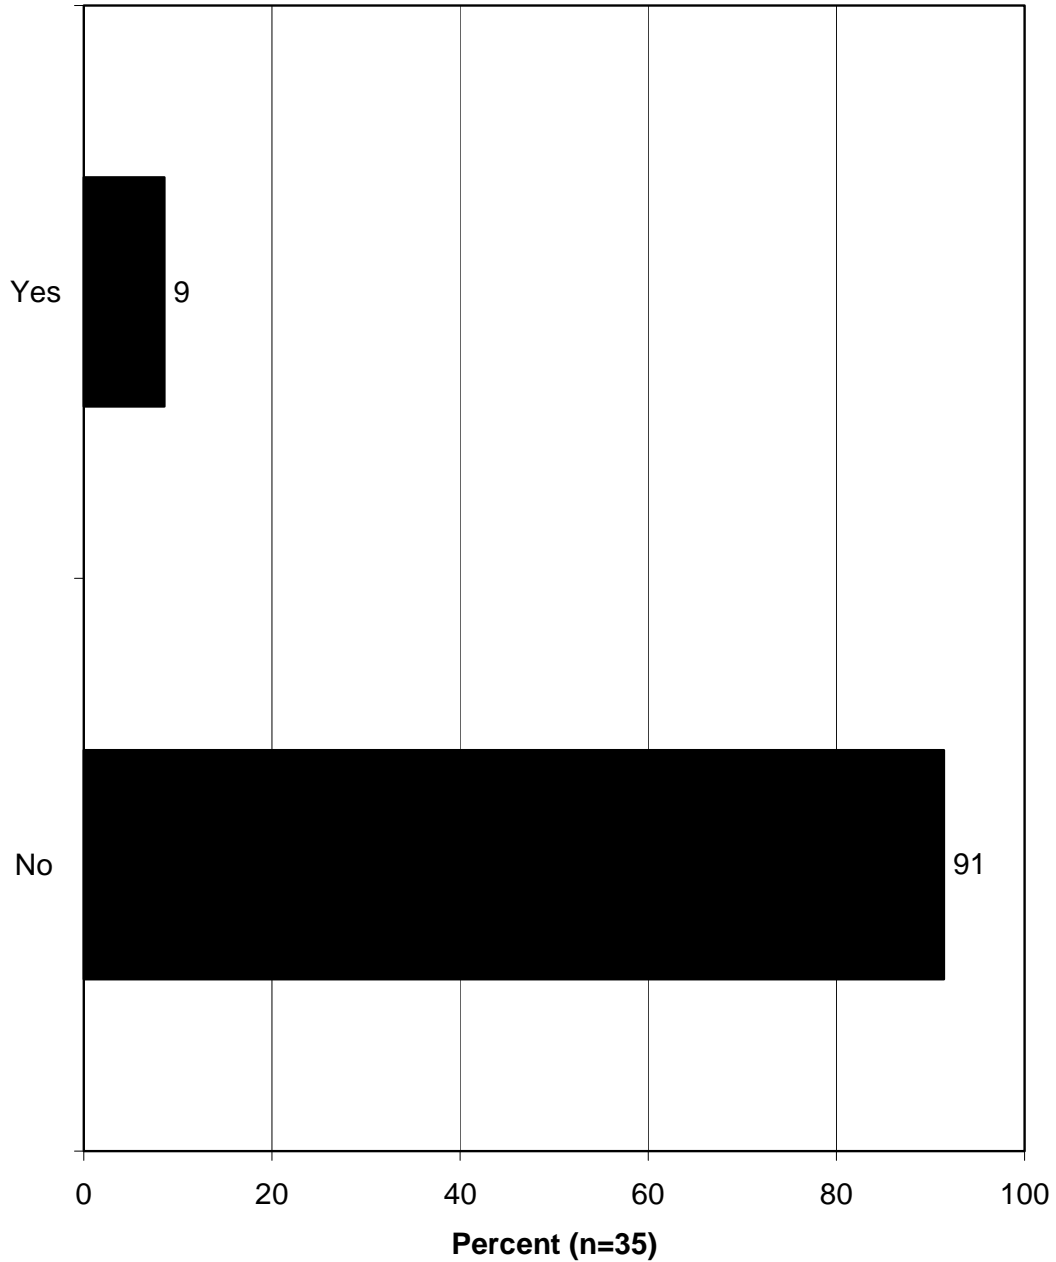

Q54. Has your division provided continuing education classes in the past year (January 2002-January 2003)?

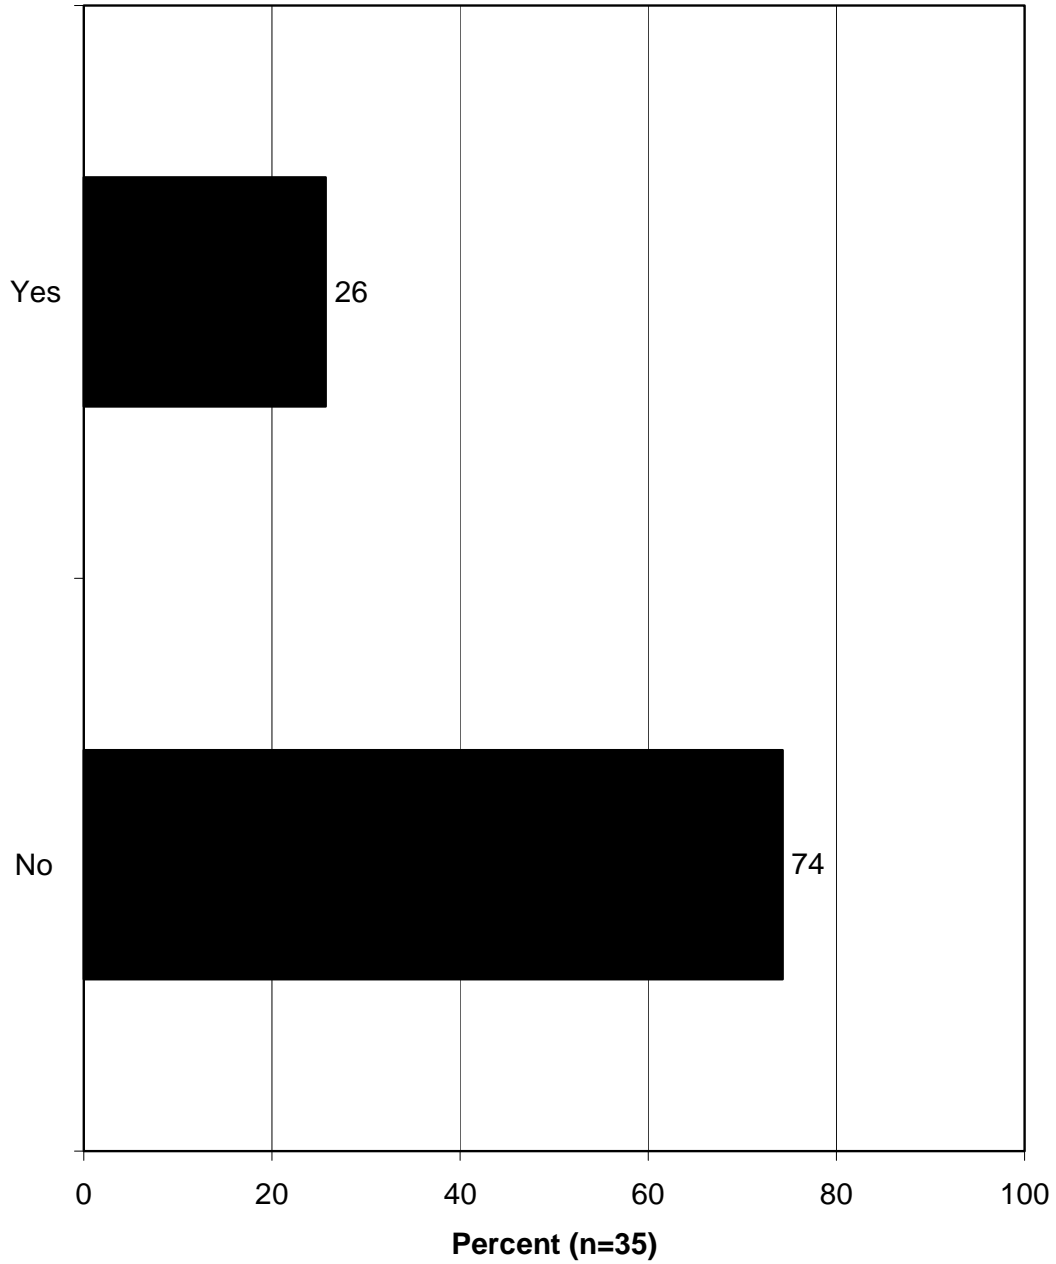

Q56. Has your division provided university courses in the past year (January 2002-January 2003)?

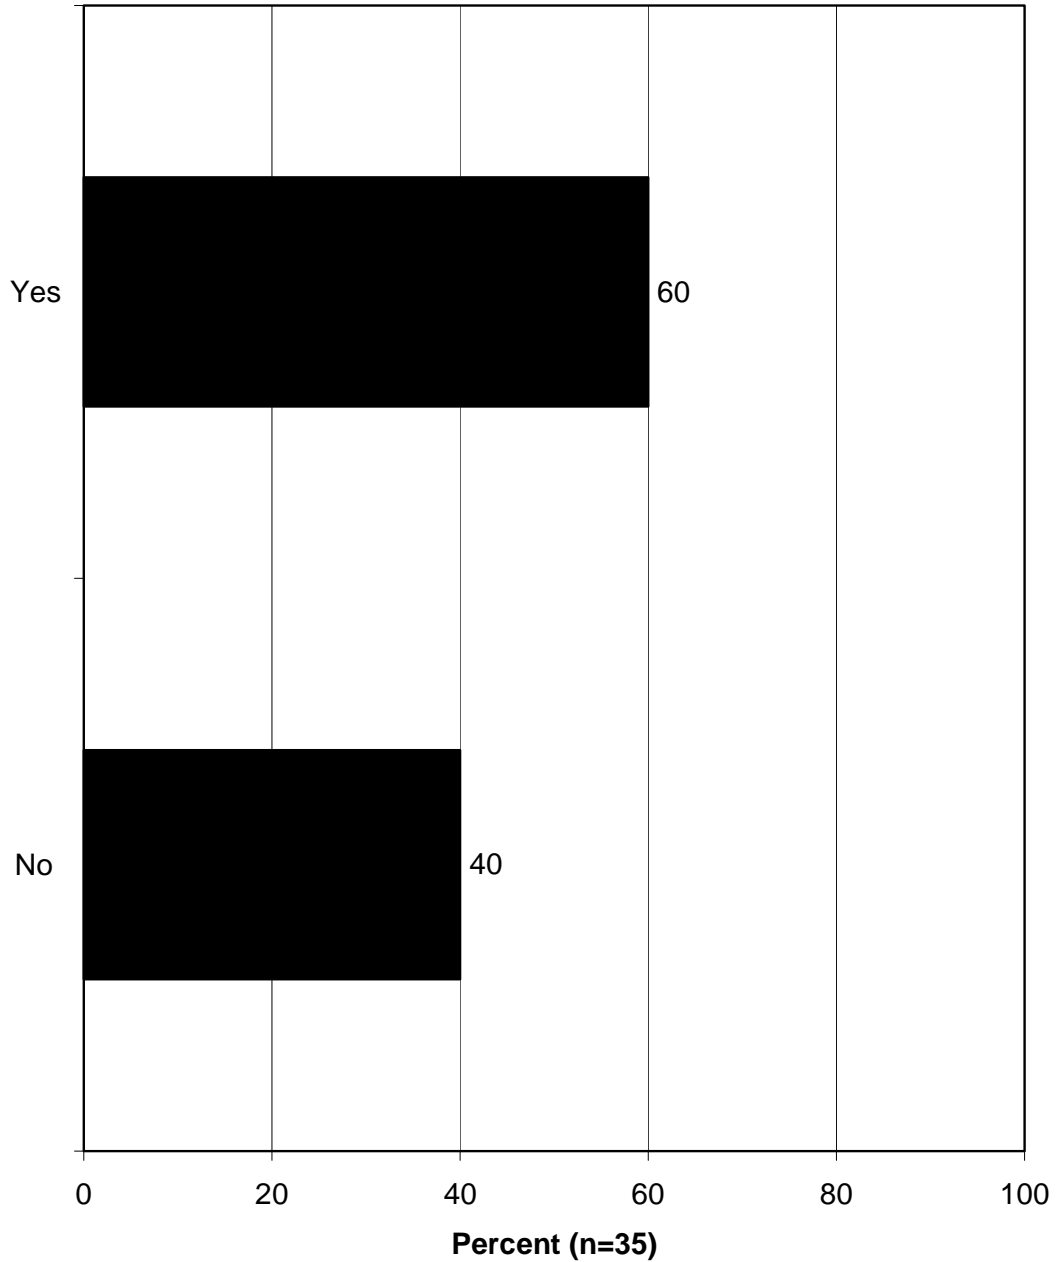

Q58. Has your division provided distance learning programs in the past year (January 2002-January 2003)?

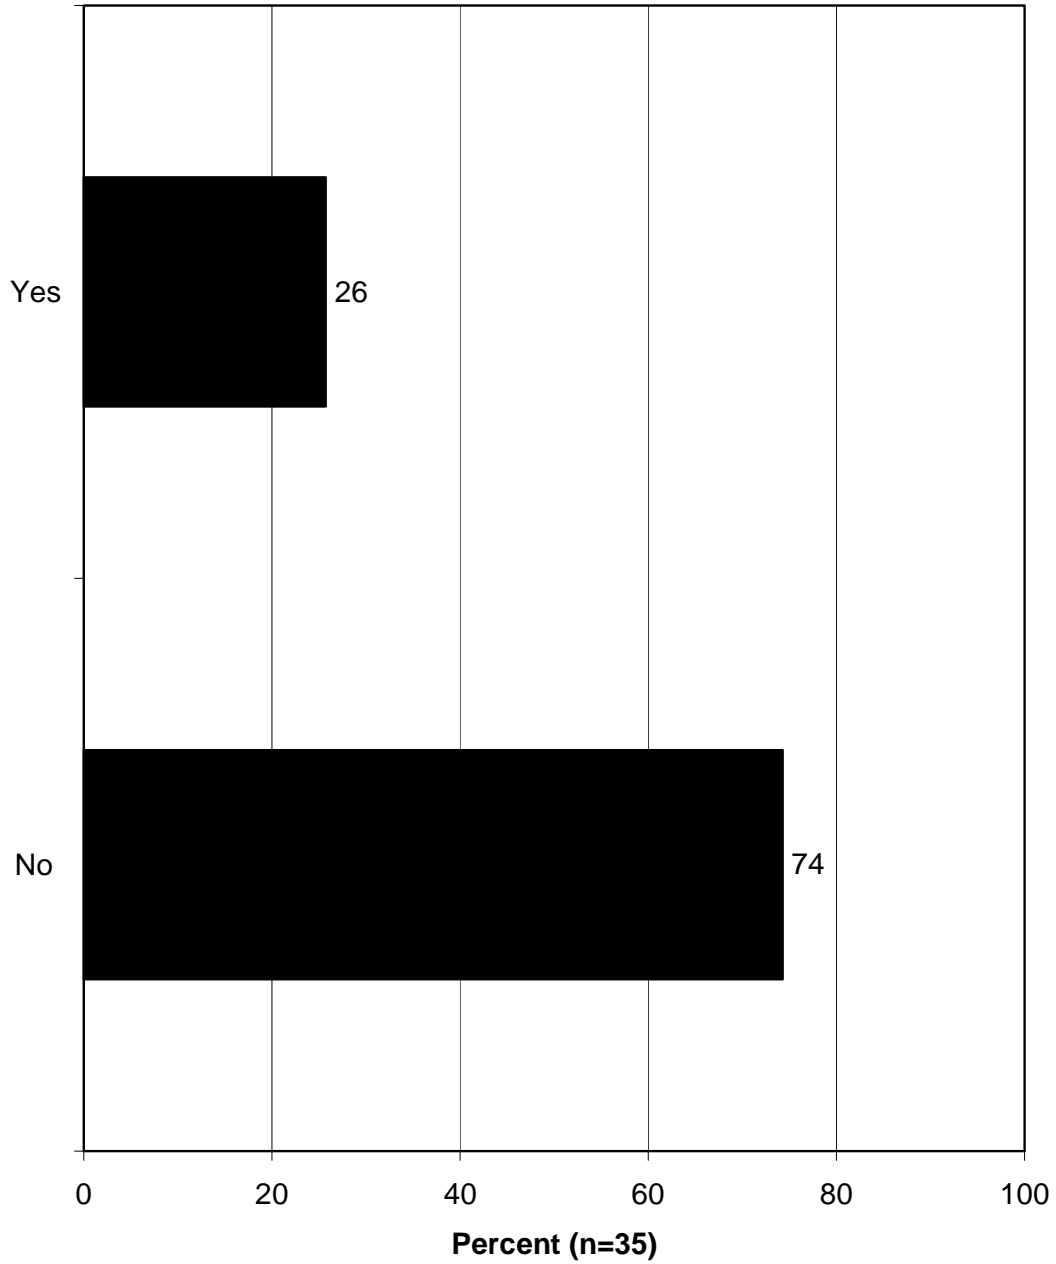

Q60. Has your division provided field-based courses in the past year (January 2002-January 2003)?

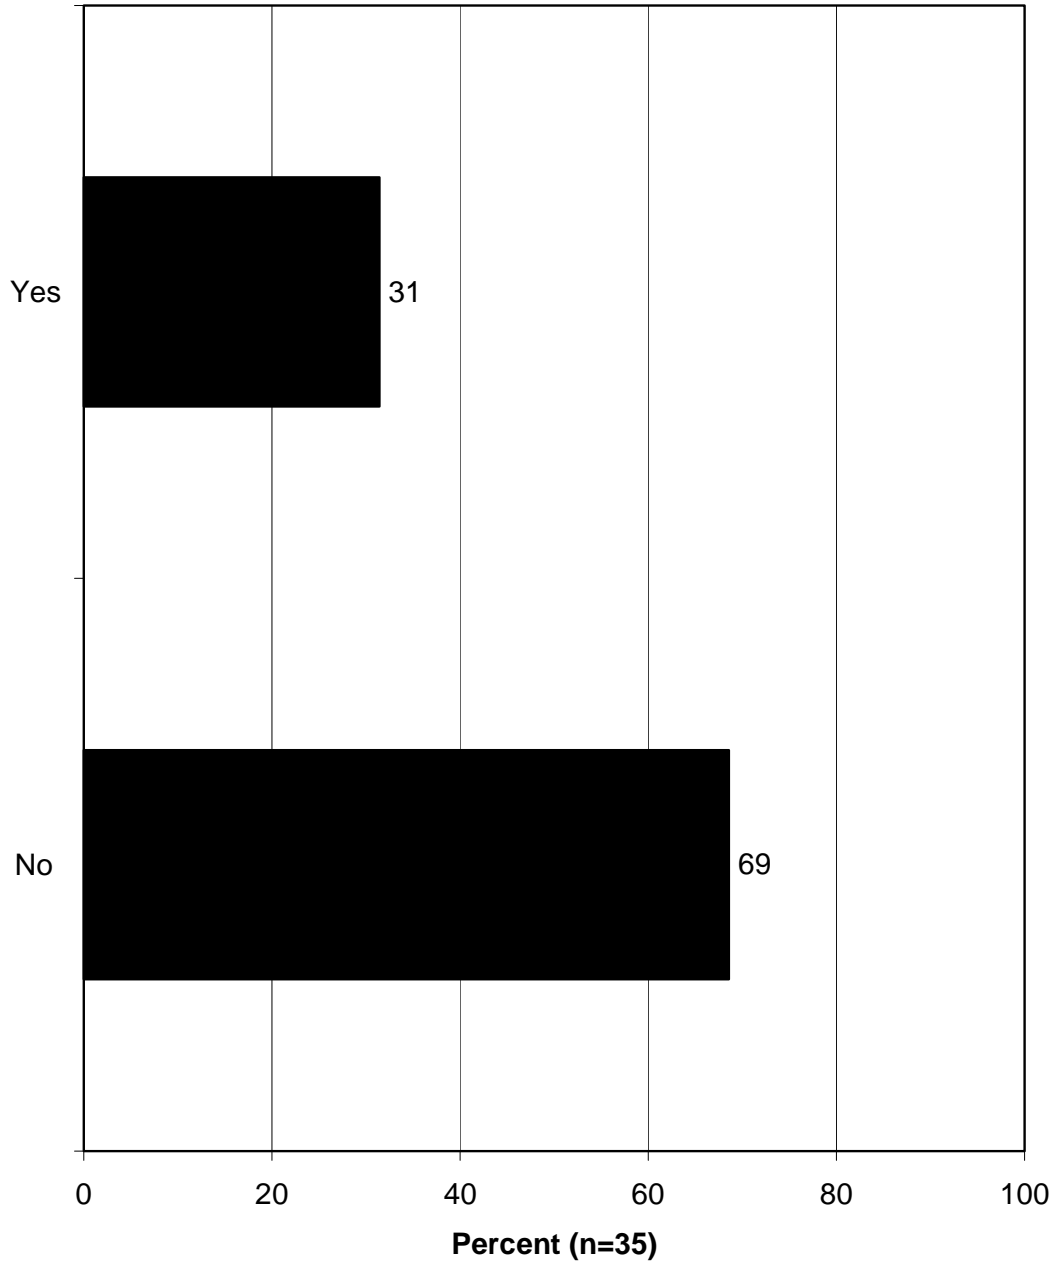

Q62. Has your division provided informal education/outreach (meetings, etc.) in the past year (January 2002-January 2003)?

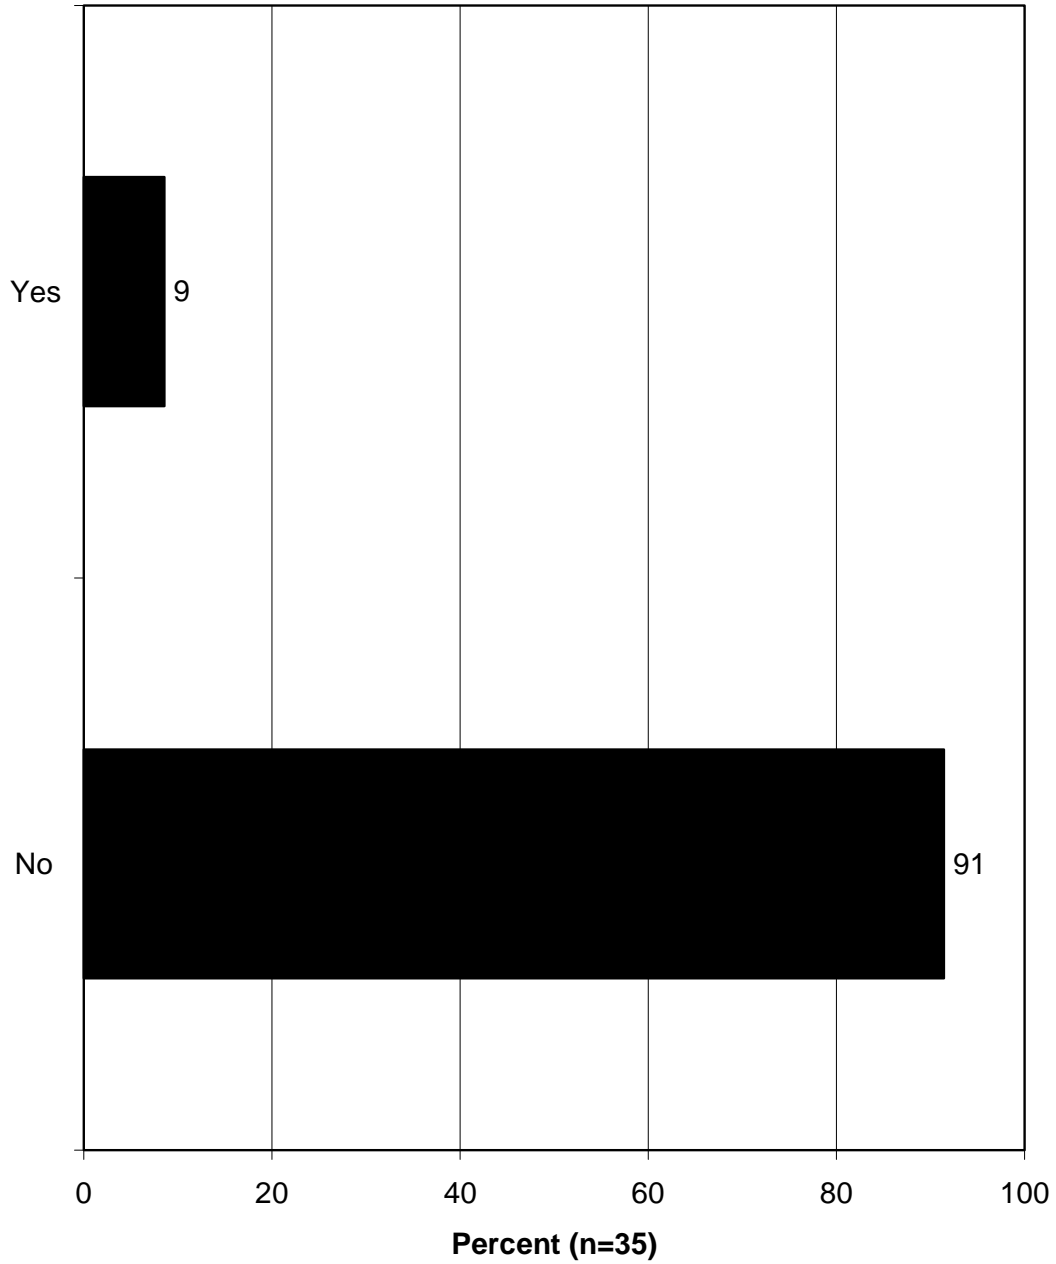

Q64. Has your division provided information products and technical resources in the past year (January 2002-January 2003)?

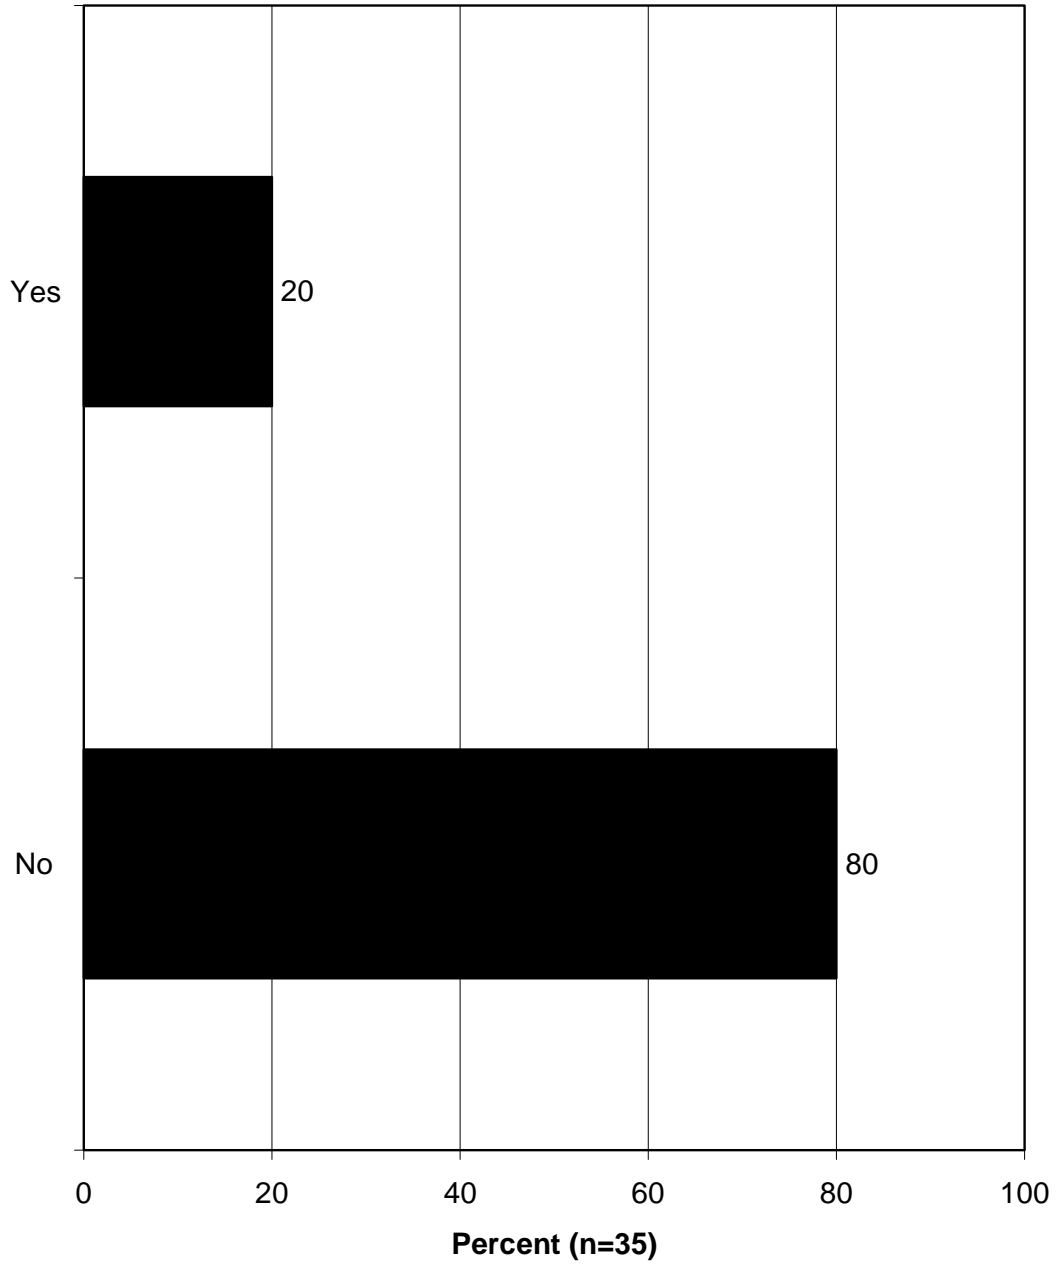

Q66. Has your division provided in-service education/outreach for educators in the past year (January 2002-January 2003)?

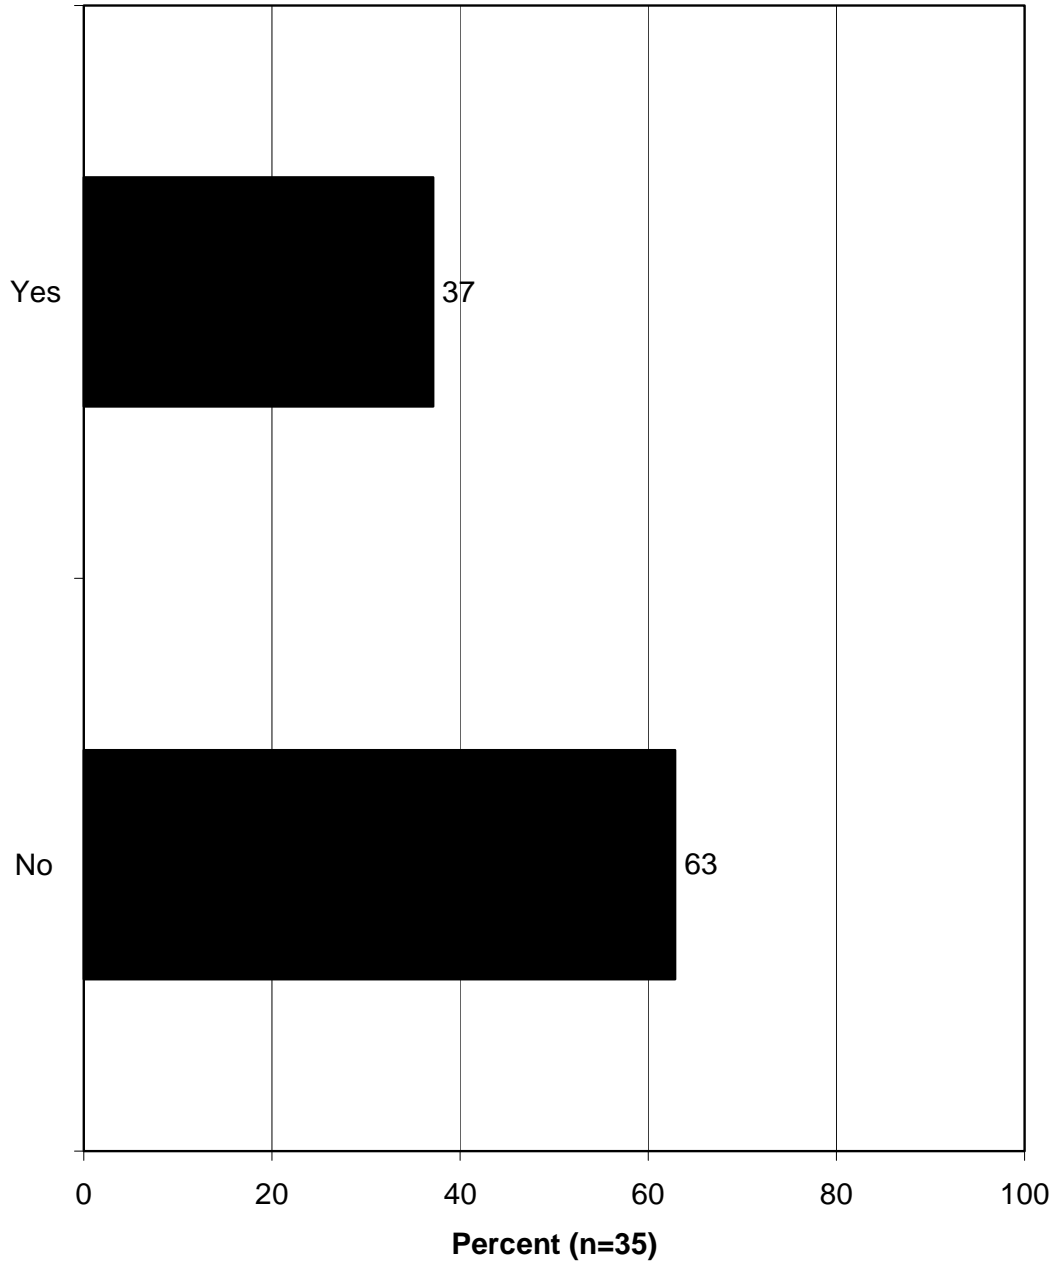

**Q68. Has your division provided laboratory courses
in the past year (January 2002-January 2003)?**

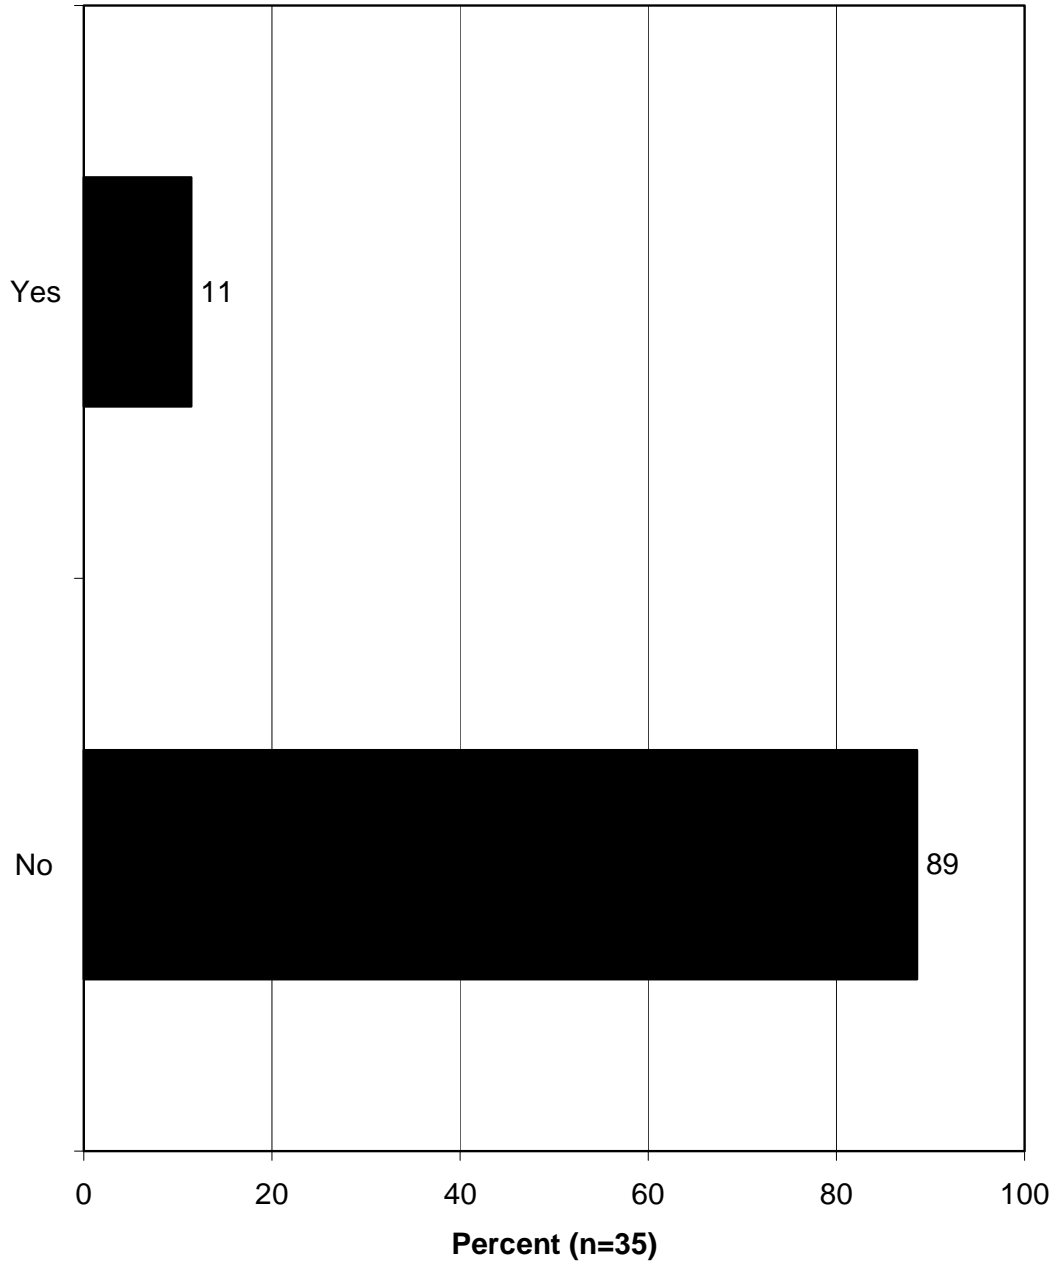

Q70. Has your division provided seminars in the past year (January 2002-January 2003)?

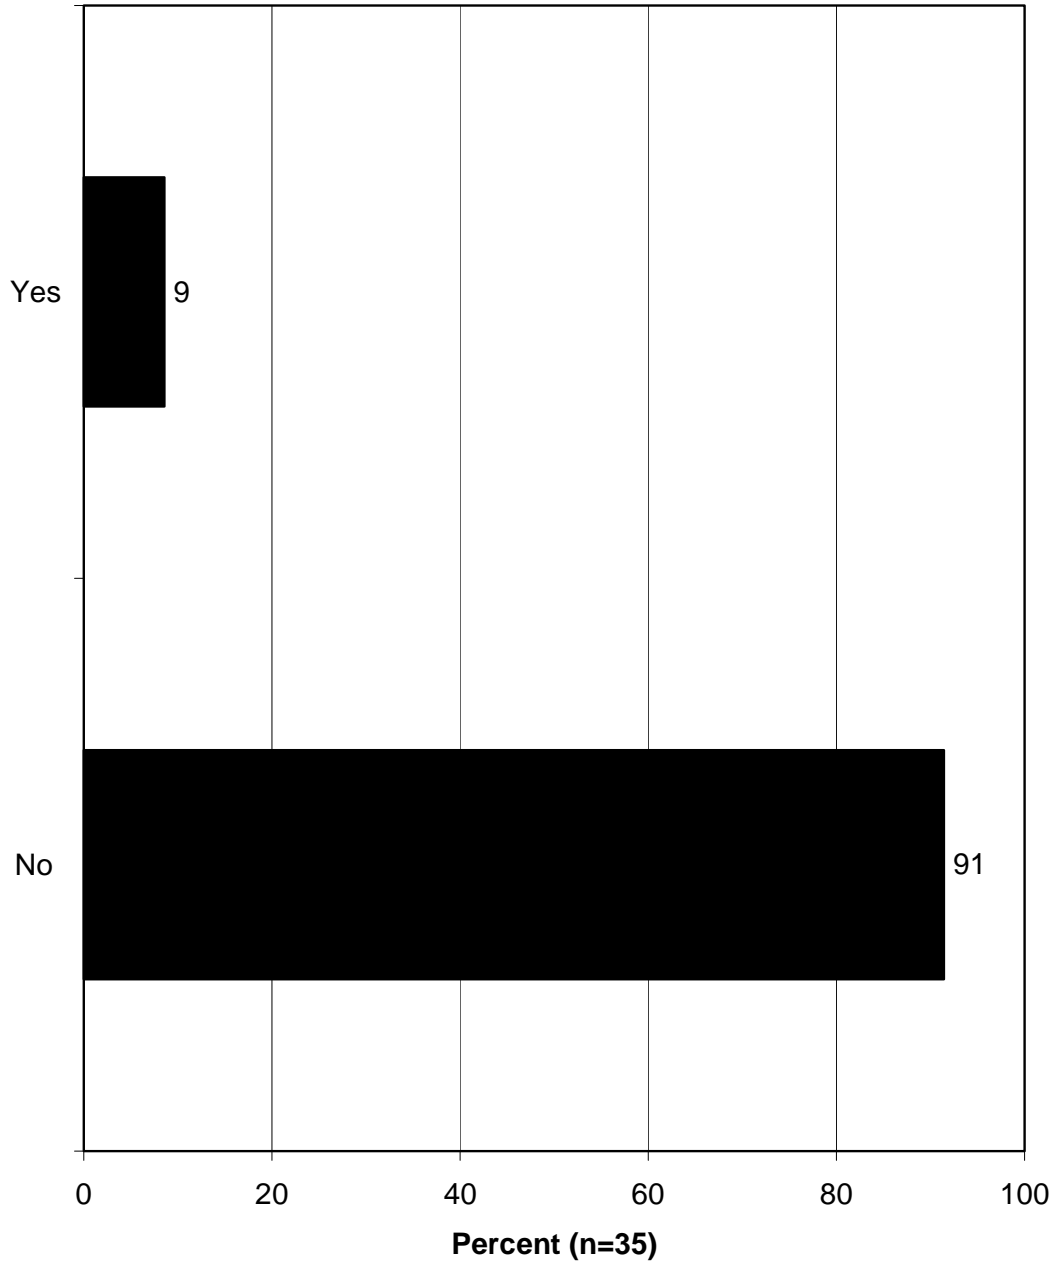

Q72. Has your division provided special events (excluding conferences) in the past year (January 2002-January 2003)?

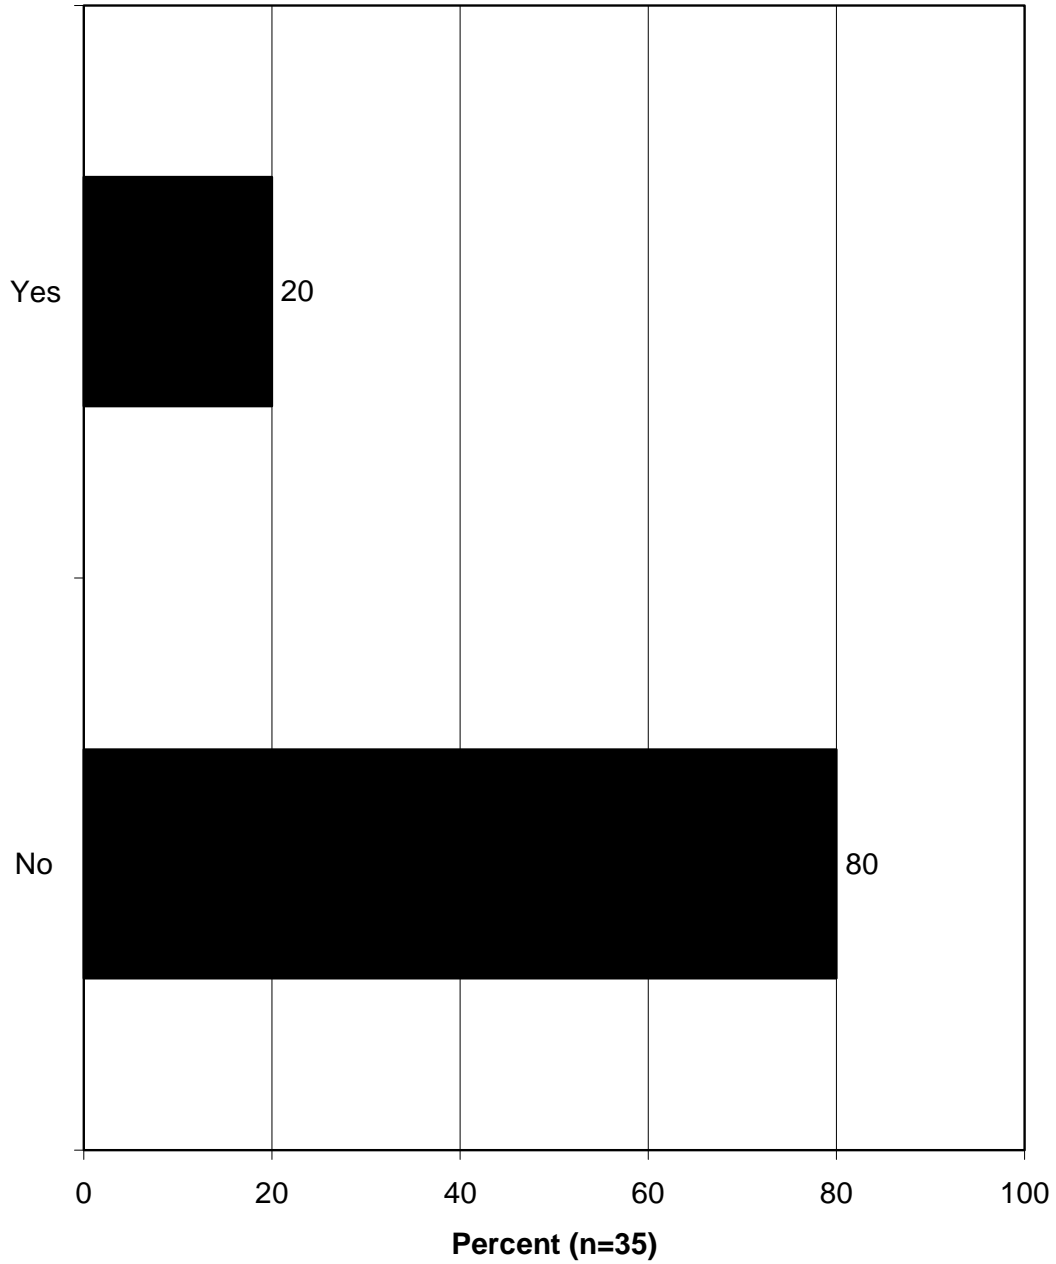

Q74. Has your division provided technical education/outreach programs in the past year (January 2002-January 2003)?

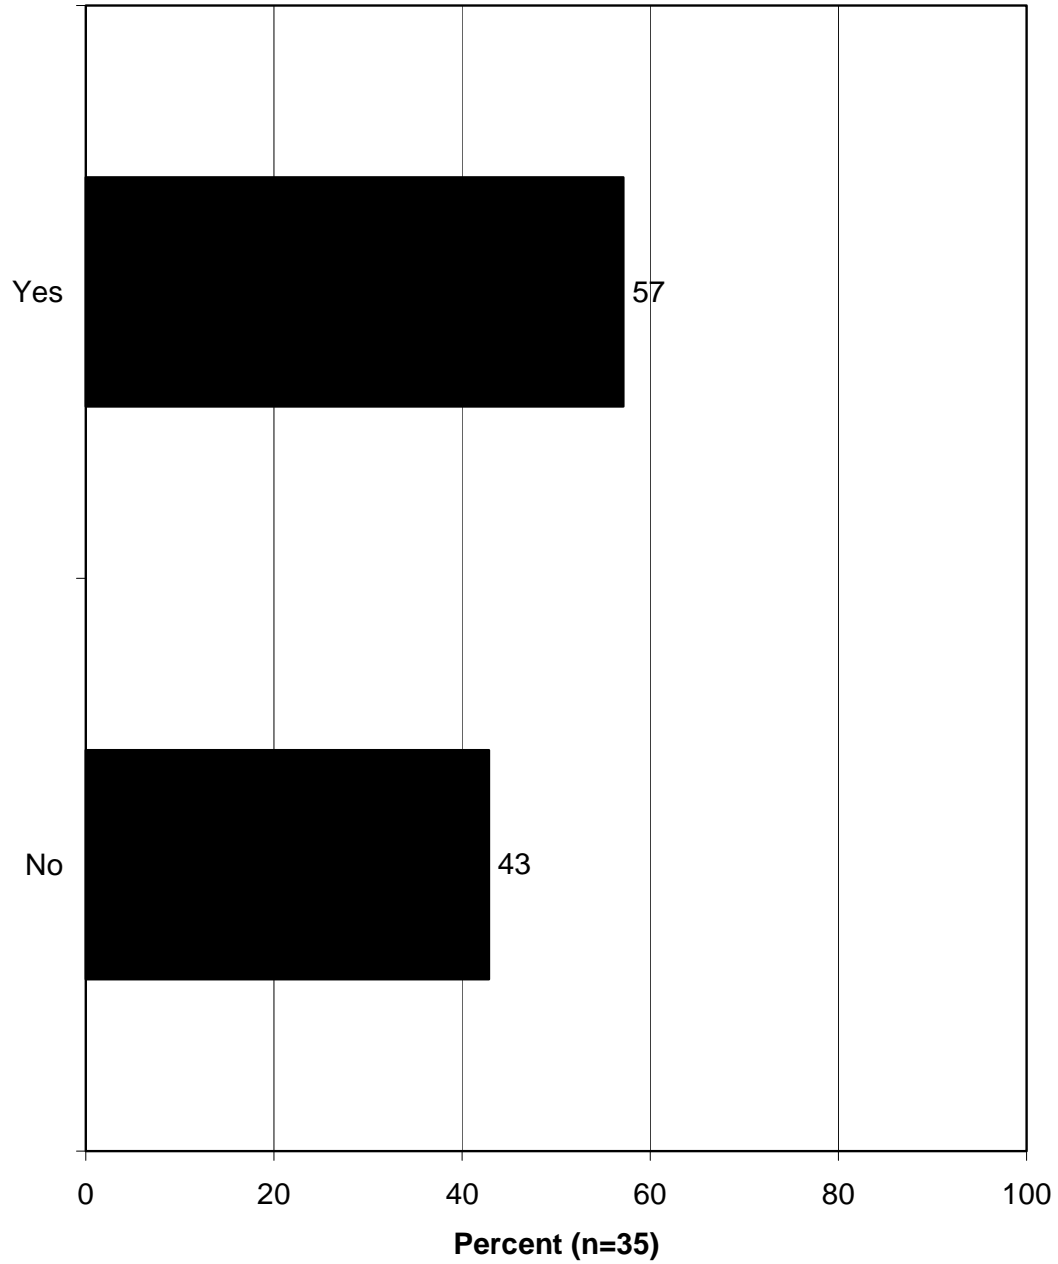

Q76. Has your division provided Web-based programs in the past year (January 2002-January 2003)?

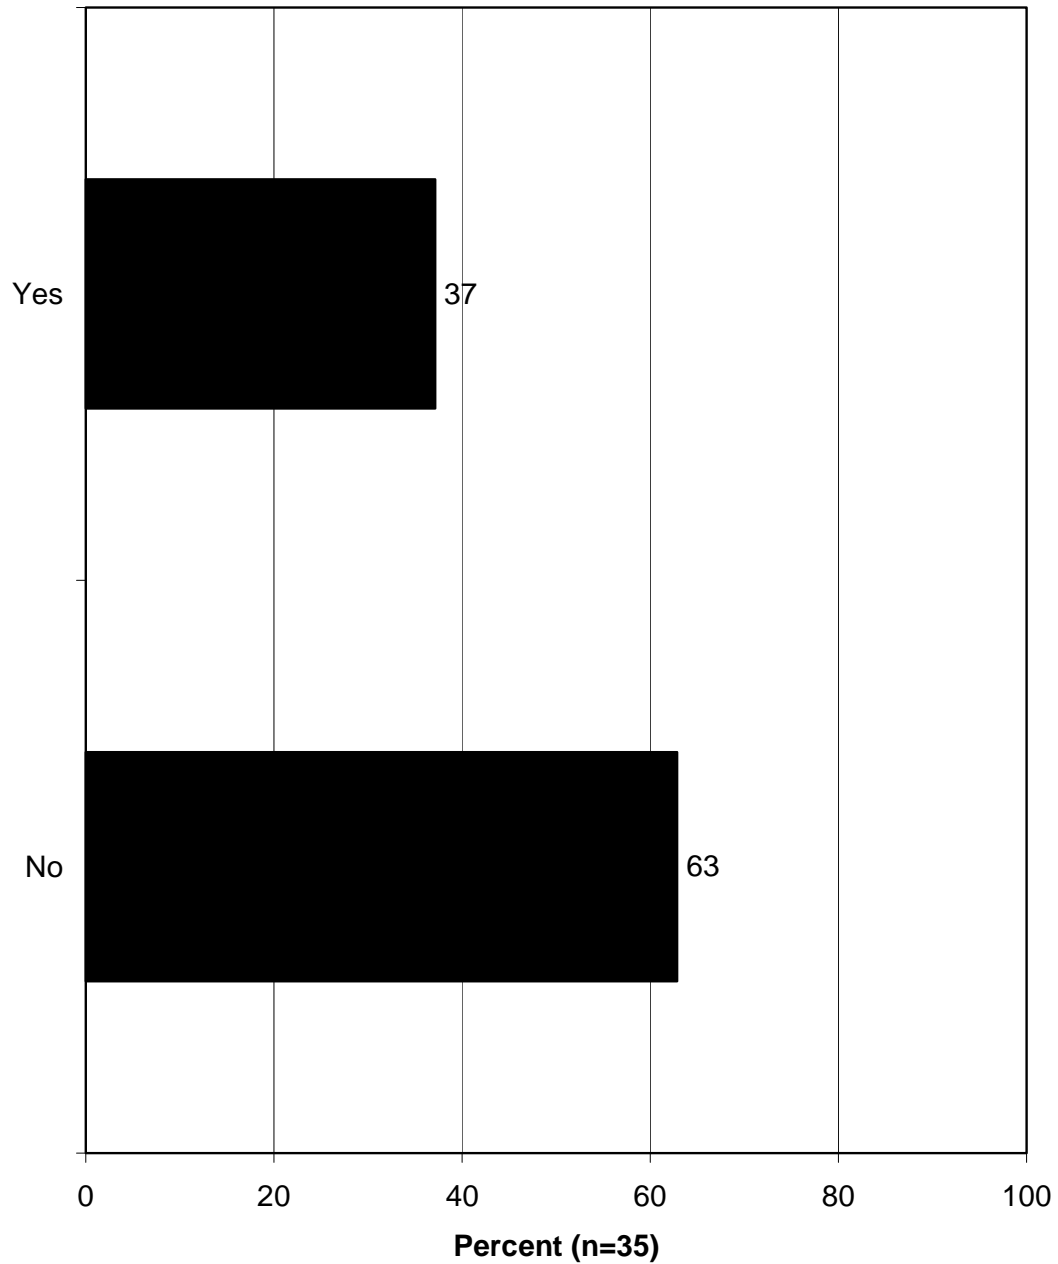

Q78. Has your division provided workshops in the past year (January 2002-January 2003)?

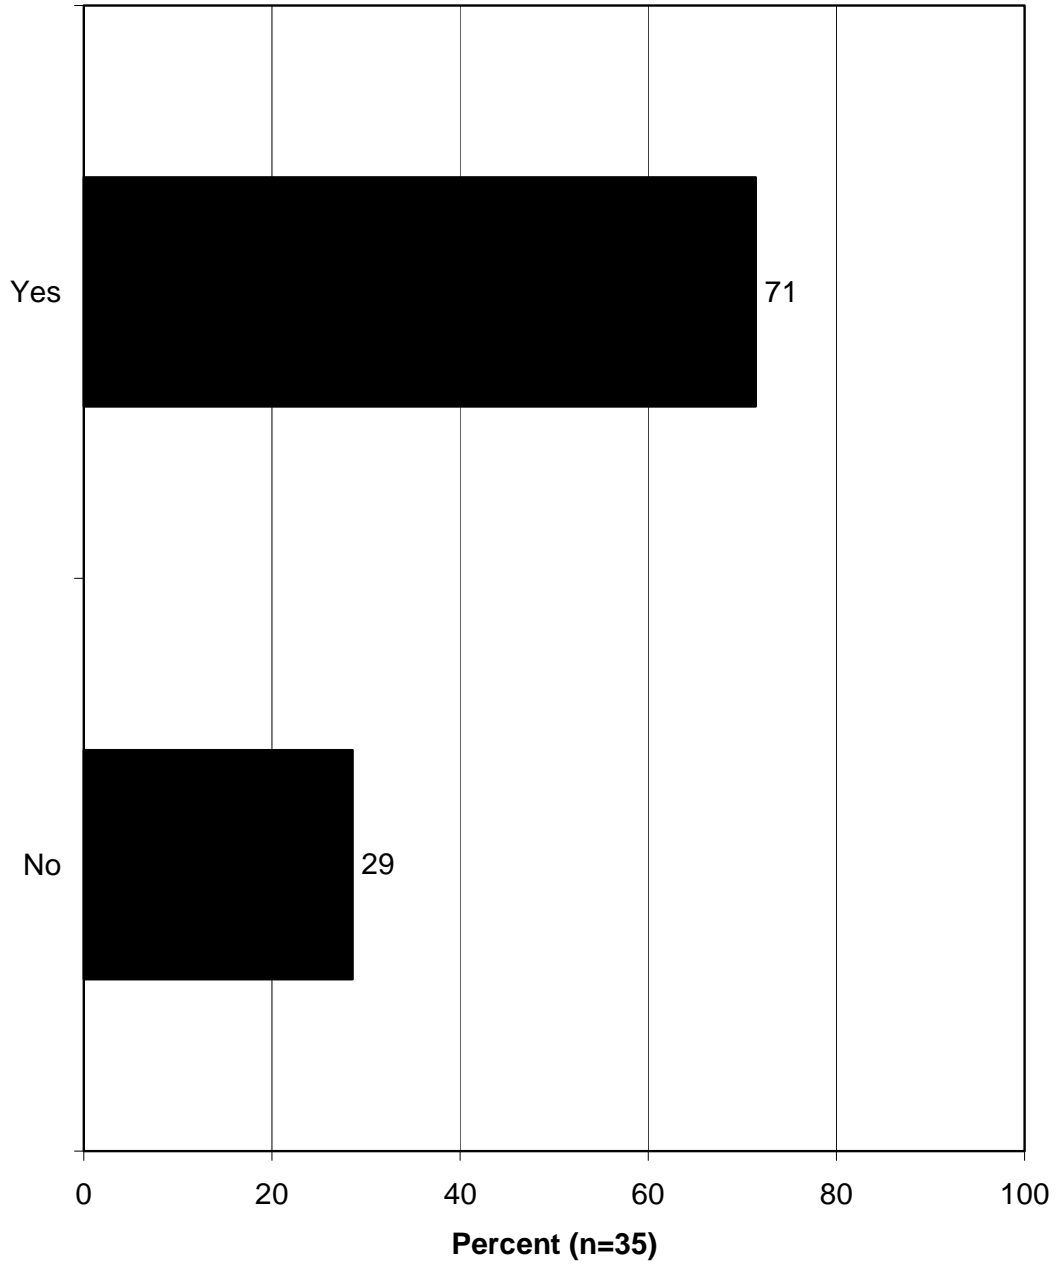

Q87. Does your division offer topics/skills related to biodiversity in its coastal resource education/outreach efforts?

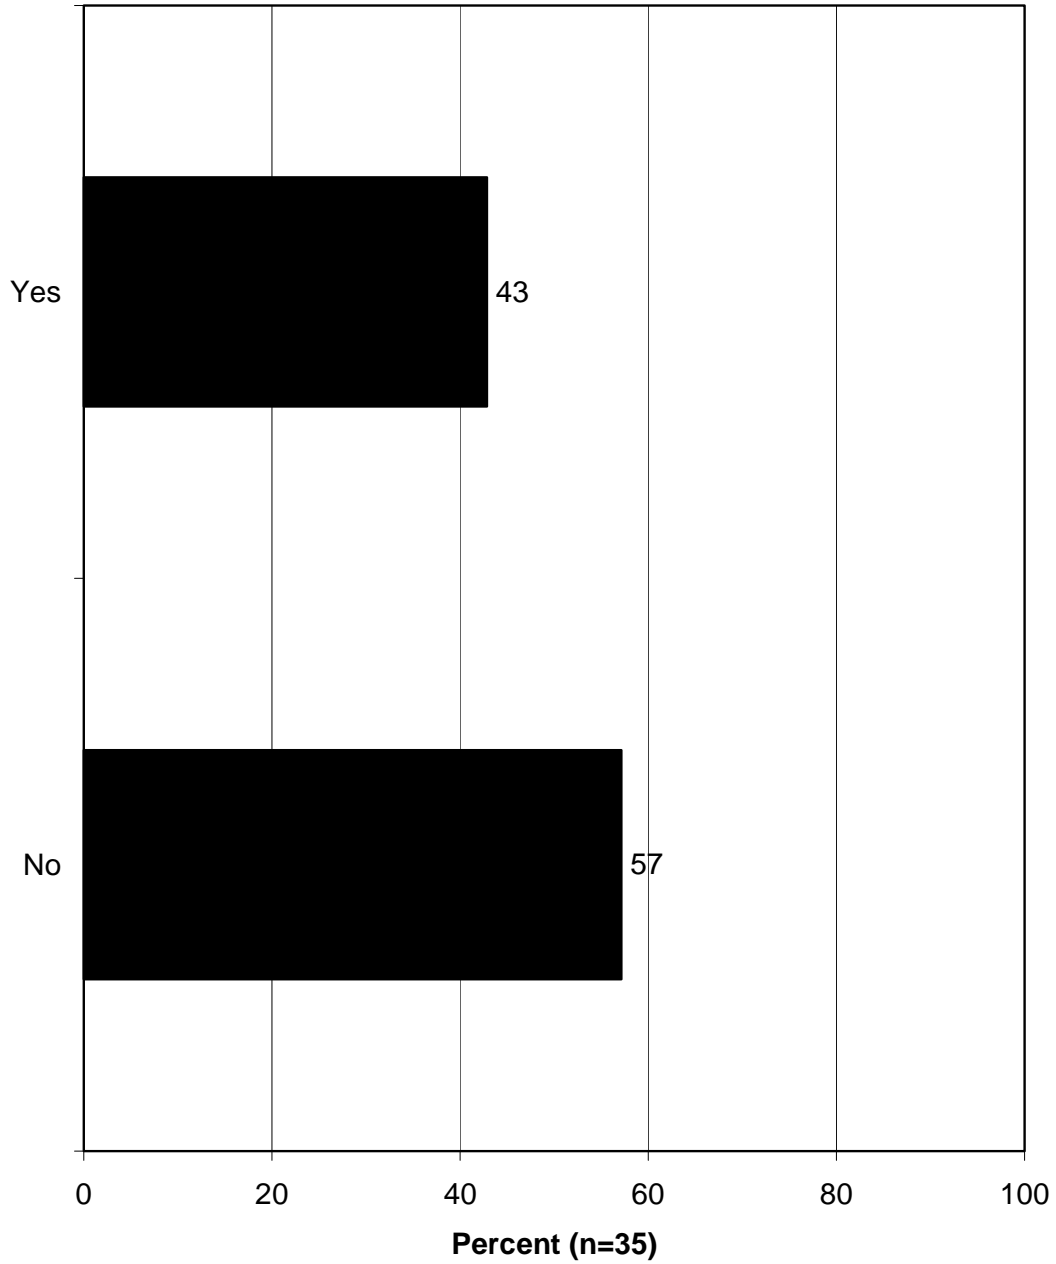

Q88. Does your division offer topics/skills related to habitat fragmentation in its coastal resource education/outreach efforts?

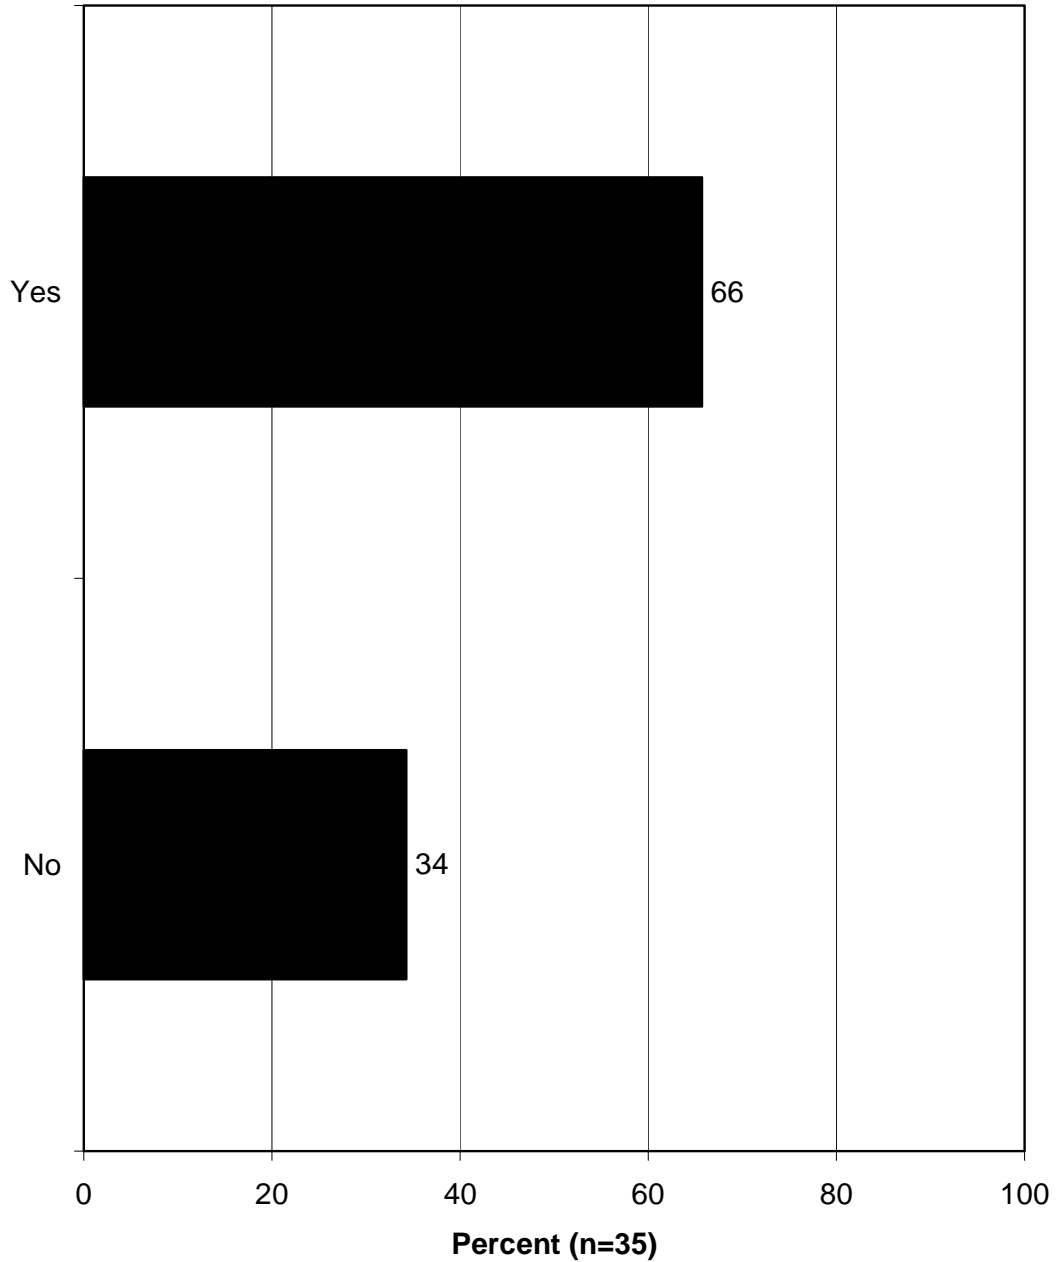

Q89. Does your division offer topics/skills related to habitat protection and restoration in its coastal resource education/outreach efforts?

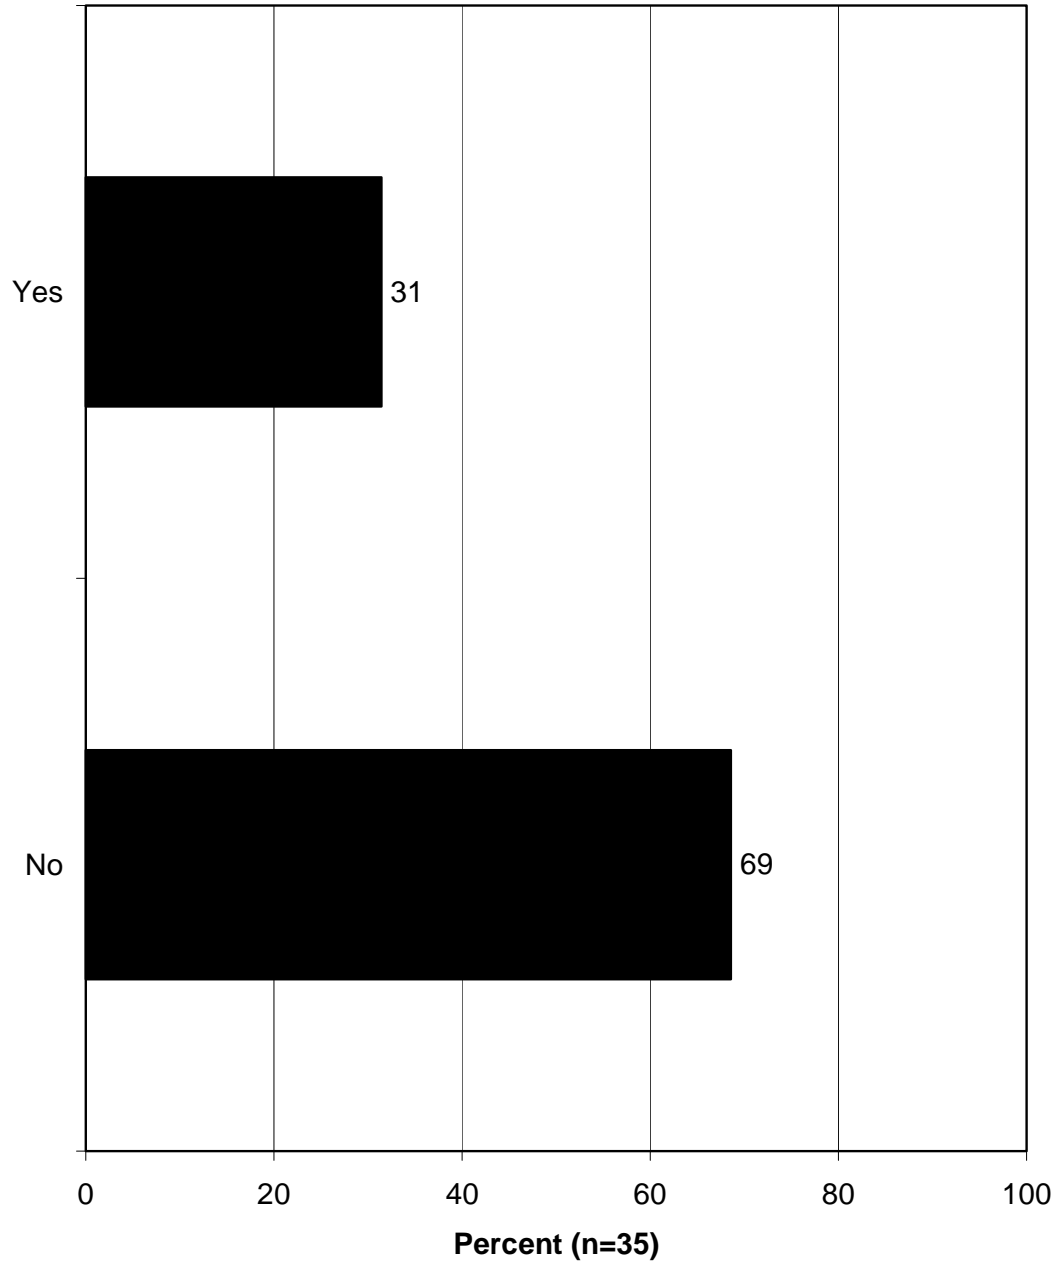

Q90. Does your division offer topics/skills related to buffers in its coastal resource education/outreach efforts?

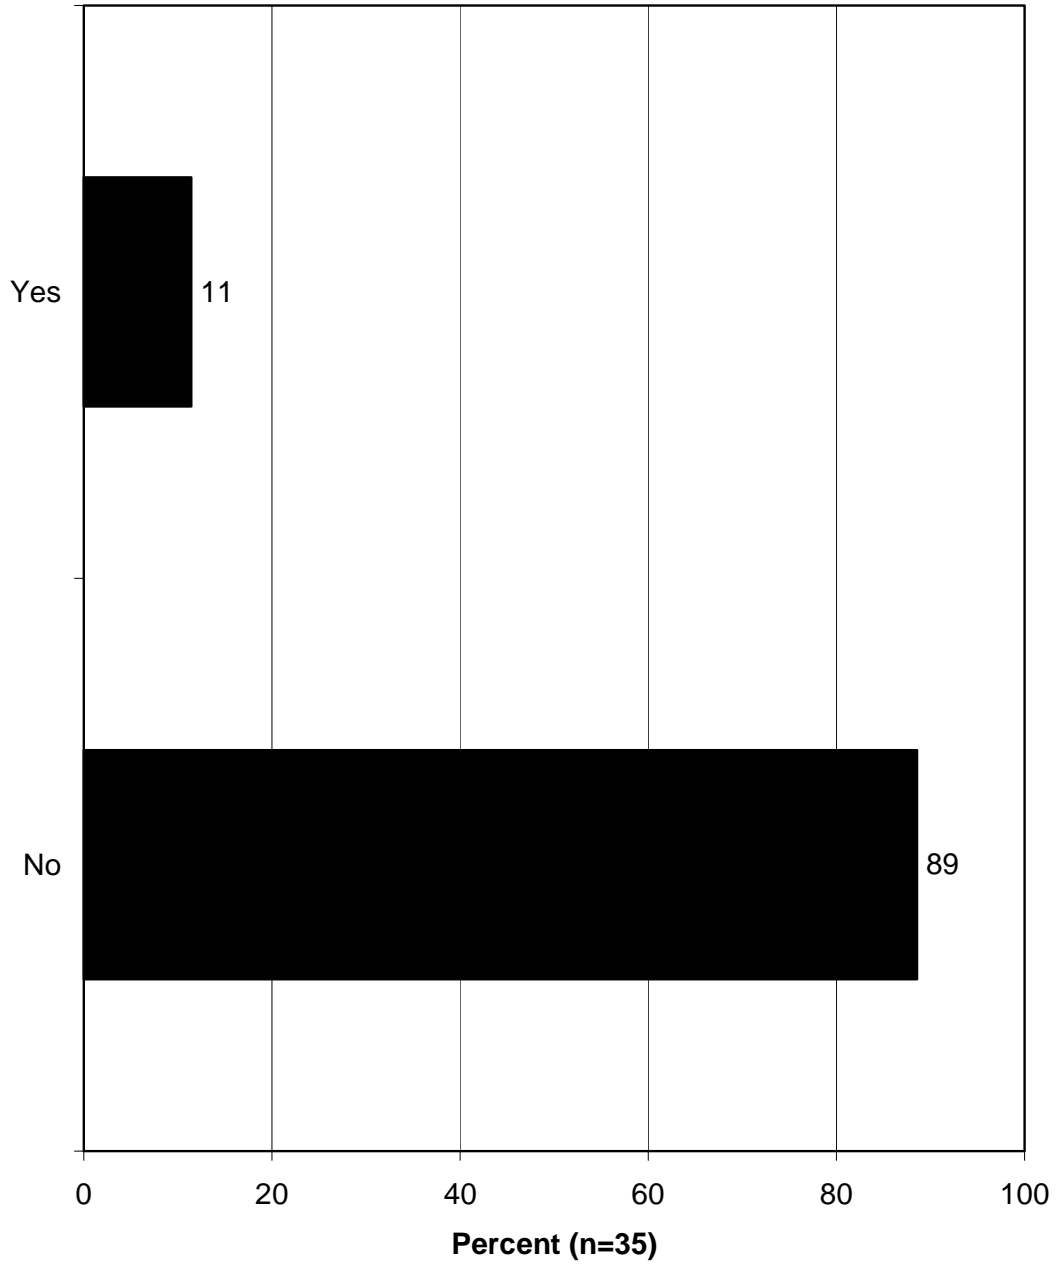

Q91. Does your division offer topics/skills related to wetlands and waterways protection in its coastal resource education/outreach efforts?

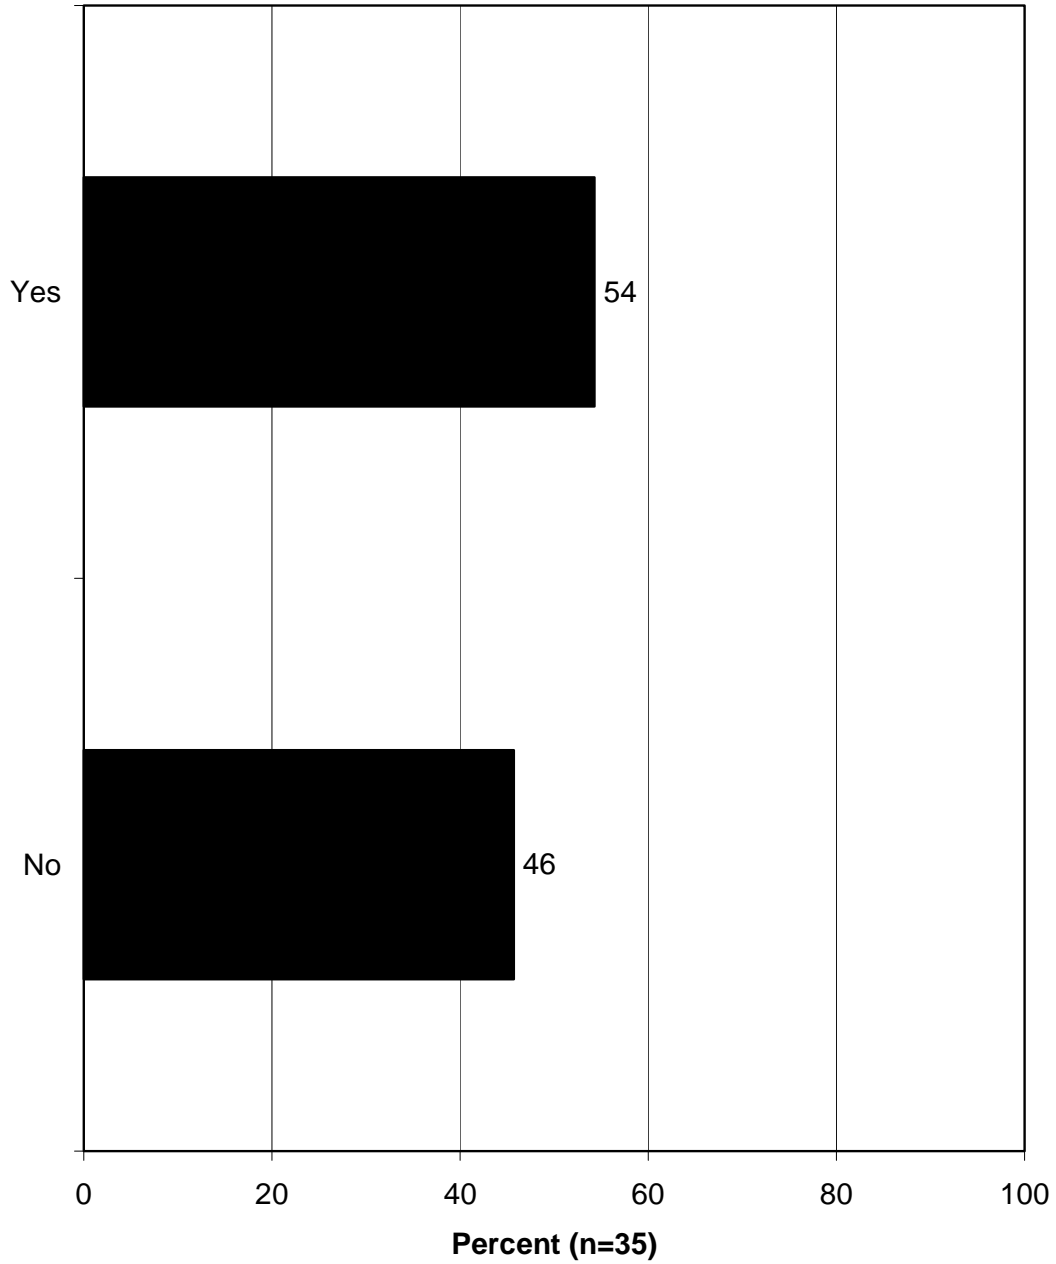

Q92. Does your division offer topics/skills related to special area management in its coastal resource education/outreach efforts?

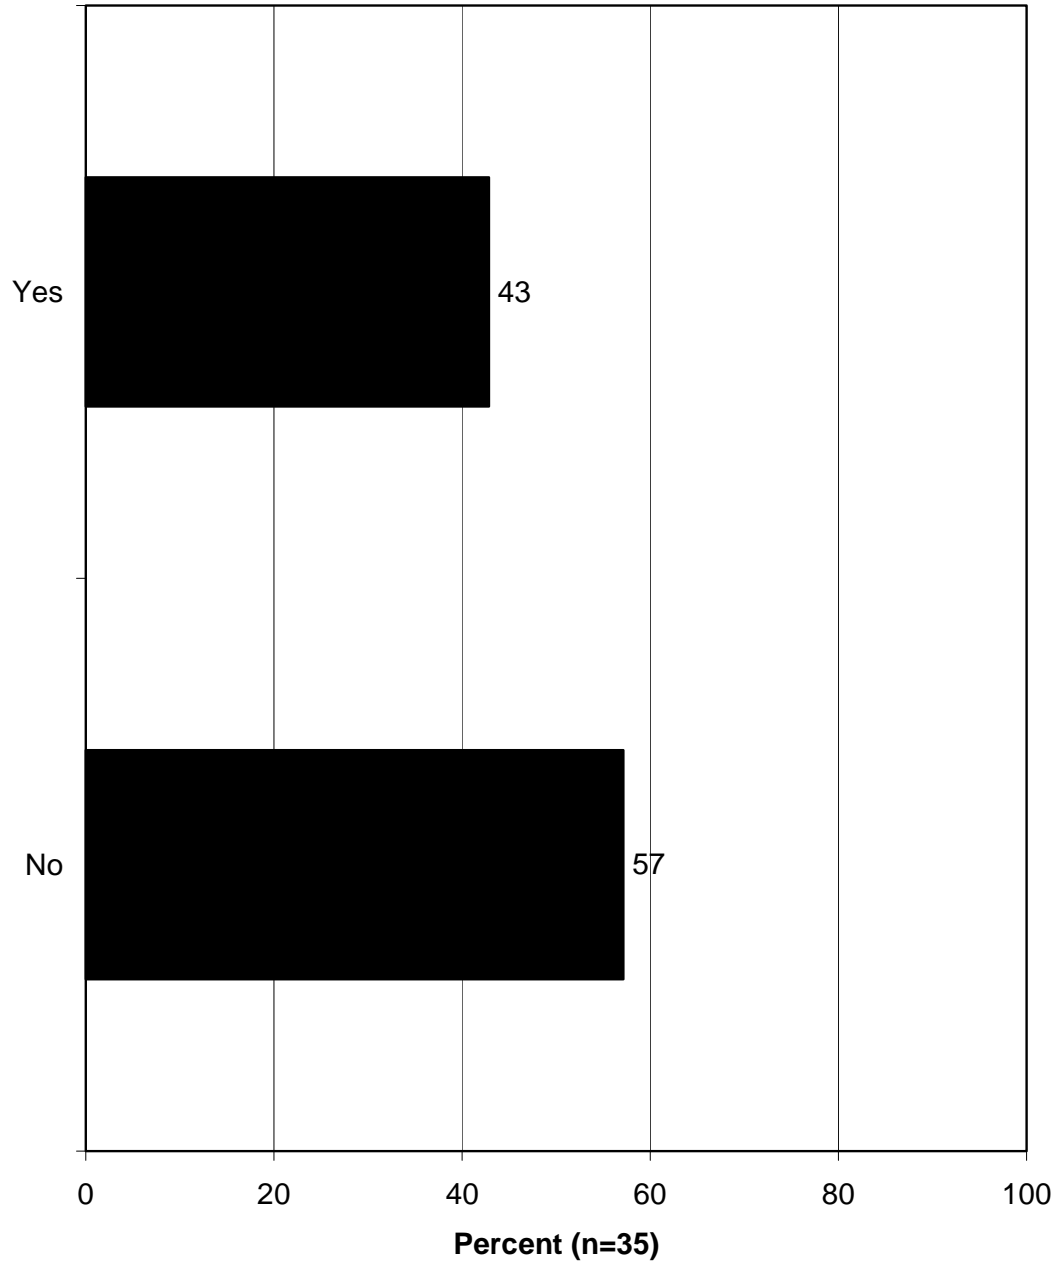

Q93. Does your division offer topics/skills related to fire management in its coastal resource education/outreach efforts?

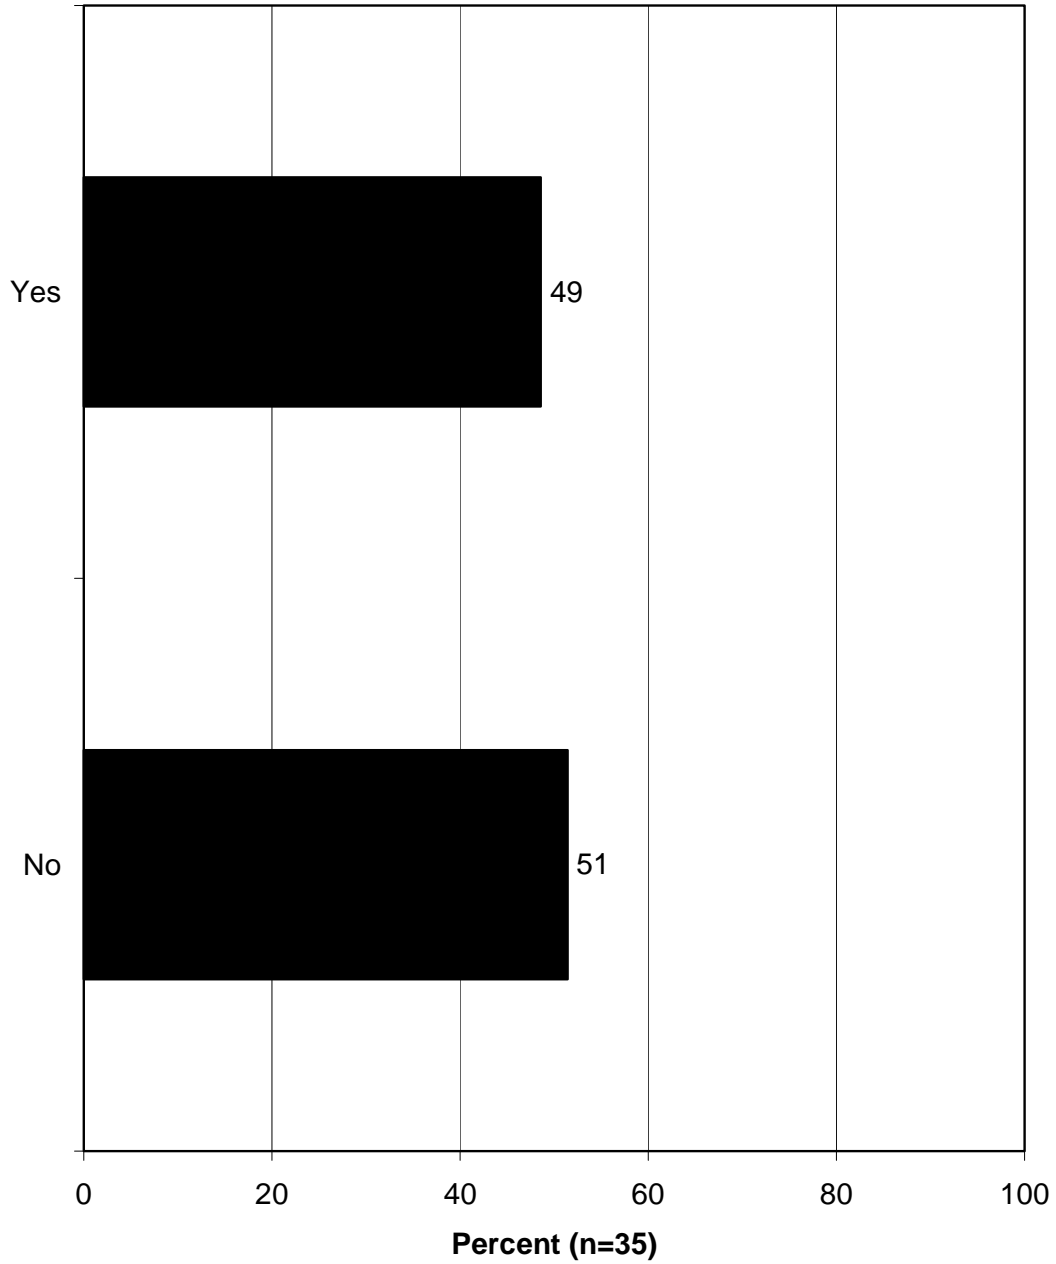

Q94. Does your division offer topics/skills related to native plants in its coastal resource education/outreach efforts?

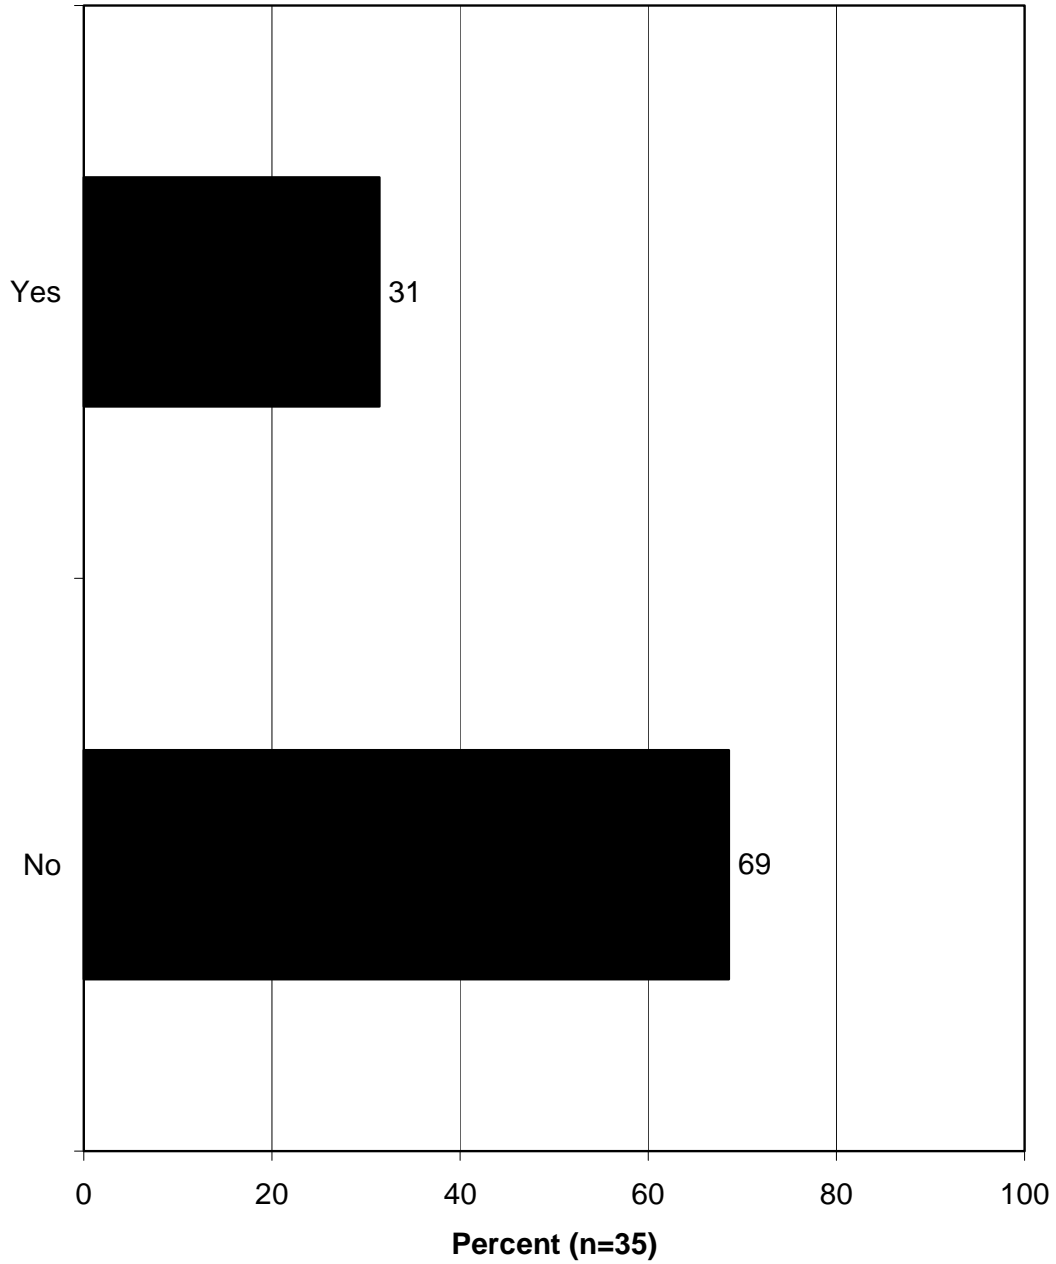

Q95. Does your division offer topics/skills related to wildlife corridors in its coastal resource education/outreach efforts?

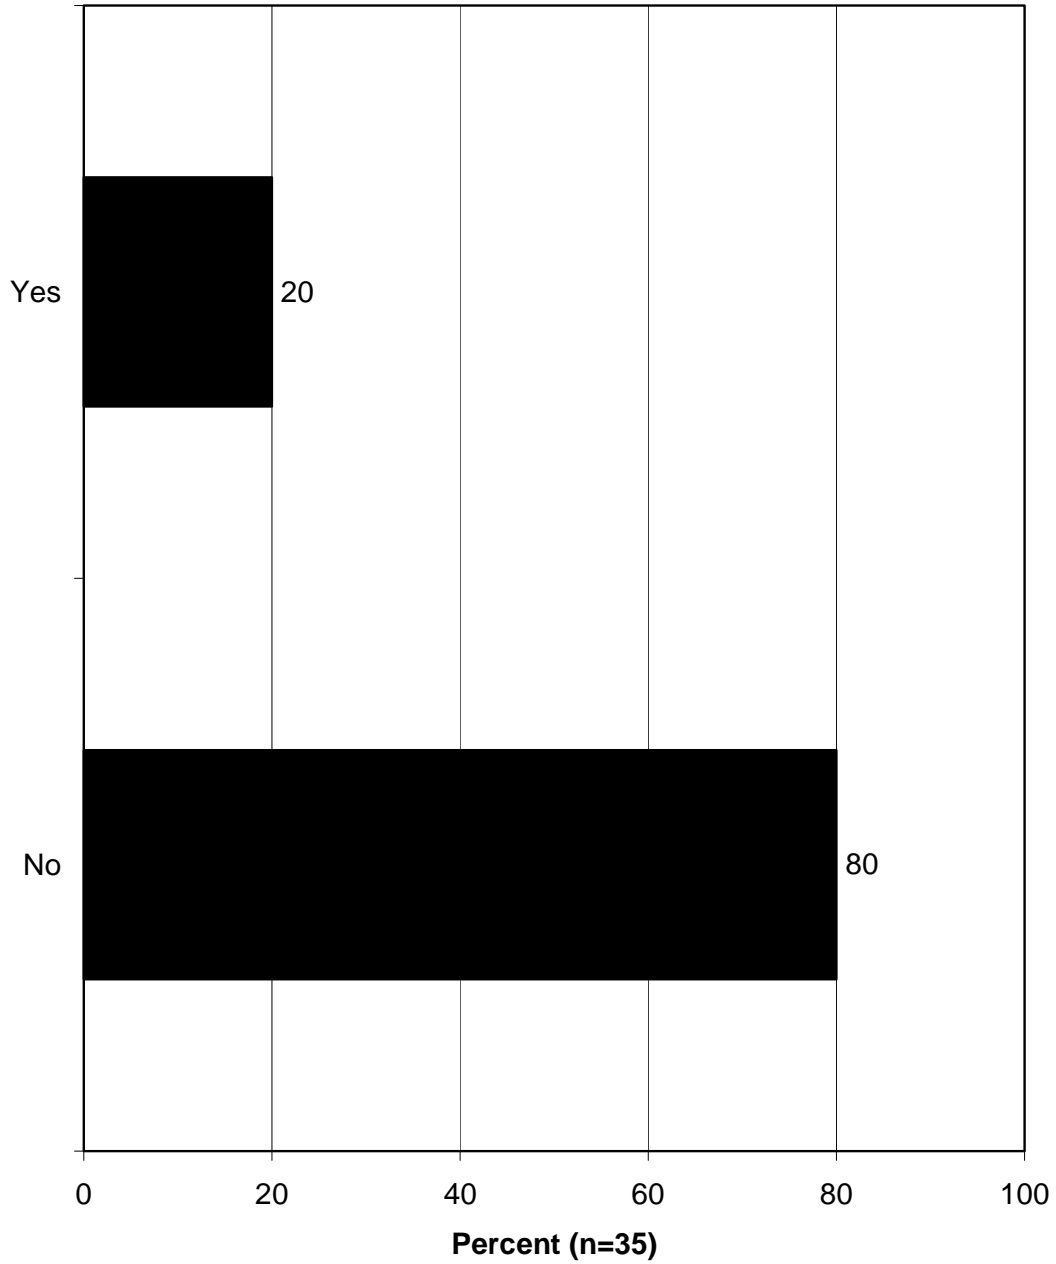

Q96. Does your division offer topics/skills related to urban sprawl in its coastal resource education/outreach efforts?

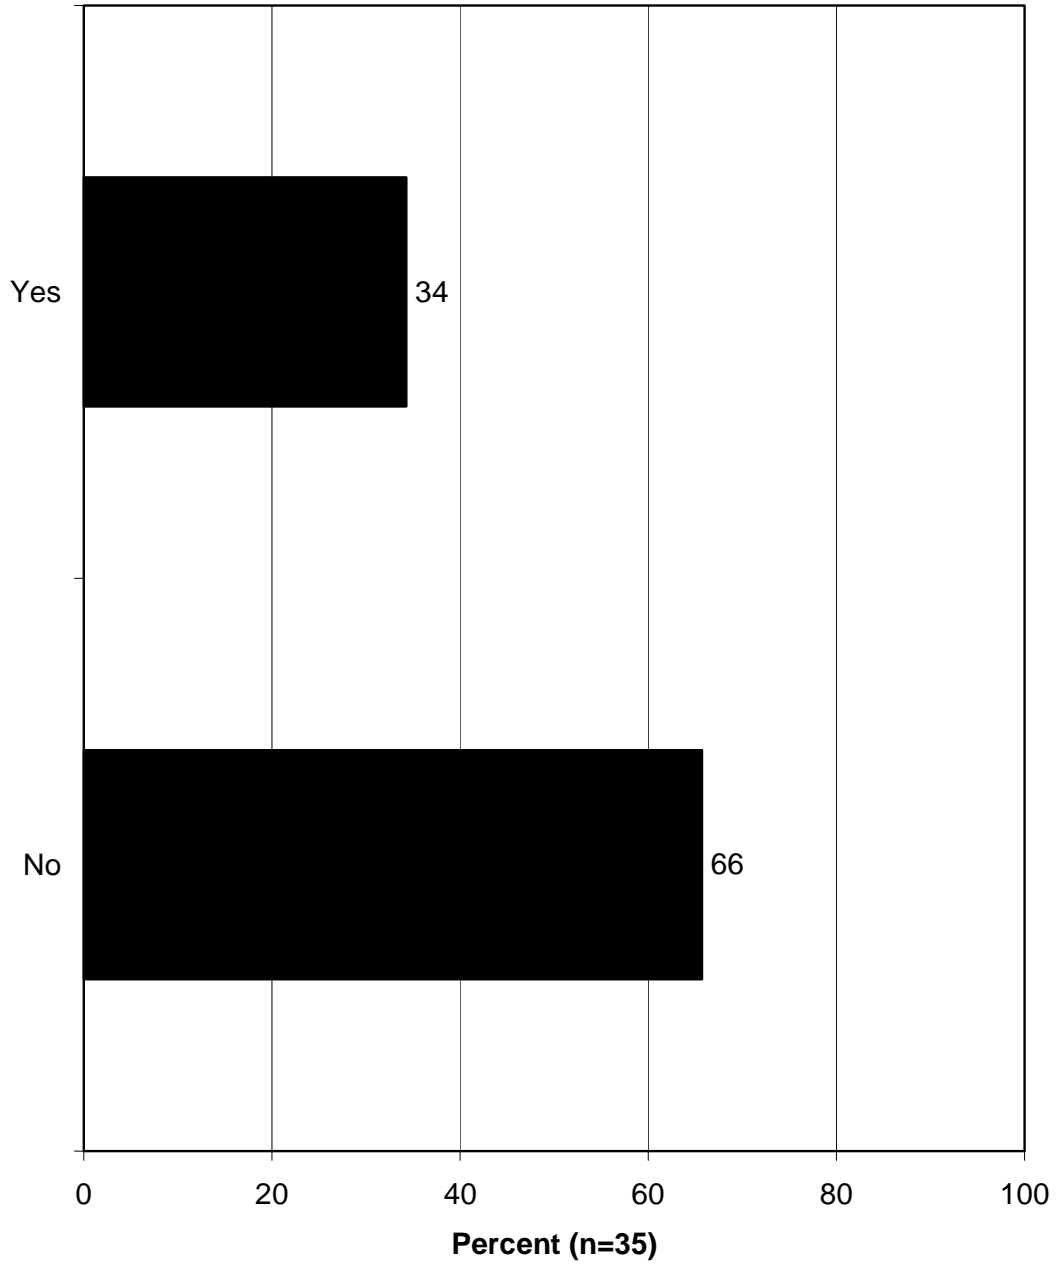

Q97. Does your division offer topics/skills related to beach nourishment in its coastal resource education/outreach efforts?

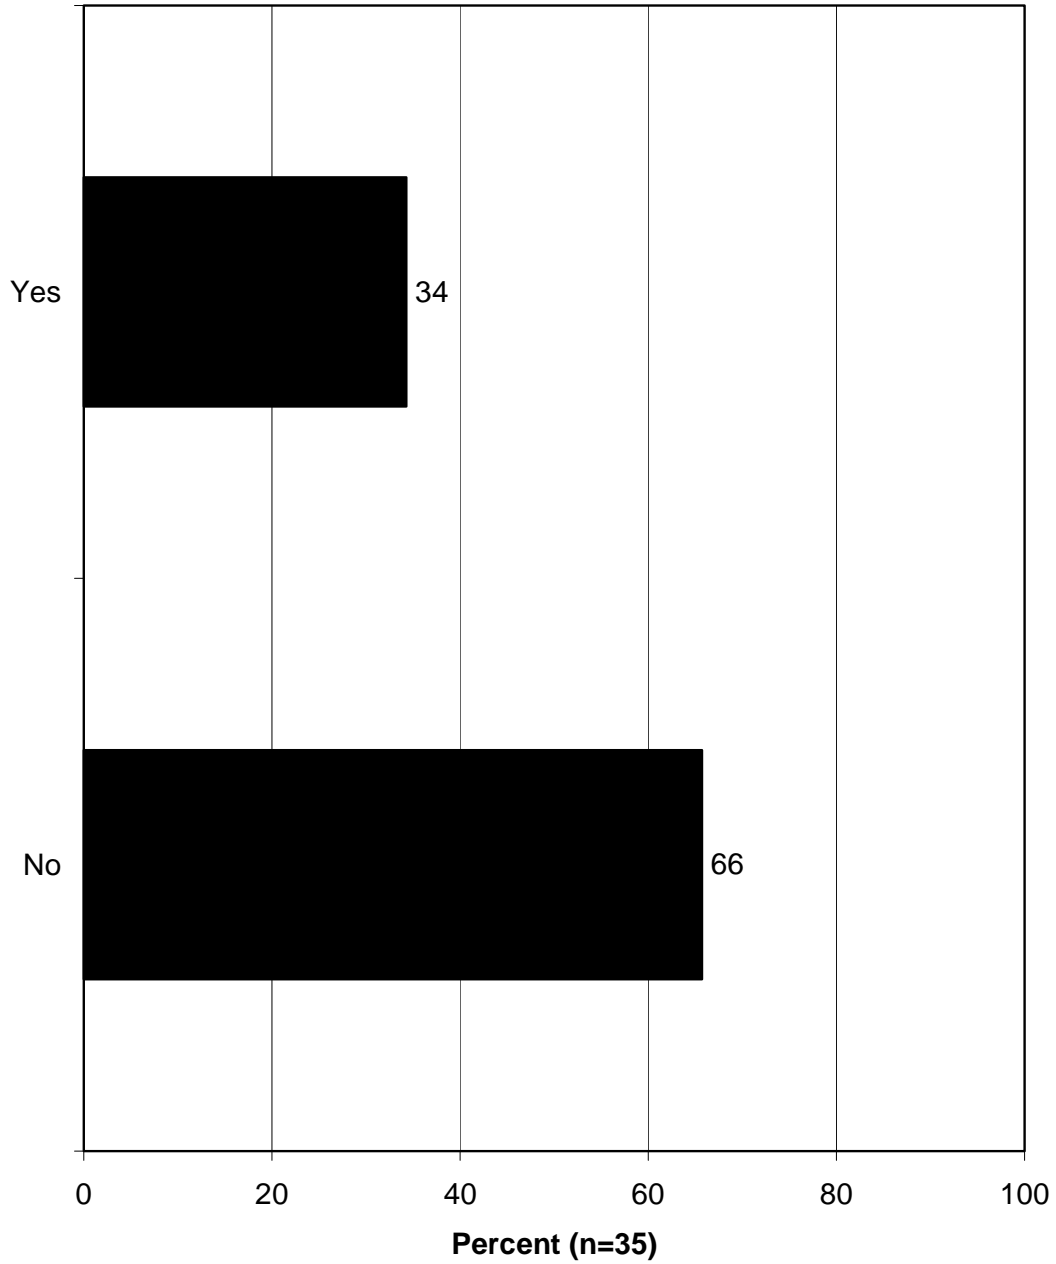

Q98. Does your division offer topics/skills related to boat/marina management in its coastal resource education/outreach efforts?

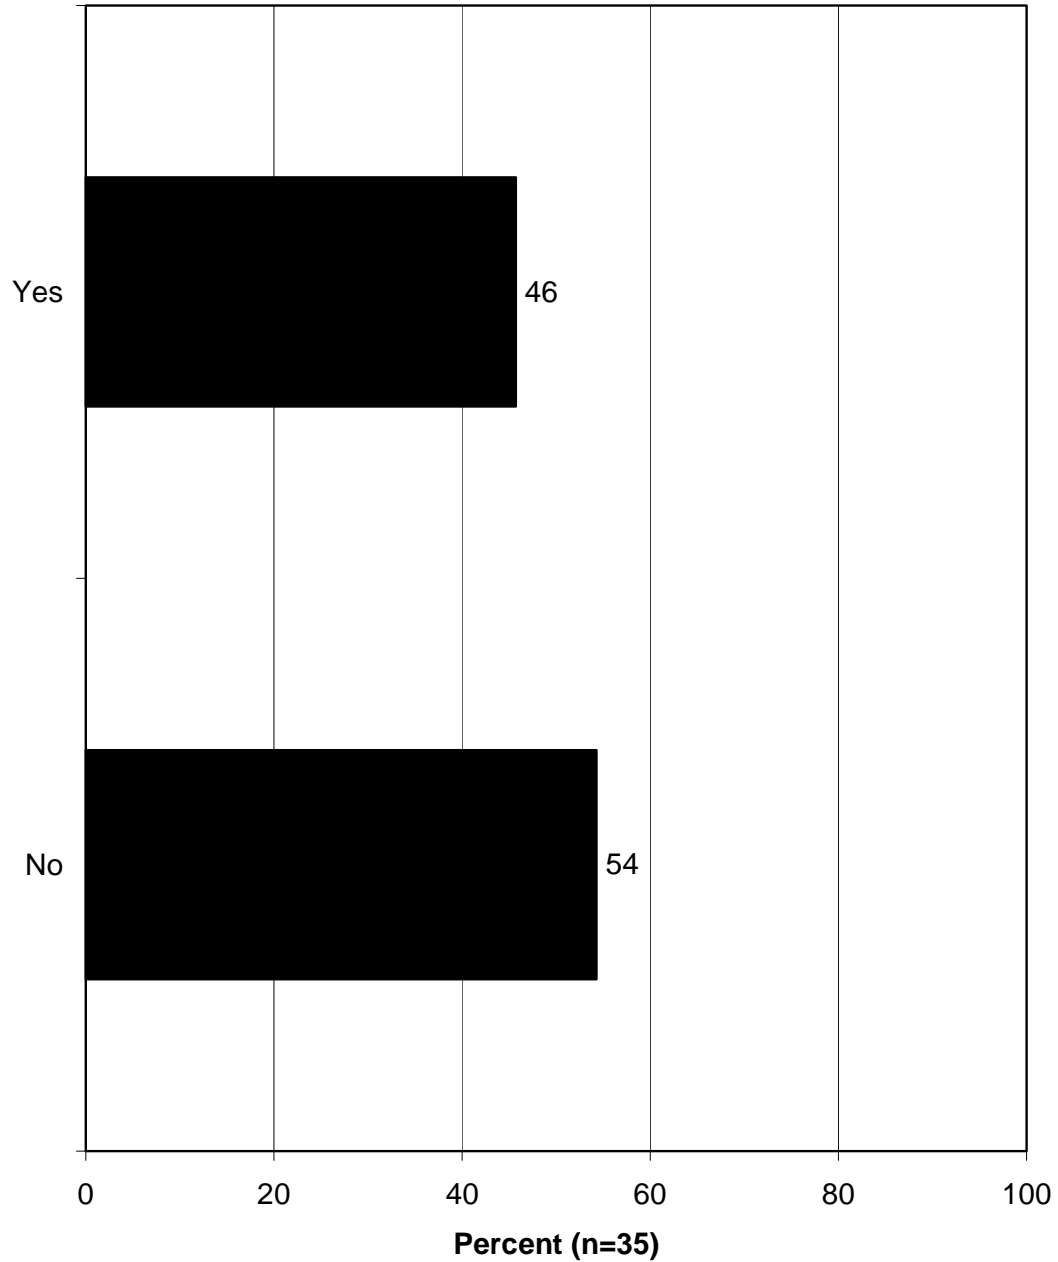

Q99. Does your division offer topics/skills related to coastal community development in its coastal resource education/outreach efforts?

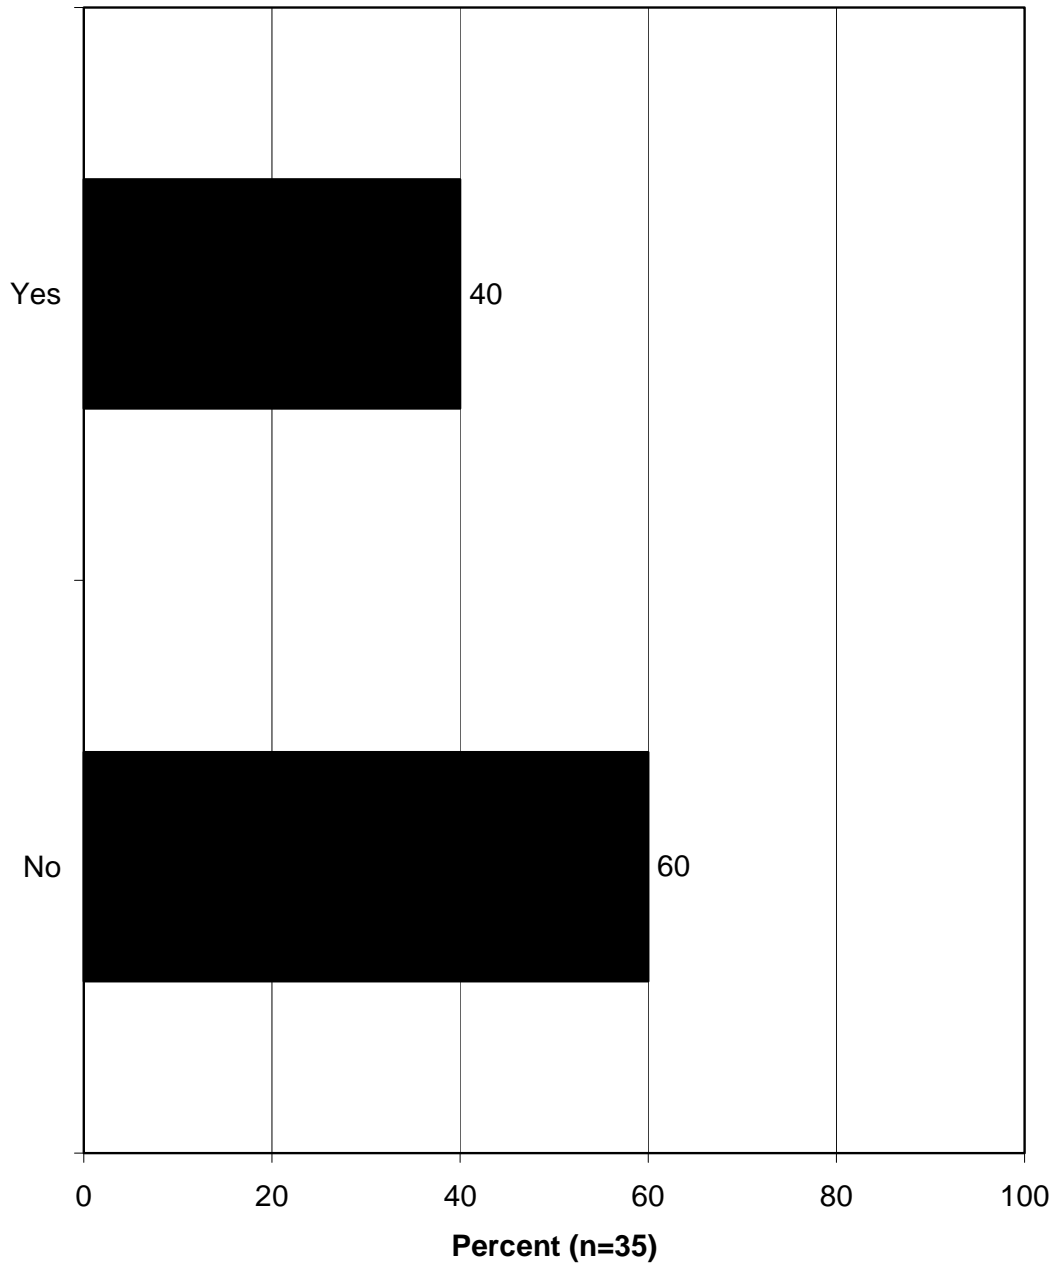

Q100. Does your division offer topics/skills related to coastal construction in its coastal resource education/outreach efforts?

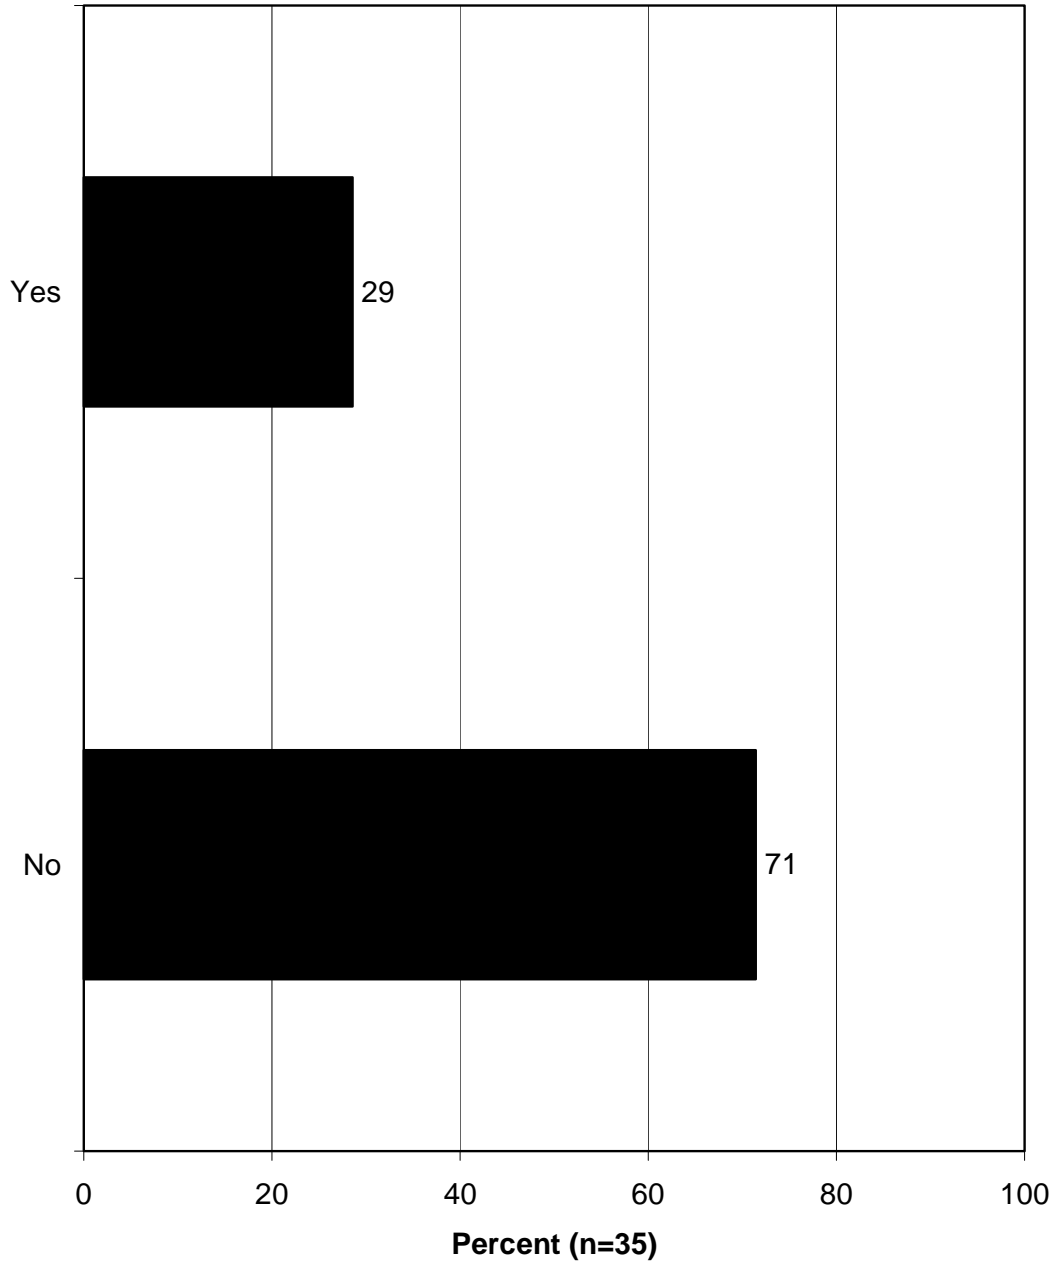

Q101. Does your division offer topics/skills related to coastal erosion and accretion in its coastal resource education/outreach efforts?

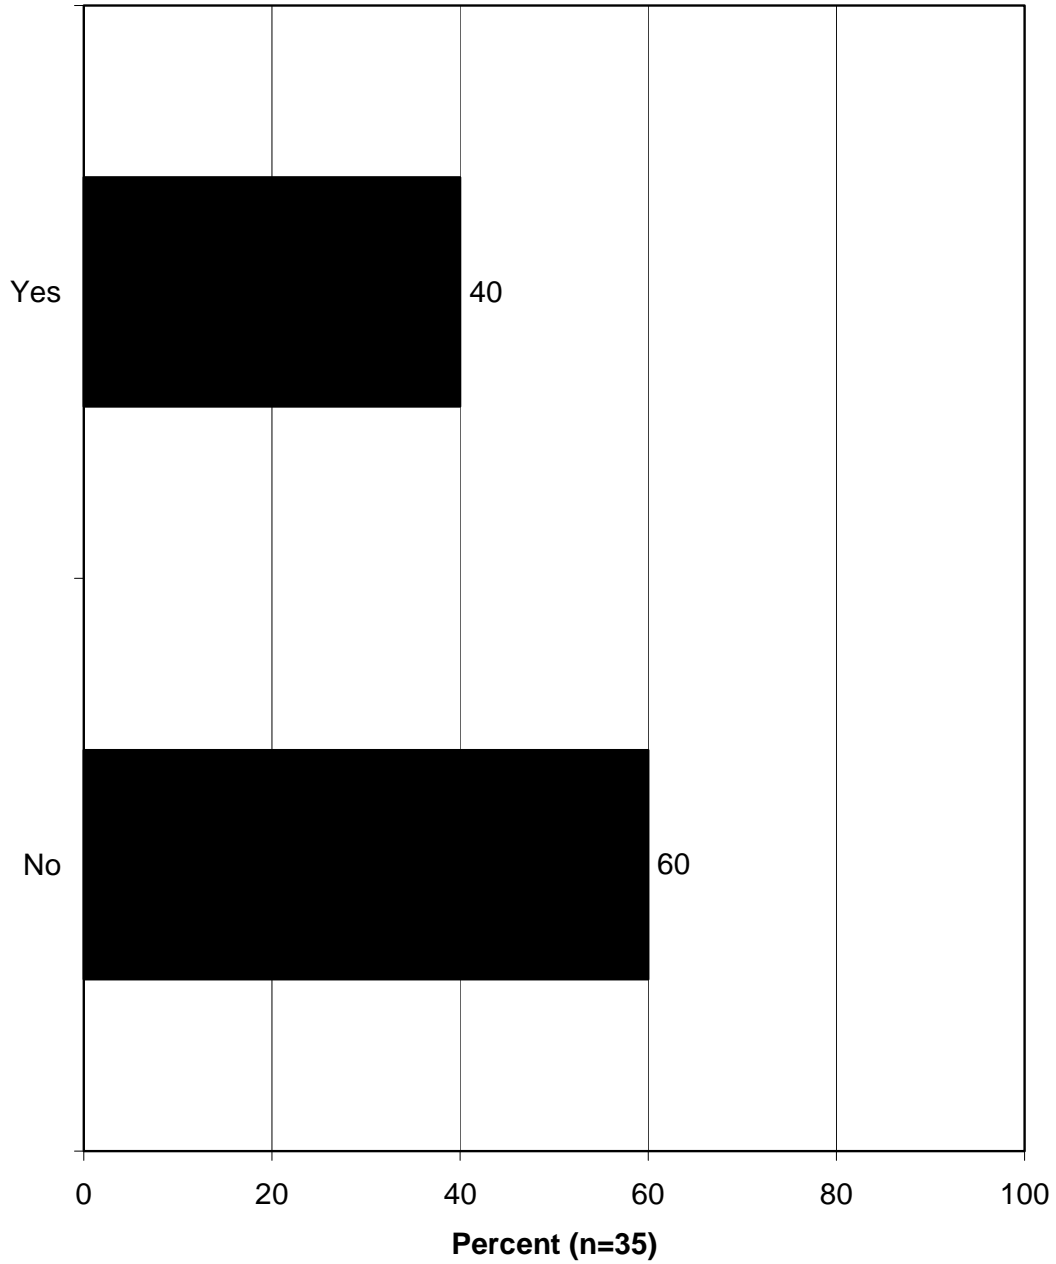

Q102. Does your division offer topics/skills related to dredging and filling in its coastal resource education/outreach efforts?

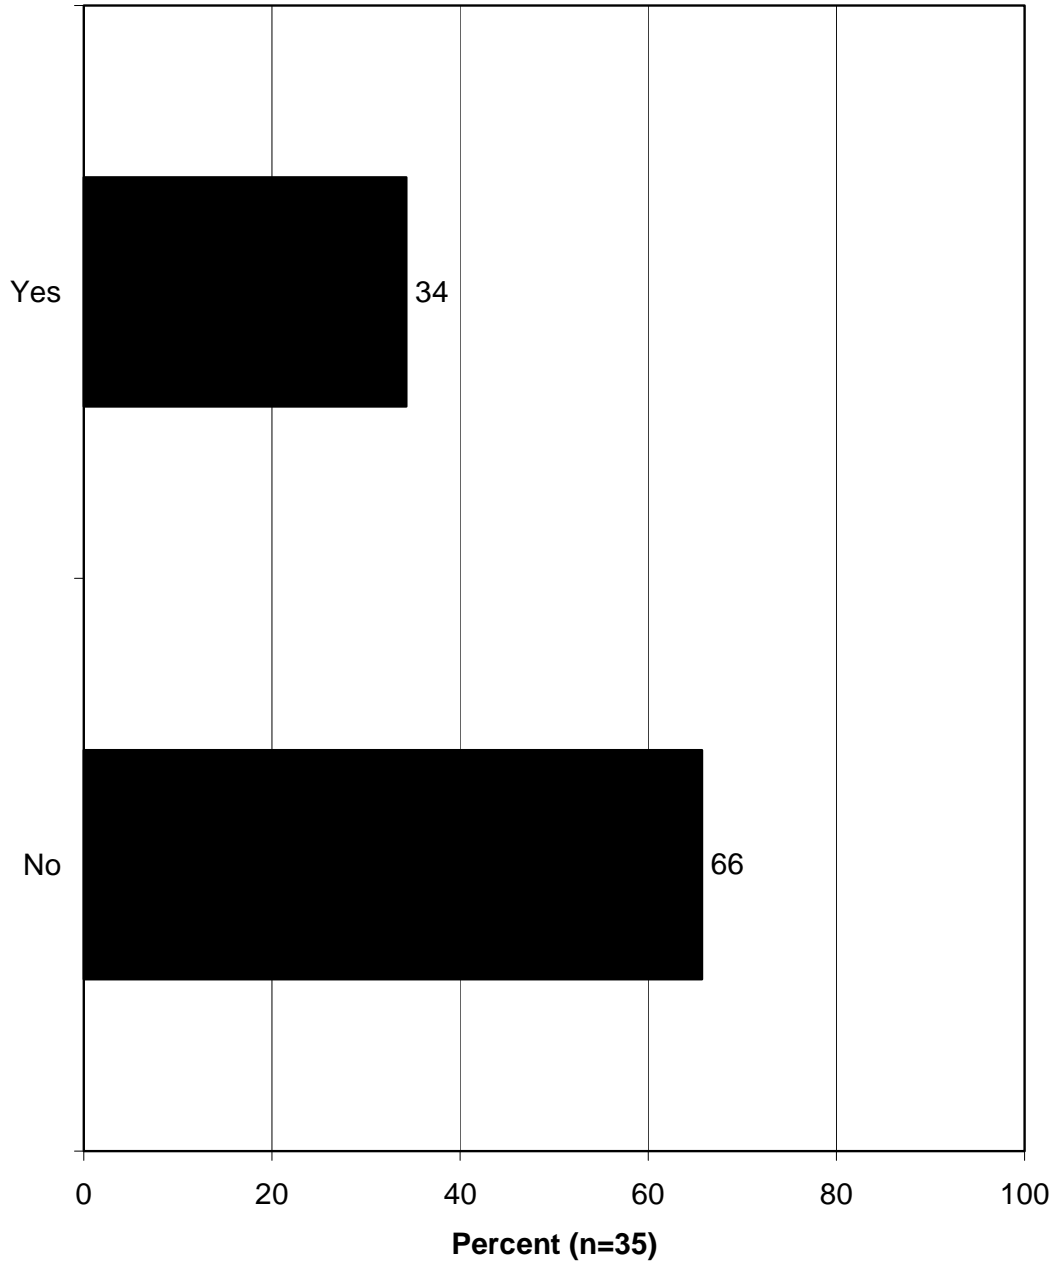

Q103. Does your division offer topics/skills related to coastal hazards in its coastal resource education/outreach efforts?

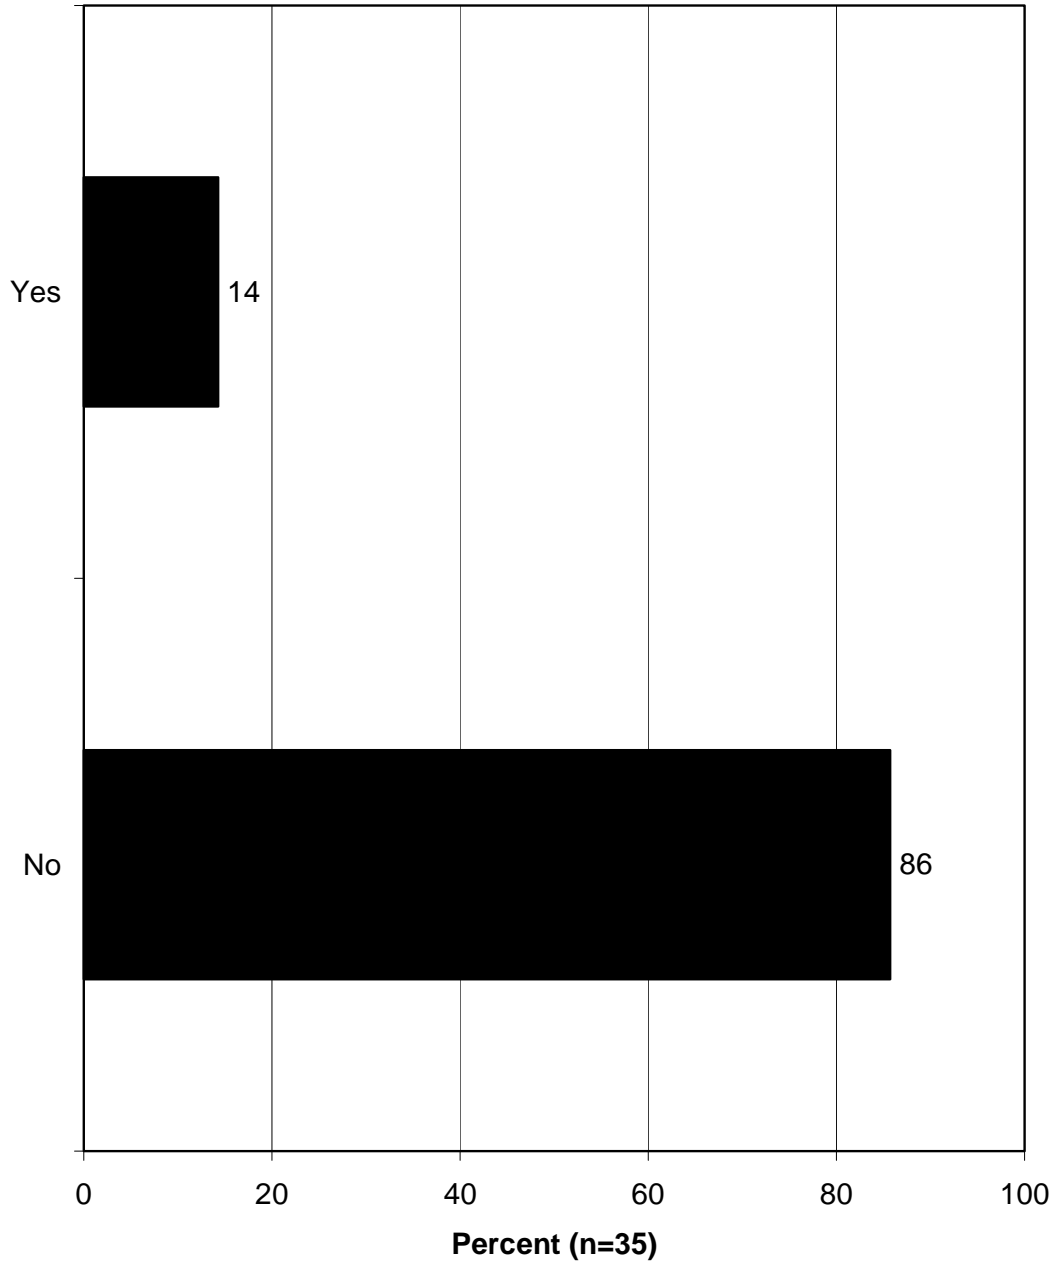

Q104. Does your division offer topics/skills related to coastal processes/geology in its coastal resource education/outreach efforts?

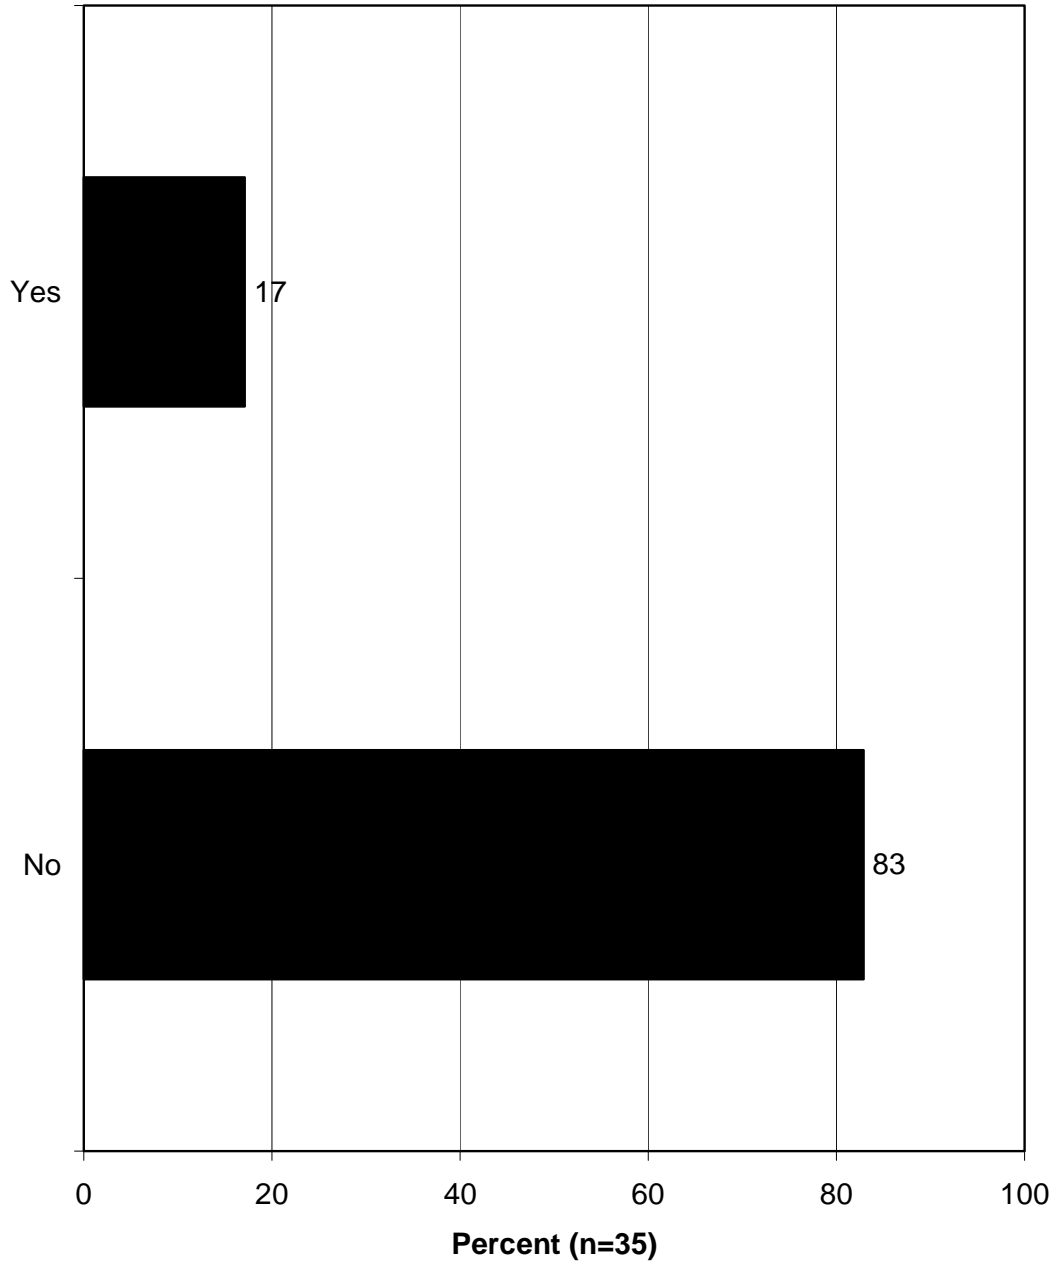

Q105. Does your division offer topics/skills related to public access in its coastal resource education/outreach efforts?

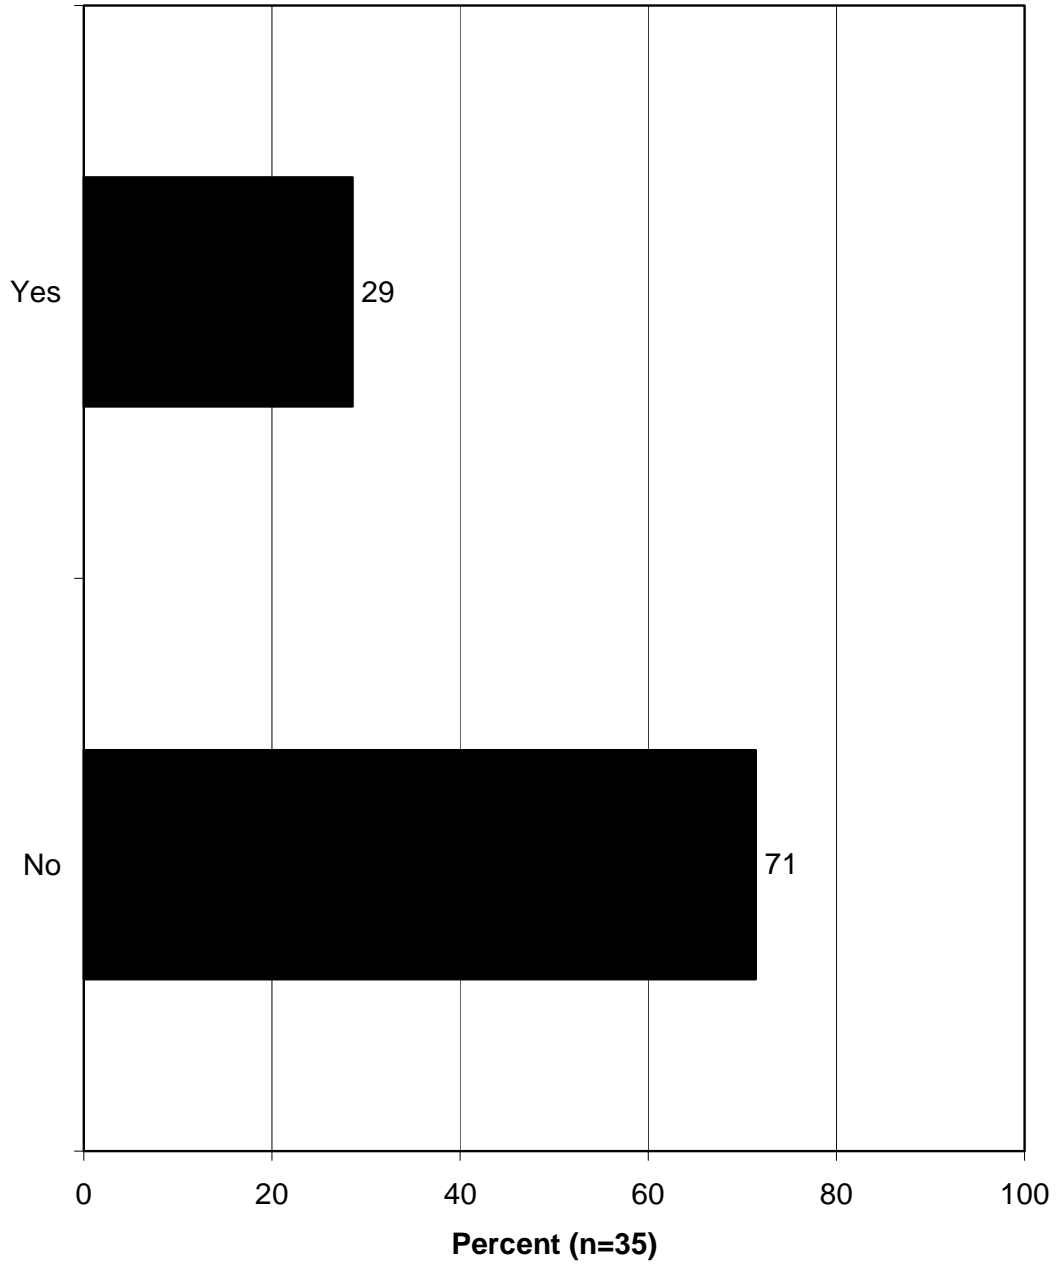

Q106. Does your division offer topics/skills related to severe weather emergency management in its coastal resource education/outreach efforts?

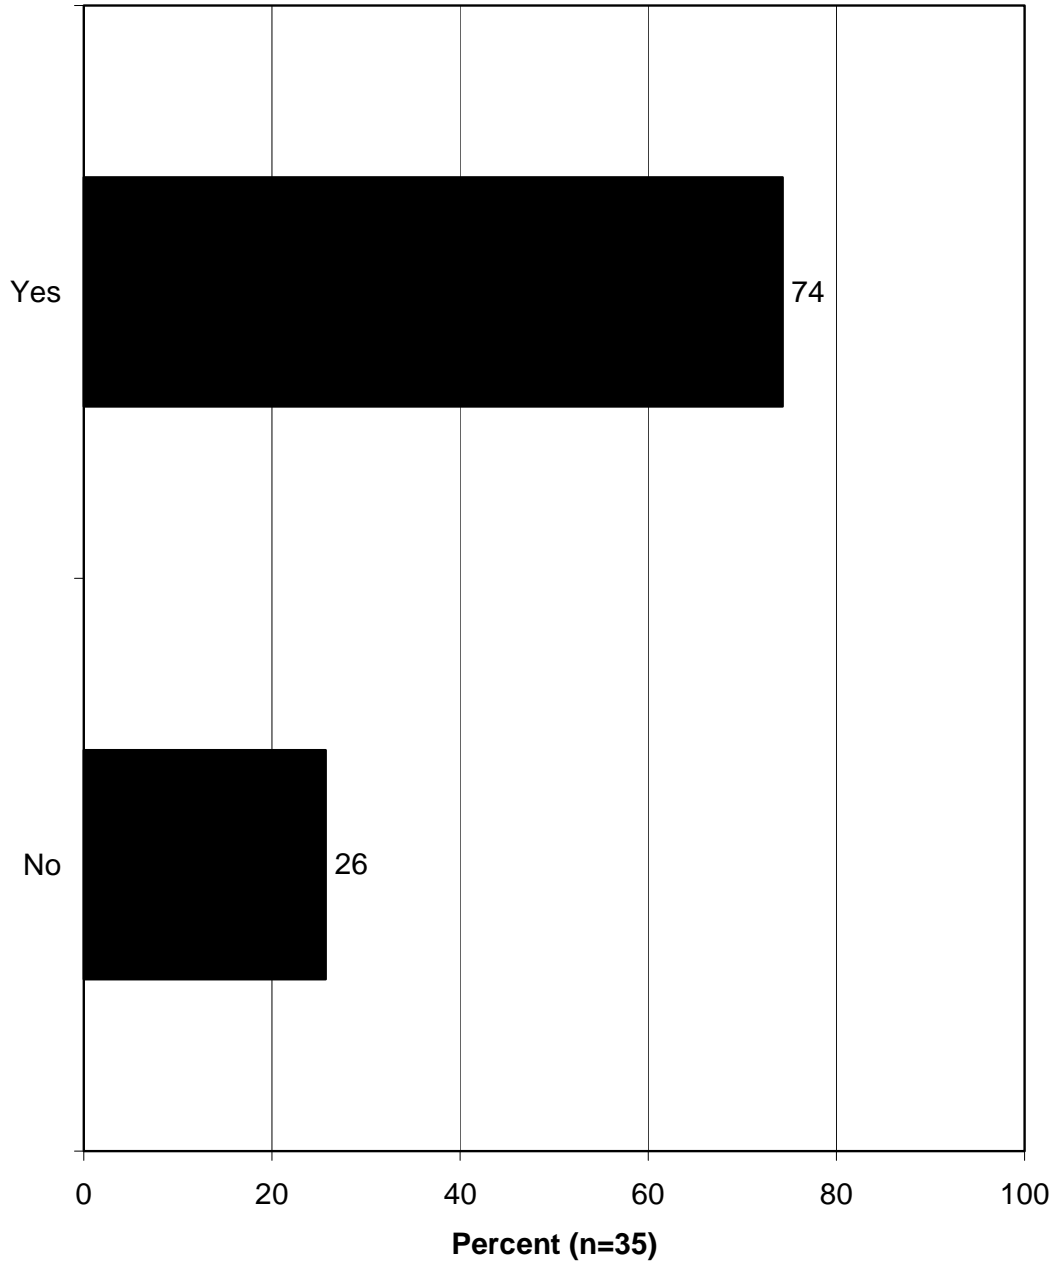

Q107. Does your division offer topics/skills related to ports, navigation, or transportation planning in its coastal resource education/outreach efforts?

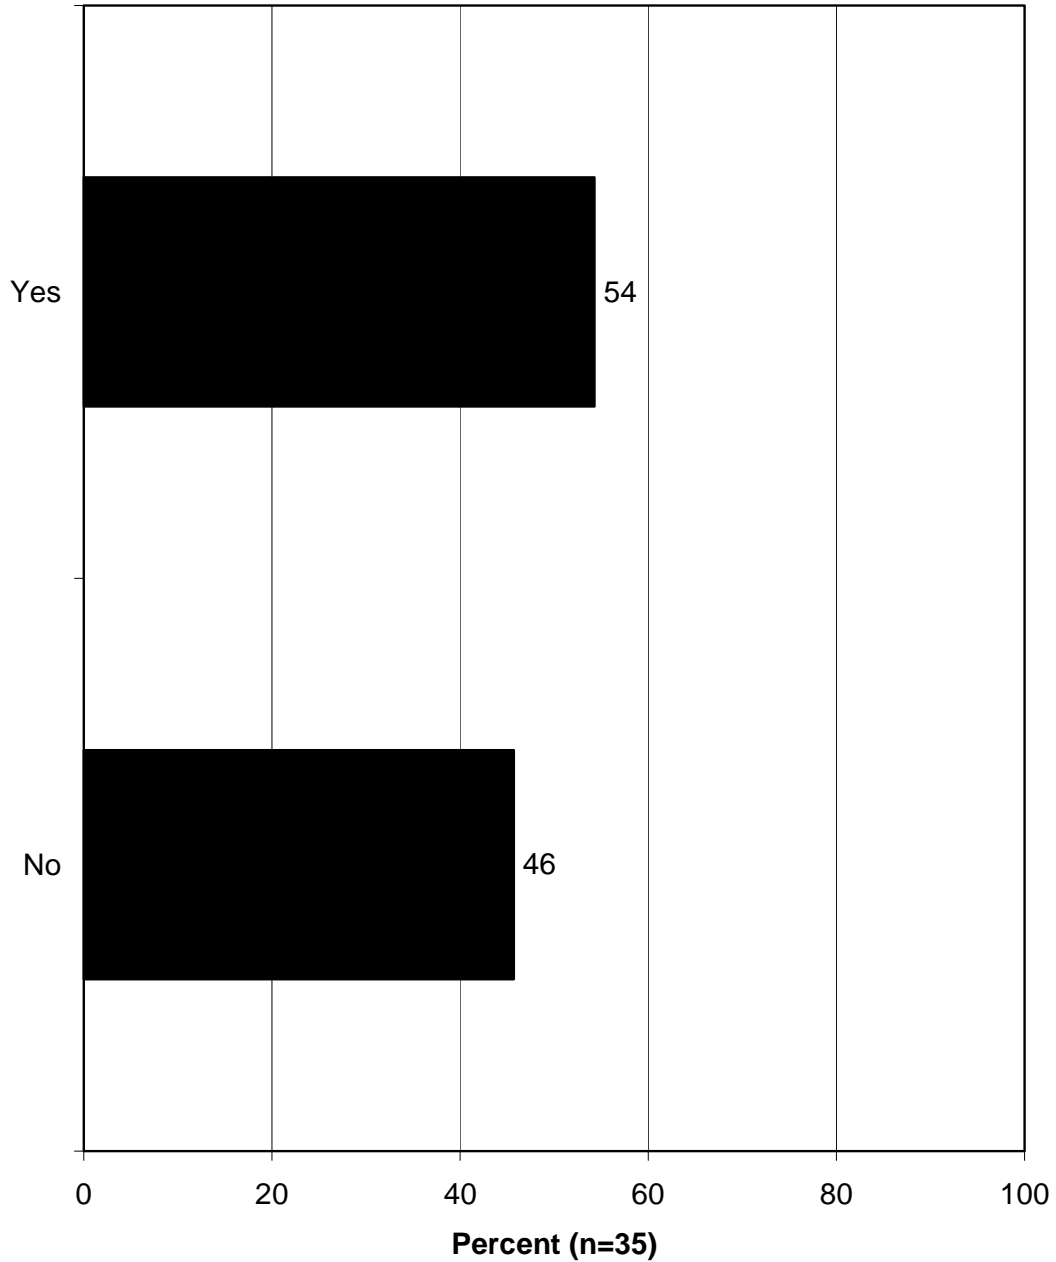

Q108. Does your division offer topics/skills related to saltwater intrusion in its coastal resource education/outreach efforts?

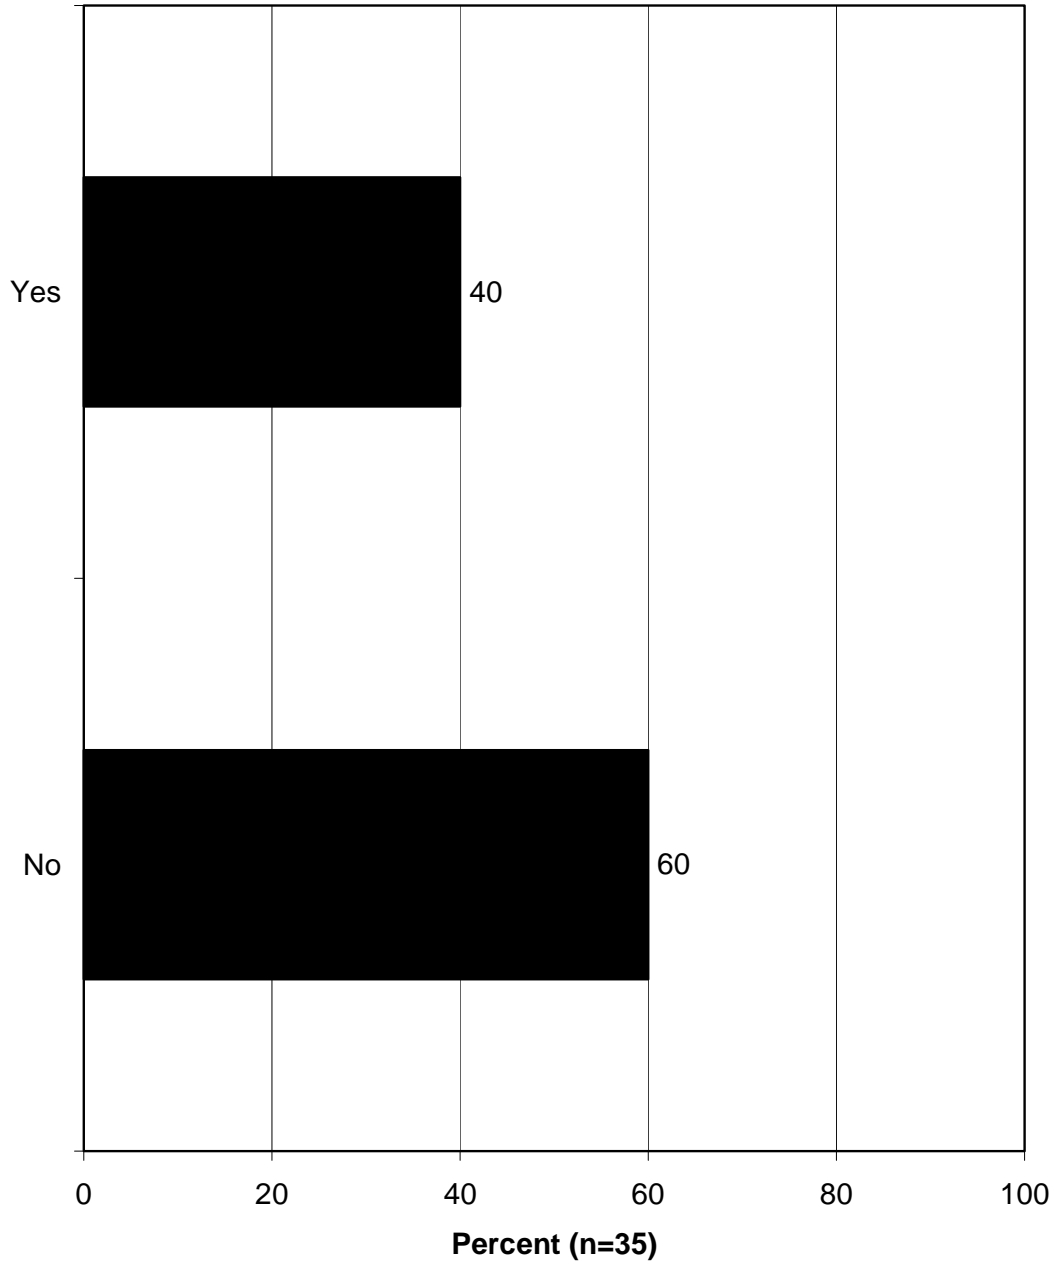

Q109. Does your division offer topics/skills related to water quality in its coastal resource education/outreach efforts?

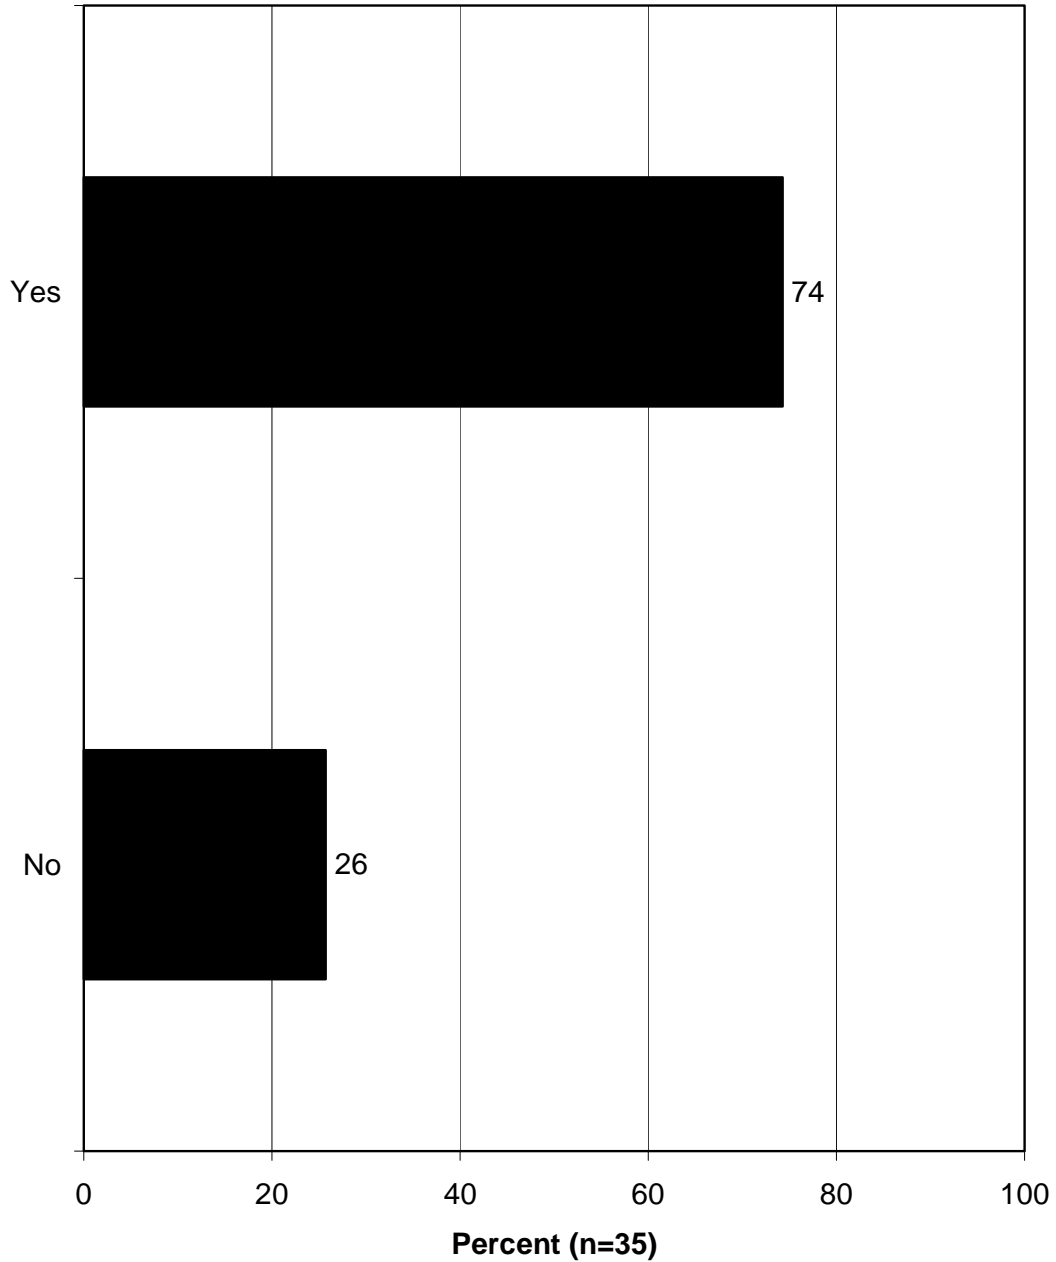

Q110. Does your division offer topics/skills related to water quantity in its coastal resource education/outreach efforts?

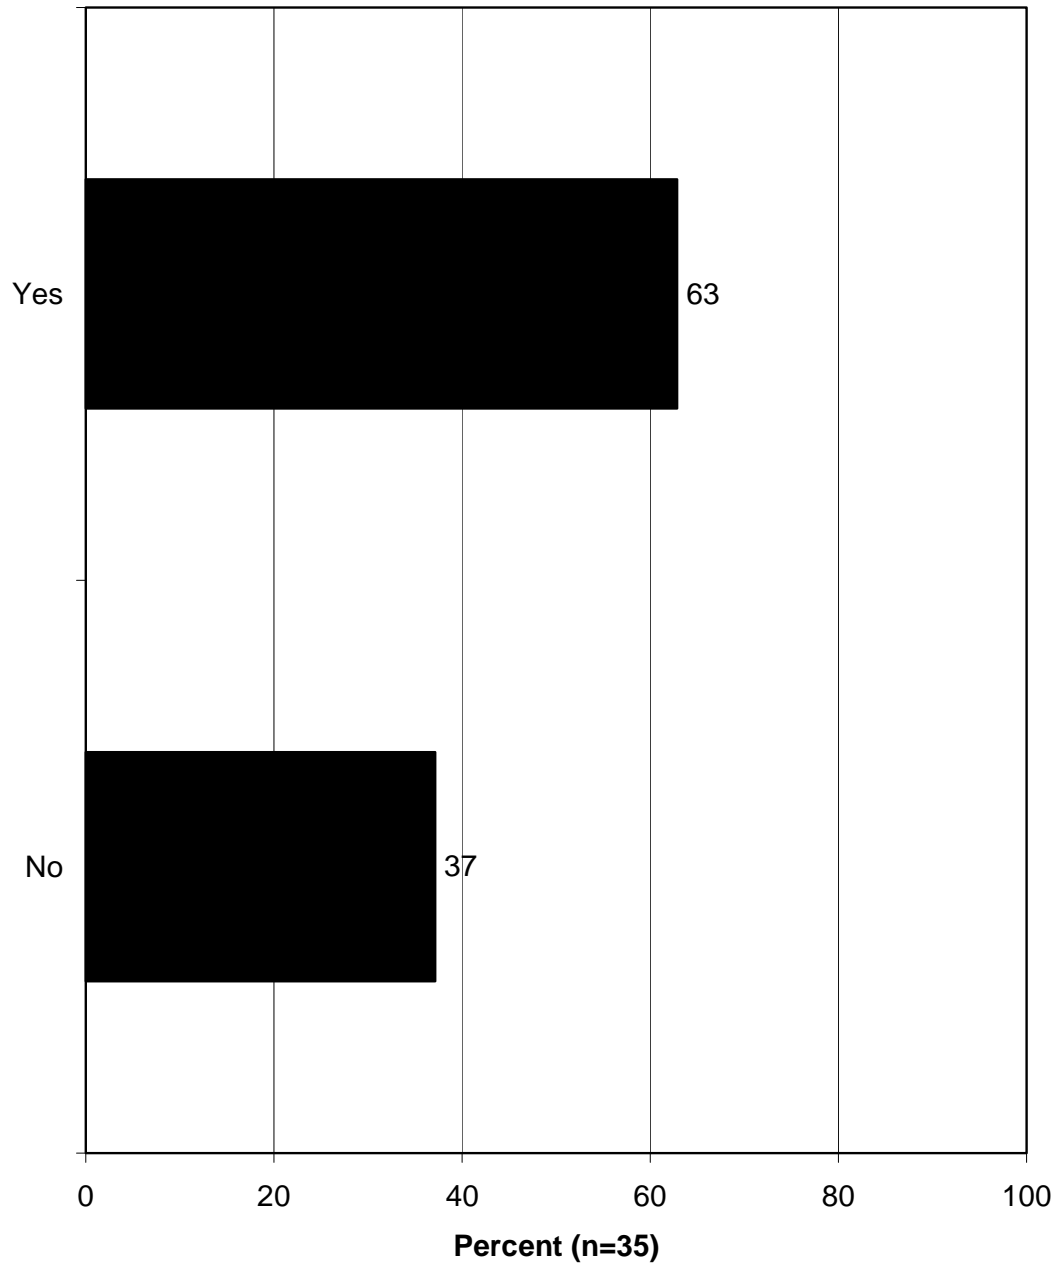

Q111. Does your division offer topics/skills related to eutrophication in its coastal resource education/outreach efforts?

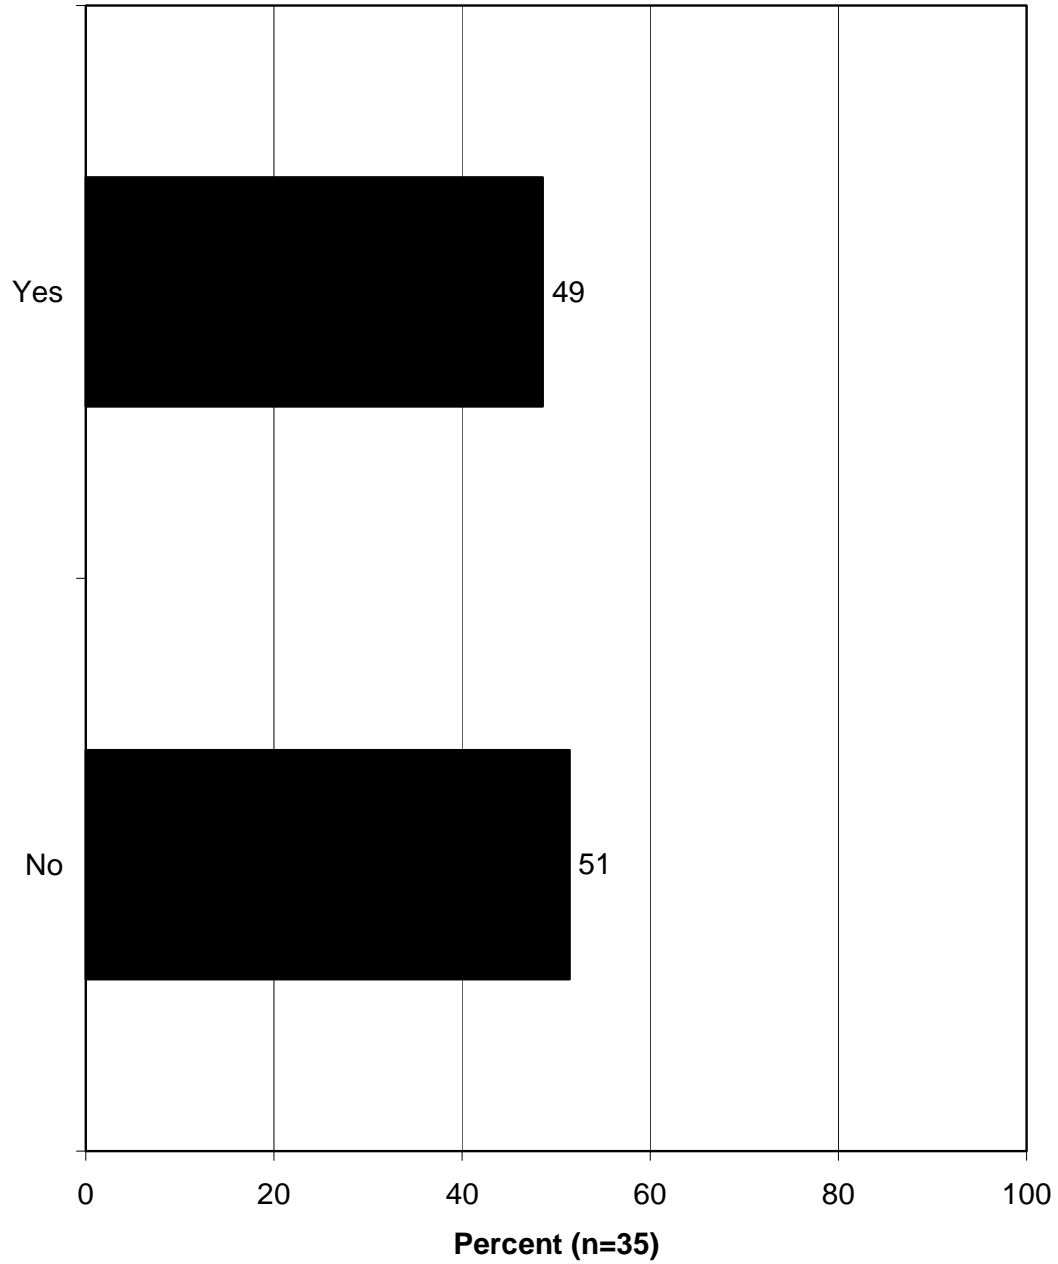

Q112. Does your division offer topics/skills related to nonpoint source pollution in its coastal resource education/outreach efforts?

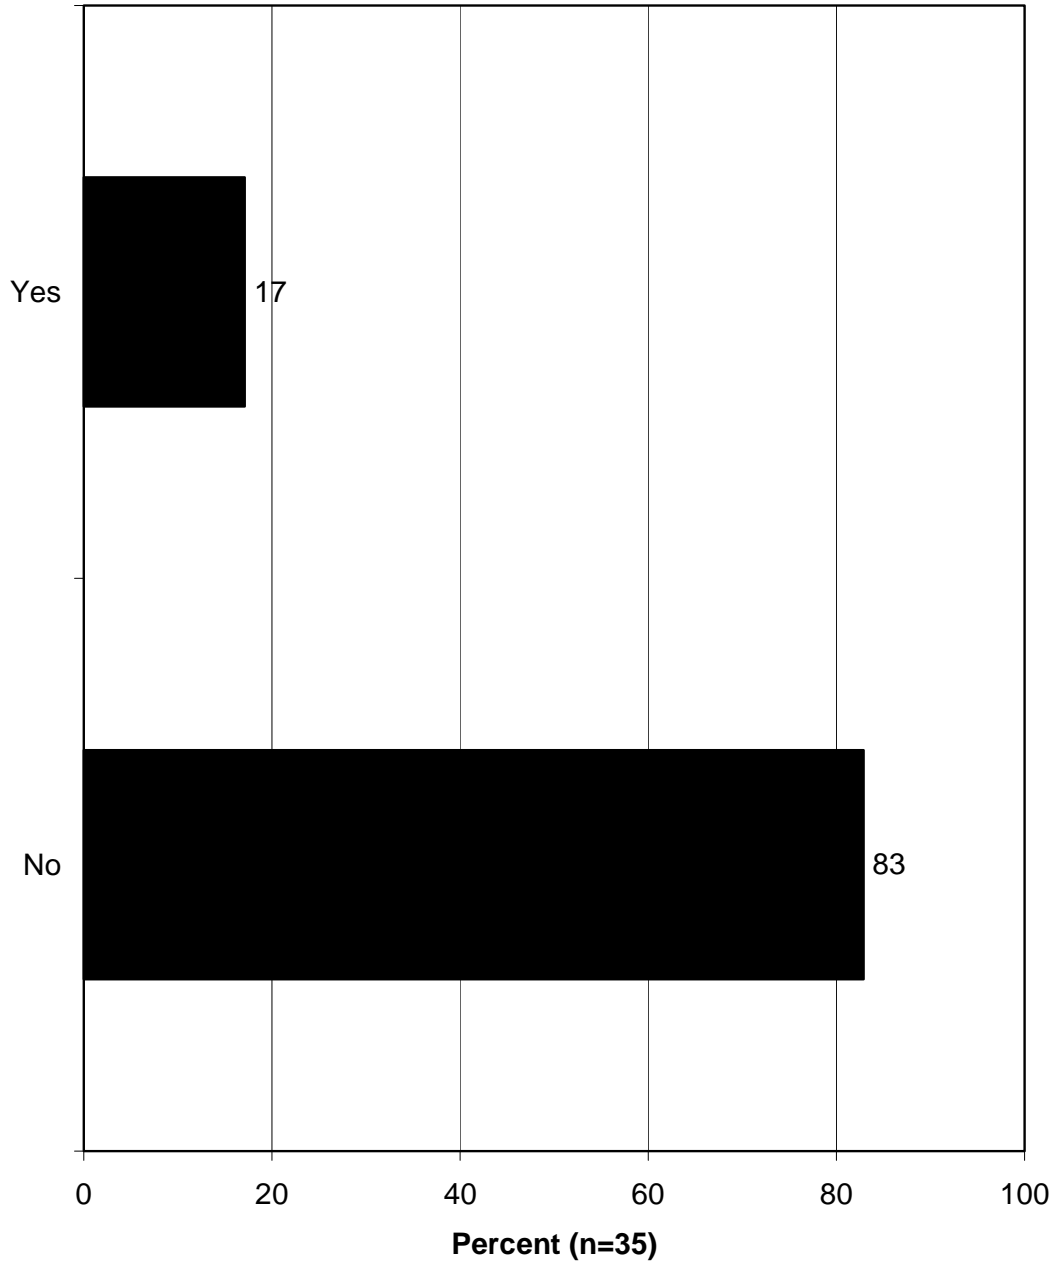

Q113. Does your division offer topics/skills related to point source pollution in its coastal resource education/outreach efforts?

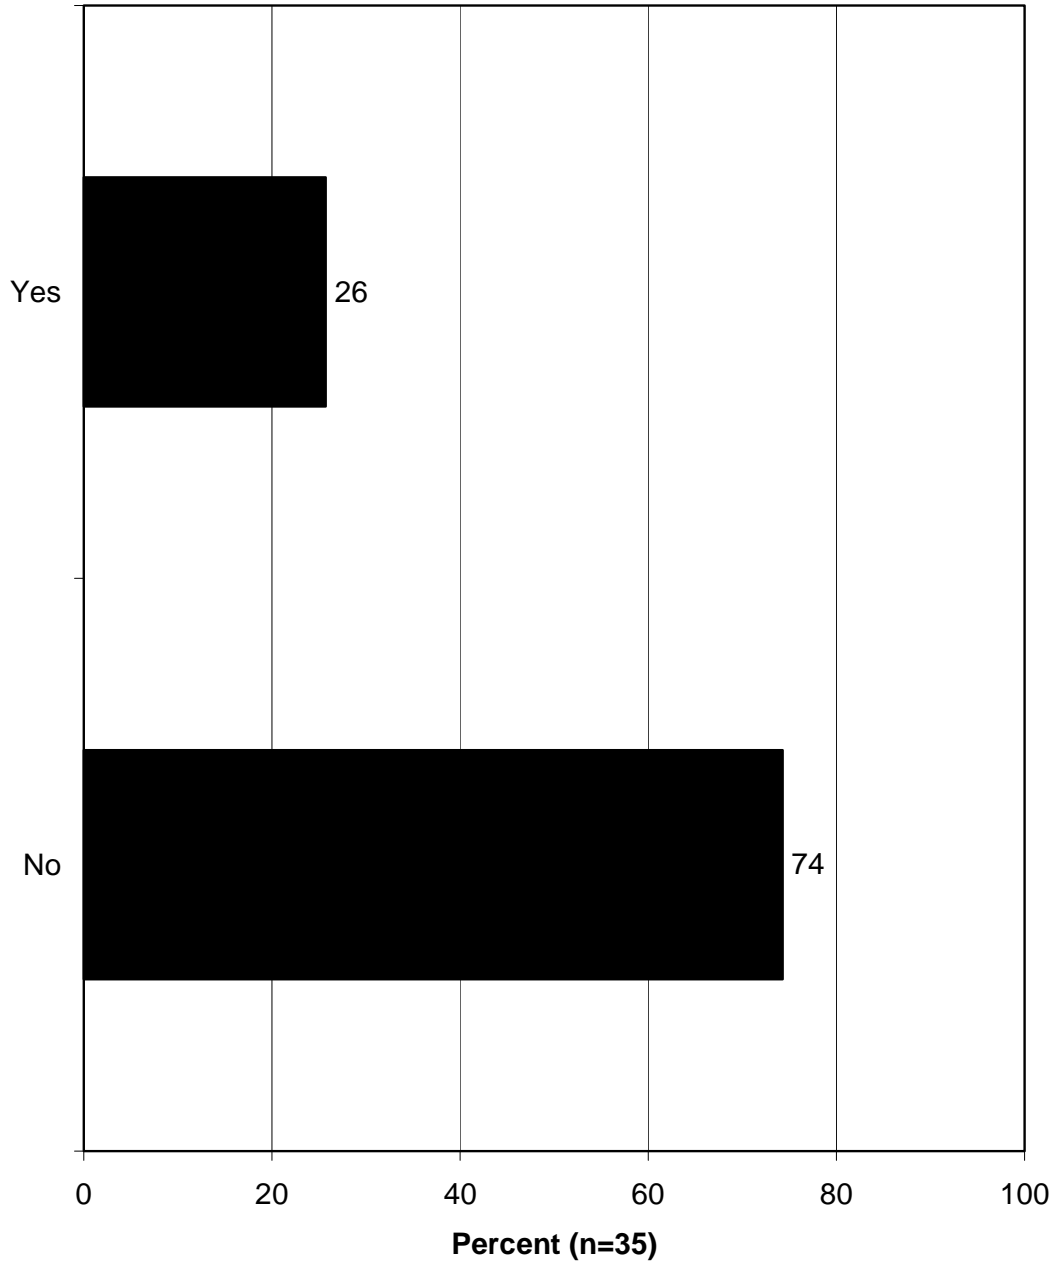

Q114. Does your division offer topics/skills related to sedimentation in its coastal resource education/outreach efforts?

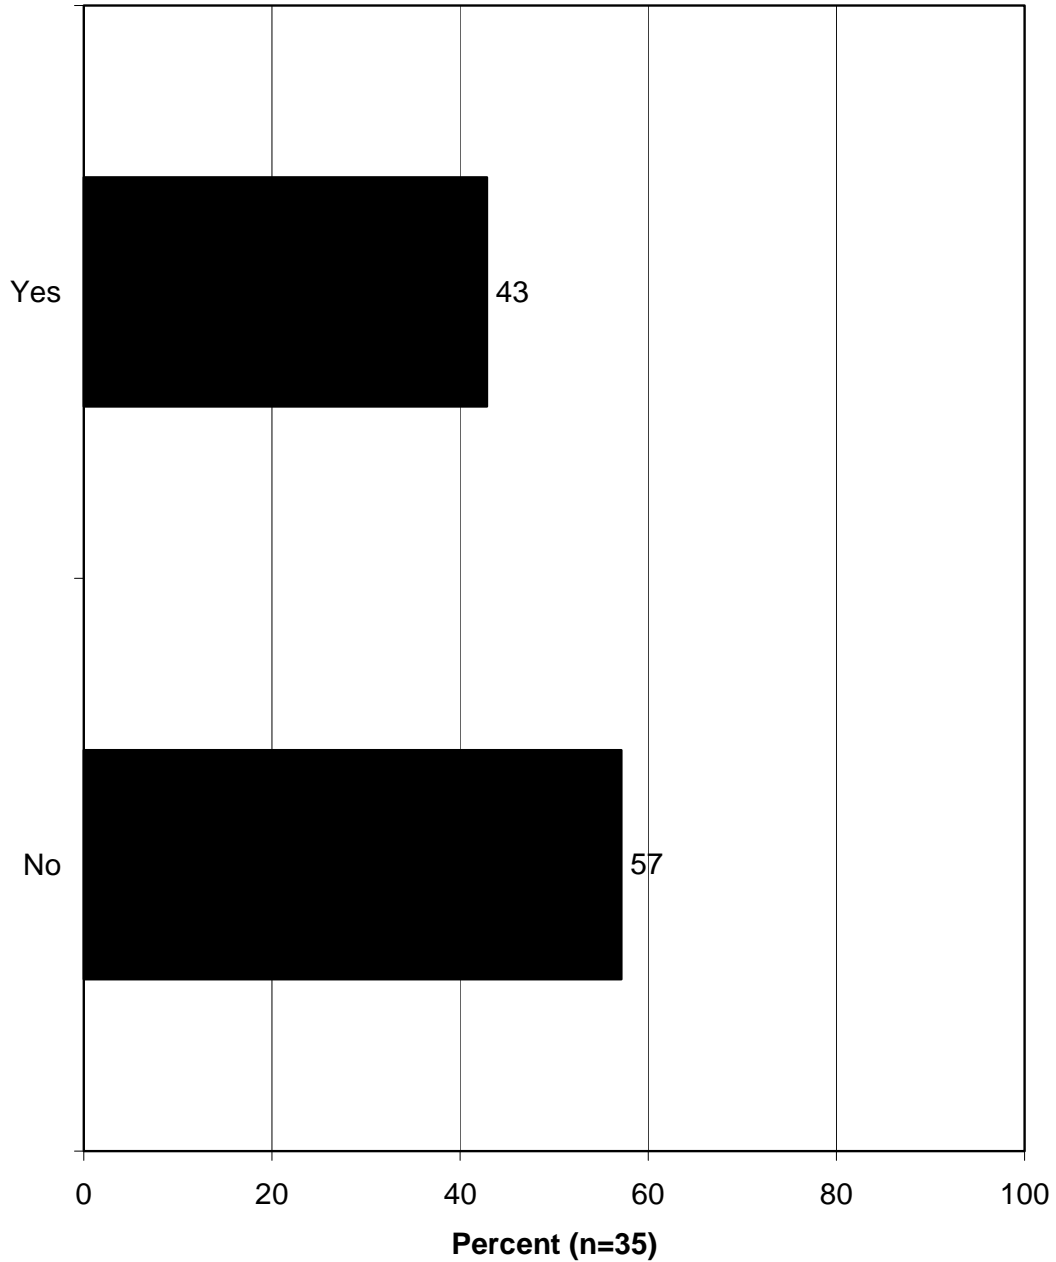

Q115. Does your division offer topics/skills related to septic system issues in its coastal resource education/outreach efforts?

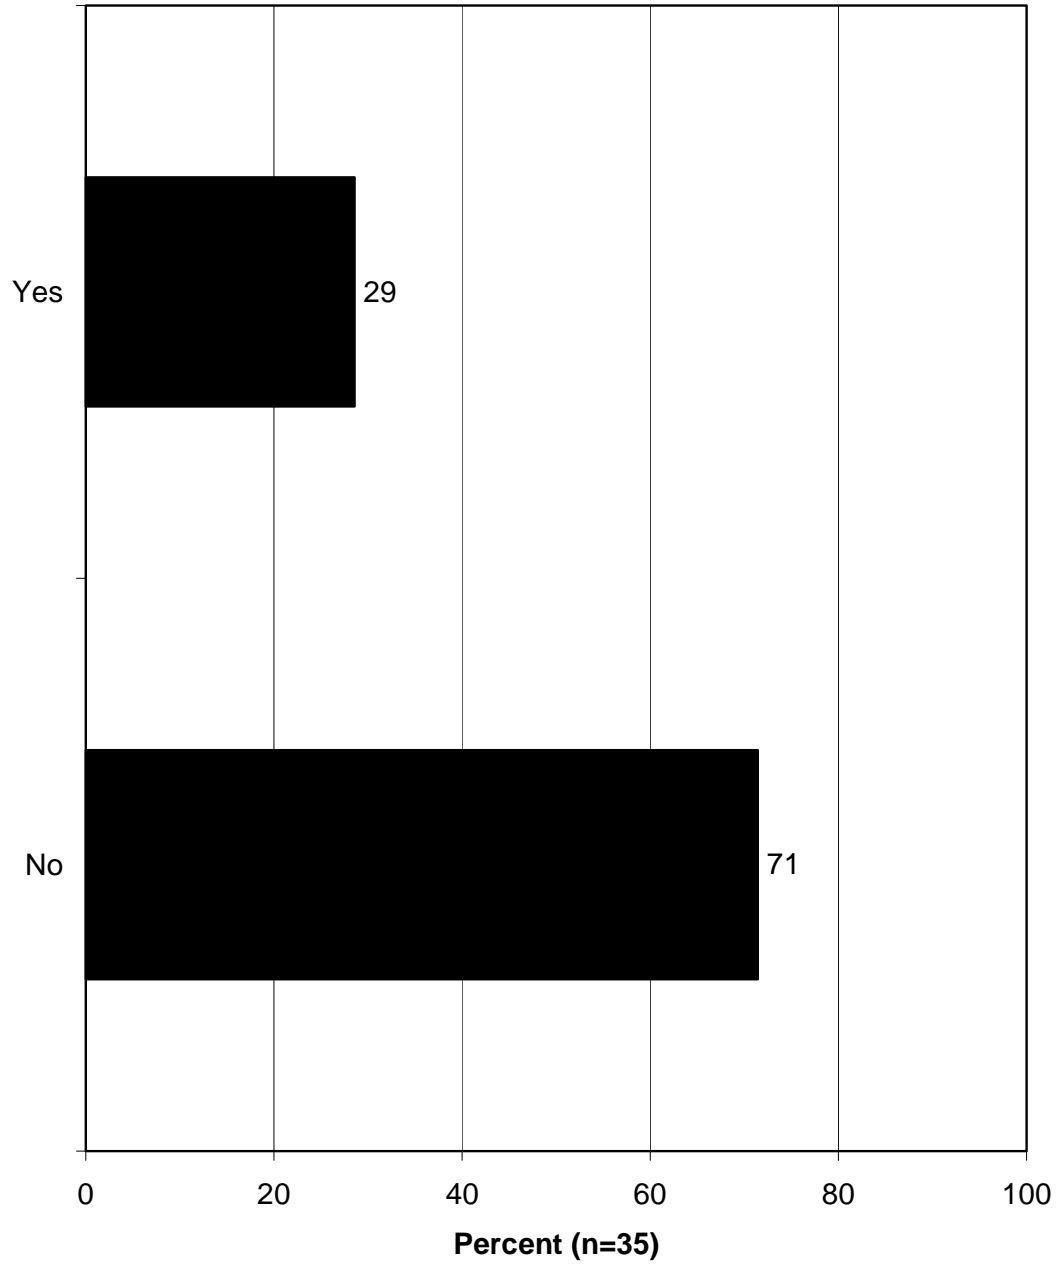

Q116. Does your division offer topics/skills related to wastewater management in its coastal resource education/outreach efforts?

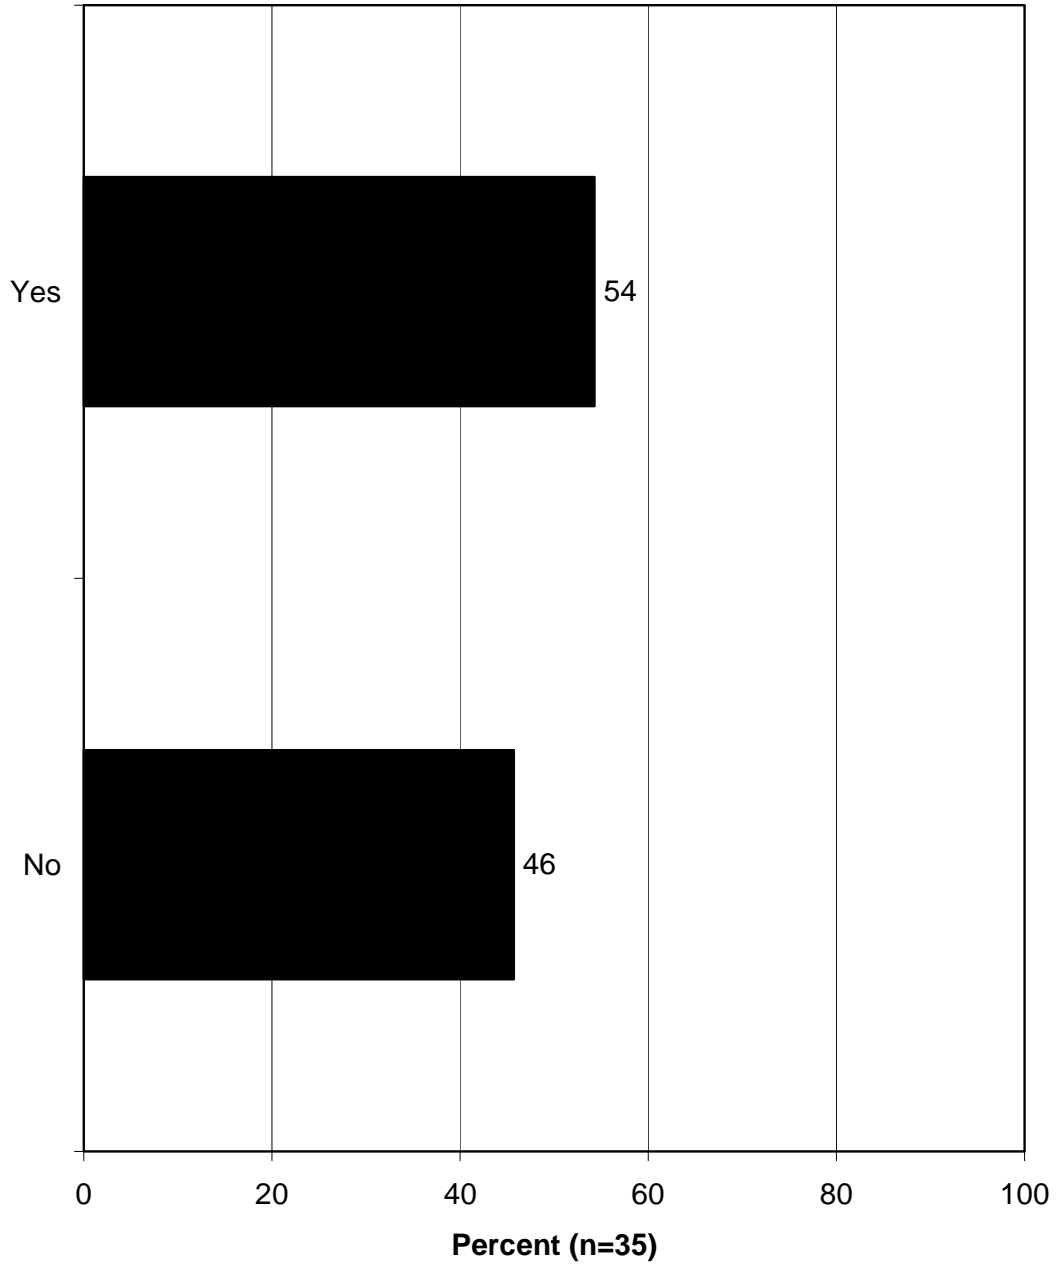

Q117. Does your division offer topics/skills related to storm water protection and cleanup in its coastal resource education/outreach efforts?

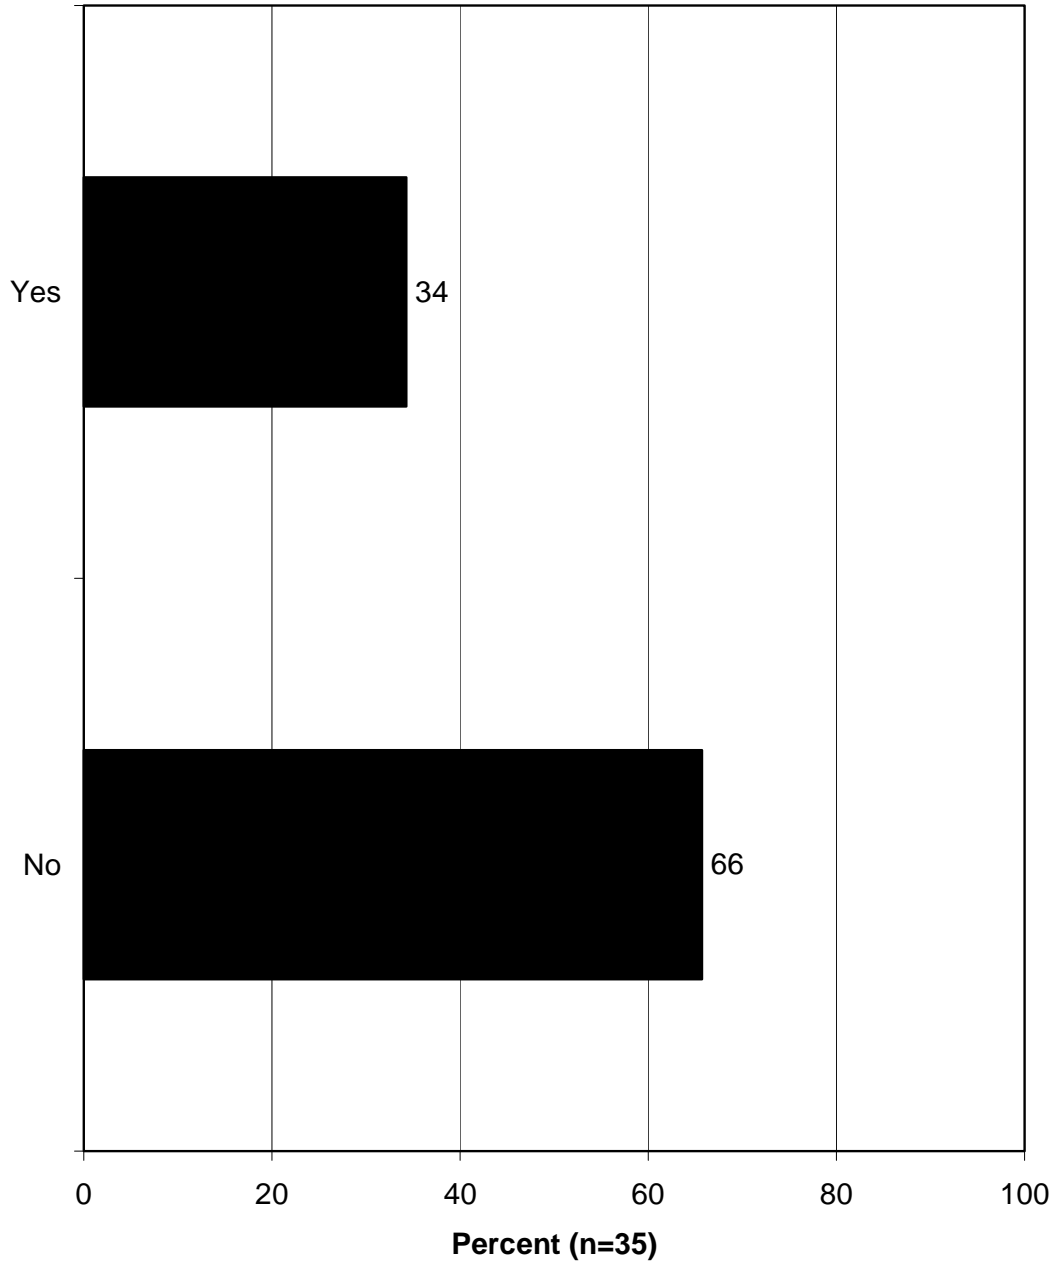

Q118. Does your division offer topics/skills related to nitrogen loading in its coastal resource education/outreach efforts?

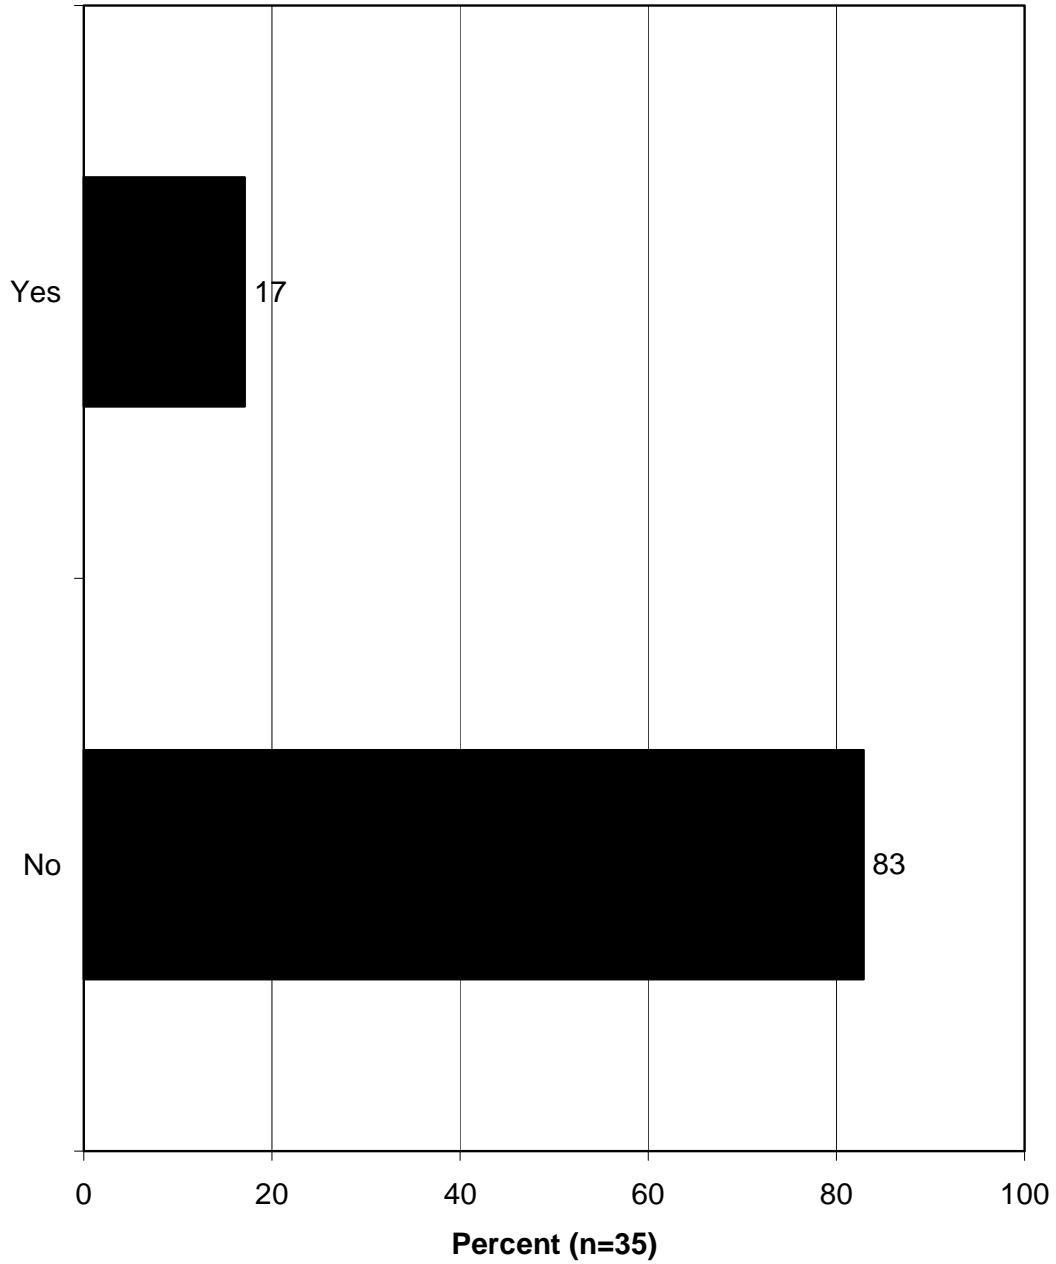

Q119. Does your division offer topics/skills related to land use planning (smart growth, watershed buildup) in its coastal resource education/outreach efforts?

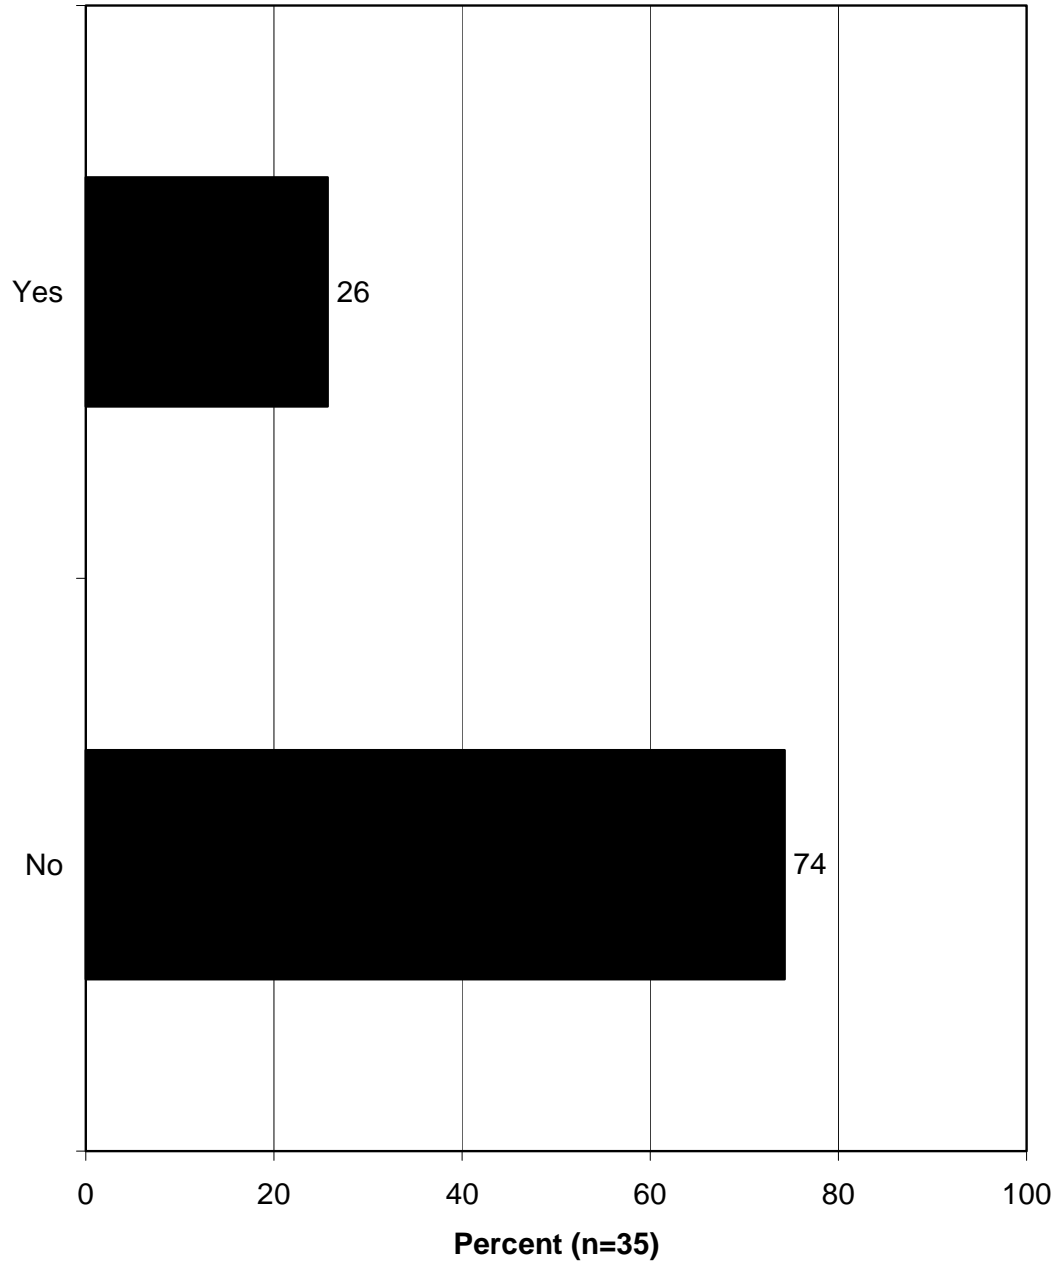

Q120. Does your division offer topics/skills related to sustainable facilities (green design) in its coastal resource education/outreach efforts?

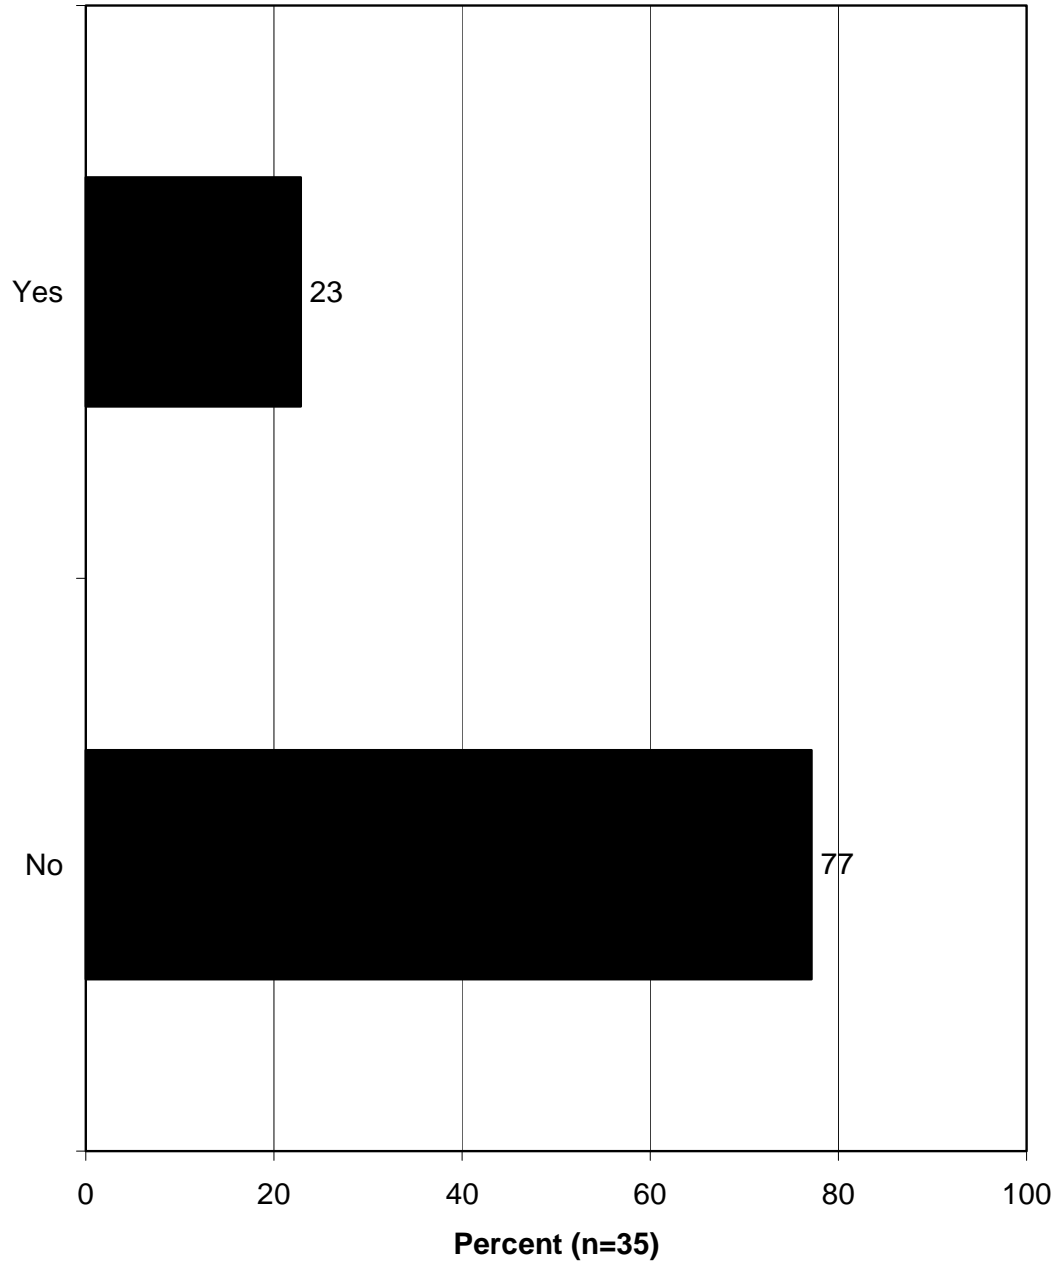

Q121. Does your division offer topics/skills related to GIS education/outreach in its coastal resource education/outreach efforts?

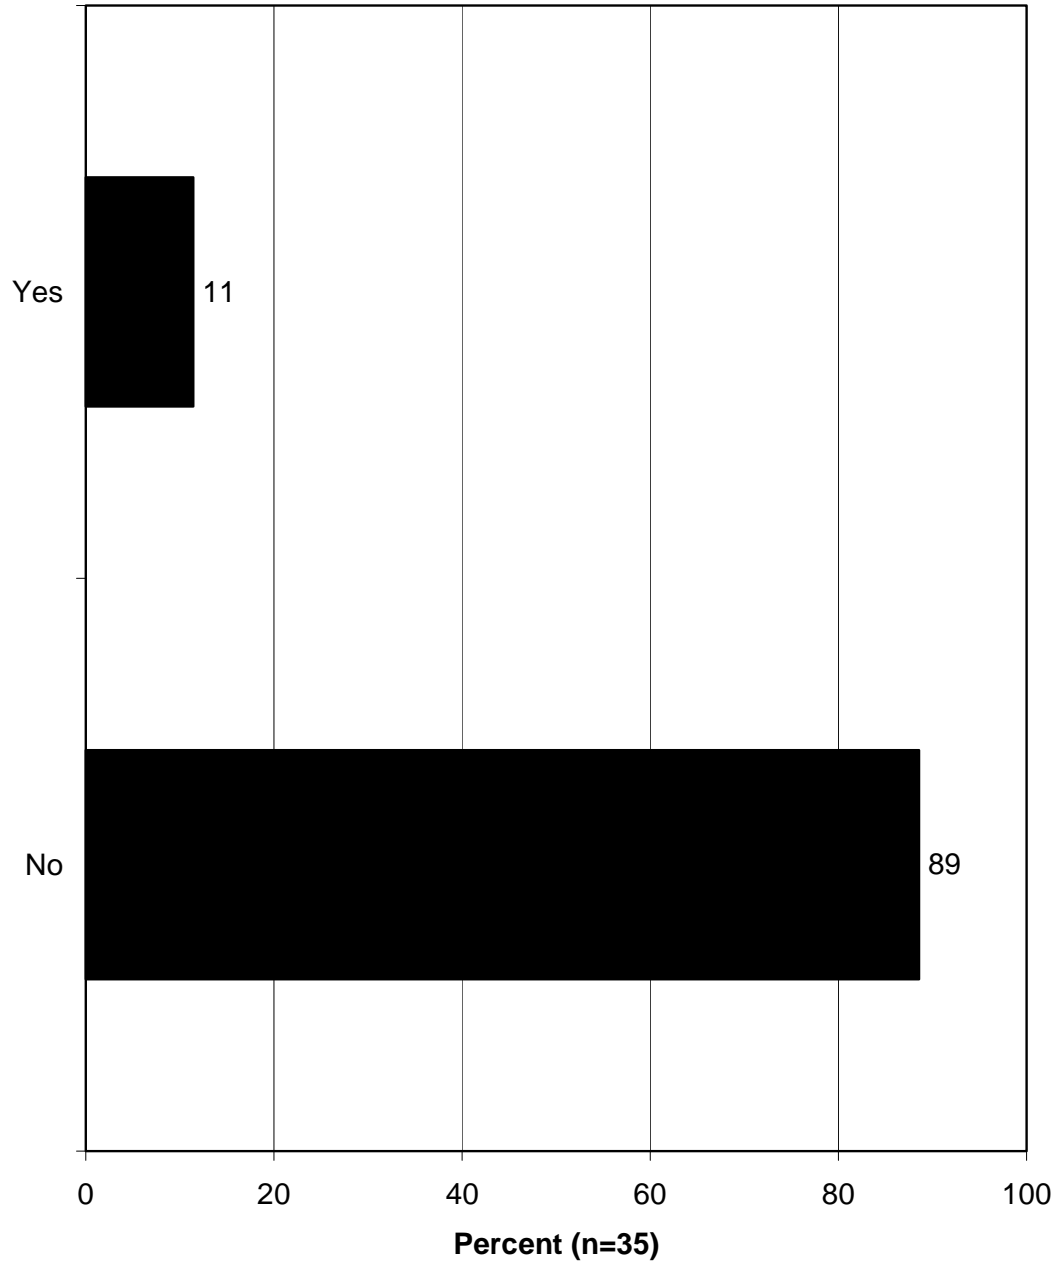

Q122. Does your division offer topics/skills related to intra-agency/organization communications in its coastal resource education/outreach efforts?

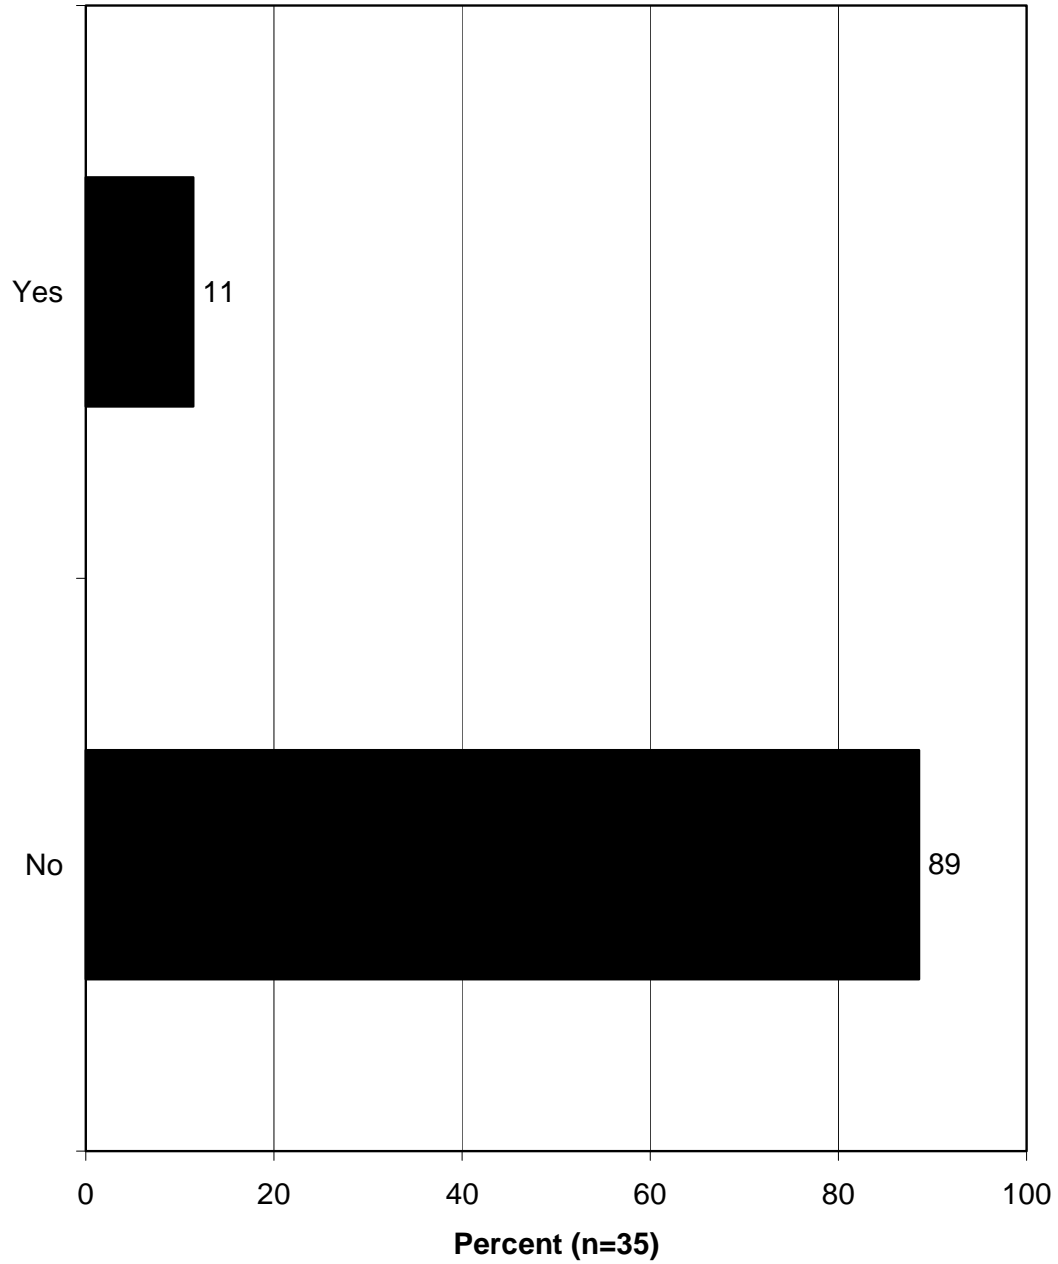

Q123. Does your division offer topics/skills related to inter-agency/organization communications in its coastal resource education/outreach efforts?

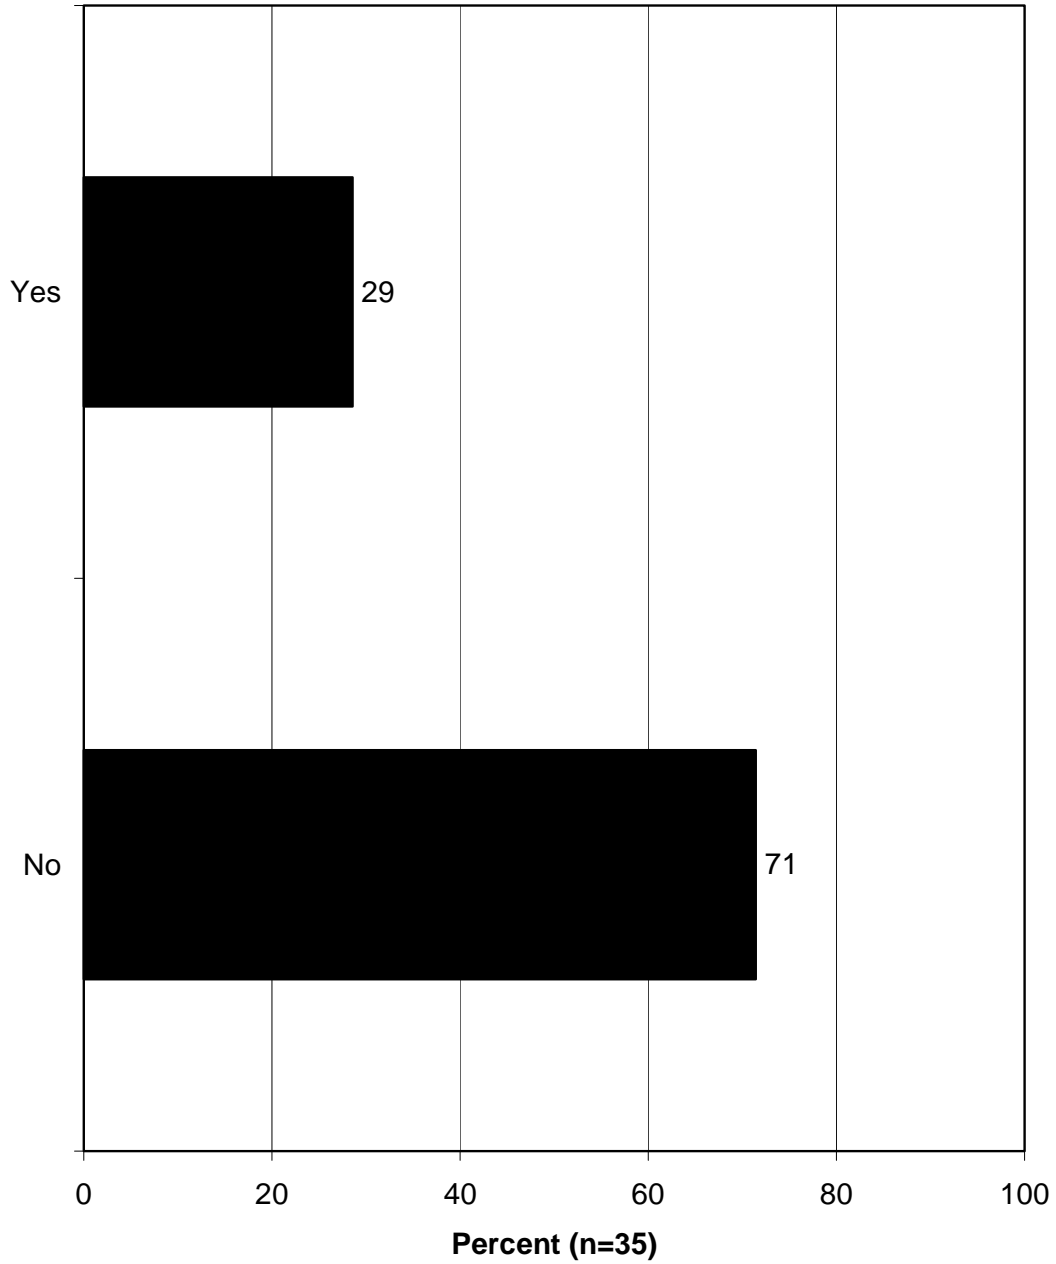

Q124. Does your division offer topics/skills related to organizational/management skills in its coastal resource education/outreach efforts?

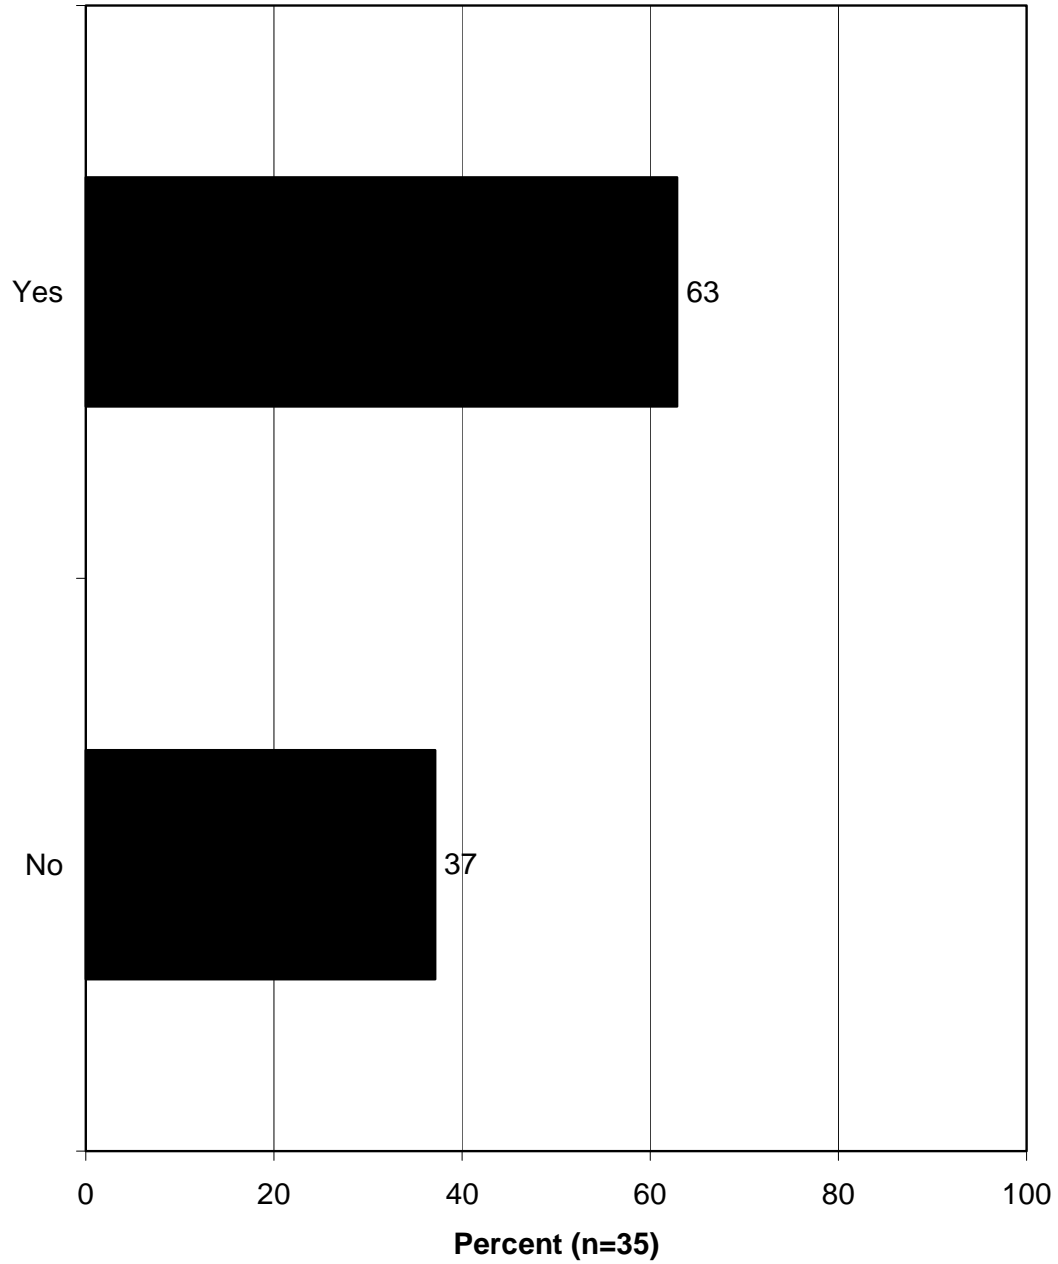

Q125. Does your division offer topics/skills related to public safety in its coastal resource education/outreach efforts?

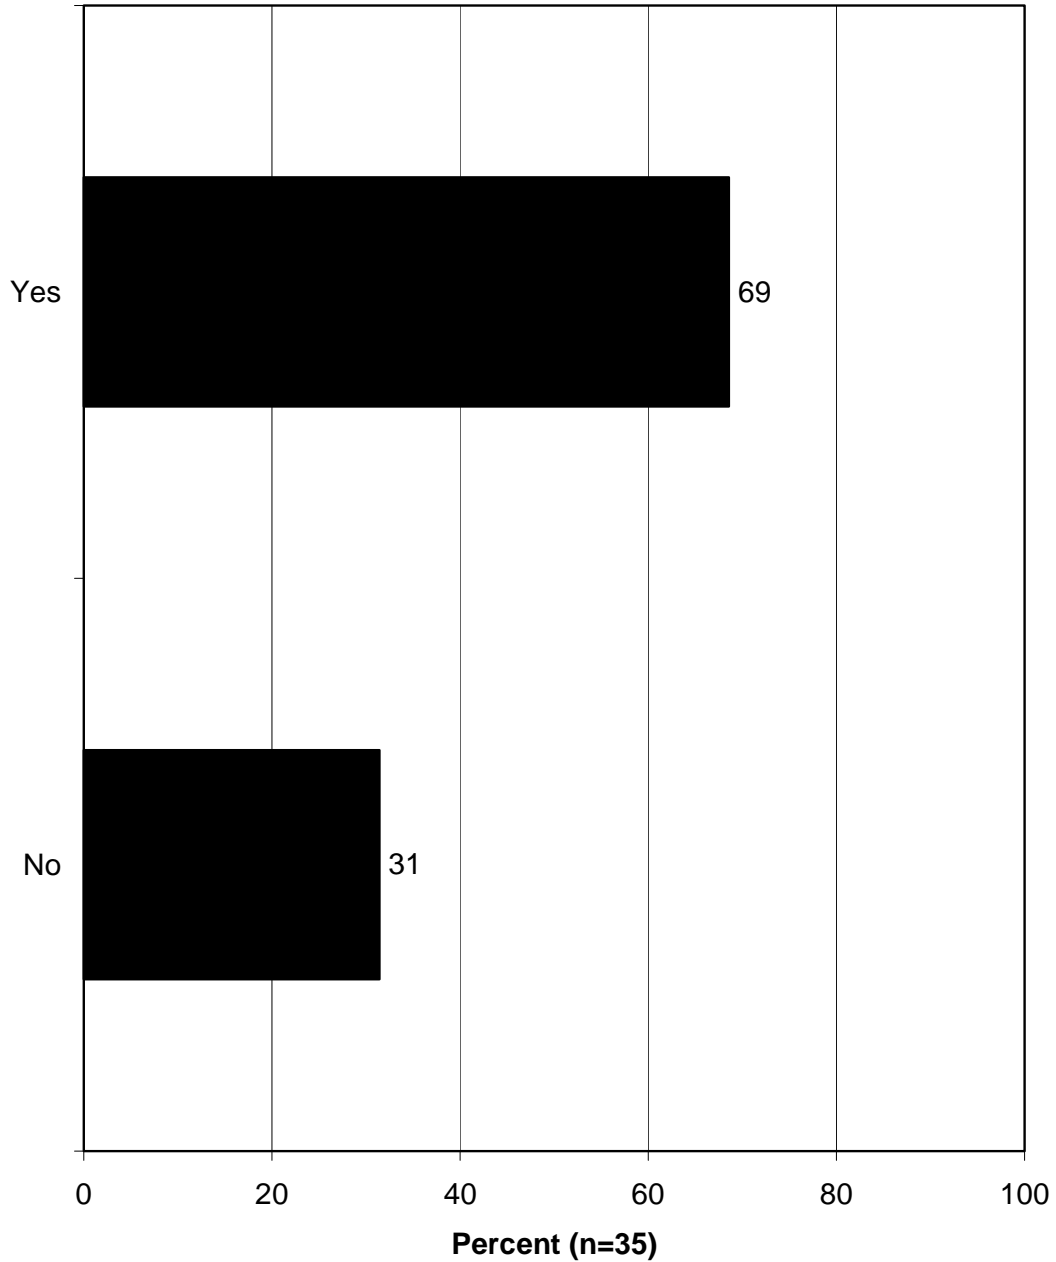

Q126. Does your division offer topics/skills related to regulations in its coastal resource education/outreach efforts?

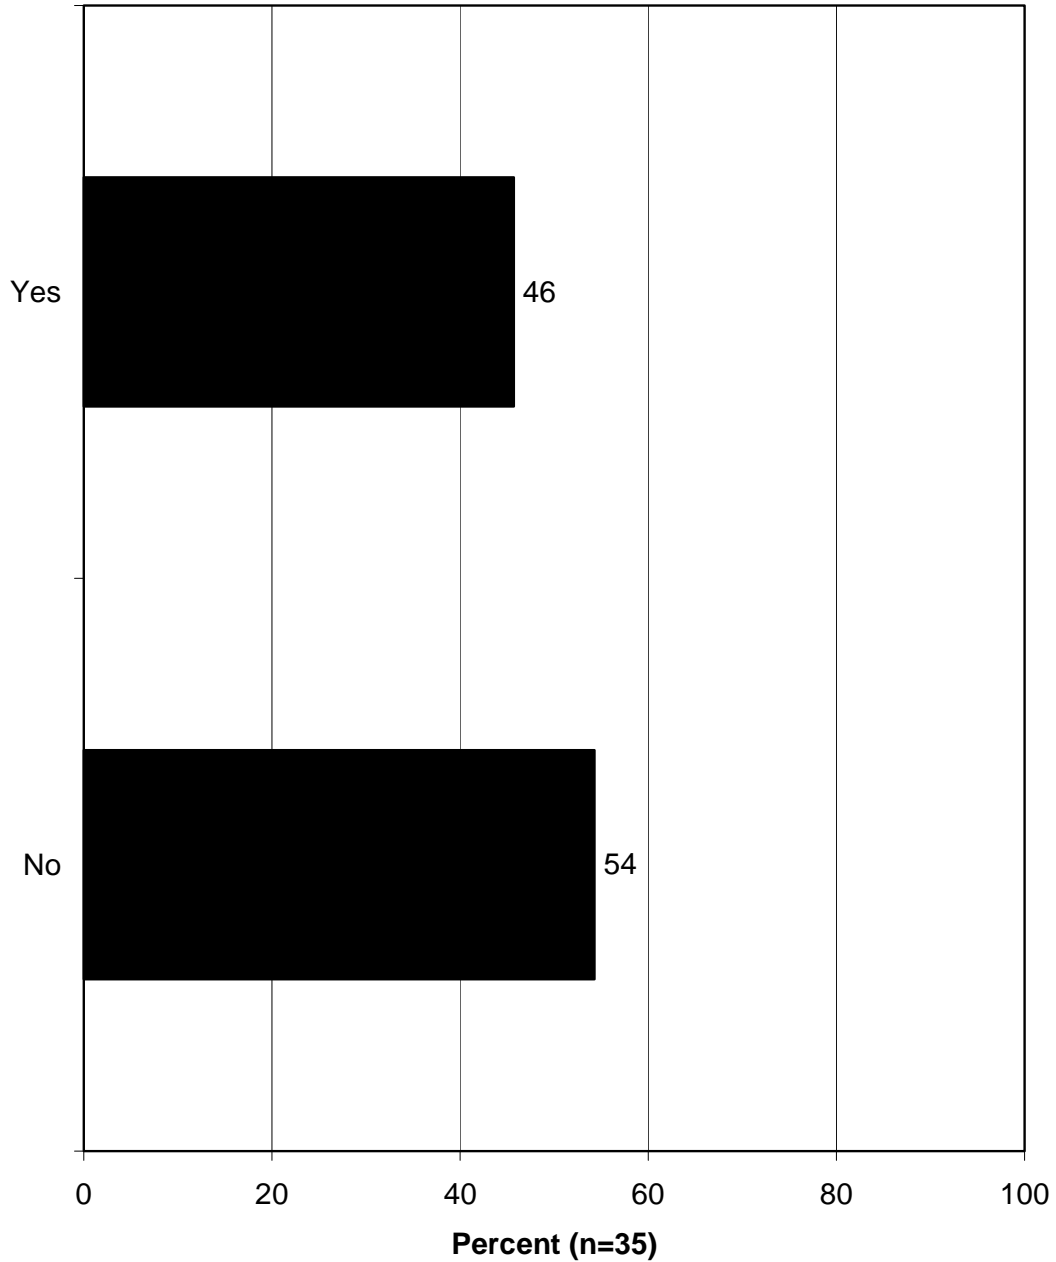

Q127. Does your division offer topics/skills related to environmental education for adults in its coastal resource education/outreach efforts?

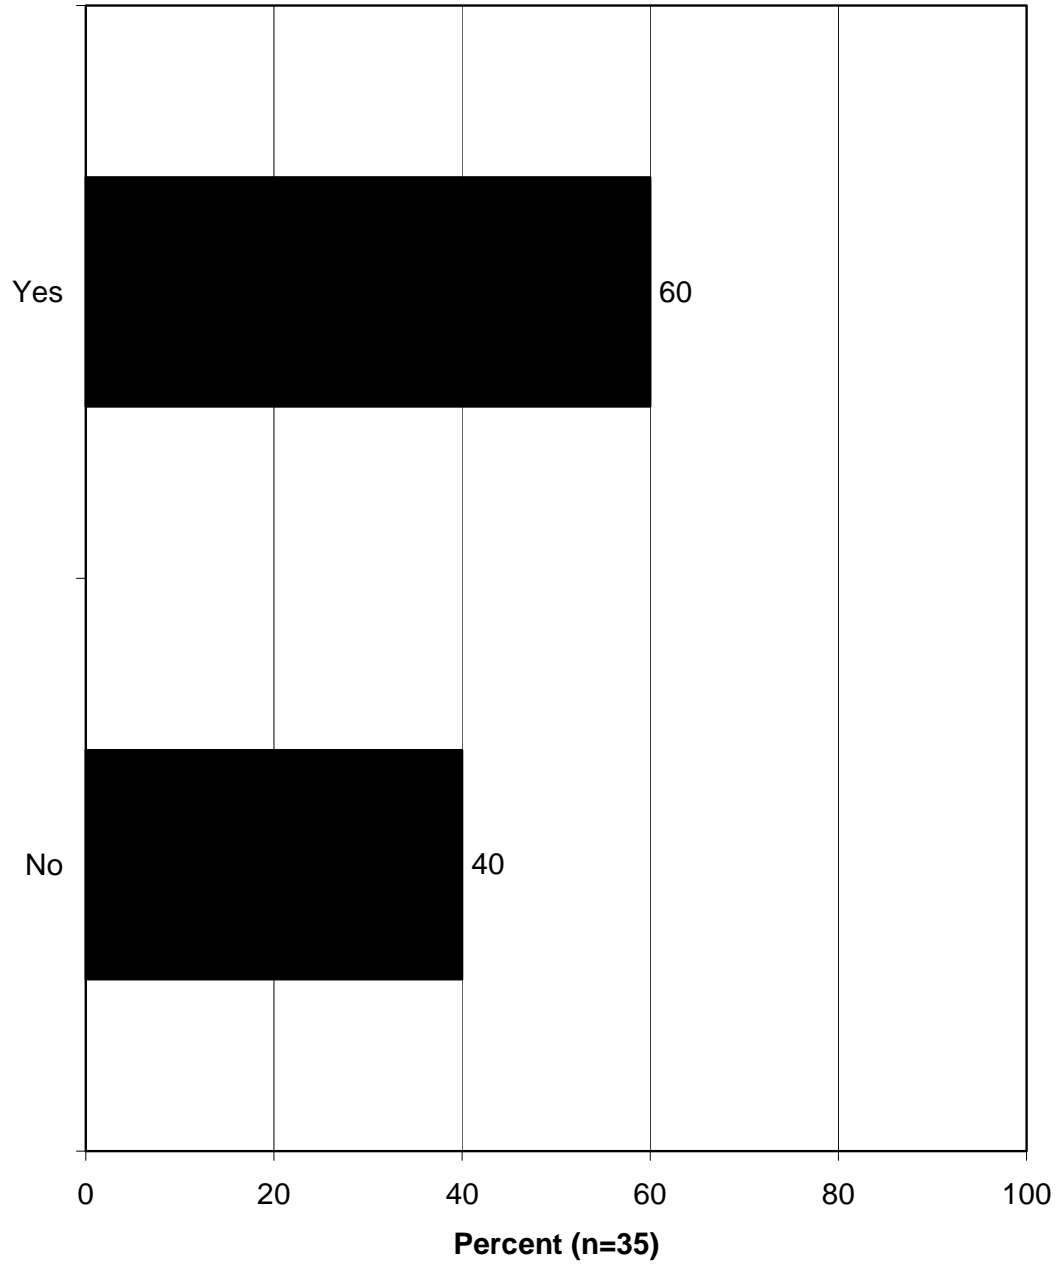

Q128. Does your division offer topics/skills related to environmental education for K-12 students in its coastal resource education/outreach efforts?

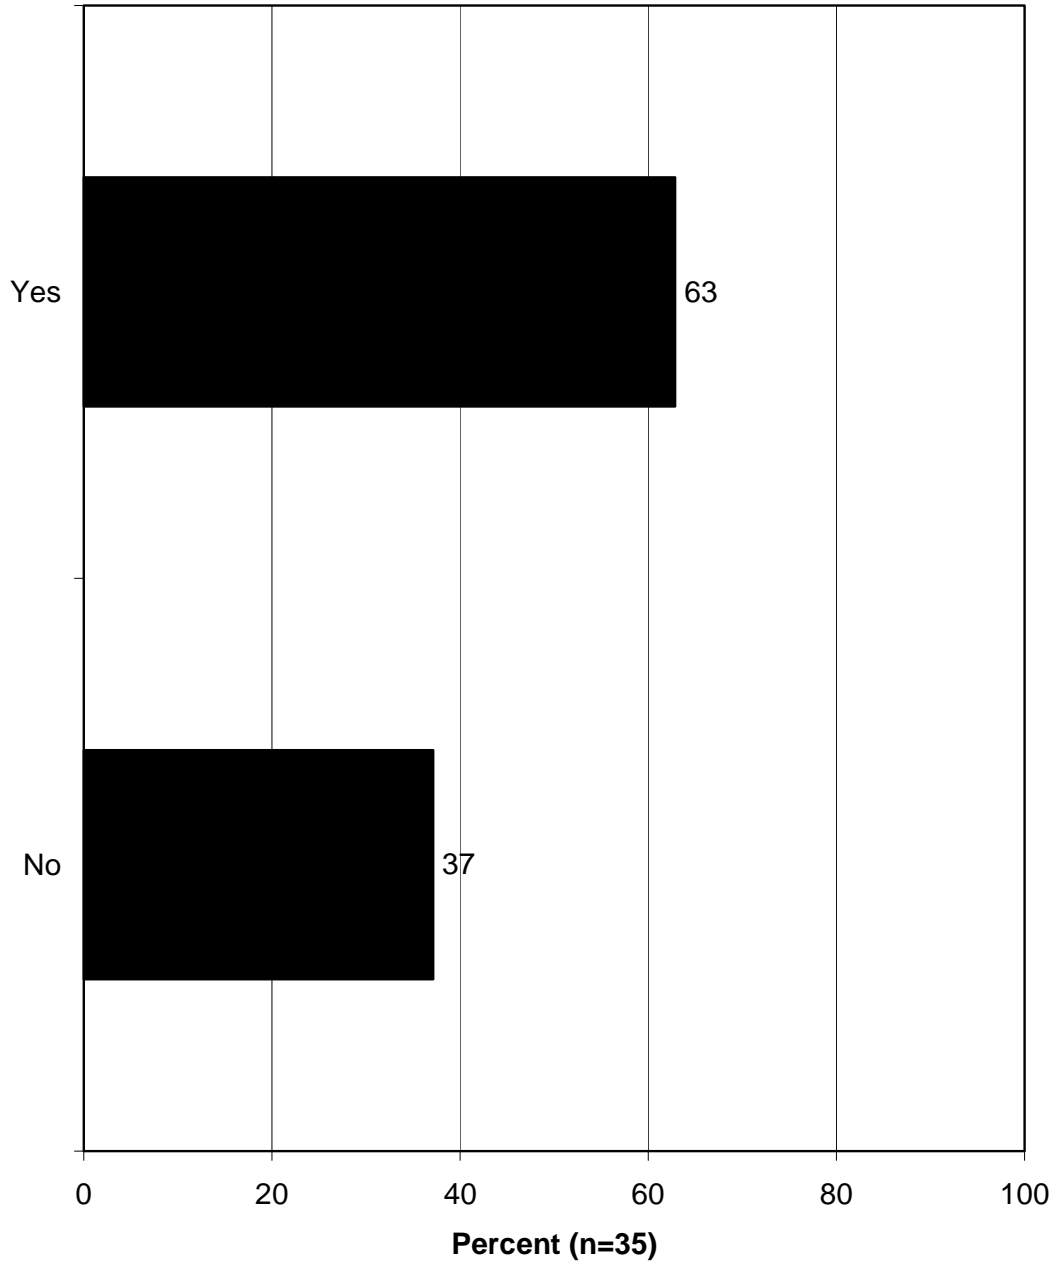

Q129. Does your division offer topics/skills related to professional development for K-12 educators in its coastal resource education/outreach efforts?

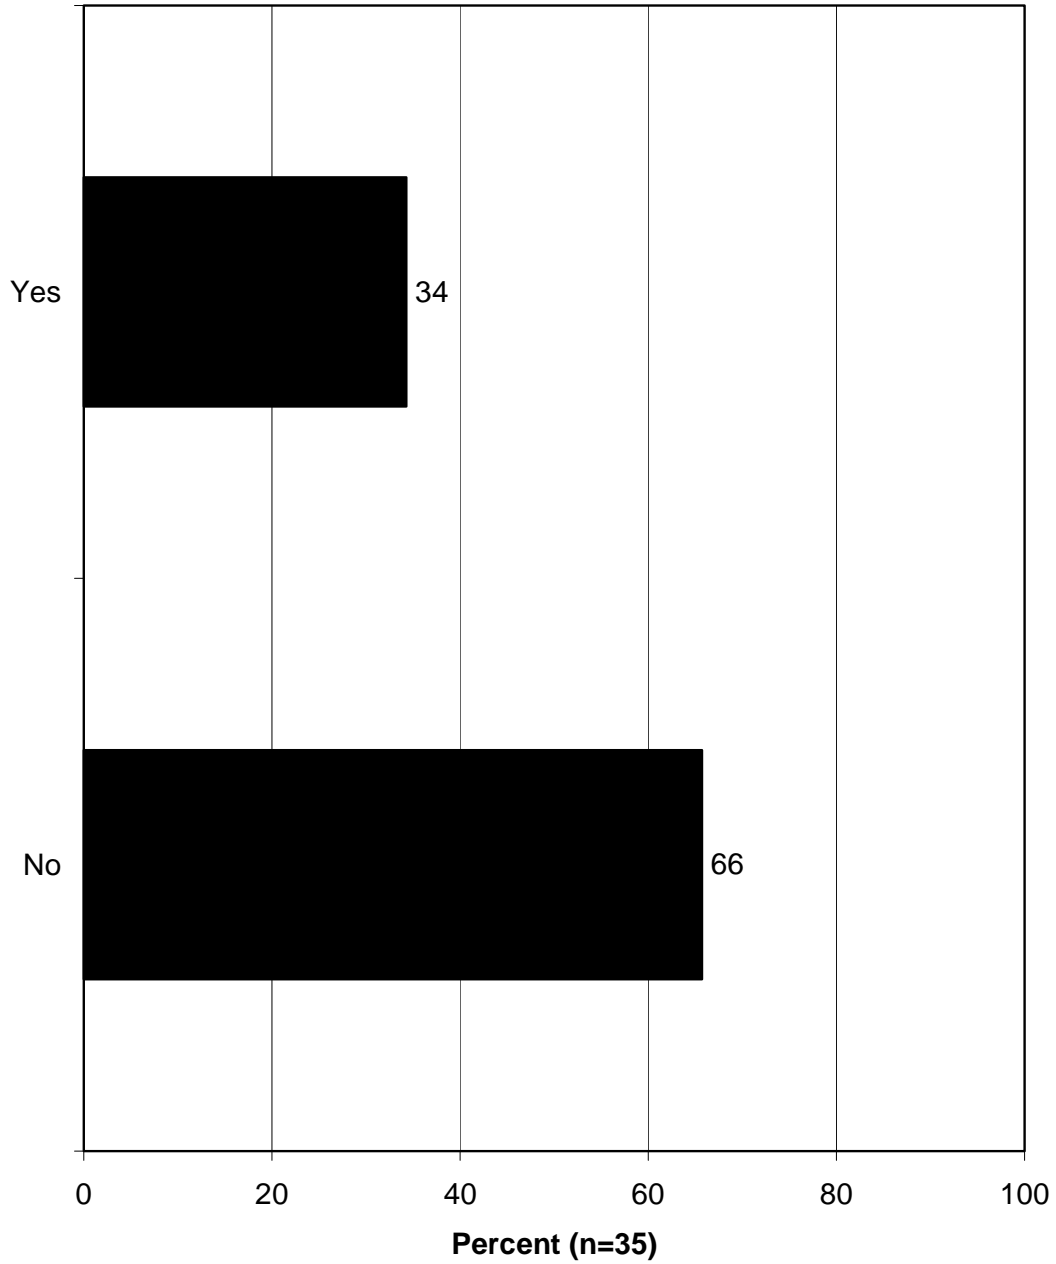

Q130. Does your division offer topics/skills related to endangered species in its coastal resource education/outreach efforts?

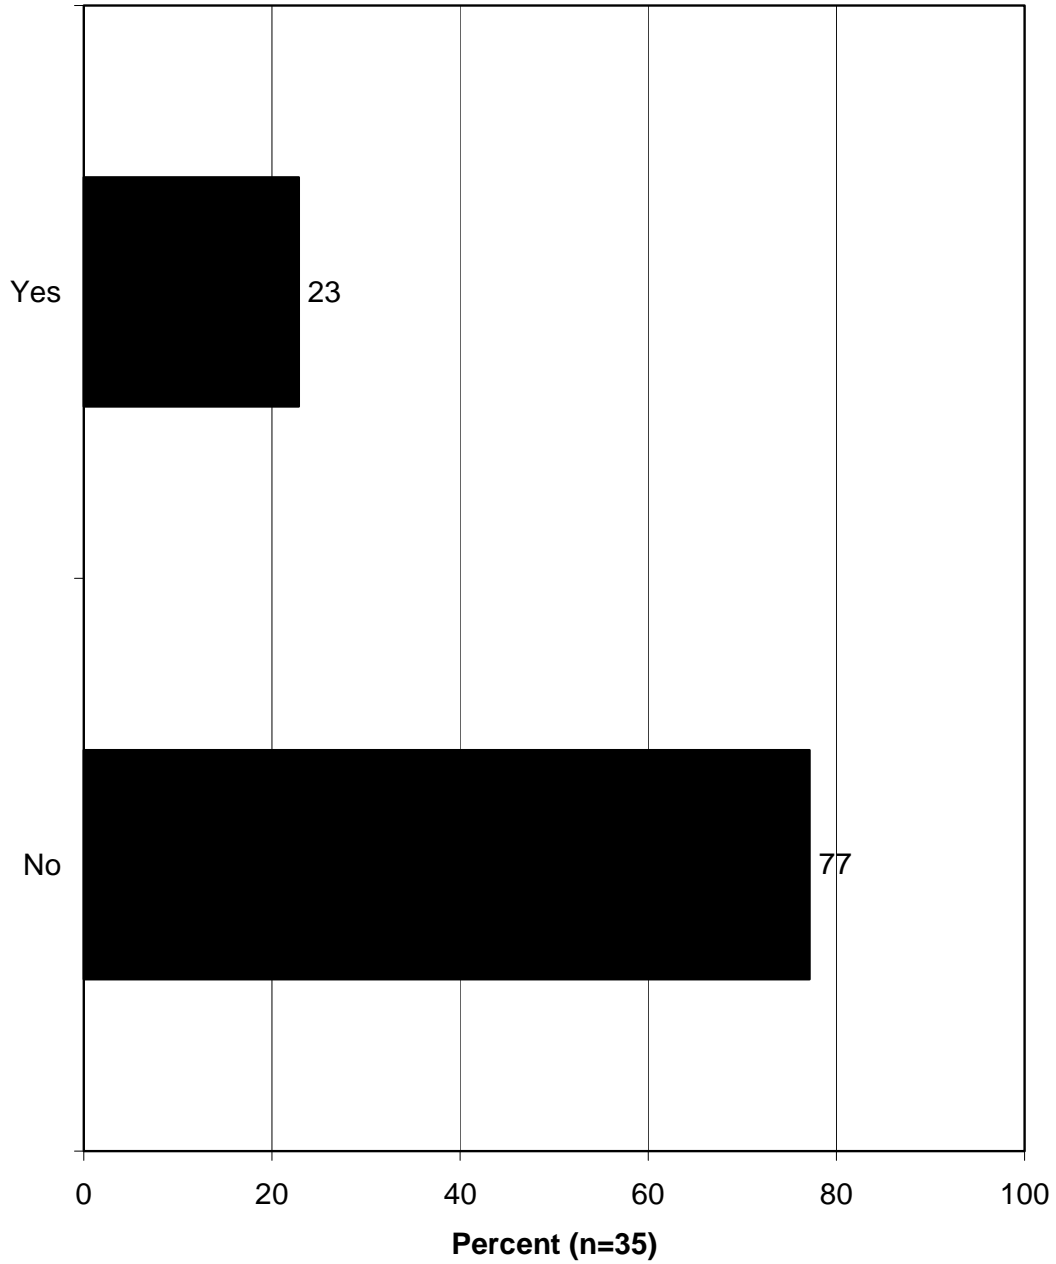

Q131. Does your division offer topics/skills related to invasive species in its coastal resource education/outreach efforts?

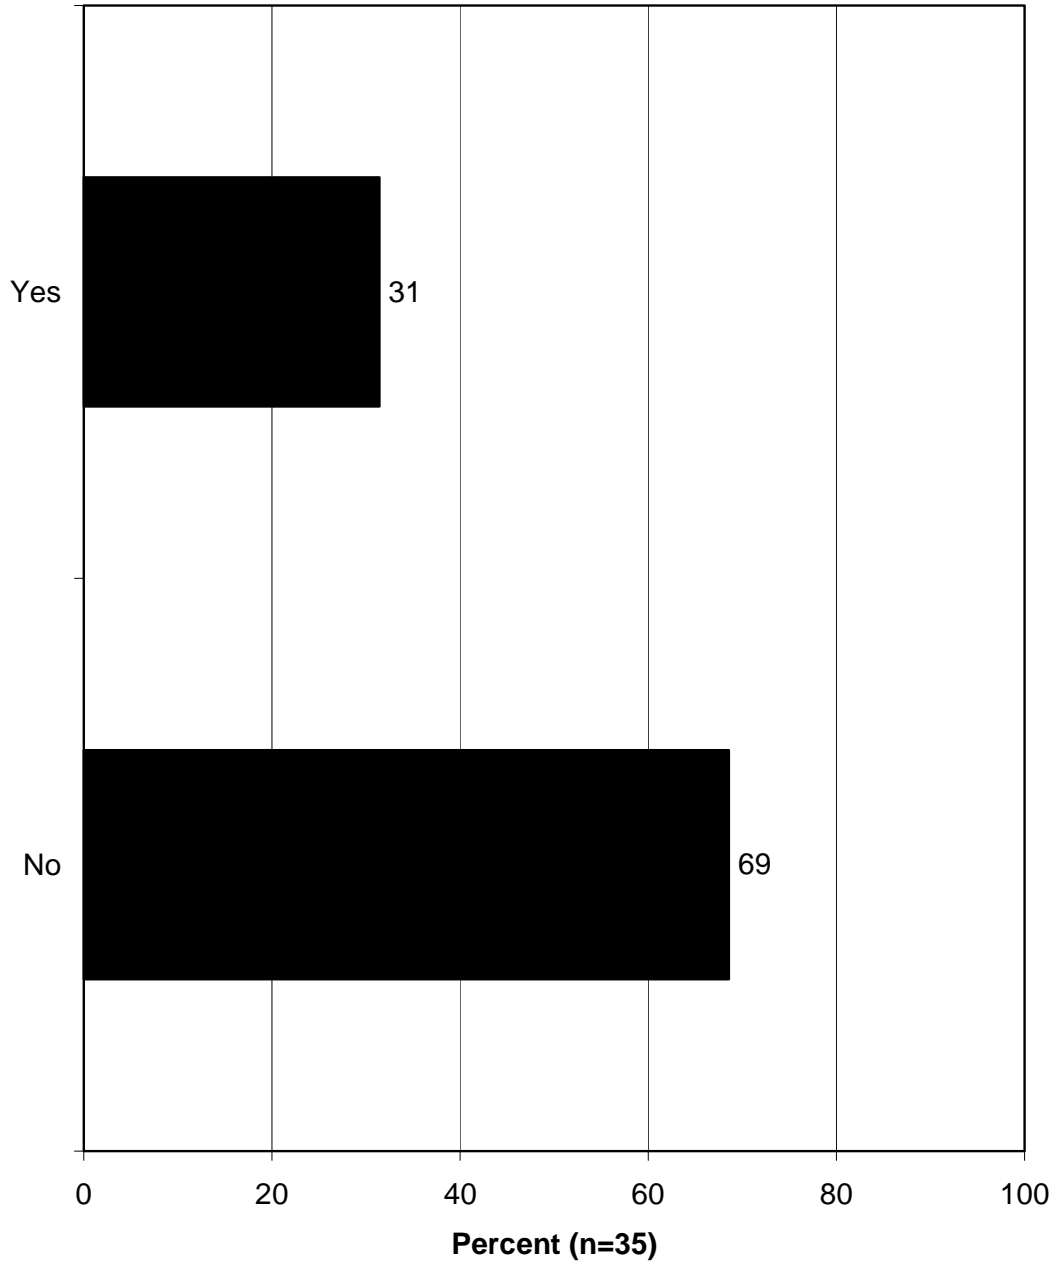

Q132. Does your division offer topics/skills related to agricultural issues and practices in its coastal resource education/outreach efforts?

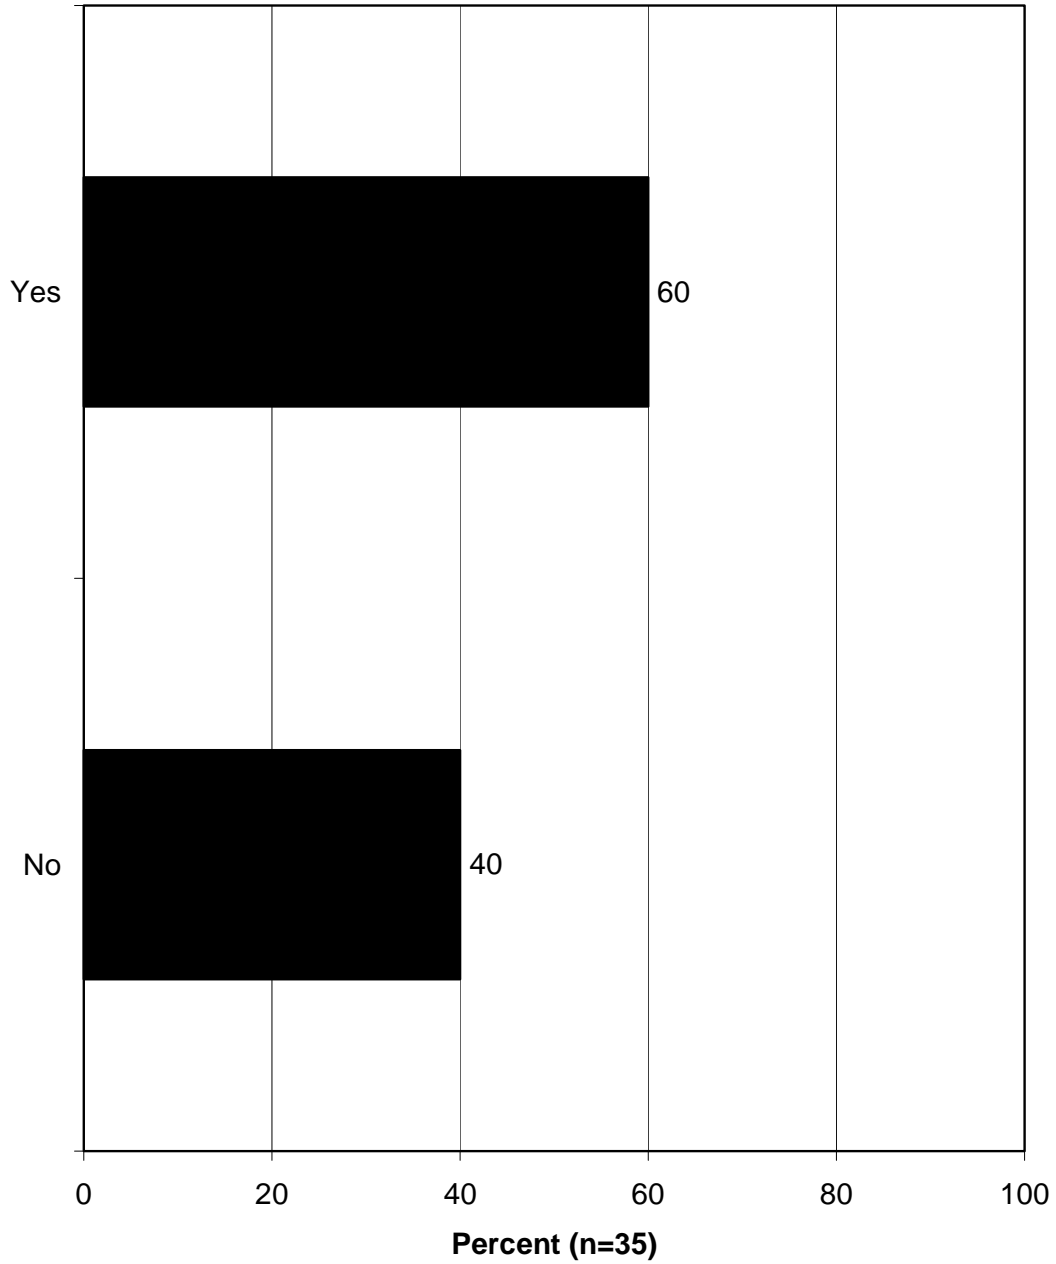

Q133. Does your division offer topics/skills related to global warming and climate in its coastal resource education/outreach efforts?

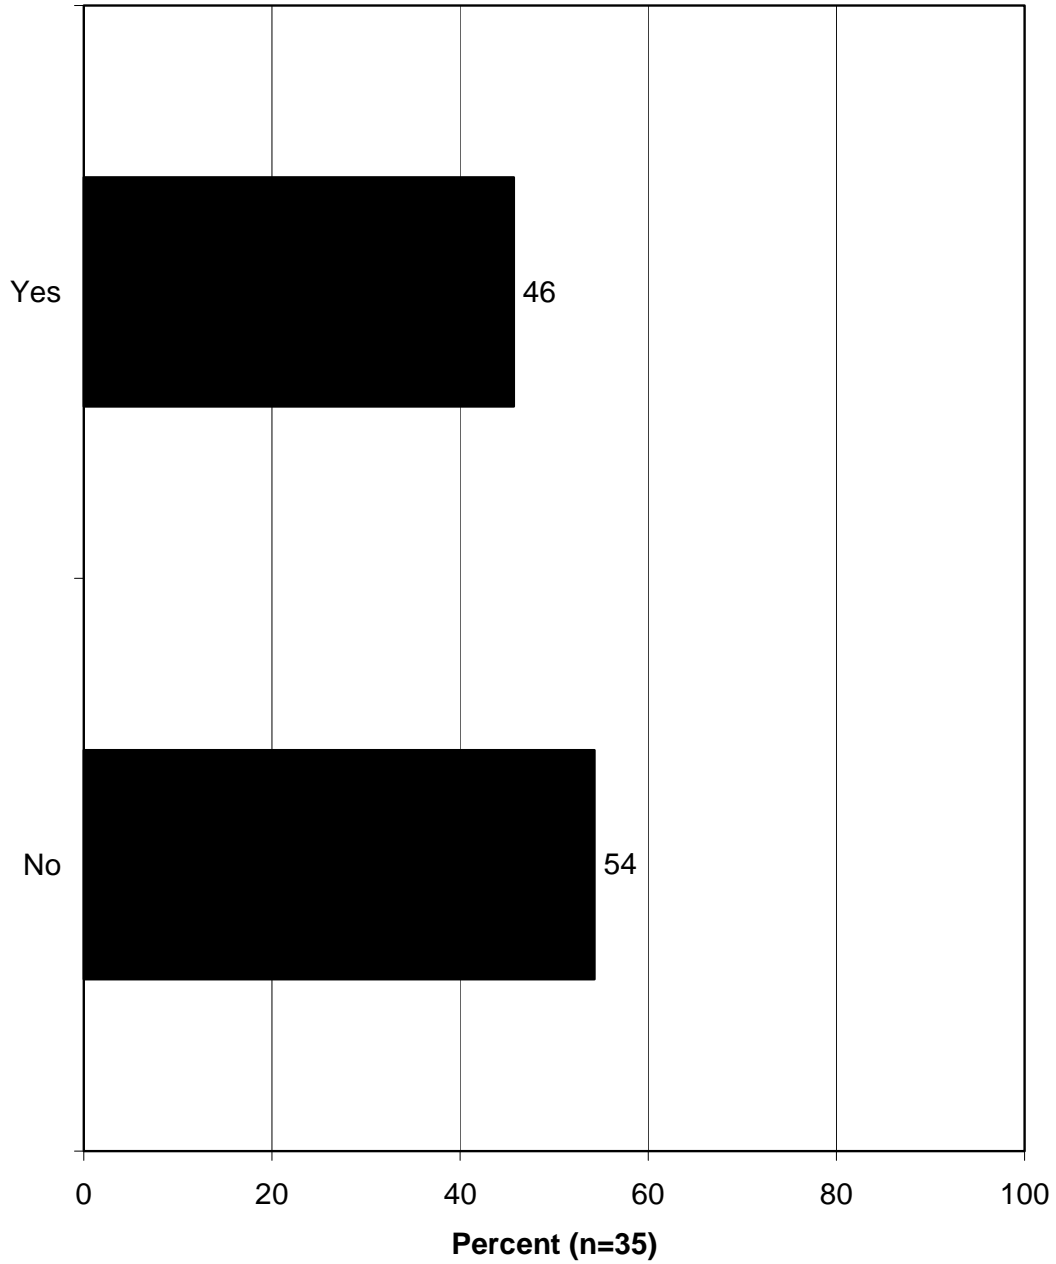

Q134. Does your division offer topics/skills related to ecological landscaping in its coastal resource education/outreach efforts?

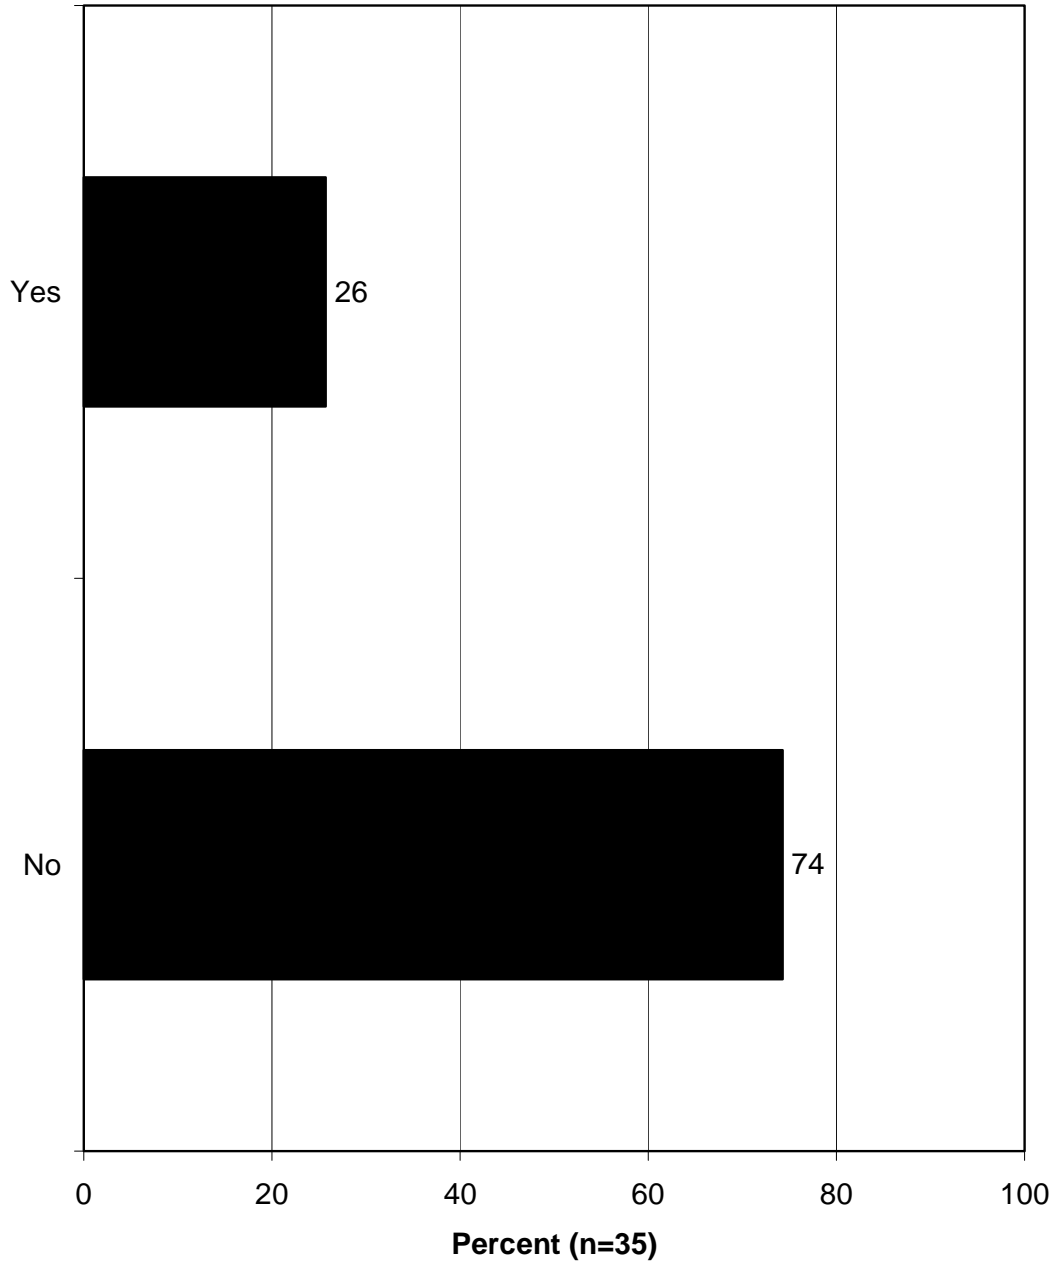

Q135. Does your division offer topics/skills related to erosion control in its coastal resource education/outreach efforts?

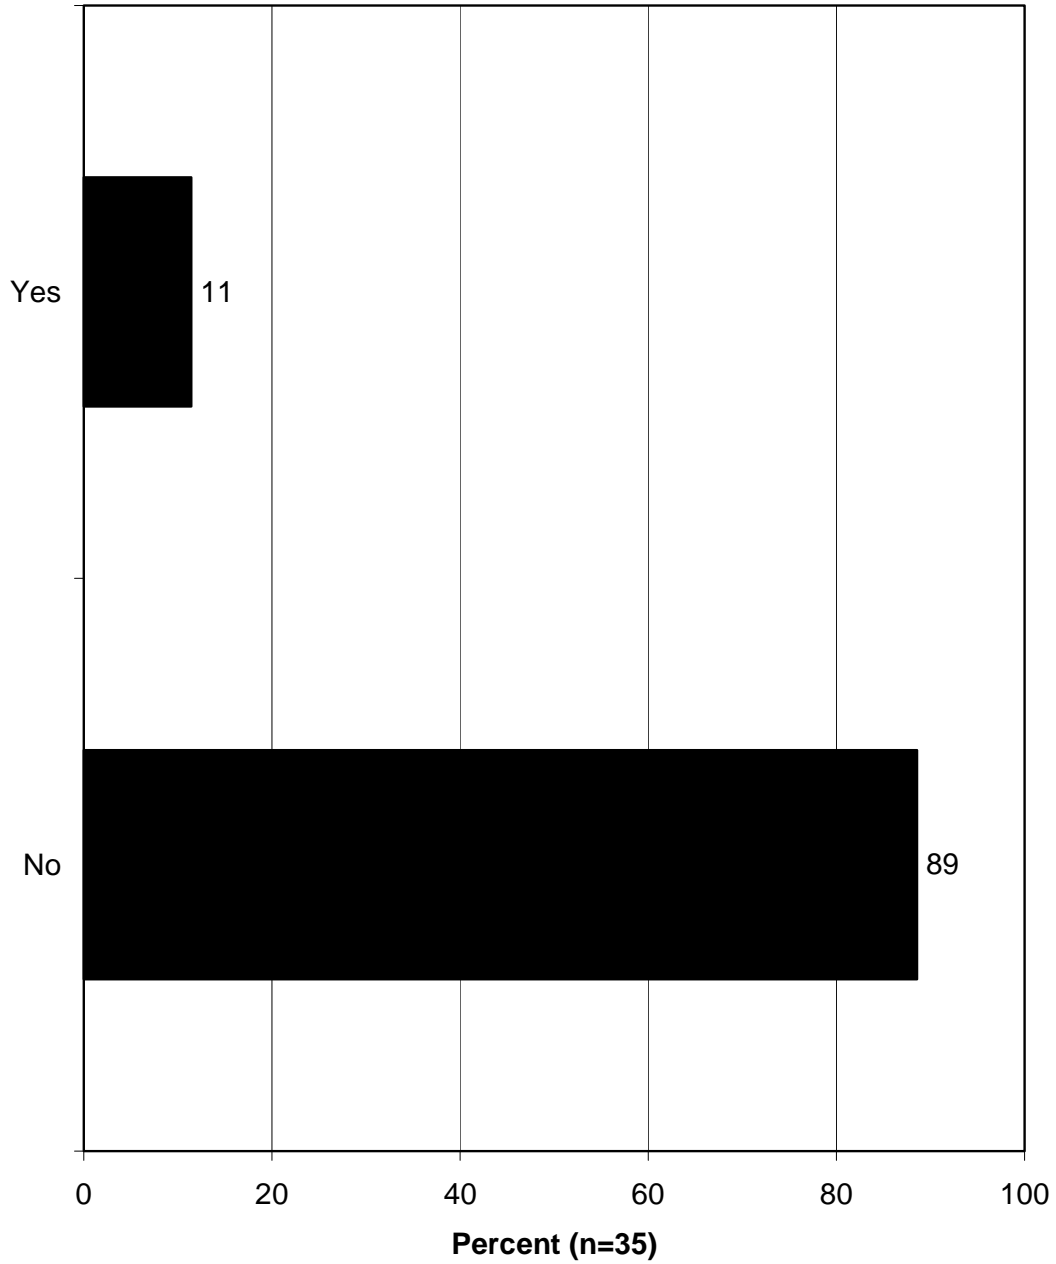

Q136. Does your division offer topics/skills related to estuarine ecology in its coastal resource education/outreach efforts?

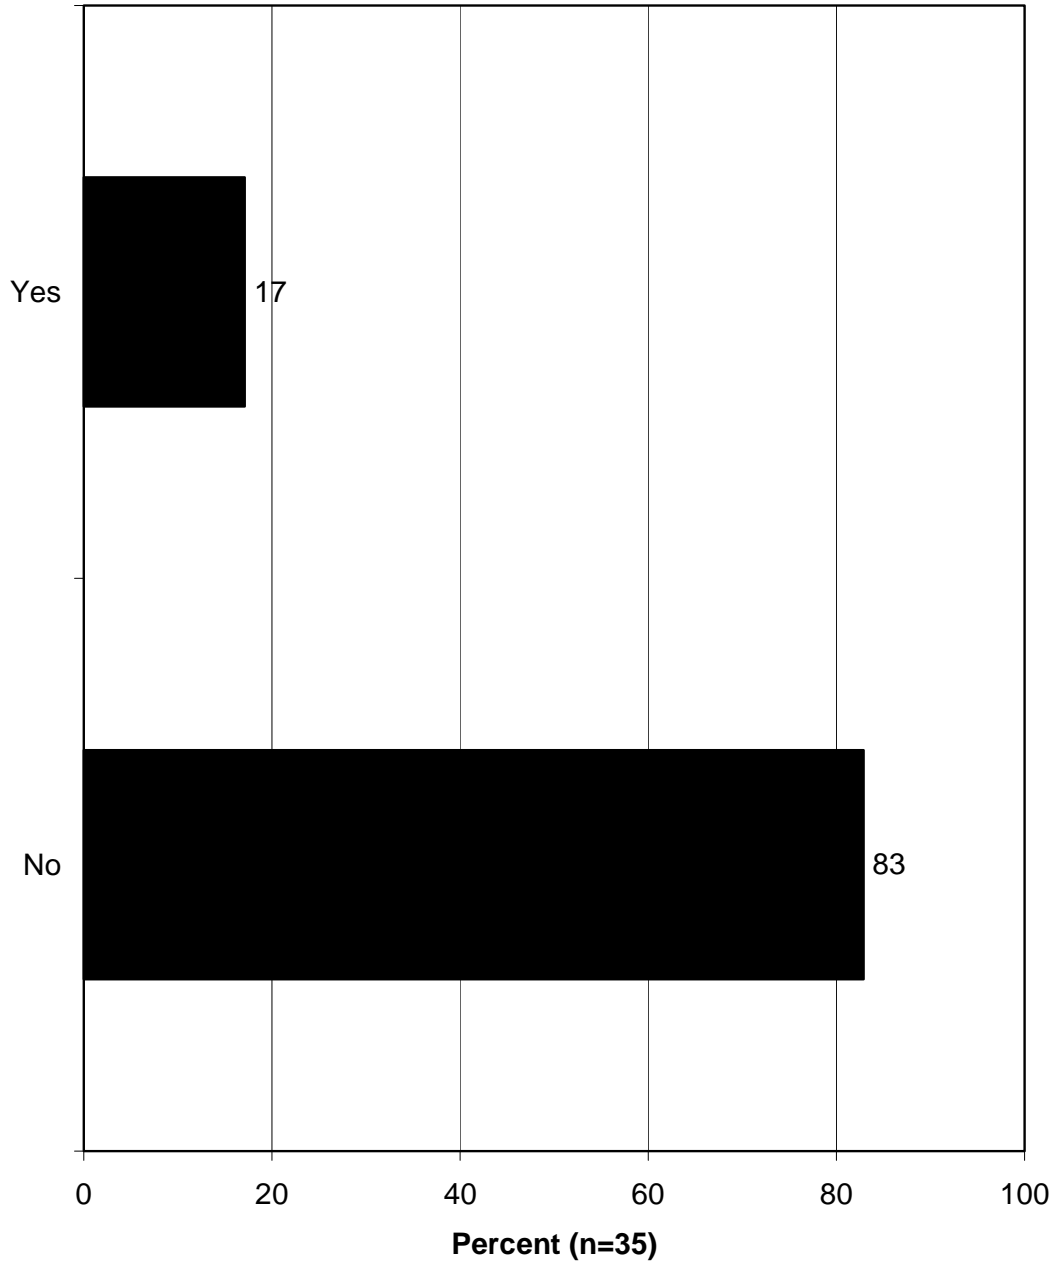

Q137. Does your division offer topics/skills related to aquaculture in its coastal resource education/outreach efforts?

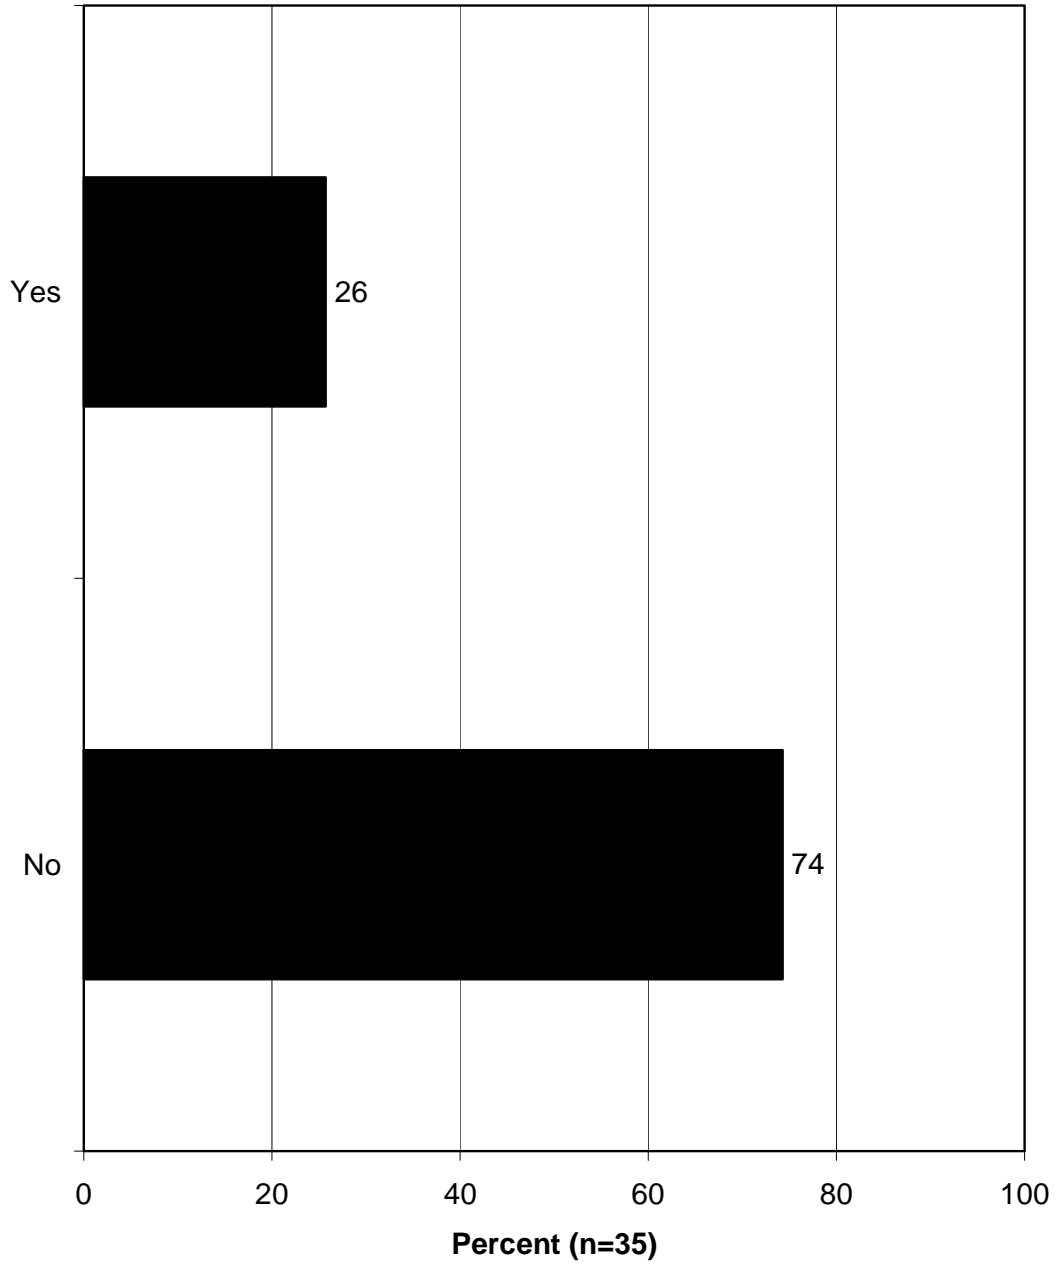

Q138. Does your division offer topics/skills related to fisheries and by-catch issues in its coastal resource education/outreach efforts?

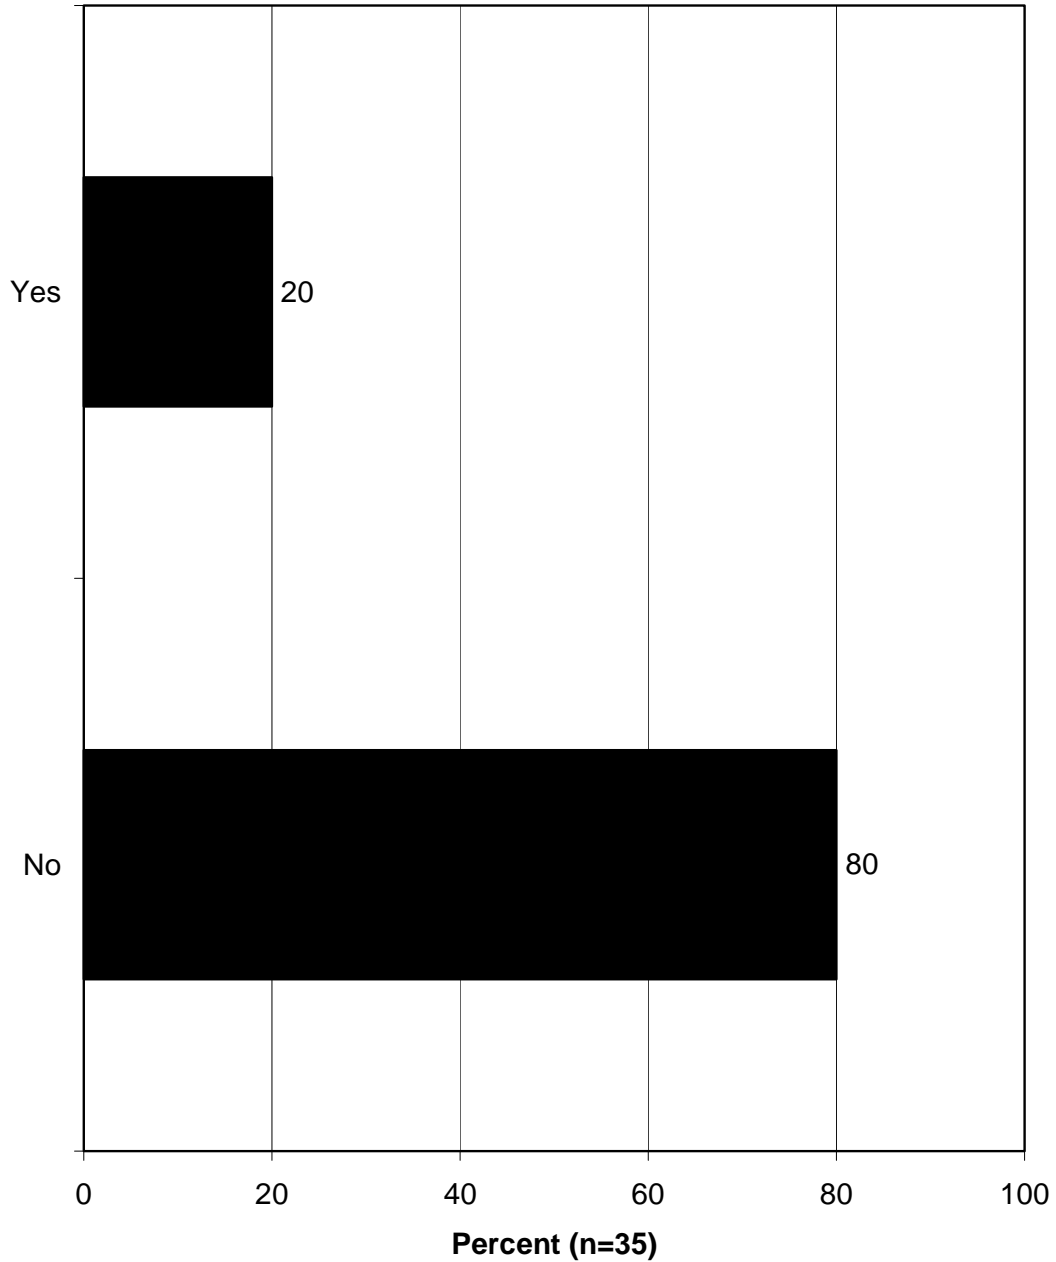

Q139. Does your division offer topics/skills related to fisheries and fishery law in its coastal resource education/outreach efforts?

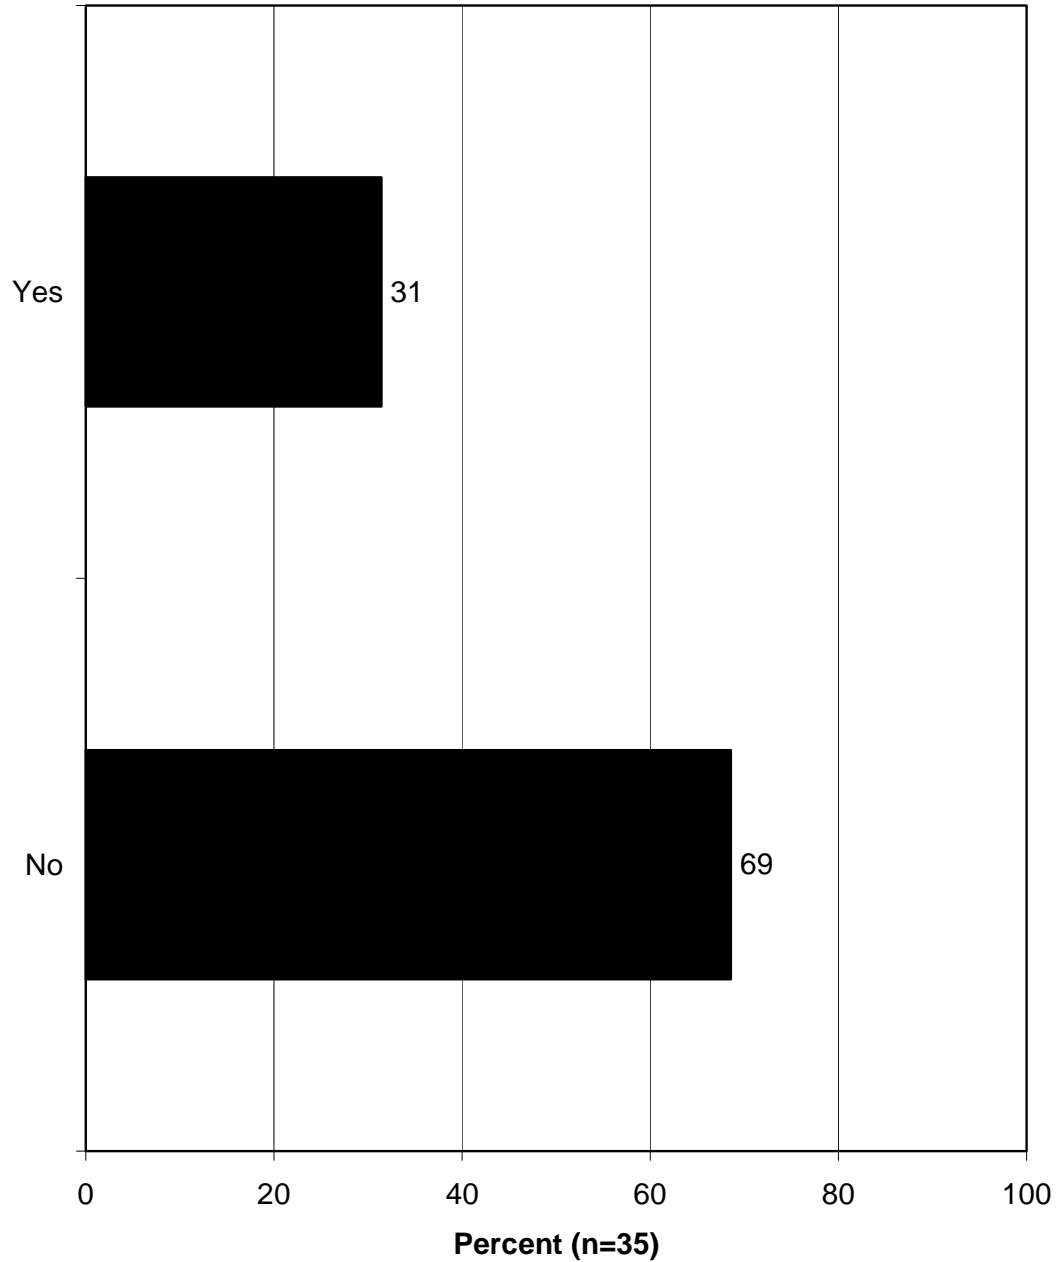

Q140. Does your division offer topics/skills related to forestry issues in its coastal resource education/outreach efforts?

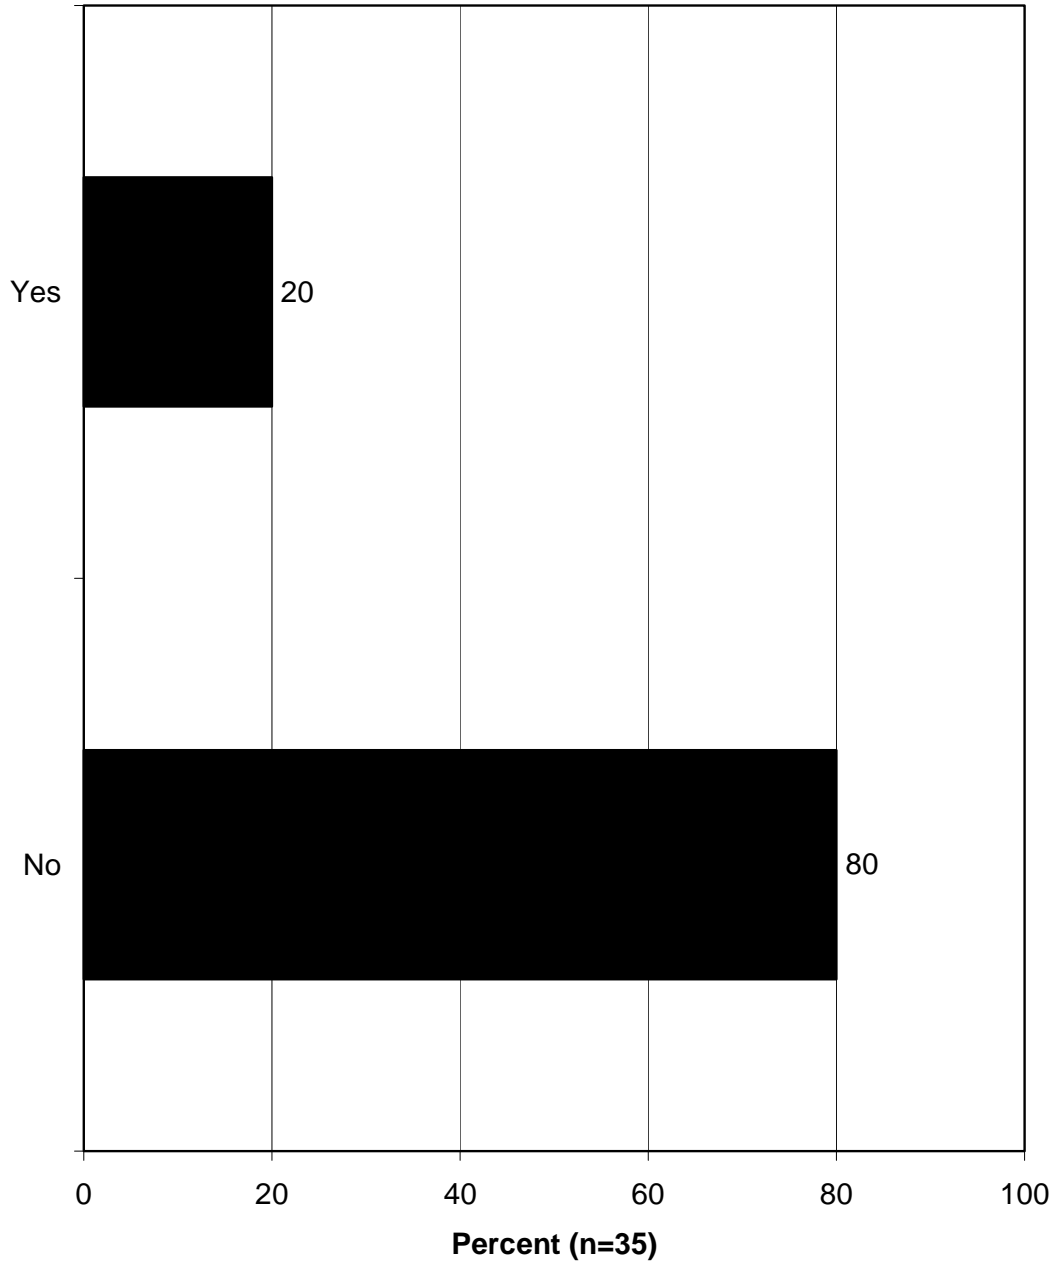

Q141. Does your division offer topics/skills related to environmental technologies in its coastal resource education/outreach efforts?

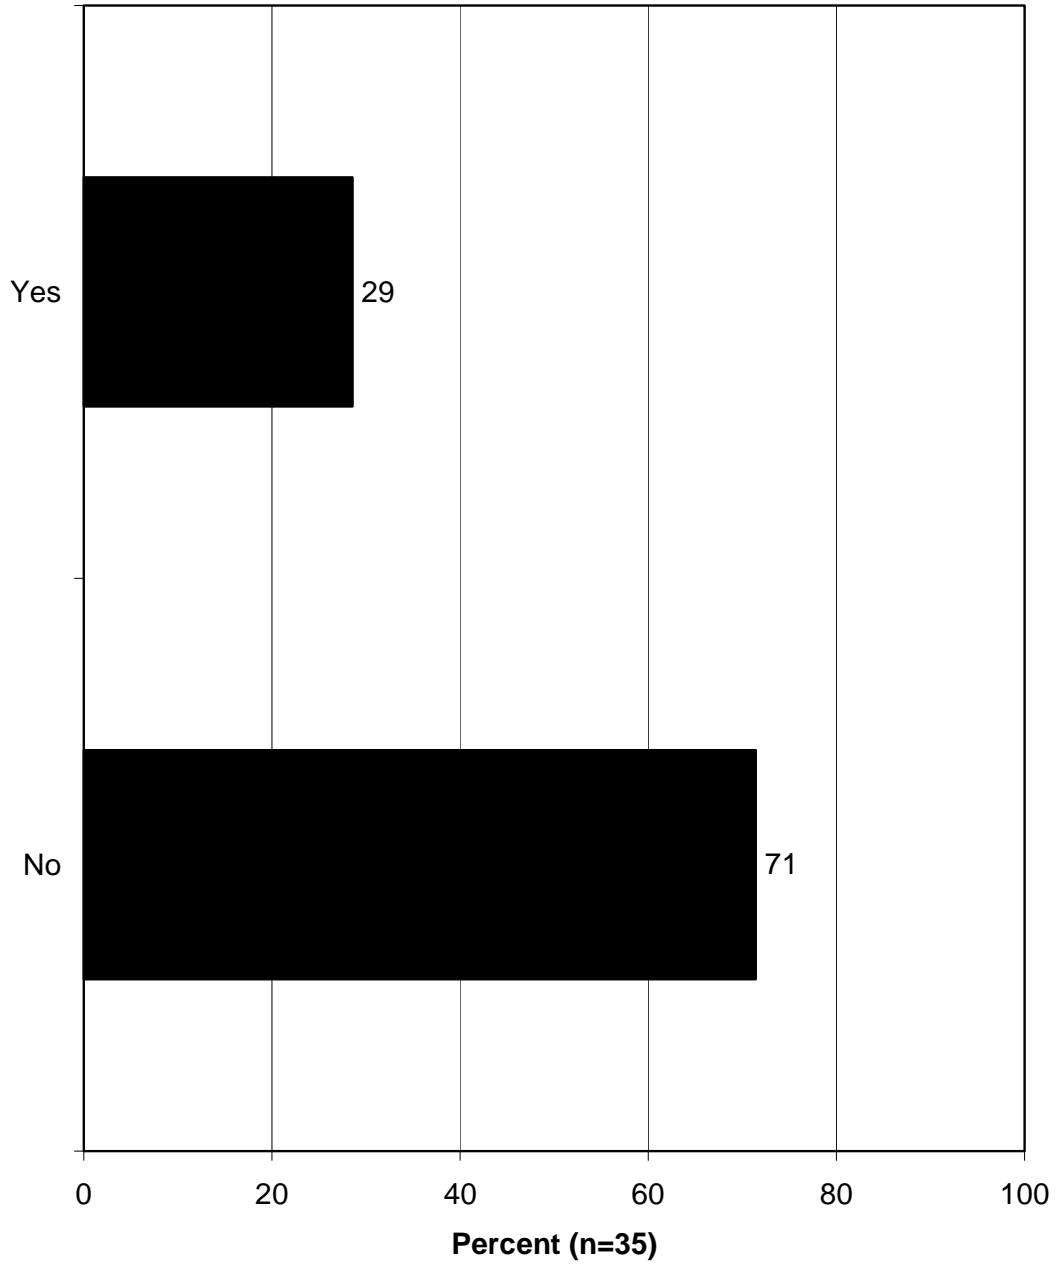

Q142. Does your division offer topics/skills related to economic aspects of land use in its coastal resource education/outreach efforts?

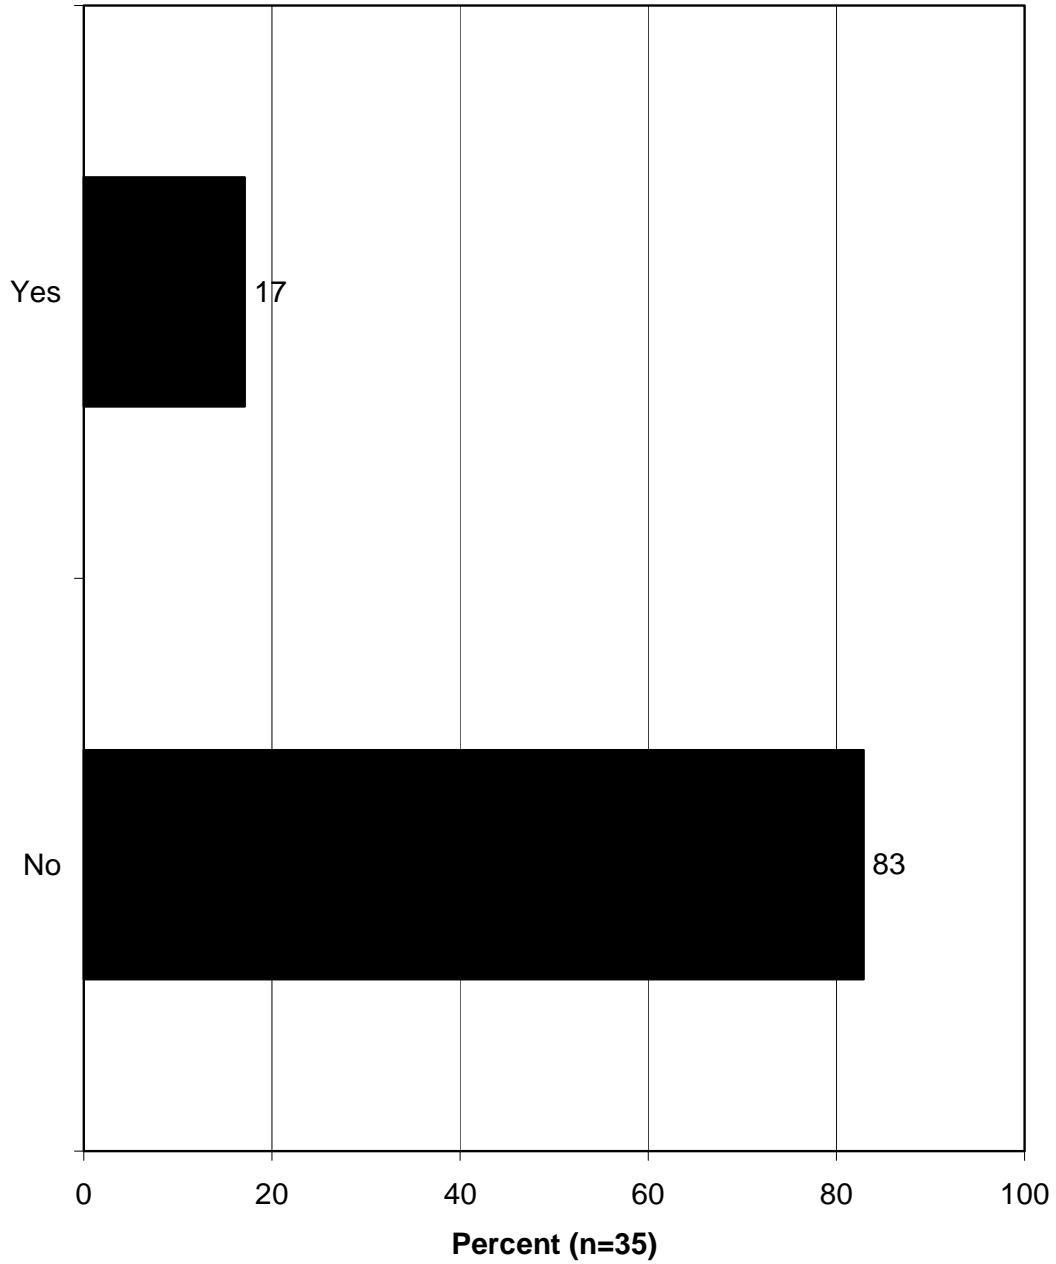

Q143. Does your division offer topics/skills related to real estate issues in its coastal resource education/outreach efforts?

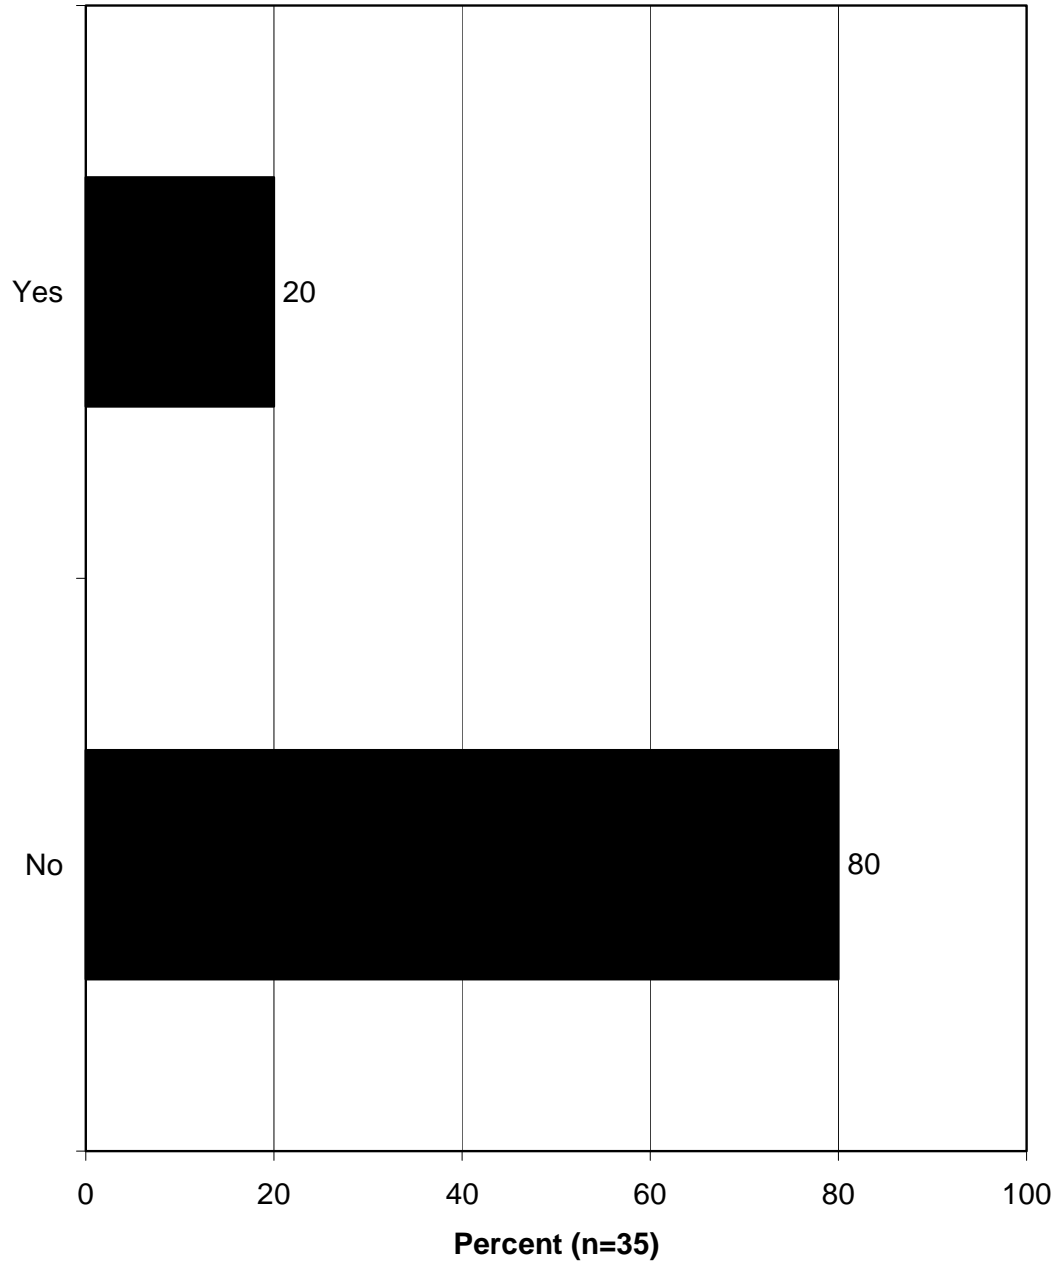

Q144. Does your division offer topics/skills related to social aspects of land use in its coastal resource education/outreach efforts?

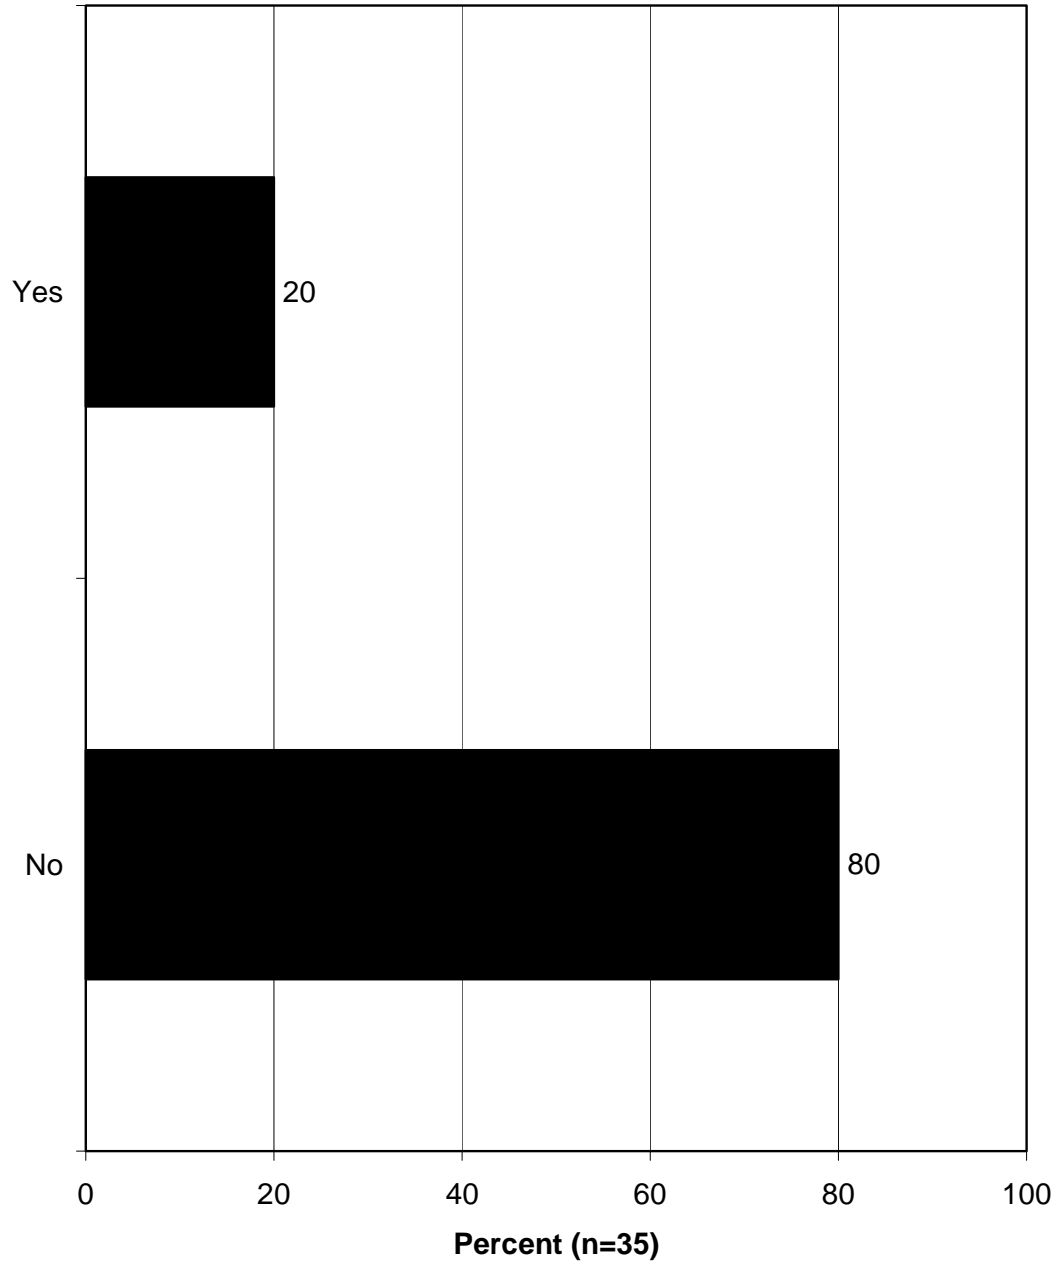

Q145. Does your division offer topics/skills related to renewable energy in its coastal resource education/outreach efforts?

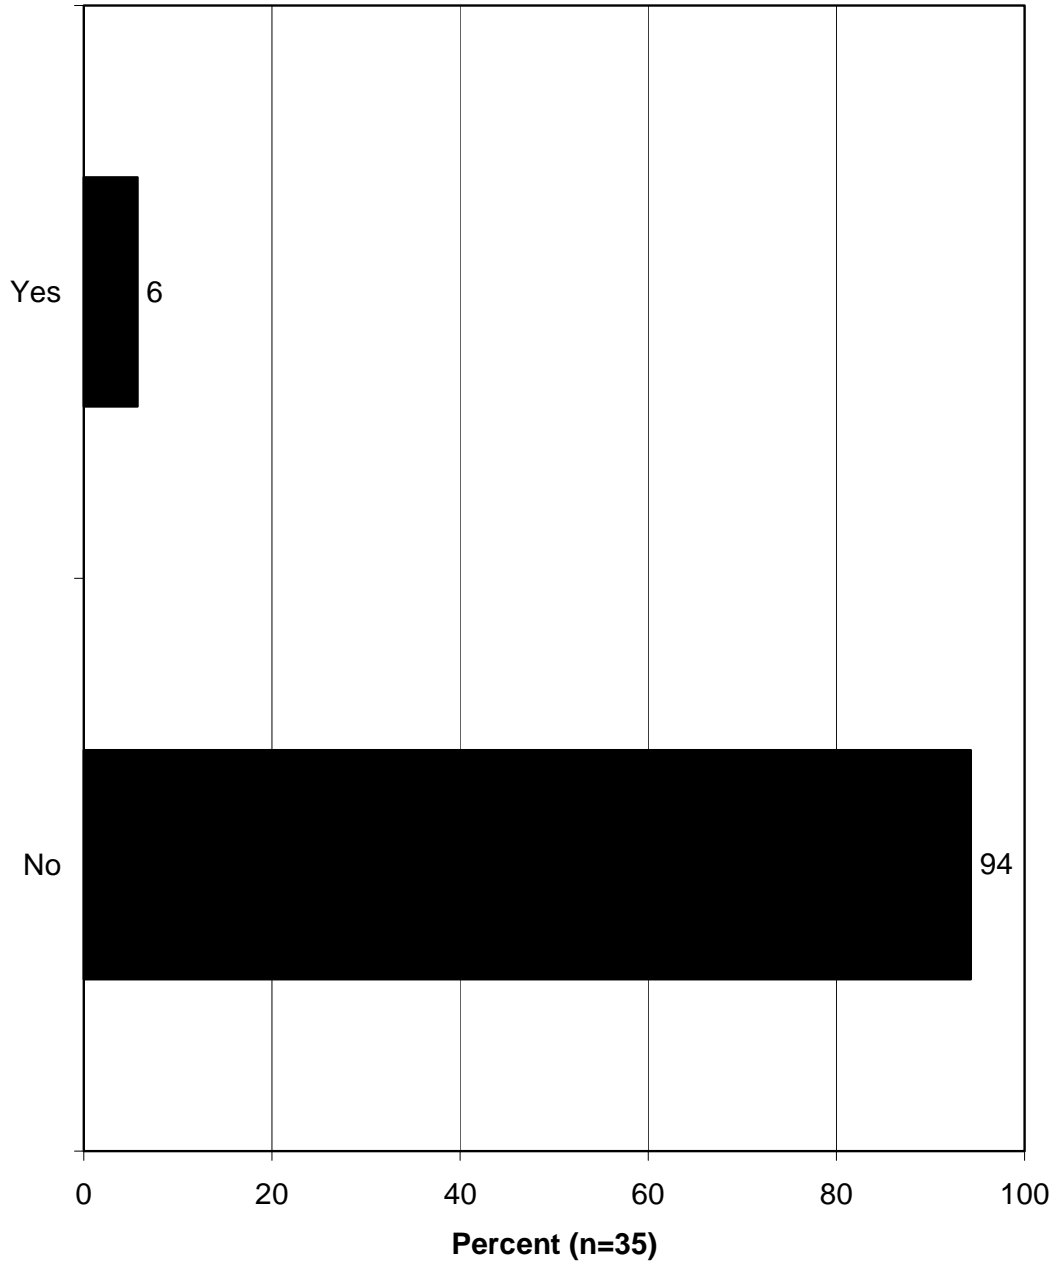

Q146. Does your division offer topics/skills related to land trusts and conservation acquisitions in its coastal resource education/outreach efforts?

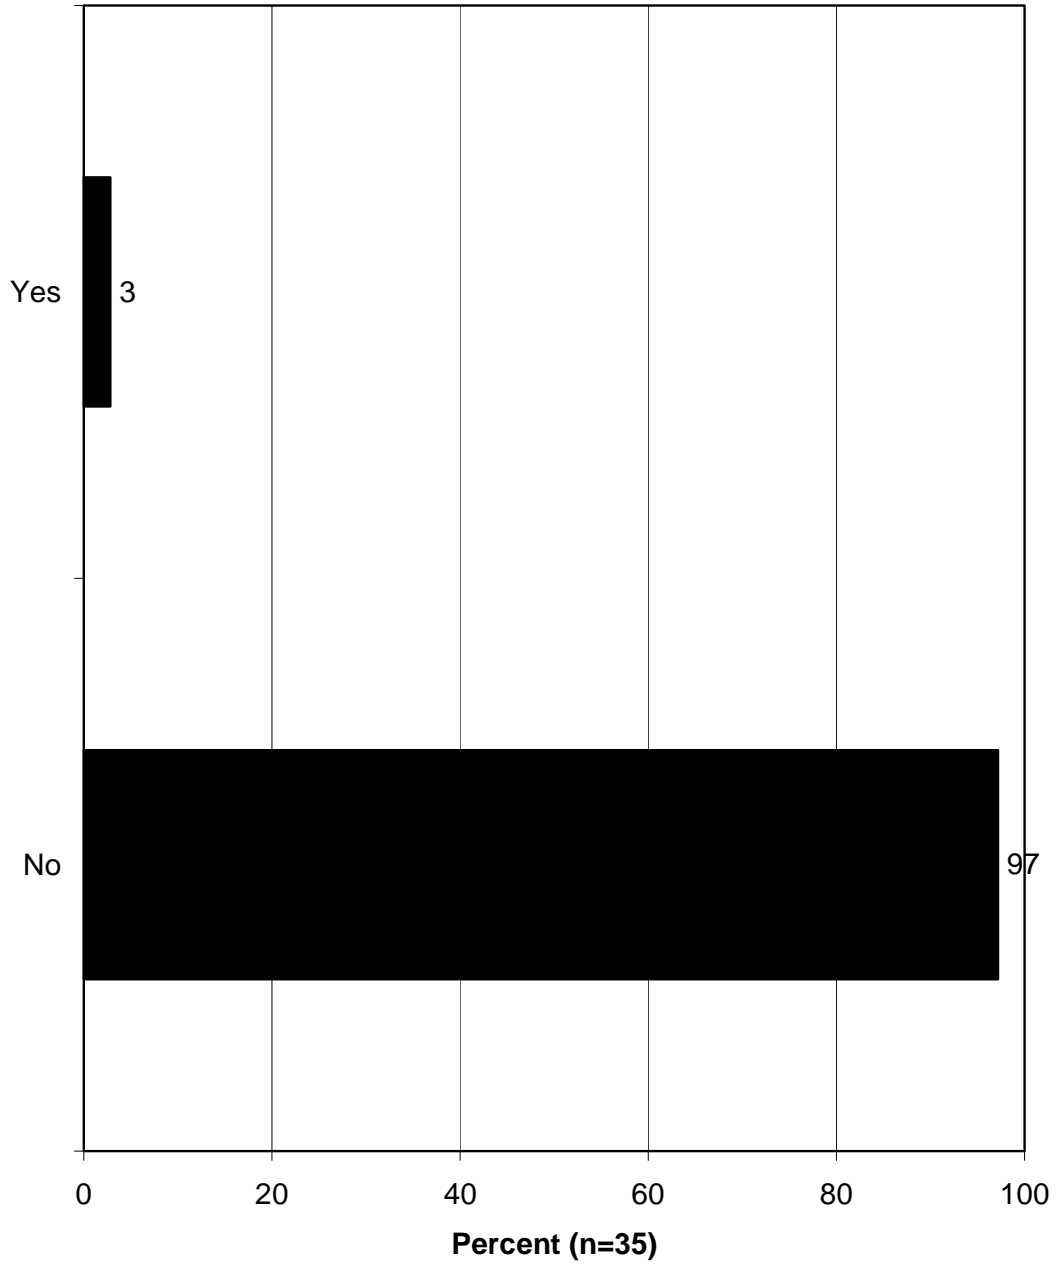

Q147. Does your division offer topics/skills related to mineral, oil and natural gas extraction in its coastal resource education/outreach efforts?

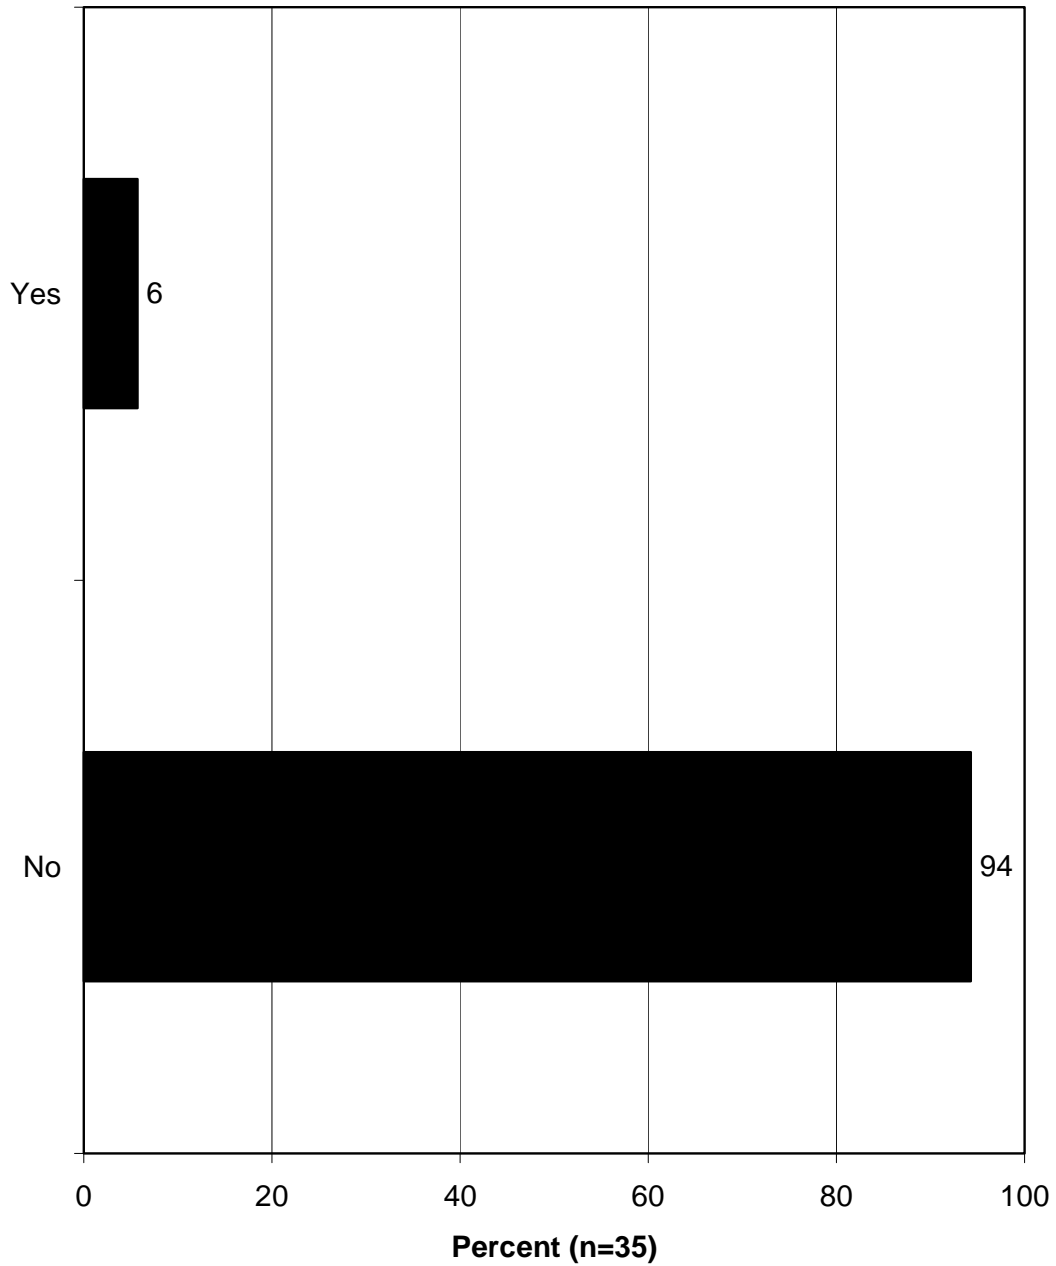

Q148. Does your division offer topics/skills related to ocean forecasting in its coastal resource education/outreach efforts?

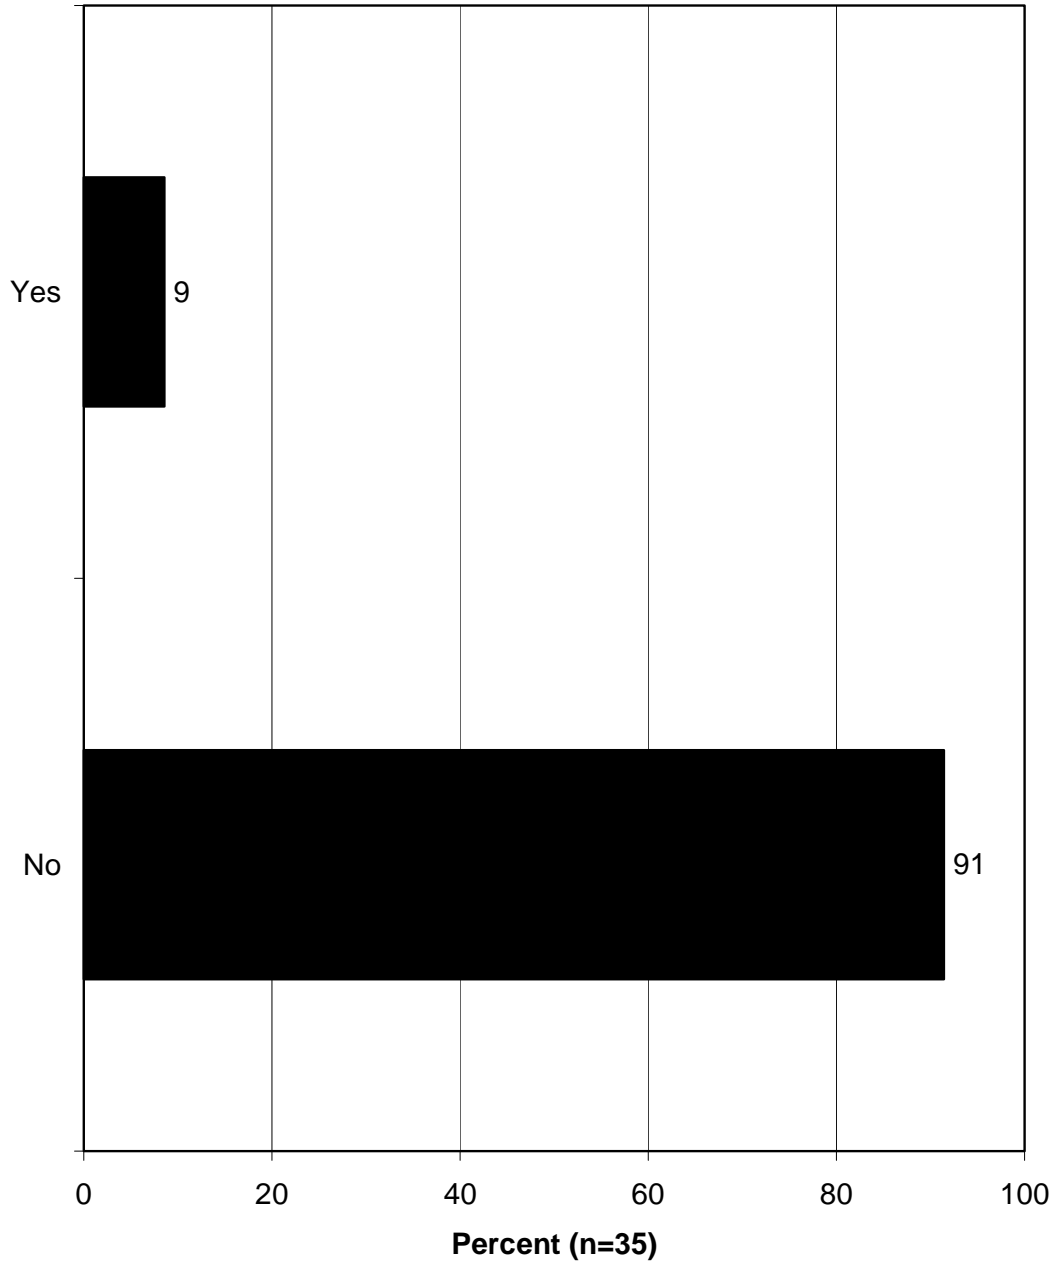

Q149. Does your division offer topics/skills related to climate prediction in its coastal resource education/outreach efforts?

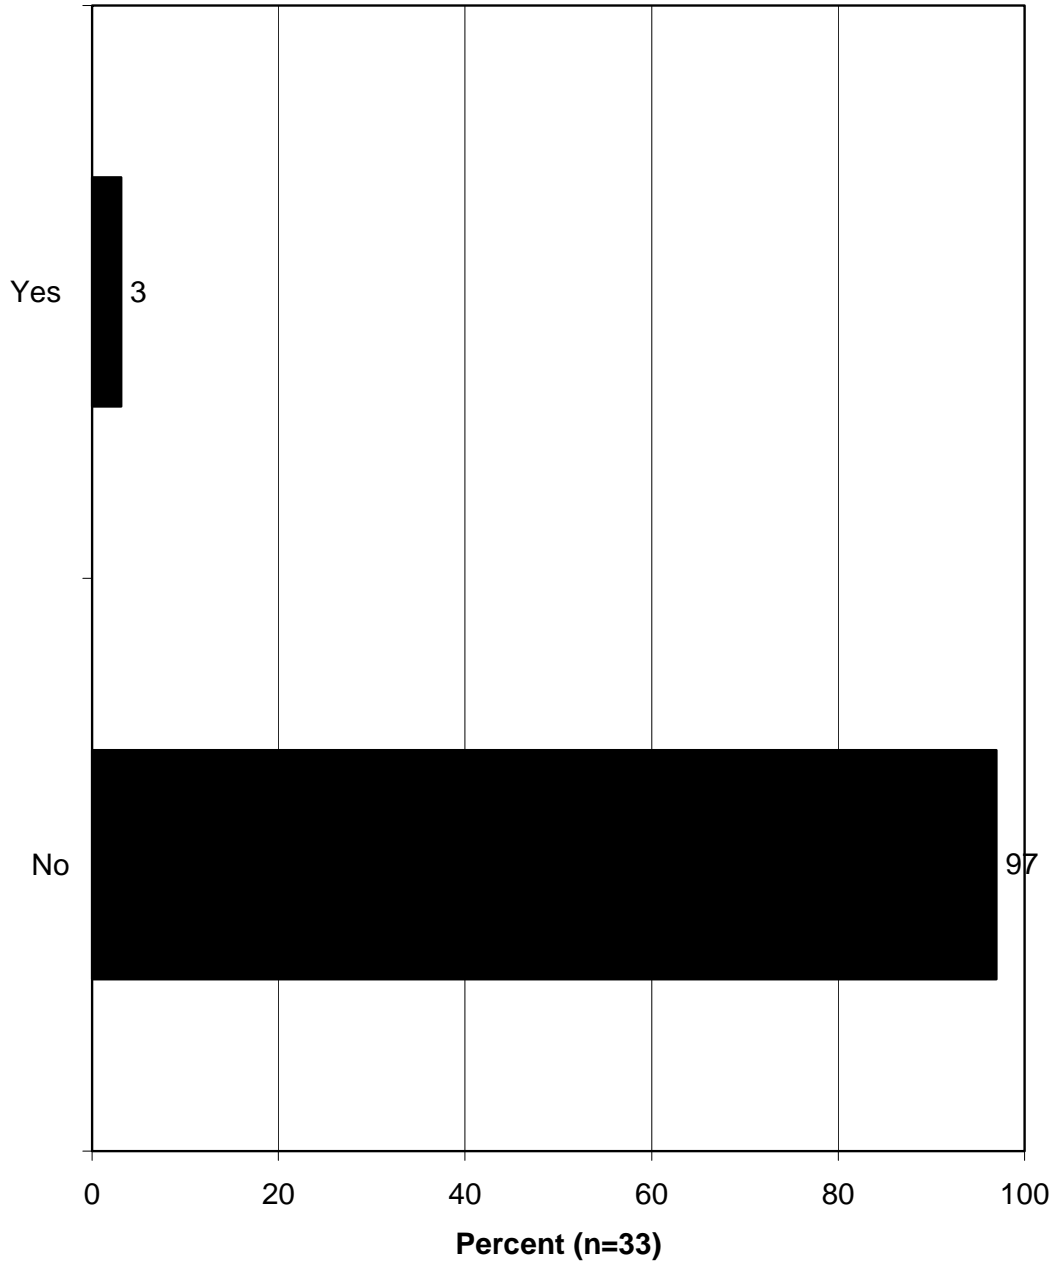

Q150. Does your division offer topics/skills related to biogeochemical predictors of ocean-atmosphere conditions in its coastal resource education/outreach efforts?

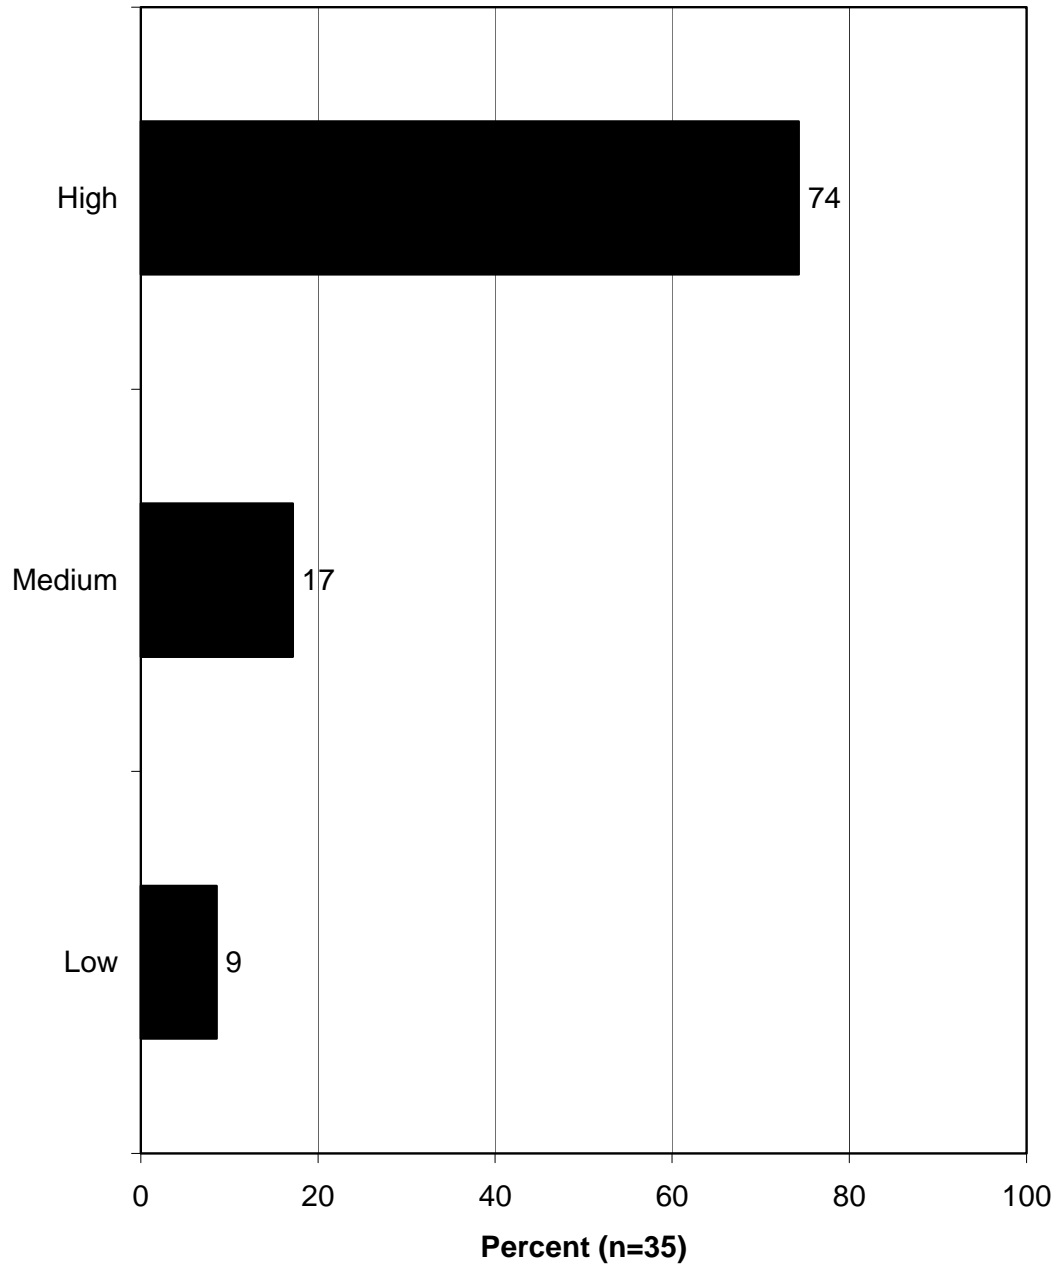

Q151. Does your division offer topics/skills related to ocean surface optical properties in its coastal resource education/outreach efforts?

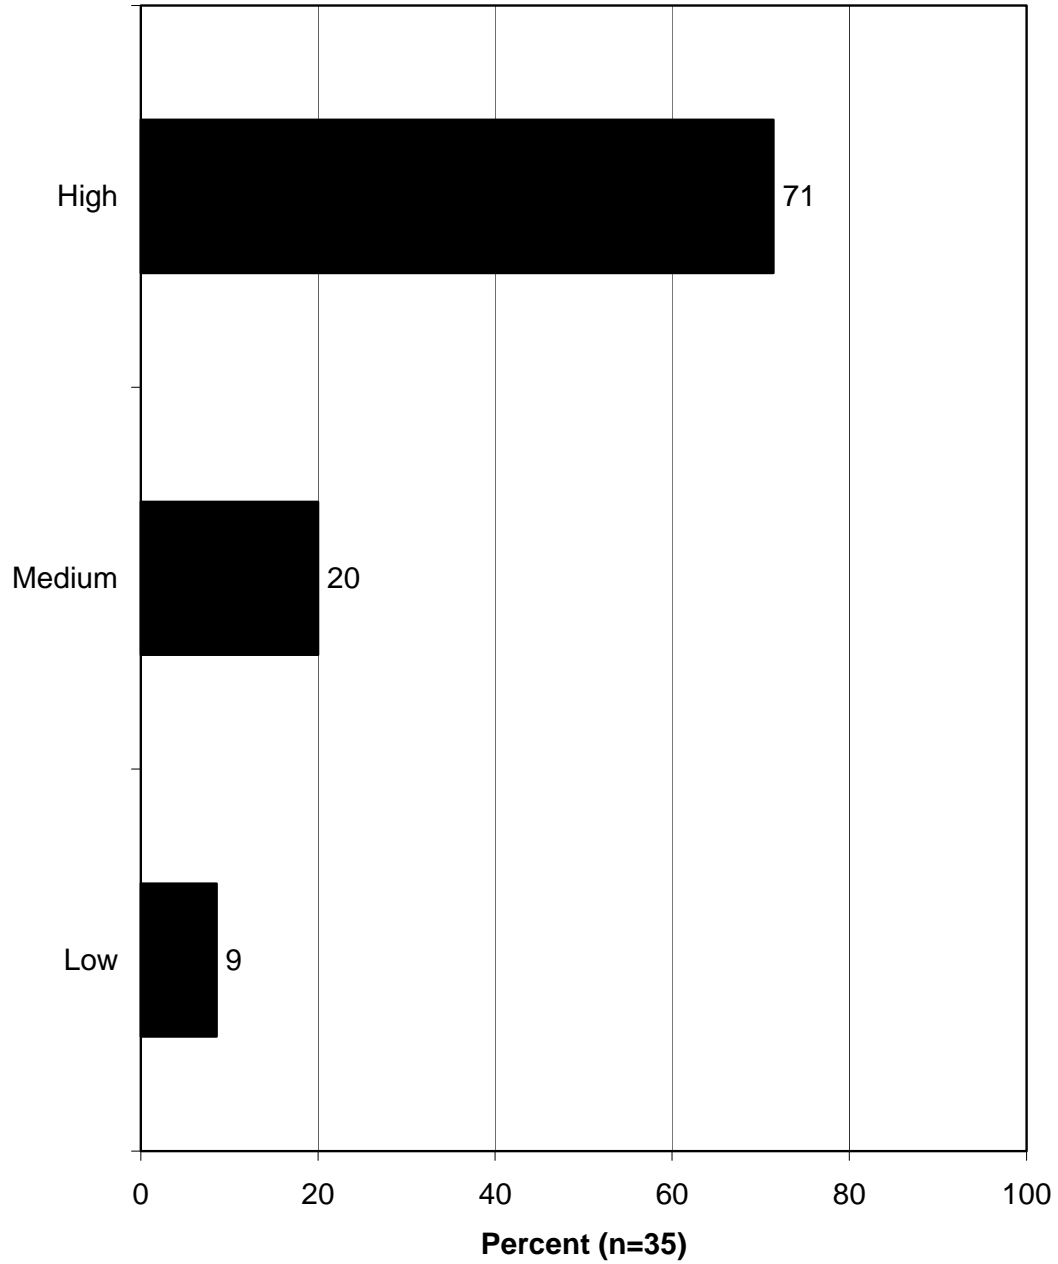

Q152. Does your division offer topics/skills related to other(s) in its coastal resource education/outreach efforts?

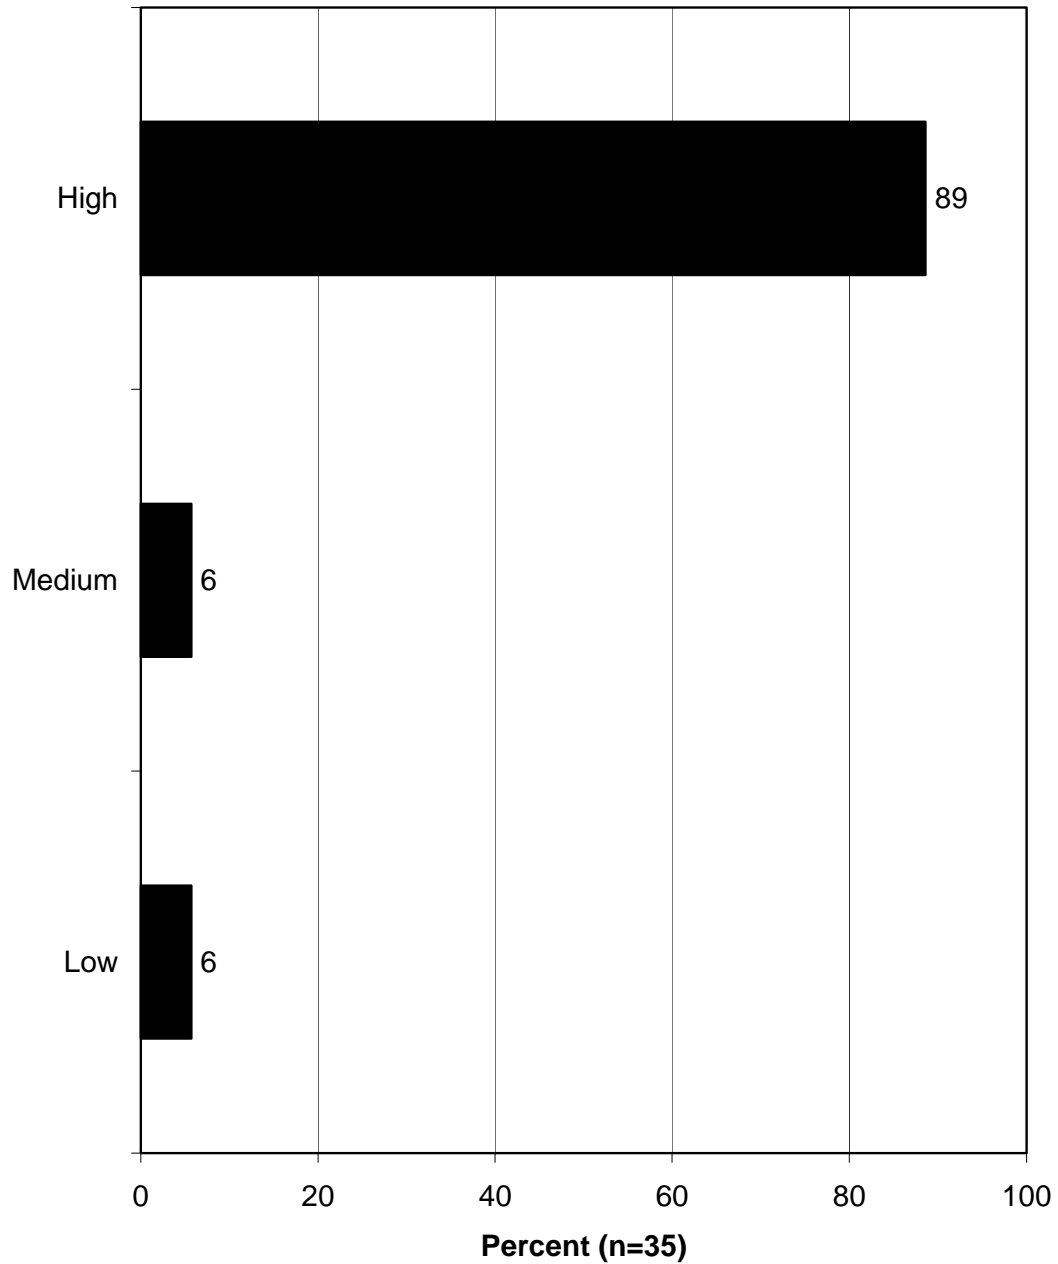

Q154. Do you think there is a high, medium, or low need for coastal training about biodiversity?

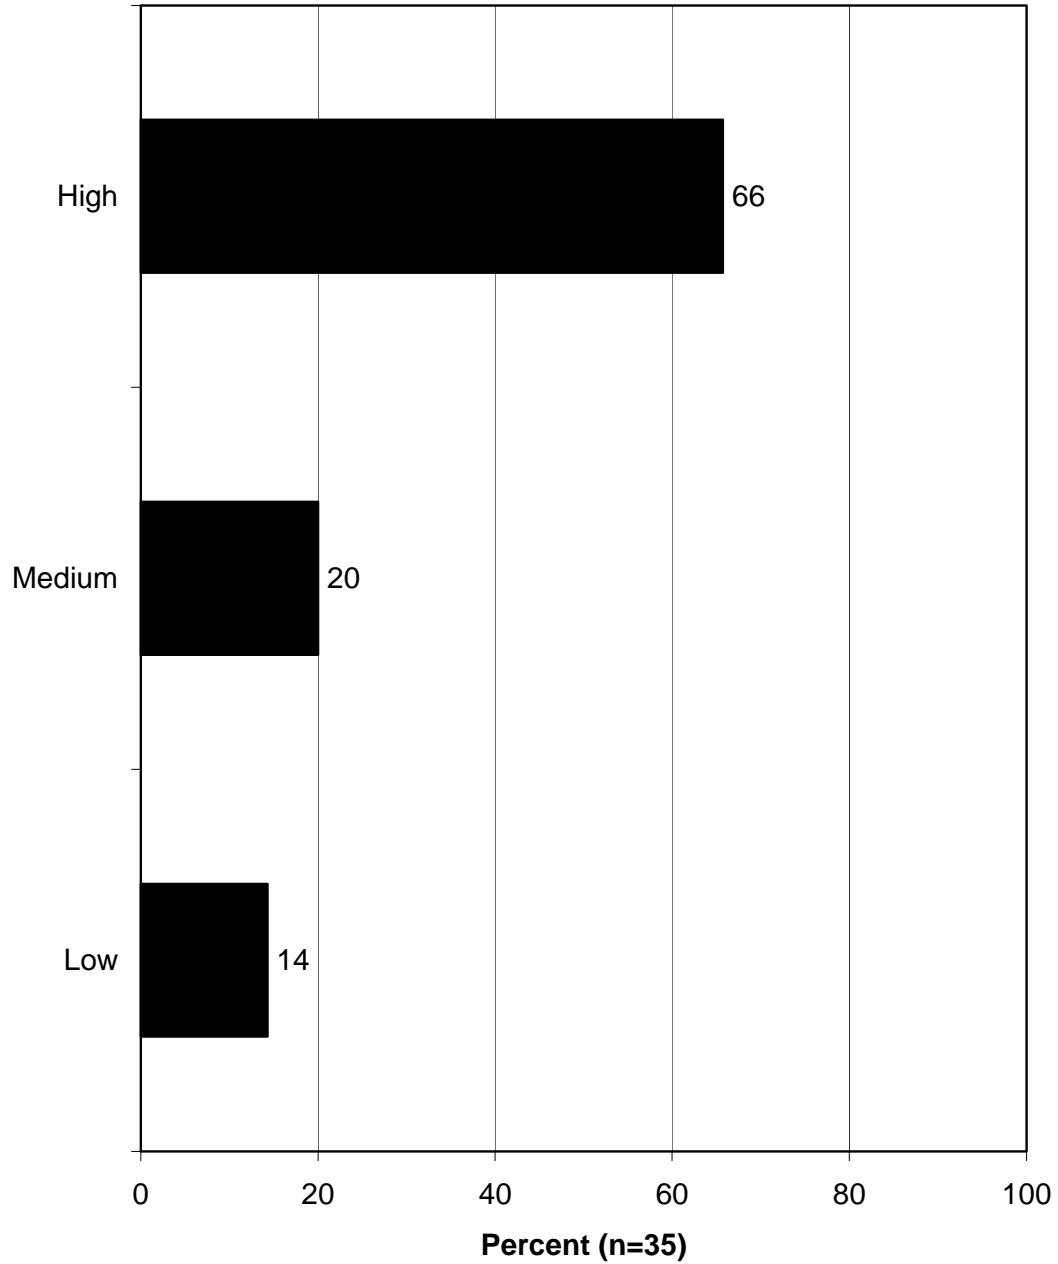

Q155. Do you think there is a high, medium, or low need for coastal training about habitat fragmentation?

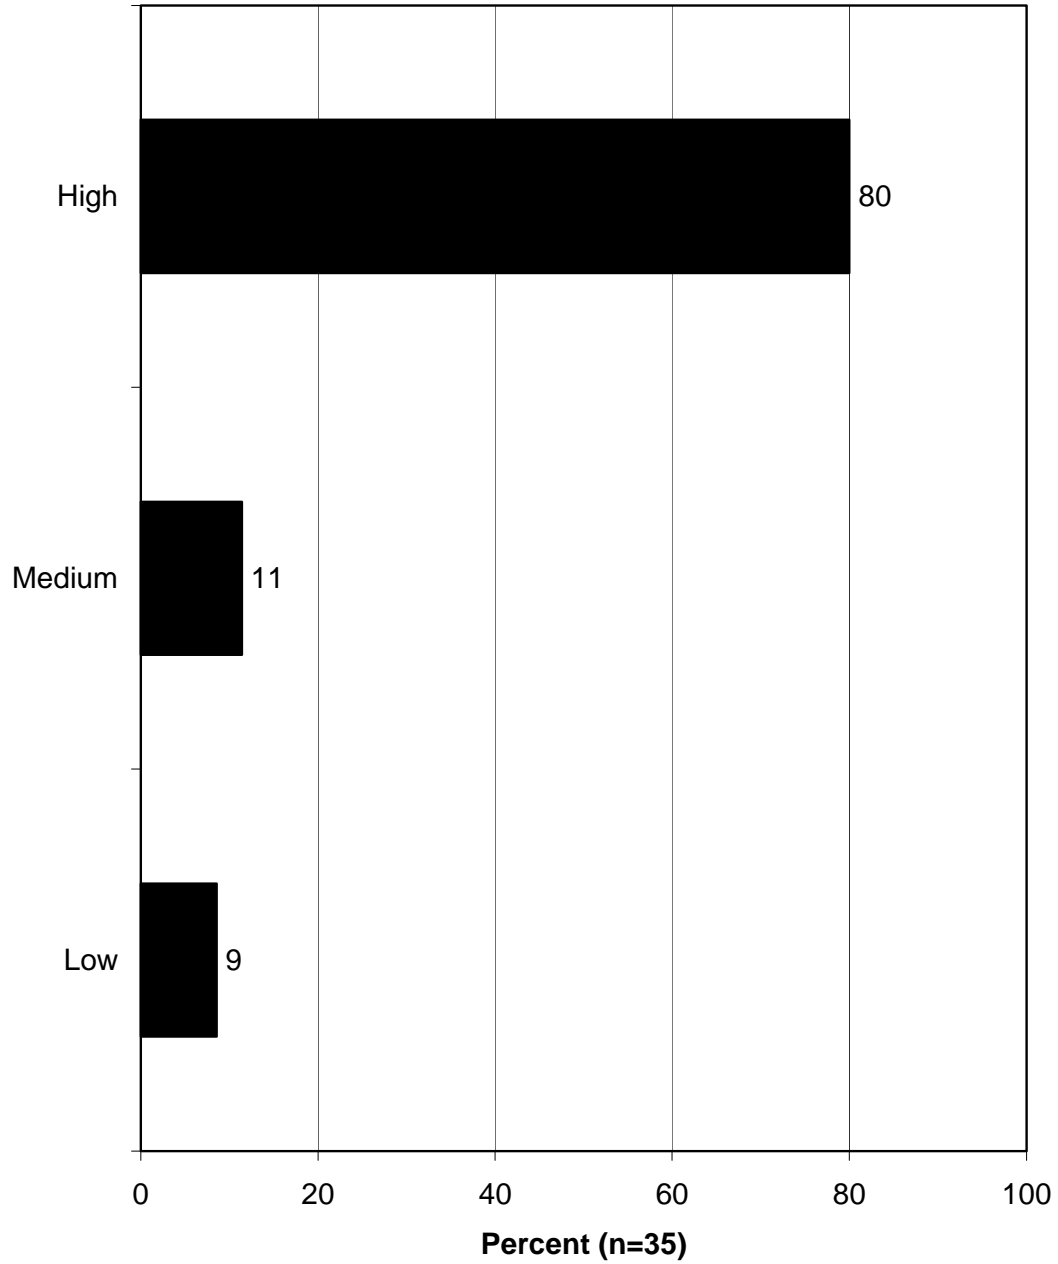

Q156. Do you think there is a high, medium, or low need for coastal training about habitat protection and restoration?

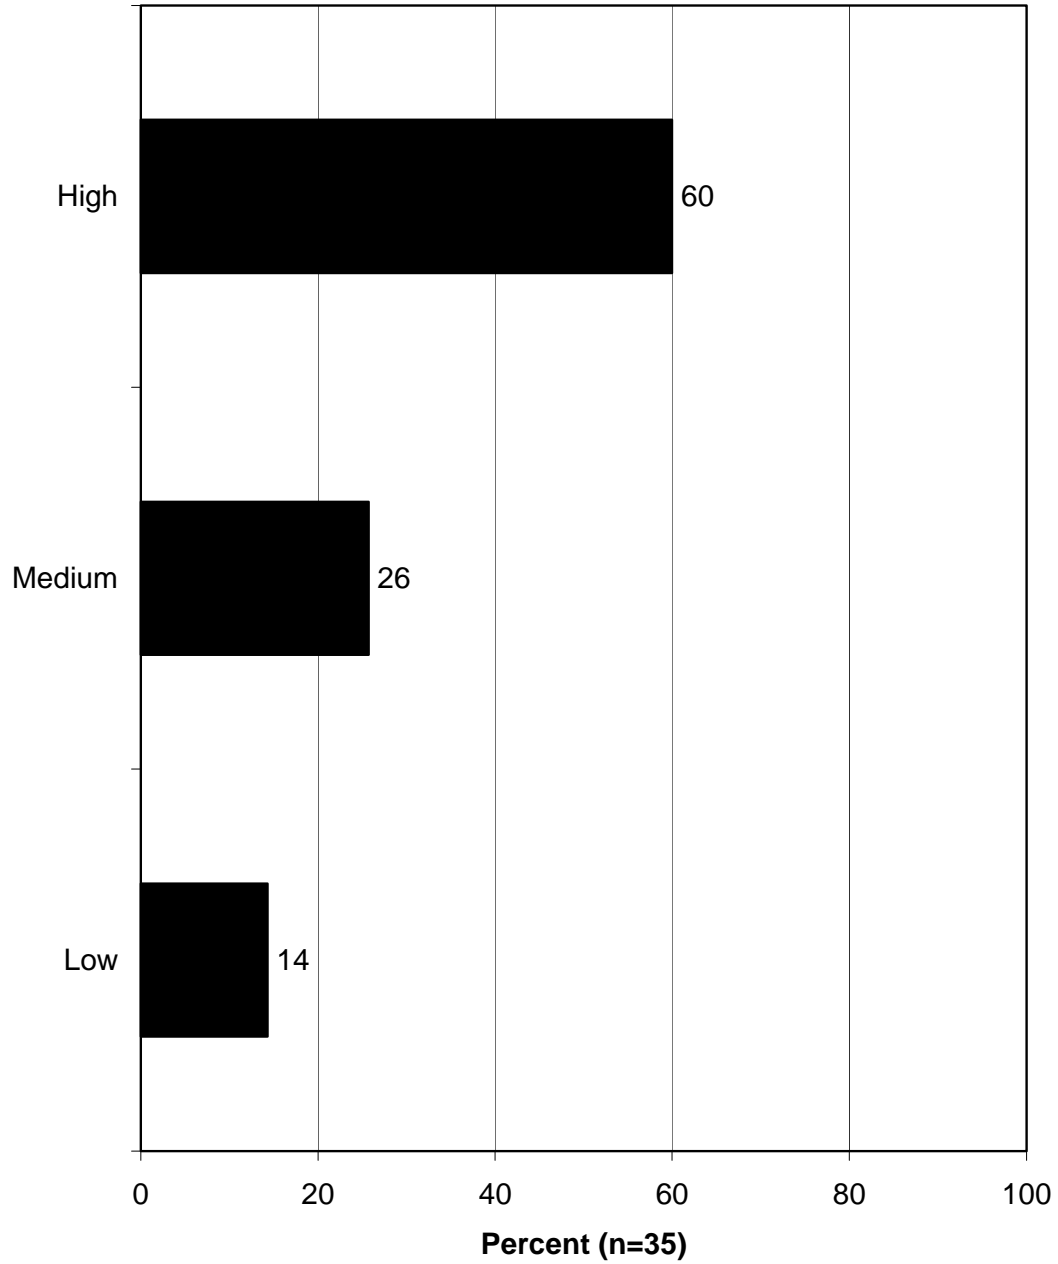

Q157. Do you think there is a high, medium, or low need for coastal training about buffers?

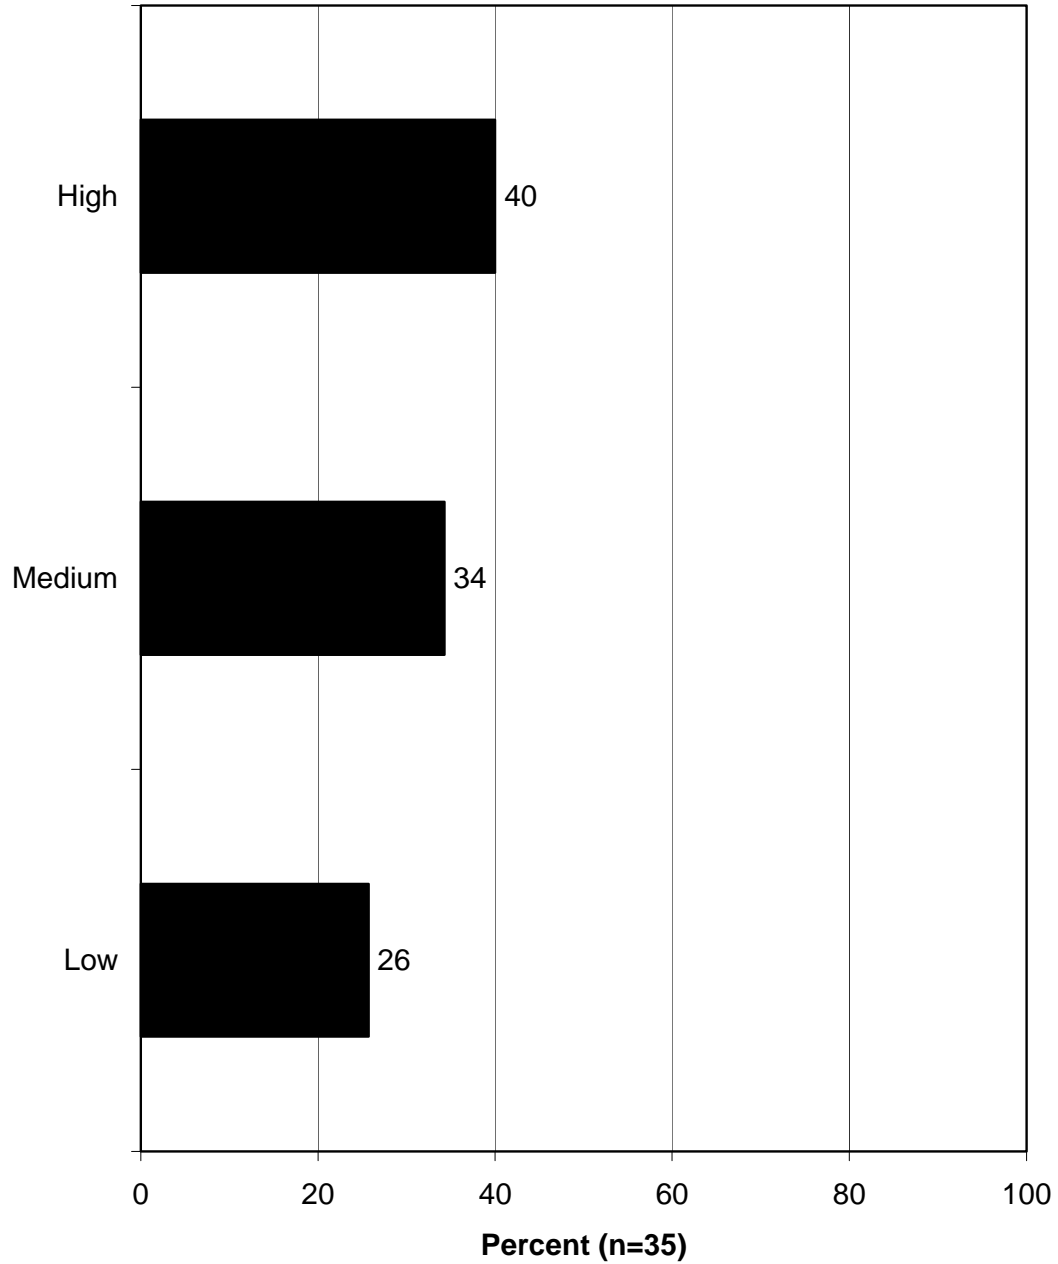

Q158. Do you think there is a high, medium, or low need for coastal training about wetlands and waterways protection?

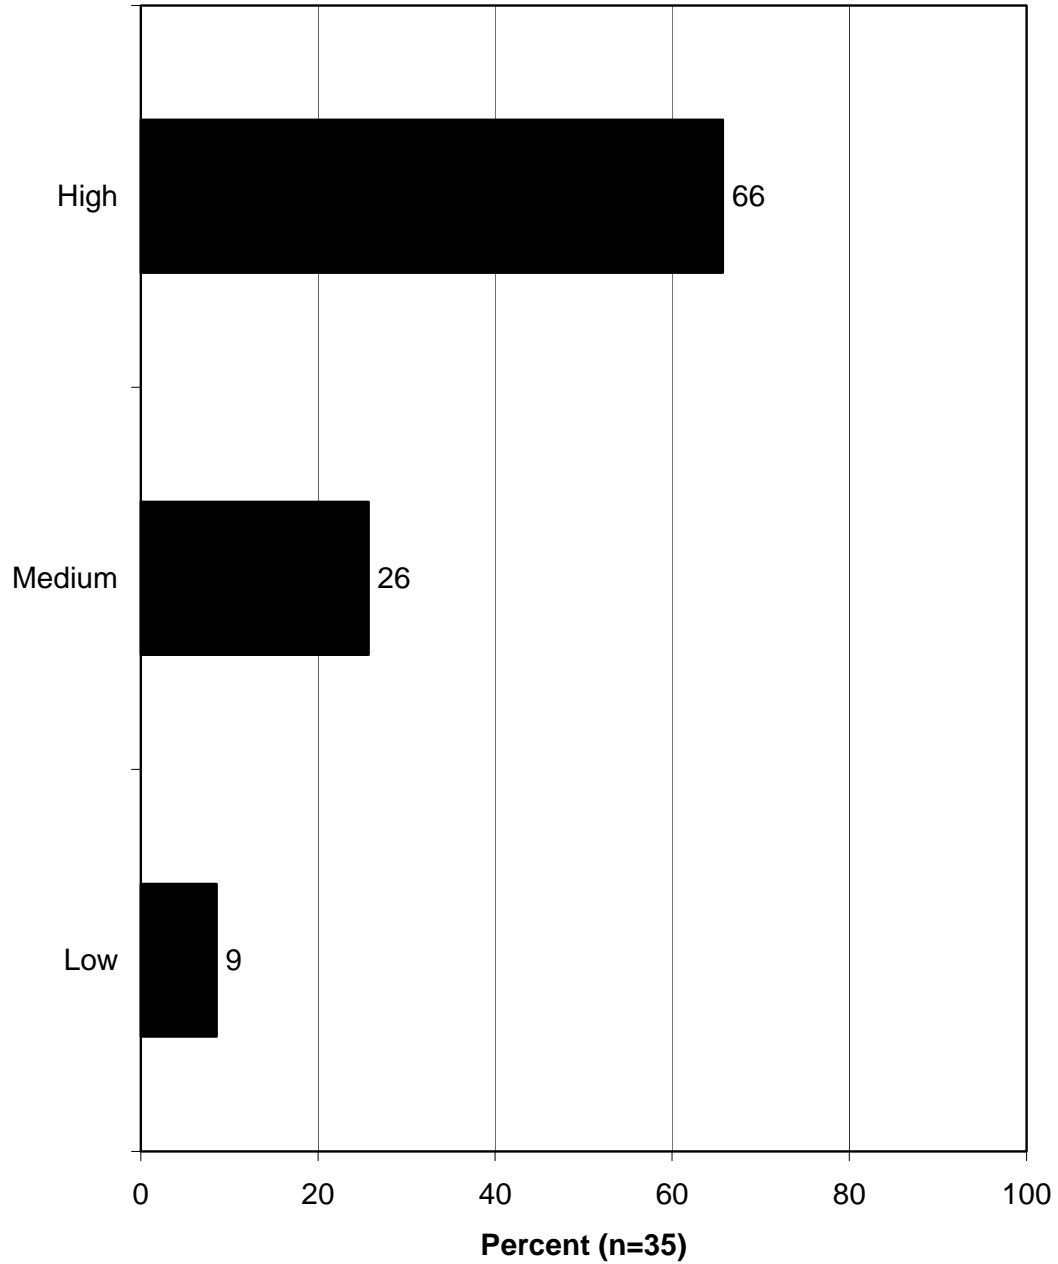

Q159. Do you think there is a high, medium, or low need for coastal training about special area management?

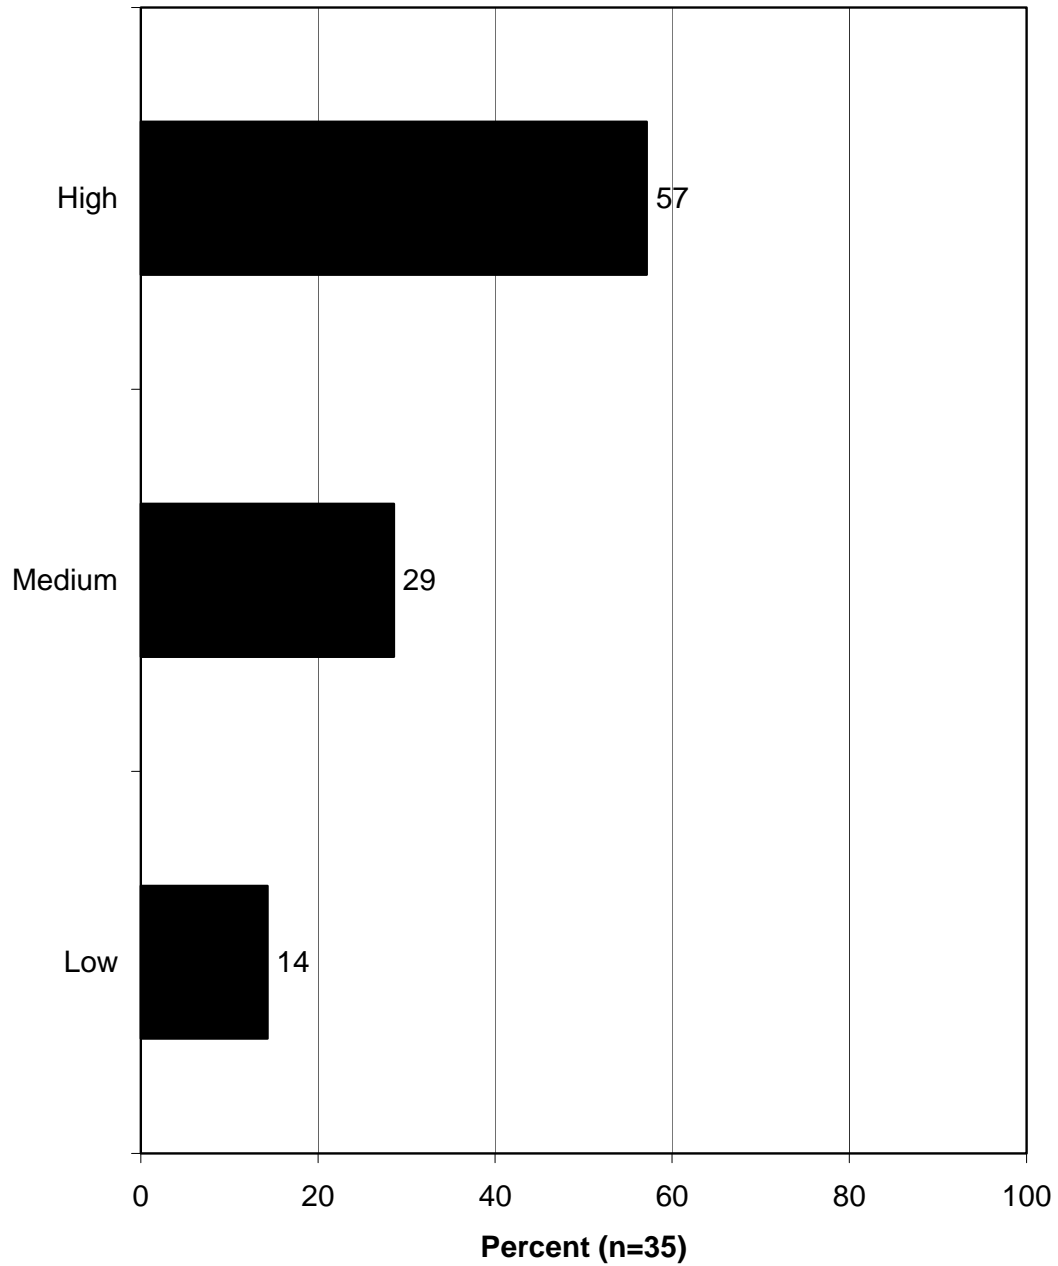

Q160. Do you think there is a high, medium, or low need for coastal training about fire management?

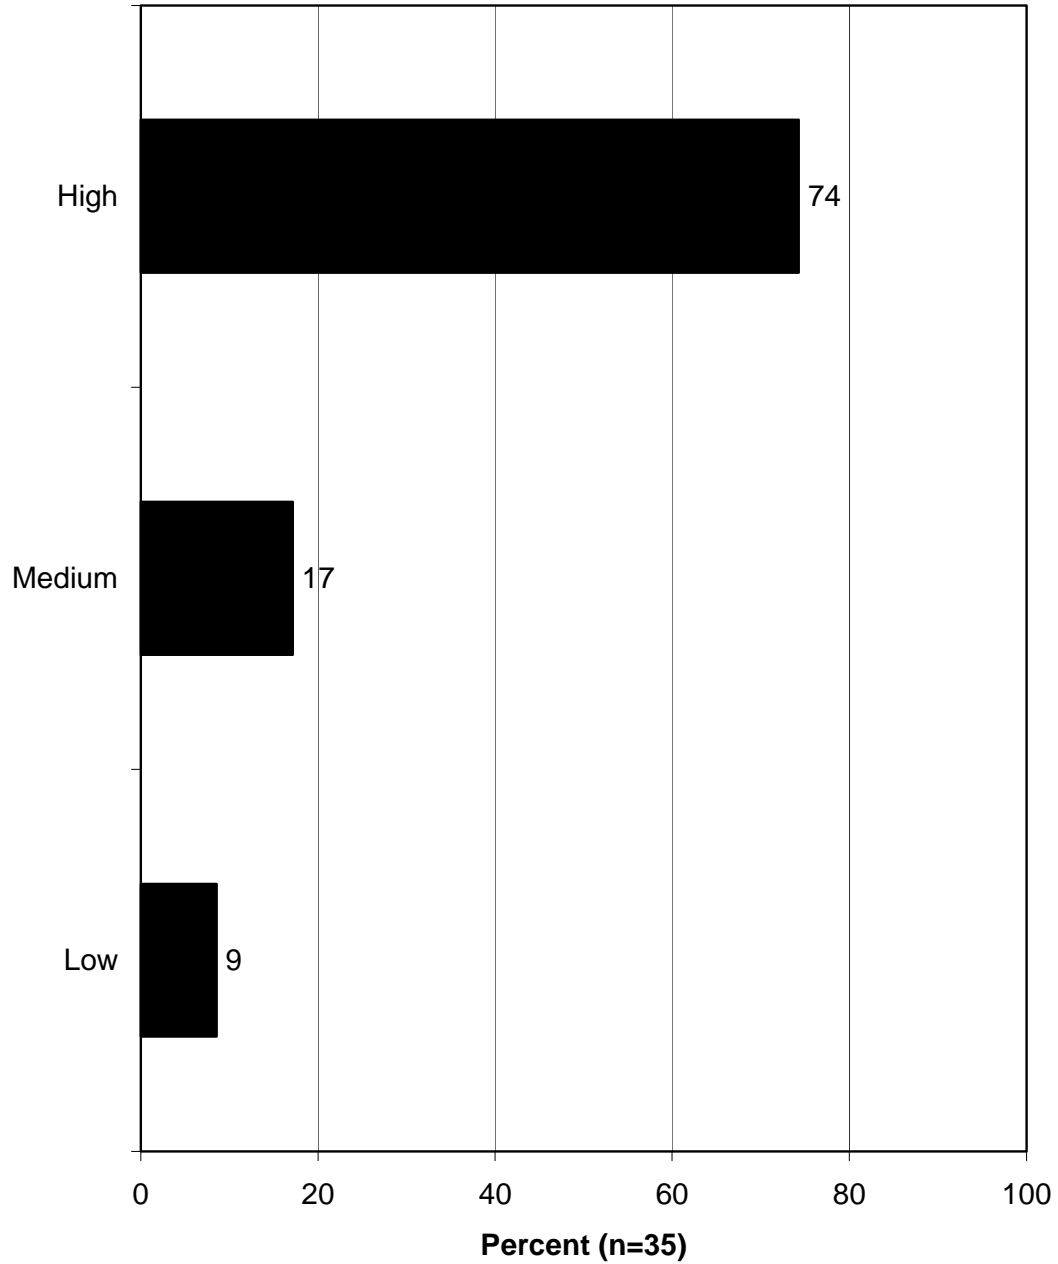

Q161. Do you think there is a high, medium, or low need for coastal training about native plants?

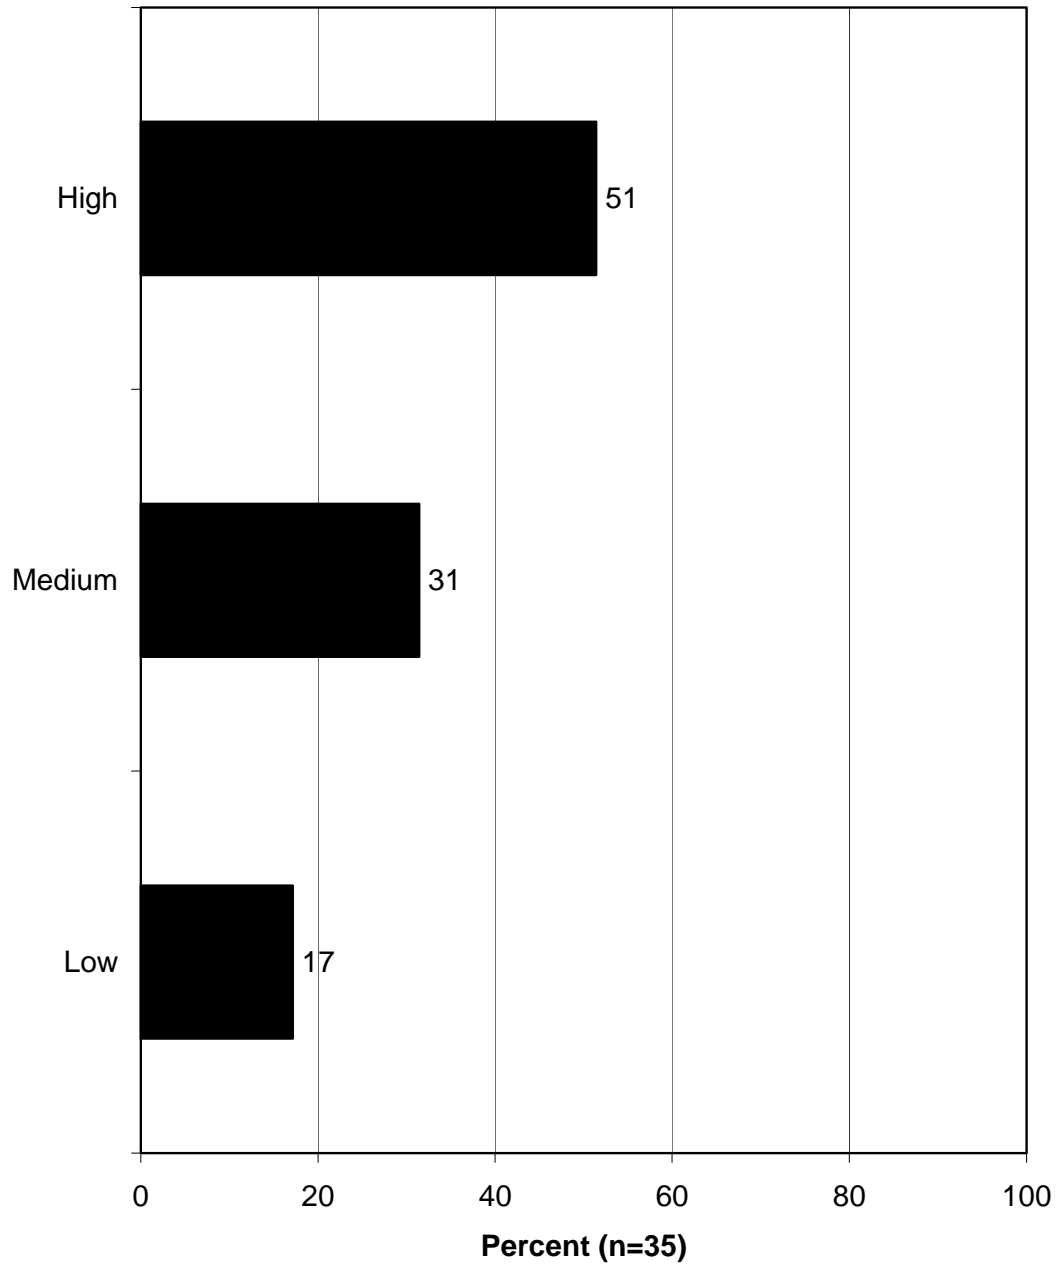

Q162. Do you think there is a high, medium, or low need for coastal training about wildlife corridors?

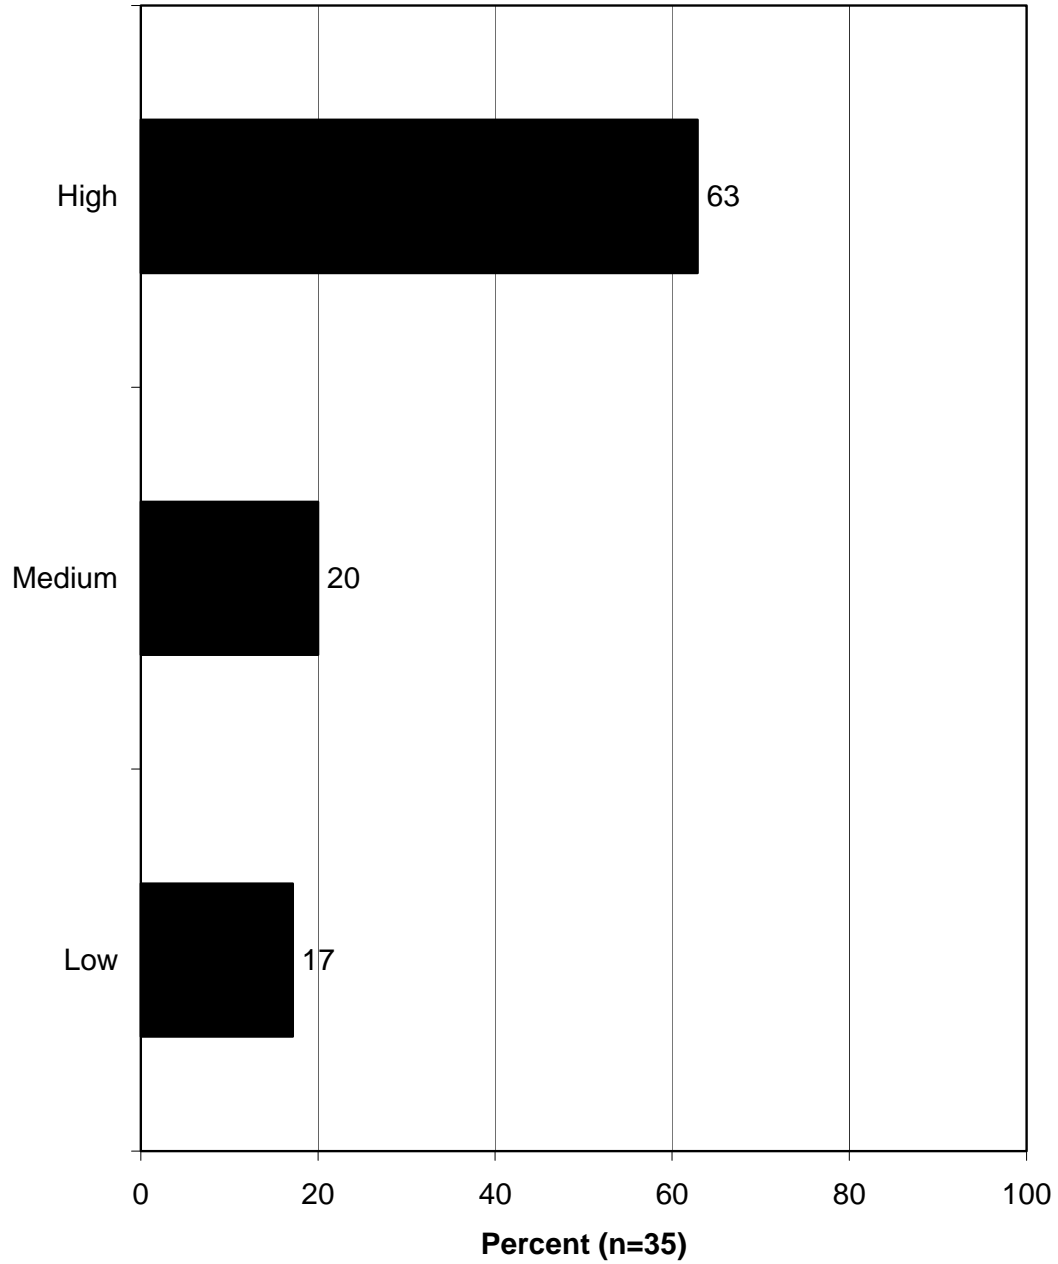

Q163. Do you think there is a high, medium, or low need for coastal training about urban sprawl?

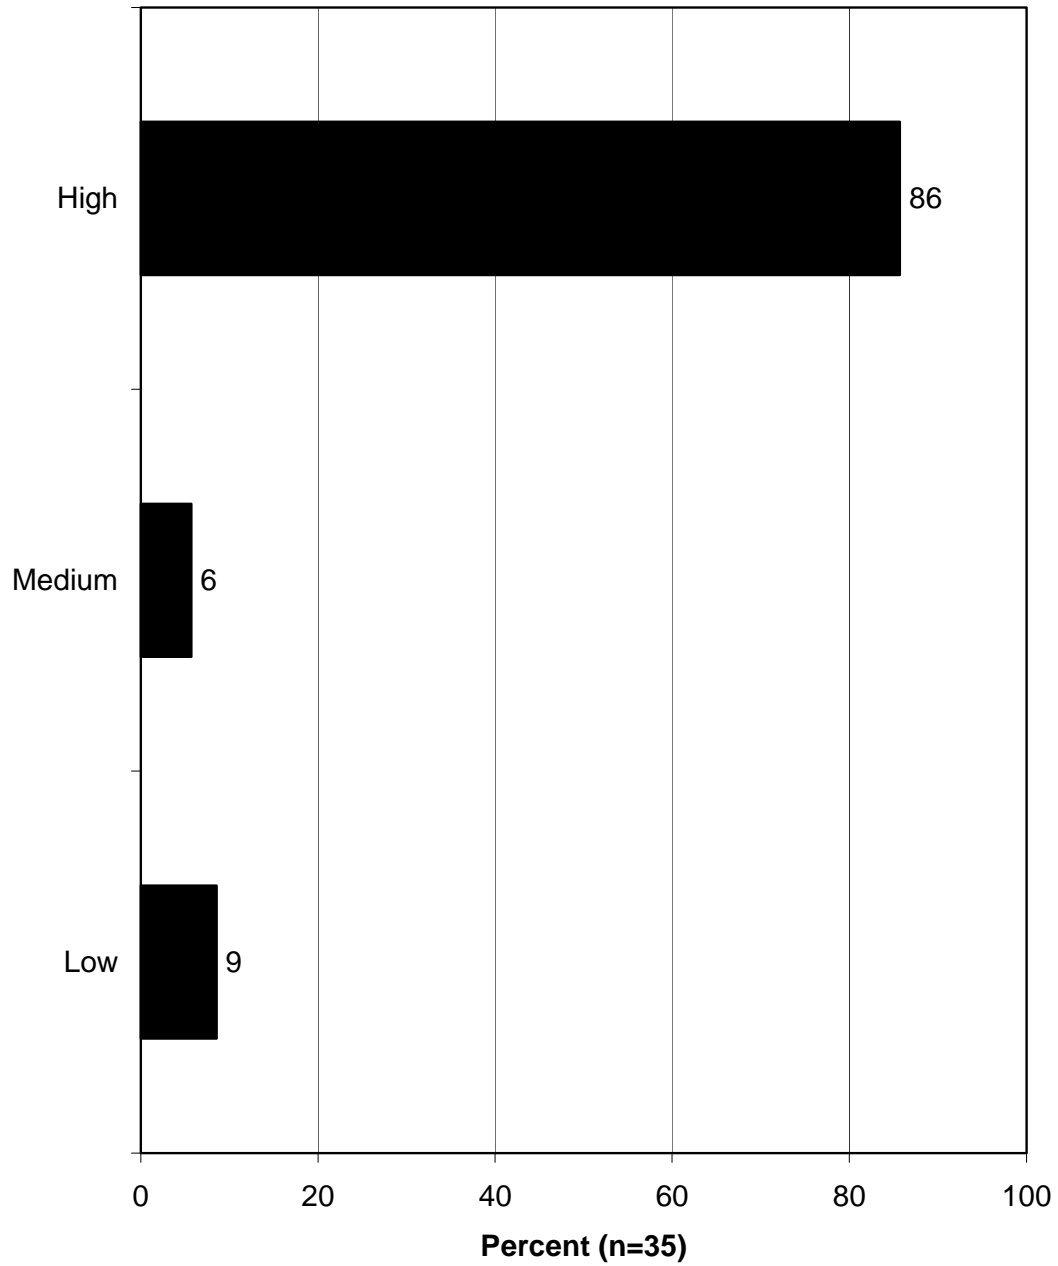

Q164. Do you think there is a high, medium, or low need for coastal training about beach nourishment?

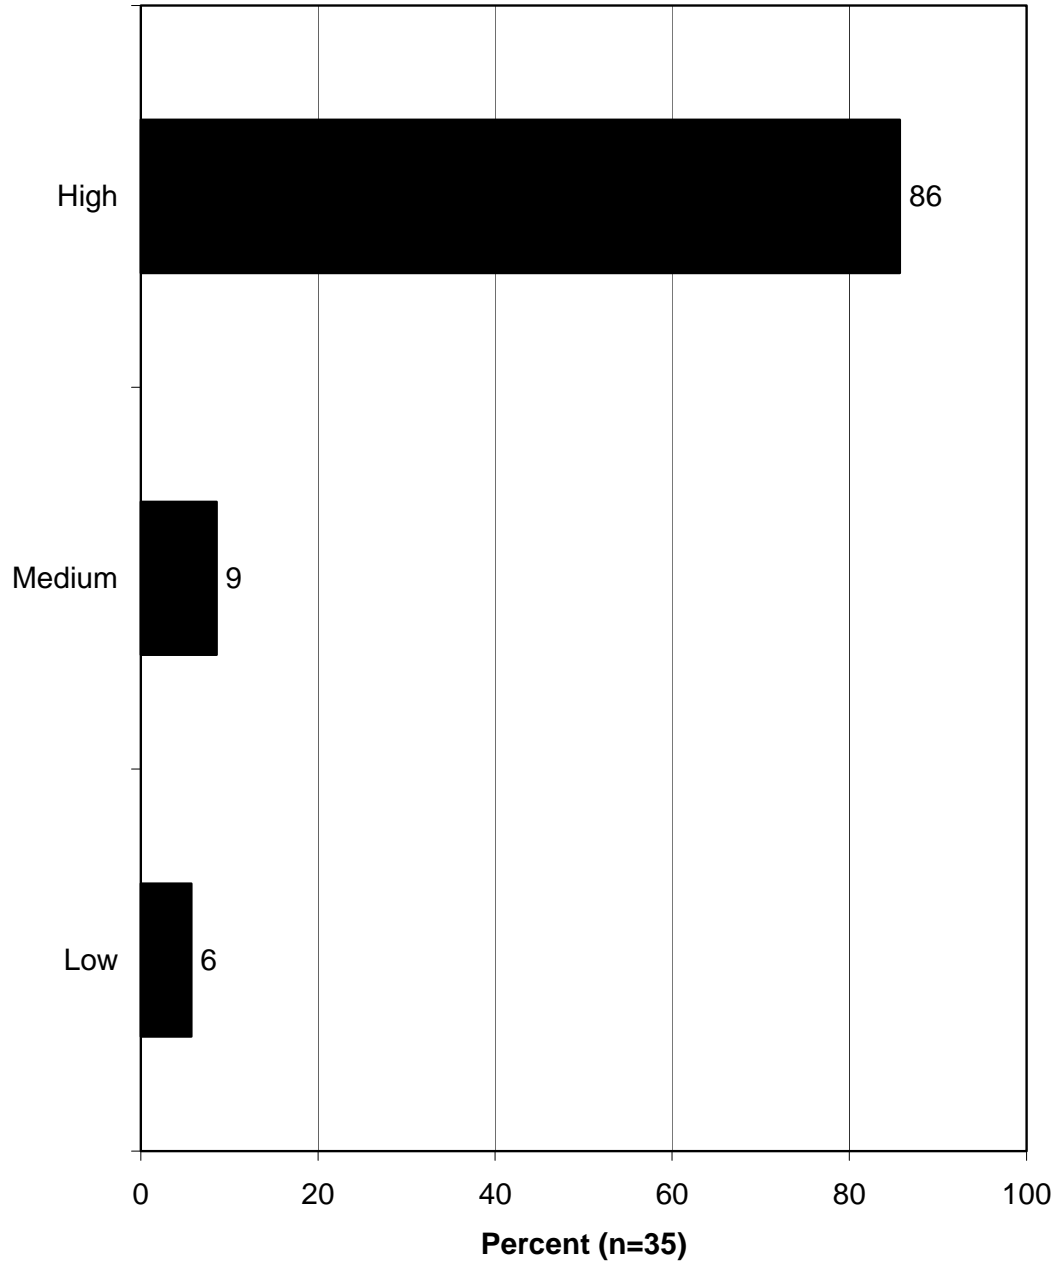

Q165. Do you think there is a high, medium, or low need for coastal training about boat/marina management?

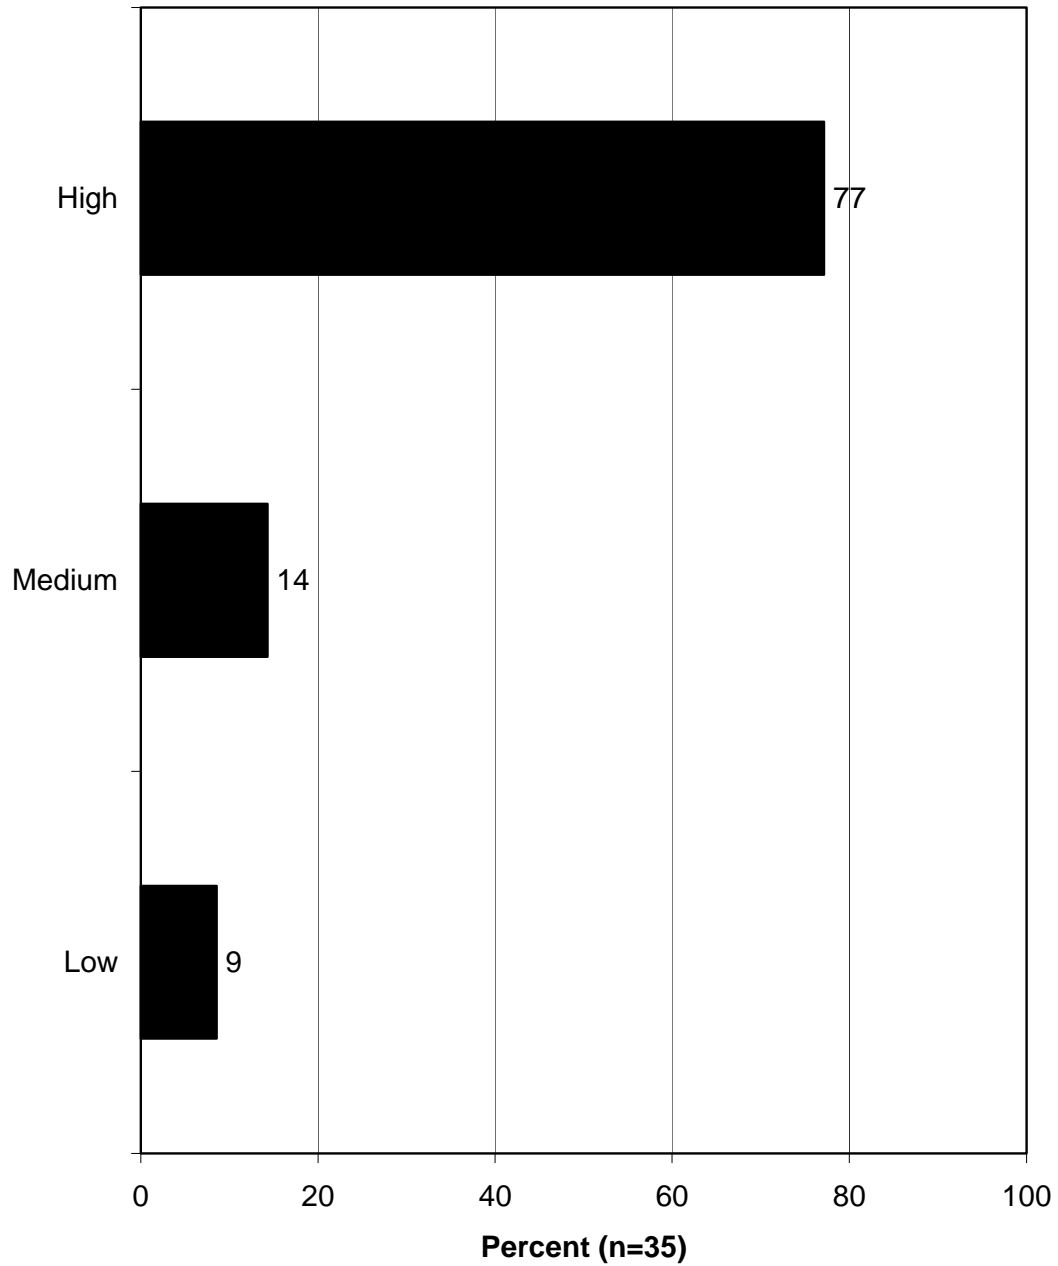

Q166. Do you think there is a high, medium, or low need for coastal training about coastal community development?

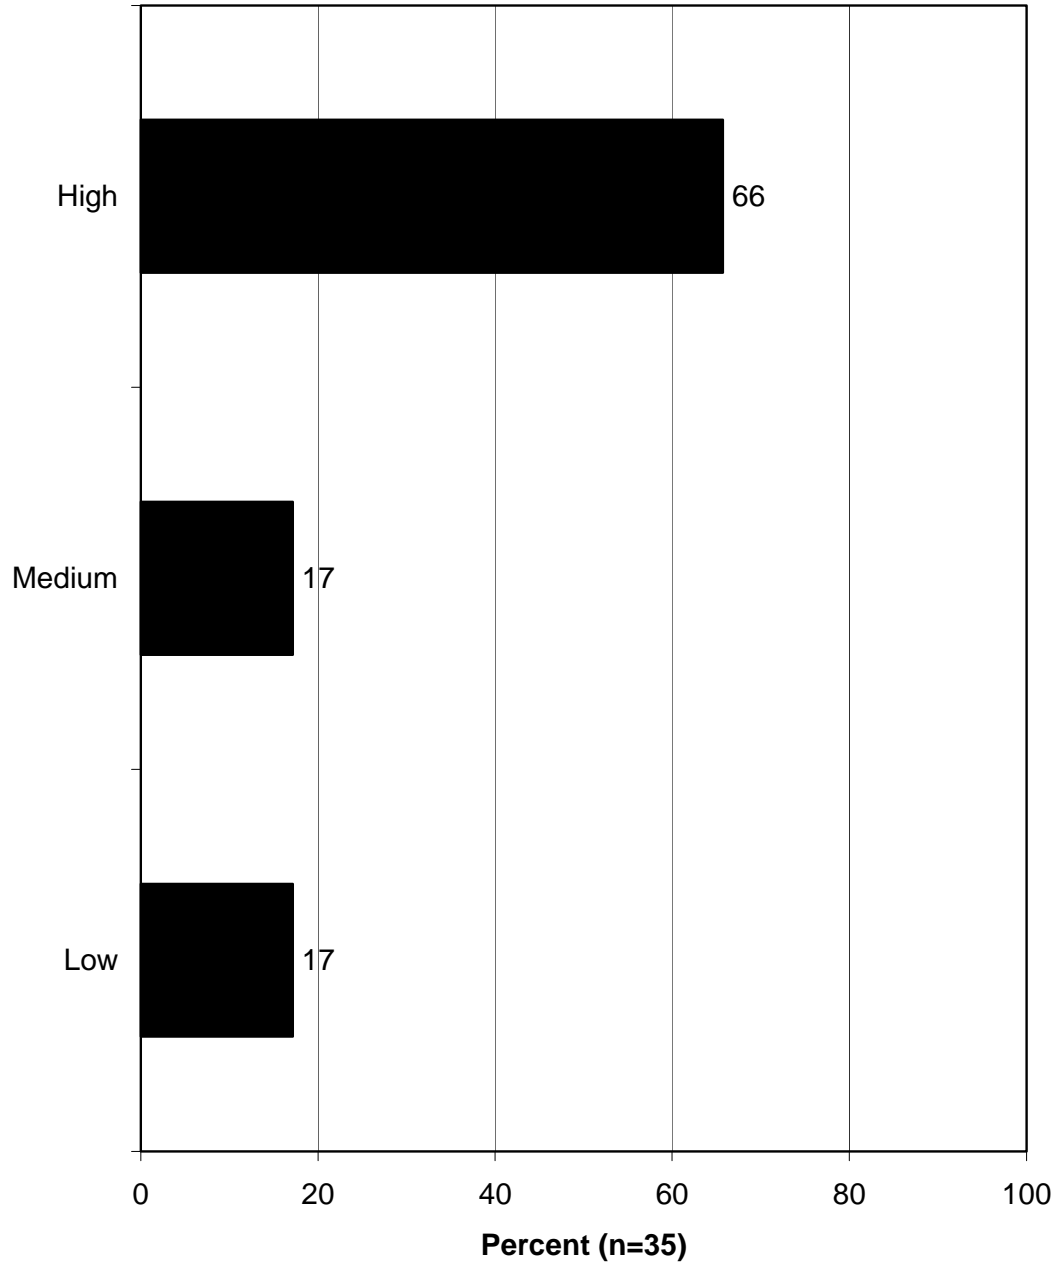

Q167. Do you think there is a high, medium, or low need for coastal training about coastal construction?

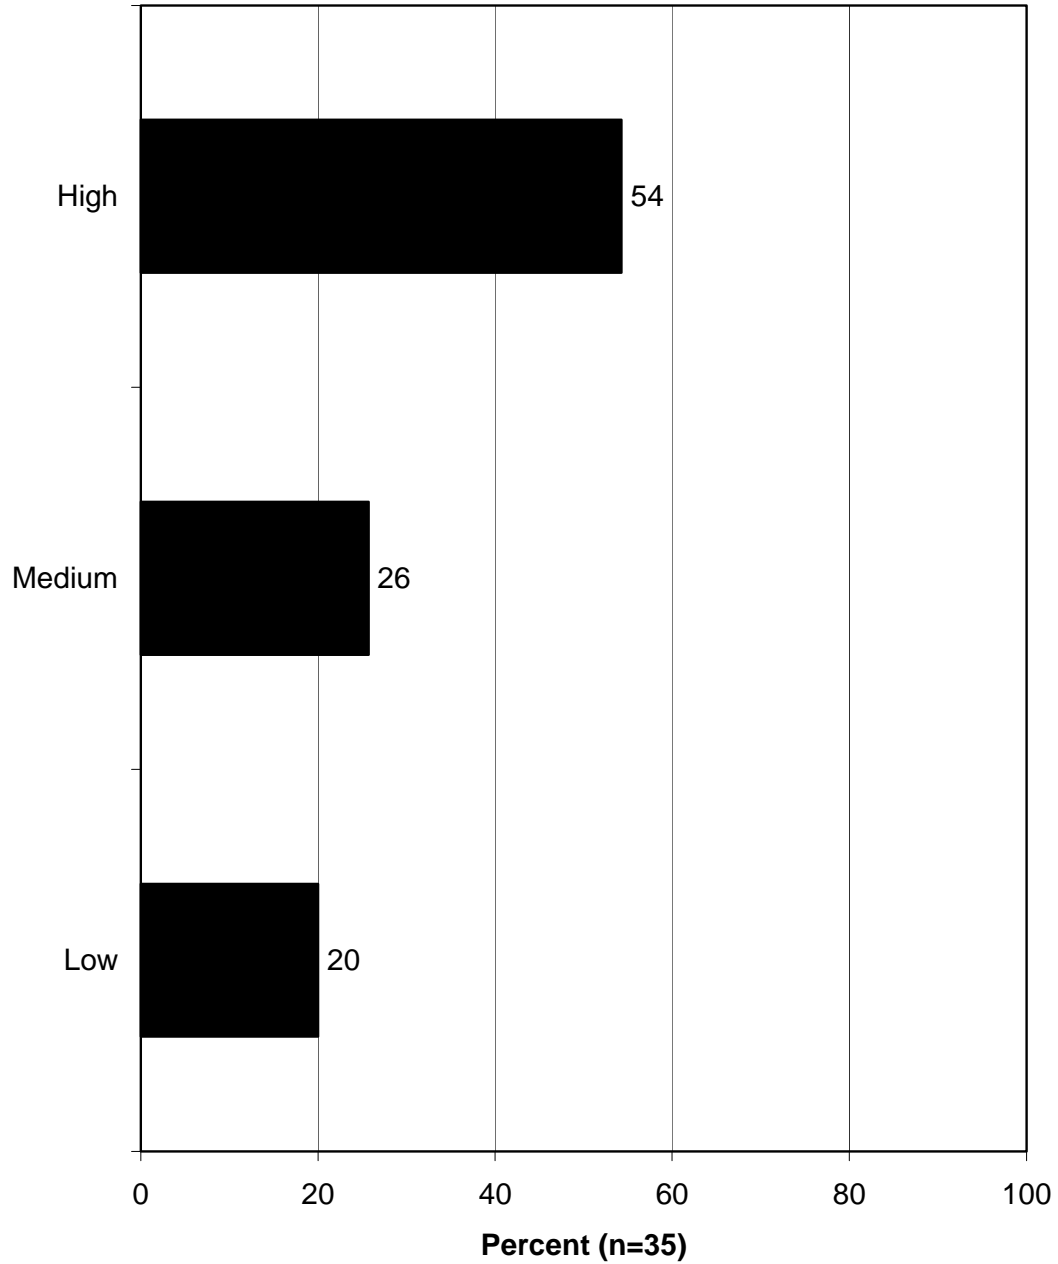

Q168. Do you think there is a high, medium, or low need for coastal training about coastal erosion?

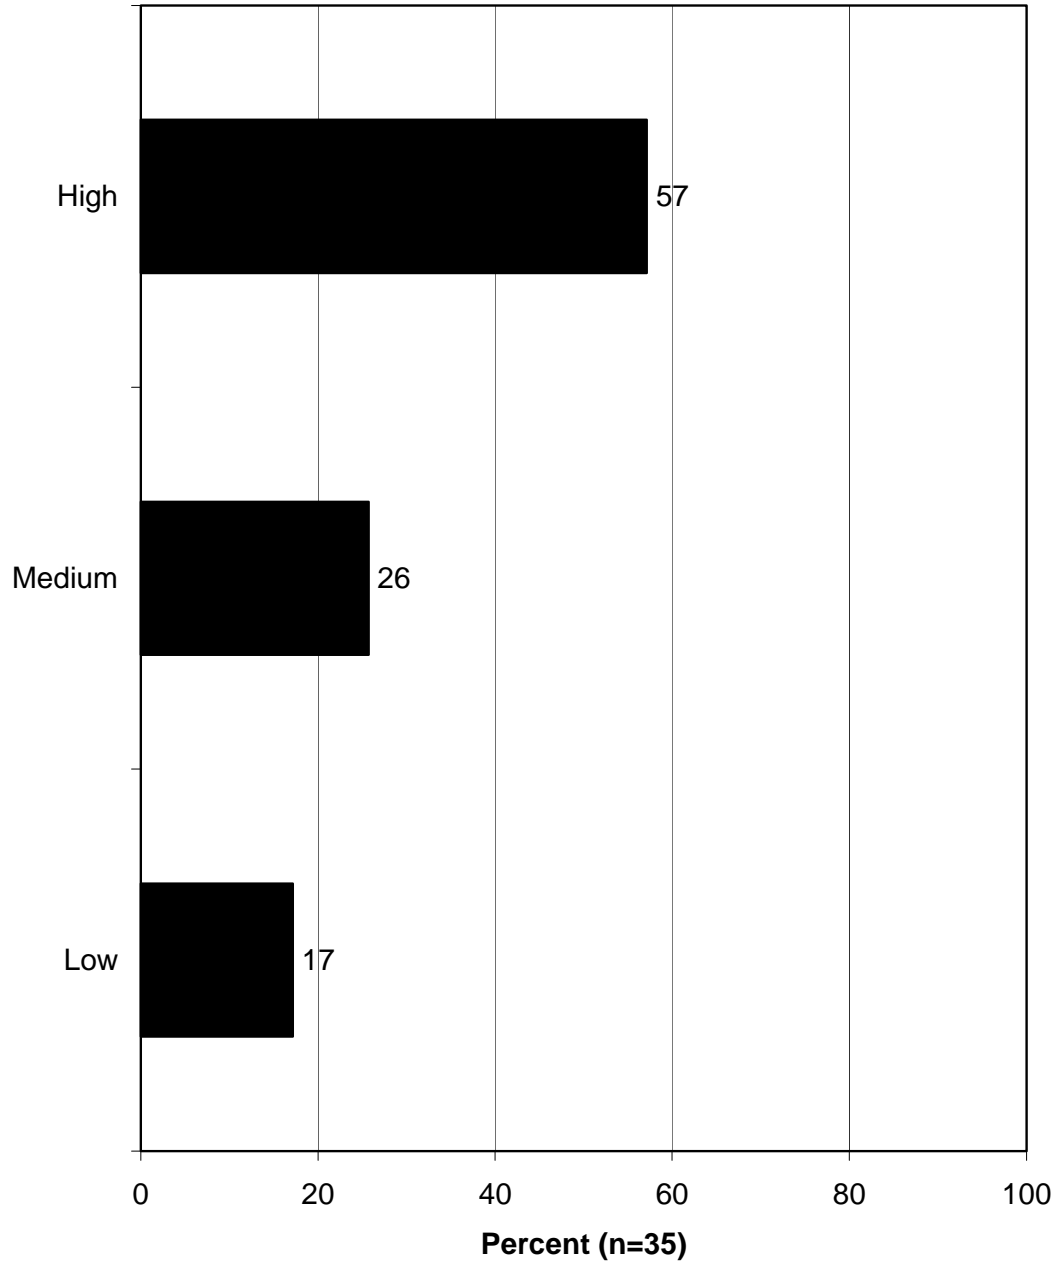

Q169. Do you think there is a high, medium, or low need for coastal training about dredging and filling?

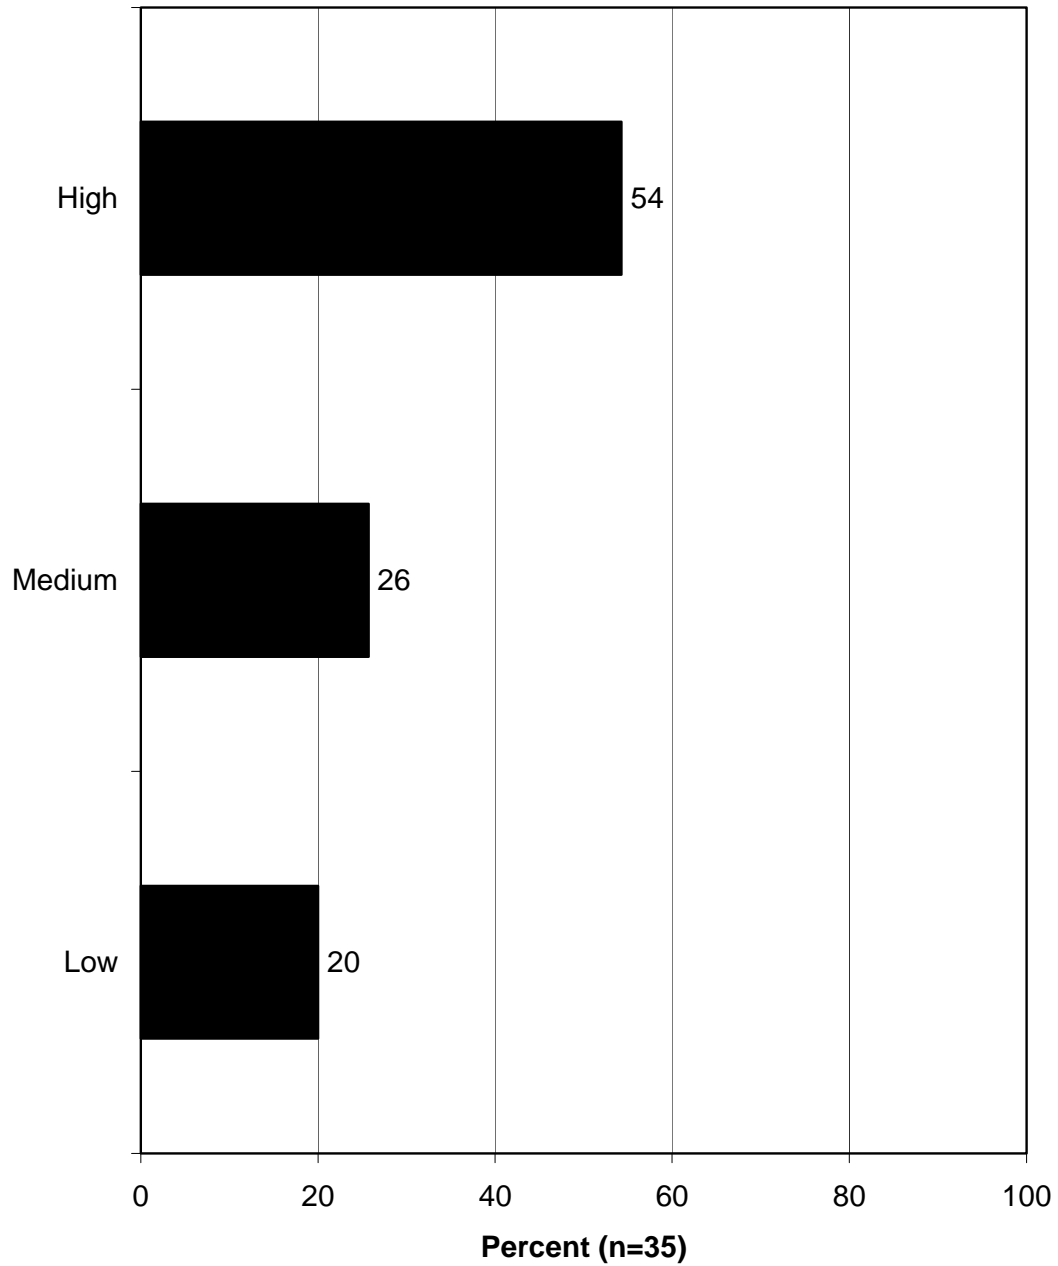

Q170. Do you think there is a high, medium, or low need for coastal training about coastal hazards?

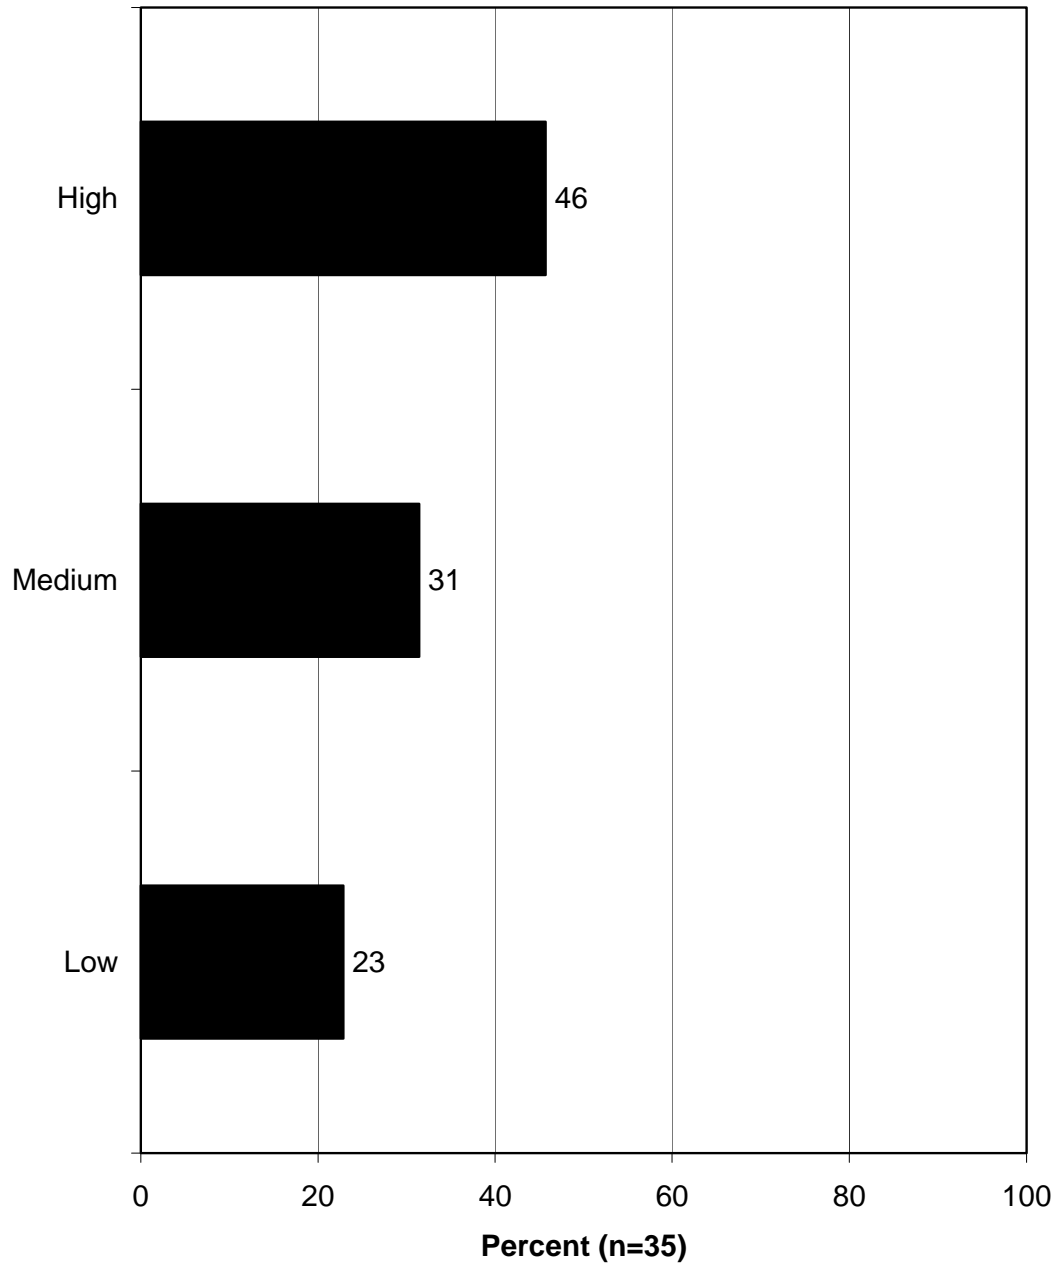

Q171. Do you think there is a high, medium, or low need for coastal training about coastal processes/geology?

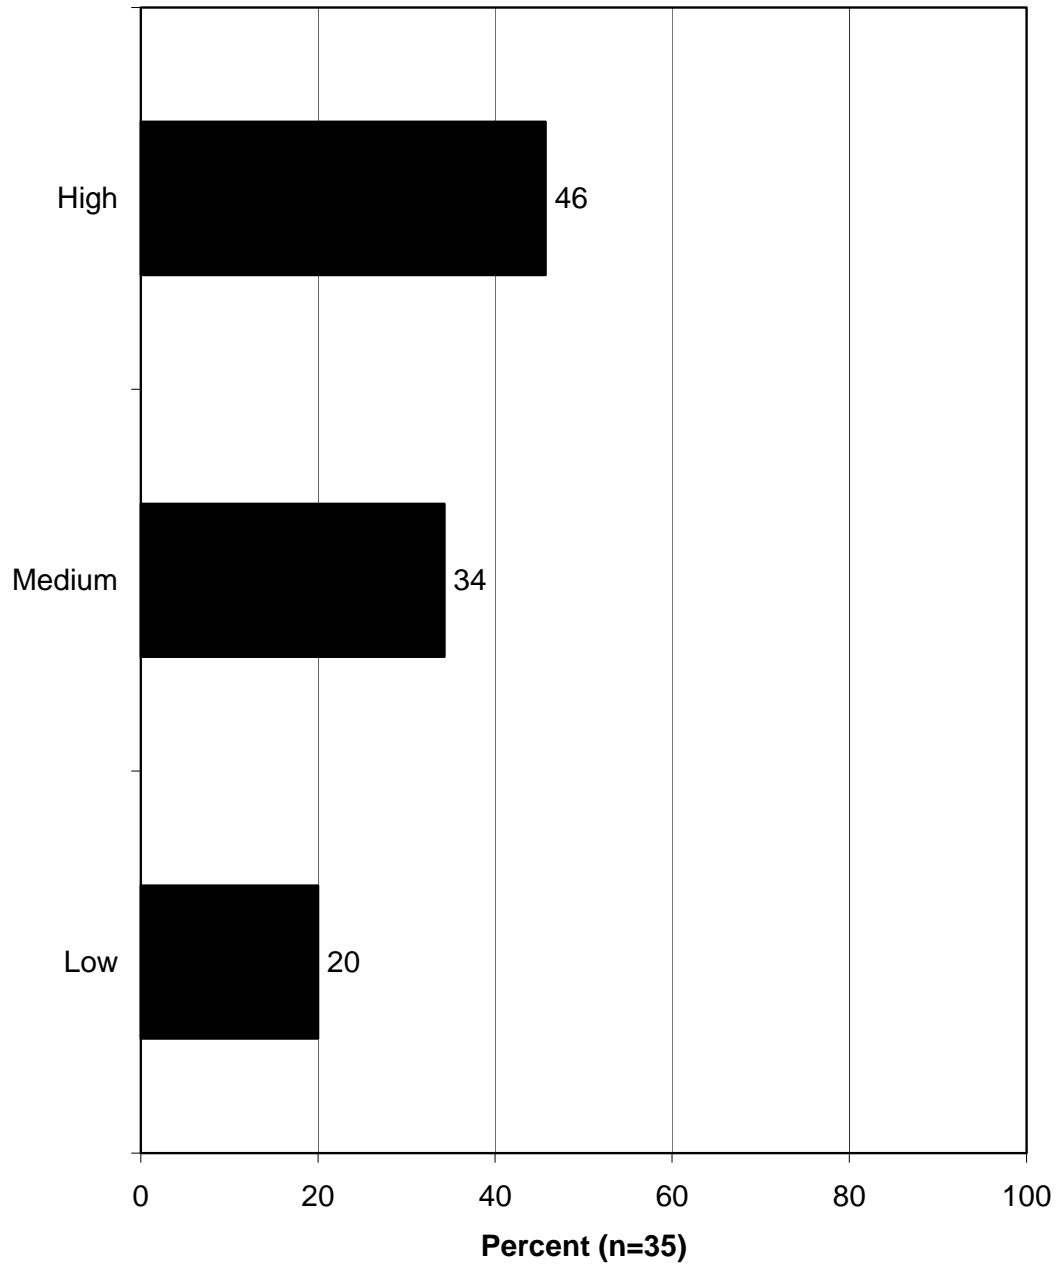

Q172. Do you think there is a high, medium, or low need for coastal training about public access?

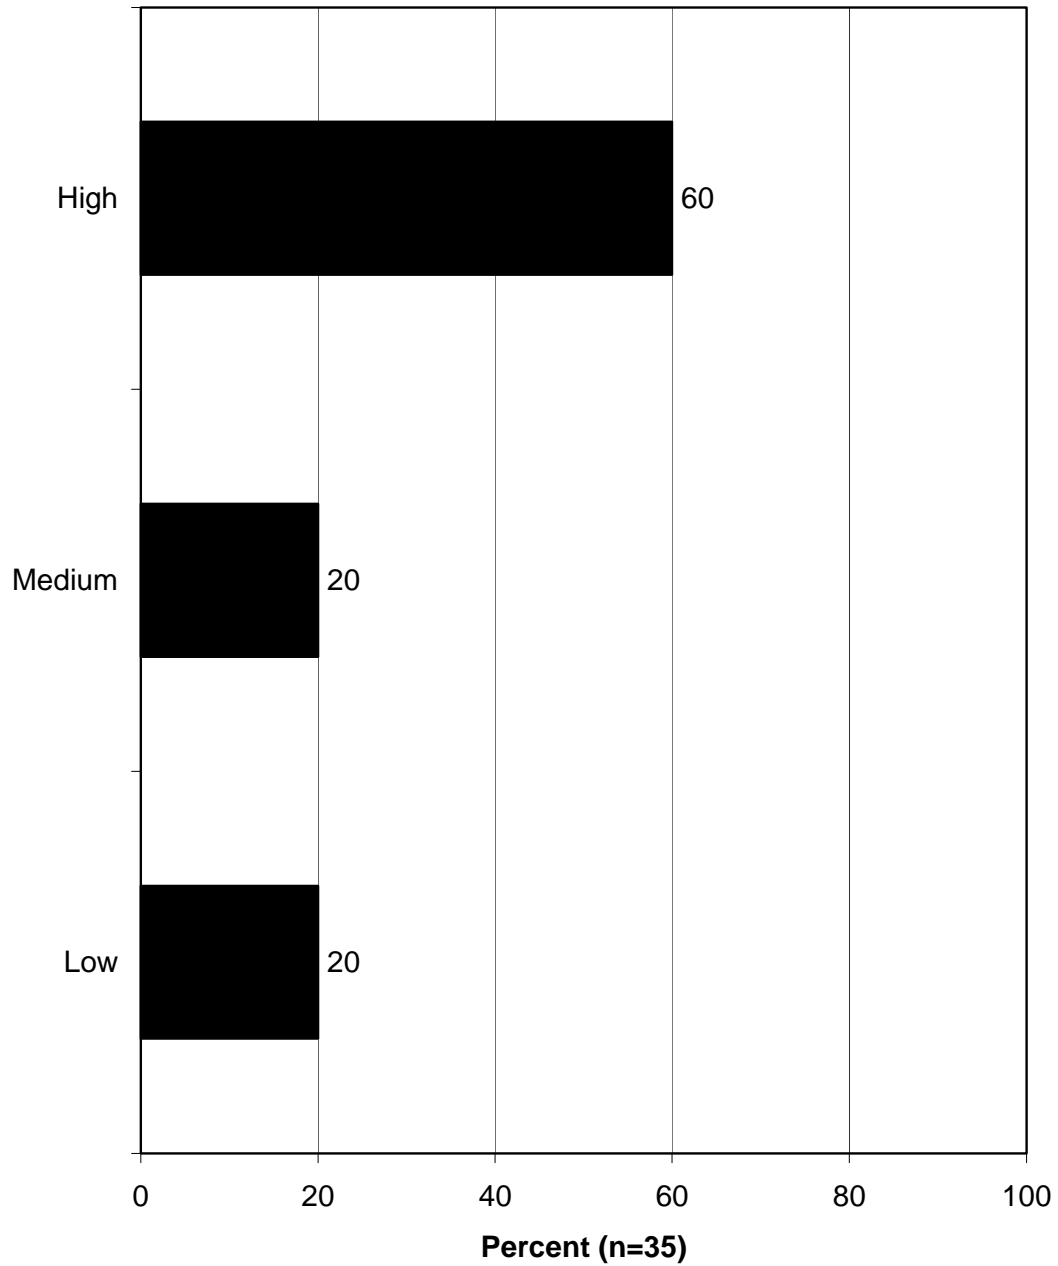

Q173. Do you think there is a high, medium, or low need for coastal training about severe weather emergency management?

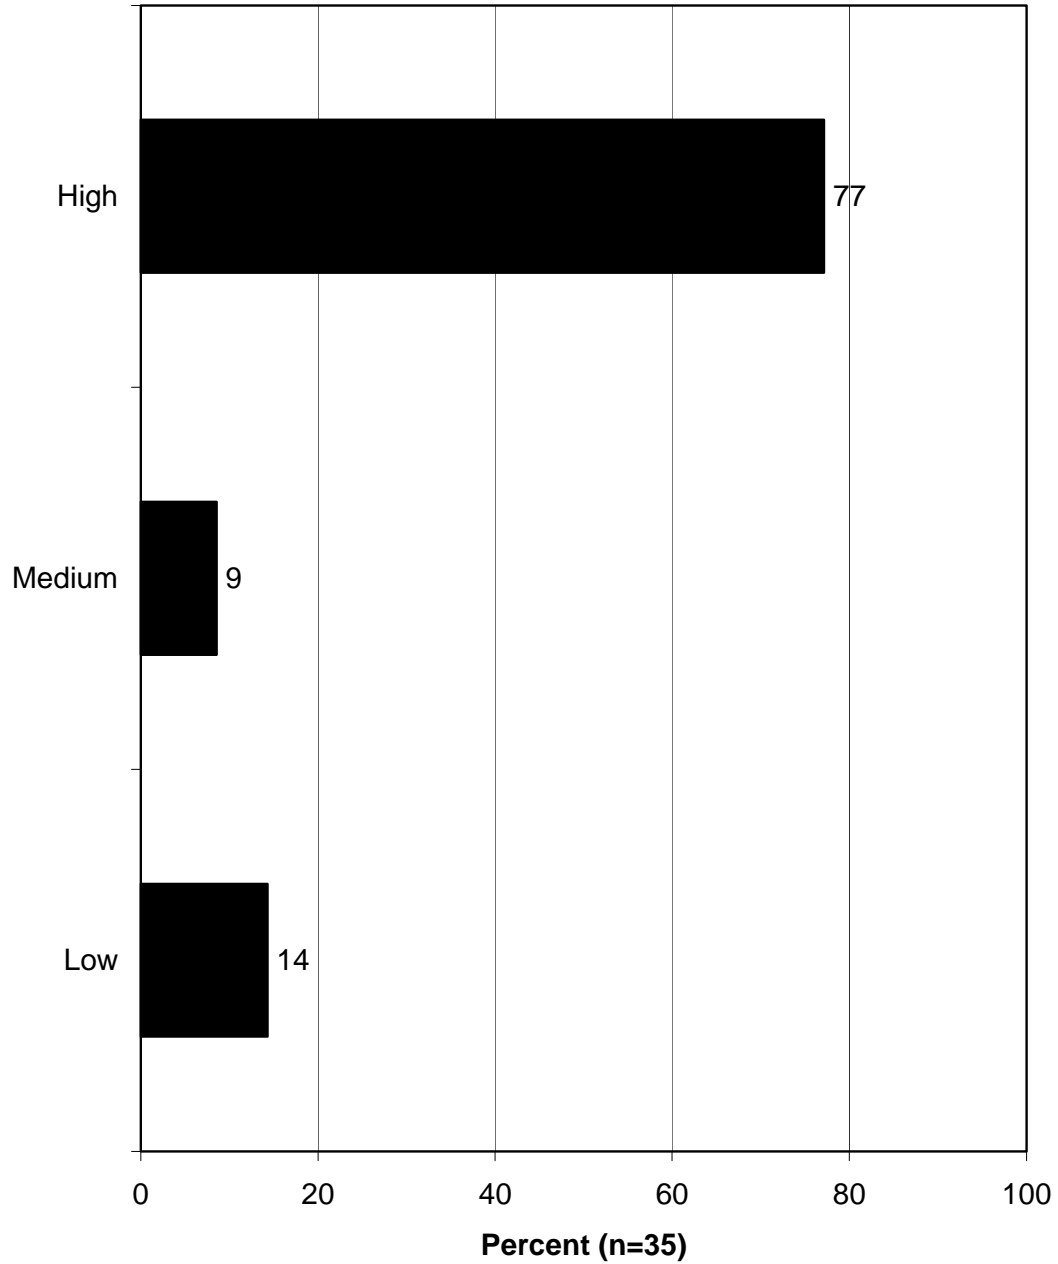

Q174. Do you think there is a high, medium, or low need for coastal training about ports, navigation, transportation planning?

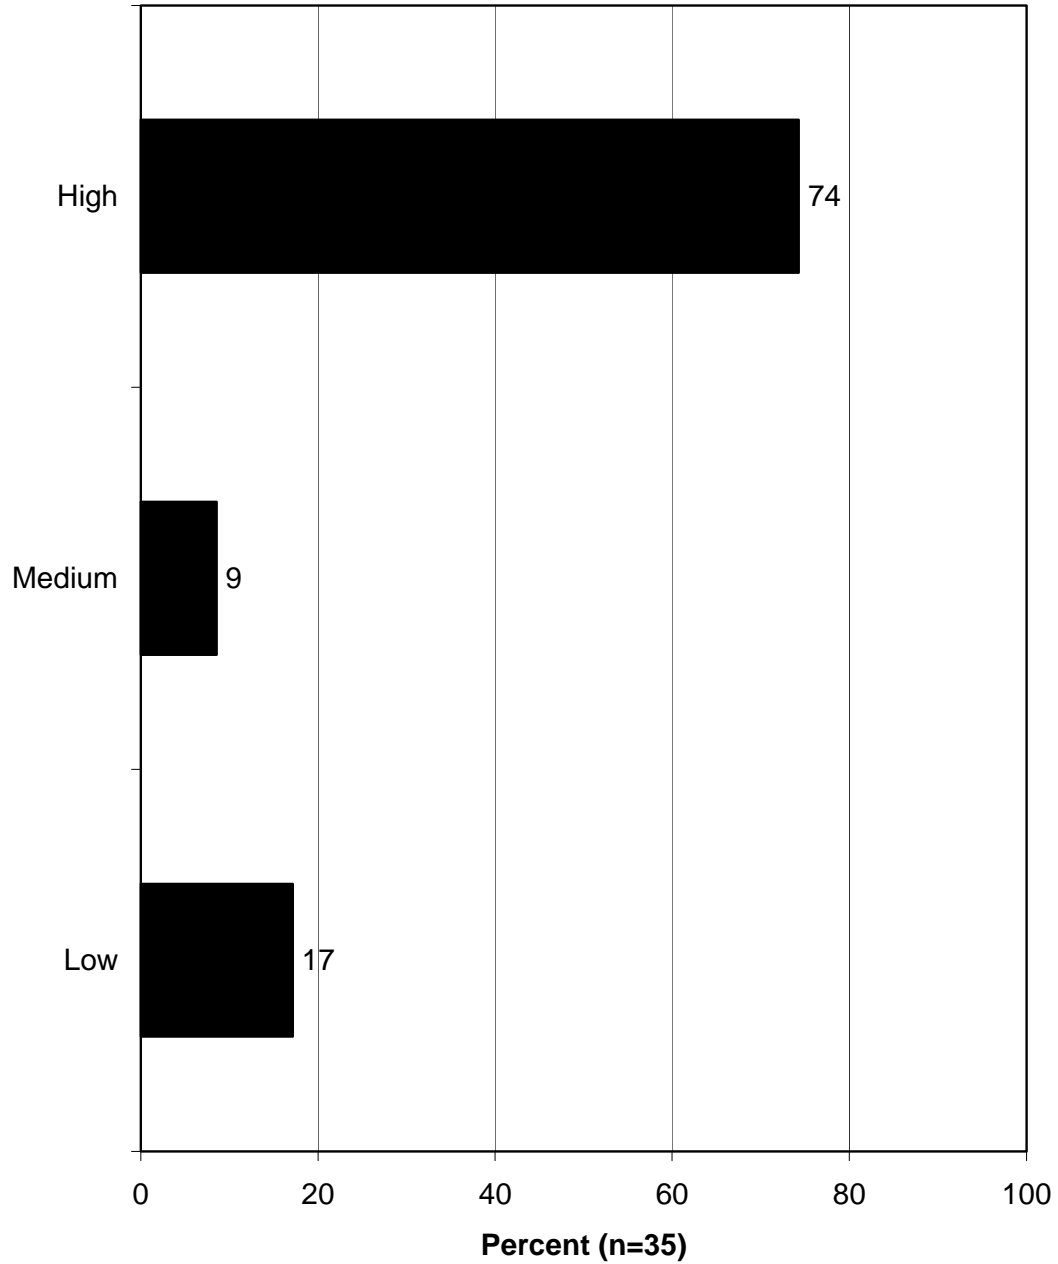

Q175. Do you think there is a high, medium, or low need for coastal training about saltwater intrusion?

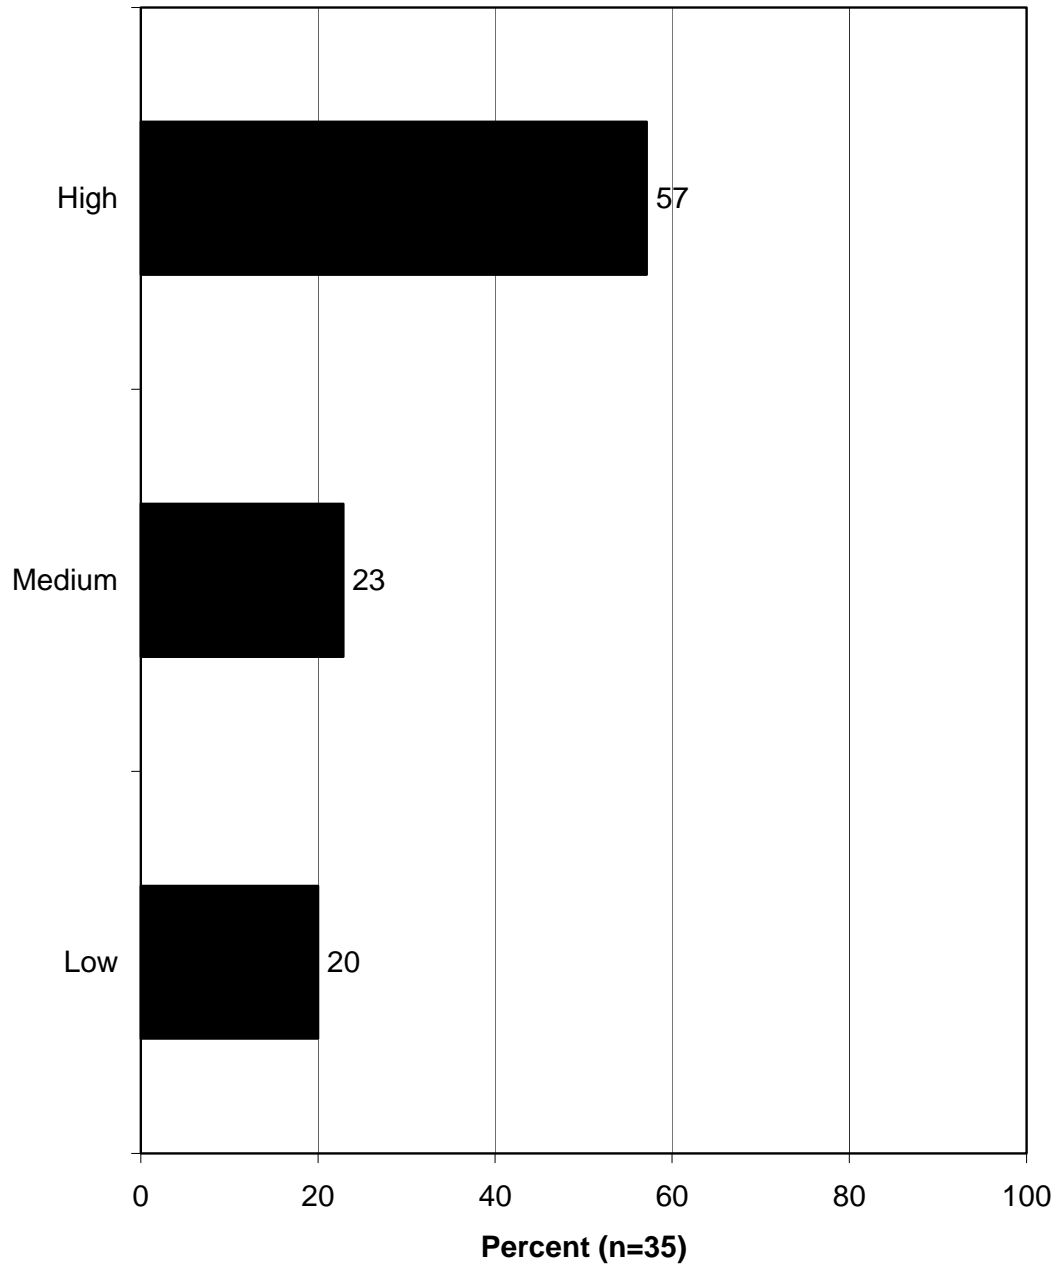

Q176. Do you think there is a high, medium, or low need for coastal training about water quality?

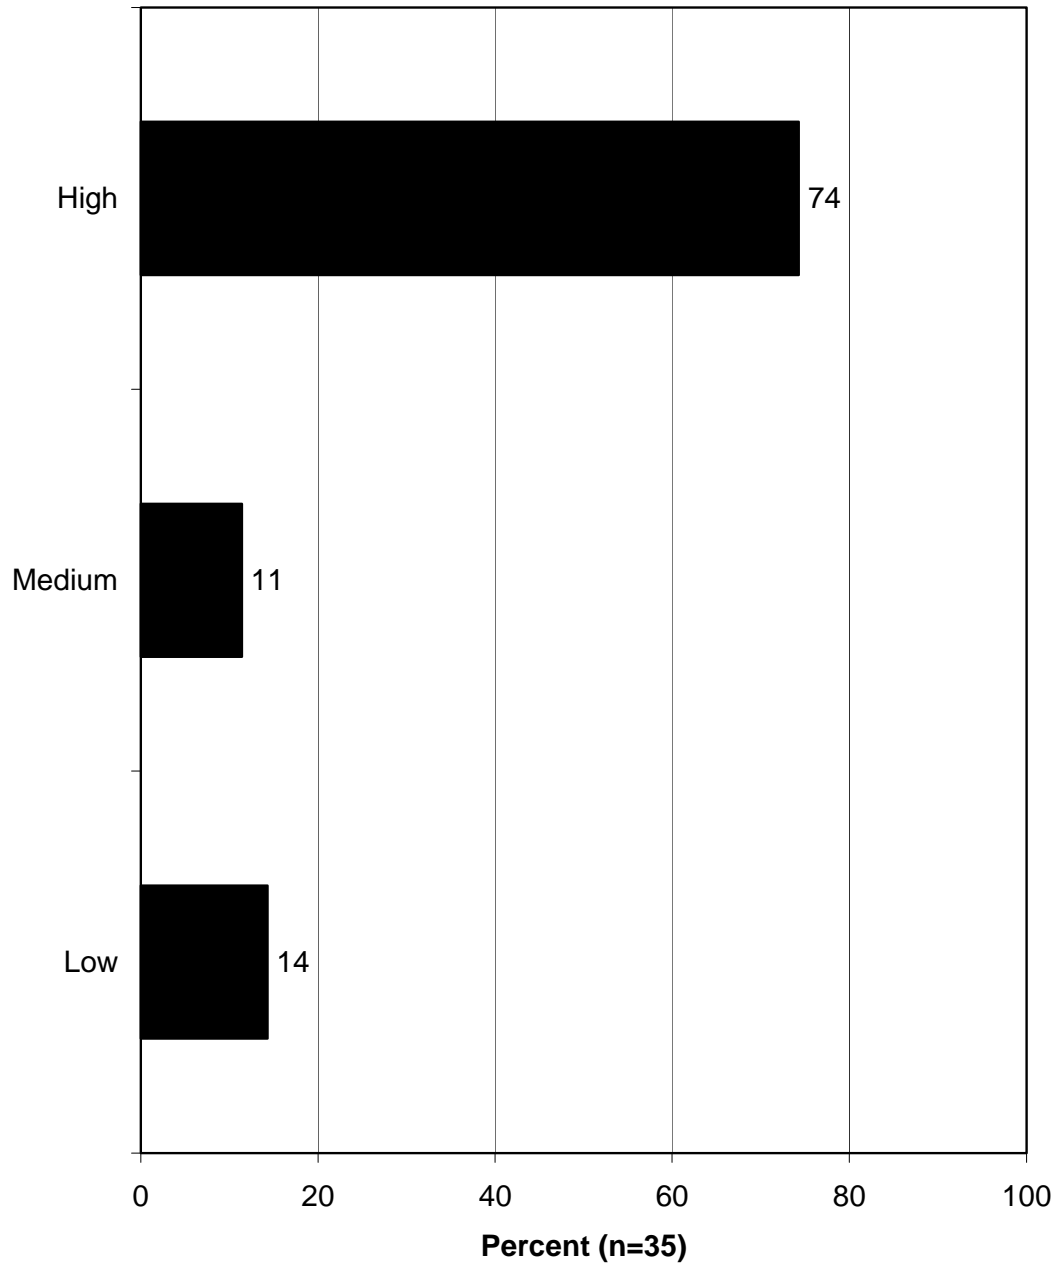

Q177. Do you think there is a high, medium, or low need for coastal training about water quantity?

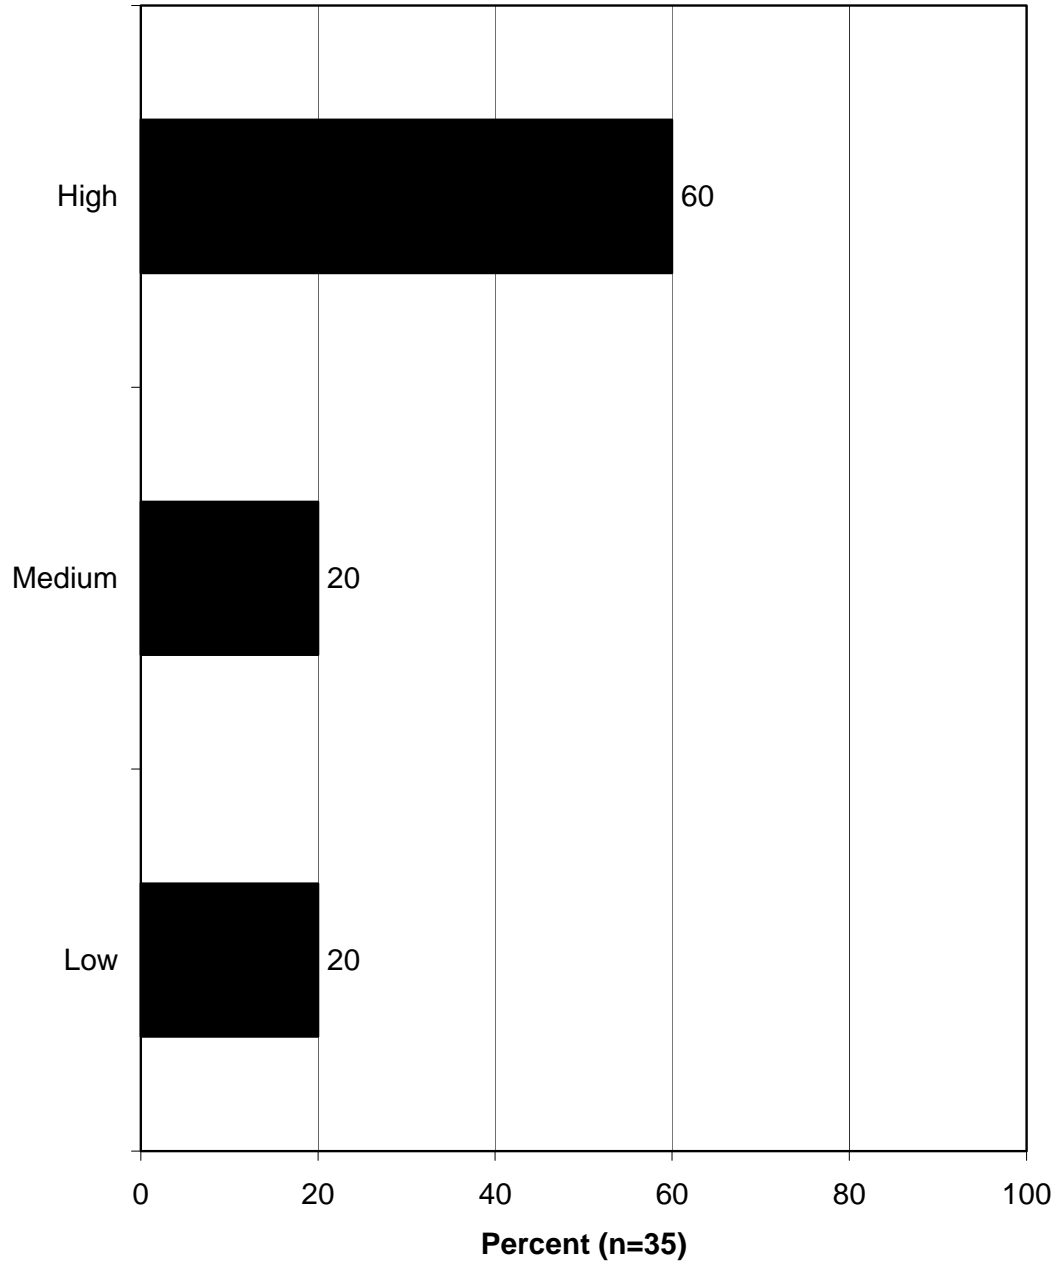

Q178. Do you think there is a high, medium, or low need for coastal training about eutrophication?

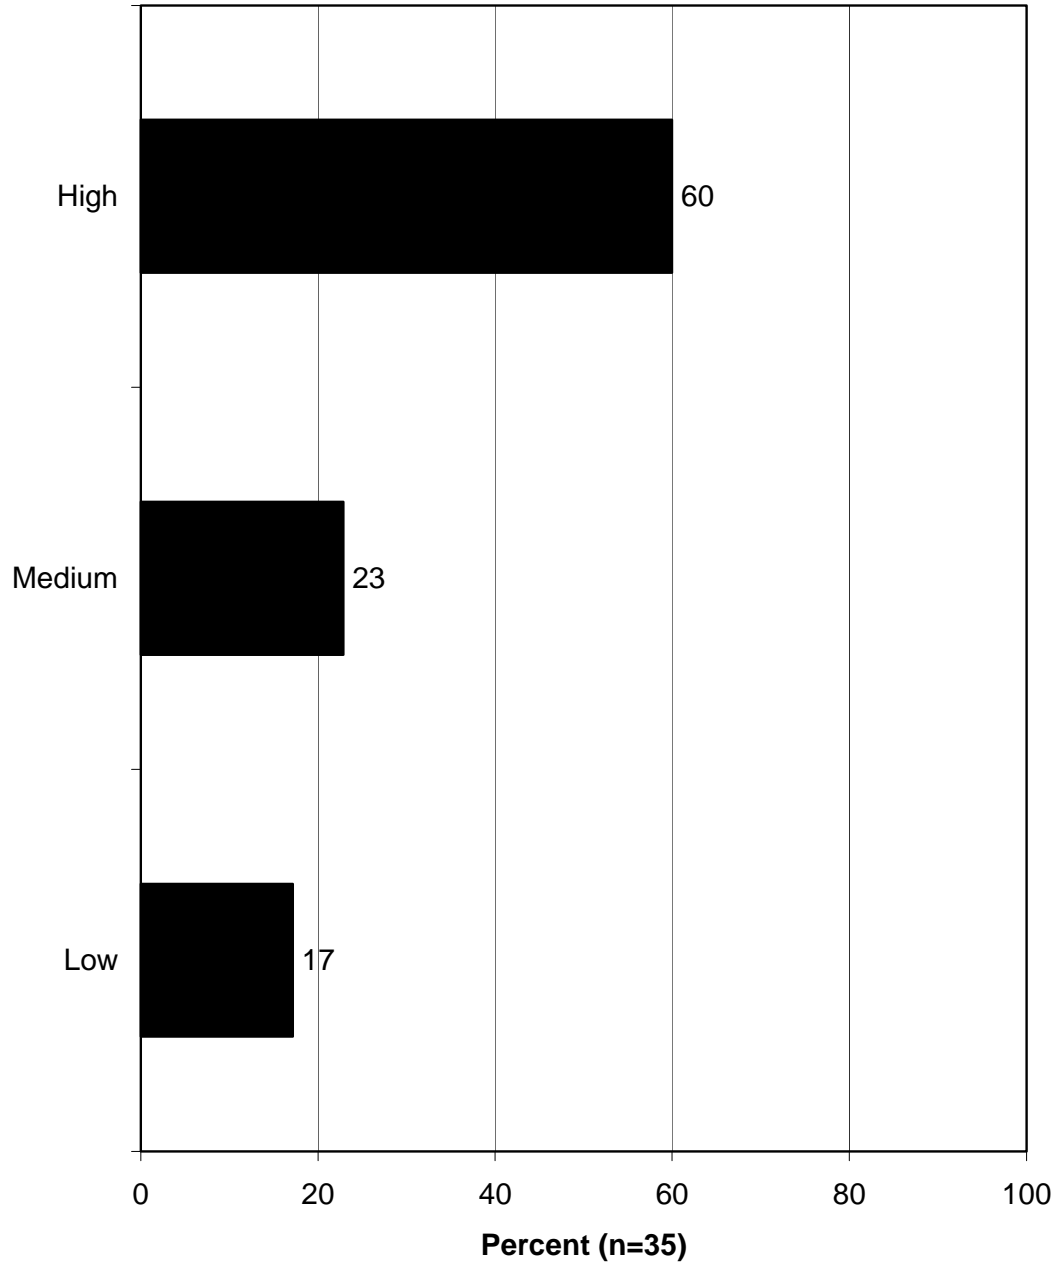

Q179. Do you think there is a high, medium, or low need for coastal training about nonpoint source pollution?

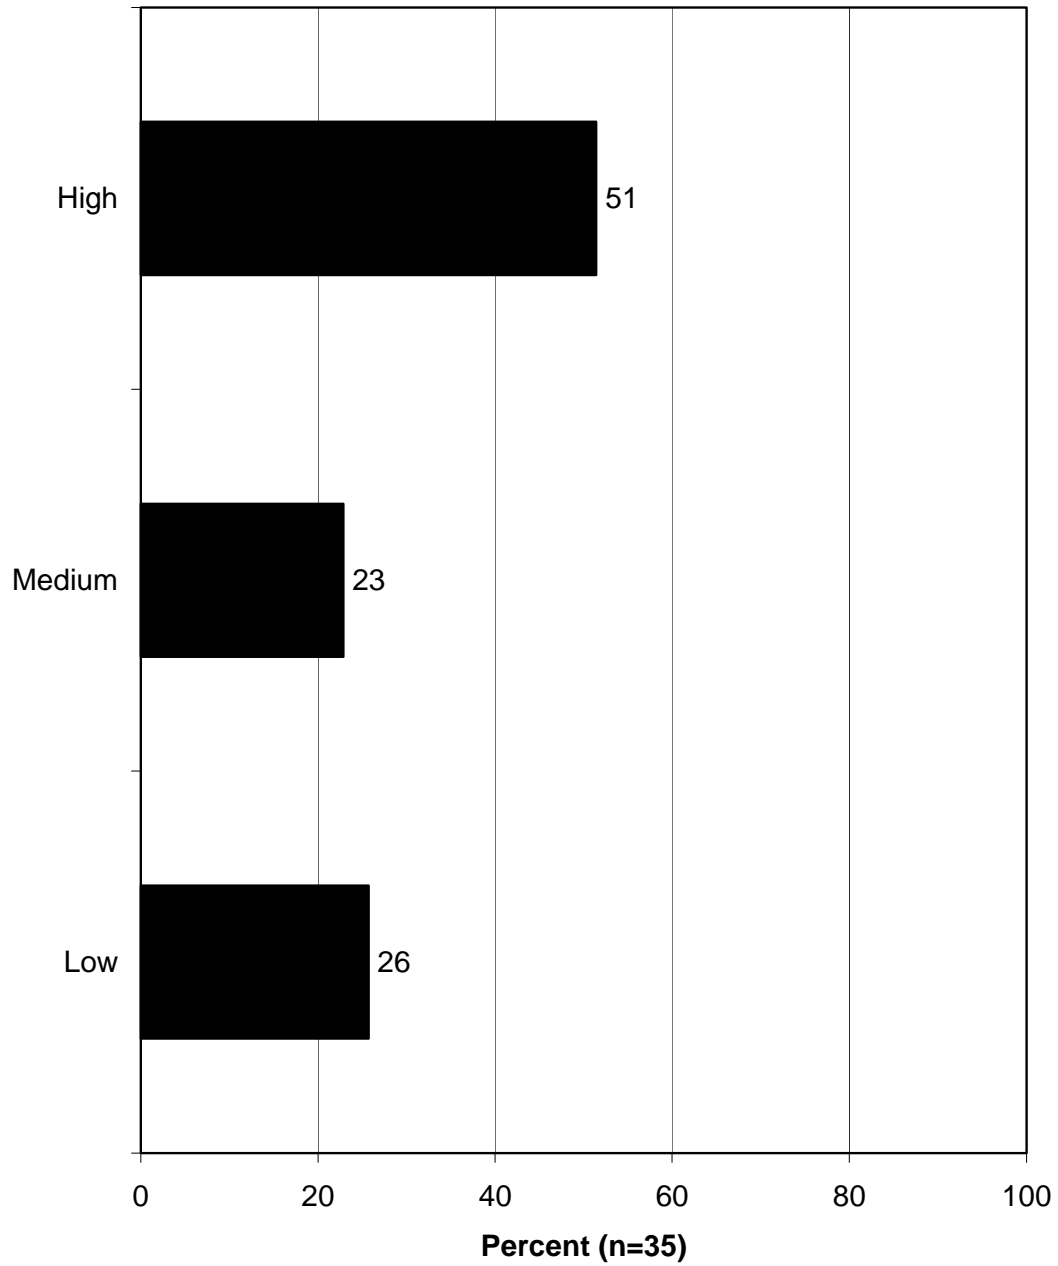

Q180. Do you think there is a high, medium, or low need for coastal training about point source pollution?

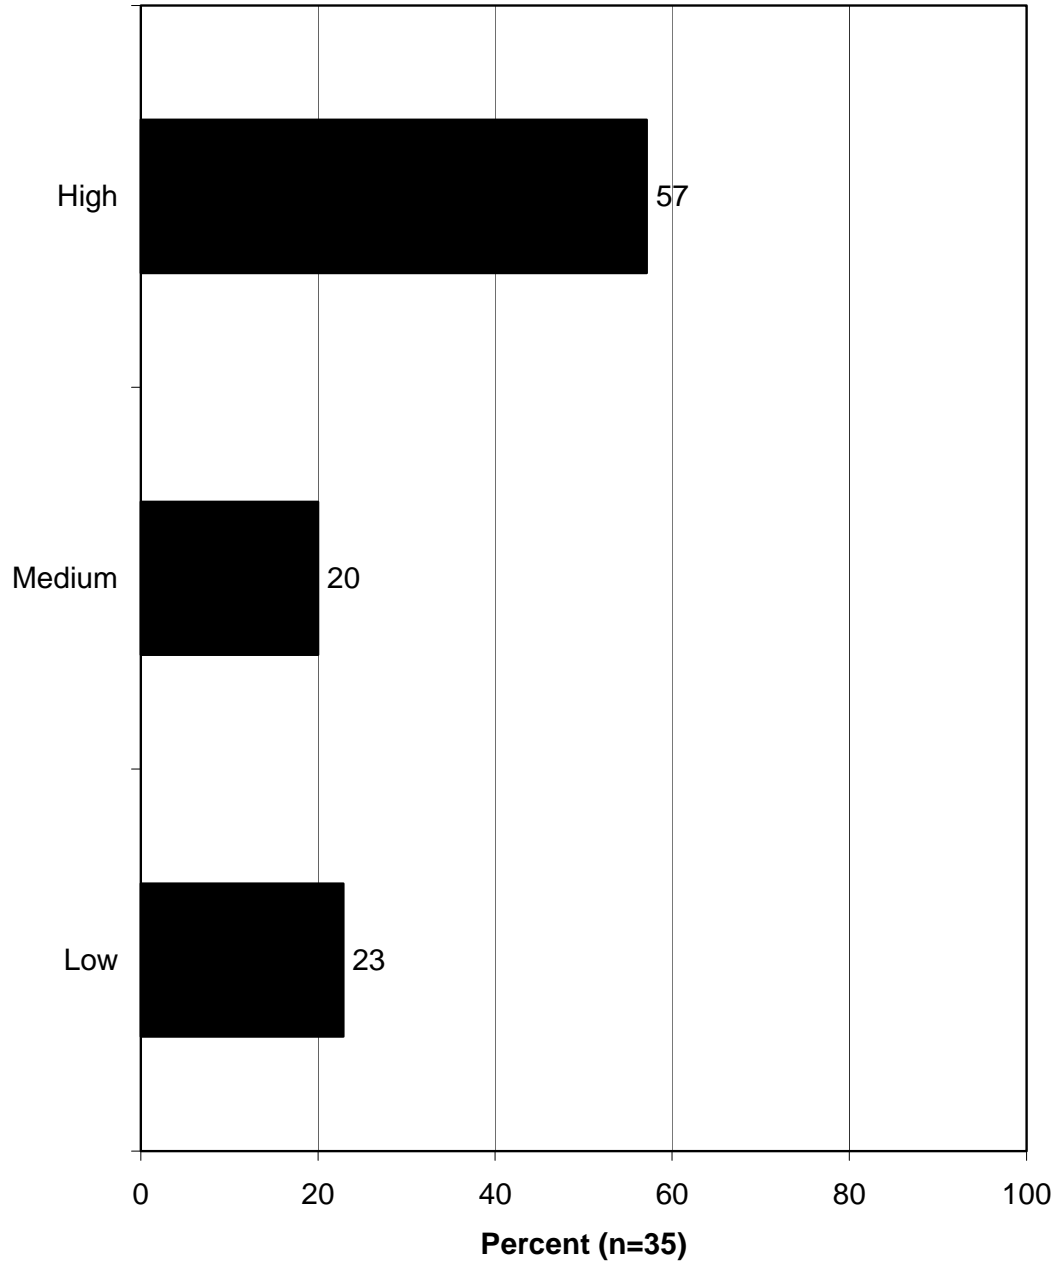

Q181. Do you think there is a high, medium, or low need for coastal training about sedimentation?

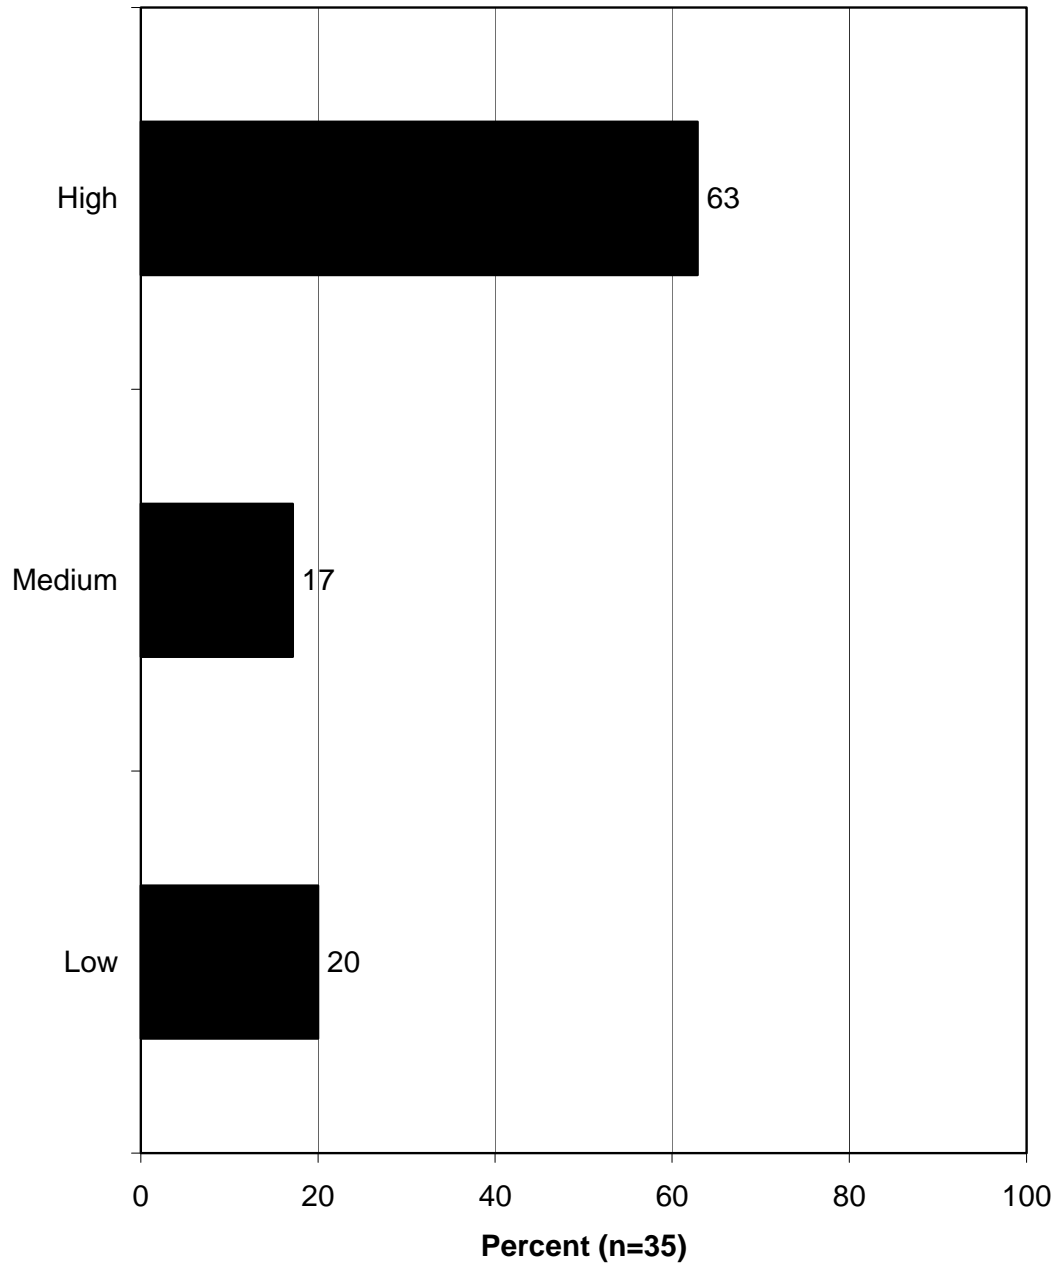

Q182. Do you think there is a high, medium, or low need for coastal training about septic system issues?

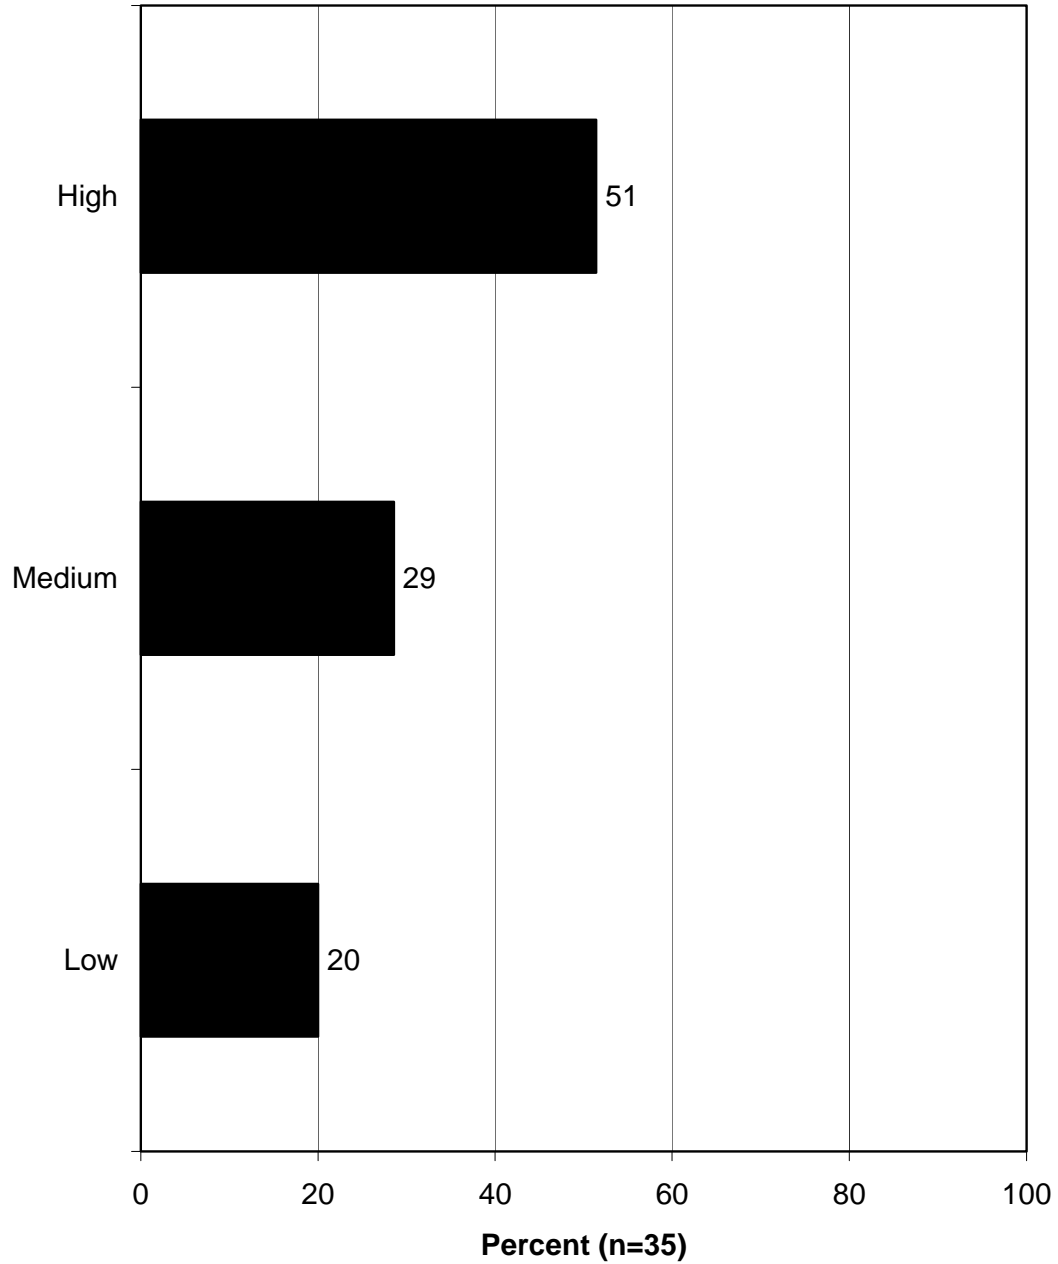

Q183. Do you think there is a high, medium, or low need for coastal training about wastewater management?

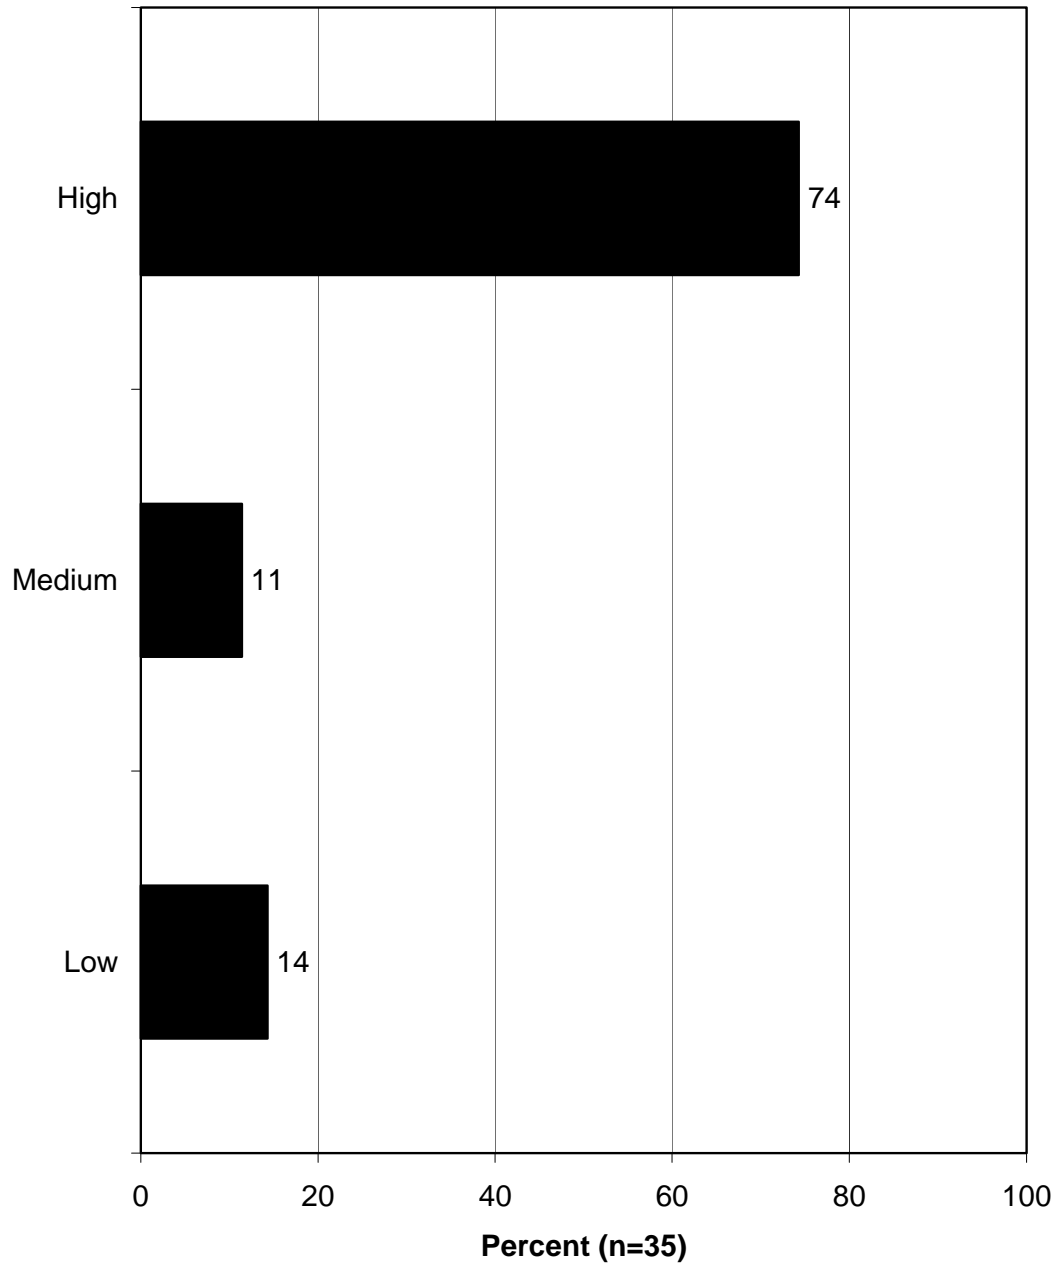

Q184. Do you think there is a high, medium, or low need for coastal training about storm water protection and cleanup?

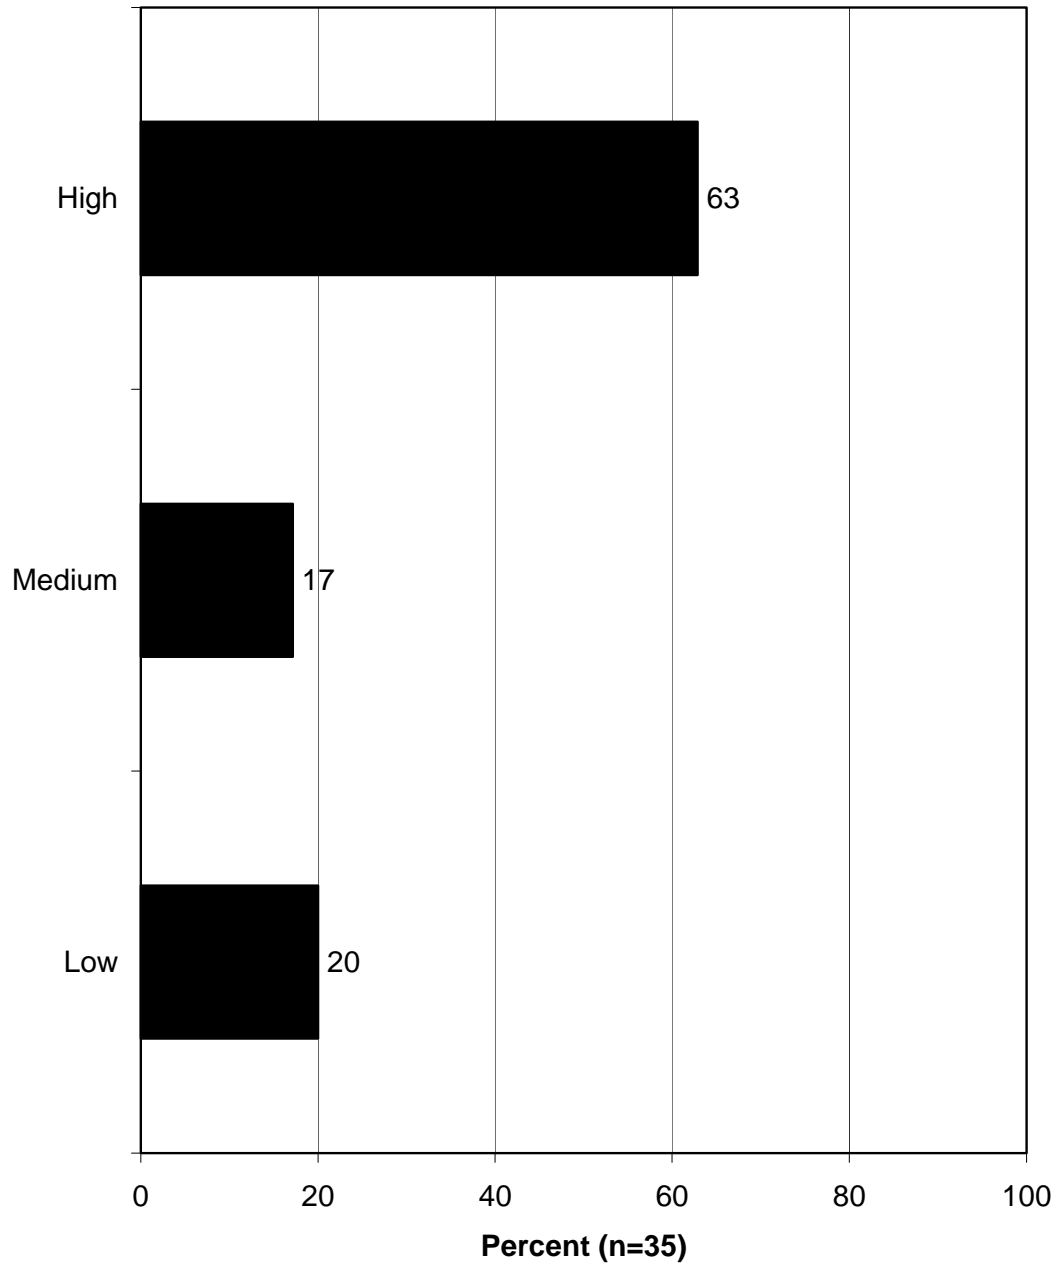

Q185. Do you think there is a high, medium, or low need for coastal training about nitrogen loading?

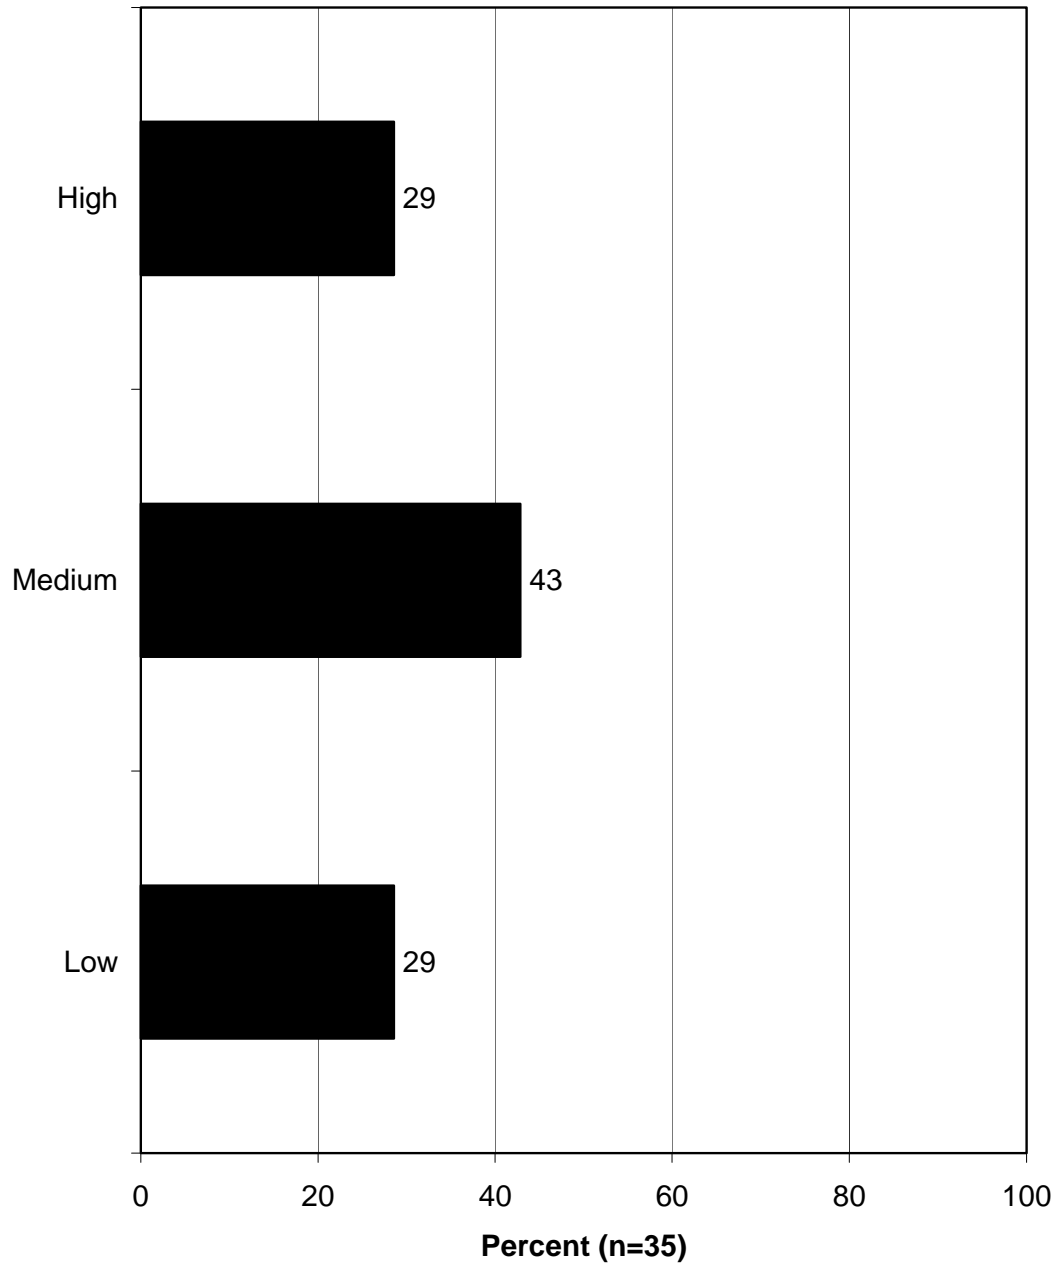

Q186. Do you think there is a high, medium, or low need for coastal training about land use planning (smart growth, watershed buildup)?

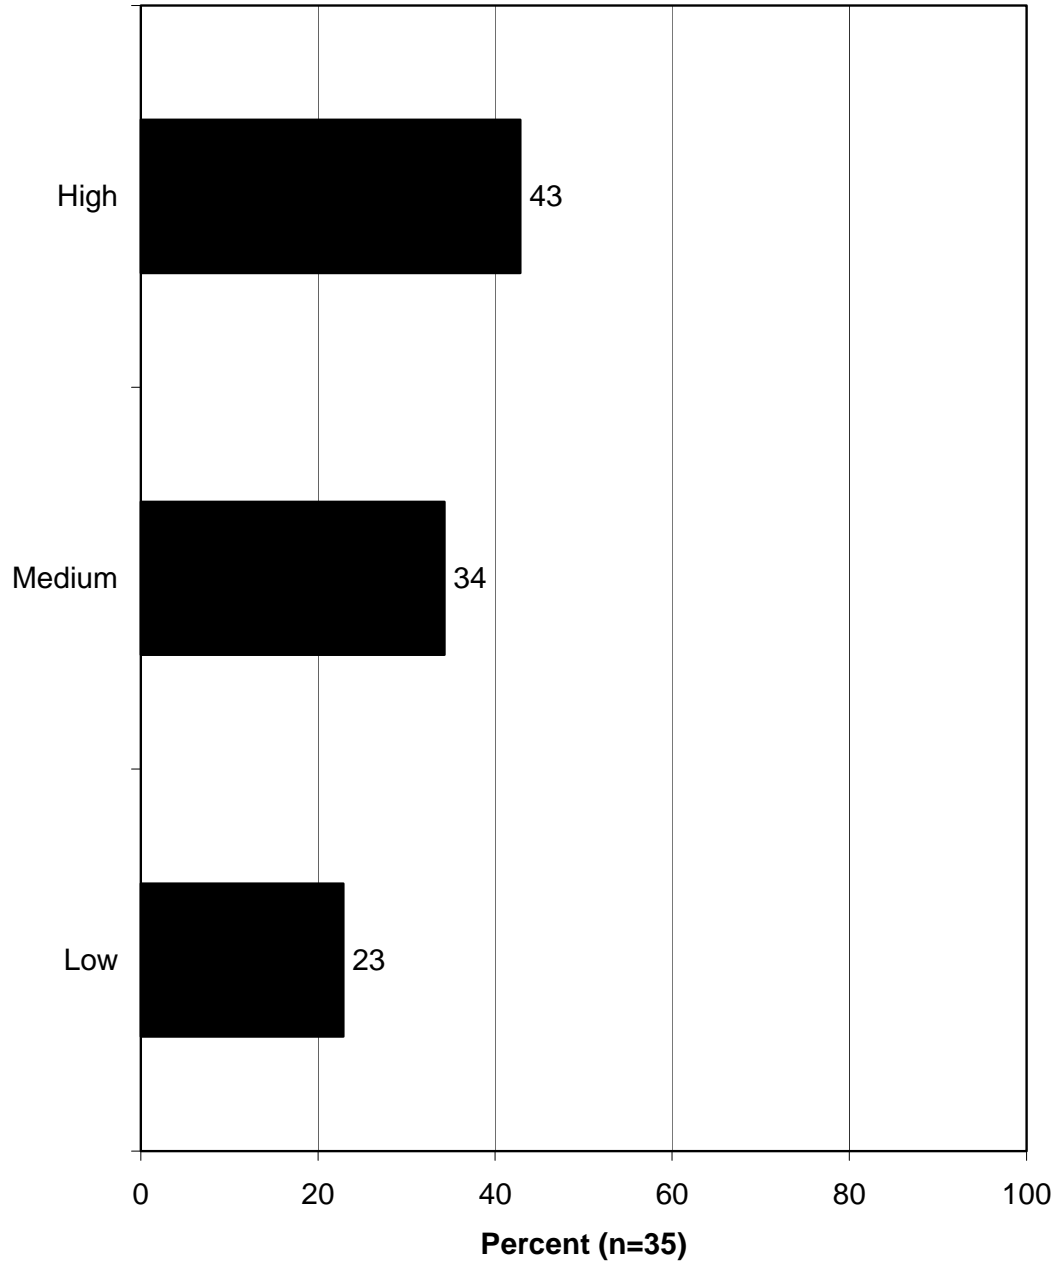

Q187. Do you think there is a high, medium, or low need for coastal training about sustainable facilities (green design)?

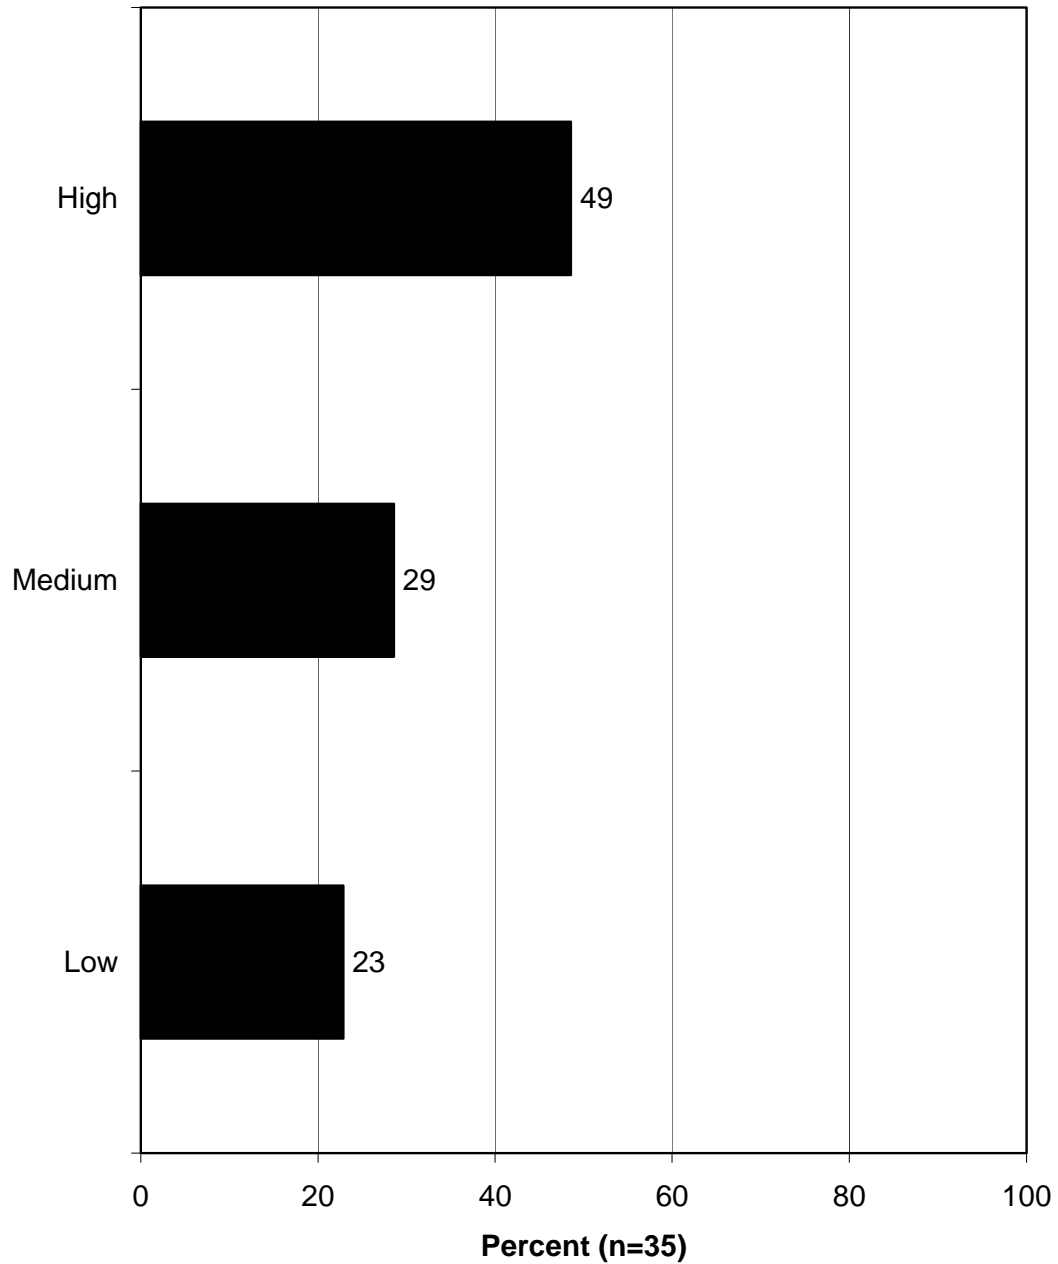

Q188. Do you think there is a high, medium, or low need for coastal training about GIS (geographic information systems)?

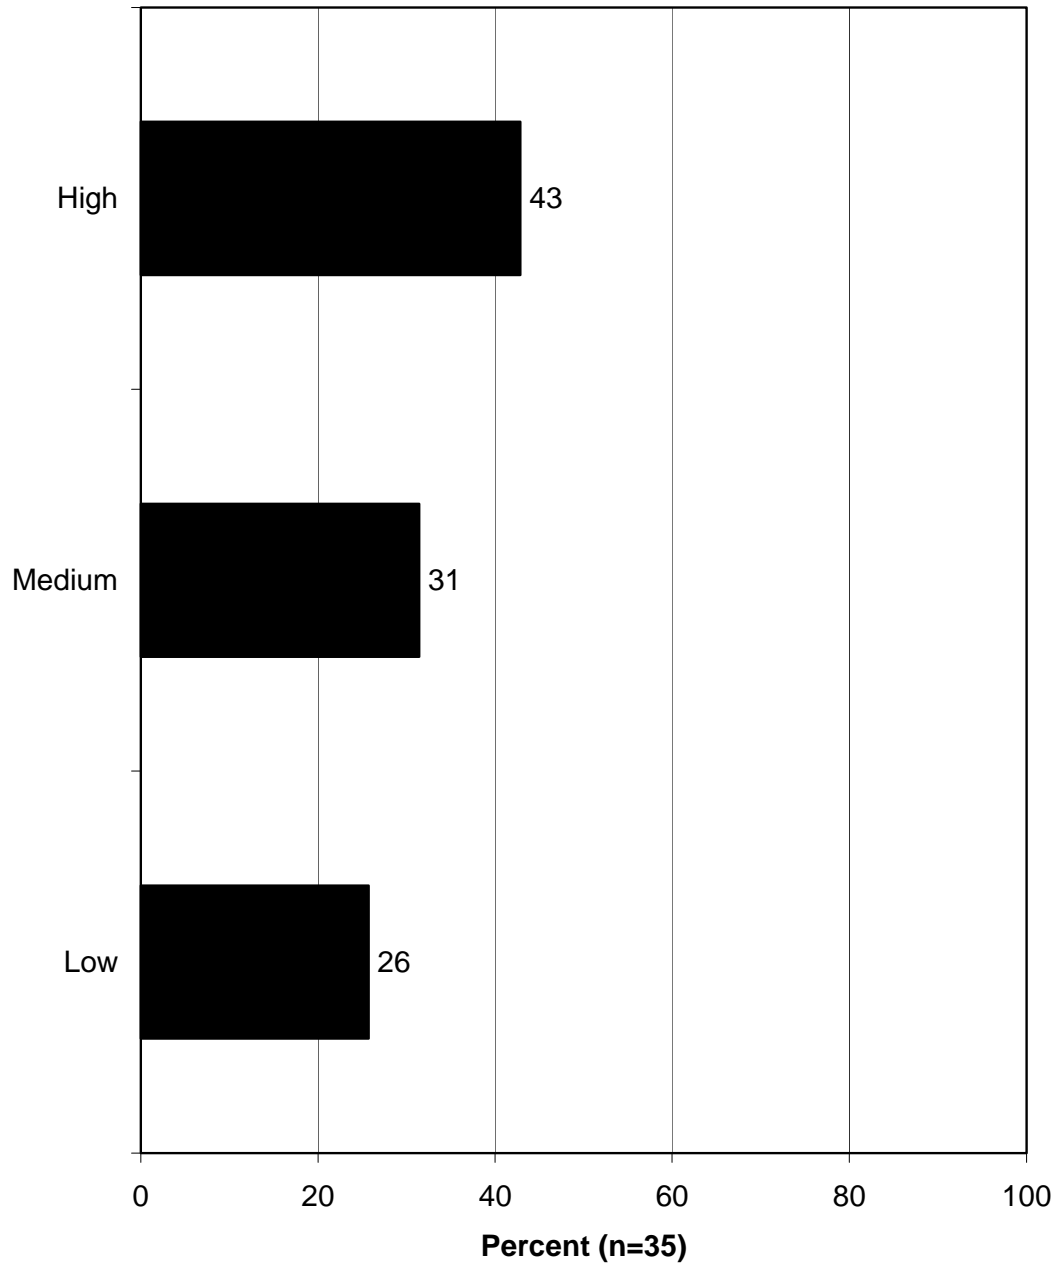

Q189. Do you think there is a high, medium, or low need for coastal training about intra-agency/organization communications?

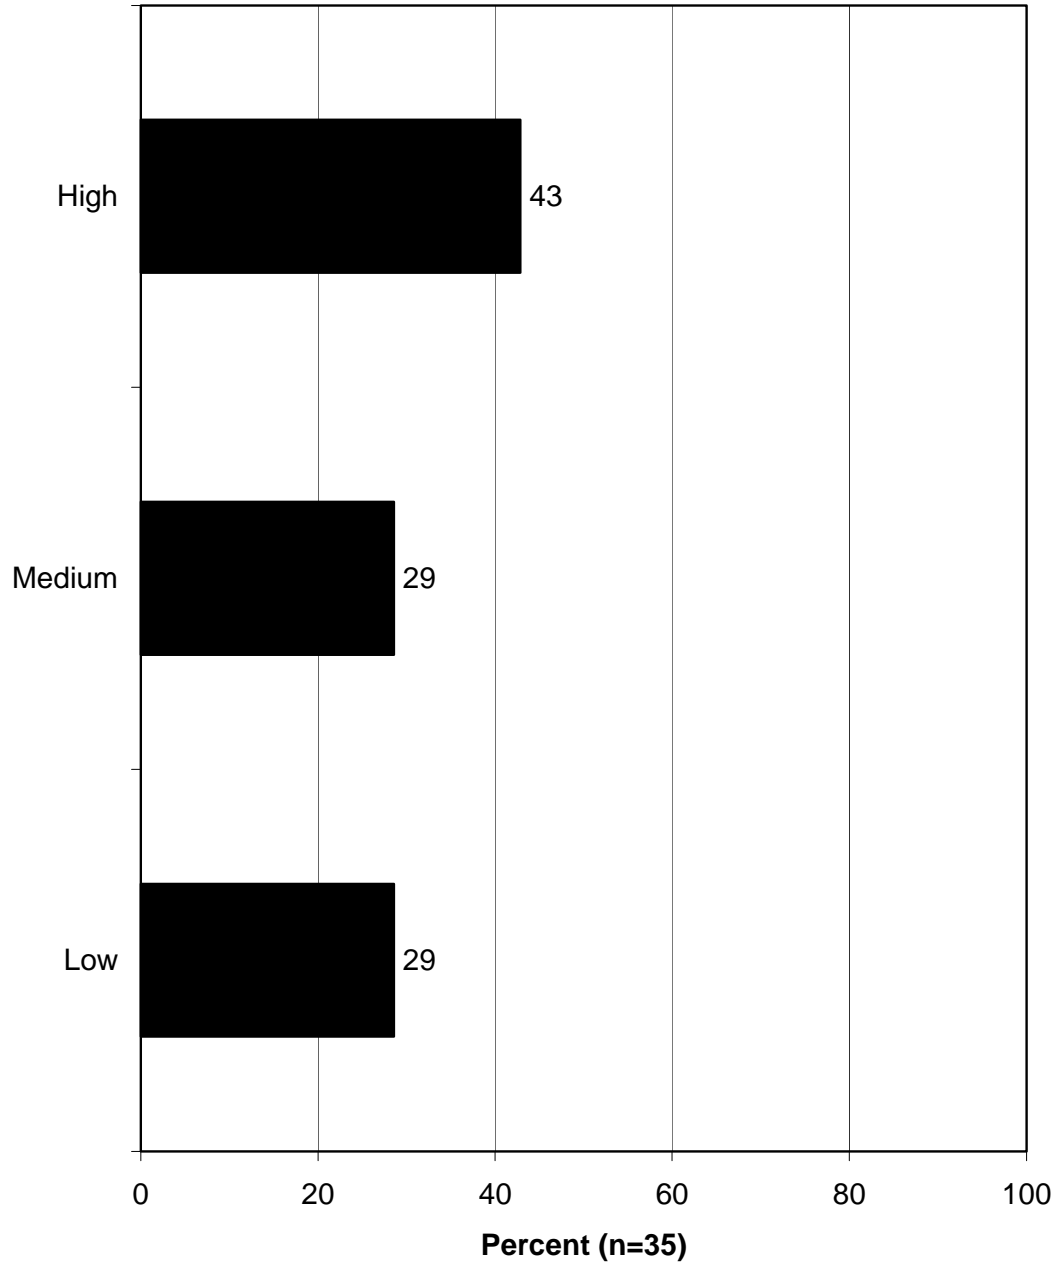

Q190. Do you think there is a high, medium, or low need for coastal training about inter-agency/organization communications?

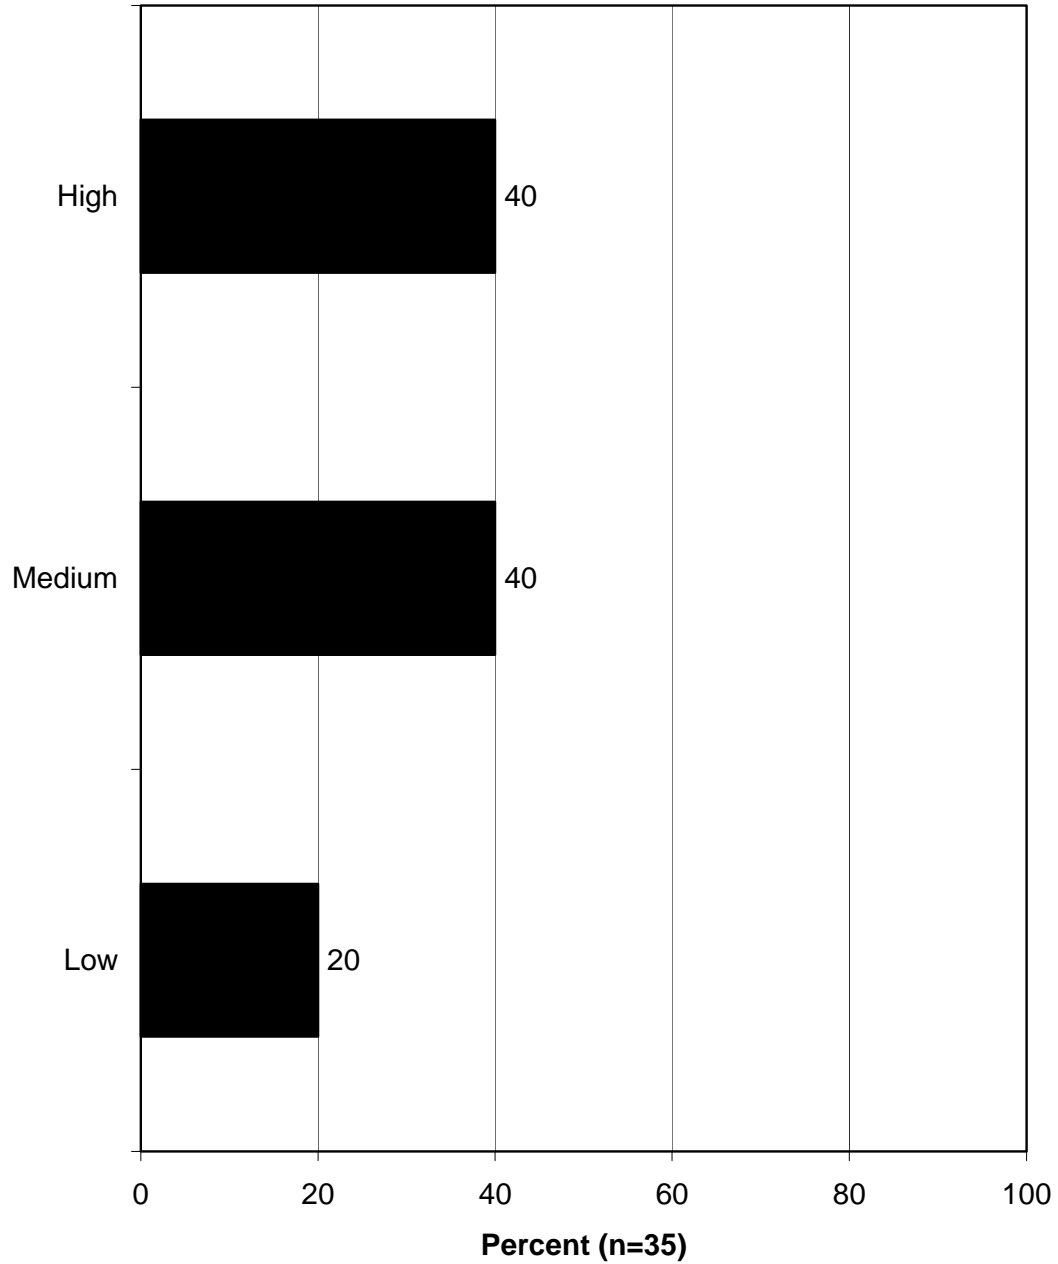

Q191. Do you think there is a high, medium, or low need for coastal training about organizational/management skills?

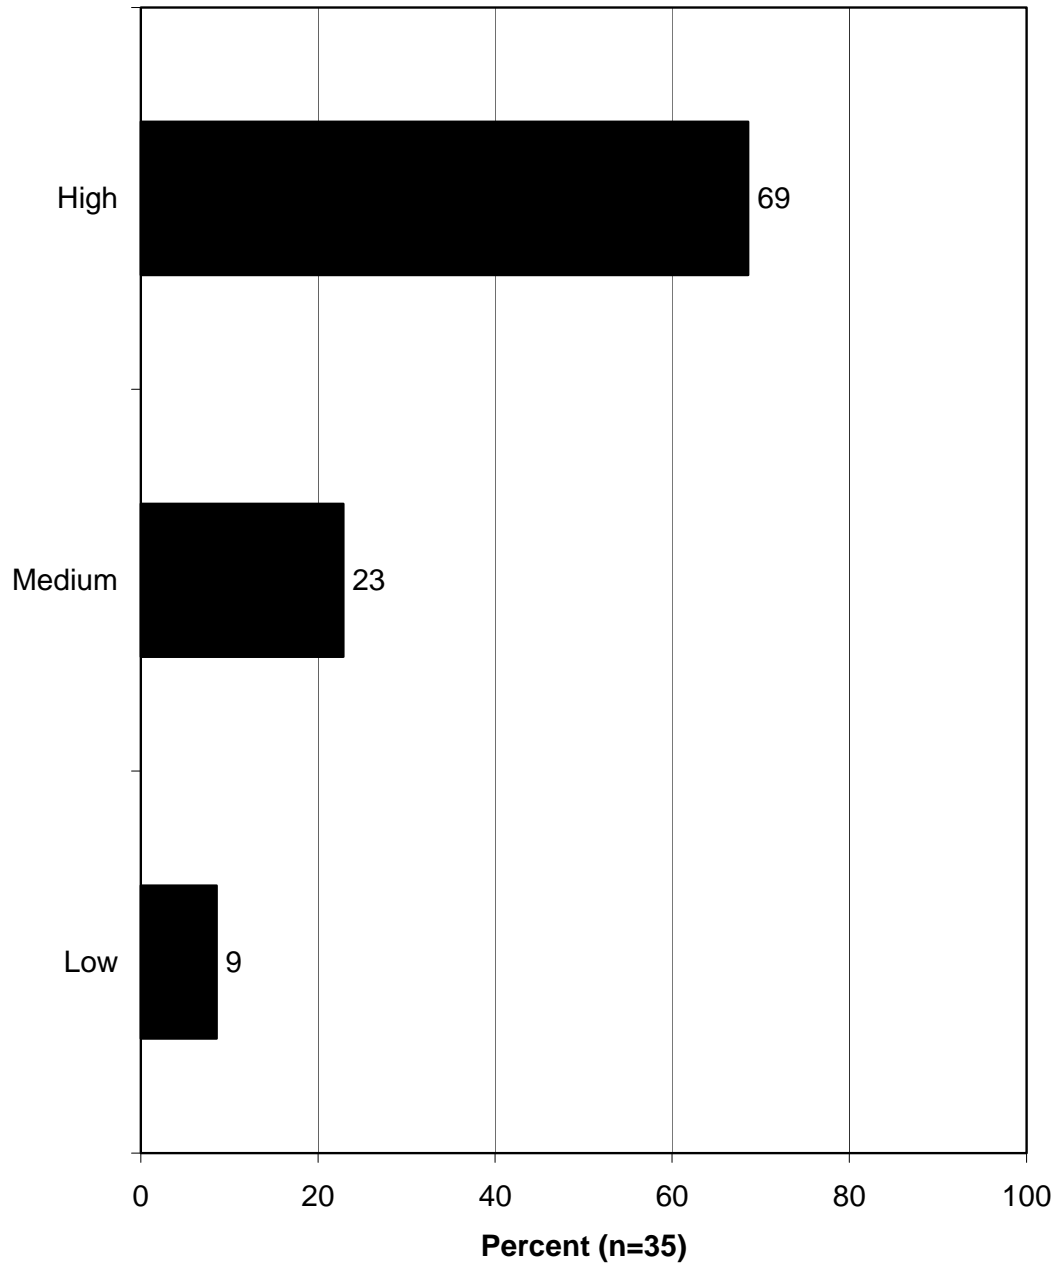

Q192. Do you think there is a high, medium, or low need for coastal training about public safety?

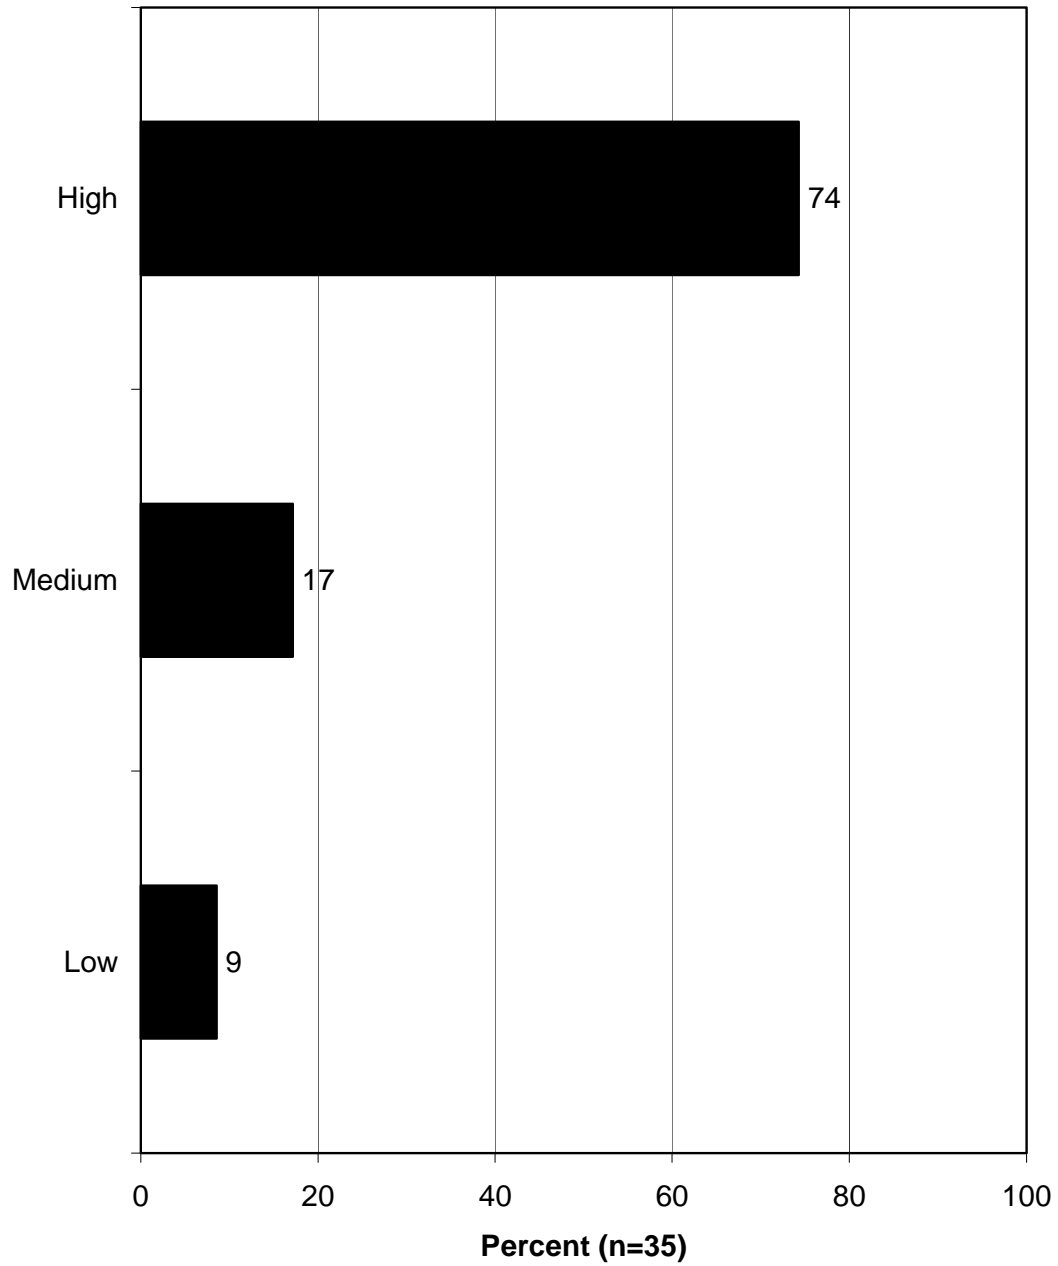

Q193. Do you think there is a high, medium, or low need for coastal training about regulations?

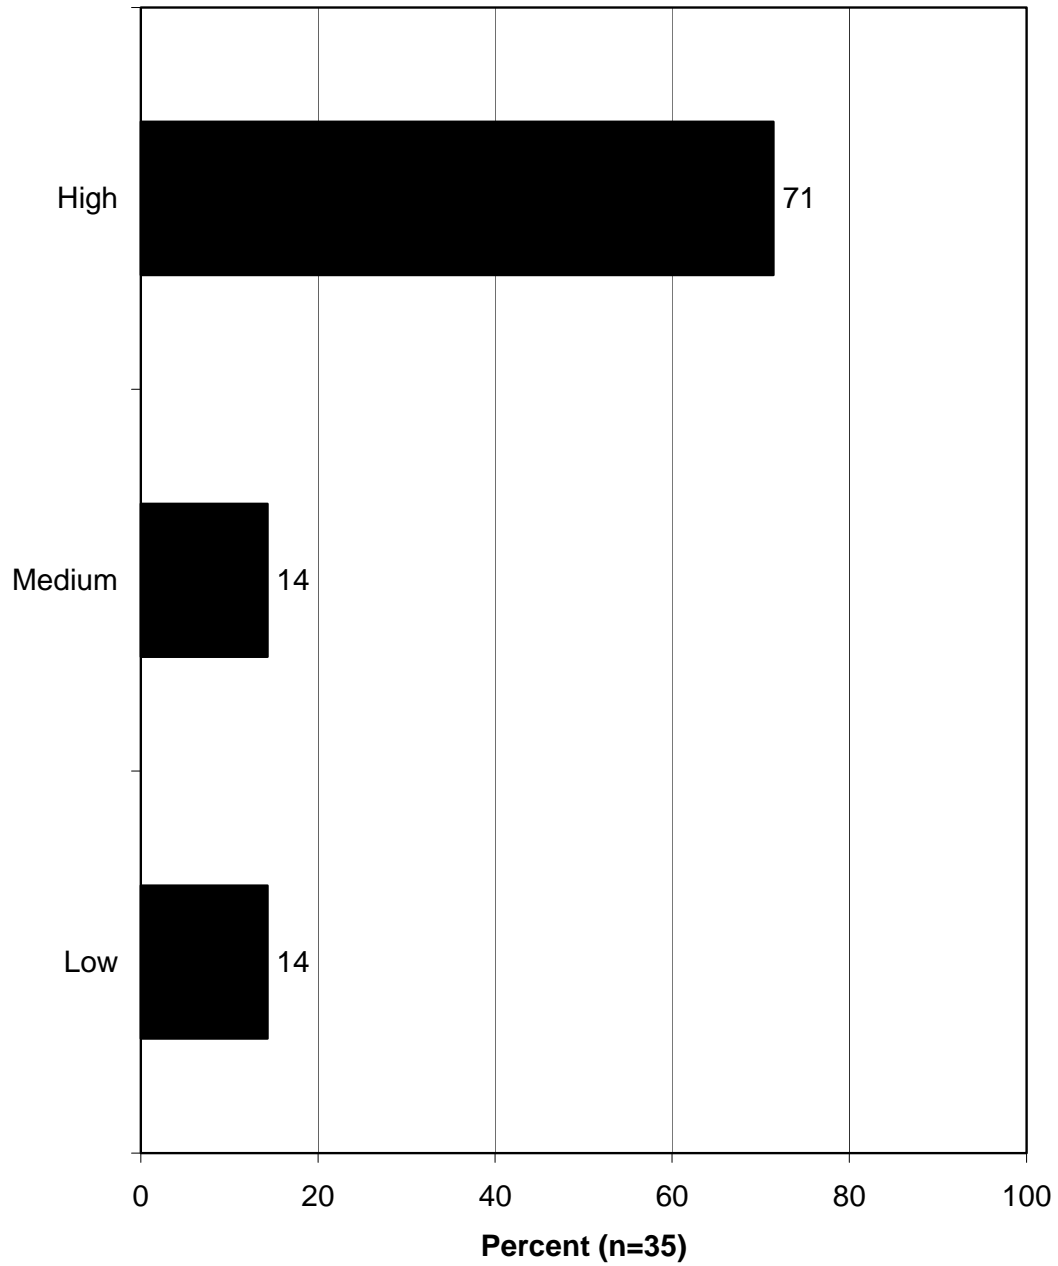

Q194. Do you think there is a high, medium, or low need for coastal training about environmental education for adults?

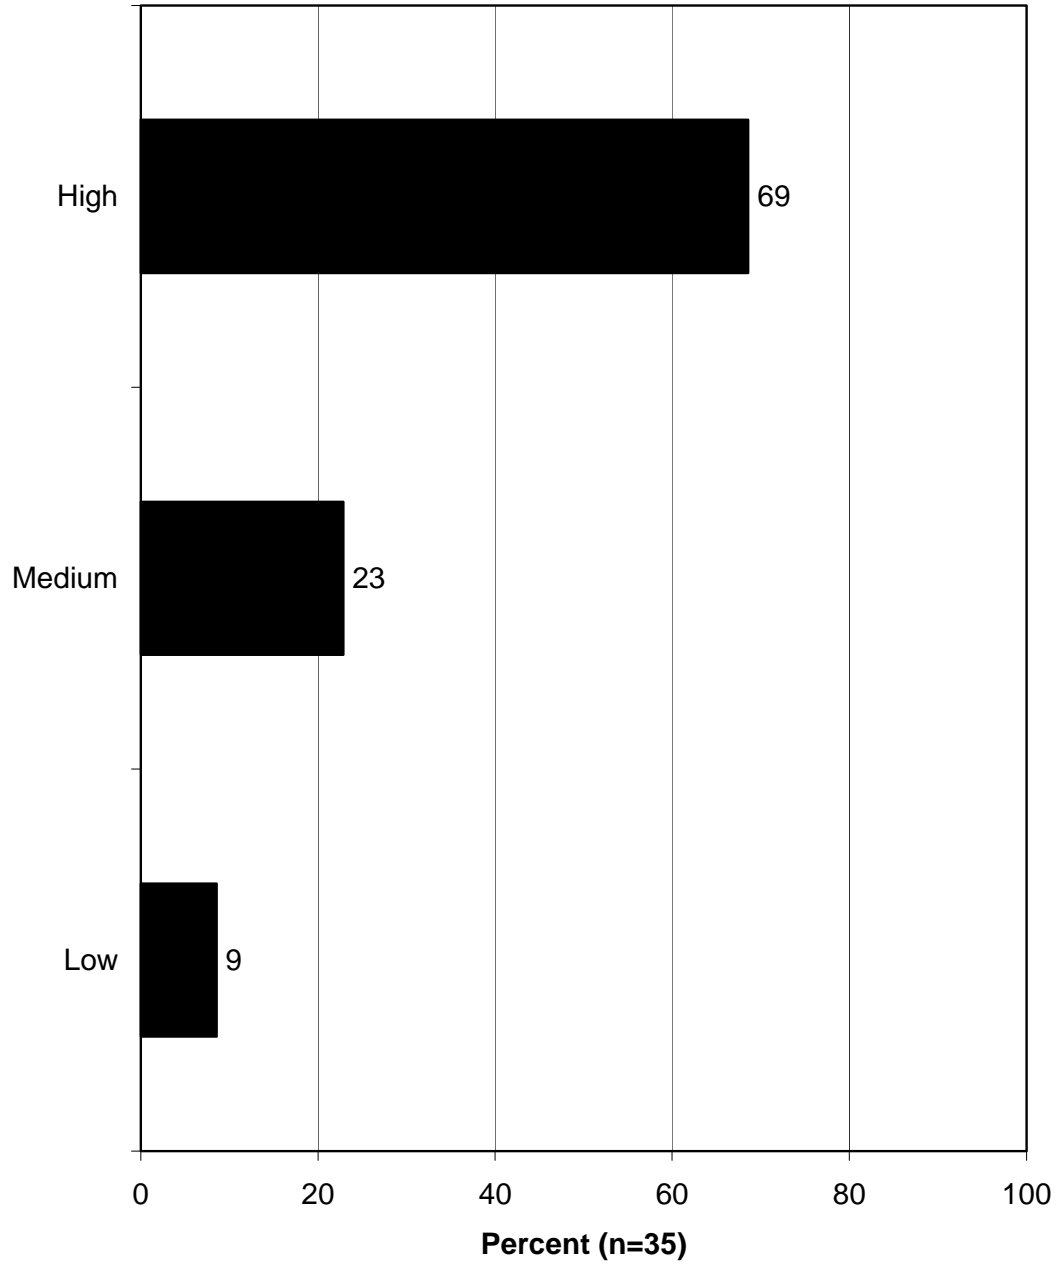

Q195. Do you think there is a high, medium, or low need for coastal training about environmental education for K-12 students?

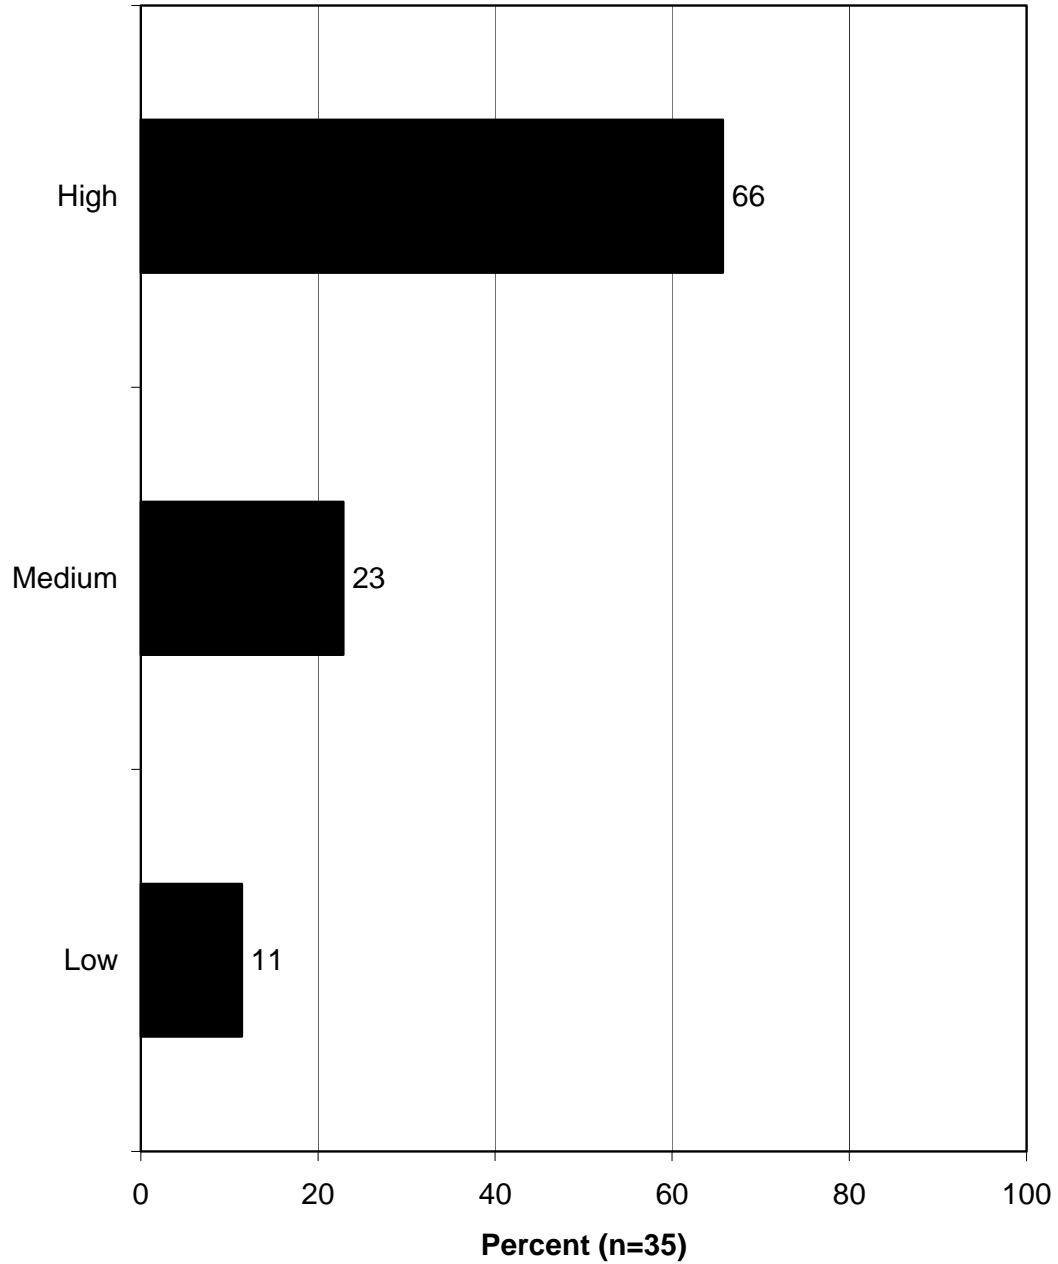

Q196. Do you think there is a high, medium, or low need for coastal training about professional development for K-12 educators?

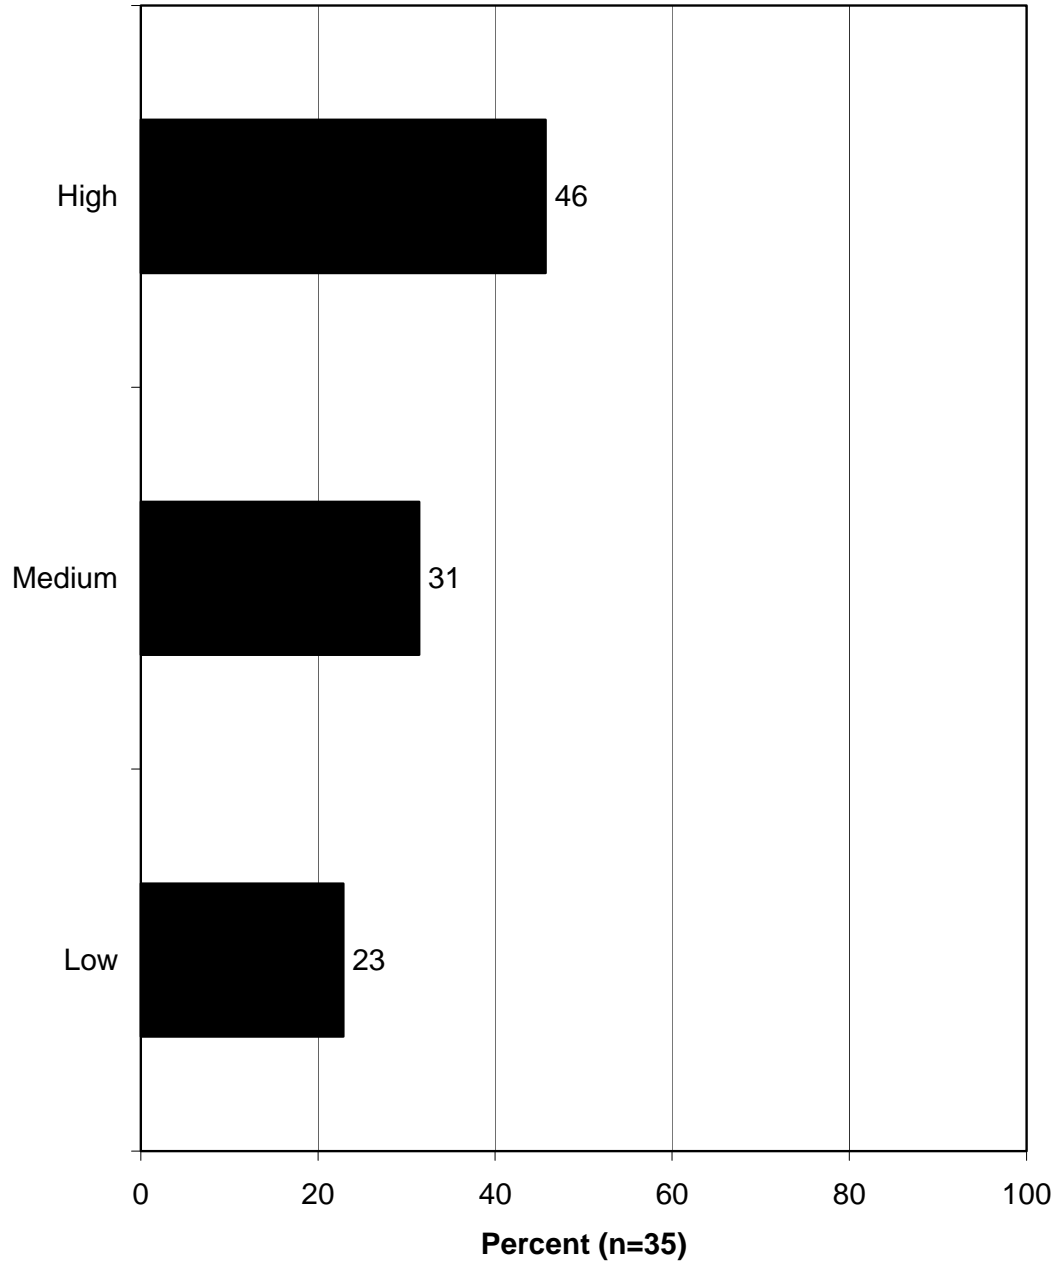

Q197. Do you think there is a high, medium, or low need for coastal training about endangered species?

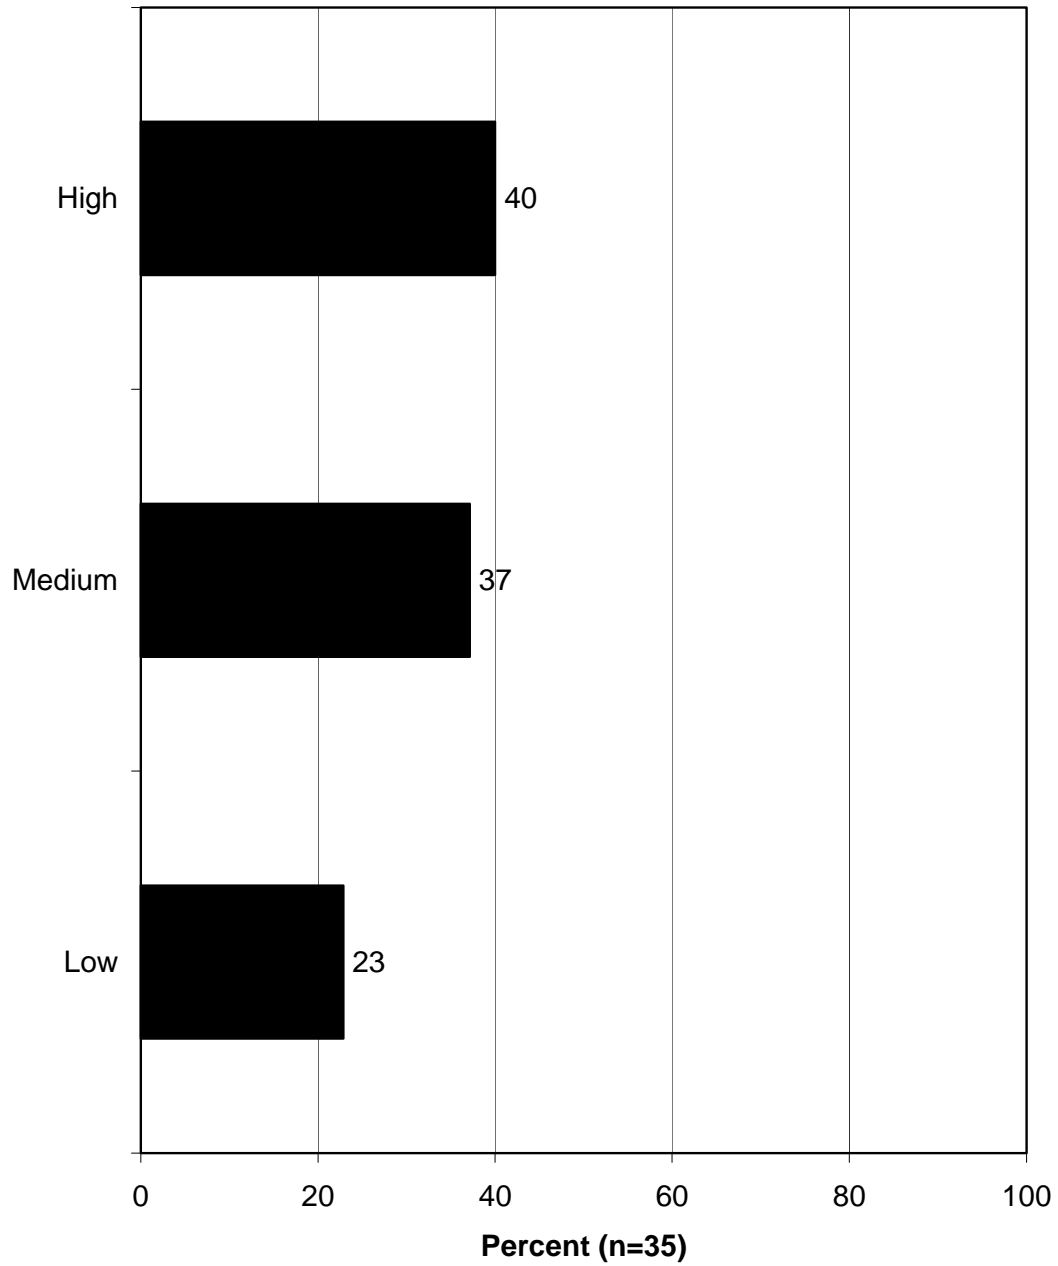

Q198. Do you think there is a high, medium, or low need for coastal training about invasive species?

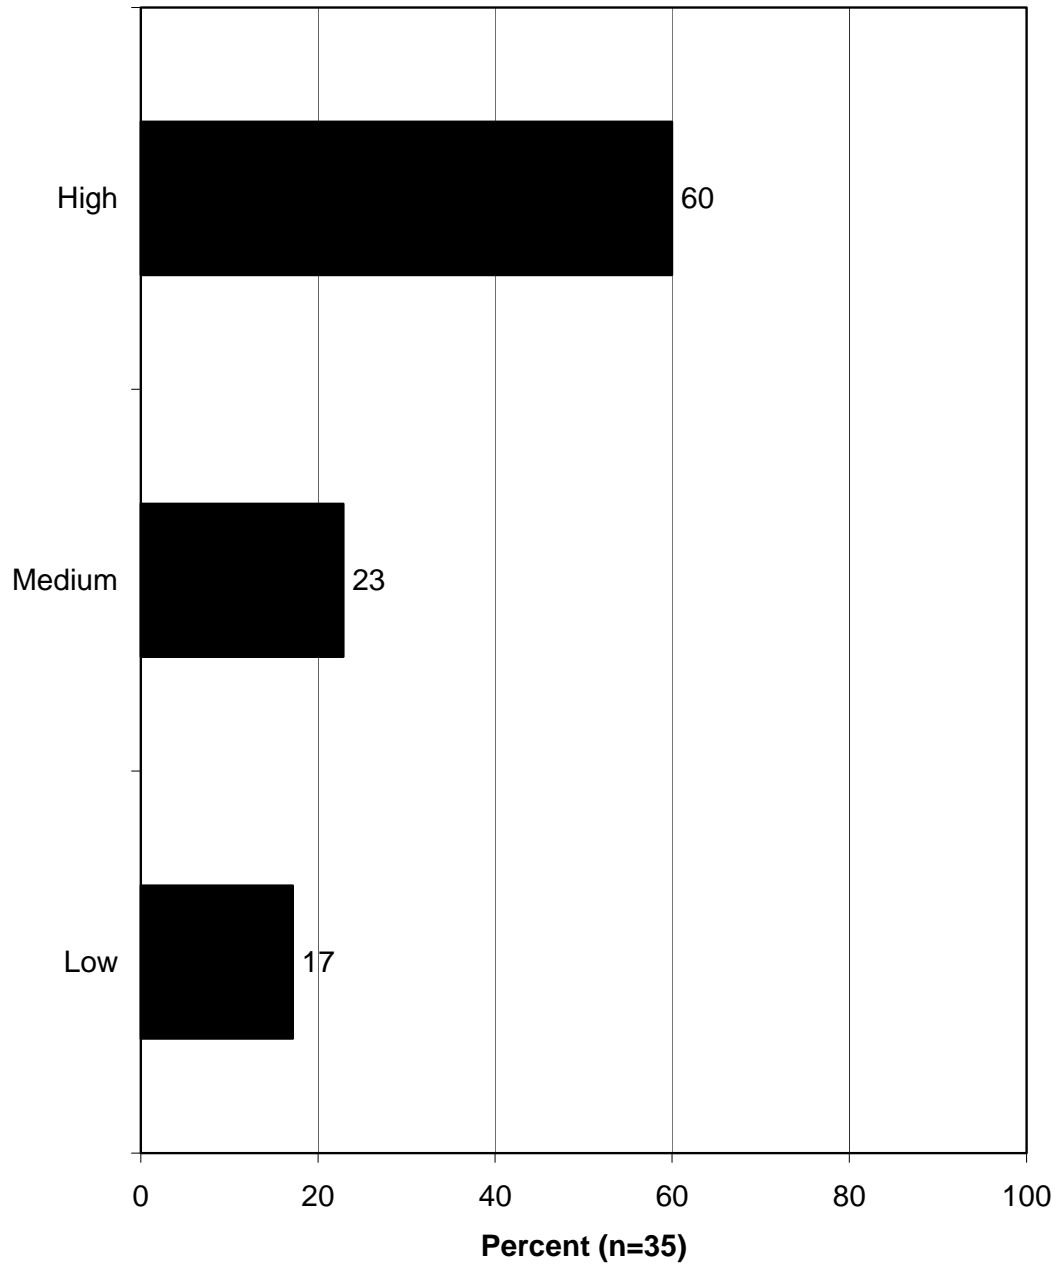

Q199. Do you think there is a high, medium, or low need for coastal training about agricultural issues and practices?

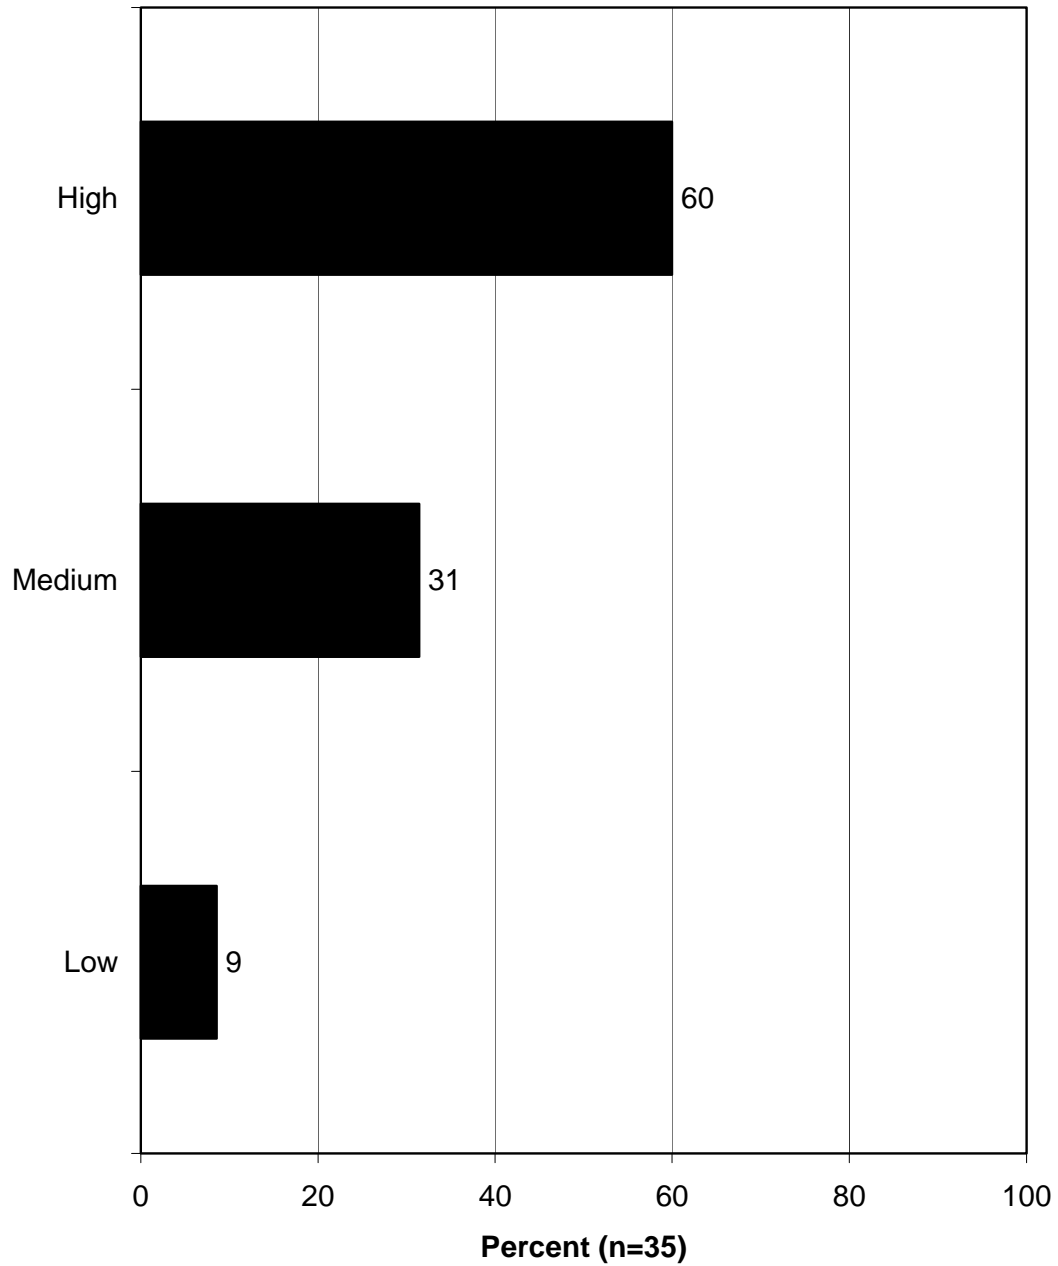

Q200. Do you think there is a high, medium, or low need for coastal training about global warming and climate?

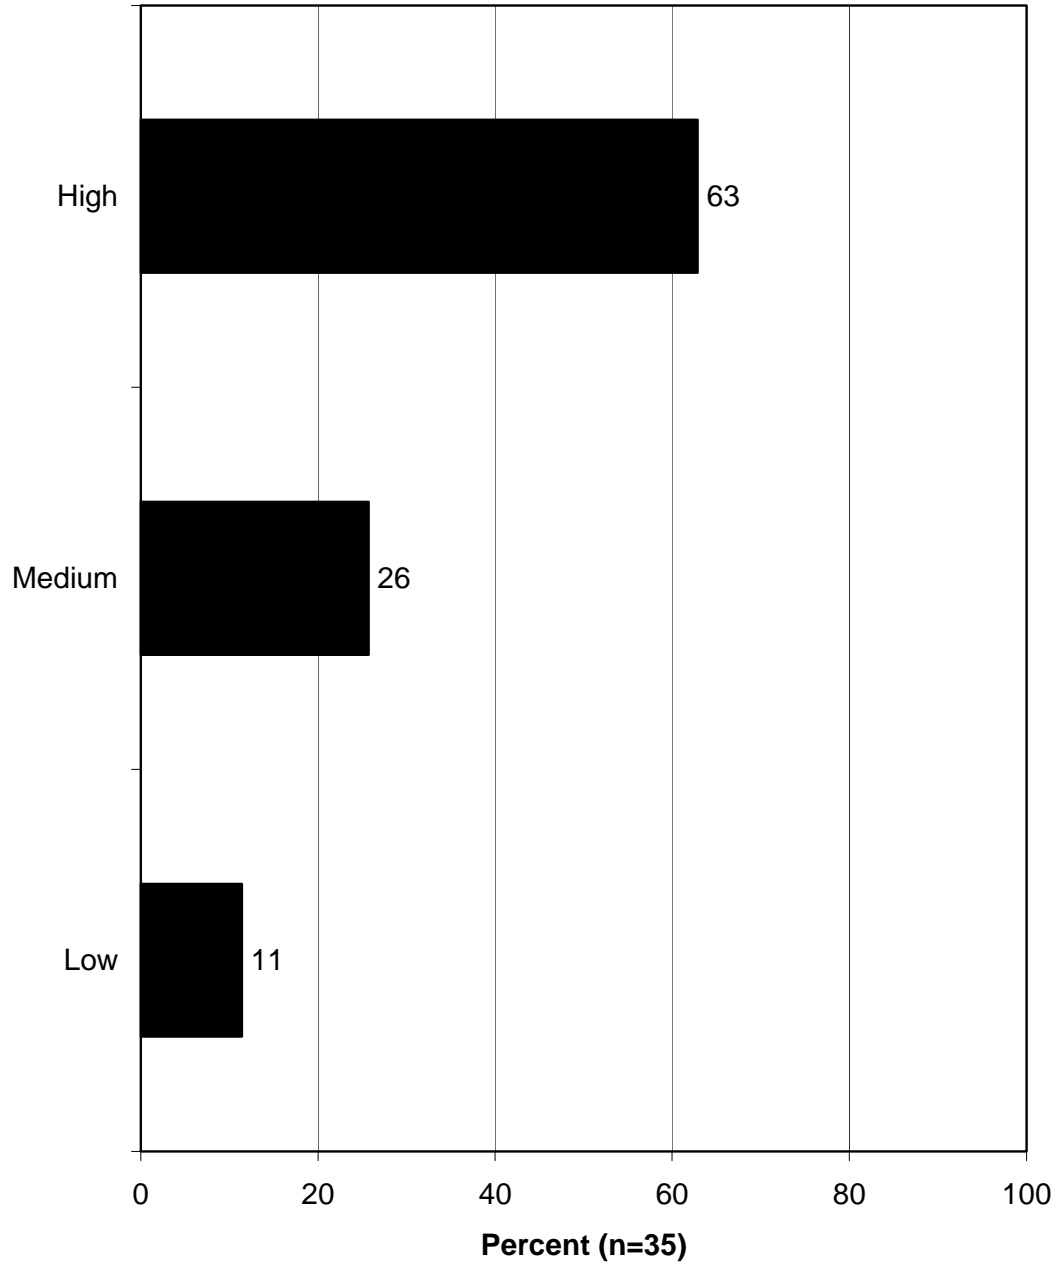

Q201. Do you think there is a high, medium, or low need for coastal training about ecological landscaping?

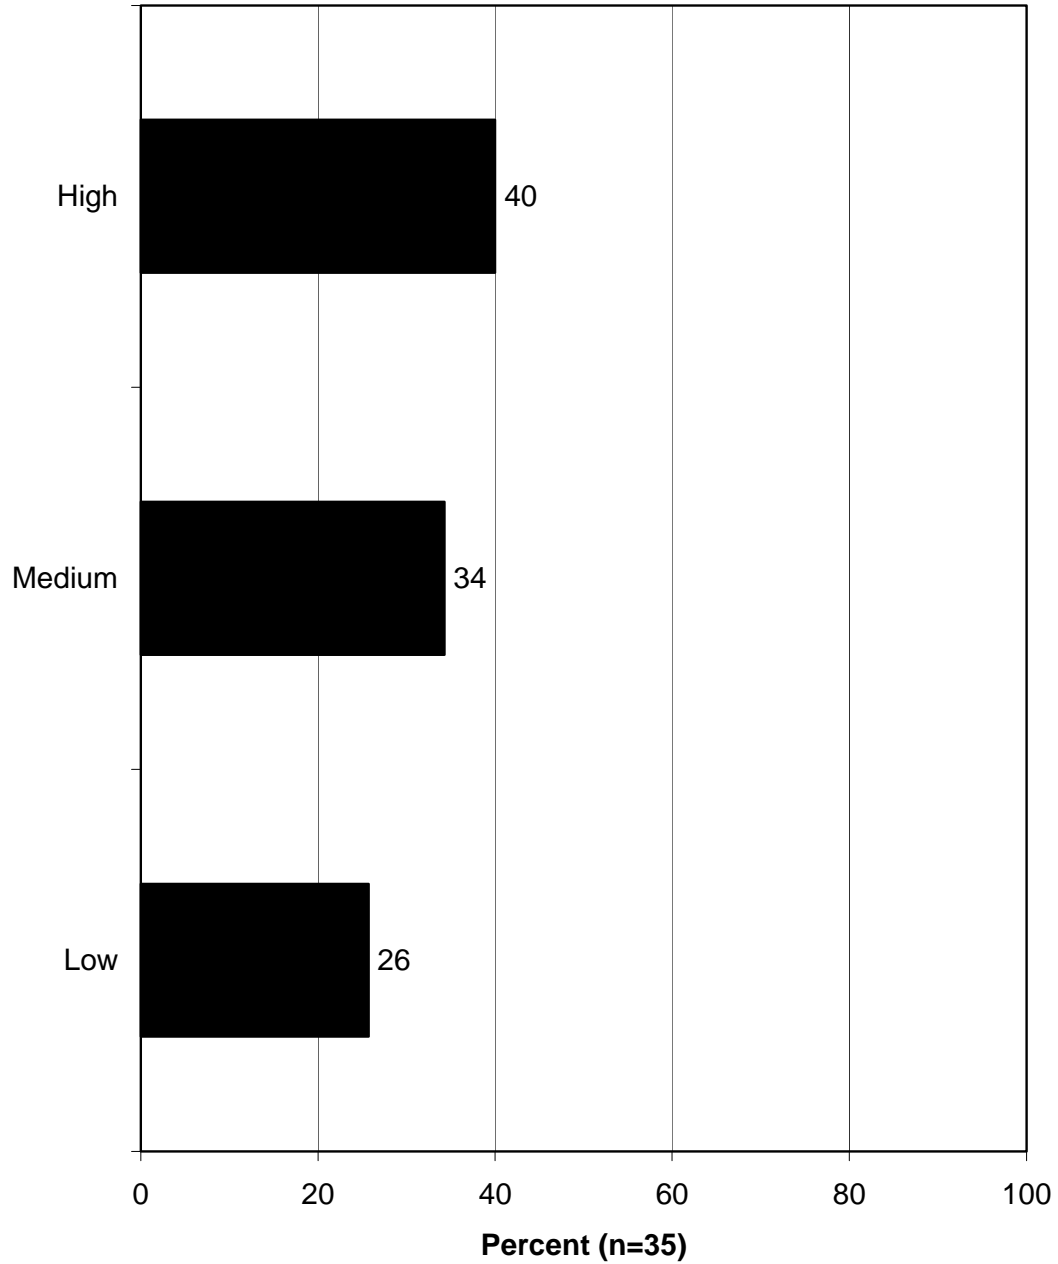

Q202. Do you think there is a high, medium, or low need for coastal training about erosion control?

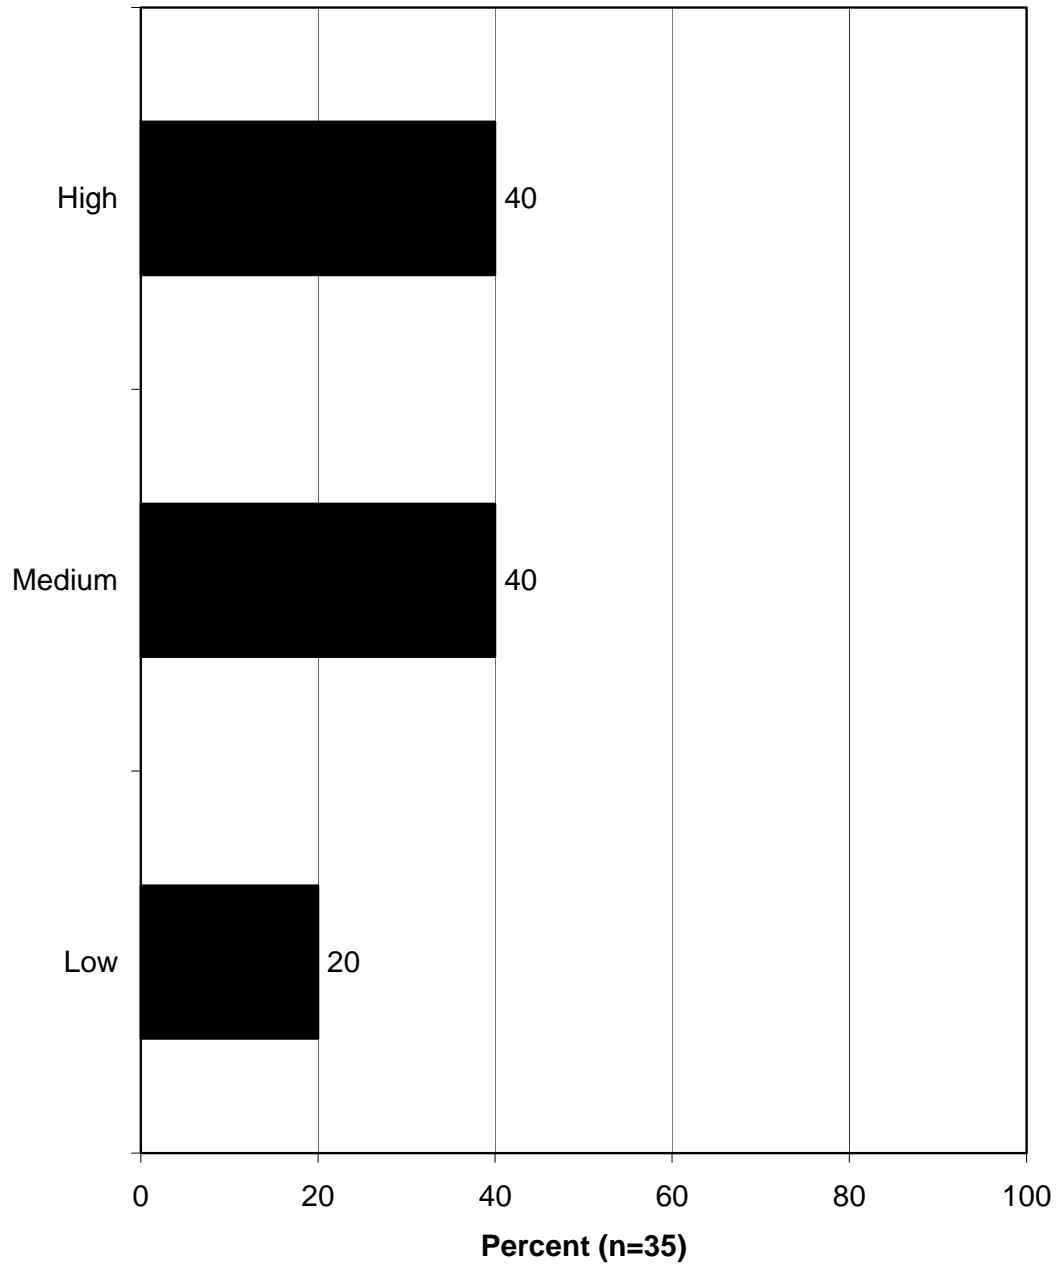

Q203. Do you think there is a high, medium, or low need for coastal training about estuarine ecology?

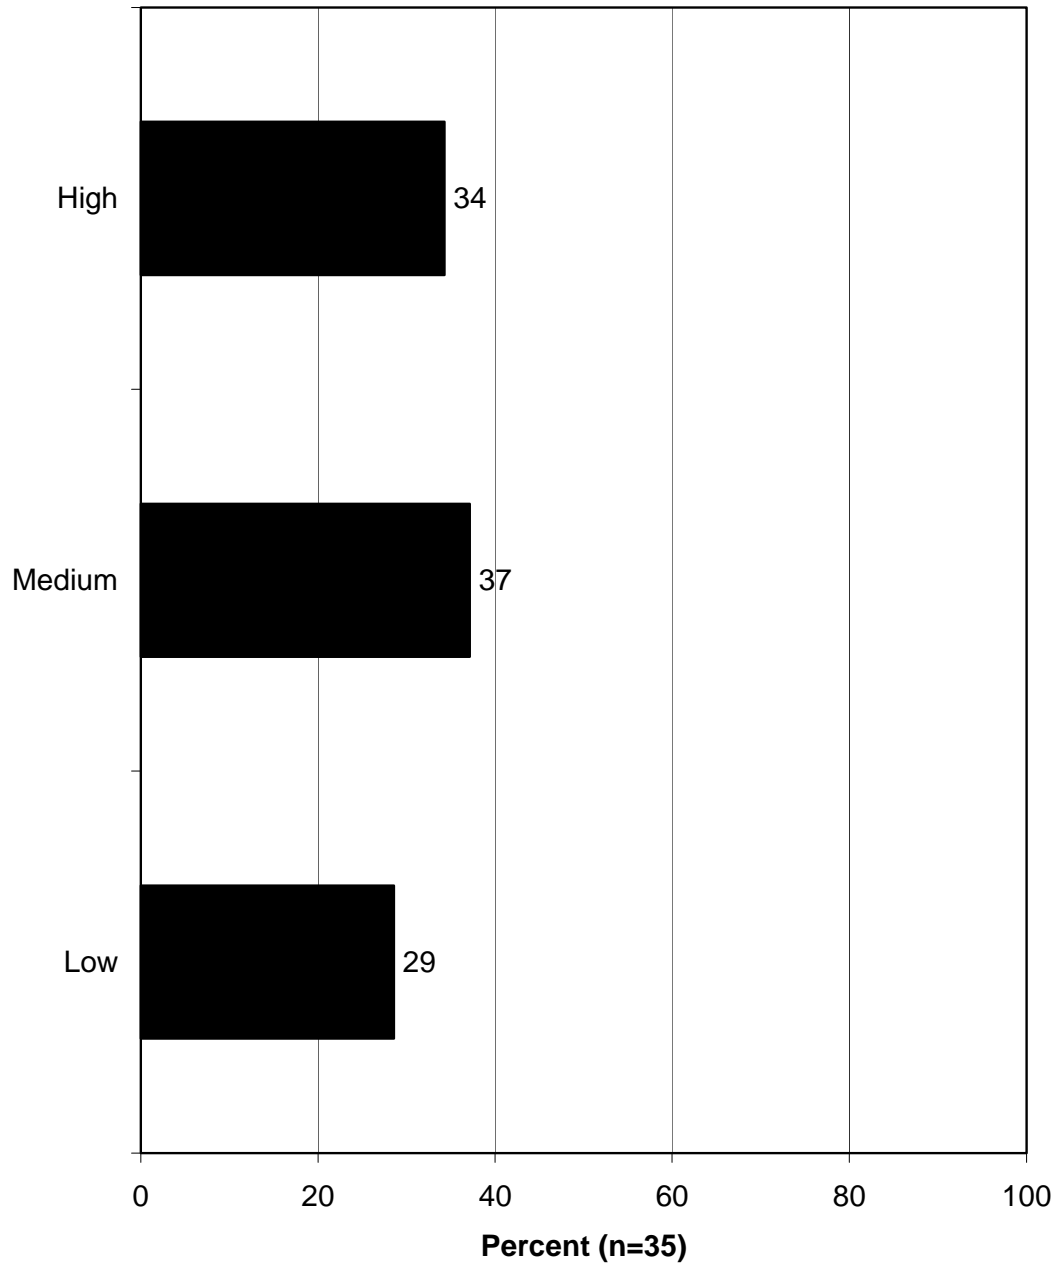

Q204. Do you think there is a high, medium, or low need for coastal training about aquaculture?

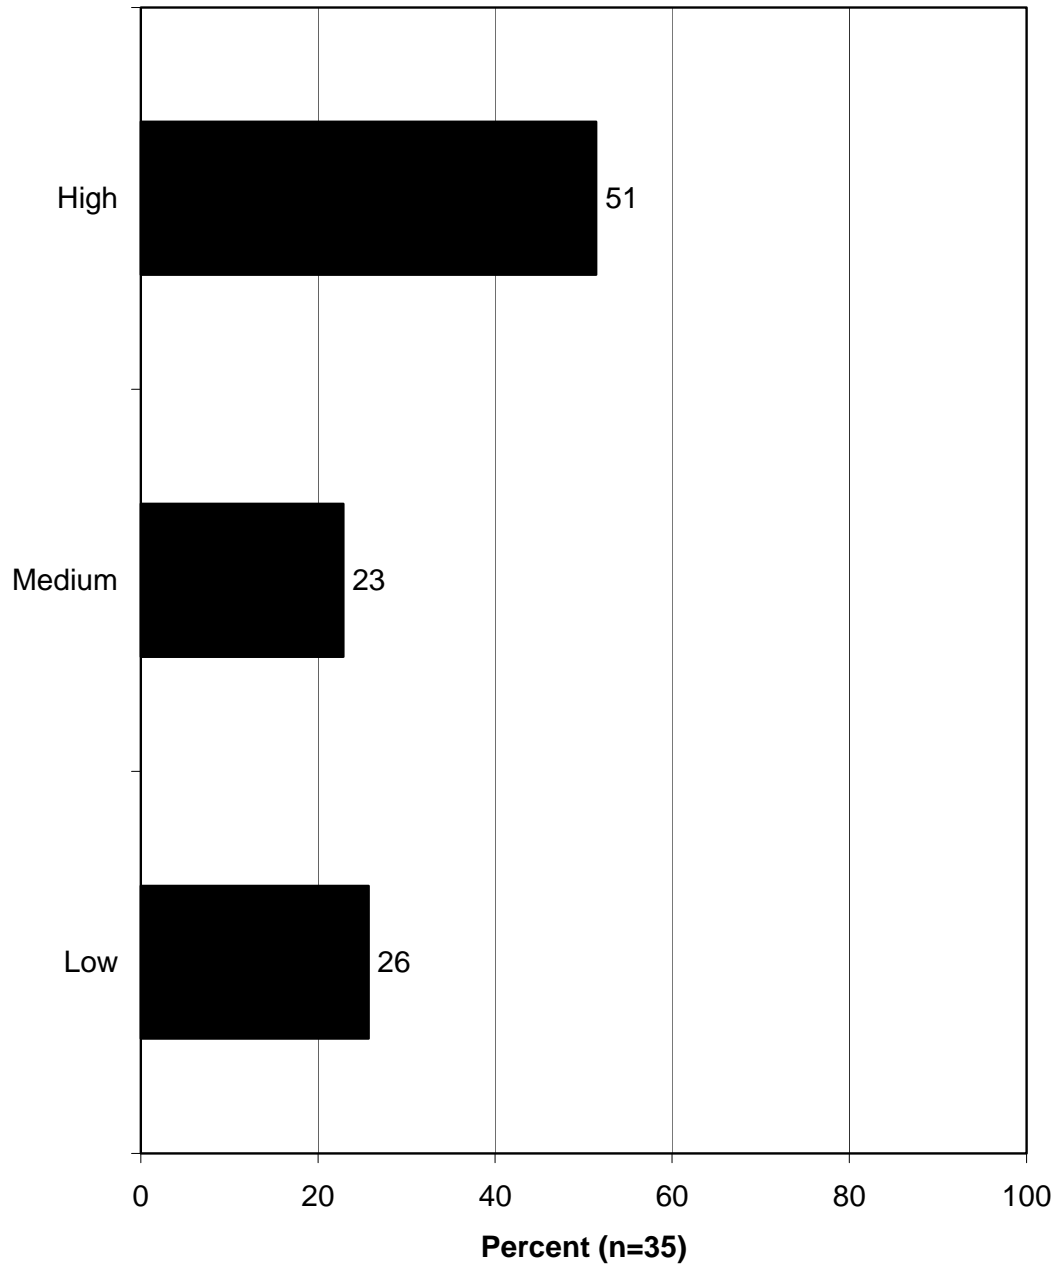

Q205. Do you think there is a high, medium, or low need for coastal training about fisheries and by-catch issues?

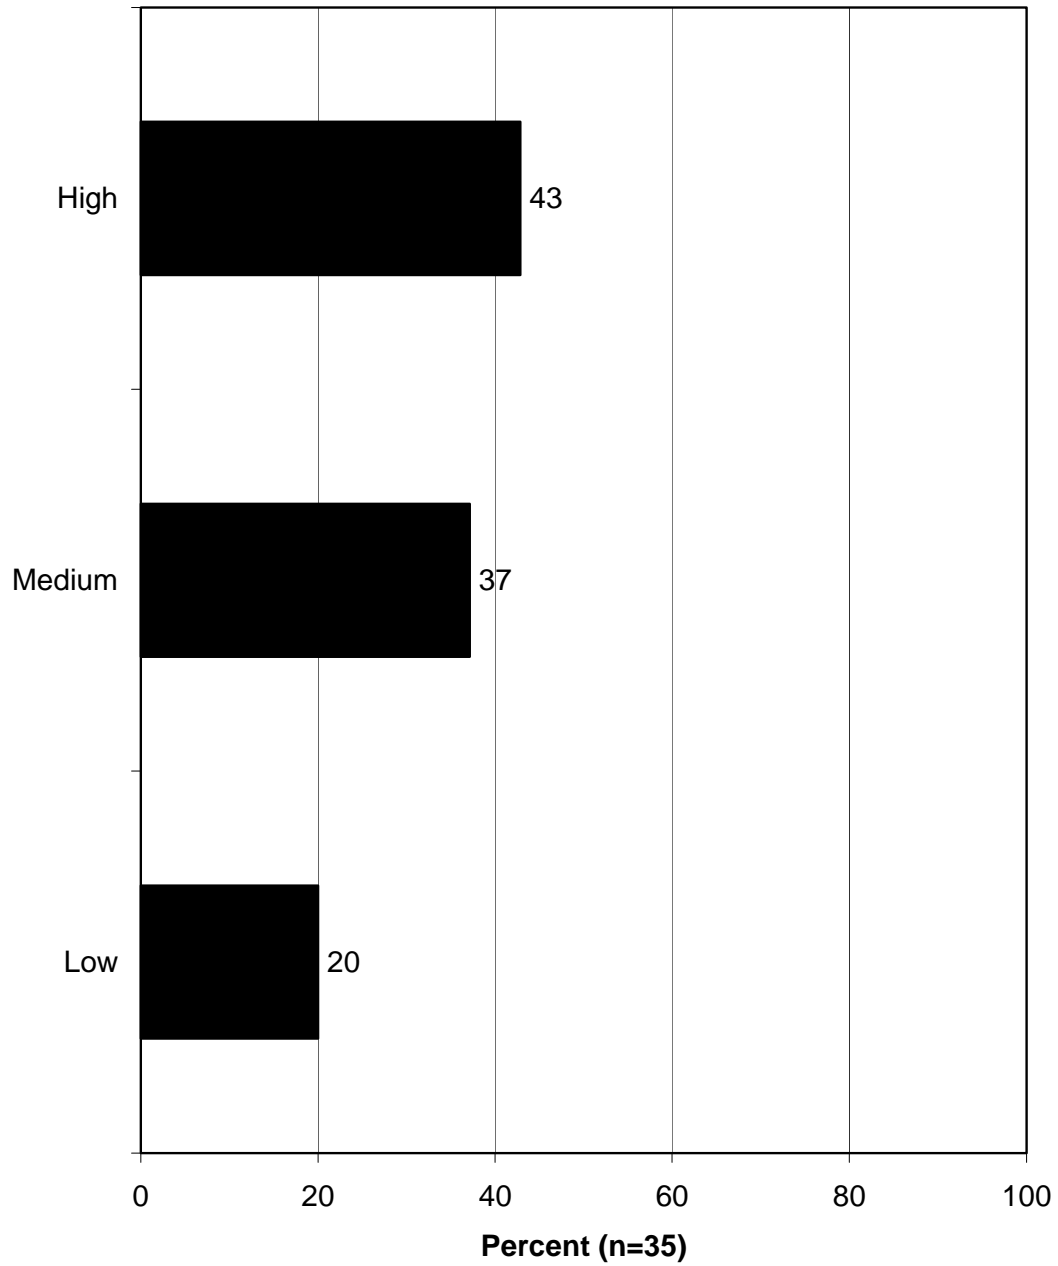

Q206. Do you think there is a high, medium, or low need for coastal training about fisheries and fishery law?

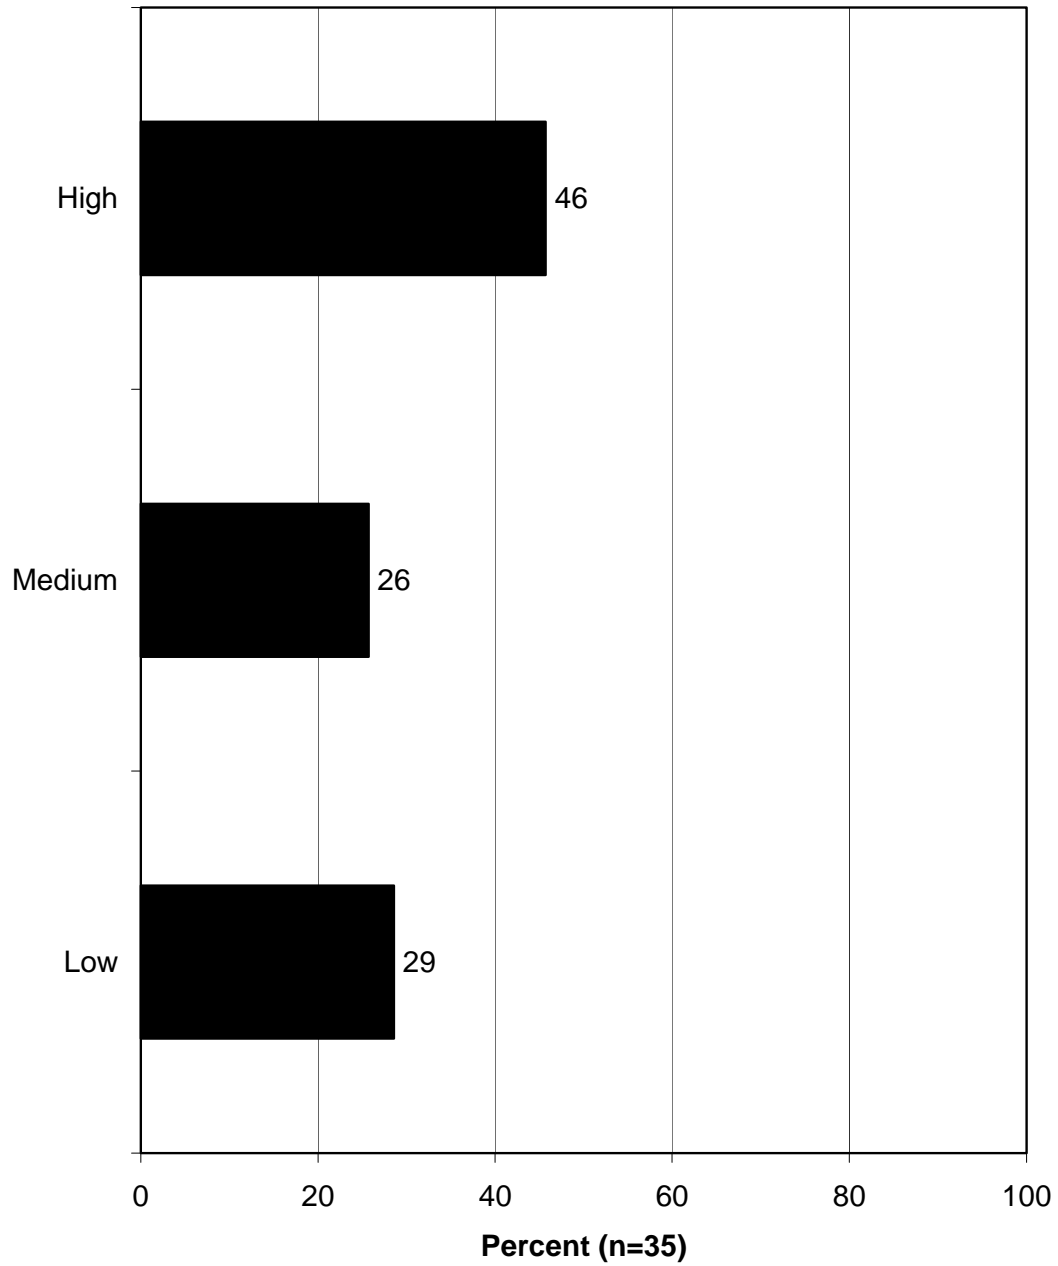

Q207. Do you think there is a high, medium, or low need for coastal training about forestry issues?

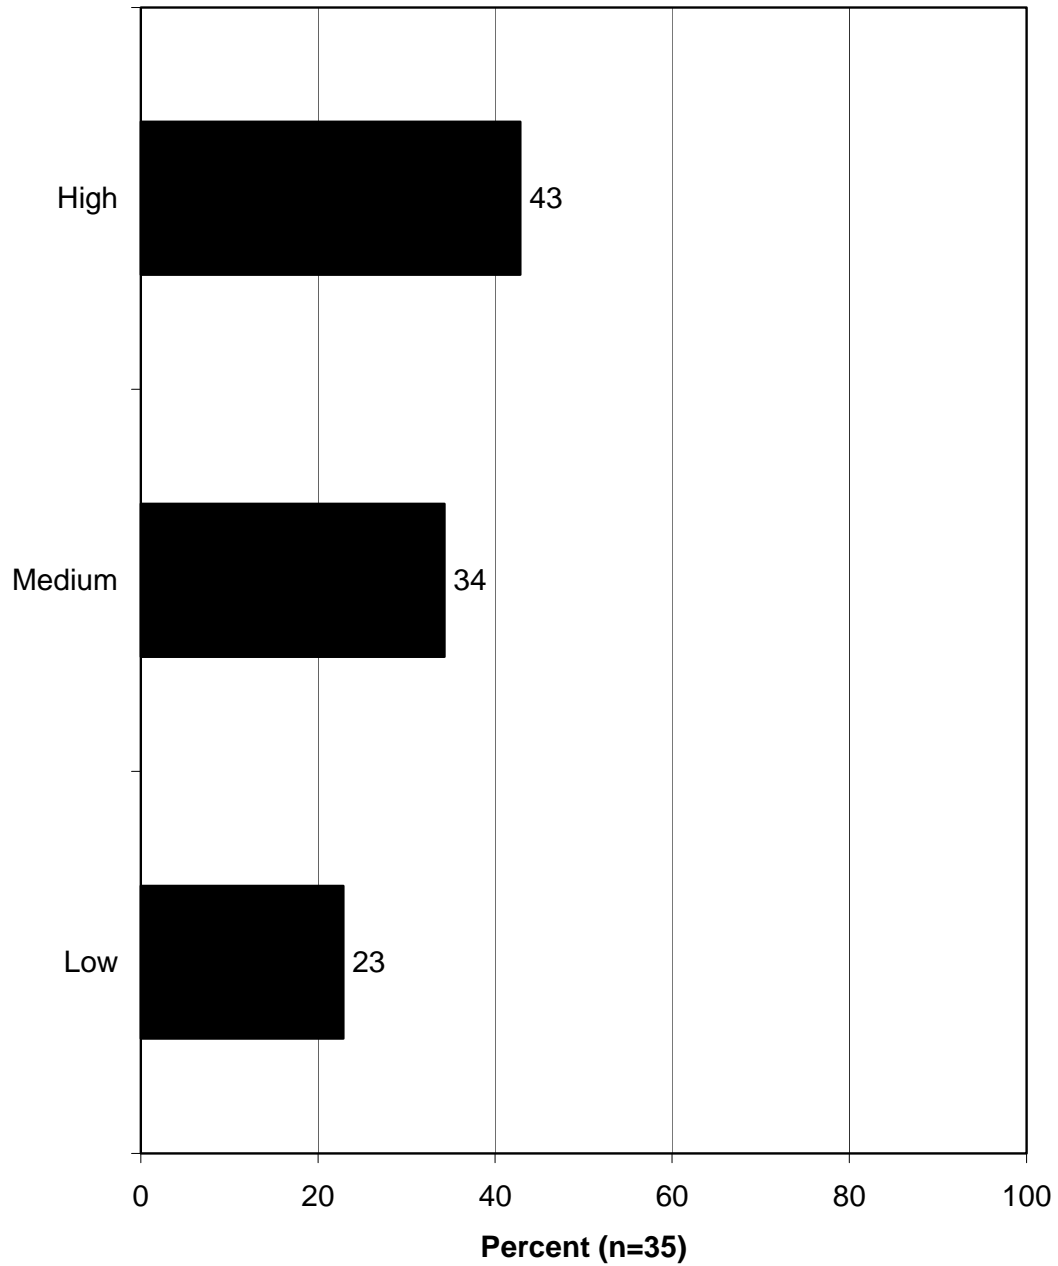

Q208. Do you think there is a high, medium, or low need for coastal training about environmental technologies?

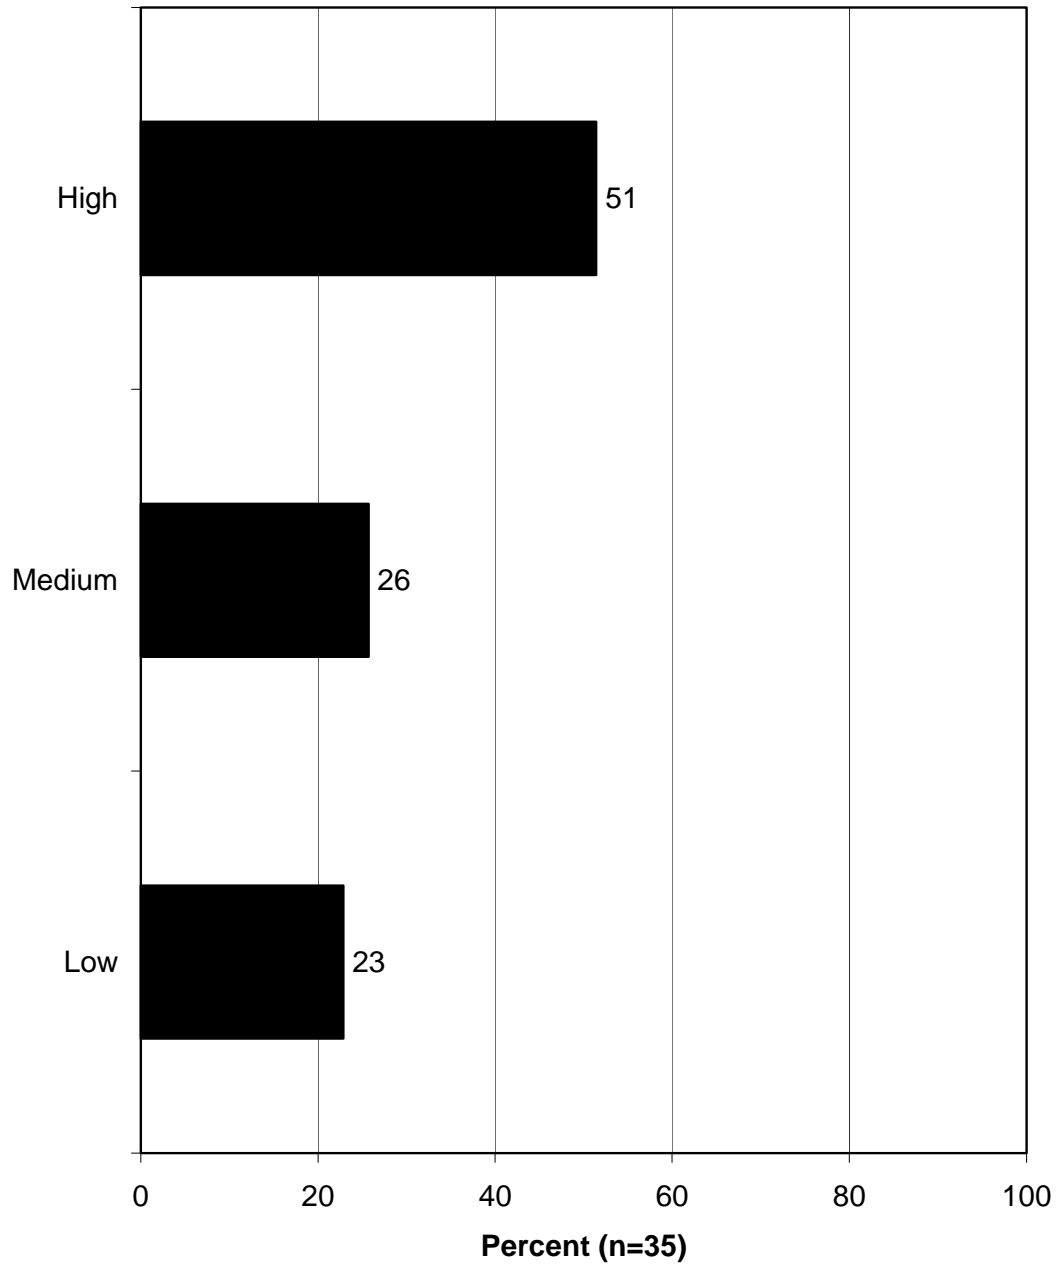

Q209. Do you think there is a high, medium, or low need for coastal training about economic aspects of land use?

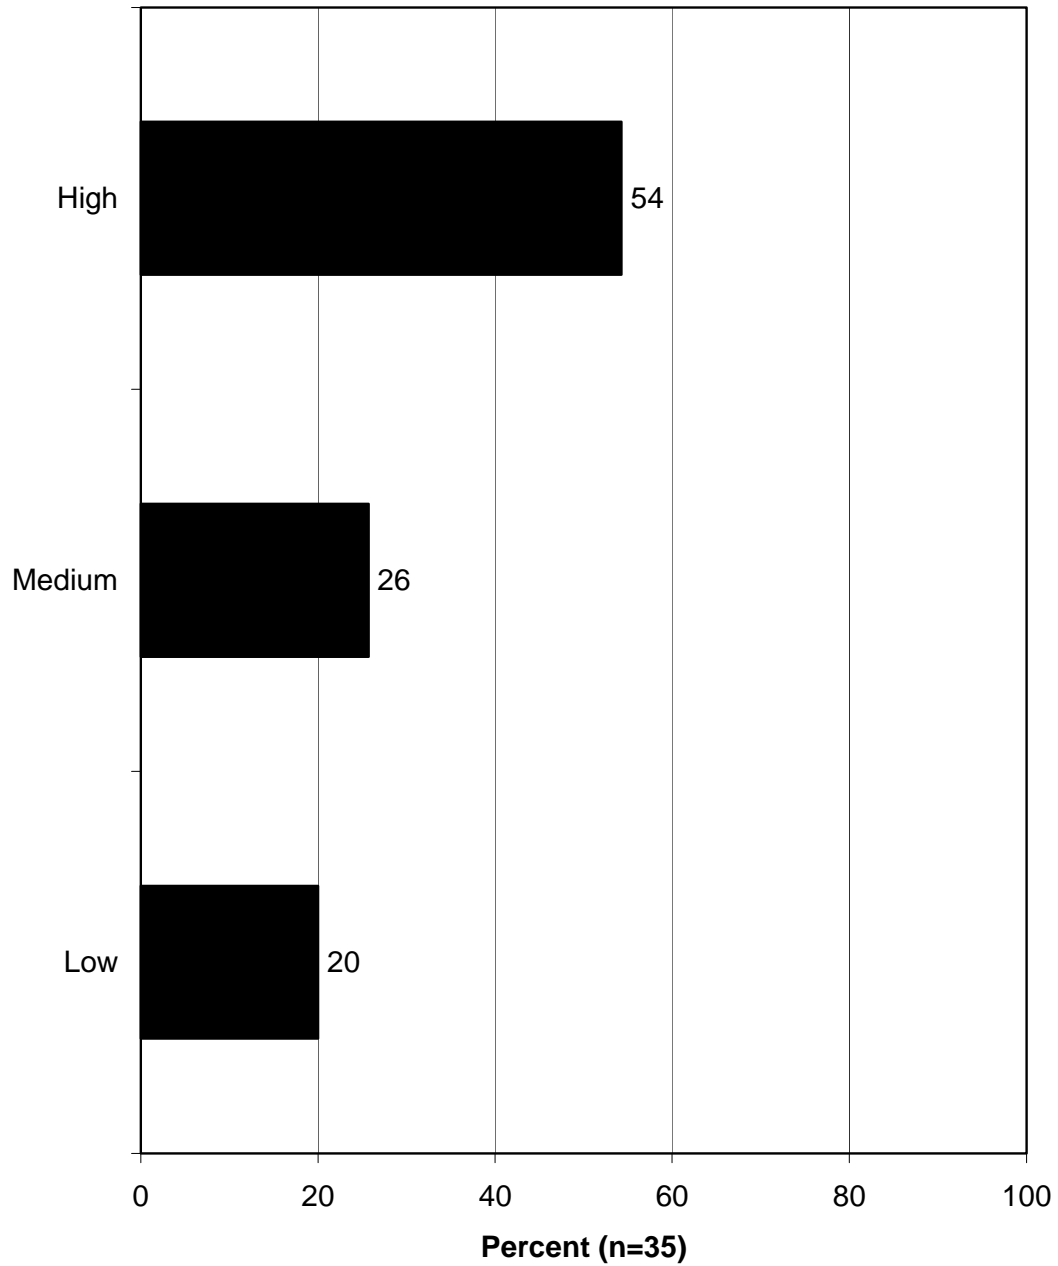

Q210. Do you think there is a high, medium, or low need for coastal training about real estate issues?

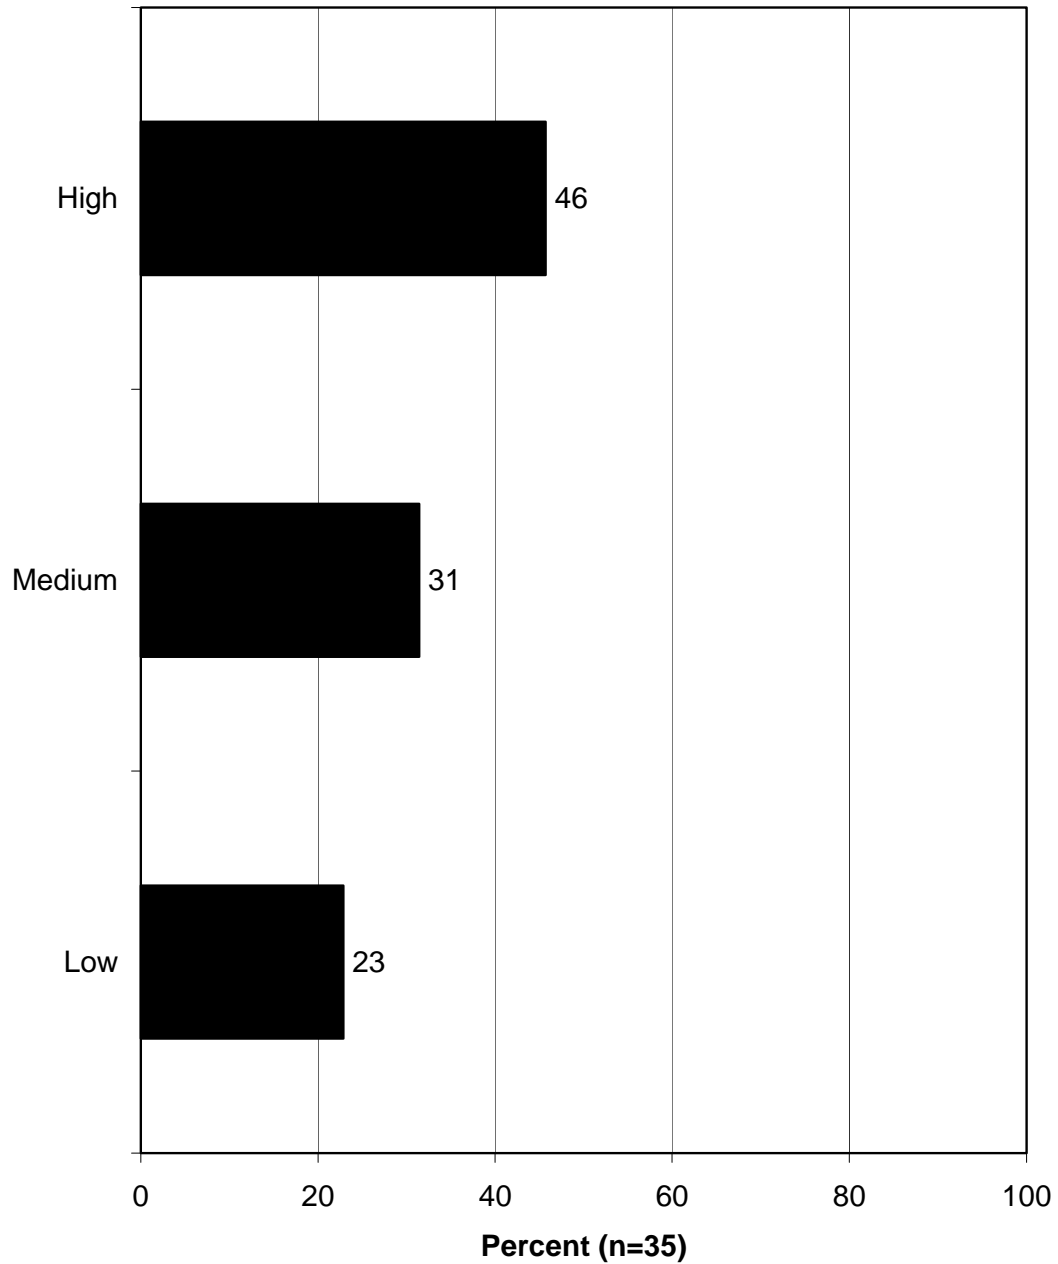

Q211. Do you think there is a high, medium, or low need for coastal training about social aspects of land use?

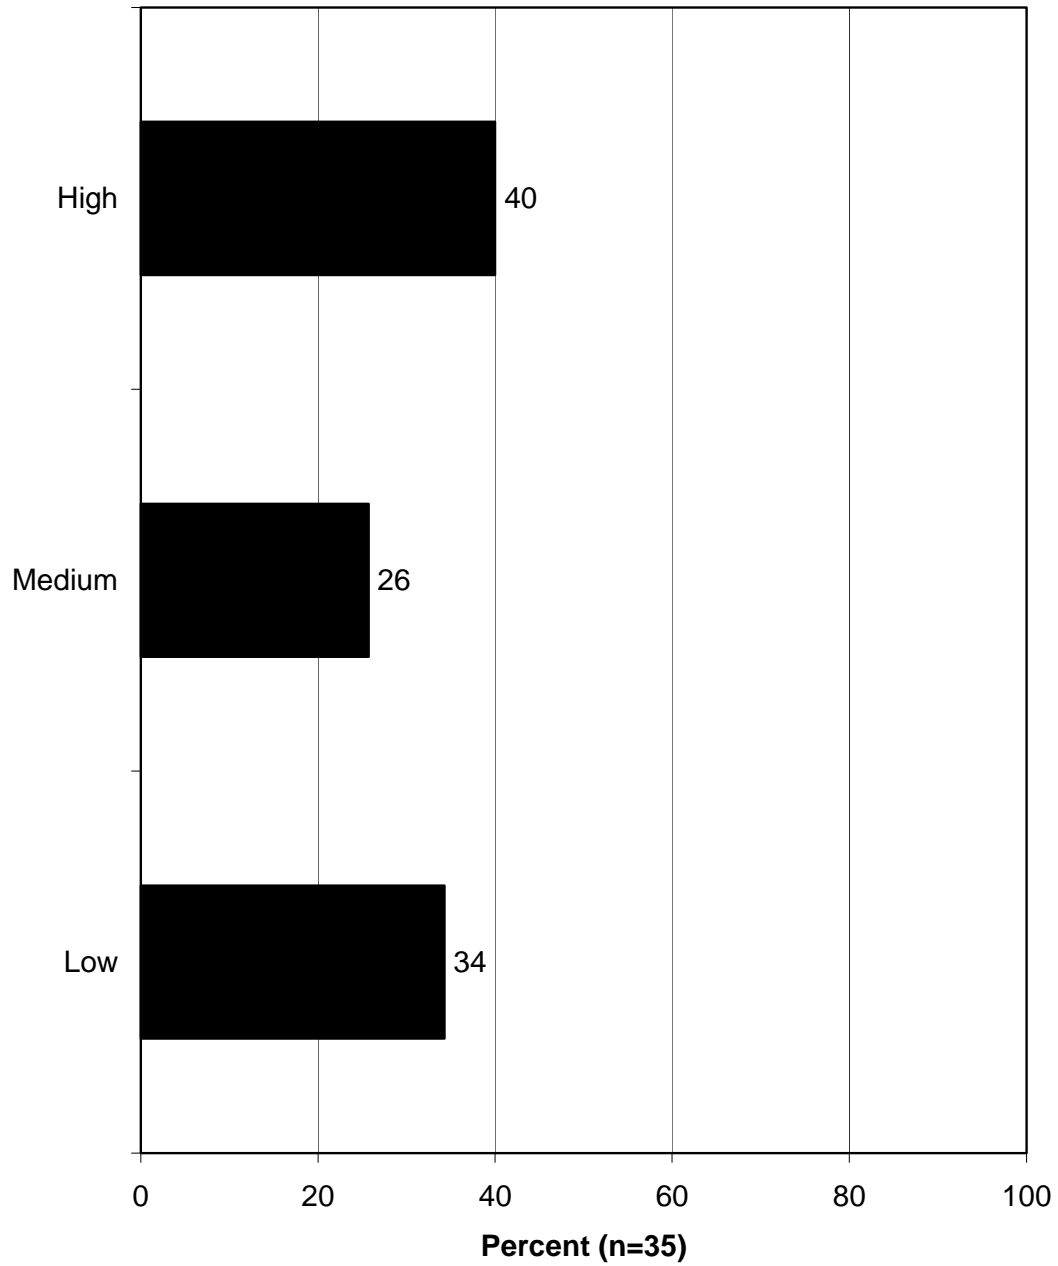

Q212. Do you think there is a high, medium, or low need for coastal training about renewable energy?

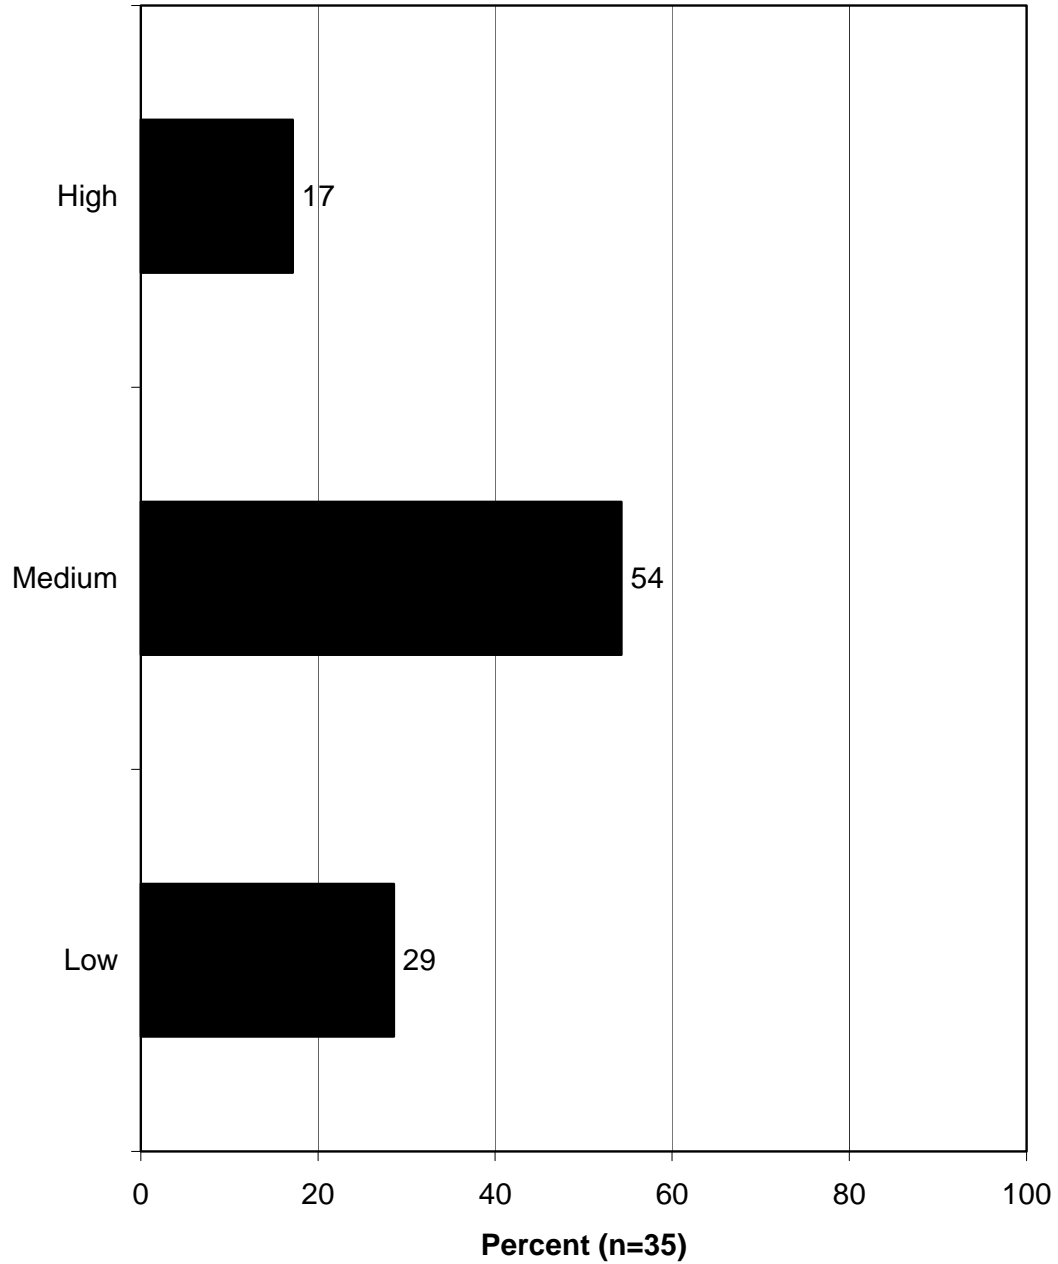

Q213. Do you think there is a high, medium, or low need for coastal training about land trusts and conservation acquisitions?

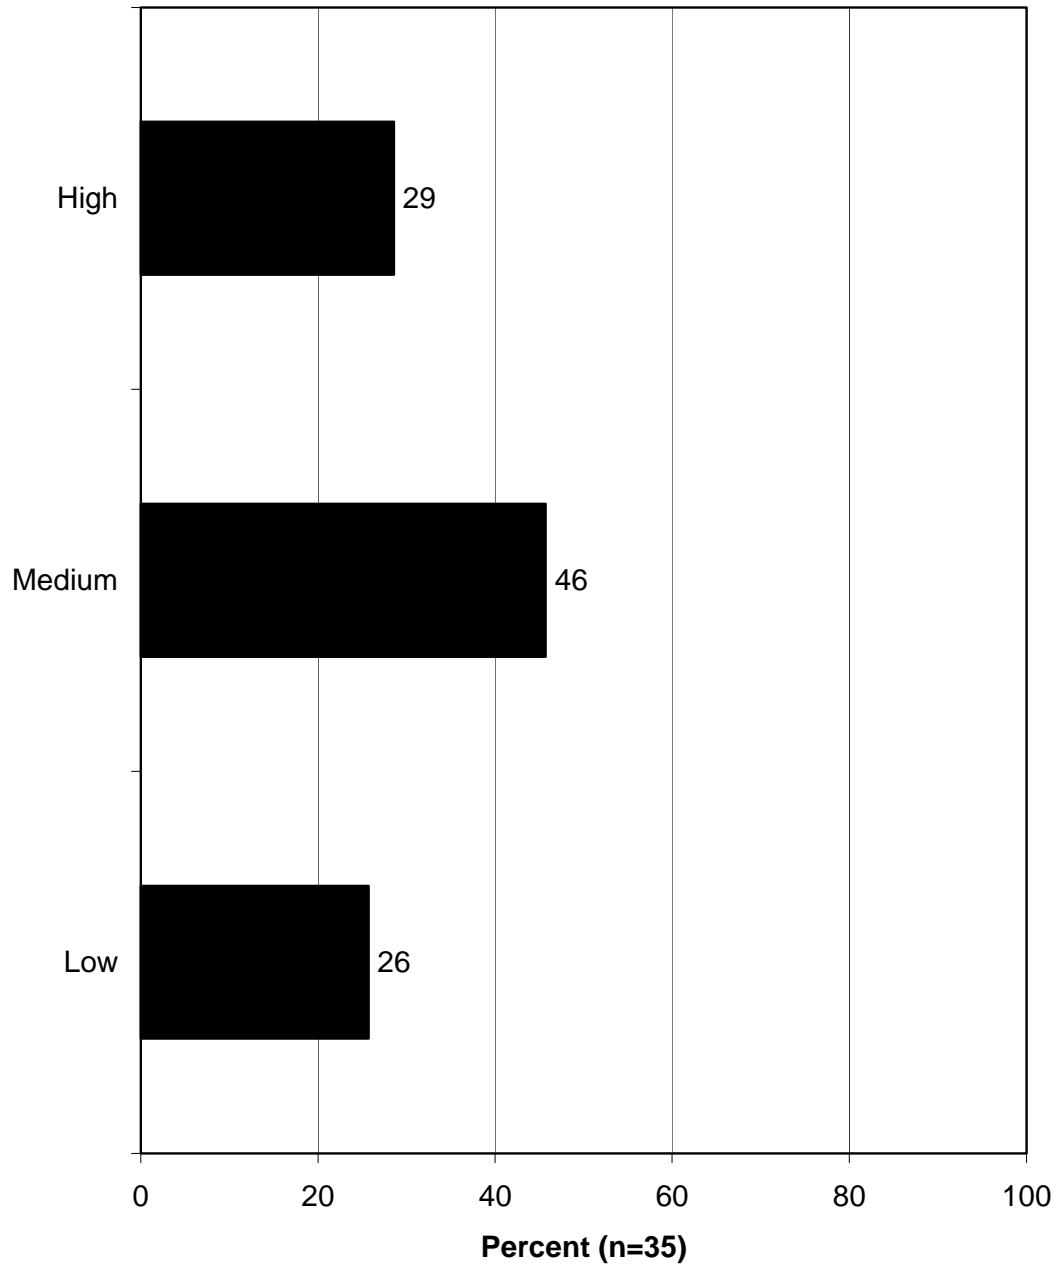

Q214. Do you think there is a high, medium, or low need for coastal training about mineral, oil and natural gas extraction?

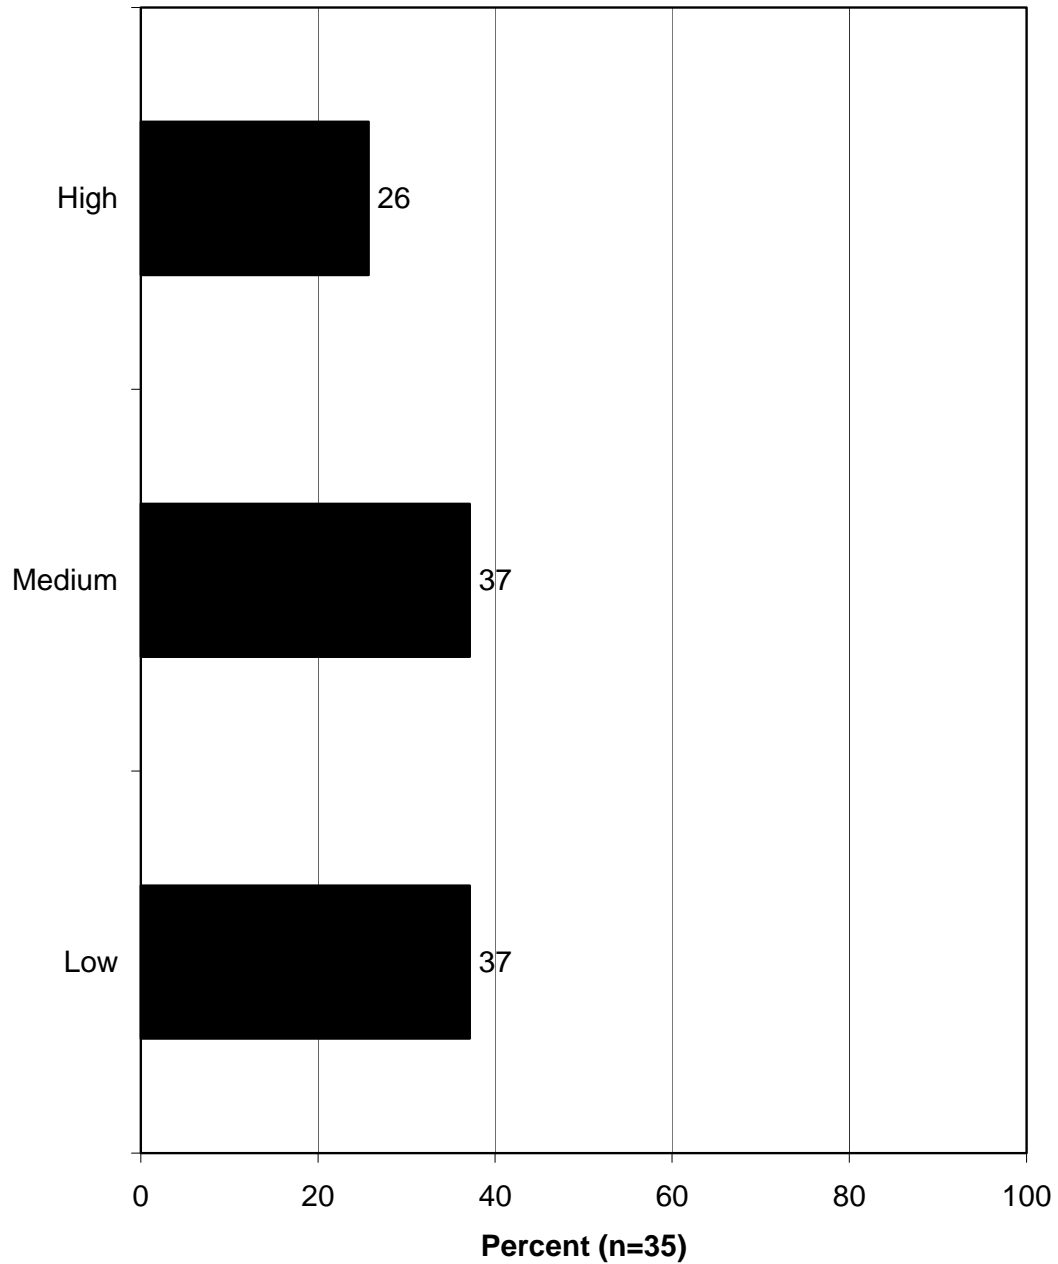

Q215. Do you think there is a high, medium, or low need for coastal training about ocean forecasting?

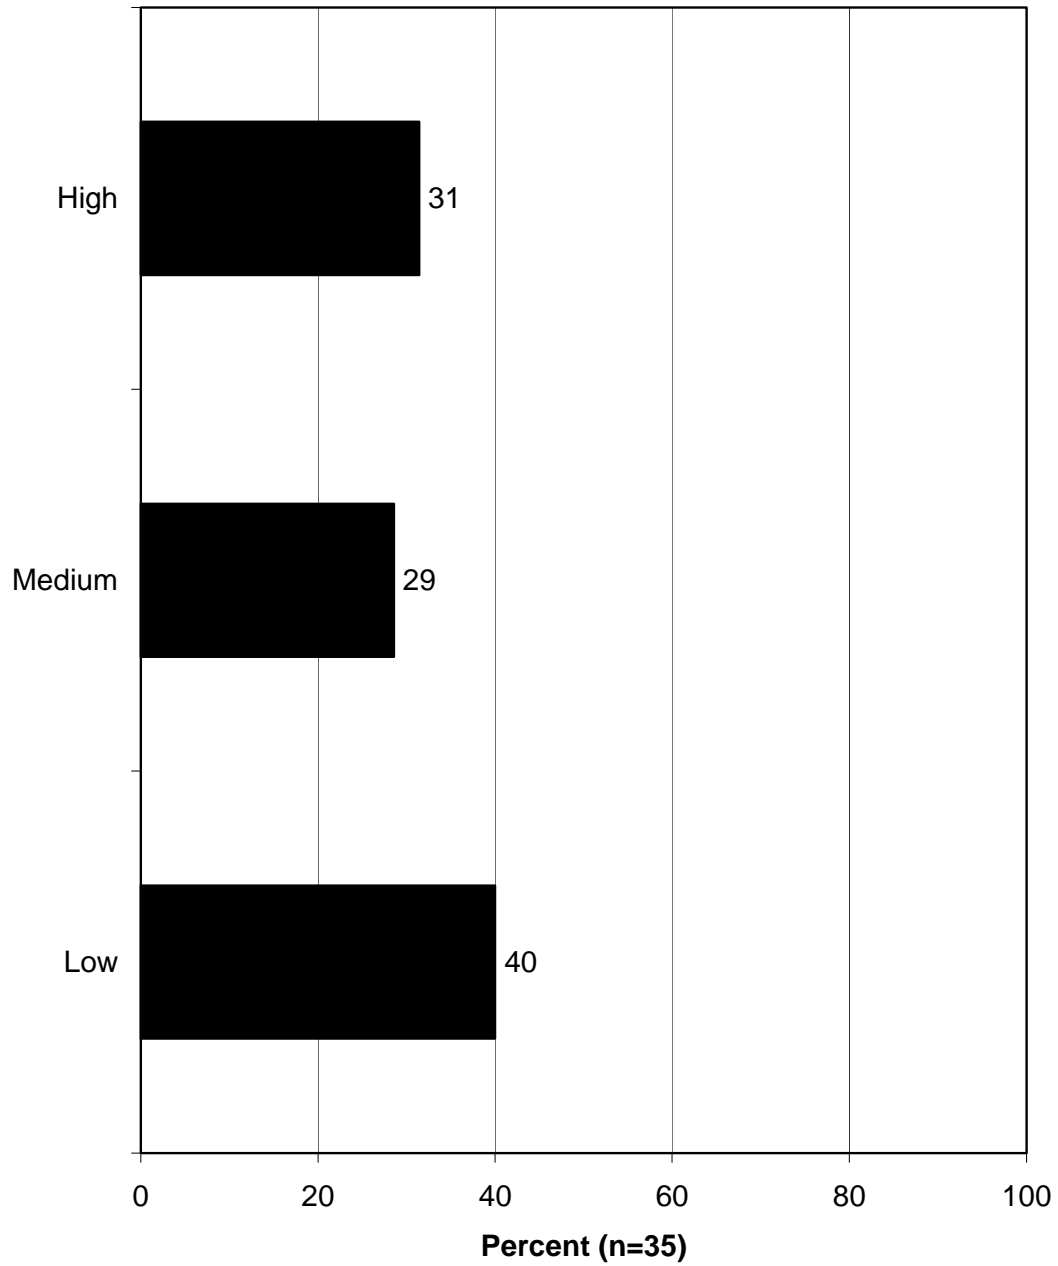

Q216. Do you think there is a high, medium, or low need for coastal training about climate prediction?

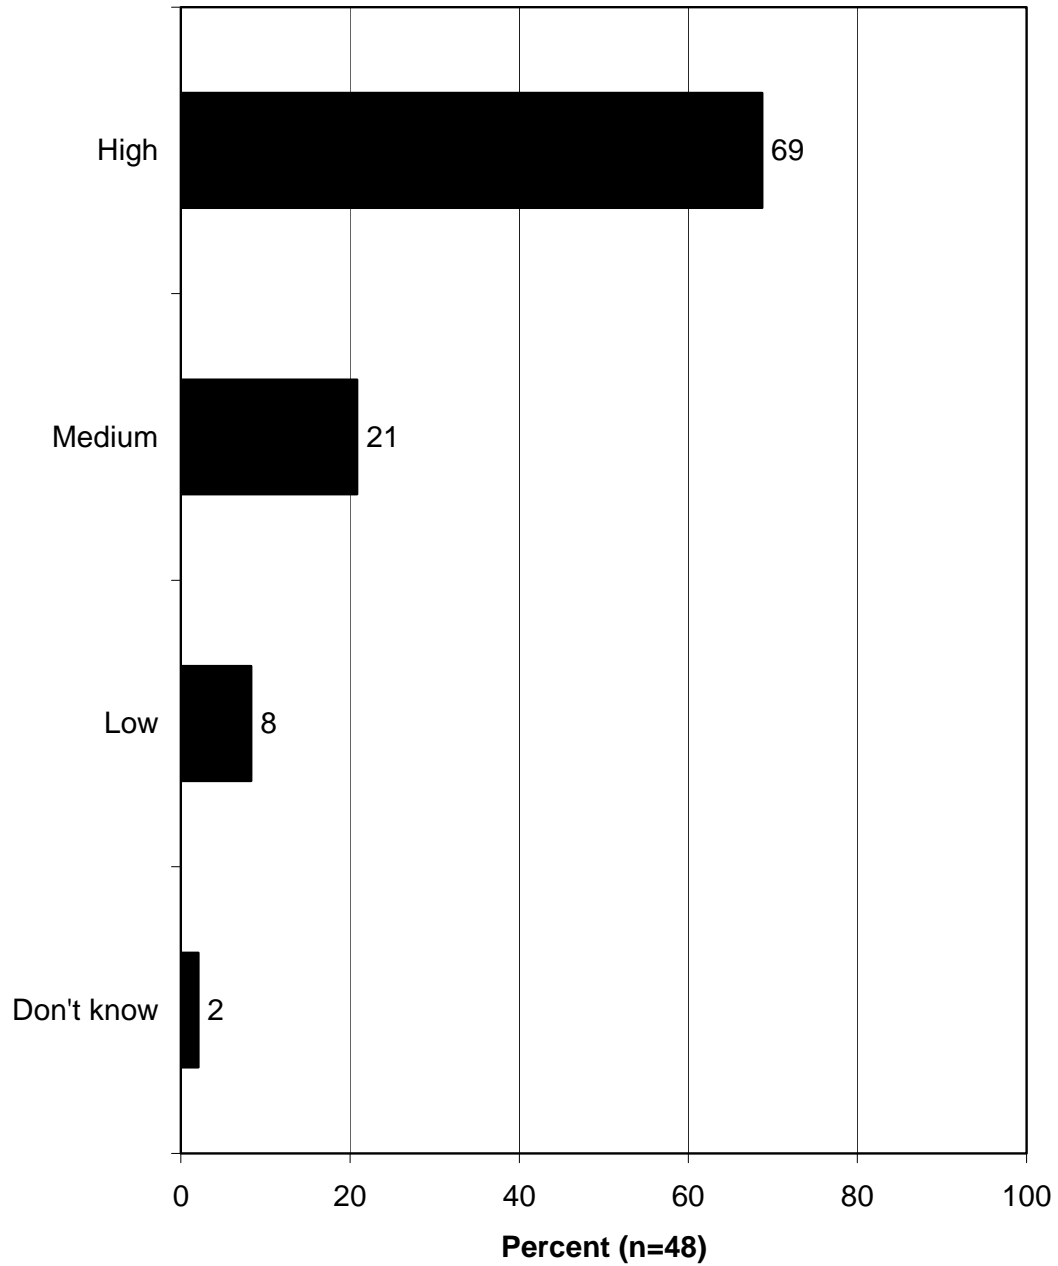

Q217. Do you think there is a high, medium, or low need for coastal training about biogeochemical predictors of ocean-atmosphere conditions?

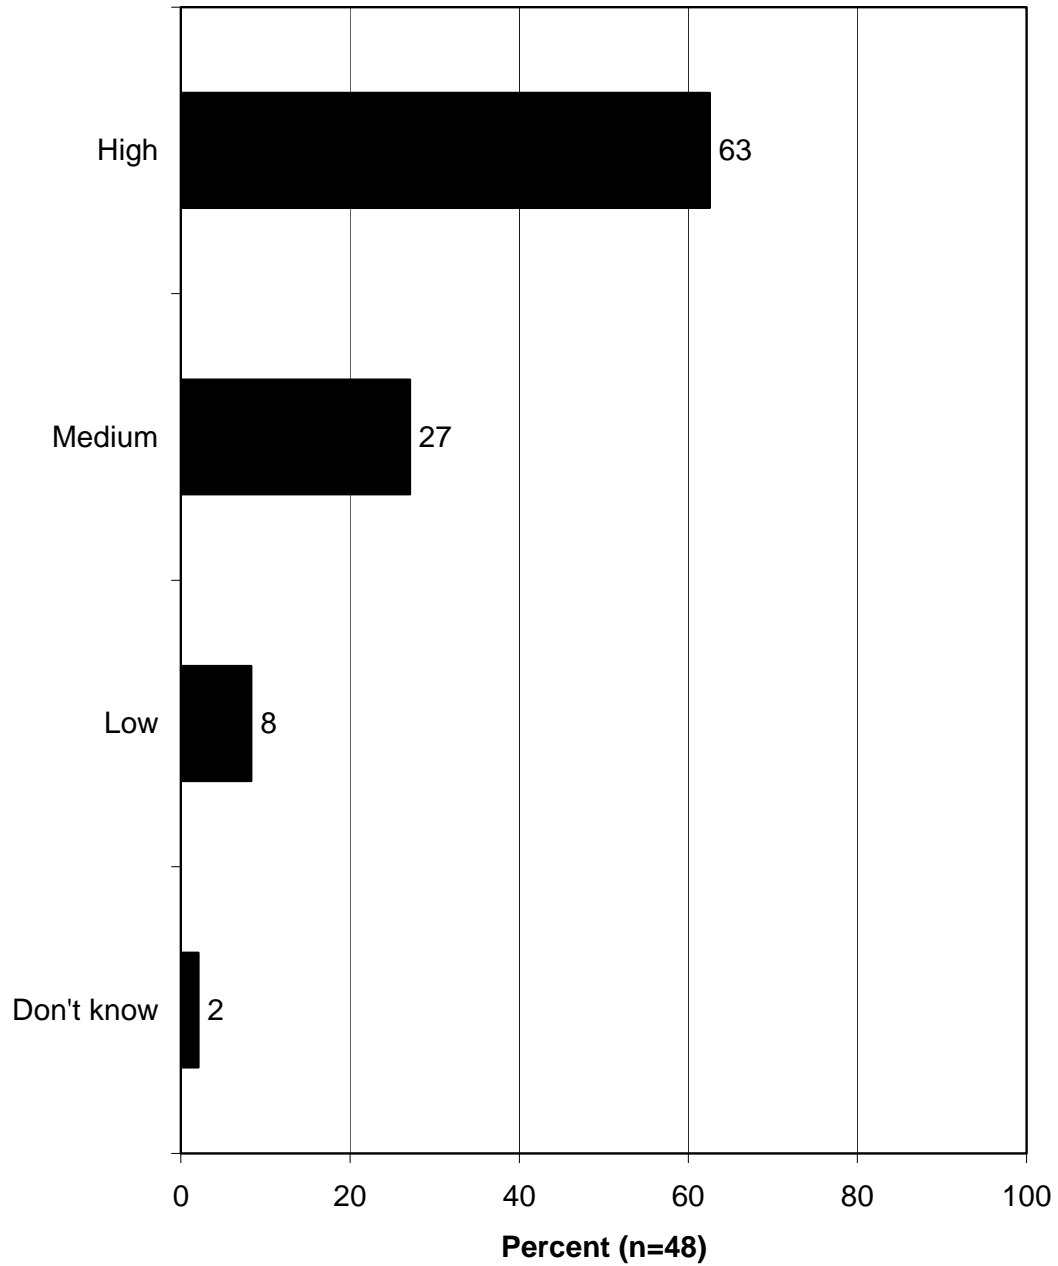

Q218. Do you think there is a high, medium, or low need for coastal training about ocean surface optical properties?

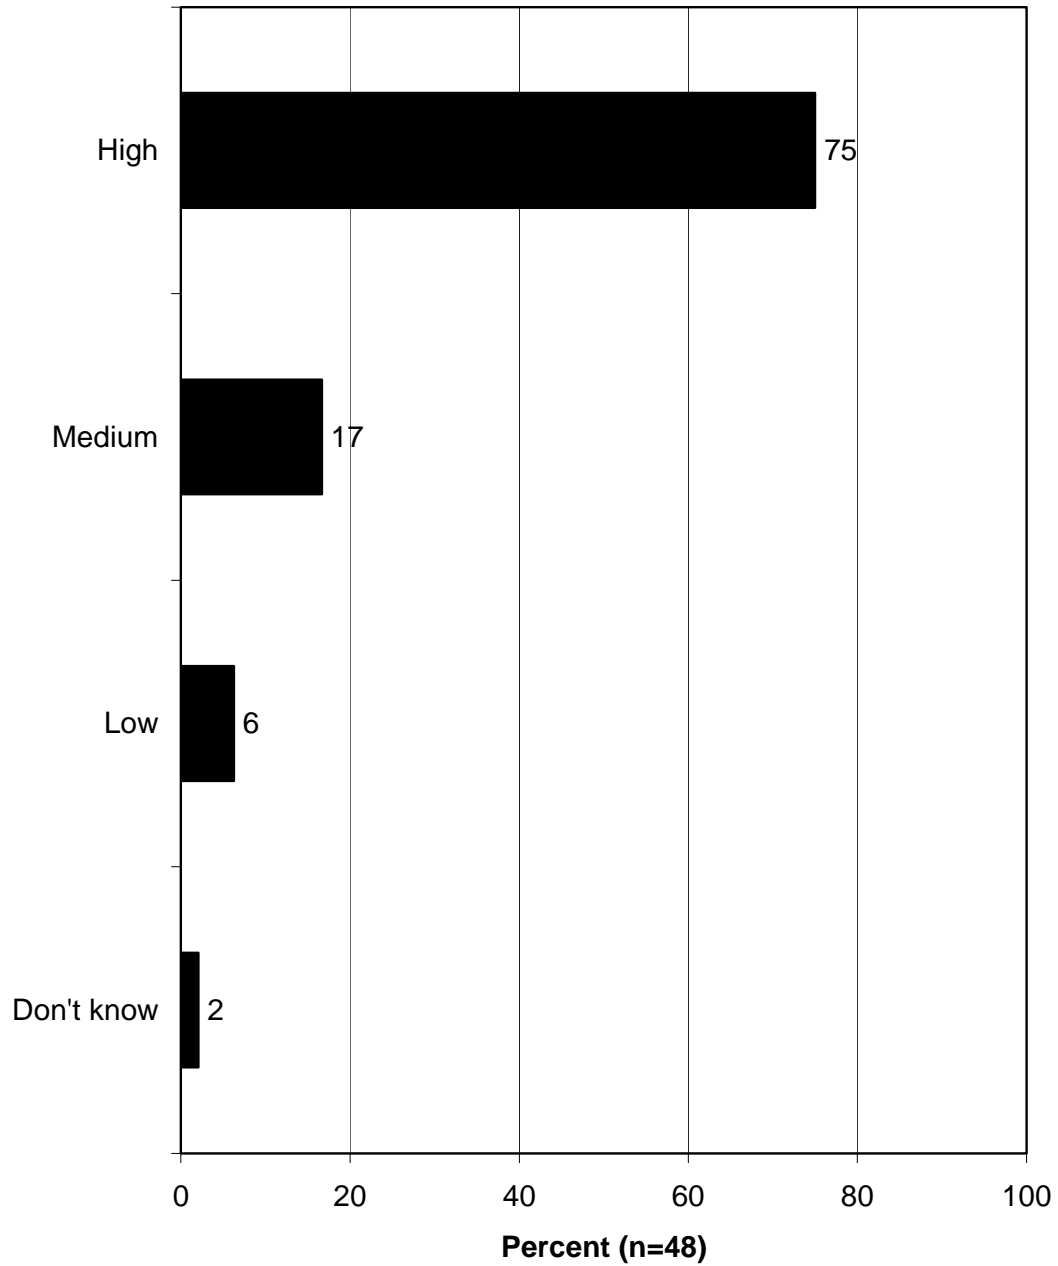

Q257. Do you think there is a high, medium, or low need for city/town council members to receive coastal resource education/outreach in New Jersey?

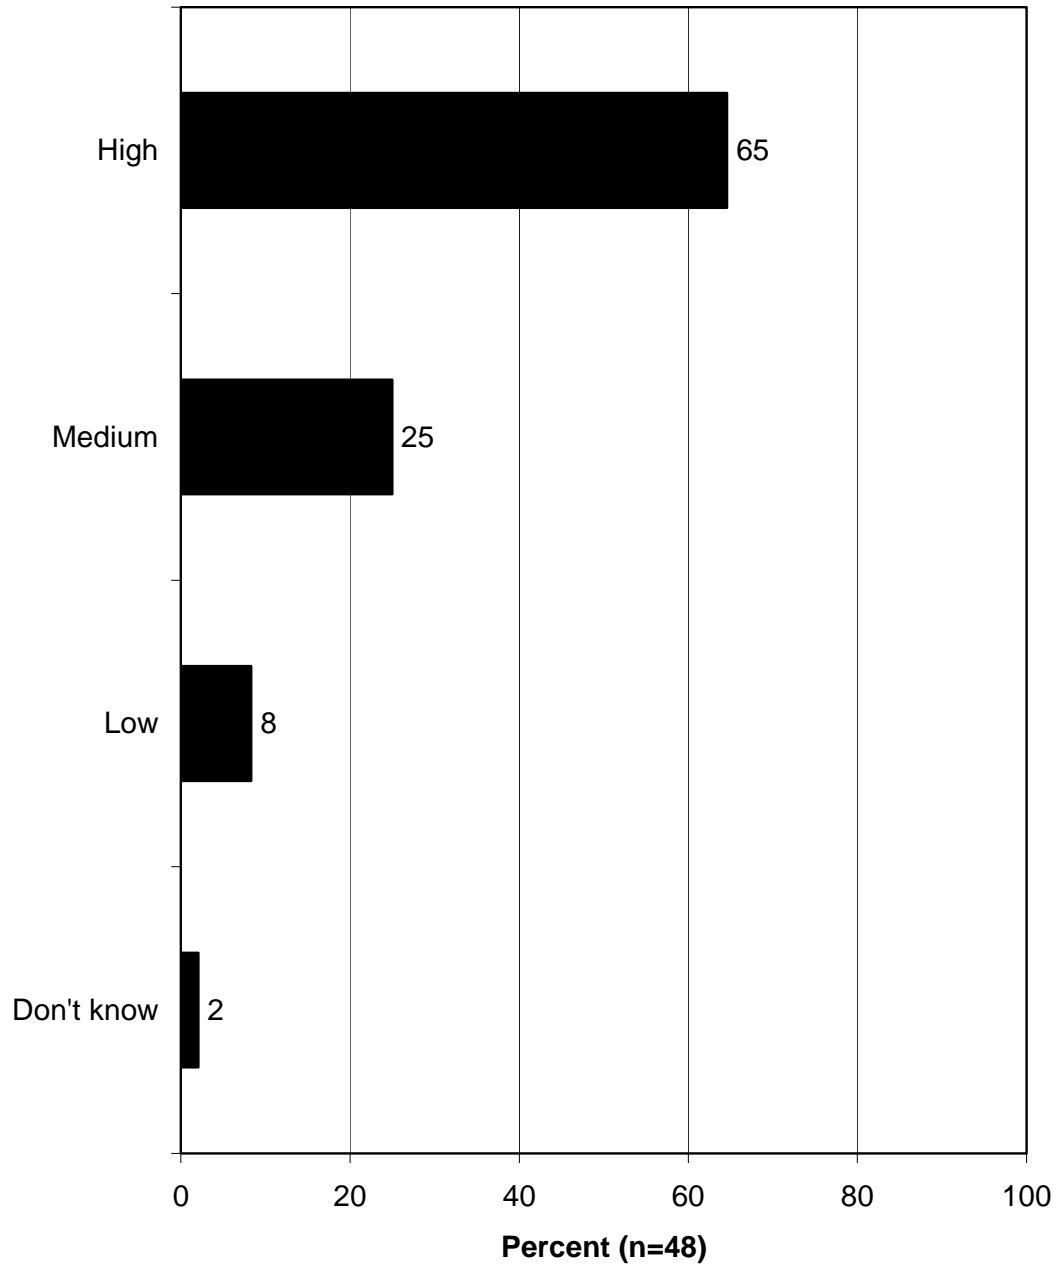

Q258. Do you think there is a high, medium, or low need for county commissioners to receive coastal resource education/outreach in New Jersey?

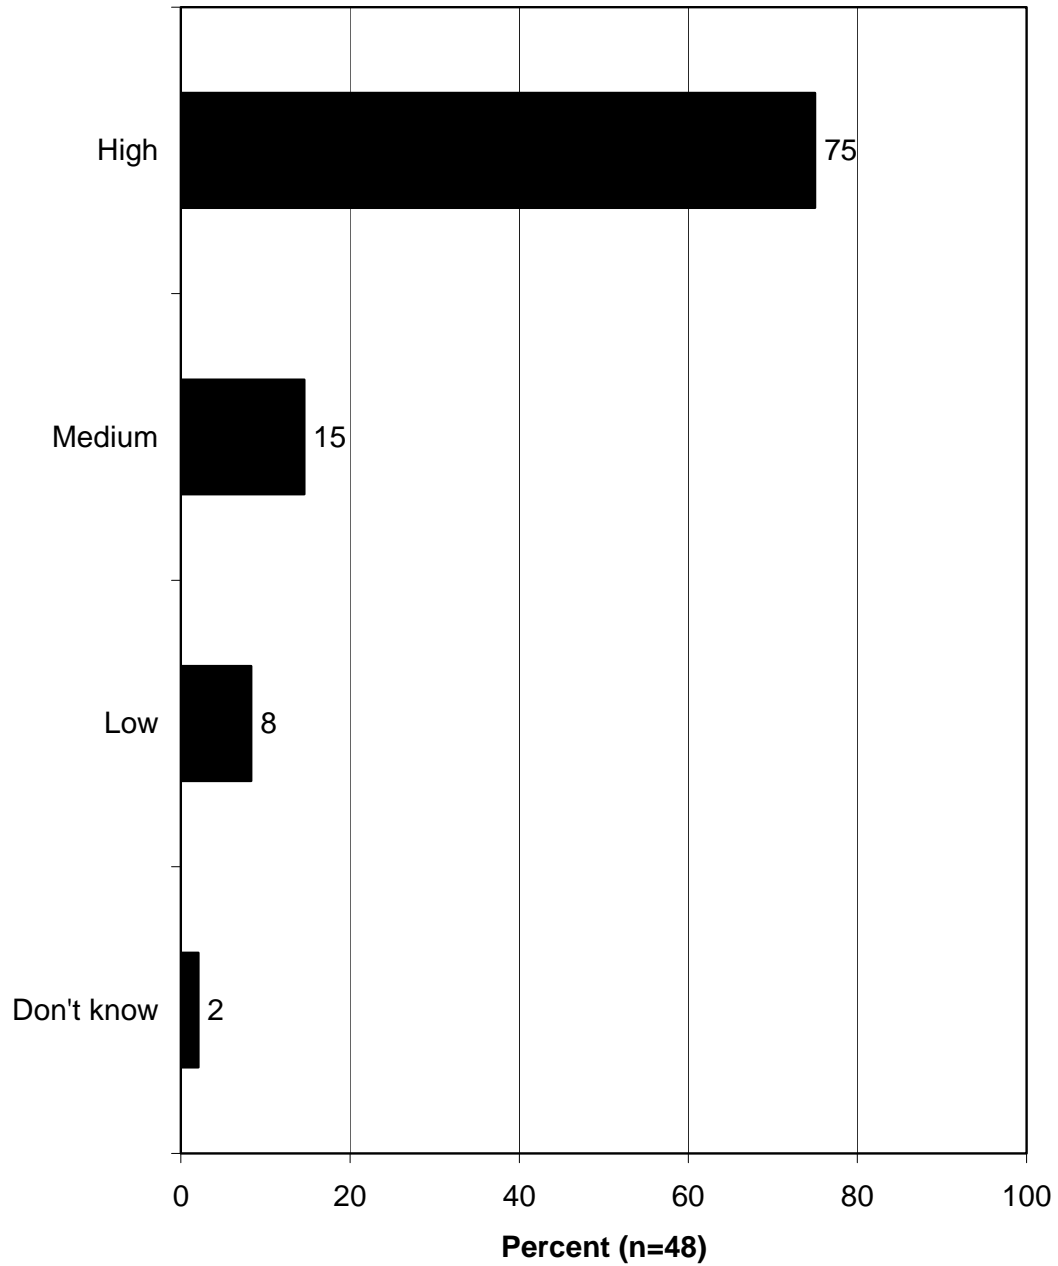

Q259. Do you think there is a high, medium, or low need for planning commission members to receive coastal resource education/outreach in New Jersey?

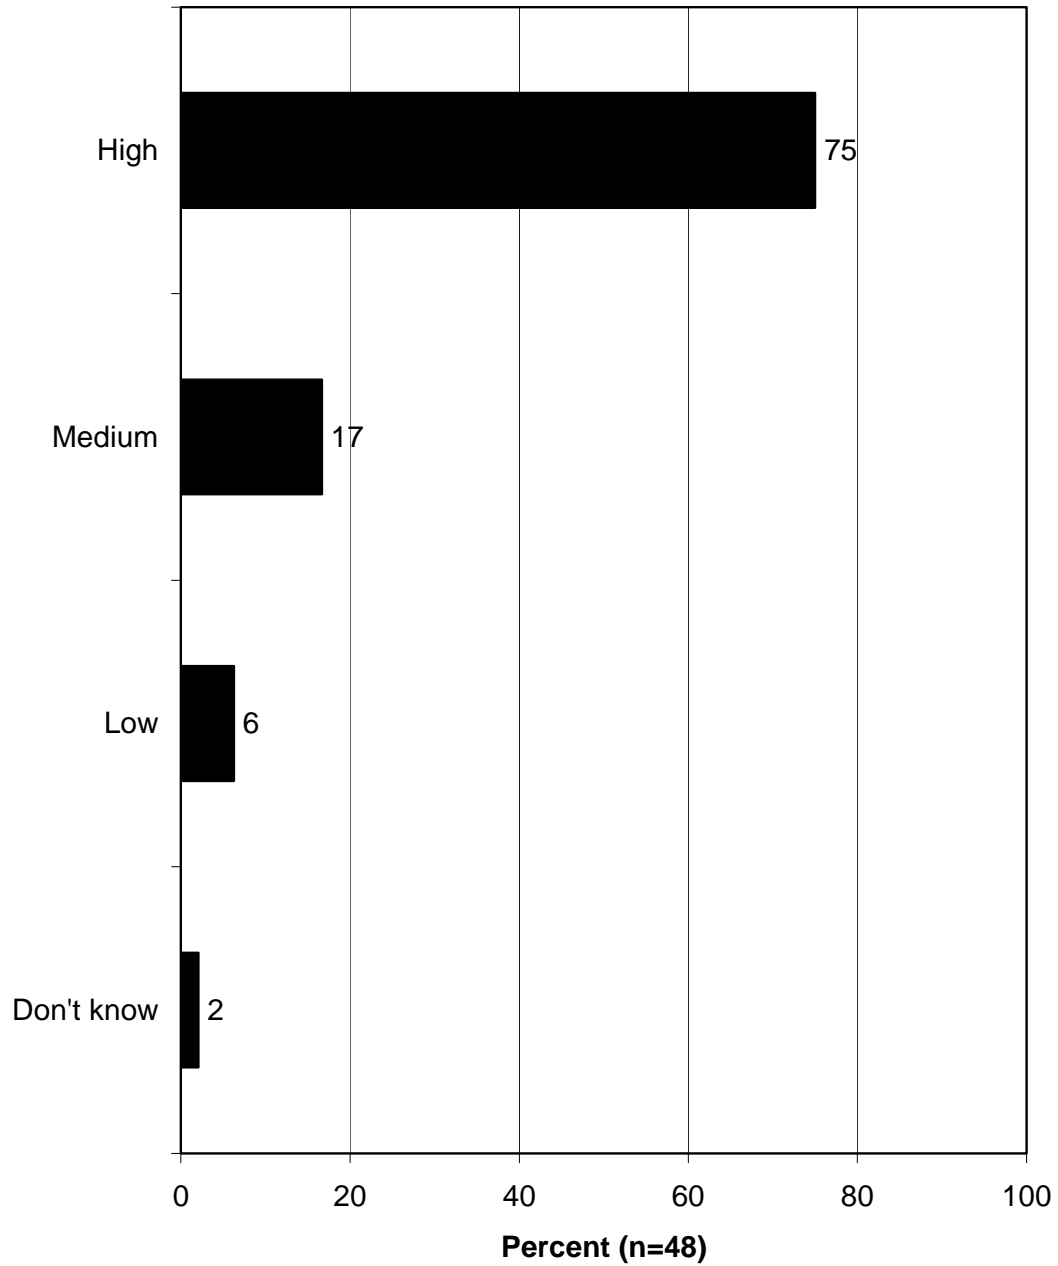

Q260. Do you think there is a high, medium, or low need for city/town managers to receive coastal resource education/outreach in New Jersey?

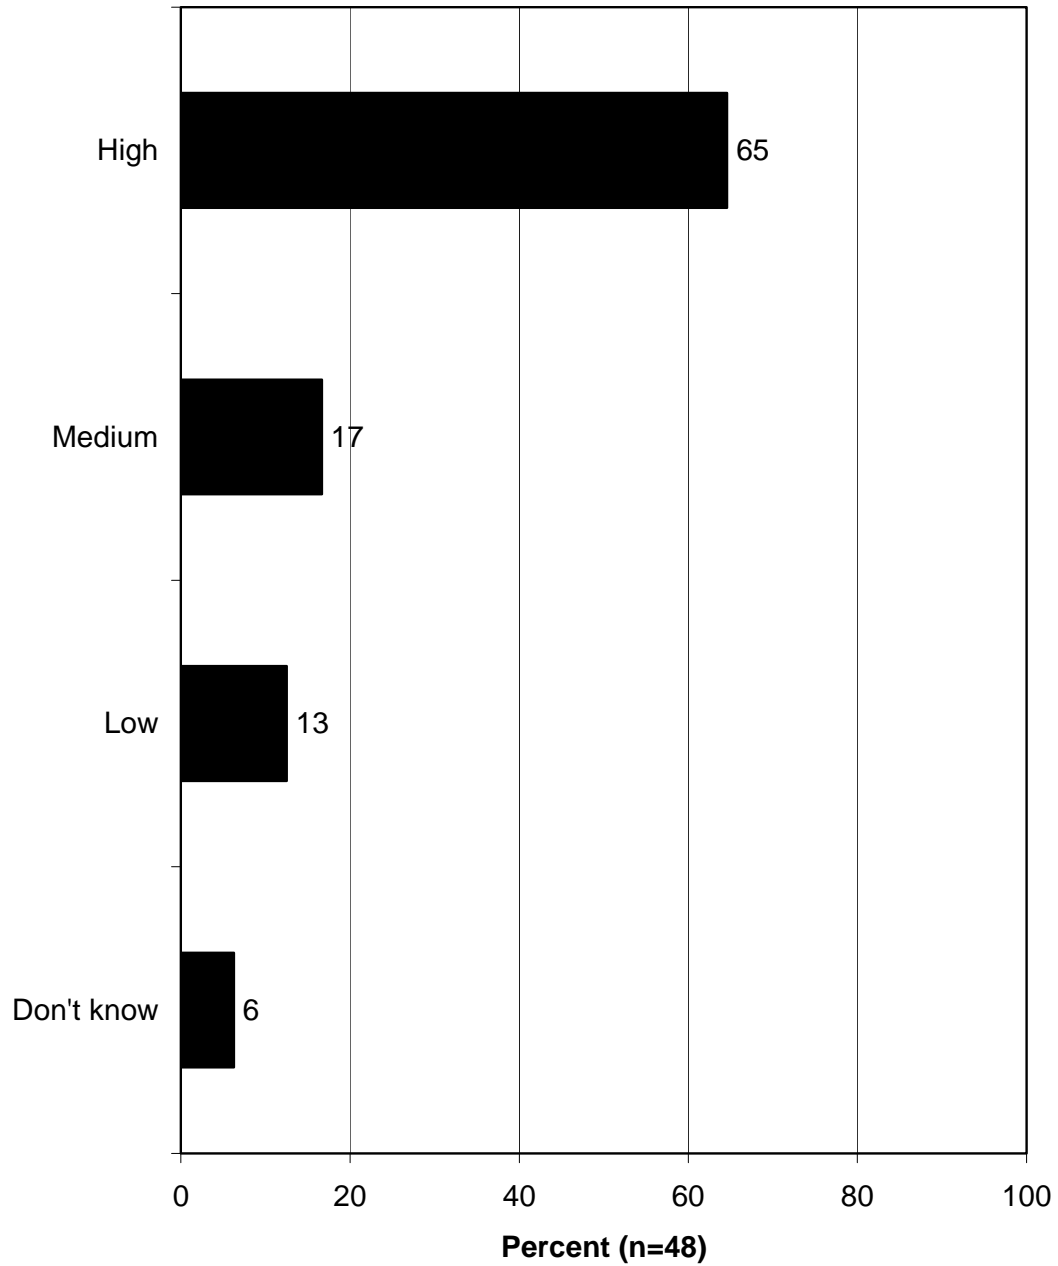

Q261. Do you think there is a high, medium, or low need for city/town planners to receive coastal resource education/outreach in New Jersey?

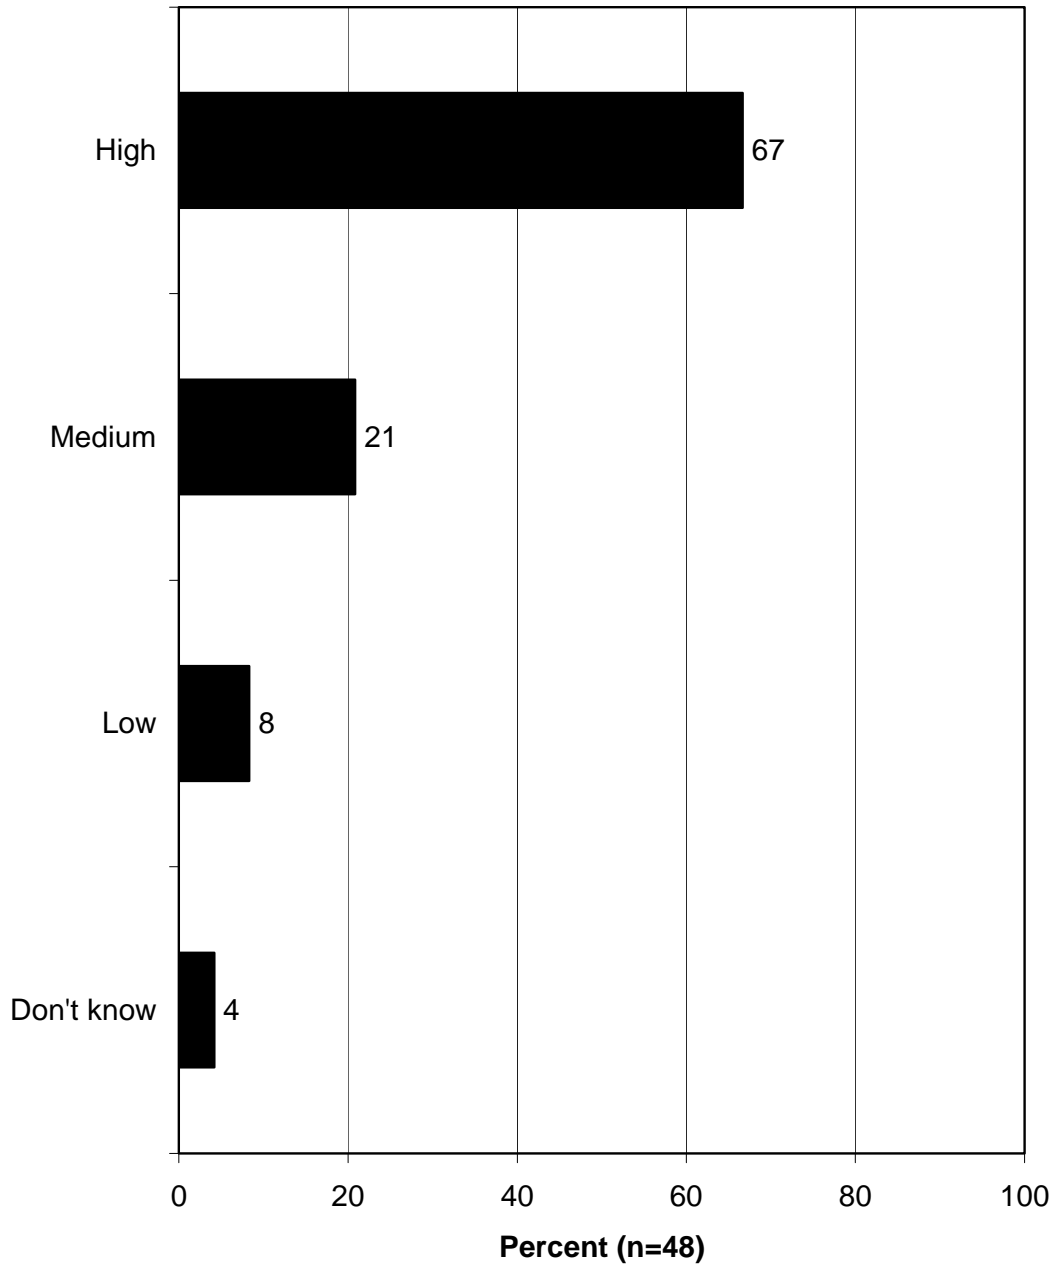

Q262. Do you think there is a high, medium, or low need for city/town engineers to receive coastal resource education/outreach in New Jersey?

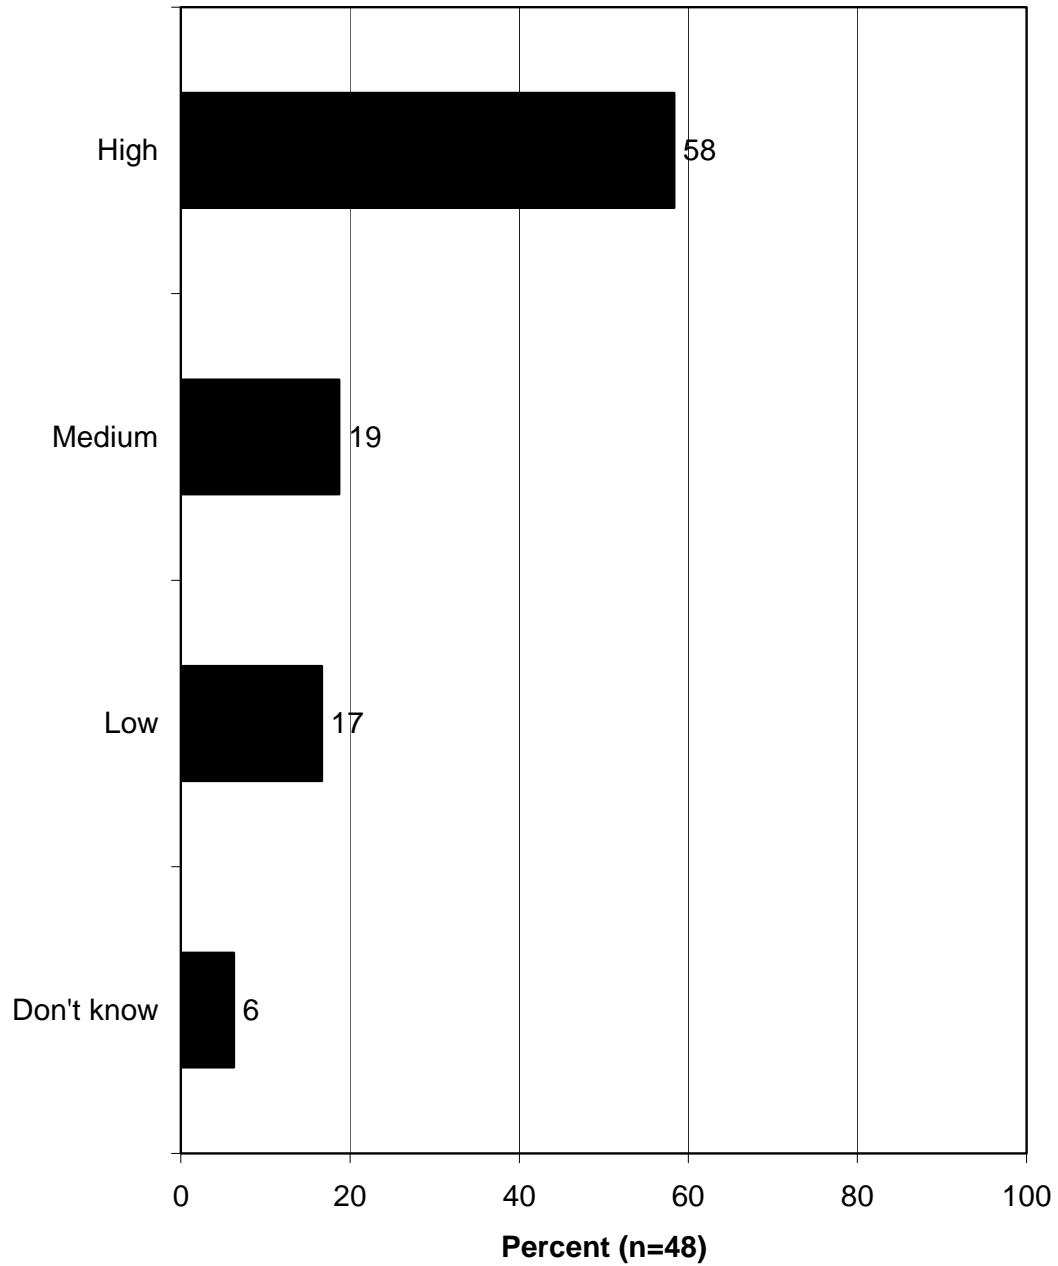

Q263. Do you think there is a high, medium, or low need for code enforcement officers to receive coastal resource education/outreach in New Jersey?

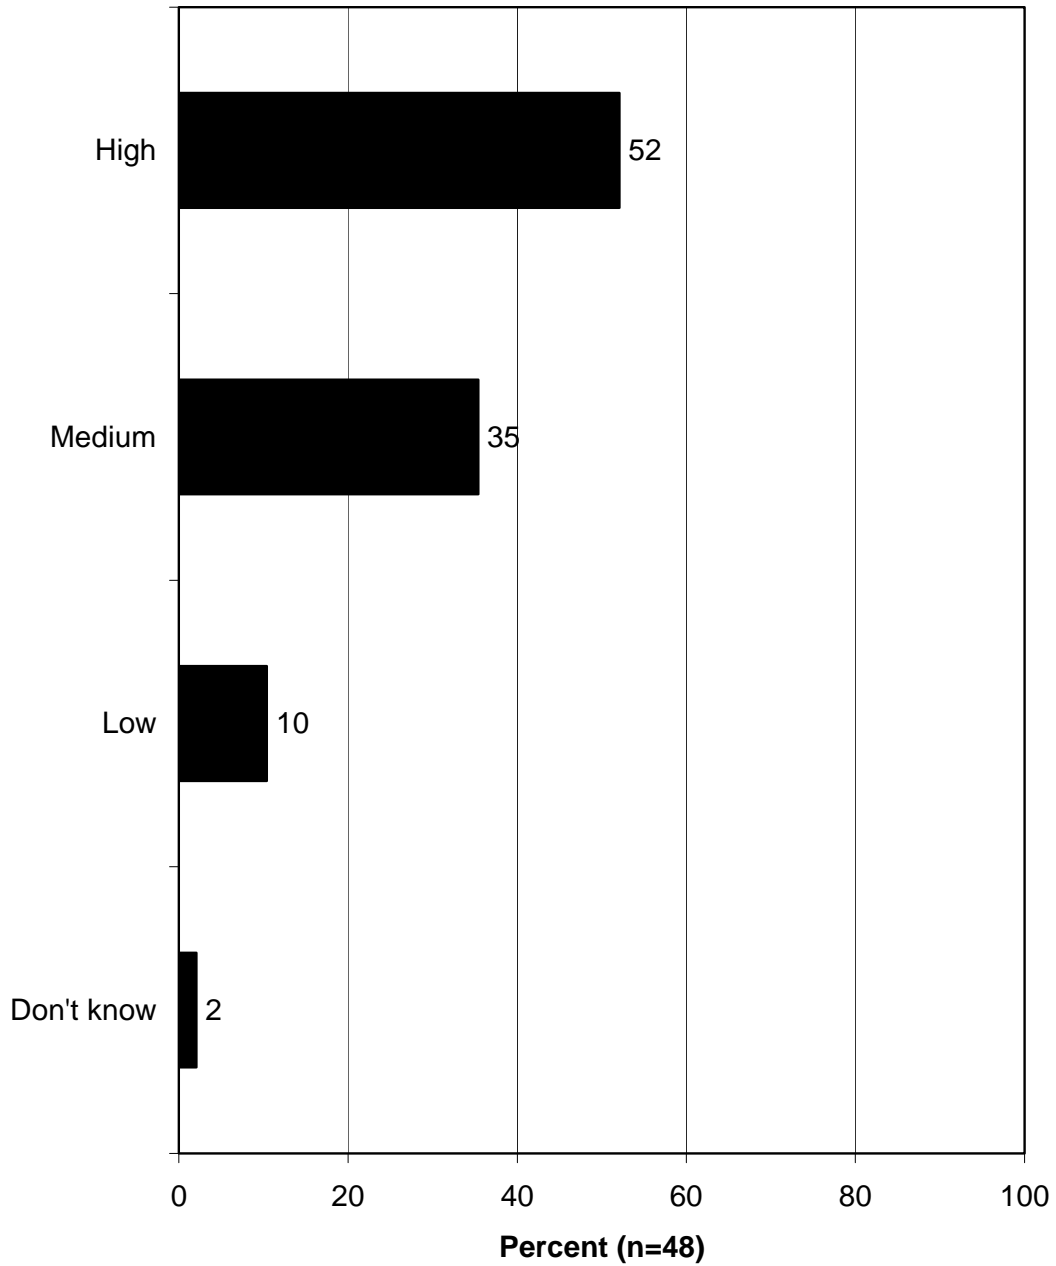

Q264. Do you think there is a high, medium, or low need for environmental health officials to receive coastal resource education/outreach in New Jersey?

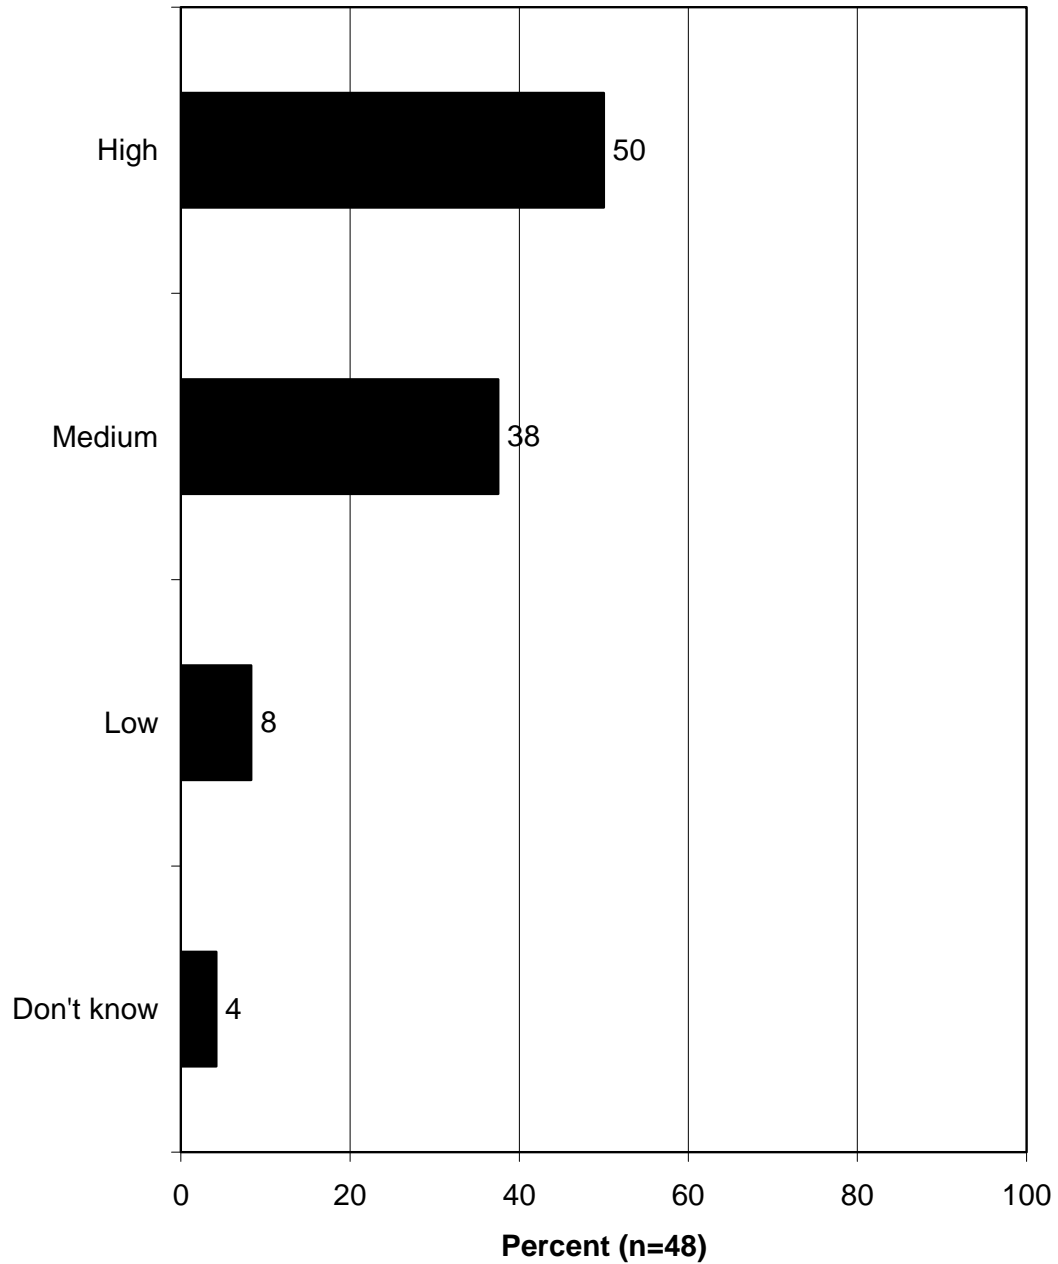

Q265. Do you think there is a high, medium, or low need for transportation officials to receive coastal resource education/outreach in New Jersey?

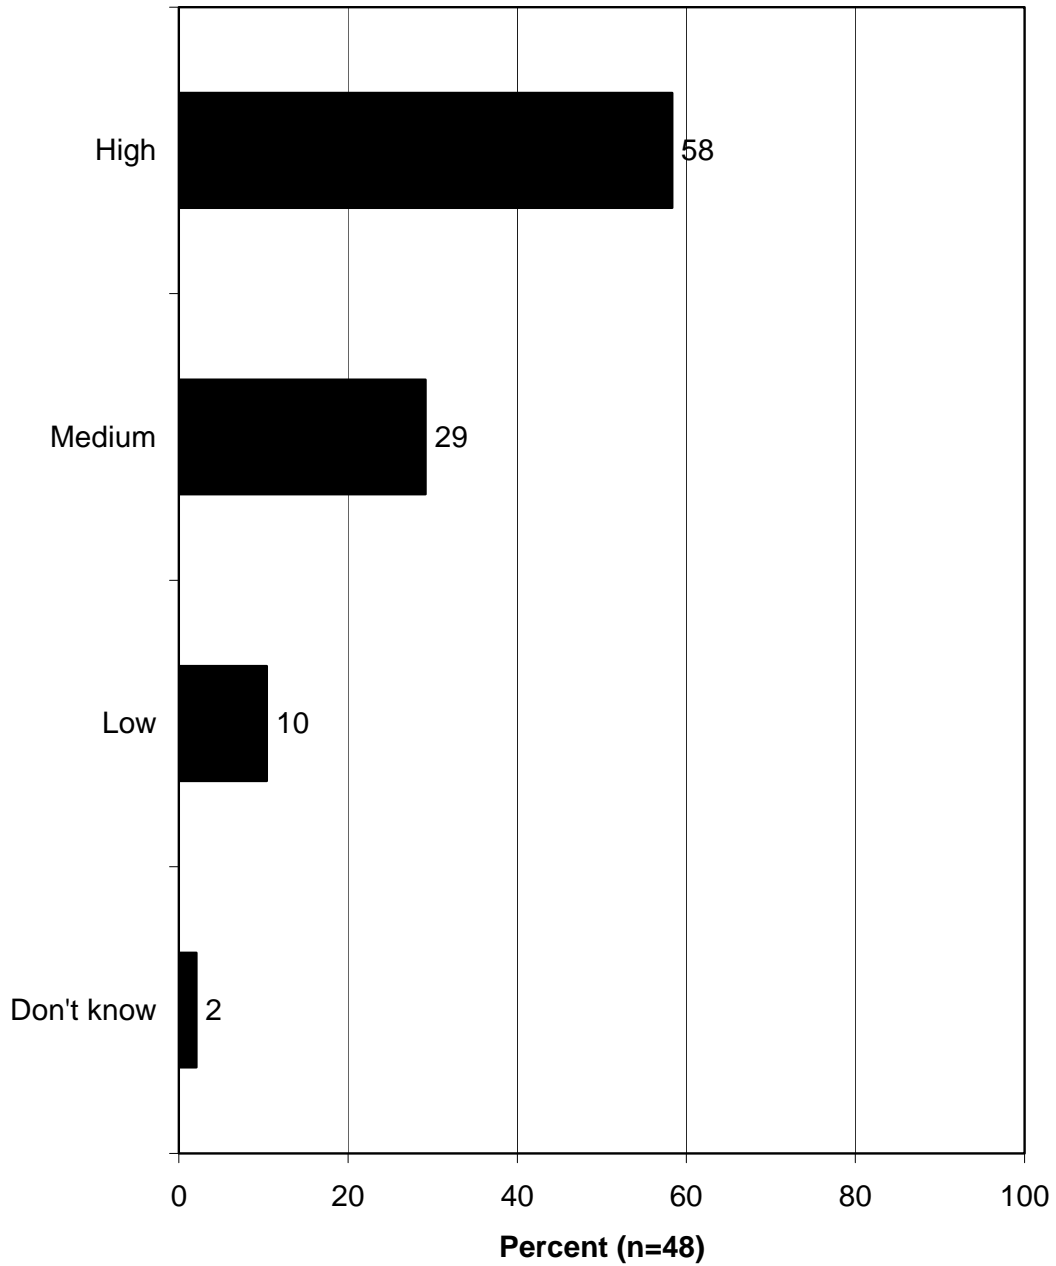

Q266. Do you think there is a high, medium, or low need for conservation commissions to receive coastal resource education/outreach in New Jersey?

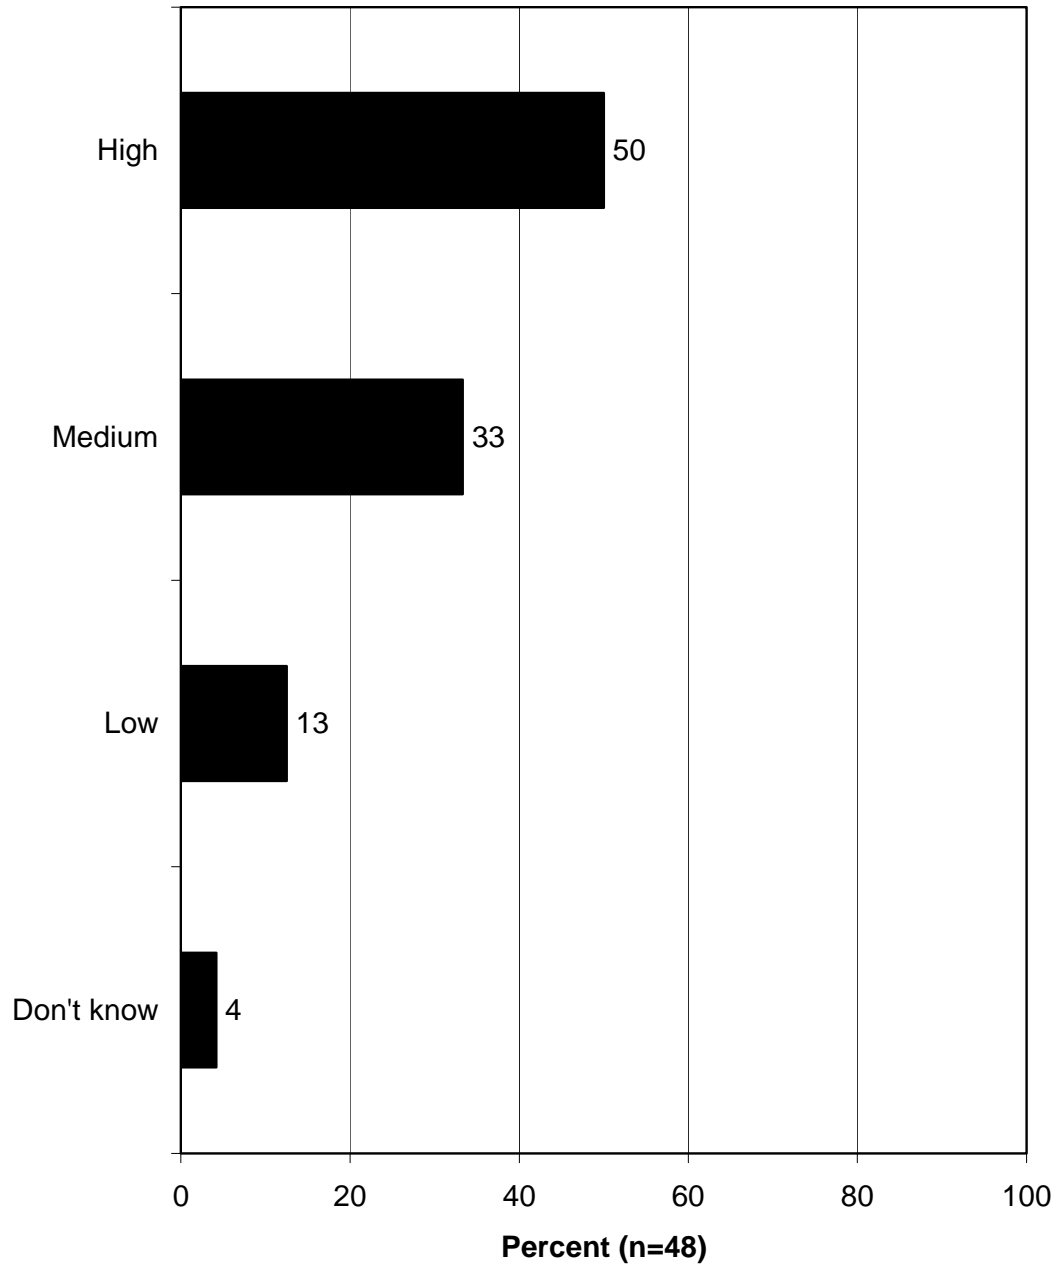

Q267. Do you think there is a high, medium, or low need for land trusts to receive coastal resource education/outreach in New Jersey?

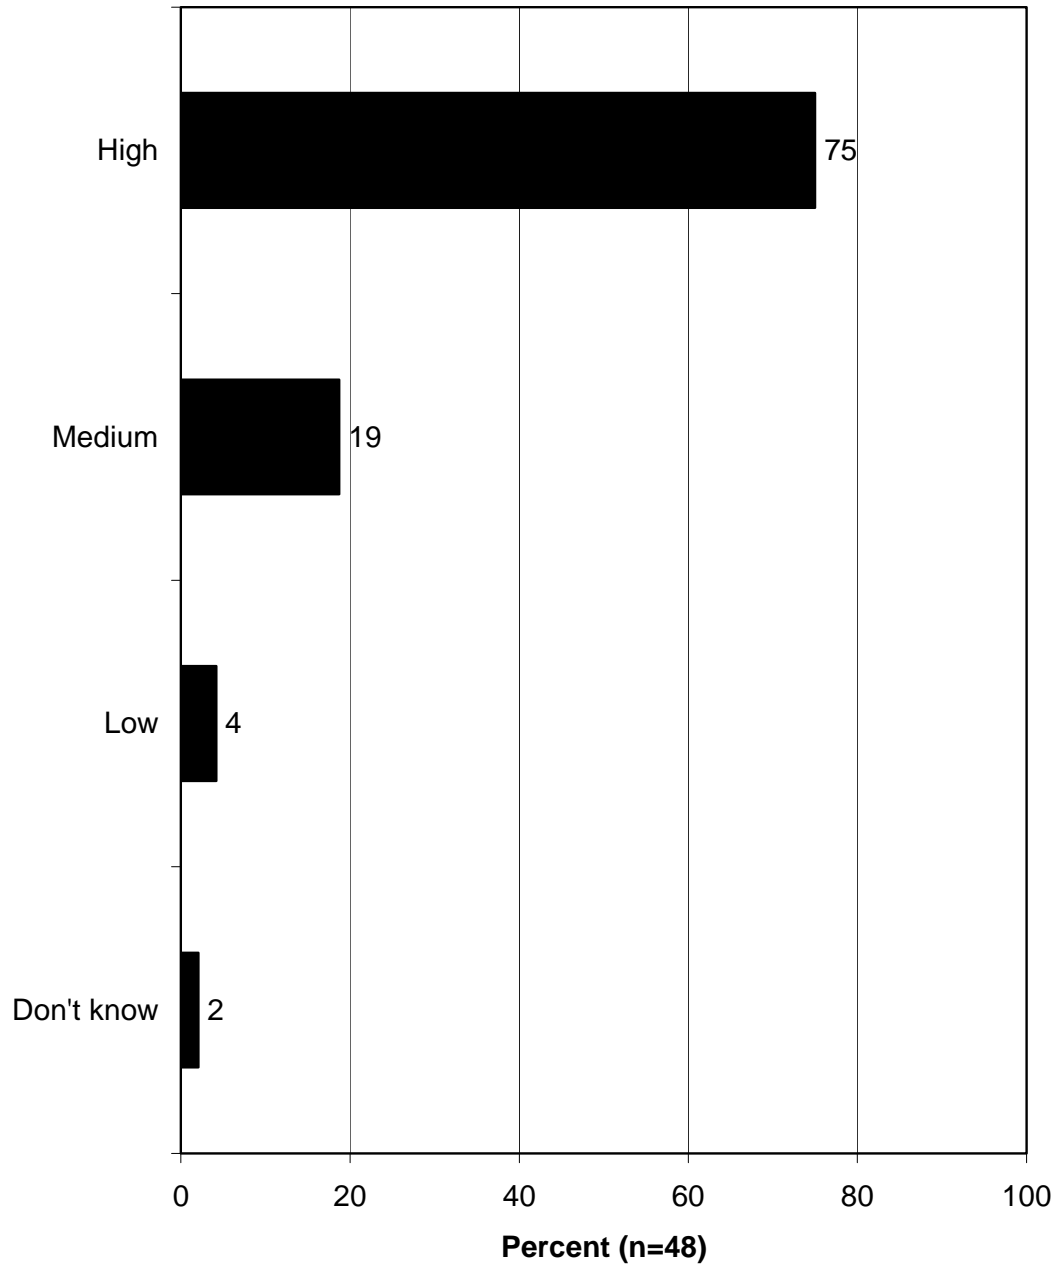

Q268. Do you think there is a high, medium, or low need for chapters of environmental organizations to receive coastal resource education/outreach in New Jersey?

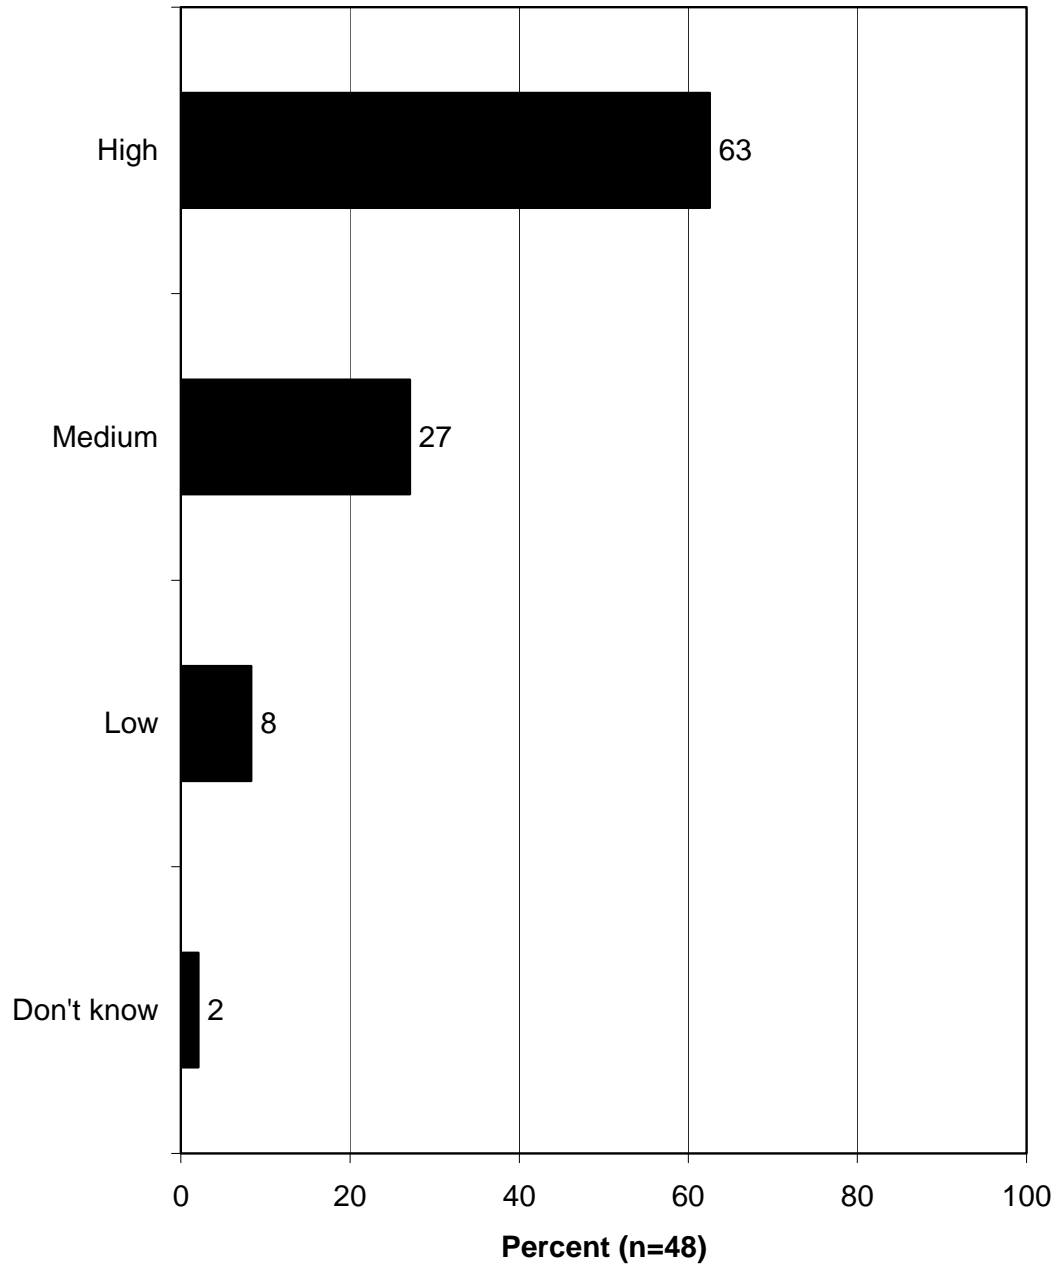

Q269. Do you think there is a high, medium, or low need for watershed associations to receive coastal resource education/outreach in New Jersey?

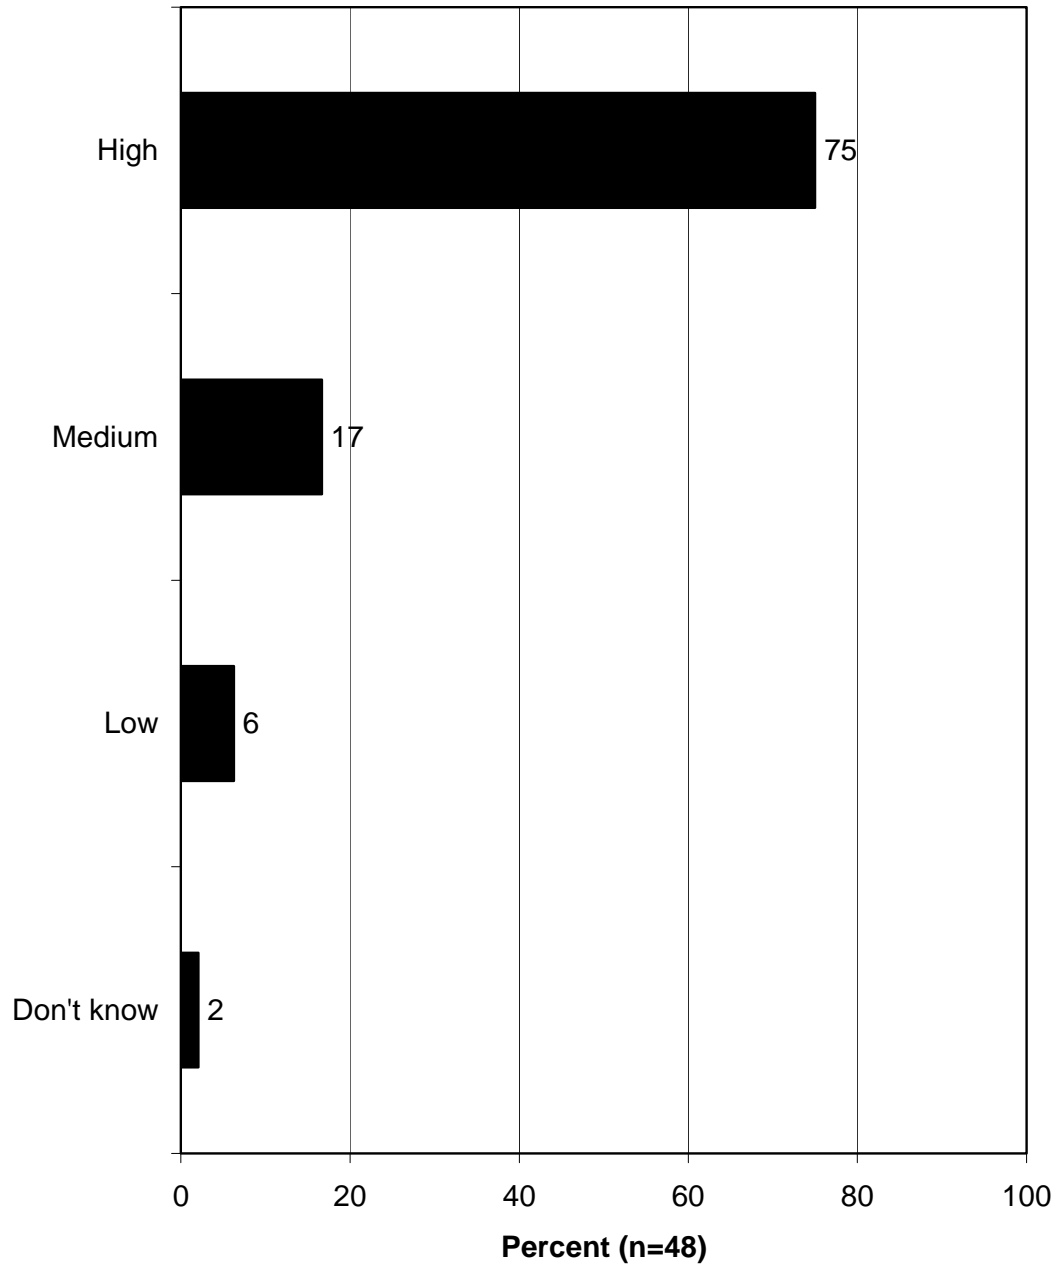

Q270. Do you think there is a high, medium, or low need for property owners associations to receive coastal resource education/outreach in New Jersey?

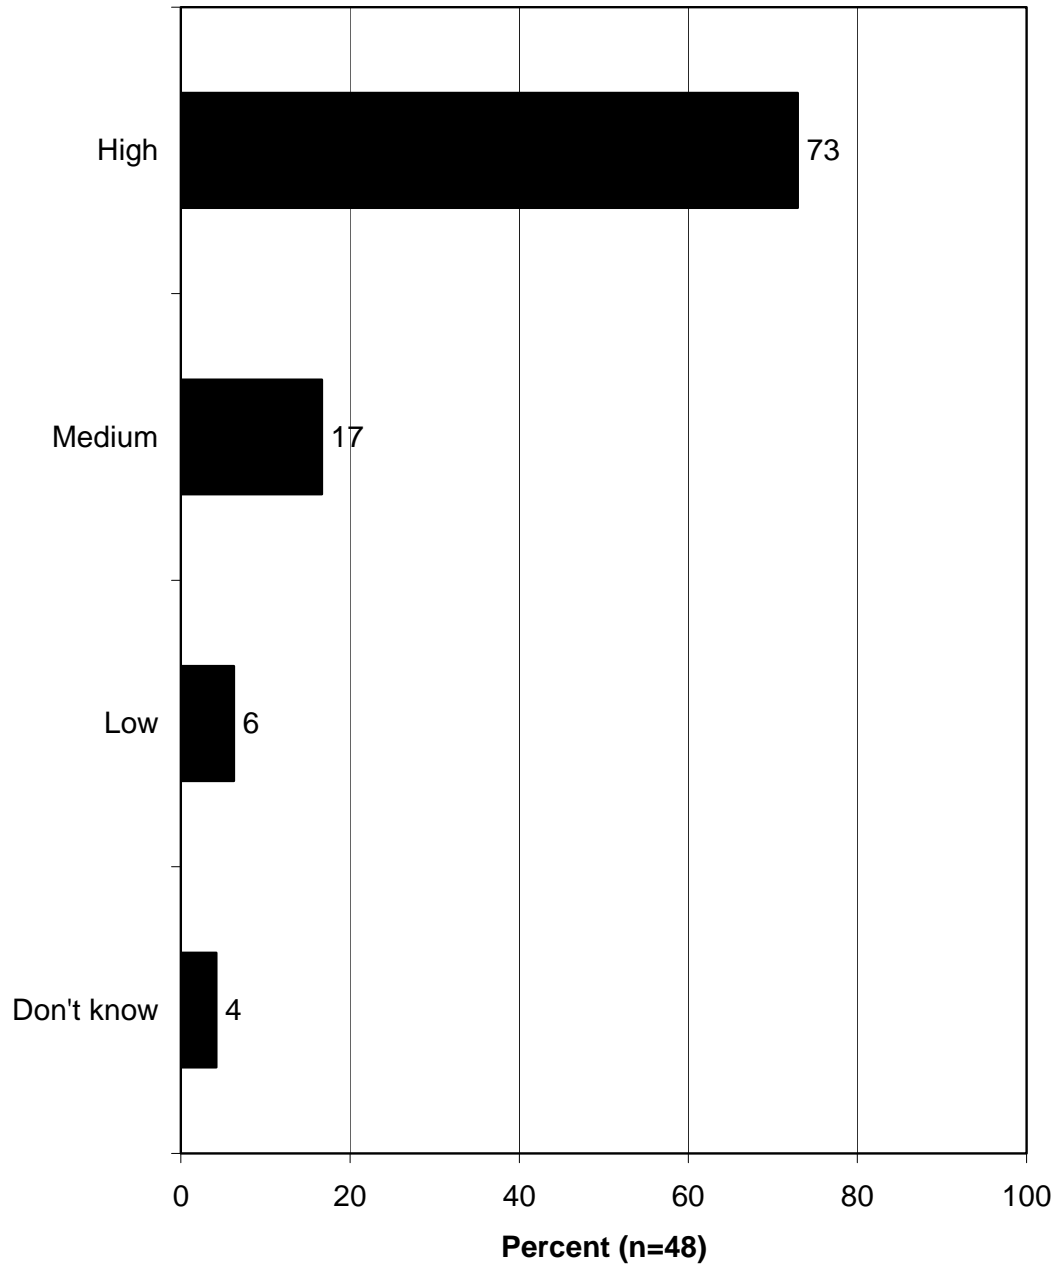

Q271. Do you think there is a high, medium, or low need for realty associations to receive coastal resource education/outreach in New Jersey?

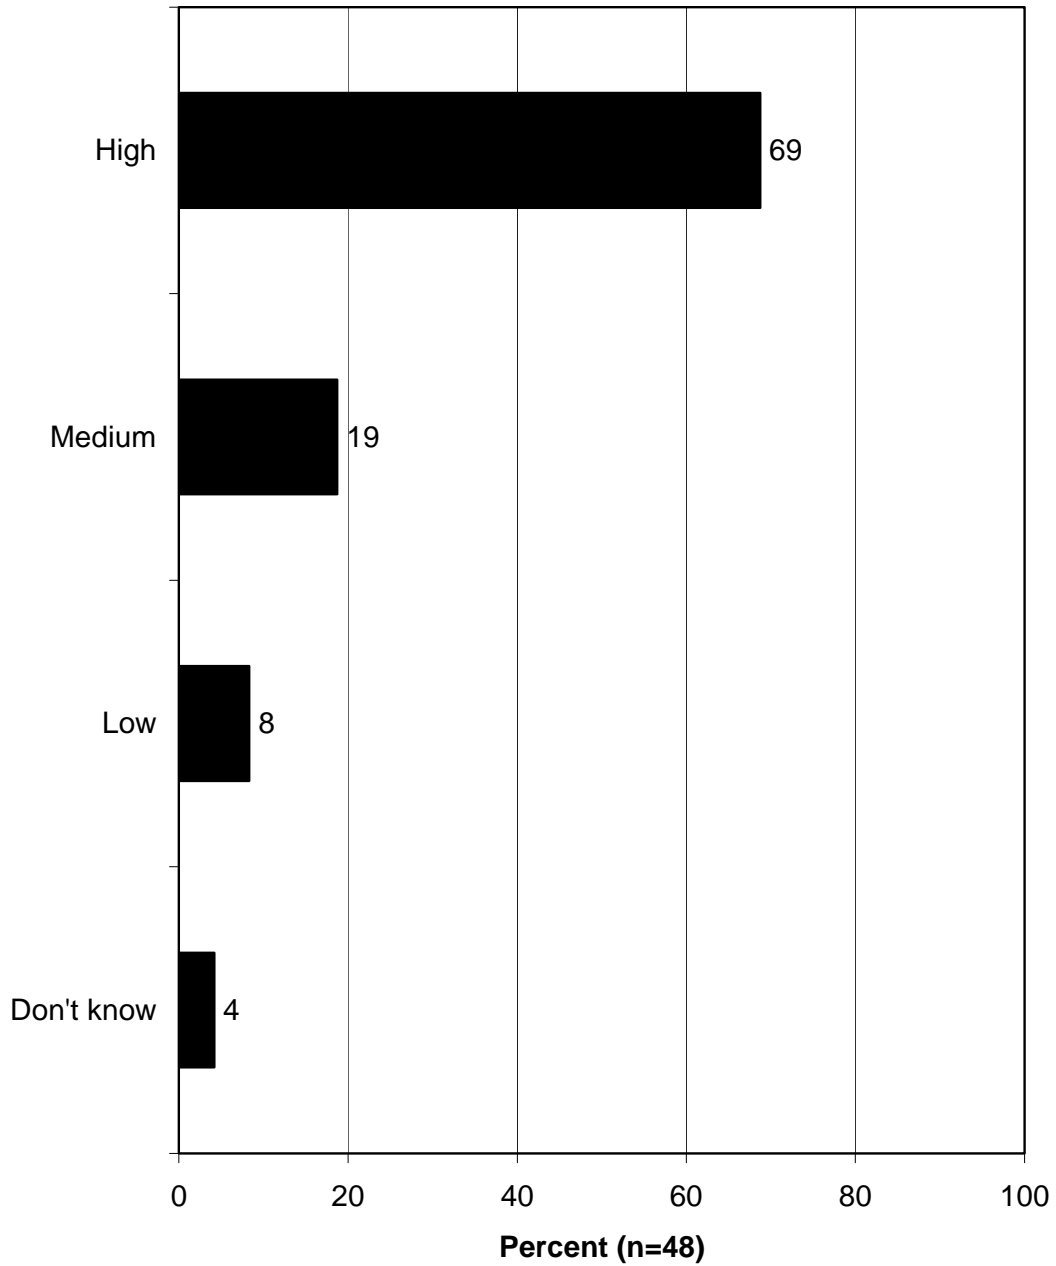

Q272. Do you think there is a high, medium, or low need for building/development associations to receive coastal resource education/outreach in New Jersey?

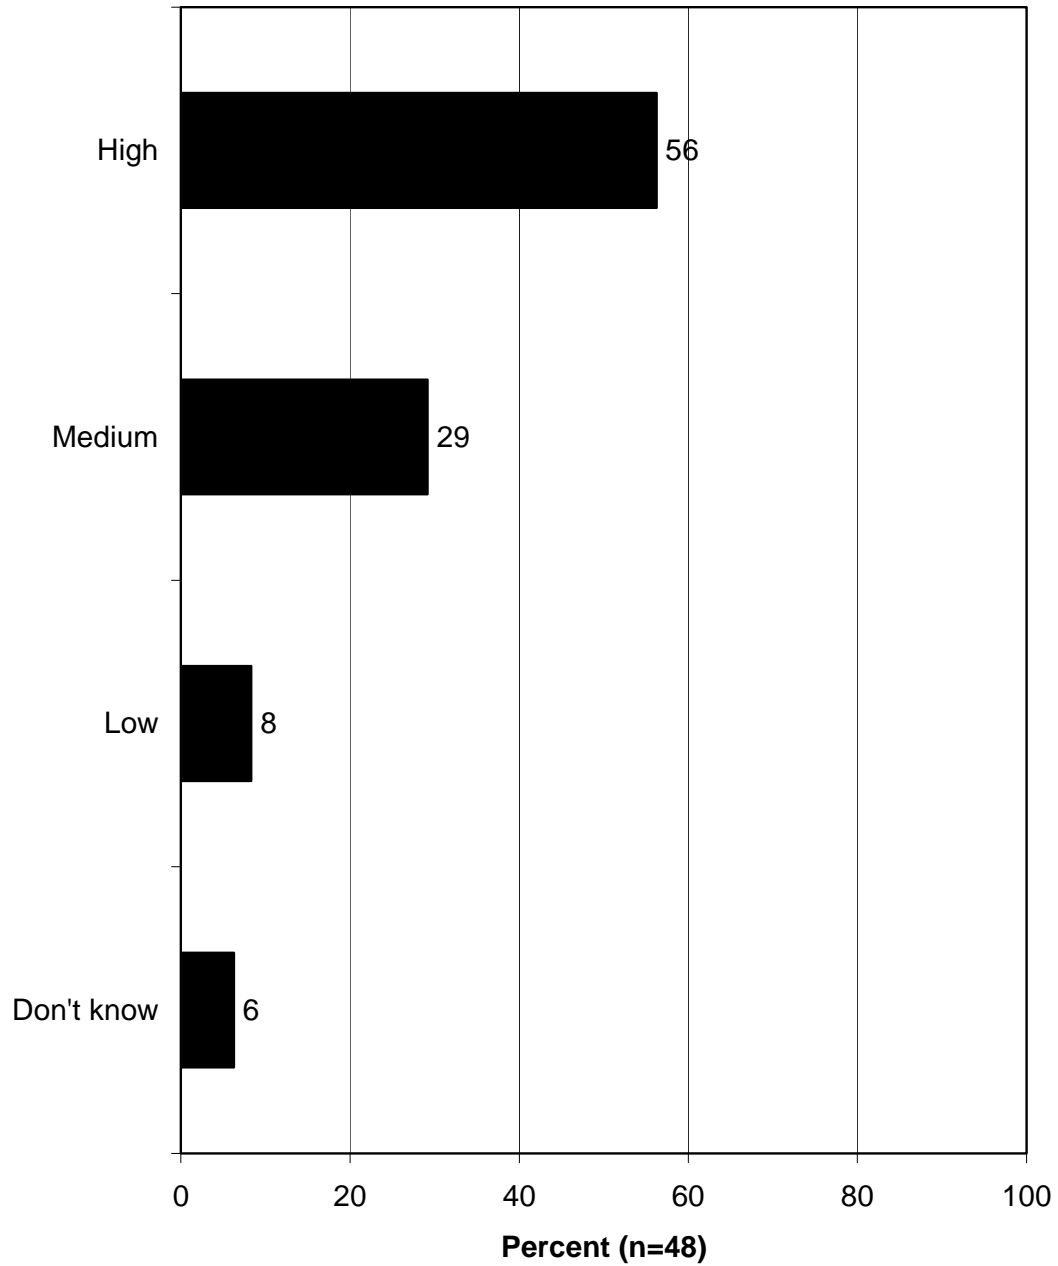

Q273. Do you think there is a high, medium, or low need for commercial property owners associations to receive coastal resource education/outreach in New Jersey?

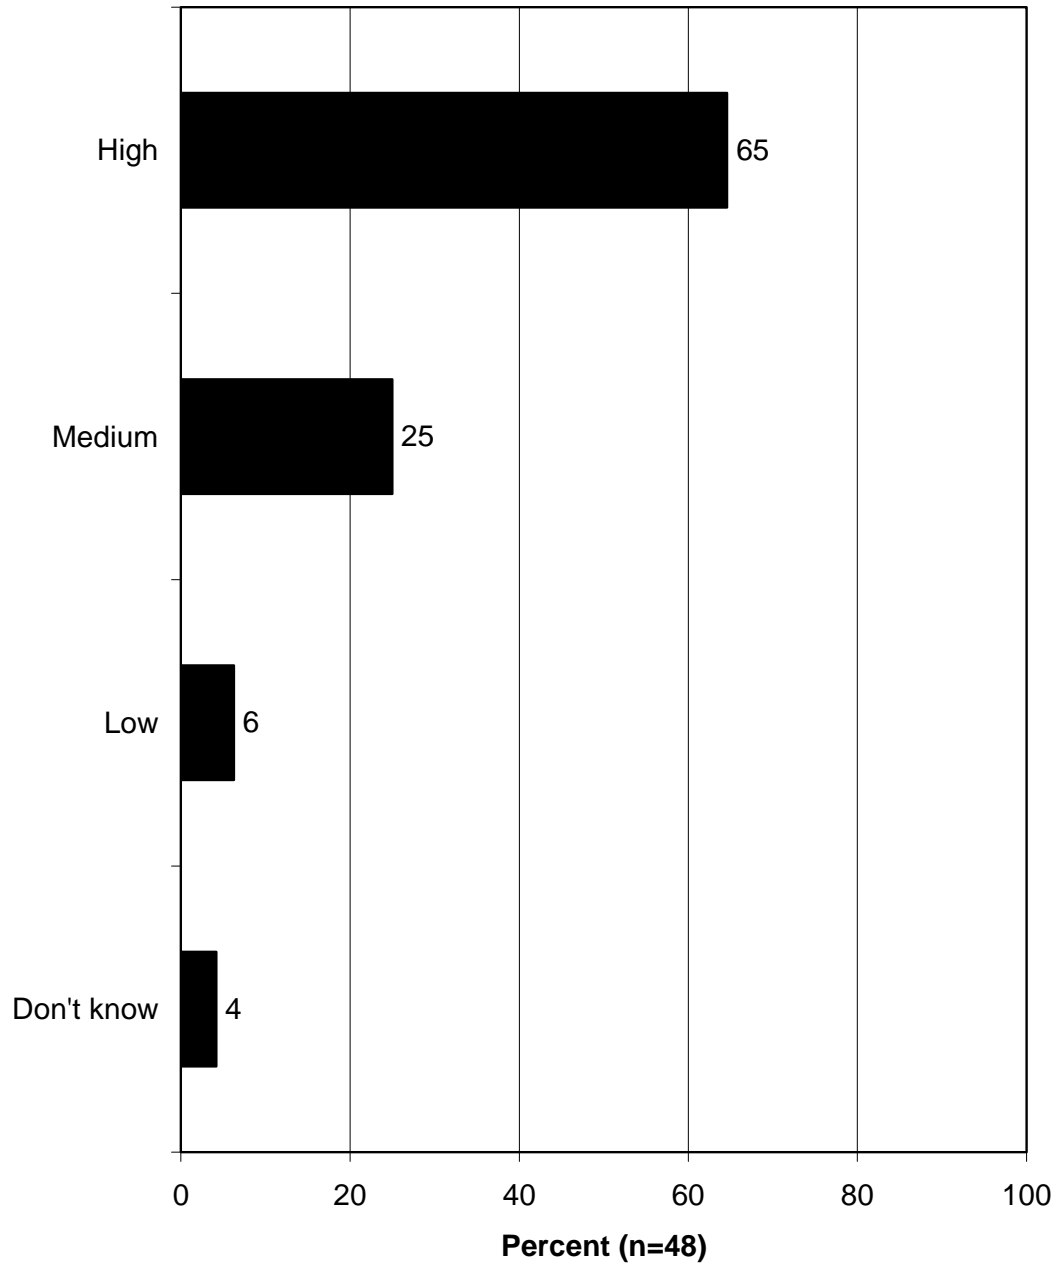

Q274. Do you think there is a high, medium, or low need for chambers of commerce to receive coastal resource education/outreach in New Jersey?

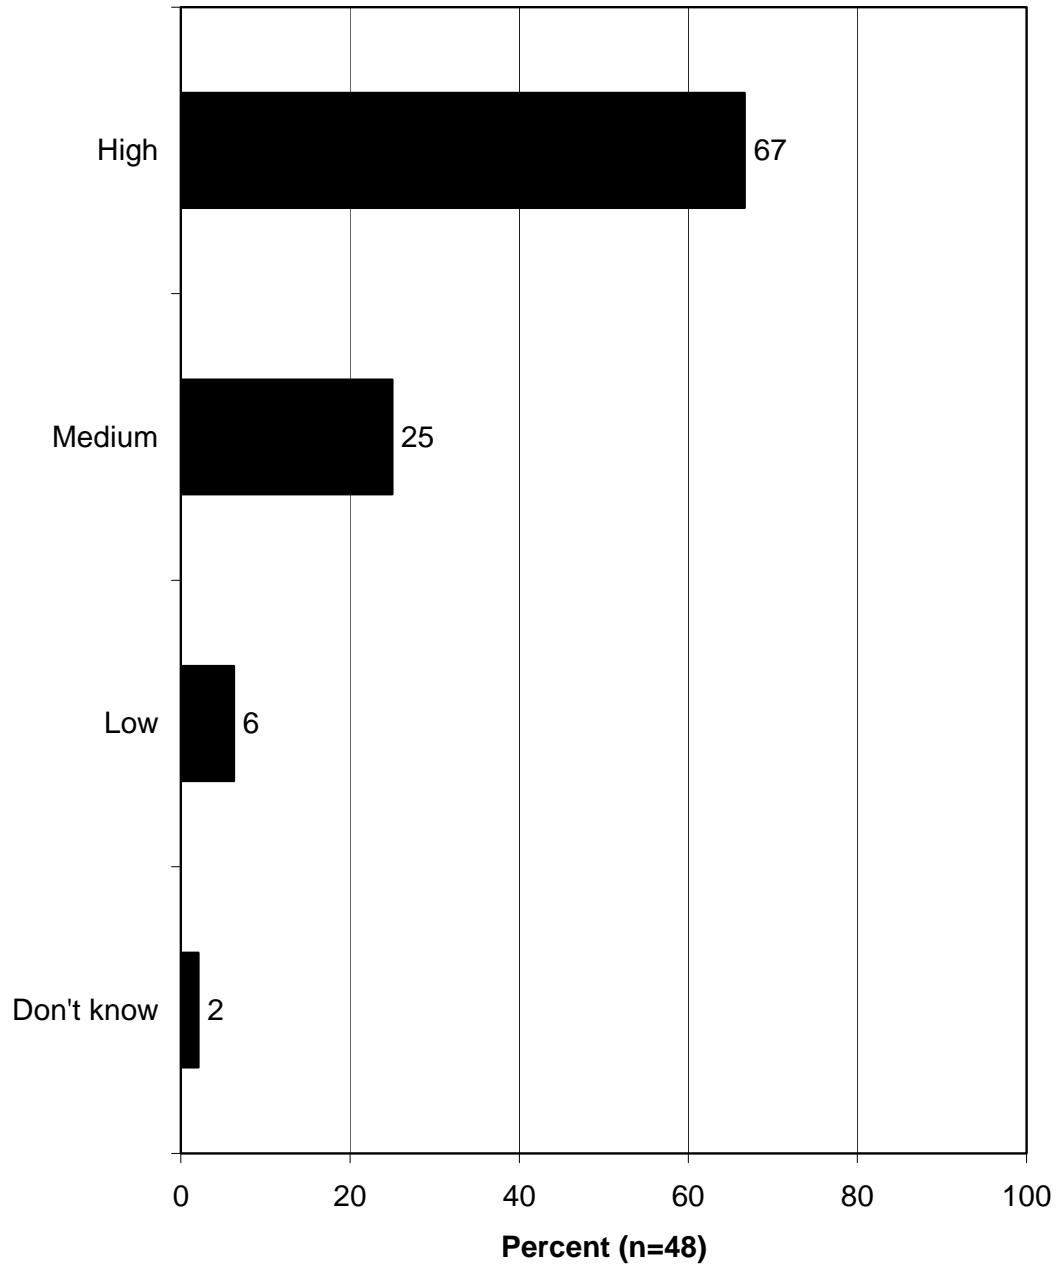

Q275. Do you think there is a high, medium, or low need for Rotary International to receive coastal resource education/outreach in New Jersey?

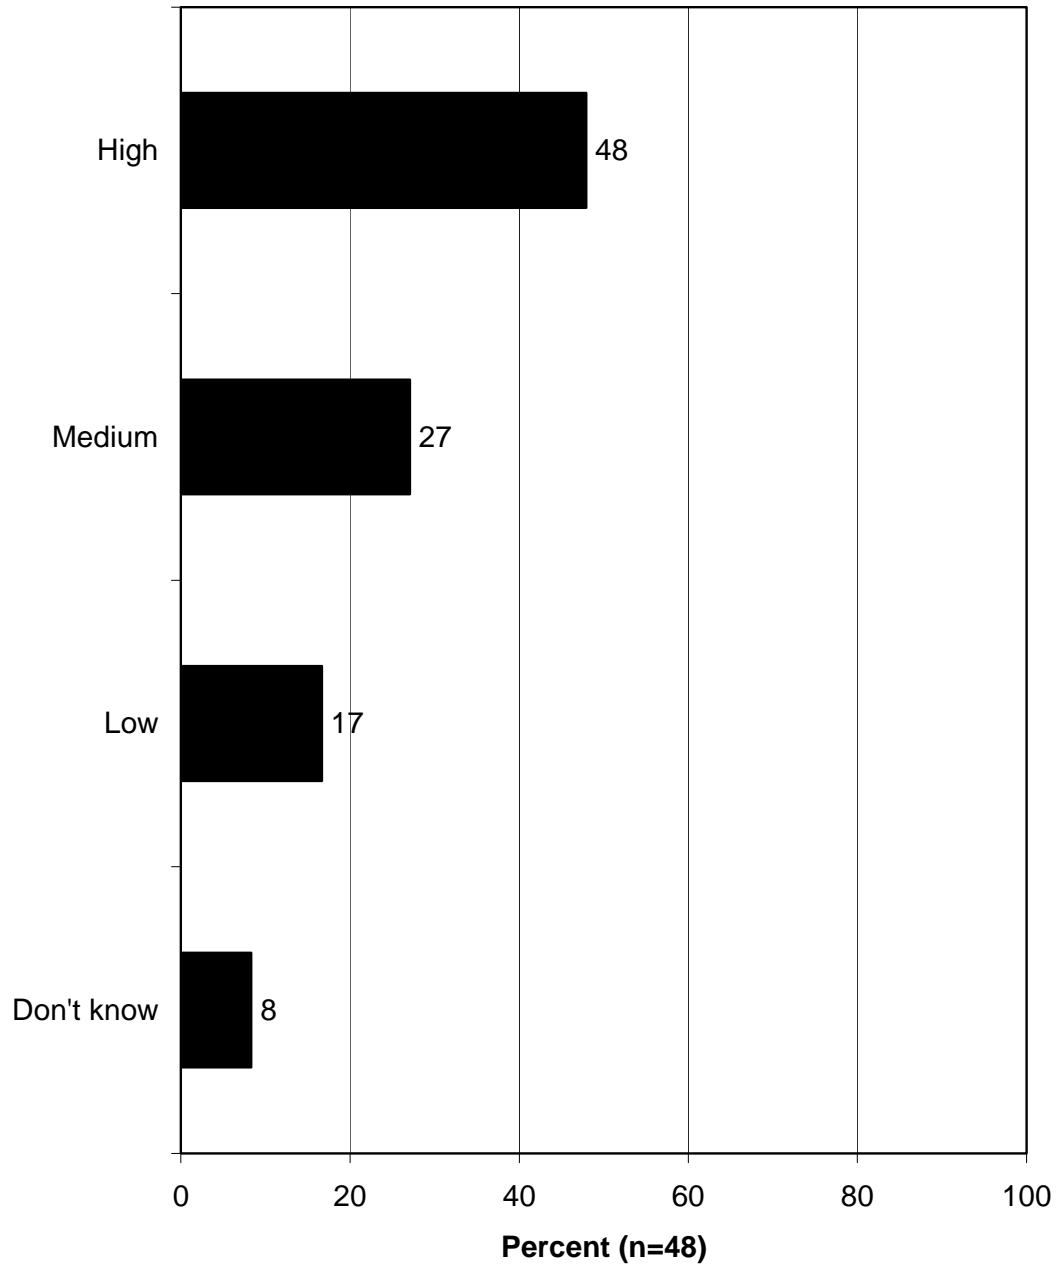

Q276. Do you think there is a high, medium, or low need for tourist boards to receive coastal resource education/outreach in New Jersey?

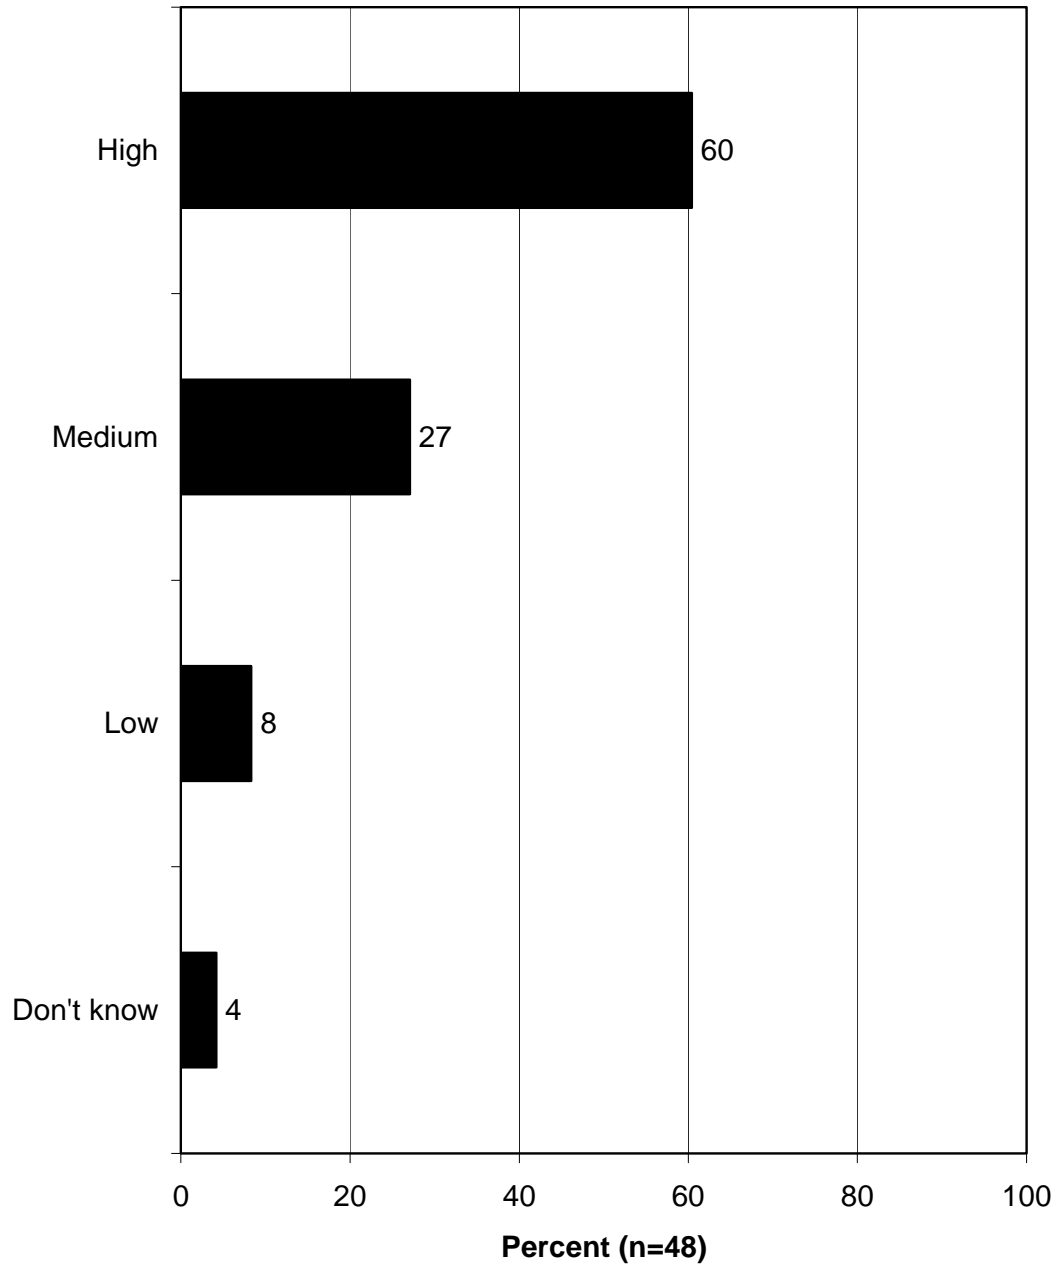

Q277. Do you think there is a high, medium, or low need for environmental consultants to receive coastal resource education/outreach in New Jersey?

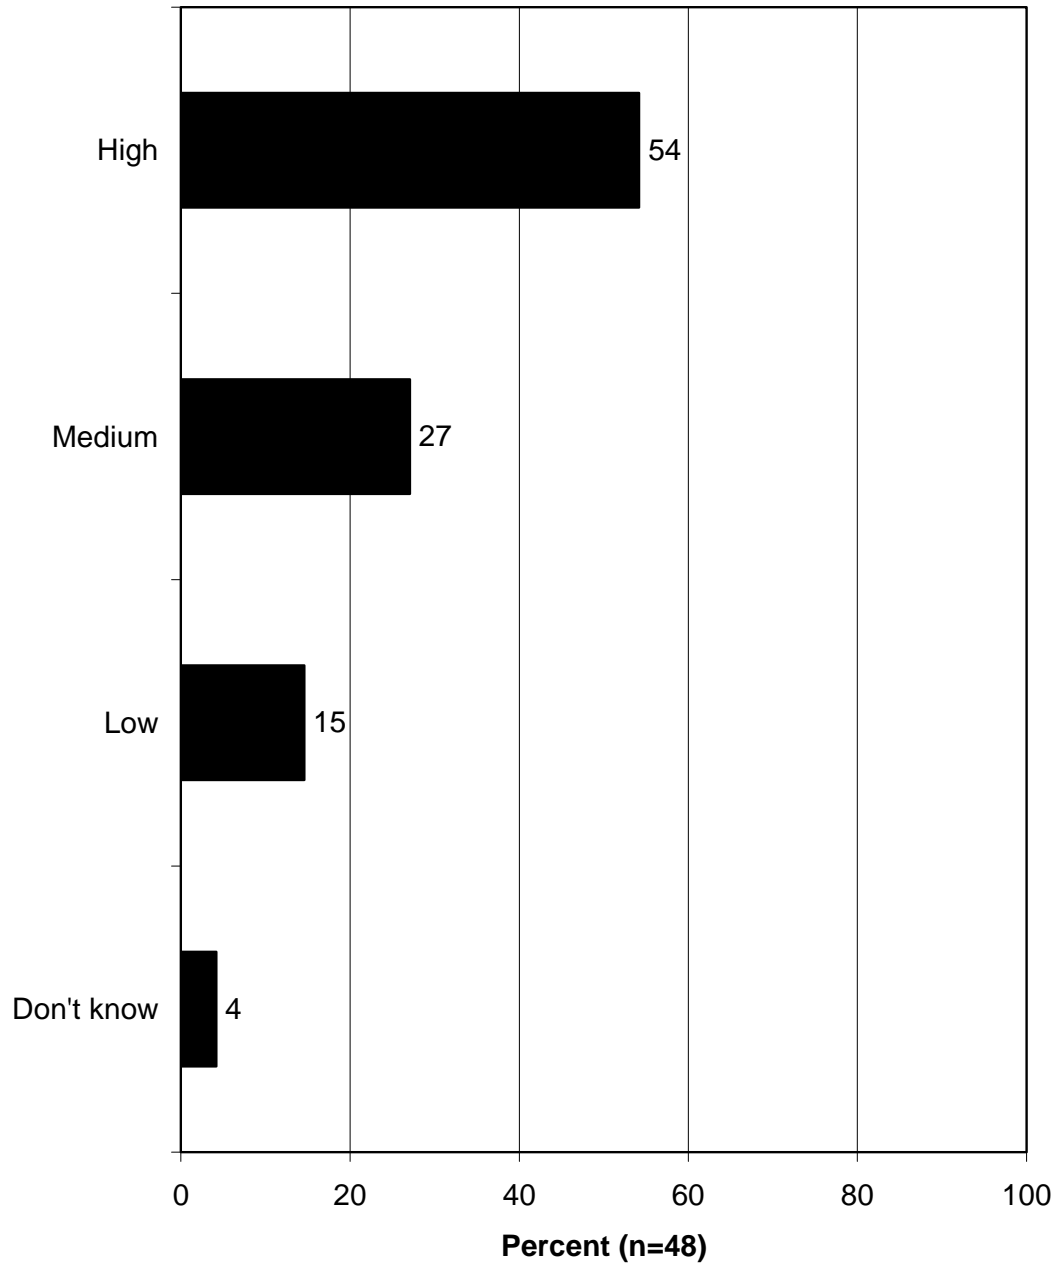

Q278. Do you think there is a high, medium, or low need for wetland scientists to receive coastal resource education/outreach in New Jersey?

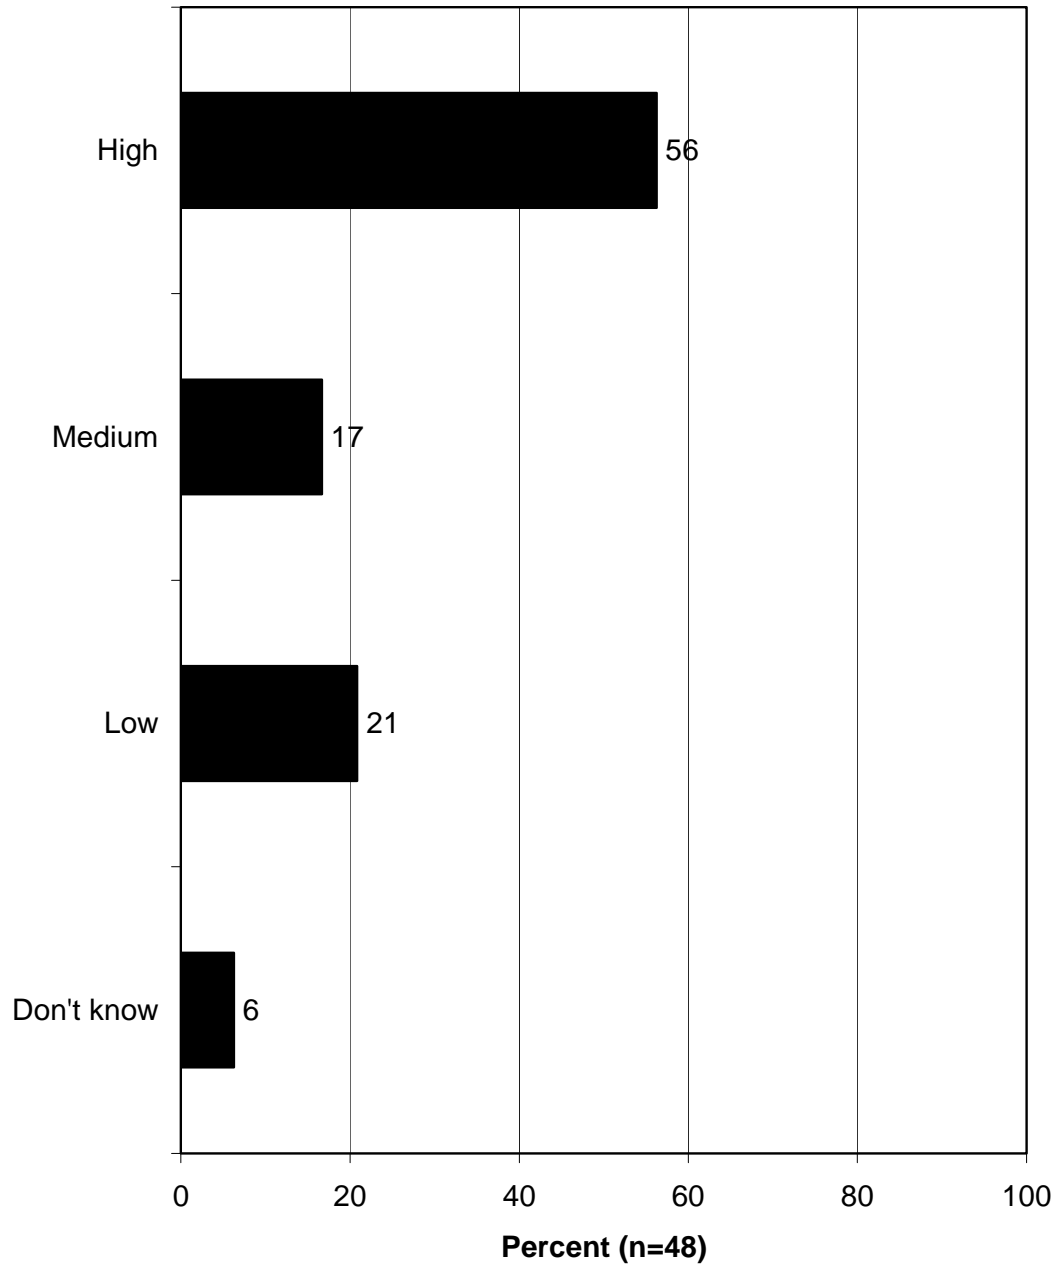

Q279. Do you think there is a high, medium, or low need for environmental educators to receive coastal resource education/outreach in New Jersey?

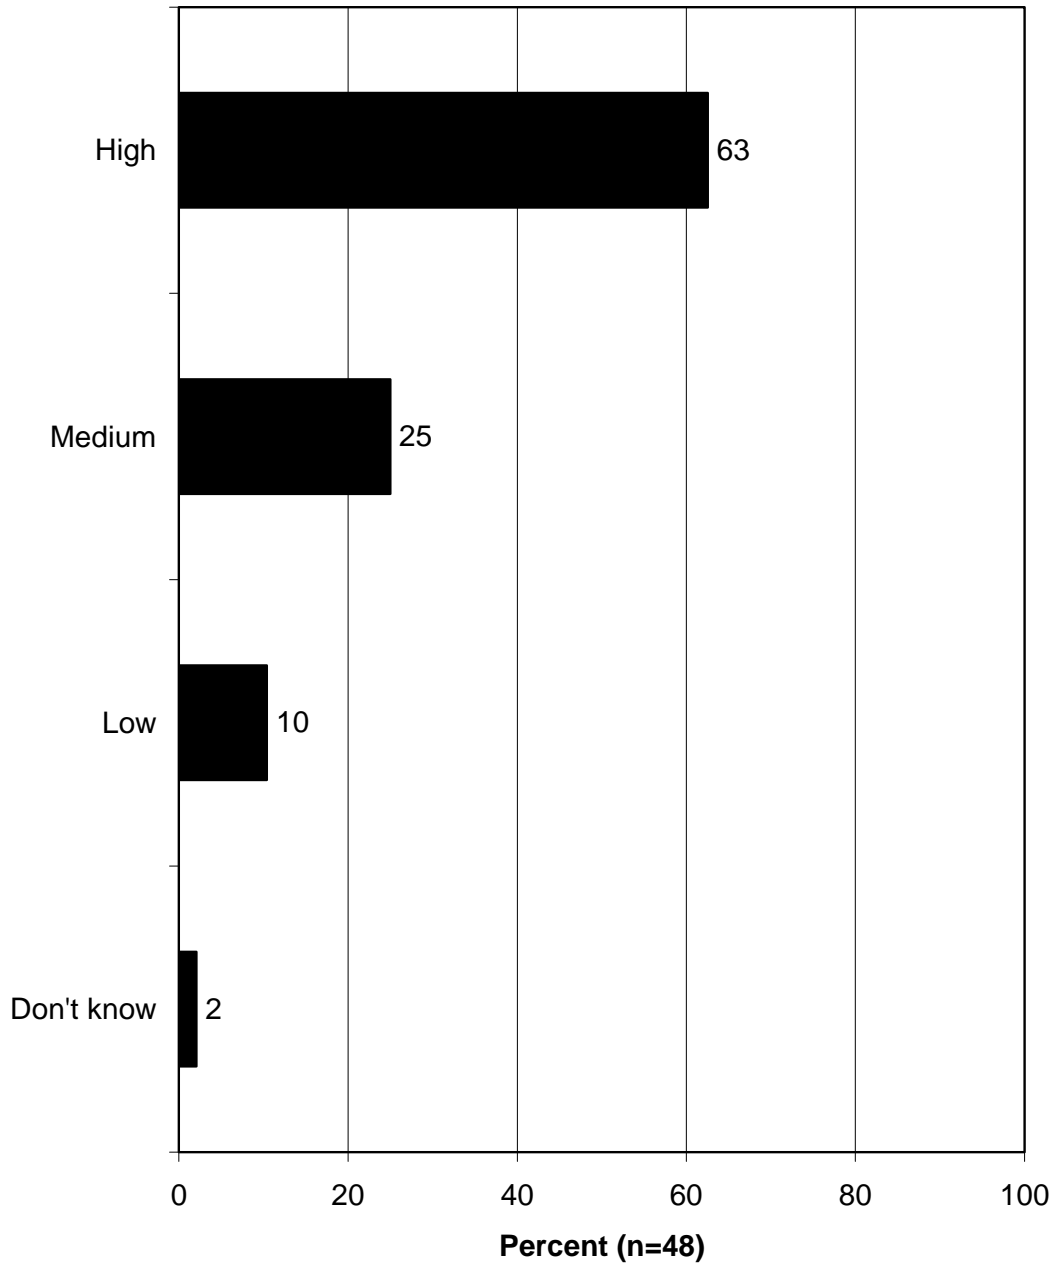

Q280. Do you think there is a high, medium, or low need for universities to receive coastal resource education/outreach in New Jersey?

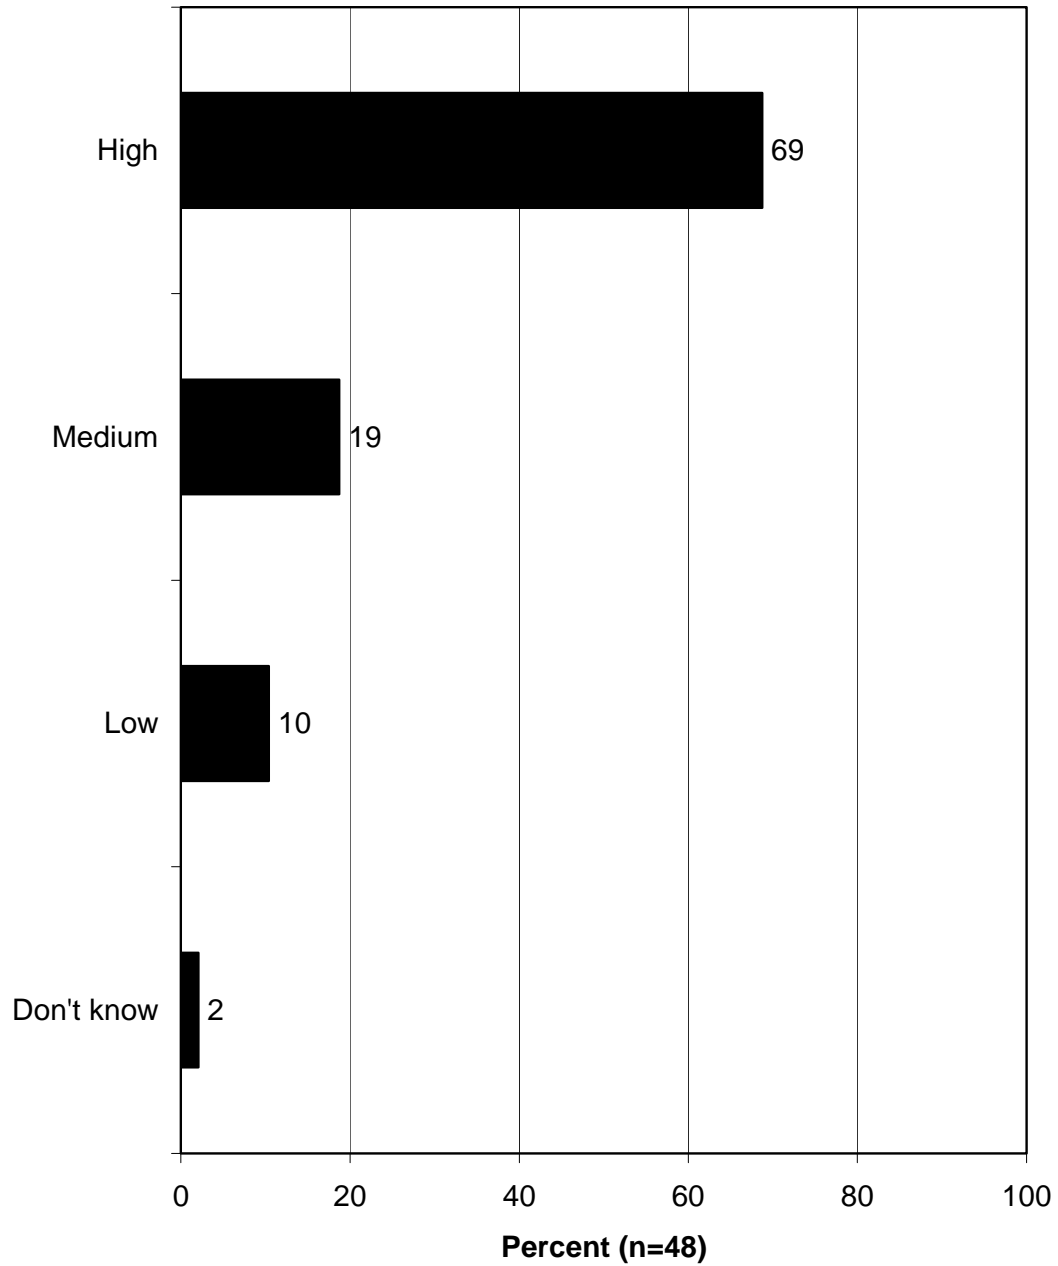

Q281. Do you think there is a high, medium, or low need for estuarine researchers to receive coastal resource education/outreach in New Jersey?

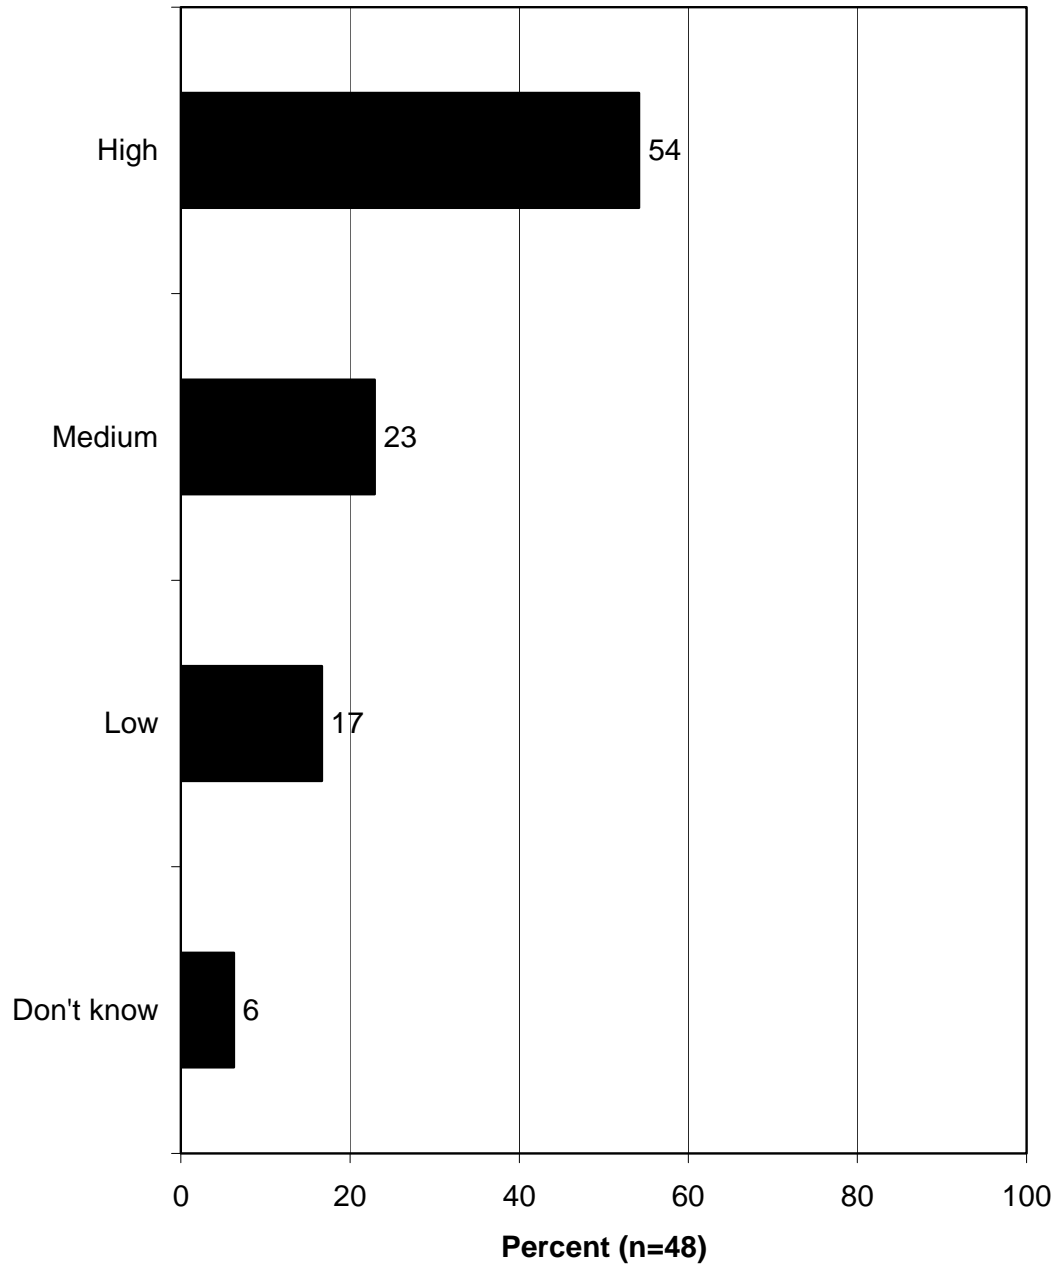

Q282. Do you think there is a high, medium, or low need for coastal regulators to receive coastal resource education/outreach in New Jersey?

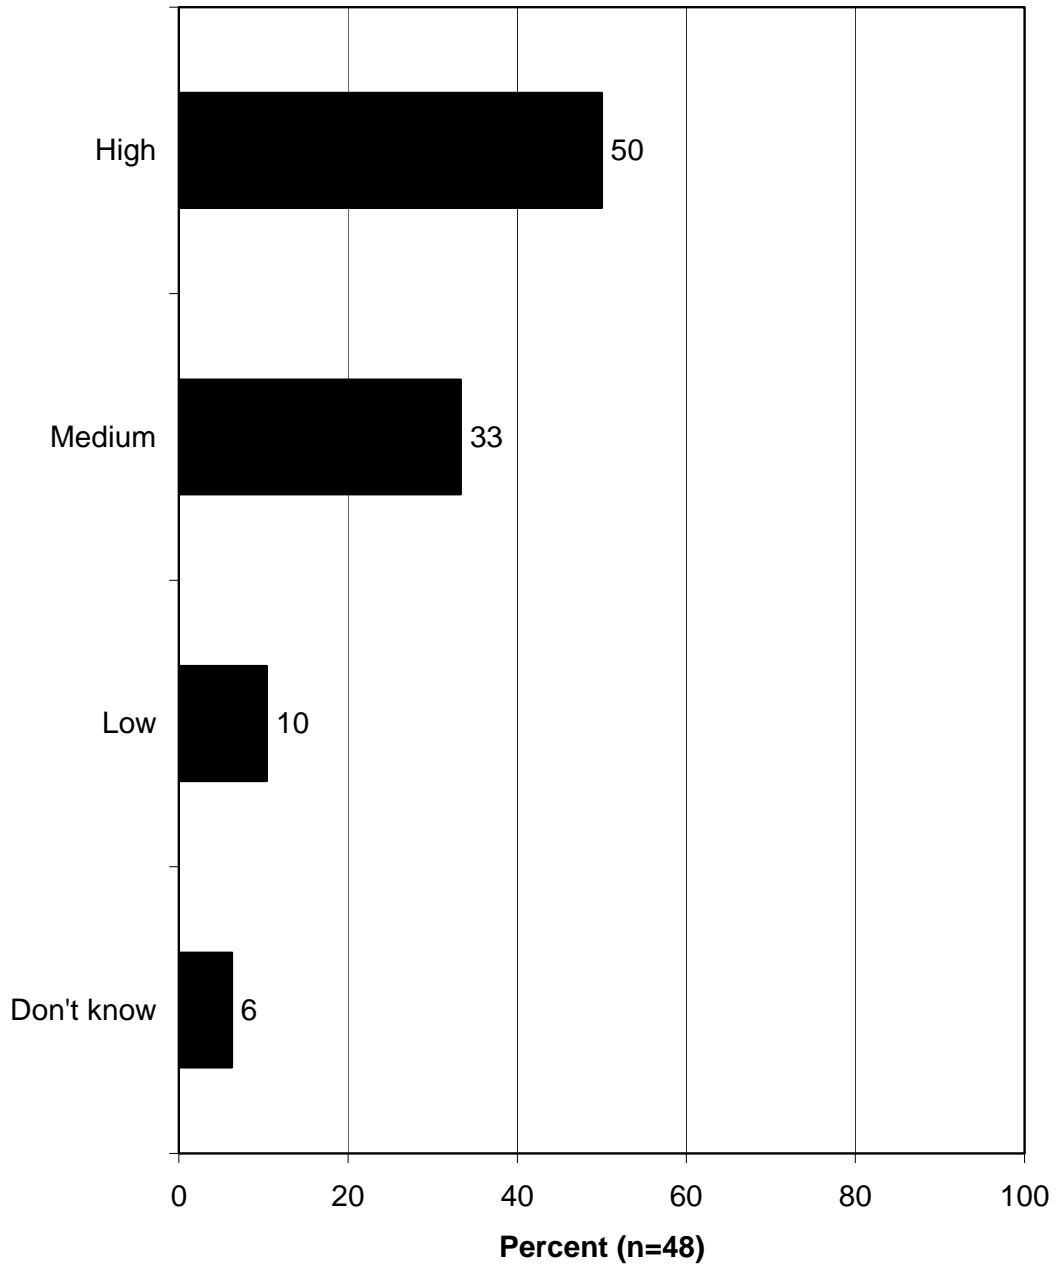

Q283. Do you think there is a high, medium, or low need for coastal planners to receive coastal resource education/outreach in New Jersey?

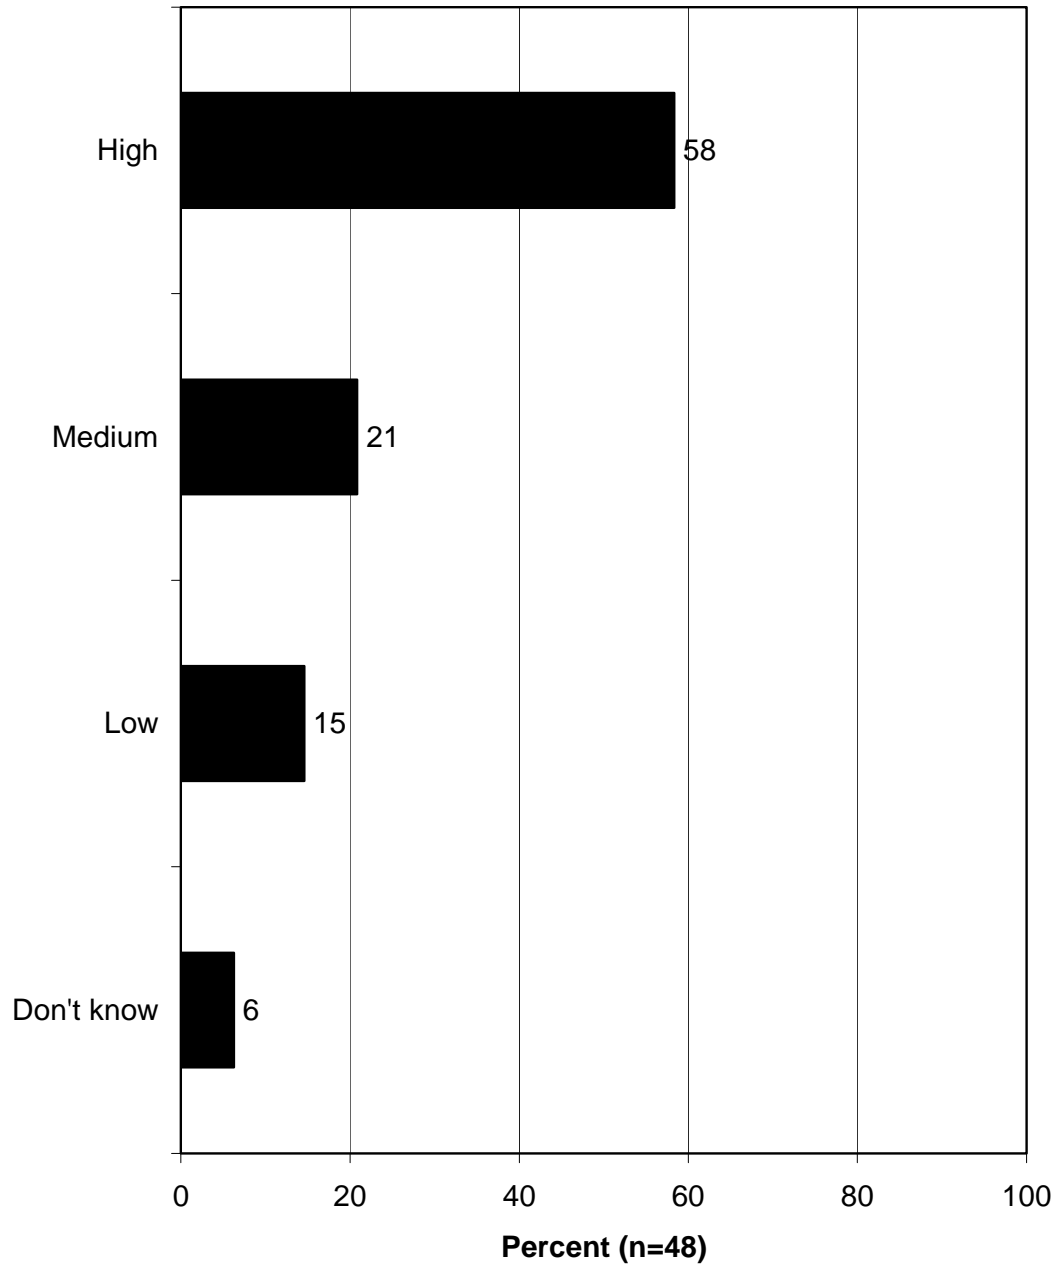

Q284. Do you think there is a high, medium, or low need for marine resource agency personnel to receive coastal resource education/outreach in New Jersey?

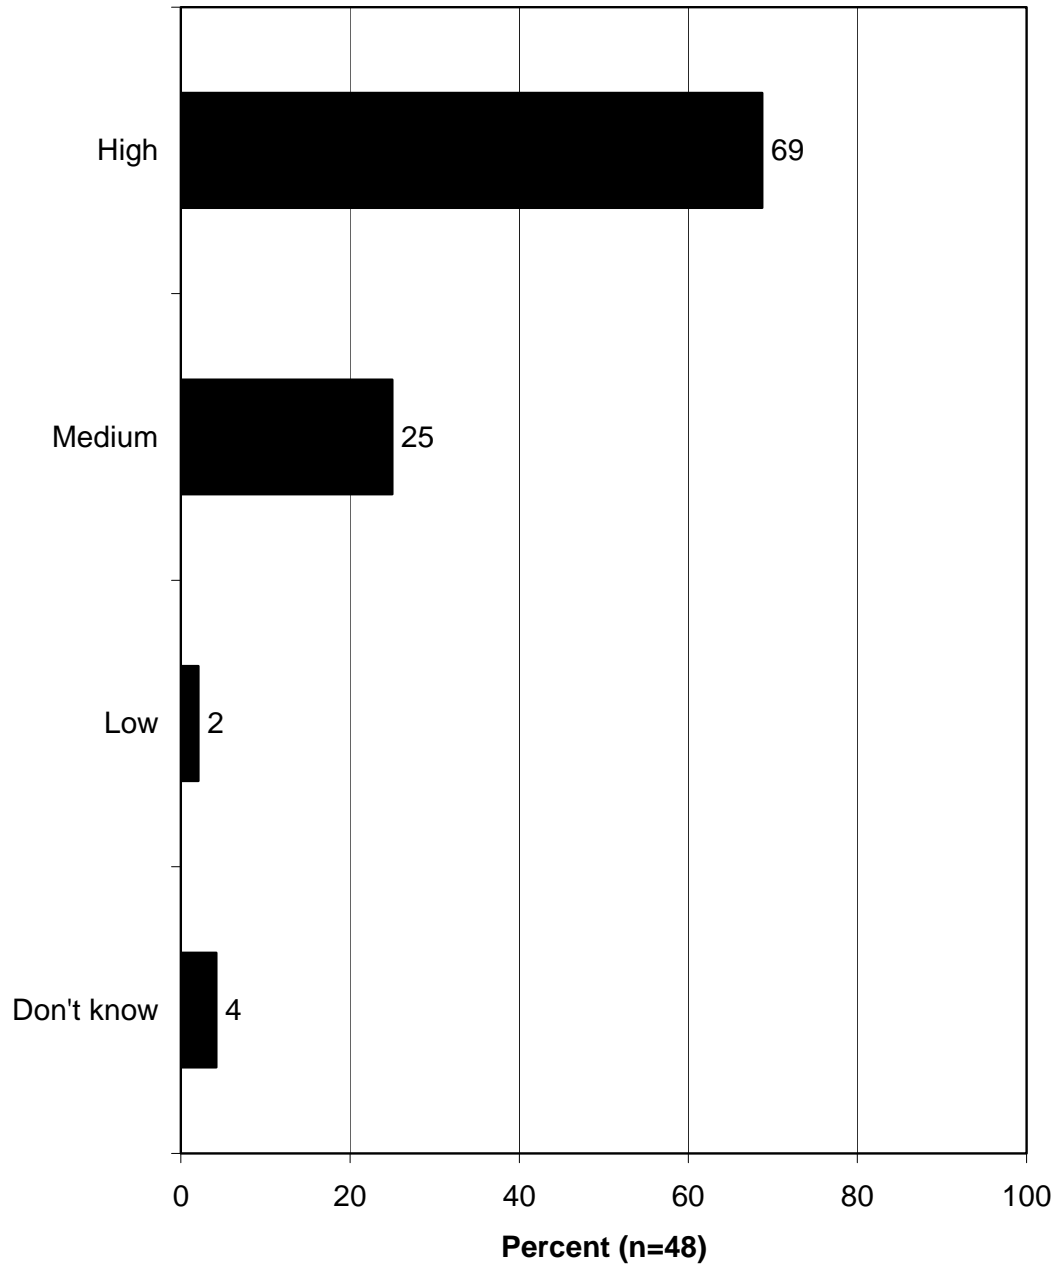

Q285. Do you think there is a high, medium, or low need for inland fisheries & wildlife personnel to receive coastal resource education/outreach in New Jersey?

Q286. Do you think there is a high, medium, or low need for environmental protection agency personnel to receive coastal resource education/outreach in New Jersey?

Q287. Do you think there is a high, medium, or low need for K-12 educators to receive coastal resource education/outreach in New Jersey?

Q288. Do you think there is a high, medium, or low need for the general population to receive coastal resource education/outreach in New Jersey?
